## **Management's Statement**

Today, Management has considered and adopted the Annual Report of Grenkeleasing ApS for the financial year 1 January 2024 - 31 December 2024.

The Annual Report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the assets, liabilities and financial position of the Company at 31 December 2024 and of the results of the Company's operations for the financial year 1 January 2024 - 31 December 2024.

The management's review includes in our opinion a fair presentation of the matters dealt with in the review.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Herlev, 28 March 2025

## INDEPENDENT AUDITOR'S REPORT

### To the Shareholders of Grenkeleasing ApS

#### Opinion

We have audited the Financial Statements of Grenkeleasing ApS for the financial year 1 January - 31 December 2024, which comprise an income statement, balance sheet, statement of changes in equity, notes and a summary of significant accounting policies. The Financial Statements are prepared under the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2024 and of the results of the Company operations for the financial year 1 January - 31 December 2024 in accordance with the Danish Financial Statements Act.

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the financial statements in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control that Management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance as to whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the company Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

## **INDEPENDENT AUDITOR'S REPORT**

Company's internal control.

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Statement on the Management's Review**

Management is responsible for the Management's Review.

Our opinion on the Financial Statements does not cover the Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the Management's Review and, in doing so, consider whether the Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's Review.

## **Management's Review**

### **The Company's principal activities**

The Company's activities comprise the establishment and administration of lease agreements.

The Company's leasing business focuses on leasing of IT products, such as PCs, notebooks, servers, monitors and peripheral devices, software, telecommunication and copier equipment, and other IT products. Almost all leases concluded to provide for full cost recovery (full payout leases). This means that the payment made by the lessee during the basis lease period, and the guaranteed residual values exceeds the acquisition price and contract cost.

### **Going concern**

The financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

The Company's total liabilities exceed total assets by DKK 97.888.718. The short term liability includes amounts payable to group enterprises of DKK 493.993.604. In making the assessments, the directors have given regard to the fact that Grenke AG has pledged its financial support to the Company, for its continued operations for a period of not less than one year from the date of issuing these financial statements. Such support would be in the form of intercompany borrowings.

Management believes the Company is a going concern entity as Grenke AG (the ultimate parent of Grenke Finance Plc, the lender) has provided a letter of financial support to meet the Company's future financial commitments. On this basis, Grenkeleasing ApS requires the support of Grenke Finance Plc to continue as a going concern. The short term liability due to Grenke Finance Plc will expire within one year, and it is expected to be renewed on maturity.

### **Development in activities and financial matters**

The Company's Income Statement of the financial year 1 January 2024 - 31 December 2024 shows a result of DKK -52.248.505 and the Balance Sheet at 31 December 2024 a total of DKK 900.313.323 and an equity of DKK -97.888.718.

There has been a decrease in profit before tax of DKK 7m due to increased financing costs because of the current high interest rate environment and increased levels of borrowing. These increased financing costs have been partially offset by an increase in income from the leasing business due to growth in the level of new leasing business and increased returns on lease receivables.

The management expect to re-establish the share capital through continuing the growth in the levels of new leasing business which will lead to future profits .

In 2024 the Danish Financial Supervisory Authority (DFSA) carried out a "hvidvaskningsinspektion" at Grenkeleasing APS. The outcome was that the DFSA had no major findings and six minor findings.

### **Events after the balance sheet date**

No events materially affecting the Company's financial position have occurred subsequent to the financial year-end.

**8. Current deferred tax**

As a result of the temporary differences between accounting and tax losses on leasing receivables and tax losses carried forward there is a tax asset of DKK 20,194,000 at the end of the year.

The tax asset is not recognised as an asset in the annual accounts, as its realization is considered to be uncertain. The company has suffered losses in recent years due to high credit losses on leases.

The company is changing its methods of writing new leases, it is confident these changes will reduce substantially the level of credit losses and return the company to profitability. However, the Company believes it is correct not to recognise the deferred tax asset due to uncertainty as to the timing of its return to profit.

**9. Contributed capital**

Balance at the beginning of the year	2.075.000	2.075.000
<b>Balance at the end of the year</b>	<b>2.075.000</b>	<b>2.075.000</b>

The share capital has remained unchanged for the last 5 years.

**10. Long-term liabilities other than provisions**

Of the non-current liabilities other than provisions, DKK 0 fall due for payment after more than 5 years after the balance sheet date.

## Notes

### 11. Going concern assumption

The financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

The Company's total liabilities exceed total assets by DKK 97.888.718. The short term liability includes amounts payable to group enterprises of DKK 493.993.604. In making the assessments, the directors have given regard to the fact that Grenke AG has pledged its financial support to the Company, for its continued operations for a period of not less than one year from the date of issuing these financial statements. Such support would be in the form of intercompany borrowings.

Management believes the Company is a going concern entity as Grenke AG (the ultimate parent of Grenke Finance Plc, the lender) has provided a letter of financial support to meet the Company's future financial commitments. On this basis, Grenkeleasing ApS requires the support of Grenke Finance Plc to continue as a going concern. The short term liability due to Grenke Finance Plc will expire within one year, and it is expected to be renewed on maturity.

### 12. Liabilities under leases

As of 31.12.2024 Grenkeleasing has total rent and lease liabilities of DKK 4.187.454, hereof DKK 1,480,868 due within one year.

### 13. Related parties

Name and registered office of the Parent preparing consolidated financial statement:

GRENKE AG, Neuer Markt 2, Baden-Baden, Germany

## Accounting Policies

### 14. Accounting Policies

#### Reporting Class

The Annual Report of Grenkeleasing ApS for 2024 has been presented in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B, with the option of certain provisions for Class C.

The accounting policies applied remain unchanged from last year.

#### Translation policies

Transactions in foreign currencies are translated into DKK at the exchange rate prevailing at the date of transaction. Monetary assets and liabilities in foreign currencies are translated into DKK based on the exchange rates prevailing at the balance sheet day. Realised and unrealised foreign exchange gains and losses are included in the Income Statement under Financial Income and Expenses.

#### Leases

Determination of whether an arrangement contains a lease.

Whether an arrangement is, or contains, a lease is determined by the economic substance of the arrangement at the time the contract is concluded. It requires an assessment as to whether the fulfillment of the arrangement is dependent on the use of a specific asset and whether the arrangement conveys a right to use the asset. A reassessment as to whether an arrangement contains a lease is only required after the start of the lease when one of the following conditions has been met:

- There was a change in the contractual conditions, unless the change only renewed or extended the arrangement;

- A renewal option was exercised or an extension was granted, unless the term of the renewal or extension had initially been considered in the lease term;

- There was a change in determination of whether fulfillment is dependent on a specified asset; or

- There was a substantial change made to the asset.

#### Finance lease

Under a finance lease, all significant risks and rewards of legal ownership are transferred from the lessor to the lessee. The outstanding lease payment are thus treated by the lessor as repayments of principal and finance income. The lease payments are used to reimburse the lessor for his financial investment and to compensate him for his services. Assets from finance leases are initially recognised in the balance sheet as lease receivables at an amount equal to the net investment i.e., the present value of the residual receivables of all lease contracts existing at the end of a fiscal year. Lease payments are divided into interest payments and repayments in such a manner that they reflect a constant periodic rate of return for the receivable. Initial direct costs incurred in connection when calculating the net investment value. These initial direct costs are recognised in profit and loss upon occurrence.

The profit from new business also includes income from lease down-payments, which is the fee paid by the lessee for the use of the lease object during the period from the transfer of the object until the issuance of the lease acceptance letter. Commissions which are not included in the net investment value of the lease receivable but are recognised in the income statement.

#### Operating lease

Leases, where the Company does not transfer all significant risks and rewards of ownership of the asset to the lessee, are classified as operating leases. Initial direct costs incurred in the negotiation and conclusion of an operating lease are added to the carrying amount of the leased asset. These amounts are depreciated over the term of the lease agreement until the residual value is reached. Contingent rent is recognised as income in the period in which it is generated. Operating lease assets are typically recorded in the income statement as property, plant and equipment.

After the original lease has expired, the contract may be extended or a follow-up contract may be concluded. This leads to a reassessment of the lease. In cases where the criteria for an operating lease are met, the leased asset is recorded as property, plant and equipment from the start of the extension period and recognised at fair value.

## Accounting Policies

### Income Statement

#### Gross profit/loss

With reference to Section 32 of the Danish Financial Statements Act, the item 'Revenue', 'Cost of sale', 'Other external expenses' and 'Other operating income' are consolidated into one item designated 'Gross profit/loss'.

#### Revenue

Income from the rendering of services is recognised as revenue as the services are rendered, implying that revenue corresponds to the market value of the services rendered in the year.

Revenue is measured at fair value of the agreed consideration exclusive of VAT and taxes charged on behalf of third parties. All discounts and rebates granted are recognised in revenue.

Income from the sale of lease assets is recognised when the relevant risks and rewards of the ownership of the sold goods have been transferred to the customer. Usually it occurs upon delivery of the goods to the customer.

Income from sale after the basic lease contract has ended or from lease contracts prematurely terminated but mutual agreement are recorded in revenue as gains from disposals and income from sale as breached lease agreements are recorded in revenue as settlement of claims and risk provisions.

#### Other external expenses

Other external expenses include expenses related to distribution, sale, advertising, administration, premises, bad debts, lease payments under operating leases, etc.

#### Employee benefits expense

Employee benefits expense include wages and salaries, including compensated absence and pensions, as well as other social security contributions, etc., made to the Company's employees. The item is net of refunds made by public authorities.

#### Depreciation, amortisation expense and impairment losses of property, plant and equipment recognised in profit or loss

The item comprises amortisation/depreciation and impairment of property, plant and equipment.

The basis of depreciation, which is calculated as cost less any residual value, is depreciated on a straight-line basis over the expected useful life. The expected useful lives are as follows:

	Useful life	Scrap value
Other fixtures and fittings, tools and equipment	3-5 years	0 DKK

#### Finance income and expenses

Finance income and expenses are recognised in the Income Statement with the amounts that concern the financial year. Finance income and expenses include interest income and expenses, realised and unrealised capital gains and losses regarding securities, debt and foreign currency transactions, amortisation of financial assets and liabilities as well as surcharges and allowances under the tax repayment scheme.

Interest income relating to lease receivables is allocated to accounting periods to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease. Please refer to the section on lease above.

#### Tax expense on ordinary activities

Tax on net profit/loss for the year comprises current tax on expected taxable income of the year and the year's adjustment of deferred tax less the part of the tax of the year that relates to changes in equity. Current and deferred tax regarding changes in equity is recognised directly in equity.

## Accounting Policies

### Balance Sheet

#### Intangible assets

Software recognised in the balance sheet are measured at cost less accumulated amortisation and impairment losses.

Upon completion of software, software is amortised on a straight-line basis over the estimated useful lives.

The amortisation period is usually 3-5 years, however, not exceeding 10 years.

#### Property, plant and equipment

Items of property, plant and equipment are measured at cost plus revaluations, if any, and less accumulated amortisation and impairment losses. Cost comprises the purchase price and costs directly attributable to the purchase until the date when the asset is available for use.

The useful life and residual value are reassessed annually. Changes are treated as accounting estimates, and the effect on depreciation is recognised prospectively.

Gains and losses on the disposal of property, plant and equipment are stated as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses are recognised in the income statement as other operating income or other operating costs, respectively.

#### Impairment of fixed assets

The carrying amount of property, plant and equipment is subject to an annual test for indications of impairment other than the decrease in value reflected by depreciation or amortisation.

Impairment tests are conducted of individual assets or groups of assets when there is an indication that they may be impaired. Write-down is made to the recoverable amount if this is lower than the carrying amount.

#### Receivables

Lease receivables: Leases for fixed assets that transfer substantially all the risks and rewards incident to ownership to the Company (finance lease) are initially recognised in the balance sheet at cost, corresponding to the lower of fair value and the net present value of future lease payments. In calculating the net present value of the future lease payments, the interest rate implicit in the lease or the incremental borrowing rate is used as the discount factor.

Other receivables are measured at amortised cost.

An impairment loss is recognised if there is objective indication that a receivable or a group of receivables is impaired. If there is objective indication that an individual receivable has been impaired, write-down is made on an individual basis.

Receivables with no objective indication of individual impairment are tested for objective indication of impairment on a portfolio basis. The portfolios are primarily composed on the basis of debtors' domicile and credit ratings in accordance with the Company's risk management policy. The objective indicators used for portfolios are determined based on historical loss experience.

Write-downs are calculated as the difference between the carrying amount of the receivables and the present value of the expected cash flows, including the realisable value of any collateral received. The effective interest rate for the individual receivable or portfolio is used as discount rate.

#### Prepayments

Prepayments recognised under 'Assets' comprise prepaid expenses regarding subsequent financial reporting years.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand as well as short-term securities with a term of less than three months which can be converted directly into cash at bank and in hand and involve only an insignificant risk of value changes.

## **Grenkeleasing ApS**

### **Accounting Policies**

#### **Corporation tax**

Current tax payable and receivable is recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account.

Provisions for deferred tax are calculated using the balance sheet liability method on all temporary differences between carrying amounts and tax values, with the exception of temporary differences occurring at the time of acquisition of asset and liabilities neither affecting the results of operations nor the taxable income.

Deferred tax is measured according to the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Changes in deferred tax due to changes in the tax rate are recognised in the income statement.

#### **Financial liabilities**

Liabilities are measured at net realisable value.
