Management's statement

Today, the Board of Directors and the Managing Director have approved the annual report of Magasin Lyngby A/S for the financial year 1 January - 31 December 2023.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

We consider the chosen accounting policy to be appropriate, and in our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2023 and of the results of the Company's operations for the financial year 1 January – 31 December 2023.

Further, in our opinion, the Management's review gives a true and fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the Annual General Meeting.

Independent auditor's report

To the Shareholder of Magasin Lyngby A/S

Opinion

We have audited the financial statements of Magasin Lyngby A/S for the financial year 1 January - 31 December 2023, which comprise a summary of significant accounting policies, income statement, balance sheet, statement of changes in equity and notes, for the Company. The financial statements are prepared under the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2023, and of the results of the Company's operations for the financial year 1 January - 31 December 2023 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Independent auditor's report

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

Independent auditor's report

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of Management's Review.

Parent company

Emil Retail Holding ApS

Management's review

The principal activities of the company

The company's sole activity consists of owning and managing the property located at Lyngby Hovedgade 43, 2800 Kongens Lyngby.

Development in activities and financial matters

On December 1, 2022, EMIL Retail Holding ApS resumed ownership of the company from ATP Property Development and Pension Denmark. The change of ownership had no major effect on the company activities or financial matters, apart from the fact that the company under the new ownership is liable for corporate tax. The company was exempt from corporate tax under the previous ownership.

The Net profit for the year was 14,6 mio. DKK versus a loss of 31 mio. DKK in 2022. The difference is mainly due to value adjustments of the property. The result is considered satisfactory.

The total Equity of the company is 244 mio. DKK by 31 December 2023

Expected developments

Management expect that the company's activities and profit before value adjustments for 2024 will be at the same level as 2023

Financial risks and the use of financial instruments

The company's risk factors are evaluated on the following areas:

Operational risks

The company's operational risks primarily include failing rental income, or facing increasing operations and maintenance costs. The main risks for failing rental income consist of the tenant's termination of the tenancy or the tenant's loss of ability to pay. In some of the lease agreements, prepayments and deposits mitigate the risk.

A significant part of the company's income comes from a single tenant within the retail segment, with whom a lease has been entered into with a long-term non-cancellation period. This tenant is a well-consolidated company under the same ownership as Magasin Lyngby ApS.

Insurance risks

The company's property is fully insured of its indicative value.

Management's review

Market risks

The property is valued by the below principles similar to previous years.

The property is valued at market value based on an individual annual assessment. The market value calculations are based on The Danish Financial Supervisory Authority's current guidance, where a return-based model is chosen.

The market value is calculated for the individual properties based on a number of assumptions, including the individual properties' budgeted net income as well as a fixed discount factor, cf. the mention of this in the description of accounting policies. The discount factors are set based on external brokers' assessment of the market level and reflects the market's current return requirement for the equivalent properties.

Interest rate risks

The company has taken out loans from a Danish credit institution. The interest is a mix of fixed and variable rates.

Foreign currency risks

The company does not have any currency risks, as both external funding and the company's income and costs are settled in Danish Kroner.

Events occurring after the end of the financial year

No major events have occurred after the balance sheet day.

Accounting policies

The annual report for Magasin Lyngby A/S has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises. Furthermore, the company has decided to comply with certain rules applying to reporting class C enterprises.

The accounting policies are unchanged from last year, and the annual report is presented in DKK.

Cf. ÅRL § 23 subsection 4, the arrangement of the income statement and balance has been adapted, as well as designation of accounting items, thus the annual report in the opinion of the management, provides a fair picture of the company's special activities.

Recognition and measurement in general

Income is recognised in the income statement concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs are recognised in the income statement, including depreciations amortisations, writedowns for impairment, provisions, and reversals due to changes in estimated amounts previously recognised in the income statement.

Assets are recognised in the statement of financial position when it seems probable that future economic benefits will flow to the company and the value of the asset can be reliably measured.

Liabilities are recognised in the statement of financial position when it is seems probable that future economic benefits will flow out of the company and the value of the liability can be reliably measured.

Assets and liabilities are measured at cost at the initial recognition. Hereafter, assets and liabilities are measured as described below for each individual accounting item.

Income statement

Rental income from investment property

Rental income comprises income from the lease of property and from overhead costs collected and is recognised in the income statement for the period relating to the lease payment. Income from the heating account is recognised in the statement of financial position as a balance with lessees.

Costs concerning investment property

Costs concerning investment property comprise operating costs, repair and maintenance costs, taxes, fees, charges, and other costs. Costs concerning the heating account are recognised in the statement of financial position as a balance with lessees.

Administration expenses

Administration expenses comprise expenses incurred during the year concerning management, administration of the property as well as general administration fees.

Accounting policies

Value adjustment of investment property

Value adjustment of investment property comprises value adjustments of properties at fair value and profit or loss from the disposal of properties.

Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, financial expenses from financial leasing, realised and unrealised capital gains and losses relating to securities, debt and transactions in foreign currency, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognised in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

The company is subject to Danish rules on compulsory joint taxation of Danish group enterprises.

The current Danish income tax is allocated among the jointly taxed companies proportional to their respective taxable income (full allocation with reimbursement of tax losses).

Statement of financial position

Investment properties

At the initial recognition, investment properties are measured at cost, comprising the cost price of the property and any directly related costs.

Subsequent investment properties are measured separately at an estimated fair value corresponding to the amount each property is estimated to fetch on the balance sheet date from an independent buyer. The company uses a valuation expert for calculating the fair value of the properties.

Costs adding new or improved qualities to an investment property compared to its condition at the time of acquisition, thereby improving the future return on the property, are added to the cost as an improvement. Costs which do not add new or improved qualities to an investment property are recognized in the income statement under the item "Costs concerning investment property".

Like other property, plant, and equipment except for land, investment property has a limited economic life. The impairment taking place concurrently with the ageing of the investment property is reflected in the continuing measurement of the investment property at fair value. Therefore, no systematic depreciations are made over the useful life of the investment property.

Value adjustments are recognized in the income statement under the item "Value adjustments of property".

Accounting policies

Impairment loss relating to non-current assets

The carrying amount of both intangible and tangible fixed assets are subject to annual impairment tests in order to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. Writedown for impairment is done to the recoverable amount if this value is lower than the carrying amount.

The recoverable amount is the higher value of value in use and selling price less expected selling cost. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the asset group and expected net cash flows from the sale of the asset or the asset group after the end of their useful life.

Previously recognised impairment losses are reversed when conditions for impairment no longer exist. Impairment relating to goodwill is not reversed.

Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank.

Income tax and deferred tax

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

The company is jointly taxed with consolidated Danish companies. The current corporate income tax is distributed between the jointly taxed companies in proportion to their taxable income and with full distribution with reimbursement as to tax losses. The jointly taxed companies are comprised by the Danish tax prepayment scheme.

Joint taxation contributions payable and receivable are recognised in the statement of financial position as "Tax receivables from group enterprises" or "Income tax payable to group enterprises"

According to the rules of joint taxation, Magasin Lyngby A/S is unlimitedly, jointly, and severally liable to pay the Danish tax authorities the total income tax, including withholding tax on interest, royalties, and dividends, arising from the jointly taxed group of companies.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Accounting policies

Adjustments take place in relation to deferred tax concerning elimination of unrealised intercompany gains and losses.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation prevailing in the respective countries on the reporting date when the deferred tax is expected to be released as current tax. Changes in deferred tax due to changed tax rates are recognised in the income statement, except for items included directly in the equity.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realisable value.

Liabilities other than provisions

Mortgage loans and bank loans are thus measured at amortised cost which, for cash loans, corresponds to the outstanding payables. For bond loans, the amortised cost corresponds to an outstanding payable calculated as the underlying cash value at the date of borrowing, adjusted by amortisation of the market value on the date of the borrowing effectuated over the repayment period.

Other liabilities concerning payables to suppliers, group enterprises, and other payables are measured at amortised cost which usually corresponds to the nominal value.

Deferred income

Payments received concerning future income are recognised under deferred income.

Carrying amount, 31 December 2023	<u>804.336</u>	<u>794.298</u>

The company's investment properties comprise commercial properties totalling 29.600 m² in Lyngby.

As per the description of the accounting policies applied, investment properties are measured at fair value (Level 3 in the fair value hierarchy) and, in accordance with the valuation report. The fair value of the property as a rental property is reported as t.DKK 804.336, as per the valuation report. This valuation is based on a return-based model, using a discount rate of 4,5 percent, which includes consideration for inflation.

Sensitivity analysis in valuation report

The fair value of the investment properties total t.DKK 804.336 as at 31 December 2023. The determined fair value is an estimate made based on available information and current future expectations. The valuation report's sensitivity analysis indicates that an increase in the discount rate of return of 0,25 percentage point per property would result in a decrease in the fair value by t.DKK 42.333. A decrease in the discount rate of 0,25 percentage point per property would result in an increase in fair value by t.DKK 47.313.

7. Contingencies

Contingent liabilities

Joint taxation

With EMIL Retail Holding ApS, company reg. no 42 40 11 02 as administration company, the company is subject to the Danish scheme of joint taxation and unlimitedly, jointly, and severally liable, along with the other jointly taxed companies, for the total corporation tax.

The company is unlimitedly, jointly, and severally liable, along with the other jointly taxed companies, for any obligations to withhold tax on interest, royalties, and dividends.

The jointly taxed enterprises' total known net liability to the Danish tax authorities emerges from the financial statements of the administration company.

Any subsequent adjustments of corporate taxes or withholding tax, etc., may result in changes in the company's liabilities.

8. Related parties

Consolidated financial statements

The company is a wholly owned subsidiary of EMIL Retail Holding ApS and is included in that company's consolidated financial statements, which are publicly available.
