MANAGEMENT'S STATEMENT

The Management has today discussed and approved the Annual Report of Den Sociale Kapitalfond Invest I K/S for the financial year 1 January 2022 - 31 December 2022.

The Annual Report has been prepared in accordance with the International Financial Reporting Standards, which is approved by EU and further Danish disclosure requirements according to the Danish Financial Statements Act.

It is our opinion that the financial statements give a true and fair view of the Company's financial position at 31 December 2022 and of the results of the Company's operations and cash flow for the financial year 1 January 2022 - 31 December 2022.

Further, in our opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

We recommend that the Annual Report be approved at the General Partner meeting.

Copenhagen, 29 March 2023

On behalf of the General Partner:
Komplementarselskabet for Den Sociale Kapitalfond Invest I ApS

Simon Krogh
Chairman

Gudmund Tyge Korsgaard

Sven Krogstrup

INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENT

To the Limited Partners of Den Sociale Kapitalfond Invest I K/S.

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2022, and of the results of the Company's operations and cash flows for the financial year 1 January - 31 December 2022 in accordance with International Financial Reporting Standards as adopted by the EU and further requirements in the Danish Financial Statements Act.

We have audited the Financial Statements of Den Sociale Kapitalfond Invest I K/S for the financial year 1 January - 31 December 2022, which comprise statement of comprehensive income, balance sheet, statement of cash flows, statement of changes in equity and notes, including a summary of significant accounting policies.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the EU and further requirements in the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in

INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENT

accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

MANAGEMENT'S REVIEW

Business activities

Den Sociale Kapitalfond Invest I K/S (the “Fund”) is Denmark’s first social impact investment fund focusing on Small and Medium Sized Enterprises (“SMEs”) creating financial return on investment as well as new opportunities for marginalised persons.

Den Sociale Kapitalfond Invest I K/S was established as a Limited Partnership in 2017, with the purpose and objective to generate social impact and financial returns by investing in small and medium sized companies with economic growth potential and positive social impact on people and society, that are established and have headquarter in Denmark or Southern Sweden. The Limited Partnership had final closing on 12 October 2018 with a total commitment of DKK 289.3 million. The Fund is owned by Danish and international professional investors. The investors have entered into a limited partnership agreement.

Den Sociale Kapitalfond Invest I K/S is part of Den Sociale Kapitalfond group – a specialised, value-driven and professional investment group focused on developing and scaling impact investment products with the potential to combine financial returns and social impact for the benefit of marginalised groups in society.

Please visit the group homepage for a further introduction to the background and investment philosophy of Den Sociale Kapitalfond: www.densocialekapitalfond.dk

Please visit the homepage of Den Sociale Kapitalfond Invest for a further introduction to the Fund: www.skfinvest.dk.

Investment Strategy

Small and medium-sized enterprises account for the most significant share of value added and employment in the private sector in Denmark. Their growth potentials are often high, but they often lack equity investments, competences, and employee attractiveness to fully realise them.

In addition, SMEs are key contributors to the realisation of the UN Sustainable Development Goals through their products and services, and many are socially run companies with positive local social impact.

Having products and services contribute to solving social and societal problems, and being socially inclusive and value driven, all strengthen the culture, identity, and brand of a company – and can give a competitive advantage in a time where employer attractiveness, branding, and stakeholder support matter. Furthermore, following the growth in recent years of the ESG- and impact investment markets, well-positioned and well-performing impact companies are increasingly attractive for the growing number of ESG- and impact-seeking investors.

The Fund assists the social SMEs in realising their full potential for growth, impact, and high value by contributing with equity capital as a minority or majority investor, for typically 4-7 years, with the possibility of involving professional co-investors, and supplement with subordinated loans. The investments are based on a focused growth plan with clear incentives and solid follow-up on financial and social results.

Den Sociale Kapitalfond Invest Management ApS is the Fund’s management company (the “management company”) and provides continuous, qualified support to the portfolio companies’ management teams in implementing the growth plans via board participation and among others providing sparring on strategy, financial and operational management, organisational development, and branding & marketing, as well as the attraction of the next generation of investors. Special focus is given to the development of the companies’ social impact models, ensuring that they are optimally aligned and mutually reinforcing with their business models, and the ESG-performance in general. The management company also makes active use of its strong network of competencies and contacts for the benefit of the portfolio companies.

Social Impact

A significant potential for creating positive social impact – and becoming a role model in this regard for other companies to follow – is a prerequisite for the investments of Den Sociale Kapitalfond Invest I K/S. Specifically, the Fund focuses on empowering marginalised persons and persons in

MANAGEMENT'S REVIEW

marginalised areas through the creation of jobs, training positions, education and enabling services and products.

The Fund's management company diligently assesses the past achievements as well as future potentials and targets of the social impact of all investments as part of its due diligence process. It measures the social impact of all portfolio companies, building on the approaches developed by Den Sociale Kapitalfond since 2011 and the social impact performance measurement methodology of the Social Impact Accelerator of the European Investment Fund. In brief, key steps in the methodology include:

- The Fund's management company initially assesses and performs a social impact due diligence based on an impact map for the company's social impact model, stakeholder interviews, and data assessments.
- The Fund's management company on this basis identifies 1-5 KPIs and 1 unique quantifiable target per KPI for social impact for each portfolio company and weigh these according to their relative importance, together with the company's owners and management.
- Initial targets are defined for the first three years of holding to anticipate early exit scenarios.
- In case of significant new information, change in the business environment beyond the control of the company's management, or a necessary change of strategy or business model, unique targets may be changed.
- The Fund's Investor Advisory Board validates the KPIs and targets – and potential changes.
- The Fund's management company continuously monitor and report on the impact of the portfolio companies – including the ratio of actual social impact / unique social target per KPI.
- These are weighted by importance if there are more than one KPI per portfolio company and summarised as a Social Impact Multiple ("SIM") per company.
- For the total portfolio, each portfolio company SIM is weighted by invested capital per company and summarised in a "Portfolio SIM", representing the overall ratio of fulfilment of social impact goals on a portfolio level.

Each portfolio company makes an annual, auditor reviewed report on its social impact according to these guidelines. Together, these annual impact reports form the basis of the Fund's consolidated, audited portfolio impact report which is made available to the Fund's Limited Partners.

The impact measurement and management model is integrated into the Fund's carry model, which has a dual hurdle rate with both financial and social impact thresholds, ensuring that the management team has real "skin in the game" regarding the pursuit of both financial and social goals.

The Fund uses its commercially best efforts to adhere to article 9 of the EU Sustainable Finance Disclosure Regulation ("SFDR"), by complying with the anticipated EU Social Taxonomy and currently available guidelines and recommendations from EU's Platform on Sustainable Finance as presented in the Final Report on Social Taxonomy. The Fund's annual disclosure in accordance with SFDR (Annex V) is included in this management review and can be found on page 19 - 22.

Other social, environmental and governance responsibility policies

In addition to seeking to create attractive financial returns with a positive social effect, Den Sociale Kapitalfond Invest I K/S also seeks to strengthen positive effects as well as reduce any negative impacts on sustainability in general that the Fund's investments may have.

Accordingly, the investment policy seeks to optimise the potential for positive social impact through the Fund's portfolio companies and to integrate environmental, social, and governance sustainability (ESG) risks in its work, and by complying with international goals and guidelines. The management company has developed a rather comprehensive ESG policy based on research of international best practice in the Fund's asset class and size category.

A negative list is used to ensure that the Fund avoids financing activities that are assessed to be unsustainable in the long term. Also, the management company screens for environment, social and

MANAGEMENT'S REVIEW

governance ("ESG") issues and where relevant works to improve ESG policies in portfolio companies, alongside the ongoing development of their social impact models.

Among others, the management company actively works with the UN Sustainable Development Goals – the SDGs – in the investment process and portfolio management as these are important landmarks for the Fund. The positive and negative contributions of an investment opportunity to the fulfilment of the SDGs are included as a parameter in the management company's initial investment screening and is a separate point of focus in the due diligence processes. In addition, once an investment is completed, the Fund as an active owner seeks to ensure that there is a positive development in the portfolio companies' contributions to the SDGs. Portfolio companies are also all in compliance with and required to become signatories to the UN Global Compact's 10 principles, and to commit to the Science Based Targets initiative during the investment phase in investment terms and agreements. In addition, the management company continuously assesses the development in environmental and governance factors as well as potential sustainability risks in the portfolio.

In 2022, the management company implemented an ESG impact management and measurement regime and "platform" initiative begun in 2021, to ensure the Fund's portfolio companies having a state-of-the-art approach to measure and manage ESG impact and, among others, reduce CO₂ emissions. Thus, all portfolio companies acquired before the end of 2021 and the management company for the Fund published their first Impact Reports during 2022 (available on the respective websites). This work has been further developed in 2022, which will be reflected in the Impact Reports to be published in 2023.

The ESG and impact work with the Fund's portfolio is today based on a comprehensive initiative by the management company, which was implemented in 2022, comprising a holistic ESG impact management and measurement regime and "platform", to ensure the Fund's portfolio companies having a state-of-the-art approach to measure and manage ESG impact. Thus, all portfolio companies acquired before the end of 2021 and the management company for the Fund published their first Impact Reports during 2022 (available on the respective websites and www.skfinvest.dk). This work has been further developed in 2022, which will be reflected in the Impact Reports to be published in 2023.

Den Sociale Kapitalfond as group is a signatory to UN PRI (Principles for Responsible Investment) and to UN Global Compact and thus follows and complies with the principles set out by these institutions, as well as the norms and conventions of the UN Declaration of Human Rights and UN Global Goals for Sustainable Development.

Den Sociale Kapitalfond Invest I K/S also follows the guidelines for responsible ownership and good corporate governance for private equity funds from Brancheforeningen for Aktive Ejere I Danmark.

In addition, the Fund follows policies and guidelines to act responsibly and with respect for relevant guidelines and good practice, which include policies on risk management and prevention of money laundering and terror financing, insider trading and ensuring proper handling of confidential material and data, policies for conflicts of interest management and for related party cooperation.

Organization and Governance of Den Sociale Kapitalfond Invest

The Fund's management company is led by the three partners Lars Jannick Johansen (Managing Partner), Torben Agerup (Partner) and Mads Aaen (Partner), who also form the management company's Board of Directors (together with Stine Lomholt from Den Sociale Kapitalfond group), as well as the Investment Committee, which recommends investments to the General Partner of the Fund. The remuneration of the three partners is displayed in the Annual Report of the management company.

Den Sociale Kapitalfond Invest Management ApS (CVR number 38428047) is registered with the Danish Financial Supervisory Authority as manager of alternative investment funds pursuant to §9 section 1, cf. §4 section 1, in the Act on managers of alternative investment funds (the AIFM Act). The management company is only to a limited extent subject to the AIFM Act and has thus not been affiliated with a depositary.

MANAGEMENT'S REVIEW

Den Sociale Kapitalfond Invest I K/S (CVR number 38968815) has as General Partner, Komplementarselskabet for Den Sociale Kapitalfond Invest I ApS (CVR number 38941585), which is led by a Board of Directors with Simon Krogh (chairman), Tyge Korsgaard (director) and Sven Krogstrup.

The General Partner and its Board of Directors are responsible for the decisions on any investments in the Fund, based on the recommendations from the Investment Committee.

An Investor Advisory Board with representatives from the 7 largest investors, among other things, validate the social impact targets of the Fund's portfolio investments.

The Fund is owned by several Danish and international professional investors holding a total stake of c 98.9 %. The remaining stake is owned by the Partners of the management company, Den Sociale Kapitalfond Management ApS, and the Fund's Senior Advisors Jeppe Christiansen, Mads Øvlisen, Per Agger Nielsen and Peter Nørgaard.

Carried Interest

Den Sociale Kapitalfond Invest I K/S has been established with a management fee structure that resembles the normal standards in the private equity industry, with a fixed management fee and a carried interest dependent on the performance of the Fund.

However, the Fund's carried interest is based on both financial and social performance with a "double hurdle" or threshold, including both a financial hurdle and a social hurdle for fulfilment of social impact goals as approved by the Fund's Investor Advisory Board. If social impact at the time of exit does not meet the hurdle for realisation of pre-approved social goals, carry is transferred to a charitable cause approved by the investors. Carried interest is paid on a fund-as-a-whole basis. Accordingly, no carried interest had been paid as of 31 December 2022.

Reporting

The reporting on the Fund's activities is governed by the Limited Partnership Agreement. The Fund ensures that quarterly and annual reporting on financial and social impact performance are prepared and presented to its investors as the main reporting. The quarterly reports to investors are prepared in compliance with international best practice according to Invest Europe Investor Reporting Guidelines and the Limited Partnership Agreement. In addition, annual Limited Partners meetings are held as well as quarterly Investor Advisory Board meetings.

Development in activities and financial position

Focus in 2022 has continued to be on strengthening the deal flow network and company contacts, on further developing the value creation for the portfolio, and on completing attractive social impact investments in line with the Fund's strategy. In 2022 the Fund closed investments in Watecare ApS, BM Silo ApS and Tolstrup A/S, and successfully divested HITSA A/S and Refurb A/S.

Profit/loss for the year

The Fund's income statement for the year ended 31 December 2022 shows a profit of TDKK 42,578, and the balance sheet on 31 December 2022 shows an equity of TDKK 170,880. The result for the year reflects the number of investments made at this stage of the Fund.

Valuation principles

The Fund's valuation principles are in accordance with the Europe Investor Valuation Guidelines.

Recognition and measurement uncertainties

The recognition and measurement of items in the financial statements are not subject to any uncertainty.

MANAGEMENT'S REVIEW

Unusual matters

The Fund's financial position on 31 December 2022 and the results of its operations for the financial year ended 31 December 2022 are not affected by any unusual matters.

Significant events occurring after end of reporting period

No events have occurred after the balance sheet date which could significantly affect the Fund's financial position.

Financial risks

Financial and other risks material to the financial statements is presented in section "Notes to the financial statements". Please refer to note 3. For information about the methods and assumptions used in determining fair value please refer to note 2 and 4.

Consolidated financial statement

The Fund meets the conditions of being an investment entity and is exempt from preparing consolidated financial statements for 2022. For further explanation, please refer to the disclosures.

MANAGEMENT'S REVIEW

PORTFOLIO COMPANIES

Two divestments made in 2022

During 2022, the Fund divested Refurb A/S (IT asset disposal and refurbishment company) and HITSA A/S (urban furniture manufacturer) – both sold to private equity-owned industry players. Both buyers saw the significant social impact models and overall ESG performance as a clear strength of the companies. Both divestments resulted in very satisfactory financial and social returns to the Fund.

Refurb A/S was owned by the Fund for 2.4 years, and in the investment period, Refurb A/S executed well on a strategy to become a leading Danish IT asset disposal and refurbishment provider focused on computers. The significant ESG impact DNA of the company was also amplified to brand the company as “impact role model”, as demonstrated by several media portraits, awards, etc. – at exit with a social inclusion ratio of 26% (of total FTEs) and impressive ESG reporting.

HITSA A/S was owned by the Fund for 4.7 years, and in the investment period, HITSA A/S was successfully transformed from a “blacksmith company” into a Nordic market leader within urban furniture solutions with record high earnings based on a successful acquisition of competitor Veksø. In brief, HITSA A/S became a leading supplier of ESG compliant solutions in its market, including an impressive ESG reporting and a social inclusion ratio.

MANAGEMENT'S REVIEW

Koatek A/S

Sector:	Specialised mechanical workshop for instrument and tech manufacturers
Social impact model:	Socially run company with a focus on hiring and training people from the margins of the labor market
SDG impact:	The SDG impact is described and elaborated on in the company's ESG report available on the company's website.
Number of employees:	101 FTE in 2022
Location:	Jægerspris, Denmark
Funds' ownership:	45%
Investment year:	2019
Website:	www.koatek.dk
Responsible partner(s):	Mads Aaen (board representative) and Torben Agerup

About the company

Koatek A/S is a specialised mechanical manufacturer of high quality turned and milled components. The company is an order-producing manufacturer of components focusing on small series of high value – order sizes range from 150 to 15,000 units each year per order. Products are made in materials such as titanium, wolfram, aluminum, plastic and stainless steel. The company delivers to customers in various industries such as MedTech, energy, manufacturers of sensor technology, flow technology and instruments. Koatek is a socially run company, among others educating vulnerable young people and employs people from the margins of the labour market.

Developments in 2022

The year was characterised by a positive market development and customer demand was solid. Commercial targets for the year was exceeded and commercial and financial performance was satisfactory. During the year, Koatek A/S maintained its focus on the long-term positive development of the business and initiated several important investments and system upgrades during the year. Commercially, focus was on retaining satisfied customers and to comply with delivery agreements with customers.

In terms of social impact, Koatek A/S' overall performed better than the main social KPI targets for 2022 comprising targets for inclusivity, job opportunities and education for marginalised persons. As per December 2022, Koatek A/S had 19 employees from the margins of the labour market.

MANAGEMENT'S REVIEW

Danpal A/S

Sector:	Pallet production and recycling
Social Impact model:	Socially run company with a focus on hiring and training people from the margins of the labour market
SDG impact:	The SDG impact is described and elaborated on in the company's ESG report available on the company's website.
Number of employees:	31 FTEs in 2022
Location:	HQ in Karlslunde and sites in Vamdrup and Faxe, Denmark
Fund's ownership:	40% of SKFI Pal Holding ApS which owns 100% of Danpal A/S.
Investment year:	2020
Website:	www.dan-pal.dk
Responsible partner(s):	Torben Agerup and Lars Jannick Johansen (board representatives)

About the company

Danpal A/S manufactures new customised wood pallets and repair and recycle used pallets. Danpal A/S sells approximately 2 million pallets per year. The company employs 31 people on three sites; a headquarter in Karlslunde (including a sorting and repair facility), a production site in Faxe (of specialised wood pallets) and a sorting and repair facility site in Vamdrup. All sites are highly automated. Danpal A/S has a strong focus environmental impact, which is why repair and recycling of wooden pallets is one of Danpal A/S' core services. The company also has a tradition of taking responsibility for people from the margins of the labour market.

Development in 2022

Commercially and financially, Danpal A/S performed significantly better than budgeted in 2022. This was due to a combination of winning new customers, good market conditions in general with high demands from customers, increasing wood prices and higher sales prices, and strong internal efficiency in the organisation.

The social impact efforts and results have been at a very good level in the year. Danpal A/S' main social KPI figures were altogether realised ahead of the targets set. At the end of 2022, Danpal A/S employed 7 marginalised persons.

MANAGEMENT'S REVIEW

ProfilService A/S

Sector:	Cleaning services
Social Impact model:	Socially run company focused on creating new opportunities for marginalised groups on the labour market
SDG impact:	The SDG impact is described and elaborated on in the company's ESG report available on the company's website
Number of employees:	220 FTE in 2022
Location:	Brøndby, Denmark
Fund's ownership:	55% of SKFI Profil Holding ApS which owns 100% of ProfilService A/S.
Investment year:	2021
Website:	www.profilservice.dk
Responsible partner(s):	Mads Aaen and Lars Jannick Johansen (board representatives)

About the company

ProfilService A/S was established in 1992 and is considered one of the leading independent collective-covered cleaning providers in Zealand, employing approximately 220 FTEs (2022) of unionised service employees who serve the company's growing base of customers consisting of public institutions, large corporations and SMEs.

Development in 2022

Commercially and financially, the targets for 2022 were met, and the results were satisfactory. During the year ProfilService A/S had a good development in keeping existing and attracting new customers, both for jobs with contract-start during 2023 and the following year.

In terms of social impact, ProfilService A/S overall performed better than the social KPI targets for 2022 comprising targets for inclusivity and job opportunities for persons from the margins of the labour market. As per December 2022, ProfilService A/S had 71 employees from the margins of the labour market.

MANAGEMENT'S REVIEW

Auto Mobil ApS

Sector:	Disability cars – construction, sale, buy and rental
Social Impact model:	Social business offering mobility solutions to people with mobility disabilities, and a socially run business
SDG impact:	The SDG impact is described and elaborated on in the company's ESG report available on the company's website.
Number of employees:	16 FTE in 2022
Location:	HQ in Greve with branches in Vorbasse and Viborg, Denmark
Fund's ownership:	38.8%
Investment year:	2021
Website:	www.auto-mobil.dk
Responsible partner(s):	Torben Agerup (board representative) and Lars Jannick Johansen

About the company

Auto Mobil ApS makes specialised vans and cars available for people with mobility-related disabilities – through a multi-platform offering combining sales and disability adaptations/interior design of both new and used cars supplemented with disability car rentals through various channels, including an online-platform.

Development in 2022

Commercially and financially, Auto Mobil ApS continued a strong revenue growth in 2022, however, below (an aggressive) budget. This was primarily due to supply shortages of microchips and hence new vans into the European car market. Customer requests were strong and as expected in the year. In November 2022, Auto Mobil ApS established a new site in Viborg.

The social impact efforts and results have been at a very good level in the year – where the total social KPI targets for the full year were outperformed. Even though marginalised employees in the organisation are not the main social impact goal, Auto Mobil ApS employs 6 people from the margins of the labour market.

MANAGEMENT'S REVIEW

WaterCare ApS

Sector:	Consultancy, development and manufacturing of water handling systems
Social Impact model:	Socially run company focused on creating new opportunities for people from the margins of the labour market
SDG impact:	The SDG impact is described and elaborated on in the company's ESG report to be published during 2023 and available on the company's website
Number of employees:	31 FTE in 2022
Location:	Assens, Denmark
Fund's ownership:	43.3%
Investment year:	2022
Website:	www.watercare.dk
Responsible partner(s):	Torben Agerup (board representative) and Mads Aaen

About the company

WaterCare ApS is a Danish production company that specialises in products for improving the water environment, water streams and other recipients.

Development in 2022

WaterCare ApS developed well in 2022 where sales increased. Earnings curve was flatter, as cost prices increased significantly, and were not fully transferred to the large wholesaler customers. Furthermore, capacity was increased significantly with the installation of a new plastics rotation machine in the beginning of the year.

WaterCare ApS set main social impact KPI targets for inclusivity and job opportunities for persons from the margins of the labour market. The current year targets cover the 12 months period ending March 2023. As per end December 2022 – after 9 months of ownership – WaterCare ApS was ahead of the targets for the current year, with a total of 7 employees from the margins of the labour market out of a total of 31 FTEs.

MANAGEMENT'S REVIEW

BM Silo ApS

Sector:	Small modular silos used in the agricultural and industrial market
Social Impact model:	Socially run business creating new opportunities for persons from the margins of the labour market
SDG impact:	The SDG impact is described and elaborated on in the company's ESG report to be published during 2023 and available on the company's website.
Number of employees:	39 FTE in the financial year ending 30 September 2022
Location:	Holstebro, Denmark
Fund's ownership:	44.0%
Investment year:	2022
Website:	www.bmsilo.dk
Responsible partner(s):	Mads Aaen (board representative) and Lars Jannick Johansen

About the company

BM Silo ApS is considered one of the leading manufactures of small square modular bolted silos for storage of agricultural and industrial products.

Development in 2022

BM Silo ApS improved systems and competences to be prepared for continued growth which was experienced in recent years. Weak markets, however, reduced the overall activity and strongly rising raw material prices for special steel increased production costs and consequently the profit was reduced compared to the previous year and financial targets were not met.

In light of the weak markets, headcount was reduced during the year. However, BM Silo ApS did on an overall level meet the social impact KPI targets for 2022, comprising targets for inclusivity and job opportunities for persons from the margins of the labour market. As per December 2022, BM Silo ApS had 7 employees from the margins of the labour market.

MANAGEMENT'S REVIEW

Tolstrup A/S

Sector:	Landscaping services
Social Impact model:	Socially run company creating new opportunities for persons from the margins of the labour market
SDG impact:	The SDG impact is described and elaborated on in the company's ESG report to be published during 2023 and available on the company's website
Number of employees:	56 FTE in 2022
Location:	Fredericia
Fund's ownership:	58.0%
Investment year:	2022
Website:	www.tolstrupanlaeg.dk
Responsible partner(s):	Mads Aaen and Lars Jannick Johansen (board representatives)

About the company

Tolstrup A/S serves customers primarily in Jutland and on Funen with services within landscape maintenance, landscape construction and snow control. Customers are primarily municipalities and B2B companies.

Development in 2022

Tolstrup A/S had a good development in 2022, with significant growth in the landscape maintenance contract portfolio and good activity in the snow control season. The company implemented systems to improve financial reporting, and the organisation has been strengthened with new hires.

Tolstrup set social impact KPIs and targets for inclusivity and job opportunities for persons from the margins of the labour market. The current year's targets cover the 12 months period ending August 2023. Due to the seasonality of the business, Tolstrup A/S was as per December 2022 still behind the targets for the current year, but had 10 employees from the margins of the labour market (measured on an LTM basis).

MANAGEMENT'S REVIEW

Periodic disclosure in accordance with the EU Sustainable Finance Disclosure Regulation

ANNEX V

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: Den Sociale Kapitalfond Invest I K/S

Legal entity identifier: CVR no.: 38968815

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable investment objective

Did this financial product have a sustainable investment objective? [tick and fill in as relevant, the percentage figure represents the minimum commitment to sustainable investments]	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: <u>100%</u>	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

MANAGEMENT'S REVIEW

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent was the sustainable investment objective of this financial product met? [list the sustainable investment objective of this financial product, and describe how the sustainable investments contributed to the sustainable investment objective. For the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852, in respect of sustainable investments with environmental objectives, indicate to which environmental objectives set out in Article 9 of Regulation (EU) 2020/852 to the investment underlying the financial product contributed to. For the financial products referred to in Article 9(3) of Regulation (EU) 2019/2088, indicate how the objective of a reduction in carbon emissions was aligned with the Paris Agreement]

The sustainable investment objective is to empower marginalised people and people in marginalised areas through the creation of jobs, training positions, education and enabling services and products via the Fund's investment portfolio.

The sustainable investment objective was met. The Fund's investments collectively employed 155 currently or previously marginalised people at the conclusion of the reference period (including divestments in the period). Investment companies reported that between 15.9% and 26.1% of their workforce was comprised of currently or previously marginalised individuals as determined by the labour market, social sector, or third party based on objectively verifiable factors. This indicates that all investment companies are successfully integrating currently and previously marginalised individuals into their workforce.

● How did the sustainability indicators perform?

An average of 20% of the workforce of portfolio companies are currently or previously marginalised people, based on average inclusion rate.

● ...and compared to previous periods? [include for financial products where at least one previous periodic report was provided]

The sustainability indicators performed slightly better in 2022 as compared to 2021 which reported an average of 19.7%. This is despite new investments made during the reference period (2022), and can be attributed to the work with social impact and good performances in the portfolio companies.

● How did the sustainable investments not cause significant harm to any sustainable investment objective? [include where the financial product includes sustainable investments]

All investments undergo a pre-investment screening and ESG due diligence to ensure that the Fund will contribute to social objectives and will "do no significant harm" to other sustainable investment objectives.

The investments are assessed regularly through an internally developed model that considers each investment's positive and negative impacts on all UN SDGs and the extent of that impact in conjunction with each investment's qualitative and quantitative reporting on principal adverse impact indicators. Based on this assessment, no investment is deemed to have a significant negative impact on sustainability factors.

— How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for adverse impacts on sustainability factors are integrated into the internal due diligence process and annual review for assessing whether an investment caused significant harm.

The Fund does not report externally on principal adverse impact indicators.

MANAGEMENT'S REVIEW

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details: Sustainable investments are aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. All investments are required to report annually on their continued alignment and specific relevant governance practices, and this data is incorporated into the assessment model.

What were the top investments of this financial product?

Largest investments	Sector	% Assets*	Country
Watercare ApS	Water collection, treatment and supply	>12%	Denmark
Tolstrup A/S	Landscape service activities	>12%	Denmark
ProfilService A/S	Cleaning activities	>12%	Denmark
Refurb A/S **	Wholesale of information and communication equipment	>12%	Denmark

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:
01/01/2022 – 31/12/2022

* The investments listed above are all above 12% and together represent more than 50% of the Fund's investments at cost.

** Divested during the reference period (2022)

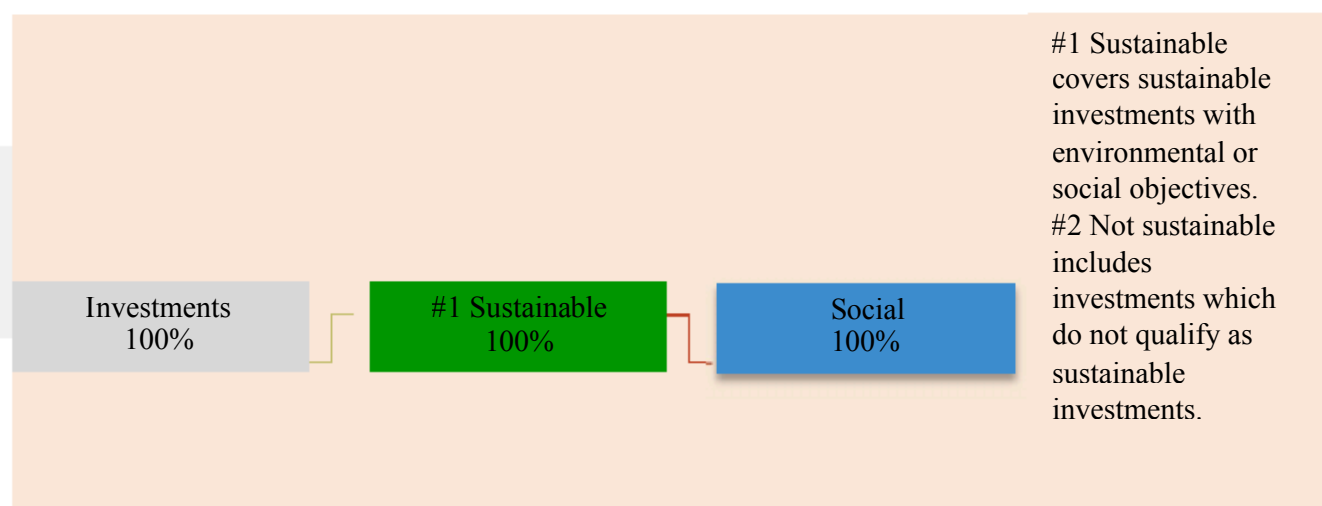

What was the proportion of sustainability-related investments?

What was the asset allocation?

100% of assets are sustainable investments with social objectives.

Asset allocation describes the share of investments in specific assets.

MANAGEMENT'S REVIEW

In which economic sectors were the investments made?

Investments were made in water collection, treatment and supply; landscape service activities; cleaning activities; manufacture of products of wood, cork, straw and plaiting materials; renting and leasing of motor vehicles; manufacture of other special-purpose machinery; warehousing and storage; manufacture of furniture; and wholesale of information and communication equipment.

What was the share of socially sustainable investments? [include only where the financial product includes sustainable investments with a social objective]

100% of investments are socially sustainable.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

No investments were included under “not sustainable”.

What actions have been taken to attain the sustainable investment objective during the reference period? [list the actions taken within the period covered by the periodic report to attain the sustainable investment objective of the financial product, including shareholder engagement as referred to in Article 3g of Directive 2007/36/EC and any other engagement relating to the sustainable investment objective]

Den Sociale Kapitalfond Invest I K/S assesses all potential investments for alignment with the sustainable investment objective prior to investing; companies that do not align with the objective are excluded from investment consideration. The Fund is committed to an active ownership and has undertaken a range of engagement activities with portfolio companies to encourage them to improve practices related to the sustainable investment objective and promote a long-term approach to decision-making, including providing education and external expert guidance to attain this.

FINANCIAL HIGHLIGHTS

Financial Highlights

The financial highlights for the Fund per December 31, 2022, were as follows (2020, 2019 and 2018 are presented according to the Danish Financial Statement Act):

NOTES TO THE FINANCIAL STATEMENTS

1. Summary of significant accounting policies

General information

The Annual Report of the Company has been prepared in accordance with the provisions of the International Financial Reporting Standard which is approved by the EU and further disclosure requirements according to the Danish Financial Statements Act for Class B as well as selected rules applying to reporting class C.

The Annual Report is prepared in TDKK which is the functional currency of the Company.

The most significant elements of the accounting principles applied are described below.

Implementation of new standards, amendments and interpretations

The Company has assessed the effect of the new standards, amendments and interpretations. The Company has concluded that all standards, amendments and interpretations effective for financial years beginning on or after 1 January 2022 are either not relevant to the Company or have no significant effect on the Financial Statements of the Company.

Explanation on omitting consolidated financial statements

Den Sociale Kapitalfond Invest I K/S has multiple unrelated investors and holds multiple investments in both subsidiaries and in associates. The Company has been deemed to meet the definition of an investment entity per IFRS 10 as the following conditions exist:

- 1) The Company has obtained funds for the purpose of providing investors with professional investment management services,
- 2) the Company's business purpose, which was communicated directly to investors, is investing for capital appreciation and investment income and
- 3) the investments are measured and evaluated on a fair value basis.

As the Company meets the conditions above, it is exempt from consolidating its subsidiaries. Instead, it records its controlled investments as financial assets at fair value through profit or loss.

Foreign currency translation

Transactions denominated in foreign currencies are translated at the exchange rates at the date of the transaction.

Receivables, liabilities and other items in foreign currencies which have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date.

Realised and unrealised exchange rate adjustments are included in the income statement as financial income/expenses.

NOTES TO THE FINANCIAL STATEMENTS

Balance sheet

Investments in portfolio companies etc.

Investments in subsidiaries, associates, other securities and investments comprise investments in portfolio companies and are measured at fair value on the balance sheet date. Value adjustments are recognised in the income statement.

Investments in portfolio companies are measured according to the guidelines of the “International Private Equity and Venture Capital” (IPEV) “Valuation Guidelines” which is why investments are recognised at fair value at the balance sheet date.

Unlisted portfolio companies are valued either by way of a capital increase round or part sale based on the value of comparable companies as well as by applying traditional measurement methods.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair value for unlisted equity securities are determined by the General Partner using valuation techniques. Such valuation techniques may include earnings multiples and discounted cash flows. The Partnership adjust the valuation model as deemed necessary for factors such as non-maintainable earnings, tax risk, growth stage and cash traps.

In determining fair value, the General Partner in many instances relies on the financial data of investee portfolio companies and on estimates by the management of the investee portfolio companies as to the effect of future developments. Although the General Partner uses its best judgement, and cross-references results of primary valuation models against secondary models in estimating the fair value of investments, there are inherent limitations in any estimation techniques.

The fair value estimates presented herein are not necessarily indicative of an amount the Partnership could realise in a current transaction. Future confirming events will also affect the estimates of fair value. The effect of such events on the estimates of fair value, including the ultimate liquidation of investments, could be material to the financial statements.

Receivables

Receivables are measured at amortised cost. Write-downs for bad debt are based on individual assessment of receivables.

Equity

An amount corresponding to net positive unrealised value adjustments of investments in subsidiaries and associated companies is presented as “revaluation reserve” under the equity.

Liabilities

Liabilities are measured at amortised cost equal to nominal value.

NOTES TO THE FINANCIAL STATEMENTS

Comprehensive income statement

Value adjustments of investments

The value adjustment of investments in portfolio companies comprises value adjustment realized from sale and value adjustments unrealized from any revaluation or impairment of investments in portfolio companies at fair value. Dividend received from investments are included in value adjustments.

Other external costs

Management fee comprises of management fee for the period calculated according to the Limited Partnership Agreement. Administrative expenses comprise expenses for establishing the Company and managing the operations of the company, including audit costs, legal advisors and other general expenses.

Financial items

Financial income and expense and similar items are recognised in the income statement with the amounts relating to the reporting period. Net financials include interest income and expense and realised and unrealised exchange rate gains and losses on foreign currency transactions.

Tax on profit/loss for the year

The Company is not independently liable to tax and consequently tax has not been recognized.

Cash Flow Statement

The cash flow statement shows the Company's cash flows for the year broken down by operating and financing activities, changes for the year in cash and cash equivalents as well as the Company's cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities are calculated as the net profit/loss for the year adjusted for changes in working capital and non-cash operating items. Working capital comprises movements related to investments, current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flows from financing activities comprise cash flows from payments/distributions and contributions to and from shareholders/limited partners.

Cash and cash equivalents comprise "Cash at bank and in hand" as well as balances in "Credit institutions". The cash flow statement cannot be immediately derived from the published financial records.

NOTES TO THE FINANCIAL STATEMENTS

2. Critical accounting estimates and judgments

Den Sociale Kapitalfond Invest I K/S makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are presented below. Please refer to note 4 for further details on critical accounts estimates and judgements.

Fair value of investments

The fair value of securities that are not quoted in an active market are determined by using valuation techniques described below. The Company's general partner seeks to adhere to Invest Europe's IPEV Valuation Guidelines.

The general partner has chosen to adopt different valuation techniques depending on the portfolio company. For holdings owned for 12 months or more with substantial and sustainable cash flow or earnings, the general partner has adopted a valuation technique using EBITDA. For holdings without significant profits or positive cash flow or owned for less than 12 months, the general partner has maintained cost or the price of a recent investment or the use of multiples based on revenues. Please refer to note 4 for further details on the valuations models and processes.

3. Financial risks and financial instruments

The objective of the Partnership is to achieve medium to long-term positive impact and capital growth through investing in a selection of unlisted private companies operating mainly in the Danish market.

The Partnership's activities expose it to a variety of financial risks: operating risk, market risk, foreign exchange risk, interest rate risk and credit risk.

Special operating risks, market risks and foreign exchange risks

Operating risks

The object of the Company is to contribute venture capital to competitive enterprises. The most important risk factor is therefore changes in the value of the investments made in portfolio companies.

Market risks

The Partnership's Investment Advisor, Den Sociale Kapitalfond Invest Management ApS, provides the General Partner and Partnership with investment recommendations. The Investment Advisor's recommendations are reviewed and approved by the General Partner before the investment decisions are implemented. To manage the market price risk, the Investment Advisor, as engaged by the General Partner to do so, reviews the performance of the portfolio companies on a quarterly basis and is often in contact with the management of the portfolio companies for business and operational matters. Any relevant results of these reviews are communicated to the Partnership.

The portfolio of investments is well diversified among various industries. However, the majority of the investments are in Denmark and a negative event in the Danish capital market would most likely affect the financing and/or exit possibilities in general.

Foreign exchange risks

The Company has no significant risk to changes in the exchange rate since all portfolio investments are made in DKK corresponding to the Company's chosen currency.

NOTES TO THE FINANCIAL STATEMENTS

Foreign exchange sensitivity

The Company is less sensitive to changes in the exchange rate since all portfolio investments are made in DKK corresponding to the Company's chosen currency.

Interest rate risks

The Company is less sensitive to changes in the interest level. Cash carries current interest at fixed-term deposits.

Credit risks

The Company has no significant receivables, why the credit risk is minimal.

Capital risk management

The capital of the Partnership is represented by the net assets attributable to the partners. The Partnership's objective when managing the capital is to safeguard the ability to continue as a going concern in order to provide returns for partners and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Partnership. In order to maintain or adjust the capital structure, the General Partner may call unfunded commitment from the limited partners or distribute funds to the limited partners.

4. Fair value estimation

Methods and assumptions in determining fair value

The valuations process

The valuations are prepared by the relevant team of the Investment Advisor and are reviewed on a quarterly basis as well as per year end by the Investment Advisor who report and make recommendations to the general partner. The recommendations are reported on a quarterly basis, in line with the quarterly valuations that are provided to investors. The Investment Advisor considers the appropriateness of the valuation model itself, the significant and key inputs as well as the valuation results using various valuation methods and techniques generally recognized as standard within the industry. The fair value estimates are measured according to the guidelines of the "International Private Equity and Venture Capital" (IPEV) "Valuation Guidelines" which is why investments are recognized at fair value at the balance sheet date.

In determining the valuation recommended to the General Partner for Partnership's investments, the Investment Advisor utilizes comparable trading multiples in arriving at the valuation. In accordance with the Partnership's policy the Investment Advisor determines appropriate public companies based on industry, size, development stage, revenue generation and strategy. The Investment Advisor then calculate a trading multiple for each comparable company identified and the mean multiple of the peer group. The multiple is calculated by dividing the enterprise value (EV) with EBITDA or Sales. The valuation multiple for an investment is calculated by indexing the entry multiple to the development of the mean multiple of the peer group since entry.

In determining the continued appropriateness of the chosen valuation techniques, the valuation committee may perform back testing to consider the various models' actual results and how they have historically aligned with the market transactions.

Fair value hierarchy for financial instruments

International Financial Reporting Standards require Den Sociale Kapitalfond Invest I K/S to classify, for disclosure purposes, fair value measurements using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The fair value hierarchy has the following levels:

NOTES TO THE FINANCIAL STATEMENTS

Level 1: inputs are quoted (unadjusted) in active markets for identical assets or liabilities that Den Sociale Kapitalfond Invest I K/S can access at the measurement date;

Level 2: inputs are inputs other than quoted prices included within level 1 that are observable for the assets or the liability, either direct or indirect;

Level 3: inputs are unobservable inputs that have been applied in valuing the respective asset or liability.

The determination of what constitutes “observable” requires significant judgement by Den Sociale Kapitalfond Invest I K/S. The Company considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are involved in the relevant market.

The following table shows the classification of the financial instruments, measured at fair value. The values is classified in respect of the fair value hierarchy.

	Level 1 MDKK	Level 2 MDKK	Level 3 MDKK	Total MDKK
2022				
Quoted investments (portfolio Companies)	0	0	0	0
Unquoted investments (portfolio Companies)	0	46	127	173
Financial instruments, measured at fair value	0	46	127	173
2021				
Quoted investments (portfolio Companies)	0	0	0	0
Unquoted investments (portfolio Companies)	0	0	156	156
Financial instruments, measured at fair value	0	0	156	156

NOTES TO THE FINANCIAL STATEMENTS

Significant unobservable inputs at level 3

Investments classified within level 3, has been valued based on significant unobservable inputs, as they trade infrequently. As quoted market prices are not available for these investments, the general partner has used valuation techniques to determine fair value. In order to assess the valuation made for investments within level 3, the Investment Advisor reviews the performance of the portfolio companies. Furthermore, the Investment Advisor is regularly in contact with the management of the portfolio companies in order to make assessments of business and operational matter which are considered in the valuation process. Where appropriate the Investment Advisor also track peer group company multiples, recent transaction results and credit ratings for similar companies.

	<u>EV/EBITDA</u>	<u>EV/EBITDA</u>
	Range used	Weighted average
Level of applied EBITDA multiples, 2022	5.1 – 5,4	5,27
Level of applied EBITDA multiples, 202 1	6.0 – 10.8	7.87

For 2022 the change in valuations are mainly driven by the performance in investments.

Sensitivity analyse

The fair value of the Company's portfolio companies is affected by the development in applied multiples. A change in significant unobservable input will have an effect on the valuation of the portfolio companies, as well as the fair value will be affected of development in general macro – economic conditions.

A change of applied multiples of 10 % will have the following effect on the fair value.

Change in applied multiples of 10%, 2022 – MDKK 14.1

Change in applied multiples of 10%, 2021 – MDKK 16.4

5. Financial assets at fair value through profit or loss

Company Classification	<u>Geography</u>	<u>2022</u>		<u>20 21</u>	
		<u>Cost of investment</u>	<u>Fair value</u>	<u>Cost of investment</u>	<u>Fair value</u>
		MDKK	MDKK	MDKK	MDKK
