## Management's Review

### **Key activities**

The company's purpose is direct or through subsidiaries to development, build and/or sell all types of renewable energy.

### **Development in the year**

The income statement of the Company for 2025 shows a loss of EUR 3.932 and at 31 December 2025 the balance sheet of the Company shows equity of EUR -6.328.

### **Unusual events**

The financial position at 31 December 2025 of the Company and the results of the activities of the Company for the financial year for 2025 have not been affected by any unusual events.

### **Subsequent events**

After the end of the financial year, no events have occurred that could materially affect the company's financial position.

## Accounting Policies

The annual report has been prepared in accordance with the regulation applying to Reporting class B. There have been options of certain rules in reporting class C.

Accounting policies are changed from previous period.

### Change in accounting policies

The company has changed the accounting policies for measuring investments in subsidiaries during the year from the equity method to cost price.

The change has been applied retrospectively. Comparative figures for 2024 have therefore been adjusted to reflect the new accounting policy.

As a result, the comparative figures and the equity at the beginning of 2025 are affected as follows:

Investment in subsidiaries: EUR 5.103

Provisions for investments in group enterprises: EUR 302.675

Result for 2024: EUR 311.100

Equity at the beginning of 2025: EUR 307.778

### Recognition and measurement

Revenues are recognized in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortized cost are recognized. Moreover, all expenses incurred to achieve the earnings for the year are recognized in the income statement, including depreciation, amortization, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognized in the income statement.

Assets are recognized in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognized in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Recognition and measurement take into account predictable losses and risks occurring before the presentation of the Annual Report which confirm or invalidate affairs and conditions existing at the balance sheet date.

### Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognized in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognized directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognized in financial income and expenses in the income statement.

### Income Statement

#### Revenue

Revenue is measured at the consideration received and is recognized exclusive of VAT.

**Other external expenses**

Other external expenses comprise legal, audit and bank fees, etc.

**Financial income and expenses**

Financial income and expenses are recognized in the income statement at the amounts relating to the financial year.

**Tax on profit/loss for the year**

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognized in the income statement, whereas the tax attributable to equity transactions is recognized directly in equity.

The Company is part of a joint taxation with all Danish Group Companies. The tax effect of the joint taxation is allocated to enterprises in proportion to their taxable incomes.

**Balance Sheet****Fixed asset investments**

Investment in subsidiaries are measured at cost, which comprises consideration transferred measured at fair value and any directly attributable transaction costs. Where the recoverable amount is lower than the cost, the investment is written down to this lower value.

**Receivables**

Receivables are measured in the balance sheet at the lower of amortized cost and net realizable value, which corresponds to nominal value less provisions for bad debts.

**Deferred tax assets and liabilities**

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets are measured at the value at which the asset is expected to be realized, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallize as current tax. Any changes in deferred tax due to changes to tax rates are recognized in the income statement or in equity if the deferred tax relates to items recognized in equity.

**Financial debts**

Other debts are measured at amortized cost, substantially corresponding to nominal value.
