Statement by the General Partner on the annual report

The Executive Board in Sunstone LSV General Partner II ApS has today considered and approved the annual report of Sunstone Life Science Ventures Fund II K/S (“the Fund”) for the financial year 01.01.2022 - 31.12.2022.

The financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU and Danish disclosure requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Fund’s financial position at 31.12.2022 and of the results of its operations and cash flows for the financial year 01.01.2022 - 31.12.2022.

In our opinion, the management commentary contains a fair review of the development of the Fund’s business and financial matters, the results for the year and of the Fund’s financial position as a whole, together with a description of the principal risks and uncertainties that the Fund faces.

We recommend the annual report for adoption at the Annual General Meeting.

Copenhagen, 26.01.2023

Independent auditor's report

To the General Partner and Limited Partners of Sunstone Life Science Ventures Fund II K/S

Opinion

We have audited the financial statements of Sunstone Life Science Ventures Fund II K/S ("the Fund") for the financial year 01.01.2022 - 31.12.2022, which comprise the statement of comprehensive income, the statement of financial position, the statement of changes in equity, the statement of cash flows, and notes, including a summary of significant accounting policies. The financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Fund's financial position at 31.12.2022 and of the results of its operations and cash flows for the financial year 01.01.2022 - 31.12.2022 in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's responsibilities for the audit of the financial statements section of this auditor's report. We are independent of the Fund in accordance with the International Ethics Standards Board of Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

General Partner's responsibilities for the financial statements

The General Partner is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act, and for such internal control as the General Partner determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the General Partner is responsible for assessing the Fund's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the financial statements unless the General Partner either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the General Partner.
- Conclude on the appropriateness of the General Partner's use of the going concern basis of accounting in preparing the financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures in the notes, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report

Statement on the Management commentary

The General Partner is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

Management commentary

Primary activities

Sunstone Life Science Ventures Fund II K/S invests in early-stage life science companies mainly located in the Nordic countries, Germany and Switzerland.

A team of investment professionals in Denmark is responsible for the investment management.

Development in activities and finances

The Fund was established on 8 May 2007. At the end of 2022, the Fund holds 3 active portfolio enterprises.

The result for the year shows a loss of DKK 74.8 million, which is primarily related to fair value loss from its investments in portfolio enterprises.

Future results of Sunstone Life Science Ventures Fund II K/S are dependent on the development in the value of the Fund's investment in portfolio enterprises.

Development in selected portfolio enterprises

Below descriptions do not include all portfolio enterprises within the Fund, but only selected portfolio enterprises, which are considered most important to highlight.

Alligator Biosciences AB: Located in Lund, Sweden, develops antibodies for immunotherapy in certain types of cancer. The company is listed on Nasdaq OMX Mid Cap Stockholm. News about the company can be found on www.alligatorbioscience.se/en/news/.

Arcoma AB: Located in Växjö, Sweden, develops advanced digital radiographic systems for optimal workflow, diagnostics and treatment. The company is listed on NASDAQ OMX Nordic Exchange Stockholm. News about the company can be found on www.arcoma.se/about-us/news-center/.

Ascelia Pharma AB: Located in Lund, Sweden, develops a contrast agent for MR imaging of the liver. The company is listed on NASDAQ Exchange Stockholm. News about the company can be found on www.ascelia.com/mfn_news/.

Uncertainty relating to recognition and measurement

When preparing the Fund's annual report, the General Partner, in accordance with legislative provisions, makes accounting judgements and estimates which form the basis of the annual report.

The accounting judgement and estimates made by the General Partner are described in the note 2 "Critical accounting judgements, estimates, assumptions and uncertainties" to which we refer. Such estimates are primarily relating to the measurement of investments in portfolio enterprises made on the basis of assumptions which the General Partner considers reasonable and realistic, but which are uncertain by nature.

Management commentary (continued)

For the current year, the General Partner has among others also taken into consideration the effects of the increasing inflation in the commodity prices, higher increasing interest rates all and decrease in listed stock markets during 2022. Furthermore, the effect of the war between Ukraine and Russia has been considered.

The Fund itself has not been affected by the above factors. However, the two factors have affected – both positively and negatively - the operations of many of the Fund's portfolio enterprises, which have been taken into consideration when determining the fair value of investments in portfolio enterprises.

As the Fund invests in unlisted equity investments within the venture environment, the valuation is characterised by uncertainty as a result of the industry in general and current macroeconomic conditions. As a result, the valuation is associated with uncertainty, just as the valuation is dependent on the future execution of the strategy by the individual companies. In periods of high economic uncertainty, the uncertainty surrounding the valuation will also be greater.

Unusual circumstances affecting recognition and measurement

Except for the fair value changes on investments, the financial statements are not influenced by unusual circumstances.

Events after the balance sheet date

No events have occurred after the balance sheet date to this date which would influence the evaluation of this annual report.

Outlook

Future results of Sunstone Life Science Ventures Fund II K/S depend on the development in the value of the Fund's investment in portfolio enterprises. Due to the Funds nature, no range for future resultats can be estimated.

Notes

1. Overview of business

Sunstone Life Science Ventures Fund II K/S (“the Fund”) invests in early-stage life science companies mainly located in the Nordic countries, Germany and Switzerland.

Administrative and investment work is performed by Sunstone Life Science Ventures A/S.

Sunstone Life Science Ventures Fund II K/S has its registered office at Store Strandstræde 18 A, st., 1255 Copenhagen K, Denmark, and is incorporated in Denmark as a Danish limited partnership under the laws of Denmark. The General Partner of the Fund is Sunstone LSV General Partner II ApS.

The Fund is classified as article 6 under the SFDR-legislation, and hence the SFDR appendix is not included. Further, the Investments underlying this Financial Product do not take into account the EU criteria for environmentally sustainable economic activities in accordance with article 6.

2. Accounting policies

The financial statements of Sunstone Life Science Ventures Fund II K/S for 2022 are prepared in accordance with International Financial Reporting Standards as approved by the EU and disclosure requirements of the Danish Financial Statements Act governing reporting class B enterprises as further outlined in the Danish Executive Order on Adoption of IFRS issued in accordance with the Danish Financial Statements Act.

The financial statements are presented in Danish kroner (DKK), which is the functional currency of the Fund.

The financial statements are presented based on historical costs apart from investments in portfolio enterprises, which are measured at fair value.

Statement regarding the omission of consolidated financial statements

With reference to IFRS 10, the General Partner of Sunstone Life Science Ventures Fund II K/S has assessed that the Fund meets the definition of an investment company as the following conditions exist:

- 1) The Fund has more than one portfolio investment.
- 2) The Fund has more than one investor, and the investors are not related to each other.
- 3) The Fund’s investments in portfolio enterprises primarily occur as equity instruments or similar investments.
- 4) The investments are measured and evaluated on a fair value basis.

As a result, the General Partner has decided to apply the exemption rule in IFRS 10 not to prepare consolidated financial statements where the controlled subsidiaries are consolidated, and instead any controlled subsidiaries are accounted for at fair value through profit or loss.

Notes

2. Accounting policies (continued)

Similarly, Sunstone Life Science Ventures Fund II K/S holds investments in portfolio enterprises, which meet the definition of an associate over which the Fund has significant influence. Such investments are also accounted for at fair value through profit or loss whereby all investments are treated as investments in portfolio enterprises at fair value through profit or loss no matter the ownership share

Standards and interpretations not yet effective

None of the new and changed standards and interpretations issued by the International Accounting Standards Board and IFRS Interpretation Committee effective for the financial period beginning at 1 January 2022 have been assessed to have any impact on the financial reporting for Sunstone Life Science Ventures Fund II K/S for 2022 or future years.

At the time of publication of the financial statements, new or changed standards and interpretations have not yet become effective. It is the General Partner's assessment that these new standards and interpretations will not materially impact the financial statements for the forthcoming years.

Significant accounting policies and estimates

When preparing the financial statements, the General Partner makes several accounting estimates forming the basis for the presentation, recognition and measurement of the Fund's assets and liabilities. The most significant accounting estimates and assessments are presented in note 2.

Foreign currency translation

On initial recognition, transactions made in a different currency than the Fund's functional currency are translated applying the exchange rate at the transaction date.

Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the one in effect at the payment date or the rate at the balance sheet date are recognised in the statement of comprehensive income as financial income or financial expenses.

Exchange rate adjustments relating to investments in portfolio enterprises are presented in the statement of comprehensive income together with other fair value adjustments concerning the investments.

Income taxes

The annual report does not include current or deferred tax due to the corporate form of the Fund being tax-transparent.

Notes

2. Accounting policies (continued)

Statement of comprehensive income

Income from investments in portfolio enterprises

Income from investments in portfolio enterprises comprises gains/losses from divestments, fair value changes and received dividends and other similar types of returns from the investments.

Gains/losses from divestment of investments in portfolio enterprises are stated as the difference between the selling price or disposal consideration and the carrying amount of the portfolio enterprises at the time of sale or disposal, respectively.

Dividends from investments in portfolio enterprises are recognised as income when final entitlement to the dividends is obtained, which is usually at the time of the approval of the declaring dividends by the portfolio enterprise.

Administrative expenses and other operating expenses

Other operating expenses include general costs and administrative expenses include management fee to the management company, Sunstone Life Science Ventures A/S.

Financial expenses

Other financial expenses comprise interest expenses and negative interest income, which are accrued based on the principal amount and the effective interest rate.

The effective interest rate represents the discount rate which should be used when discounting future payments related to the financial asset or the financial liability, in order for the present value of these to correspond with the carrying amount of the asset and the liability, respectively.

Balance sheet

Investments in portfolio enterprises

Investments in portfolio enterprises comprise equity investments in portfolio enterprises and loans to portfolio enterprises measured at fair value through profit or loss.

The Fund measures fair value using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements

- Level 1: Fair value of investments, which are traded on a stock exchange, is based on the quoted market prices at the reporting date.

Notes

2. Accounting policies (continued)

- Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using (i) quoted market prices in active markets for similar instruments (ii) quoted prices for identical or similar instruments in markets that are not considered active, or (iii) other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3: Inputs that are unobservable. The fair value of the unlisted investments is determined in accordance with IPEV's Valuation Guidelines, according to which the fair value – depending on the type and maturity of the investment – is determined to be equal to cost (typically applied for new investments), the price of recent investments, multiple-based calculations based on industry benchmarks or discounted cash flow models. The price of a recent investment is only applied if the transaction includes the participation of new investors obtaining more than an insignificant ownership share in the portfolio enterprise.

The objective of valuation techniques is to determine a fair value that reflects the price that would be received from selling portfolio enterprises in an orderly transaction between market participants at the balance sheet date.

Other financial liabilities

Other financial liabilities comprise other payables.

Statement of cash flows

The statement of cash flows is presented using the indirect method and shows cash flows from operating, investing and financing activities as well as cash and cash equivalents at the beginning and the end of the financial year.

Cash flows from operating activities are presented as the operating profit/loss adjusted for non-cash operating items, including fair value adjustments of investments in portfolio enterprises and working capital changes attributable to the operating activities.

Cash flows from investing activities comprise payments in connection with investments, including follow-up investments and proceeds from divestment of portfolio enterprises.

Cash flows from financing activities comprise changes in the Limited Partners' contributions, distributions to Limited Partners as well as the raising of loans and instalments on interest-bearing debt, if any.

Notes

3. Critical accounting judgements, estimates, assumptions and uncertainties

Sunstone Life Science Ventures Fund II K/S invests in portfolio enterprises, which primarily includes equity investments and to a smaller extent contribution of loans to development-oriented enterprises, and which may require continuous contribution of capital. The investments are accounted for at a fair value through profit or loss.

When measuring the fair value of the unlisted investments, the General Partner assesses the development stage of the portfolio enterprises compared to the initial plans at the time of making the initial investments, future financing requirements, commercialisation possibilities, timing of exit and possible exit values.

The fair value of each unlisted portfolio enterprise is determined in accordance with commonly used valuation principles based on the IPEV Valuation Guidelines, taking into account the assessment of the development stage of the enterprise as well as its market potential and expected cash flows in order to reflect the fair value of the portfolio enterprise in the best way possible.

As the Fund invests in unlisted equity investments within the venture environment, the valuation is characterised by uncertainty as a result of the industry in general and current macroeconomic conditions. As a result, the valuation is associated with uncertainty, just as the valuation is dependent on the future execution of the strategy by the individual companies. In periods of high economic uncertainty, the uncertainty surrounding the valuation will also be greater.

Methods and assumptions for determining the fair value of investments in unlisted portfolio enterprises are further described in note 6.

4. Income from investments in portfolio enterprises

	2022	2021
	<u>DKK'000</u>	<u>DKK'000</u>
Realised gain/(loss)	(389)	50,196
Fair value gain/(loss)	<u>(73,011)</u>	<u>(237,851)</u>
Income from investments in portfolio enterprises (negative)	<u>(73,400)</u>	<u>(187,655)</u>

Notes

5. Expenses

The Fund had no employees during the financial year.

Administrative and Investment work is performed by Sunstone Life Science Ventures A/S (see note 11).

Administration expenses cover fee to Sunstone Life Science Ventures A/S of DKK 1,214 thousand (2021: 1,281 thousand) and management fee to the General Partner of DKK 50 thousand (2021: DKK 38 thousand). Other expenses cover audit and legal fees of DKK 109 thousand (2021: 92 thousand).

	2022	2021
	<u>DKK'000</u>	<u>DKK'000</u>

Carrying amount end of year	<u>68,511</u>	<u>145.132</u>

*The Fund has issued convertible bonds of DKK 0 as part of the carrying amount at end of year.

Equity investments include both direct Equity investments as well as convertible bonds, which have been entered into and converted to Equity instruments by subsequent capital rounds in the underlying portfolio enterprises. Investments via convertible bonds are normal practice within the venture fund, and are entered into solely for the purpose of future Equity conversions. As a result, it is considered most fair to show these together, just as the instruments have the same risk profile as the rest of the portfolio.

The convertible bonds have a fixed interest rate, which is according to normal practice in the industry. The convertible bonds are not recognised on an ongoing basis due to the fact that the interest income cannot be calculated reliably, and the Fund's ability to repay principal and accrued interest will depend on new investment rounds of capital.

Notes

6. Investments in portfolio enterprises (continued)

Portfolio enterprise	Corporate form	Registered in	Equity interest %
Active investments			
Alligator Biosciences	AB	Sweden	2.6
Arcoma	AB	Sweden	22.1
Ascelia Pharma	AB	Sweden	13.7
Non-active investments			
Anergis	S.A.	Switzerland	14.0
JenaValve Technology	Inc.	Germany	2.4

The General Partner regularly and at least on a quarterly basis reviews the fair value of its portfolio enterprises in connection with its non-public reporting to its Limited Partners and in connection with the preparation of the annual financial statements.

The Fund's portfolio enterprises are not classified as investment companies. They are engaged in doing business in development and trading, etc. The Fund has no limitations concerning the potential reception of dividends or having loans etc. repaid from the portfolio enterprises, apart from the fact that distribution from the portfolio enterprises can only take place if it is considered proper and prudent.

Methods and assumptions for determining fair values in unlisted portfolio enterprises

The fair value for each unlisted portfolio enterprise is determined based on methods which best reflect the individual investment's potential and risk.

In general, the fair value is determined following the IPEV Valuation Guidelines which prescribe the use of accepted valuation methods, such as price of recent investments, multiple analysis/benchmarking, most recent transaction multiple and other relevant methods. The Fund invests venture capital primarily in development stage companies without any or with only limited revenue entailing that the fair value measurement of each of the investments is inherently subject to considerable uncertainty.

Upon initial investment, **cost** of the investment is generally determined to represent the fair value. If new investors join the investments and obtain more than just an insignificant share of the enterprise, the **price of a recent investment** is used as basis for determining the fair value.

Throughout the life of the investment, the General Partner reviews its investments for potential impairment, which may materialise if the portfolio enterprises have been subject to pervasive negative development and/or if the Fund decides that it will no longer participate in the further funding and there is a considerable risk that the portfolio enterprise may not be able to continue its operations or it is by other means obvious that there is a pervasive decline in the fair value of the portfolio enterprise. In these cases, the value is written down to a new lower fair value based on the General Partner's best estimate.

Notes

6. Investments in portfolio enterprises (continued)

As investments mature, other valuation models for determining the fair value may be more appropriate. Such models are typically based on **peer group multiples**, which may be discounted depending on an objective assessment of the portfolio enterprise's growth, cash flows and funding status.

The Peer Group Multiple-method uses comparable entities, in which market value and earnings are known. Based on this, a market level for revenue multiples is determined for the comparable entities. Factors as size and liquidity are also taken into consideration when applied these methods.

In connection with the use of this method, the Fund assesses which multiples are applicable as well as assesses the determination of the applicable earnings to be used in the calculation of the deemed fair value.

When applicable the fair value of investments, which are traded on a stock exchange, is based on the quoted market prices at the reporting date.

The fair value is determined in the functional currency of the portfolio enterprise, which is then translated to DKK at the exchange rate at the balance sheet date, and any exchange rate adjustment is included in the fair value adjustment of the investment in profit or loss.

Each investment has been valued using the valuation techniques listed below:

Portfolio enterprise	Corporate form	2022	2021
Investments in associates:			
Arcoma	AB	Listing price	Listing price
Ascelia Pharma	AB	Listing price	Listing price
Other investments:			
Alligator Biosciences	AB	Listing price	Listing price

Fair value hierarchy for determining fair value for investments in portfolio enterprises

IFRS has established a fair value hierarchy for certain assets measured at fair value:

- Quoted prices in active markets for identical instruments (level 1)
- Quoted prices in active markets for similar assets or liabilities or other valuation methods under which all material inputs are based on observable market data (level 2)
- Valuation techniques under which any material inputs are not based on observable market data (level 3).

The measurement of investments in portfolio enterprises classified according to level 3 is based on measurement methods, in which material non-observable inputs are included such as assessment of which method best reflects fair value, assessment of the performance of each portfolio enterprise, determination of multiples and

Notes

6. Investments in portfolio enterprises (continued)

future earnings, and assessment of whether a pervasive negative development should result in the recognition of impairment write-downs.

The fair value of the Fund's portfolio enterprises is impacted by the development in applied multiples as well as expected future earnings and development in each portfolio enterprise. A decrease or increase in the above-mentioned material non-observable inputs may have a direct effect on the measurement of the portfolio enterprises, just as the fair value of the Fund's portfolio enterprises is impacted by the development in macroeconomic conditions.

The Fund has no investments in portfolio enterprises where fair value has been determined based on level 2 classification. The development in the value of investments in portfolio enterprises classified into level 1 and 3 can be summarised as follows:

	Level 1 DKK'000	Level 3 DKK'000	Total investment DKK'000	Fair value loss DKK'000
2021				
Fair value at 1 January	410,422	28,679	439,101	-
Follow-up investments	-	-	-	-
Fair value adjustments	(156,240)	(25,970)	(182,210)	(182,210)
Exchange rate adjustments	(2,736)	(2,709)	(5,445)	(5,445)
Disposals	(106,314)	-	(106,314)	-
Fair value at 31 December	145,131	-	145,132	(187,655)
	Level 1 DKK'000	Level 3 DKK'000	Total investment DKK'000	Fair value loss DKK'000
2022				
Fair value at 1 January	145,131	-	145,131	-
Follow-up investments	-	-	-	-
Fair value adjustments	(61,546)	-	(61,546)	(61,546)
Exchange rate adjustments	(11,465)	-	(11,465)	(11,465)
Disposals	(3,609)	-	(3,609)	-
Fair value at 31 December	68,511	-	68,511	(73,011)

Significant unobservable inputs for level 3

Unlisted companies that are measured at fair value in the balance sheet are based on valuation methods that include significant un-observable inputs.

Notes

6. Investments in portfolio enterprises (continued)

A significant unobservable assumption in connection with the valuation is the multiples used, just as expectations for the future earnings of the portfolio enterprises are included in the valuation. For the current year, no multiples have been used to measure the fair value in the balance sheet.

Sensitivity analysis

The fair value of the Fund's investments is affected by developments in the applied discount rate, future earnings expectations for these investments and debt level within the portfolio enterprises. A decline or increase in the material unobservable inputs stated above and changes in macroeconomic conditions might have a direct effect on the valuation of the investments. As the value of the Fund's investments are based on listing price, and the listing price is based on the market forces, sensitivity analysis wouldn't give a fair result, why this is not included in the current Financial Statement..

	2022	2021
	<u>DKK'000</u>	<u>DKK'000</u>
7. Limited Partners' contributions		
Limited Partners' contributions beginning of year	642,168	642,168
Contributions made during the year	<u>-</u>	<u>-</u>
Limited Partners' contributions end of year	<u>642,168</u>	<u>642,168</u>

The contributed capital represents the Limited Partners' total equity contribution. The Fund's contributed capital comprises 99.95% A-shares and 0.05% B-shares. The Fund's A-shares are paid successively and pro rata and the B-shares are fully paid up. One of the share classes has a dividend preference attached when the realised return in the Fund exceeds a fixed minimum rate of return p.a. (hurdle rate) of the Limited Partners' contributed capital.

If the Fund delivers an annual compounded return of above 8% (IRR) based on realised investment, the Preferred Partners class will receive carried interest based on the waterfall method agreed in the Limited Partners' Agreement.

The above-mentioned distribution of dividend will not affect the distribution from equity and will not affect the Statement of comprehensive income.

Notes

	2022 DKK'000	2021 DKK'000
8. Other payables		
Sundry accrued expenses	<u>74</u>	<u>73</u>
	74	73

The carrying amount of sundry accrued expenses relates to other payables such as legal fees, auditor's fees, etc. The recognised amount approximates the fair value of the liabilities.

All payables fall due within 12 months.

	2022 DKK'000	2021 DKK'000
10. Financial risks and financial instruments		
Categories of financial instruments:		
Investments in portfolio enterprises	<u>68,511</u>	<u>145,131</u>
Financial assets measured at fair value through profit/loss	68,511	145,131
Cash	<u>2,852</u>	<u>1,007</u>
Financial assets measured at amortised cost	2,852	1,007
Other payables	<u>74</u>	<u>73</u>
Financial liabilities measured at amortised cost	74	73

The Fund adheres to an investment strategy approved by the Limited Partners. As a result of its investments in portfolio enterprises, the Fund is directly or indirectly exposed to changes in liquidity, credit, interest and currency risks.

Liquidity risks

Maturity of financial liabilities is specified below divided into timing intervals. The specified amounts are gross and undiscounted.

Notes

10. Financial risks and financial instruments (continued)

	Within 1 year DKK'000	Between 1 and 5 years DKK'000	After 5 years DKK'000	Total DKK'000
Other payables	73	-	-	73
31 December 2021	73	-	-	73

	Within 1 year DKK'000	Between 1 and 5 years DKK'000	After 5 years DKK'000	Total DKK'000
Other payables	74	-	-	74
31 December 2022	74	-	-	74

Credit risks

In some cases, the Fund provides loans to its portfolio enterprises. These loans often carry conversion rights or are considered as intermediary financing with the expectation to be converted to equity investments, and hence such loans are considered part of the investment and are, therefore, not considered to represent a separate credit risk, but is rather considered being part of the total investment risk and risk relating to determining a fair value of the investments.

Currency risks

The Fund's investments are exposed to changes in foreign currencies like USD, GBP, EUR and SEK. The Fund considers the currency risk as part of the whole investment risk and hence, the Fund does not separately hedge the currency risk relating to its investments in portfolio enterprises.

In addition, the Fund is indirectly exposed to currency risks through investments in portfolio enterprises which trade in other currencies than their functional currencies and hence, development in exchange rates may influence income and thereby their determination of fair value of the portfolio enterprises.

11. Related party transactions

Related parties with control

No single Limited Partner has control over the Fund.

Transactions with related parties

The General Partner is Sunstone LSV General Partner II ApS. In the financial year, the Fund has paid a fee to Sunstone Life Science Ventures A/S, which is related to Sunstone LSV General Partner II ApS. See note 5.

Notes

12. Assets pledged and contingent liabilities etc.

The Fund has not pledged any assets or taken on any contingent liabilities.

13. Events after the reporting date

No events have occurred after the reporting date, which would materially influence the evaluation of this annual report.

14. Approval of the financial statements for publication

At its Board meeting on 26.01.2023, the General Partner approved the financial statements. The financial statements will be presented to the Fund's Limited Partners for approval at the Annual General Meeting on 23.02.2023.
