Notes:

- To ensure the greatest possible applicability of this document, IAS/IFRS English terminology has been used.
- Please note that decimal points have not been used in the usual English way. This means that for instance DKK 146.940 means the amount of DKK 146,940, and that 23,5 % means 23.5 %.

Management's statement

Today, the Board of Directors and the Managing Director have approved the annual report of Cremo Ingredients A/S for the financial year 1 January - 31 December 2024.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

We consider the chosen accounting policy to be appropriate, and in our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2024 and of the results of the Company's operations for the financial year 1 January – 31 December 2024.

Further, in our opinion, the Management's review gives a true and fair review of the matters discussed.

We recommend that the annual report be approved at the Annual General Meeting.

Independent Auditor's Report

To the Shareholders of Cremo Ingredients A/S

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2024, and of the results of the Company's operations for the financial year 1 January - 31 December 2024 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Cremo Ingredients A/S for the financial year 1 January - 31 December 2024, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("financial statements").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditor's Report

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

Independent Auditor's Report

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Calculations of key figures and ratios do, in all material respects, follow the recommendations of the Danish Association of Finance Analysts.

The key figures and ratios shown in the statement of financial highlights have been calculated as follows:

Gross margin ratio	$\frac{\text{Gross profit} \times 100}{\text{Revenue}}$
Profit margin (EBIT margin)	$\frac{\text{Operating profit or loss (EBIT)} \times 100}{\text{Revenue}}$
Equity share	$\frac{\text{Equity, closing balance} \times 100}{\text{Total assets, closing balance}}$
Return on equity	$\frac{\text{Net profit or loss for the year} \times 100}{\text{Average equity}}$

Management's review

The principal activities of the company

The Company's activity is production and sale of processed cheese products for the food industry.

Development in activities and financial matters

We continue to engage with key customers on the application of our cheese powder in sectors such as bakery, snacks and dairy which may lead to increased volumes and or new business in due course.

2024 was a satisfactory year. We experienced lower prices on utilities which, combined with stable volume demand and positive impact of activities in relation to acquisition of Chr. Hansen lactase enzyme business in 2024 by Kerry Group, resulted in increased performance and profitability.

Net profit for the year is DKK 13 million, which is an increase of DKK 13 million versus the previous year, as against an expected result of DKK 8 million to DKK 10 million.

The favorable 2024 results when compared to the prior year and previously expected result should consider the impact of tax case settlement with The Danish Tax Authorities in 2023 and activities in relation to acquisition of Chr. Hansen lactase enzyme business in 2024 by Kerry Group.

The result is considered satisfactory.

Special risks

Operating risks

The company's earnings are dependent on the development of commodity prices for purchased products (Raw materials/Cheese) and selling prices for finished products.

Environmental issues

Crema Ingredients A/S is covered by the parent company's policies on environmental and social responsibility and has the honour of referring to the group annual report for Kerry Group Plc which may be obtained at: https://www.kerry.com/annual-report/assets/pdfs/KerryGroup_AR24_interactive.pdf

Know how resources

The company aims to maintain and develop human resources in accordance with the requirements of the company. We refer to the group annual report for Kerry Group Plc. which may be obtained at: https://www.kerry.com/annual-report/assets/pdfs/KerryGroup_AR24_interactive.pdf

Research and development activities

Crema Ingredients A/S performs R&D applications activities (i.e., amendments of existing recipes based on new ideas or on specific customers' requirements on direction from Kerry Group Services International Ltd) as a sub-contractor on behalf of Kerry Group Services International Ltd, charging its full loaded R&D costs plus a mark-up for providing this service.

The expected development

Crema Ingredients A/S expects net profit for 2025 to be in the range of DKK 8 million to DKK 10 million.

Management's review

Events occurring after the end of the financial year

No events have occurred subsequent to the balance sheet date, which would have material impact on the financial position of the company.

Statement of corporate social responsibility cf. article 99a in Danish Financial Statement Act

Regarding the Company's statement of corporate social responsibility, we refer to the group annual report for Kerry Group Plc. which may be obtained at:

https://www.kerry.com/annual-report/assets/pdfs/KerryGroup_AR24_interactive.pdf

Statement on data ethics cf. article 99d in Danish Financial Statement Act

The company is covered by The Danish Financial Statement Act 99d regarding disclosure of data ethics. Cremo Ingredients A/S does not use advance technologies such as artificial intelligence or machine learning. The company handles data in the form of customer data, supplier data and employee data. Data is processed in accordance with the GDPR, our personal data policies and our information security policy. With the limited processing of data, it is the company's assessment that there at the current time is no need for a policy on data ethics. The company will continuously assess whether a data ethics policy is required.

Uncertainties as to recognition or measurement

There has been no uncertainty in relation to recognition and measurement of the accounting items.

Accounting policies

The annual report for Cremo Ingredients A/S has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class C enterprises (large enterprises).

The accounting policies are unchanged from last year, and the annual report is presented in DKK.

Pursuant to section 86 (4) of the Danish Financial Statements Act, no statement of cash flows for the enterprise has been prepared, as the relevant information is included in the consolidated financial statements of Kerry Group plc.

Recognition and measurement in general

Income is recognised in the income statement concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs are recognised in the income statement, including depreciation, amortisations, writedowns for impairment, provisions, and reversals due to changes in estimated amounts previously recognised in the income statement.

Assets are recognised in the statement of financial position when it seems probable that future economic benefits will flow to the company and the value of the asset can be reliably measured.

Liabilities are recognised in the statement of financial position when it seems probable that future economic benefits will flow out of the company and the value of the liability can be reliably measured.

Assets and liabilities are measured at cost at the initial recognition. Hereafter, assets and liabilities are measured as described below for each individual accounting item.

Upon recognition and measurement, allowances are made for such predictable losses and risks which may arise prior to the presentation of the annual report and concern matters that exist on the reporting date.

Foreign currency translation

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognised in the profit and loss account as an item under net financials. If currency positions are considered to hedge future cash flows, the value adjustments are recognised directly in equity in a fair value reserve.

Fixed assets acquired and paid for in foreign currency are measured at the exchange rate prevailing at the date of the transaction.

Accounting policies

Income statement

Revenue

Revenue is recognised in the income statement if delivery and passing of risk to the buyer have taken place before the end of the year, if the income can be determined reliably and inflow is anticipated. Recognition of revenue is exclusive of VAT and taxes, less any discounts relating directly to sales.

Production costs

Production costs include the manufacturing and procurement costs incurred to achieve the revenue for the year. Direct and indirect manufacturing costs are recognised, including costs for raw materials and consumables, salaries and wages, and depreciation on product plant.

Distribution costs

Distribution costs comprise costs incurred for the distribution of goods sold during the year and for sales campaigns carried out during the year. Also, costs concerning sales staff, advertising and exhibitions costs, and amortisations.

Administration expenses

Administration expenses comprise expenses incurred during the year concerning management and administration, including expenses concerning administrative staff, the executive board, office premises, stationery and office supplies, and depreciations.

Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, financial expenses from financial leasing, realised and unrealised capital gains and losses relating to securities, debt and transactions in foreign currency, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognised in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

Accounting policies

Statement of financial position

Intangible assets

Goodwill

Acquired goodwill is measured at cost with deduction of accumulated amortisation.

Goodwill is depreciated over the estimated useful life, determined based on the management's experience within the individual business areas. The amortisation period is usually 5 years but can be up to 20 years for strategic acquisitions. The company was initially acquired to strengthen the future platform in ingredients business. Based on the company's strategic market position and expectations for the future earnings, depreciation horizon therefore set at 20 years.

Goodwill is impaired to its recoverable value if this is lower than the carrying value.

Tangible fixed assets

Other tangible fixed assets are measured at cost less accrued depreciation and writedown for impairment. Land is not depreciated.

The depreciable amount is cost less any expected residual value after the end of the useful life of the asset. The amortisation period and the residual value are determined at the acquisition date and reassessed annually. If the residual value exceeds the carrying amount, the depreciation is discontinued.

The cost comprises acquisition cost and costs directly associated with the acquisition until such time as the asset is ready for use.

Interest expenses on loans contracted directly for financing the construction of property, plant and equipment are not recognised in cost over the construction period.

Depreciation is done on a straight-line basis according to an assessment of the expected useful life:

	Useful life
Buildings	33 years
Plant and machinery	14 years
Other fixtures and fittings, tools and equipment	5 years

The fixed assets' residual values are determined at nil. Depreciation period and residual value are reassessed annually.

Minor assets with an expected useful life of less than 1 year are recognised as costs in the income statement in the year of acquisition.

Profit or loss derived from the disposal of property, land, and equipment is measured as the difference between the sales price less selling costs and the carrying amount at the date of disposal. Profit or loss is recognised in the income statement as other operating income or other operating expenses.

Accounting policies

As regards self-constructed assets, the cost comprises direct costs for materials, components, deliveries from sub-suppliers, payroll costs, and borrowing costs from specific and general borrowing concerning the construction of each individual asset.

Leases

All leases are regarded as operating leases. Payments in connection with operating leases and other lease agreements are recognised in the income statement for the term of the contract. The company's total liabilities concerning operating leases and lease agreements are recognised under contingencies, etc.

Impairment loss relating to non-current assets

The carrying amount of both intangible and tangible fixed assets are subject to annual impairment to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. Writedown for impairment is done to the recoverable amount if this value is lower than the carrying amount.

The recoverable amount is the higher value of value in use and selling price less expected selling cost. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the asset group and expected net cash flows from the sale of the asset or the asset group after the end of their useful life.

Previously recognised impairment losses are reversed when conditions for impairment no longer exist. Impairment relating to goodwill is not reversed.

Inventories

Inventories are measured at cost on the basis of weighted measured average prices. In cases when the net realisable value is lower than the cost, the latter is written down for impairment to this lower value.

Costs of goods for resale, raw materials, and consumables comprise acquisition costs plus delivery costs.

Costs of manufactured goods and work in progress comprise the cost of raw materials, consumables, direct wages, and indirect production costs. Indirect production costs comprise indirect materials and wages, and other direct production costs.

The net realisable value for inventories is recognised as the market price less costs of completion and selling costs. The net realisable value is determined with due consideration of negotiability, obsolescence, and the development of expected market prices.

Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value.

In order to meet expected losses, impairment takes place at the net realisable value.

Accounting policies

Prepayments

Prepayments recognised under assets comprise incurred costs concerning the following financial year.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand.

Equity

Dividend

Dividend expected to be distributed for the year is recognised as a separate item under equity.

Income tax and deferred tax

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Liabilities other than provisions

Other liabilities concerning payables to suppliers, group enterprises, and other payables are measured at amortised cost which usually corresponds to the nominal value.

Segmental statement

Information on geographical segments is based on the Group's risks and returns and its internal financial reporting system. Geographical segments are regarded as the primary segments.
