MANAGEMENT'S STATEMENT

The Management have today discussed and approved the Annual Report of Albatros Travel International ApS for the financial year 1 January – 31 December 2024.

The Annual Report has been prepared in accordance with the Danish Financial Statements Act.

In my opinion, the Financial Statement gives a true and fair view of the Company's financial position at 31 December 2024 and of the results of the Company's operations and cash flows for the financial year 1 January - 31 December 2024.

In my opinion, the Management's Review gives a fair review of the development in the Company's operations and financial matters and the results of the Company's operations and financial position.

I recommend that the Annual Report be approved at the Annual General Meeting.

Copenhagen, March 31st 2025

Management:

Martin Berg Hansen

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Albatros Travel International ApS

Opinion

We have audited the Financial Statements of Albatros Travel International ApS the financial year 1 January - December 2024, which comprise income statement, balancesheet, statement of changes in equity and notes including a summary of significant accounting policies. The Financial Statements are prepared under the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2024, and of the results of the Company operations for the financial year 1 January - 31 December 2024 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Consolidated Financial Statements and the Parent Company Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements and the Parent Company Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group Financial Statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statement Acts. We did not identify any material misstatement of Management's Review.

MANAGEMENT'S REVIEW

Main activity of the Company

The main activity of the Company is shareholding in international activities within the travel industry.

Development in the Company's activities

In 2024 the Company has made a net loss before tax of 23 tDKK.

Events after the financial year

No significant events have occurred after the end of the financial year that could have affected the assesment of assessment of the Company's financial position as per December 31, 2024.

Uncertainties and unusual conditions

In the management's opinion, there are no specific uncertainties or unusual conditions that affect the recognition and measurement in the annual report.

ACCOUNTING POLICIES

The Annual Report of Albatros Travel International ApS has been prepared in accordance with the provisions of the Danish Financial Statements Act for companies in accounting class B.

The accounting policies used are consistent with those of last year.

According to the Danish Financial Statements Act, Article 112, Paragraph 1, no Consolidated Financial Statement has been made. The Company is a part of the Consolidated Financial Statement for Albatros Holding ApS.

By the imperatives of competition and according to the Danish Financial Statements Act, Article 96, Paragraph 1, segment information has been omitted.

General information regarding recognition and measurement

Income is recognised in the income statement as incurred including value adjustments of financial assets and liabilities, which are measured at fair value or amortized cost. Furthermore, costs paid to achieve revenue for the year are recognised including depreciation, impairment loss and provisions.

Transactions in foreign currencies are converted at initial recognition at the exchange rate of the transaction day. Debtors, debts and other monetary items in foreign currency, which have not been recognised on the balance sheet day, will be converted at the rate on the balance sheet day. Differences in exchange rates arising between the exchange rate on the transaction date and the date of payment are recognised in the income statement as financial accounts.

Assets are recognized in the balance sheet when it is probable that future economic benefits will flow to the company and the asset can be measured in a reliable manner.

On initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Certain financial assets and liabilities are measured at amortized cost including the recognition of a constant effective interest during the term. Amortized cost is calculated as original cost less any instalments as well as extra payment/deductions of the accumulated amortization of the difference between cost and nominal amount.

In regards to recognition and measurement, predictable losses and risks that arise before the annual report and that confirm or invalidate matters existing on the balance sheet day are taken into account.

Conversion of foreign currencies

Transactions in foreign currencies during the year are converted at periodically regulated standard exchange rates or average exchange rates.

Balances that are payable in foreign currency are converted at the exchange rates as per the official exchange rates on the balance sheet date.

ACCOUNTING POLICIES

INCOME STATEMENT

External expenses

External costs include sales, administration, property, development and lease costs.

Financial income and expenses

Financial income and expenses include interest, capital gains and losses on securities, payables and transactions in foreign currencies, amortization of financial assets and liabilities as well as surcharges and allowances under the on-account tax scheme etc.

Realized and unrealized exchange rate adjustments are included in the income statement under financial income or expenses.

Realized and unrealized market value adjustments from securities are recognized in the income statement under financial income or expenses.

Investments in subsidiaries

The income statement includes the proportionate share of the subsidiaries' net profit after full elimination of intercompany profit/loss.

Tax on profit for the year

Income tax expenses include current tax on the expected taxable income and the adjustment of deferred tax for the year less the amount of net tax related to equity. Current and deferred tax relating to equity is recognised directly in equity. The Company and the Danish subsidiaries are jointly taxed. The Danish corporation tax is divided between profitable and loss-making Danish companies in proportion to their taxable income (full allocation).

Other taxes consist of taxes and duties in the year that are independent of the Company's operations. The company is jointly taxed with the parent company Albatros Holding ApS. Corporation tax is refunded amongst the companies.

BALANCE SHEET

The balance is set in the account form

All other leases are operating leases. Payments made regarding operating leases and other leases are recognised in the income statement over the lease term. The Company's total liability relating to operating leases and rental agreements are recognised under contingent liabilities etc.

Investments in subsidiaries

Investments in subsidiaries are recognized in the balance sheet at the proportionate share of the net asset value calculated in accordance with the parent company's accounting policies minus or plus unrealized intercompany gains and losses and less any residual value of positive or negative goodwill calculated using the acquisition method.

Subsidiaries with a negative equity value are recognised at DKK 0, and any receivables from these enterprises are written down by the parent company's share of the negative equity if it is deemed irrecoverable. If the negative net asset value exceeds receivables, the balance is recognised under provisions if the parent company has a legal or constructive obligation to cover the subsidiary's deficit.

Net revaluation of investments in subsidiaries are transferred in equity to reserves for net revaluation under the equity method of accounting to the extent the amount exceeds cost less depreciation and write-down of goodwill.

Newly acquired or established companies are recognised in the financial statement from the acquisition date. Enterprises disposed of are recognised until the date of disposal.

Gains or losses on disposal of subsidiaries are calculated as the difference between the sales price and the carrying value of net assets at the time of sale including not written-down goodwill and expected costs of sale or disposal. Gains and losses are recognised in the income statement under financial items.

Subsidiaries are acquired using the acquisition method, after which the assets and liabilities of the newly acquired companies are measured at fair value on the acquisition date. The tax effect of any reassessments is taken into account.

ACCOUNTING POLICIES

Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value. Provisions are made for anticipated losses on realization.

Prepayments

Prepayments recognised in assets comprise costs incurred concerning subsequent financial years.

LIABILITIES

Equity

The expected dividend payment for the year is shown as a separate item under equity. Dividends are recognized as a liability at the time of adoption at the general meeting.

Provisions

Deferred tax

Deferred tax and the year's adjustment thereof is measured using the balance sheet liability method as the tax value of all temporary differences between accounting and tax values of assets and liabilities.

Deferred tax assets including the tax value of deferrable tax loss are recognized at the value at which they are expected to be utilized, either by elimination in tax on future earnings or against deferred tax liabilities of companies within the same legal tax entity and jurisdiction.

Deferred tax is measured on the basis of the tax rules and tax rates at the balance sheet date that will be applicable when the deferred tax is expected to crystallize as current tax.

Other provisions

Other provisions include expected costs for warranties, termination of activity, restructuring etc. Provisions are recognised when the Company at the balance sheet date has a legal or constructive obligation and it is probable that settlement will require an outflow of financial resources.

Provisions that are expected to be settled later than one year from the balance sheet date are measured at the present value of the expected payments. Other provisions are measured at net realisable value.

Financial - Liabilities

Financial liabilities are recognised initially at the proceeds received, net of transaction costs incurred. In subsequent periods, financial liabilities are measured at amortized cost equal to the capitalized value using the redemption yield, so the difference between the proceeds and the nominal value is recognized in the income statement over the loan period.

Financial liabilities also include the capitalized residual obligation on finance leases.

Other liabilities are measured at net realizable value.
