## **Statement by management on the annual report**

The executive board has today discussed and approved the annual report of Solar Park Harre ApS for the financial year 1 January - 31 December 2024.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the company's financial position at 31 December 2024 and of the results of the company's operations for the financial year 1 January - 31 December 2024.

In our opinion, management's review includes a fair review of the matters dealt with in the management's review.

Management recommends that the annual report should be approved by the company in general meeting.

Søborg, 24 June 2025

Director

Frank Grafe  
director

## **Independent auditor's report**

*To the shareholder of Solar Park Harre ApS*

### **Opinion**

We have audited the financial statements of Solar Park Harre ApS for the financial year 1 January - 31 December 2024, which comprise a summary of significant accounting policies, income statement, balance sheet, statement of changes in equity and notes. The financial statements are prepared under the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the company's financial position at 31 December 2024 and of the results of the company's operations for the financial year 1 January - 31 December 2024 in accordance with the Danish Financial Statements Act.

### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Management's responsibilities for the financial statements**

Management is responsible for the preparation of financial statements, that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

## **Independent auditor's report**

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

## **Independent auditor's report**

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Statement on management's review**

Management is responsible for management's review.

Our opinion on the financial statements does not cover management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read management's review and, in doing so, consider whether management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of management's review.

2100 København

## **Management's review**

### **Business review**

The purpose of the company is, directly or through shares in subsidiaries, to develop, finance, operate and sell renewable energy.

### **Recognition and measurement uncertainties**

The Company hedges electricity price cash flow risks in respect of sales of electricity through forward PPA (Power Purchase Agreement) contracts. The contracts secure cash flows from power sales via an agreed Contract for Difference (CFD).

Measurement of the PPA's are attached with uncertainty as a result of parameters and factors used in the model for calculating the Mark-to-Market values (MtM).

The calculation of the value of the hedging instruments are based on assumptions of expected future power prices with an applied discount rate of 7.14%. This discount rate is comprised of both a base rate, country risk premium, credit spread and a credit adjustment dependent on the company's own credit rating.

Future power price curves are purchased from external providers, and these are first modified by expected future inflation rates and afterwards certain factors are used to develop an expected pricing for a similar PPA to that being valuated.

Changes in the applied assumptions and parameters could potentially have a significant effect on the calculated MtM-values.

### **Financial review**

The company's income statement for the year ended 31 December 2024 shows a loss of TDKK 9.394, and the balance sheet at 31 December 2024 shows negative equity of TDKK 2.699.

### **Capital resources**

The company has lost its share capital. The equity as of 31 December 2024 amounts to -2.699 TDKK. Management expect that the capital will be re-established though the company's own future earnings. The re-establishment will be discussed on the ordinary shareholder meeting in accordance with the Danish Companies Act.

### **Significant events occurring after the end of the financial year**

No events have occurred after the balance sheet date which could significantly affect the company's financial position.

## **Accounting policies**

The annual report of Solar Park Harre ApS for 2024 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to reporting class B entities, as well as selected provisions applying to reporting class C entities.

The accounting policies applied are consistent with those of last year.

The annual report for 2024 is presented in TDKK

### **Basis of recognition and measurement**

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any installments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report is presented and which confirm or invalidate matters existing at the balance sheet date.

## **Income statement**

### **Revenue**

Income from the sale of power is recognised in the income statement, provided that the transfer of risk, usually on delivery to the buyer, has taken place and that the income can be measured reliably and is expected to be received.

Revenue is measured at the fair value of the agreed consideration, excluding VAT and other indirect taxes. Revenue is net of all types of discounts granted.

## **Accounting policies**

### **Other external expenses**

Other external expenses include expenses related to operation and maintenance, administration, rent of land etc.

### **Depreciation, amortisation and impairment of property, plant and equipment**

Depreciation, amortisation and impairment of property, plant and equipment comprise the year's depreciation, amortisation and impairment of property plant and equipment.

### **Financial income and expenses**

Financial income and expenses are recognised in the income statement at the amounts that relate to the financial year. Net financials include interest income and expenses, realised and unrealised capital/exchange gains and losses on securities, liabilities and foreign currency transactions etc.

### **Tax on profit/loss for the year**

The company is subject to the Danish rules on compulsory joint taxation.

On payment of joint taxation contributions, the current Danish income tax is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have been able to use tax losses to reduce their own taxable profits.

Tax for the year, which comprises the current tax charge for the year and changes in the deferred tax charge, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

## **Balance sheet**

### **Tangible assets**

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

The depreciable amount is cost less the expected residual value at the end of the useful life.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date when the asset is available for use. The cost of self-constructed assets comprises direct and indirect costs of materials, components, sub-suppliers and wages.

## Accounting policies

Interest expenses on loans obtained specifically for the purpose of financing the manufacturing of items of property, plant and equipment are included in cost over the manufacturing period. All indirect, attributable borrowing costs are recognised in the income statement.

Straight-line depreciation is provided on the basis of the following estimated useful lives of the assets:

	<b>Useful life</b>	<b>Residual value</b>
Solar farms	30 years	2 %

The useful life and residual value are re-assessed annually. A change is accounted for as an accounting estimate, and the impact on amortisation/depreciation is recognised going forward.

### Impairment of fixed assets

The carrying amount of items of property, plant and equipment is tested annually for impairment, other than what is reflected through normal amortisation and depreciation.

Where there is evidence of impairment, an impairment test is performed for each individual asset or group of assets. Write-down is made to the lower of the recoverable amount and the carrying amount.

The recoverable amount is the higher of the net present value and the value in use less expected costs to sell. The net present value is determined as the present value of the anticipated net cash flows from the use of the asset or group of assets and the anticipated net cash flows from the disposal of the asset or group of assets after the end of their useful life.

### Receivables

Receivables are measured at amortised cost.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable is impaired, an impairment loss for that individual asset is recognised.

### Prepayments

Prepayments recognised under 'Current assets' comprises expenses incurred concerning subsequent financial years.

## **Accounting policies**

### **Cash and cash equivalents**

Cash and cash equivalents comprise cash and deposits at banks.

### **Equity**

#### **Fair value reserve**

The year's changes in value adjustments of hedging instruments and tax hereof are recognised in the fair value reserve in equity.

### **Provisions**

The provision relates to expected demolition costs to dismantle and remove solar farms. These provisions are recognised when the company has a legal and constructive obligation at the date of the statement of financial position and it is probable that there may be an outflow of resources embodying economic benefits to settle the obligation. Provisions that are expected to be settled more than a year from the date of the statement of financial position, are measured at net realisable value.

The value of the dismantling costs is recognised in the value of non-current assets and is depreciated together with the relevant assets. The financial statements include a provision for future costs arising from the demolition costs and removal of wind and solar farms.

Based upon management's expectations for the maturity of the provisions, the provision is recognised as a non-current liability.

### **Income tax and deferred tax**

Current tax liabilities and current tax receivables are recognised in the balance sheet as the estimated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and tax paid on account.

The company and all its Danish group entities are taxed on a joint basis. The current income tax charge is allocated between the jointly taxed entities relative to their taxable income. Tax losses are allocated based on the full absorption method. The jointly taxed entities are eligible for the Danish Tax Prepayment Scheme.

Joint taxation contributions payable and receivable are recognised in the balance sheet as 'Joint taxation contributions receivable' or 'Joint taxation contributions payable'.

## **Accounting policies**

Deferred tax is measured according to the liability method in respect of temporary differences between the carrying amount of assets and liabilities and their tax base, calculated on the basis of the planned use of the asset and settlement of the liability, respectively. Deferred tax is measured at net realisable value.

Deferred tax is measured according to the tax rules and at the tax rates applicable in the respective countries at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax adjustments resulting from changes in tax rates are recognised in the income statement, with the exception of items taken directly to equity.

Deferred tax assets, including the tax base of tax losses allowed for carry forward, are measured at the value to which the asset is expected to be realised, either as a set-off against tax on future income or as a set-off against deferred tax liabilities within the same legal tax entity. Any deferred net tax assets are measured at net realisable value.

## **Liabilities**

Liabilities, which include trade payables, payables to group entities and other payables, are measured at amortised cost, which is usually equivalent to nominal value.

## **Foreign currency translation**

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statement as financial income or financial expenses. If foreign currency instruments are considered cash flow hedges, any unrealised value adjustments are taken directly to a fair value reserve under 'Equity'.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

## **Accounting policies**

### **Derivative financial instruments**

Fair value adjustments of derivative financial instruments designated as and qualifying for hedging of future cash flows are recognised in the balance sheet as 'Derivatives' and in the fair value reserve under 'Equity'. If the future transaction results in recognition of assets or liabilities, amounts previously recognised in equity are transferred to the cost of the asset or the liability, respectively. If the future transaction results in income or expenses, amounts previously recognised in equity are transferred to the income statement in the period in which the hedged item affects the income statement.

## Notes

### 8 Contingent liabilities

The company is jointly taxed with other Danish group entities within the Danish joint taxation group. As administration company, the company is jointly and severally liable with other jointly taxed entities for payment of income taxes.

The Company has entered into land lease agreements with an agreed termination period of 12 months from the tenant's side. The rent in the termination period amounts to 900 TDKK.

### 9 Financial instruments

#### Power Purchase Agreements (PPA)

The Company hedges electricity price cash flow risks in respect of sales of electricity through forward PPA (Power Purchase Agreement) contracts. The contracts secure cash flows from power sales via an agreed Contract for Difference (CFD).

Measurement of the PPA's are attached with uncertainty as a result of parameters and factors used in the model for calculating the Mark-to-Market values (MtM).

The calculation of the value of the hedging instruments are based on assumptions of expected future power prices with an applied discount rate of 7,14%. This discount rate is comprised of both a base rate, country risk premium, credit spread and a credit adjustment dependent on the company's own credit rating.

Future power price curves are purchased from external providers, and these are first modified by expected future inflation rates and afterwards certain factors are used to develop an expected pricing for a similar PPA to that being valuated.

Changes in the applied assumptions and parameters could potentially have a significant effect on the calculated MtM-values.

TDKK	Period	Fair value at balance date		Gains and losses recognised in equity during the year (pre tax)	
		2024	2023	2024	2023
Hedging of power prices	2022 - 2030	-25.422	-28.951	3.528	2.853

## Notes

### **10 Related parties and ownership structure**

According to the company's register of shareholders, the following shareholder holds at least 5% of the votes or at least 5% of the share capital:

CEE RF7 Holding S.á.r.l., 17 Am Scheerleck, 6868 Wecker, Luxembourg
