# Independent Auditor's report

To the shareholder of Dawn Health A/S

## Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2024 and of the results of the Company's operations for the financial year 1 January - 31 December 2024 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Dawn Health A/S for the financial year 1 January - 31 December 2024, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("the Financial Statements").

## Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

## Management's responsibilities for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

# Independent Auditor's report

## Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Management's review

## Key activities

The Company's activities consists of developing digital transformation strategies and digital disease interventions targeted at doctors and patients aiming to provide an improved disease course.

## Development in the year

The income statement of the Company for 2024 shows a loss of DKK 52,217,289, and at 31 December 2024 the balance sheet of the Company shows a positive equity of DKK 53,749,586.

Management has assessed the result of the year and sees it as aligned with the the strategy of the company, while being lower than the outlook provided in the financial statement for 2023. The investments made in the year shall ensure the company's growth and profitability in future years. The expectation is to continue to invest into these areas in future years. The company is part of the Dawn Health Group, which is well consolidated and has the liquidity to complete future investments until the company reaches a state of profitability.

## Capital resources

Dawn Health Group received a capital increase on 25 April 2025 of 85.8 MDKK. The capital injection will be utilized to accelerate the growth of Dawn Health A/S.

Moreover, during the year Dawn Health A/S has received a debt to equity conversion on a loan owed to Dawn Holding ApS amounting DKK 135,001,514.

Current budgets show sufficient liquidity, and the Company's burn rate is being monitored and evaluated on an ongoing basis.

## Targets and expectations for the year ahead

The Company is expecting a EBITDA loss of 25-35 MDKK in 2025.

## Research and development

The Company's research activities are related to the product that are developed internal.

## Intellectual capital resources

Guided by our mission "Code to Save Lives", our primary commitment is to develop products that epitomize this ethos. We firmly believe that our personnel are the cornerstone of our ability to realize this vision. The crux lies in assembling a team of adept individuals who not only share our mission but also possess the requisite expertise. Thus, our efforts extend from carefully identifying and attracting top-tier talents to cultivating an environment conducive to perpetual professional development across diverse domains of expertise.

## Uncertainty relating to recognition and measurement

There has been no uncertainty regarding recognition and measurement in the Annual Report.

## Unusual events

The financial position at 31 December 2024 of the Company and the results of the activities and cash flows of the Company for the financial year for 2024 have not been affected by any unusual events.

## Subsequent events

No events materially affecting the assessment of the Annual Report have occurred after the balance sheet date, except for the capital injection mentioned in the Capital resource section. See note 16 for more information.

DKK	DKK

### 14. Contingent assets, liabilities and other financial obligations

#### Rental and lease obligations

Lease obligations under operating leases. Total future lease payments:

Within 1 year	2,878,750	4,935,000
Between 1 and 5 years	0	822,500
	<u>2,878,750</u>	<u>5,757,500</u>

#### Other contingent liabilities

The group companies are jointly and severally liable for tax on the jointly taxed incomes etc of the Group. The total amount of corporation tax payable is disclosed in the Annual Report of Dawn Holding ApS, which is the management company of the joint taxation purposes. Moreover, the group companies are jointly and severally liable for Danish withholding taxes by way of dividend tax, tax on royalty payments and tax on unearned income. Any subsequent adjustments of corporation taxes and withholding taxes may increase the Company's liability.

# Notes to the Financial Statements

## 15. Related parties and disclosure of consolidated financial statements

### Transactions

The Company has chosen only to disclose transactions which have not been made on an arm's length basis in accordance with section 98(c)(6) of the Danish Financial Statements Act.

During the year Dawn Health A/S has received a debt to equity conversion on a loan owed to Dawn Holding ApS amounting DKK 135,001,514.

### Consolidated Financial Statements

The Company is included in the Group Annual Report of the Parent Company of the largest and smallest group:

<u>Name</u>	<u>Place of registered office</u>
Dawn Holding ApS	Copenhagen, Denmark

## 16. Subsequent events

After the balance sheet date, Dawn Health Group received a capital increase on 25 April 2025 of 85.8 MDKK. The capital injection will be utilized to accelerate the growth of Dawn Health A/S.

No other events materially affecting the assessment of the Annual Report have occurred after the balance sheet date.

# Notes to the Financial Statements

## 17. Accounting policies

The Annual Report of Dawn Health A/S for 2024 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class C.

The accounting policies applied remain unchanged from last year.

The Financial Statements for 2024 are presented in DKK.

### Cash flow statement

With reference to section 86(4) of the Danish Financial Statements Act and to the cash flow statement included in the consolidated financial statements of Dawn Holding ApS, the Company has not prepared a cash flow statement.

### Recognition and measurement

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

### Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Gains and losses arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the transaction date rates are recognised in financial income and expenses in the income statement; however, see the section on hedge accounting.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

## Income statement

### Revenue

Contract work in progress (construction contracts) is recognised at the rate of completion, which means that revenue equals the selling price of the work completed for the year (percentage-of-completion method). This method is applied when total revenues and expenses in respect of the contract and the stage of completion at the balance sheet date can be measured reliably, and it is probable that the economic benefits, including payments, will flow to the Company. The stage of completion is determined on the basis of the ratio between the expenses incurred and the total expected expenses of the contract.

# Notes to the Financial Statements

Services are recognised at the rate of completion of the service to which the contract relates by using the percentage-of-completion method, which means that revenue equals the selling price of the service completed for the year. This method is applied when total revenues and expenses in respect of the service and the stage of completion at the balance sheet date can be measured reliably, and it is probable that the economic benefits, including payments, will flow to the Company. The stage of completion is determined on the basis of the ratio between the expenses incurred and the total expected expenses of the service.

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

## **Expenses for raw materials and consumables**

Expenses for raw materials and consumables comprise the raw materials and consumables consumed to achieve revenue for the year.

## **Other external expenses**

Other external expenses comprise expenses for premises, marketing cost, travel cost, office expenses, etc.

## **Gross profit**

With reference to section 32 of the Danish Financial Statements Act, gross profit/loss is calculated as a summary of revenue, expenses for raw materials and consumables and other external expenses.

## **Staff expenses**

Staff costs include wages and salaries including compensated absence and pensions as well as other social security contributions etc. made to the entity's employees. The item is net of refunds made by public authorities.

## **Amortisation, depreciation and impairment losses**

Amortisation, depreciation and impairment losses comprise depreciation and impairment of intangible assets and property, plant and equipment.

## **Financial income and expenses**

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year.

## **Tax on profit/loss for the year**

Tax for the year consists of current tax for the year and deferred tax for the year. The tax attributable to the profit for year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with Dawn Holding ApS. The tax effect of the joint taxation with the subsidiaries is allocated to Danish enterprises showing profits or losses in proportion to their taxable incomes (full allocation with credit for tax losses).

## Balance sheet

### Intangible fixed assets

#### *Development projects*

Costs of development projects comprise salaries, amortisation and other expenses directly or indirectly attributable to the Company's development activities.

Development projects that are clearly defined and identifiable and in respect of which technical feasibility, sufficient resources and a potential future market or development opportunity in the enterprise can be demonstrated, and where it is the intention to manufacture, market or use the project, are recognised as intangible assets. This applies if sufficient certainty exists that the value in use of future earnings can cover cost of sales, distribution and administrative expenses involved as well as the development costs.

Development projects that do not meet the criteria for recognition in the balance sheet are recognised as expenses in the income statement as incurred.

Capitalised development costs are measured at cost less accumulated amortisation and impairment losses or at a lower recoverable amount. An amount corresponding to the recognised development costs is allocated to the equity item 'Reserve for development costs'. The reserve comprises only development costs recognised in financial years beginning on or after 1 January 2016. The reserve is reduced by amortisation of and impairment losses on the development projects on a continuing basis.

As of the date of completion, capitalised development costs are amortised on a straight-line basis over the period of the expected economic benefit from the development work. The amortisation period is 5 year.

### Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Other fixtures and fittings, tools and equipment	3-5 years
Leasehold improvements	5 years

Depreciation period and residual value are reassessed annually.

### Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment and investments are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

The recoverable amount of the asset is calculated as the higher of net selling price and value in use. Where a recoverable amount cannot be determined for the individual asset, the assets are assessed in the smallest group of assets for which a reliable recoverable amount can be determined based on a total assessment.

### Other fixed asset investments

Other fixed asset investments consist of receivables from group enterprises and deposits.

# Notes to the Financial Statements

## Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

## Contract work in progress

Contract work in progress is measured at selling price of the work performed calculated on the basis of the stage of completion. The stage of completion is measured by the proportion that the contract expenses incurred to date bear to the estimated total contract expenses. Where it is probable that total contract expenses will exceed total revenues from a contract, the expected loss is recognised as an expense in the income statement.

Where the selling price cannot be measured reliably, the selling price is measured at the lower of expenses incurred and net realisable value.

Payments received on account are set off against the selling price. The individual contracts are classified as receivables when the net selling price is positive and as liabilities when the net selling price is negative.

Expenses relating to sales work and the winning of contracts are recognised in the income statement as incurred.

## Prepayments

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

## Deferred tax assets and liabilities

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax loss carry-forwards, are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. Any changes in deferred tax due to changes to tax rates are recognised in the income statement or in equity if the deferred tax relates to items recognised in equity.

## Current tax receivables and liabilities

Current tax receivables and liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on taxable incomes for prior years. Tax receivables and liabilities are offset if there is a legally enforceable right of set-off and an intention to settle on a net basis or simultaneously.

## Financial liabilities

Debts are measured at amortised cost, substantially corresponding to nominal value.
