The accounting policies applied are consistent with those of last year.

The annual report for 2022 is presented in DKK

Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any installments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report is presented and which confirm or invalidate matters existing at the balance sheet date.

NOTES

1 UNCERTAINTY ABOUT THE CONTINUED OPERATION (GOING CONCERN)

The company has incurred a net loss of 708 TDKK during the year ended December 31, 2022 and, as of that date, the Company's current liabilities exceeded its current assets by 4,623 TDKK.

The company is dependent on that the IWG Group regularly provides the necessary liquidity to ensure that the company is able to meet its liabilities as they fall due until the annual general meeting where the annual report of 2022 is approved.

No commitments on financial support has been given from the owners, which indicates that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern.

Management however expects that the owners have the ability to pay, for which reason the financial statements for the year ended 31 December 2022 have been prepared on a going concern basis.
