

ÅRSREGNSKAPET FOR REGNSKAPSÅRET 2023 - GENERELL INFORMASJON

Enheten

Organisasjonsnummer:	946 924 563
Organisasjonsform:	Aksjeselskap
Foretaksnavn:	VERIFONE NORDIC HOLDING AS
Forretningsadresse:	Østre Aker vei 24 0581 OSLO

Regnskapsår

Årsregnskapets periode:	01.11.2022 - 31.10.2023
-------------------------	-------------------------

Konsern

Mørselskap i konsern:	Ja
Konsernregnskap lagt ved:	Ja

Regnskapsregler

Regler for små foretak benyttet:	Nei
Benyttet ved utarbeidelsen av årsregnskapet til selskapet:	Regnskapslovens alminnelige regler
Benyttet ved utarbeidelsen av årsregnskapet til konsernet:	-

Årsregnskapet fastsatt av kompetent organ

Bekreftet av representant for selskapet:	Pål Andre Frederiksen
Dato for fastsettelse av årsregnskapet:	21.05.2024

Grunnlag for avgivelse

År 2023: Årsregnskapet er elektronisk innlevert
År 2022: Tall er hentet fra elektronisk innlevert årsregnskap fra 2023

Det er ikke krav til at årsregnskapet m.v. som sendes til Regnskapsregisteret er undertegnet. Kontrollen på at dette er utført ligger hos revisor/enhetens øverste organ. Sikkerheten ivaretas ved at innsender har rolle/rettighet for innsending av årsregnskapet via Altinn, og ved at det bekreftes at årsregnskapet er fastsatt av kompetent organ.

Att. Nina Beate Omlid Tveit

Fritak for konsernregnskapsplikt for Verifone Nordic Holding AS, org.nr. 946 924 563

Vi viser til deres brev av 18. oktober 2022 hvor dere søker om fritak fra plikten til å utarbeide konsernregnskap for Verifone Nordic Holding AS.

Skattekontoret finner med hjemmel i regnskapsloven § 3-7 fjerde ledd å kunne gi tillatelse til at det gjøres unntak for konsernregnskapsplikten for Verifone Nordic Holding AS. Dispensasjonen gjelder så lenge opplysningene som danner grunnlaget for vedtaket ikke endres vesentlig.

Kopi av dette brev må sendes Regnskapsregisteret i Brønnøysund sammen med årsregnskapet mv. Det påligger den regnskapspliktige å dokumentere ved dette brev at tillatelsen er gitt.

Bakgrunn

Verifone Nordic Holding AS er morselskap i et underkonsern, hvor Verifone Systems, Inc. er det ultimate morselskapet og er hjemmehørende i USA. Konsernregnskap utarbeides av Verifone Systems, Inc. på engelsk språk etter USGAAP, hvor Verifone Nordic Holding AS med datterselskaper er omfattet.

Skattekontorets vurdering

Det forutsettes at Verifone Systems, Inc. utarbeider konsernregnskap som omfatter den regnskapspliktige og dennes datterselskaper. Det legges til grunn at dette konsernregnskapet er utarbeidet i samsvar med USGAAP og at kravene i regnskapsloven § 3-7 med forskrifter for øvrig følges. Bestemmelsene i regnskapsloven kapittel 8 gjelder tilsvarende for dette konsernregnskapet.

Når det gjelder hvilket språk morselskapet skal utarbeide konsernregnskapet på, vises det til forskrift av 7. september 2006 nr. 1062 til utfylling og gjennomføring mv. av regnskapsloven. Det følger av § 3-7-1 at konsernregnskapet foruten å være på norsk, kan være på svensk, dansk eller engelsk.

Skattekontoret gir etter en konkret helhetsvurdering tillatelse til at det gjøres unntak for konsernregnskapsplikten.

Vennligst oppgi vår referanse ved henvendelse i saken.

Med hilsen

Vibeke Horne

Verifone Nordic Holding AS

Noter til regnskapet 31 oktober 2023

Note 1 Regnskapsprinsipper

Årsregnskapet er satt opp i samsvar med regnskapsloven av 1998 og god regnskapskikk i Norge.

Datterselskap

Datterselskap vurderes etter kostmetoden i selskapsregnskapet. Investeringen er vurdert til anskaffelseskost for aksjene med mindre nedskrivning har vært nødvendig.

Det er foretatt nedskrivning til virkelig verdi når verdifall skyldes årsaker som ikke kan antas å være forbigående og det må anses nødvendig etter god regnskapskikk.

Nedskrivninger er reversert når grunnlaget for nedskrivning ikke lenger er til stede.

Inntekt fra selskap i samme konsern

Tjenester inntektsføres i takt med utførelsen, og selskapets inntekter utgjøres av avgift for anvendelse av selskapets utviklede router-løsning samt øvrig viderefakturering til konsernselskap.

Andelen av salgsinntekter som knytter seg til fremtidige serviceytelser balanseføres som uopptjent inntekt ved salget, og inntektsføres deretter i takt med levering av ytelsene.

Hovedregel for vurdering og klassifisering av eiendeler og gjeld

Eiendeler bestemt til varig eie eller bruk er klassifisert som anleggsmidler. Andre eiendeler er klassifisert som omløpsmidler. Fordringer som skal tilbakebetales innen et år er klassifisert som omløpsmidler. Ved klassifisering av kortsiktig og langsiktig gjeld er tilsvarende kriterier lagt til grunn.

Omløpsmidler vurderes til laveste av anskaffelseskost og virkelig verdi.

Anleggsmidler vurderes til anskaffelseskost, men nedskrives til gjenvinnbart beløp dersom dette er lavere enn bokført verdi, og verdifallet forventes ikke å være forbigående. Anleggsmidler med begrenset økonomisk levetid avskrives planmessig.

Annen langsiktig gjeld og kortsiktig gjeld er vurdert til pålydende beløp.

Eiendeler og gjeld i utenlandsk valuta

Pengeposter i utenlandsk valuta er i balansen omregnet til balansedagens kurs. Valutaterminkontrakter er balanseført til virkelig verdi på balansedagen.

Immaterielle eiendeler

Utgifter til egen tilvirkning av immaterielle eiendeler, herunder utgifter til egen forskning og utvikling, balanseføres når det er sannsynlig at de fremtidige økonomiske fordelene knyttet til eiendelene vil tilflytte selskapet og anskaffelseskost kan måles pålitelig.

Immaterielle eiendeler som er kjøpt enkeltvis, er balanseført til anskaffelseskost. Immaterielle eiendeler overtatt ved kjøp av virksomhet, er balanseført til anskaffelseskost når kriteriene for balanseføring er oppfylt.

Immaterielle eiendeler med begrenset økonomisk levetid avskrives planmessig. Immaterielle eiendeler nedskrives til gjenvinnbart beløp dersom de forventede økonomiske fordelene ikke dekker balanseført verdi og eventuelle gjenstående tilvirkningsutgifter.

Fordringer

Kundefordringer og andre fordringer er oppført til pålydende etter fradrag for avsetning til forventet tap. Avsetning til tap gjøres på grunnlag av en individuell vurdering av de enkelte fordringene.

Bankinnskudd, kontanter og lignende

Bankinnskudd, kontanter og lignende inkluderer kontanter, bankinnskudd og andre betalingsmidler med forfallsdato som er kortere enn tre måneder fra anskaffelse.

Skatter

Skattekostnaden sammenstilles med regnskapsmessig resultat før skatt. Skatt knyttet til egenkapitaltransaksjoner er ført mot egenkapitalen. Skattekostnaden består av betalbar skatt (skatt på årets direkte skattepliktige inntekt) og endring i netto utsatt skatt. Utsatt skatt og utsatt skattefordel er presentert netto i balansen.

Kontantstrømpoppstilling

Kontantstrømpoppstillingen er utarbeidet etter den indirekte metode. Kontanter og kontantekvivalenter omfatter kontanter og bankinnskudd.

DocuSign Envelope ID: C860DE7F-0CA0-4535-BFEA-671D5B50C27D

Note 2 Andre driftskostnader og godtgjørelser

Ytelser til ledende personer:

Det er ikke utbetalt honorar til styret i Verifone Nordic Holding AS. Det er heller ikke utbetalt lønn eller honorar til daglig leder, som lønnes av datterselskapet Verifone Norway AS.

Pensjonsforpliktelser:

Selskapet har ingen ansatte og er ikke pliktig til å ha en tjenestepensjonsordning etter lov om obligatorisk enestepensjon.

	2023	2022
Rådgivning, advokat og revisjonshonorar	263 679	358 856
Annen kostnad	(77 409 134)	15 208
Sum	(77 145 455)	374 064

I løpet av regnskapsåret 2023 har selskapet reversert nedskrivningen av tvilsomme kundefordringer som tidligere ble anerkjent i 2019, ettersom disse fordringene er blitt innfridd fullt ut i løpet av inneværende regnskapsår. Denne justeringen er gjort for å nøyaktig gjenspeile selskapets økonomiske stilling, nå som fordringene er innfridd.

Note 3 Valutagevinster og valutatap

	2023	2022
Valutagevinst	20 198 680	10 718 668

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors
VeriFone Systems, Inc.

Opinion

We have audited the consolidated financial statements of VeriFone Systems, Inc., and subsidiaries (the "Company"), which comprise the consolidated balance sheets as of October 31, 2023 and 2022, and the related consolidated statements of operations, comprehensive income (loss), equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of October 31, 2023, and 2022, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits of the consolidated financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date the financial statements are issued.

GT.COM

Grant Thornton LLP is the U.S. member firm of Grant Thornton International Ltd (GTIL). GTIL and each of its member firms are separate legal entities and are not a worldwide partnership.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Principles of Consolidation and Summary of Significant Accounting Policies

Business Description

VeriFone Systems, Inc. (Verifone, Company, us, we, and our) is a FinTech leader providing valuable end-to-end payment and commerce solutions to the world's best-known retail brands, major financial institutions, distribution partners, and directly to all types and sizes of merchants. The company's global services platform is built on a four-decade history of innovation and uncompromised security. Trusted and recognized by consumers for its growing footprint of devices and ecommerce services in more than 150 countries, businesses choose Verifone for its global scale, local capabilities, omnichannel prowess and solution flexibility.

We are a privately held company and a wholly-owned subsidiary of Vertex Holdco, Inc ("Vertex Holdco"). Vertex Holdco is owned by an investor group led by Francisco Partners and British Columbia Investment Management Corporation ("Investor group").

Basis of Presentation

The accompanying Consolidated Financial Statements include the accounts of VeriFone Systems, Inc. and our wholly-owned and majority-owned subsidiaries. Amounts pertaining to the noncontrolling ownership interests held by third parties in the operating results and financial position of our majority-owned subsidiaries are reported as noncontrolling interests. All intercompany accounts and transactions have been eliminated. The Consolidated Financial Statements also include the results of companies acquired by us from the date of each acquisition. Investments in businesses that we do not control, but in which we have the ability to exercise significant influence over operating and financial matters, are accounted for using the equity method.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions about future events that affect the amounts reported in our Consolidated Financial Statements and accompanying notes. These estimates and assumptions take into account historical and forward looking factors that the Company believes are reasonable. The Company's estimates and assumptions may evolve as conditions change. Actual results could differ materially from these estimates.

Significant Accounting Policies

Foreign Currency

We determine the functional currency for Verifone and our subsidiaries by reviewing the currencies in which their respective operating activities occur. For our subsidiaries whose functional currencies are not the U.S. Dollar, we generally translate assets and liabilities using exchange rates in effect as of the applicable balance sheet dates. Revenue and expenses for these subsidiaries are translated using average rates which approximate those in effect during the period. Foreign currency translation gains and losses are included in stockholders' equity as a component of Accumulated other comprehensive income (loss) in our Consolidated Balance Sheets.

Table of Contents

VERIFONE SYSTEMS, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Monetary assets and liabilities denominated in currencies other than the functional currency of that subsidiary are remeasured to the functional currency using exchange rates in effect as of the applicable balance sheet dates. We recognized a remeasurement gains of \$9.4 million and \$34.8 million for the fiscal years ended October 31, 2023 and 2022 that were recorded as Other income (expense), net in our Consolidated Statements of Operations.

Revenue Recognition

The following is a description of principal activities from which the Company generates its revenues.

<u>Products and services</u>	<u>Nature, timing of satisfaction of performance obligations, and significant payment terms</u>
Systems	Systems revenues include the sales of Point of Sale (POS) terminal devices, essential perpetual software licenses and related accessories. The Company recognizes revenues when the control of the systems transfers to the customer. This usually occurs when the product is shipped to the customer. The hardware is typically billed upon shipment and the standard payment terms of the Company is Net 30 days.
Services	Services include but are not limited to device repair, transaction processing, extended warranty and installation of devices. The Company recognizes revenue as services are provided to the customer. Billings for services vary but typically occur as the services are performed and the standard payment terms of the Company is Net 30 days.

Systems net revenues include net revenues from the sale of products and essential perpetual software licenses and accessories. Services net revenues include net revenues from payment-related services, installation, customer support, repair services related to our systems solutions, transaction processing, term based software licenses, custom software development, extended warranties and leases of our products.

We sell our products to customers under a contract or by purchase order. Agreements with end users, resellers, value-added resellers, and distributors generally have no rights of return, stock rotation rights, or price protection. We consider a contract to have been established when it has been approved, we can identify each party's rights and obligations, we can identify the payment terms for the goods or services to be transferred, the contract has commercial substance and it is probable that we will collect substantially all of the consideration to which we expect to be entitled.

In contracts with multiple performance promises, we identify each promise and evaluate whether each is distinct at contract inception. Performance promises that are not distinct at contract inception are combined until a group of performance promises is distinct. POS terminal equipment systems are typically sold with embedded essential software. The equipment and the embedded essential software licenses are not distinct because neither is ever sold separately and each are considered inputs to a combined output for which our customers contract. Thus, these two performance promises are combined as a single performance obligation.

We often sell POS equipment together with other related services such as installation, optional software, warehousing and/or maintenance and support services. We consider the installation, optional software, warehousing, maintenance and support services to be separate performance obligations since they are both capable of being distinct (as they are useful to the customers together with the POS equipment that we sell on a standalone basis) and distinct within the context of the contract.

The transaction price is frequently a fixed fee due at contract inception or periodically during the period of performance for related services. Certain contracts for transaction processing and payment services may include variable consideration, either a fixed rate per transaction or in the form of tiered discounts that may apply, depending on the transaction levels the customer generates each month or year, on a prospective basis. The Company assesses whether the customer has a material right on a contract by contract basis.

Table of Contents

VERIFONE SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

We allocate the transaction price to each distinct performance obligation based on the relative standalone selling price for each performance obligation. Our transaction processing and payment services constitute a series, and the variable consideration associated with transaction processing services will generally be allocated to each distinct time increment (typically a day or a month) of the series since the variable payments in these cases relate specifically to our efforts to process transactions in each distinct time increment of the series and we believe that such allocation generally is consistent with the allocation objective.

We typically have observable evidence of the standalone selling price for POS equipment and related accessories as these are sold frequently on a standalone basis and services are subject to optional renewal periods. When we are unable to establish selling price using observable evidence, we use cost plus margin or adjusted market approach.

Net revenues from sales to end-users, resellers, value-added resellers, and distributors are generally recognized upon shipment of the product. Revenues for related services are recognized as those services are delivered since the customer benefits from the services as we perform them.

We recognize revenue from operating lease arrangements over the term of the applicable lease arrangements. Net revenues from operating lease arrangements represent less than five percent of our total net revenues and are classified as Services net revenues.

Net revenues from services obligations, to be provided over a period of time, are initially deferred and then recognized over the contract period as customers simultaneously consume and receive benefits, given that the services comprise distinct performance obligations that are satisfied over time. Net revenues from services contracted on a per incident basis are recognized as a transaction occur which is the point in time when services are performed. Variable fees for transaction processing and payment services are recognized in the month in which they are earned because the terms of the variable payments relate specifically to the outcome from transferring the distinct time increment (typically a day or month) of service and because such amounts reflect the fees to which the Company expects to be entitled for providing the access to services for that period, consistent with the allocation objective. Transaction processing and payment services are a series of distinct services that are substantially the same and have the same pattern of transfer to the customer, which is an output method based on passage of time as this is the method that best depicts the Company's pattern of performance.

We periodically enter into software development contracts with our customers that we recognize as net revenues at a point in time upon transfer of control to the customer when the software development promise qualifies as a separate performance obligation (generally when customization is not significant). Provisions for losses on software development contracts are recorded in the period they become evident. Net revenues from software development contracts comprise approximately one percent of our total net revenues.

Warranty

Our equipment is generally sold with an included 12-month warranty which includes provision for unconditional replacement or repair of equipment that fails during the warranty period. We do not treat included basic warranty as a separate performance obligation. We accrue for estimated warranty obligations when revenue is recognized based on an estimate of future warranty costs for delivered products. Such estimates are based on historical experience and expectations of future costs. At least annually or whenever circumstances warrant, we evaluate and adjust the accrued warranty costs to the extent actual warranty costs vary from the original estimates. We also sell extended warranties, usually for terms of two to four years. Fees for extended warranty are considered separate performance obligations. The service is billed at contract inception and are recorded as a contract liability which is amortized and recognized as revenue over the service period using the time elapsed method.

Table of Contents

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Contract Assets and Liabilities

Billing requirements for equipment vary by contract but are generally structured around the completion of certain performance obligations, such as installation and integration occurring after delivery of equipment. Billing requirements for services depend upon the service category. For specific service obligations, billing occurs upon completion of the service. For transaction service subscriptions, billing is generally a periodic pre-determined amount based on the nature service. In the case of contracted software/systems development projects, billing generally occurs upon achievement of certain milestones defined in the contract. Our payment terms vary by contract but are generally between 30 and 60 days after invoicing.

When we receive consideration, or when such consideration is unconditionally due from a customer prior to transferring goods or services to the customer under the terms of a sales contract, we record a contract liability. This typically results from billings in advance of completing our performance obligations under the contract.

Allowance for doubtful accounts

An allowance for doubtful accounts is established with respect to those amounts that we determine to be doubtful of collection using specific identification of doubtful accounts and an aging of receivables analysis based on invoice due dates. Actual collection losses may differ materially from management's estimates. Uncollectible receivables are written off against the allowance for doubtful accounts when all efforts to collect them have been exhausted. Accounts receivable payment terms are generally between net 30 to 60 days, unless special payment terms are arranged.

Shipping and Handling Costs

We have elected to account for shipping and handling as activities to fulfill the promise to transfer the goods. As such, the shipping and handling costs incurred for delivery to customers are expensed as incurred and are included in Cost of net revenues in our Consolidated Statements of Operations. In those instances where we bill shipping and handling costs to customers, the amounts billed are classified as Net revenues in our Consolidated Statements of Operations.

Contract costs

Costs associated with maintenance contracts, including extended warranty contracts, are expensed when they are incurred. Commissions paid for equipment sales are not material to our financial results and are expensed in the period in which related equipment is delivered to the customer. External legal fees, travel and other costs that would have been incurred regardless of whether the contract was obtained are expensed when incurred. Incremental costs of obtaining a contract are expensed as incurred if the amortization period of the asset that otherwise would have been recognized is estimated to be one year or less.

Stock-Based Compensation

We measure stock-based compensation cost at the grant date, based on the estimated fair value of the award and the estimated number of shares we ultimately expect will vest. Stock-based compensation cost is recognized as expense on a straight-line basis over the requisite service period. Cash flows resulting from the tax benefits due to tax deductions in excess of the compensation cost recognized for those awards are classified as financing cash flows.

Advertising Costs

Advertising costs are expensed as incurred and were immaterial for all periods presented in our Consolidated Statements of Operations.

Table of Contents

VERIFONE SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Research and Software Development Costs

Research and development costs are generally expensed when incurred.

Software development costs incurred to develop software products for resale, including the costs of software components of our products, are subject to capitalization beginning when a product's technological feasibility has been established and ending when a software or product is available for general release to our customers. In most instances, our products are released soon after technological feasibility has been established; therefore, software development costs incurred subsequent to achievement of technological feasibility are usually not significant, and generally most software development costs have been expensed as incurred. Capitalized costs of software for resale are amortized on a straight-line basis over the estimated life of the software or associated product, generally three to six years, commencing when the respective software or product is available to our customers.

Software development costs for internal use software are subject to capitalization during the application development stage, beginning when a project, that will result in additional functionality, is approved and ending when the software is put into productive use. Capitalized internal use software costs are amortized on a straight-line basis over the estimated life of the software, generally three to six years, commencing when the respective software is put into productive use.

Restructuring

The determination of when we accrue for employee involuntary termination benefits depends on whether the termination benefits are provided under a one-time benefit arrangement or under an on-going benefit arrangement. We record charges for one-time benefit arrangements in accordance with Accounting Standard Codification (ASC) 420 *Exit or Disposal Cost Obligations* and charges for on-going benefit arrangements in accordance with ASC 712 *Nonretirement Postemployment Benefits*.

We recognize a liability for costs associated with cancellation of contracts when the liability is incurred. We measure these liabilities at fair value. Costs to terminate a contract before the end of its term are recognized when we terminate the contract in accordance with the contract terms. Costs that will continue to be incurred under a contract for its remaining term without economic benefit are recognized at the contract cancellation date.

Income Taxes

Deferred tax assets and liabilities are recognized for the expected tax consequences of temporary differences between the tax basis of assets and liabilities, and their reported amounts using enacted tax rates in effect for the year the differences are expected to reverse. In evaluating our ability to recover our deferred tax assets management considers all available positive and negative evidence including the past operating results, the existence of cumulative losses in past fiscal years, and the forecasted future taxable income in the jurisdictions in which we have operations.

We have established valuation allowances on U.S. deferred tax assets and certain non-U.S. deferred tax assets because realization of these tax benefits through future taxable income is not more likely than not as of October 31, 2023 and October 31, 2022. We intend to maintain the valuation allowances until sufficient positive evidence exists to support the reversal of the valuation allowances. We make estimates and judgments about our future taxable income that are based on assumptions that are consistent with our plans and estimates. Should the actual amounts differ from the estimates, the amount of the valuation allowance could be materially impacted. An increase in the valuation allowance would result in additional tax expense in such period.

Table of Contents

VERIFONE SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

We must make certain estimates and judgments in determining income tax expense for financial statement purposes. These estimates and judgments occur in the calculation of tax credits and deductions, and in the calculation of certain tax assets and liabilities, which arise from differences in the timing of recognition of revenues and expenses for tax and financial statement purposes, as well as the interest and penalties relating to these uncertain tax positions. Significant changes to these estimates may result in an increase or decrease to our tax provision in a subsequent period.

The calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax laws. Our estimate for the potential outcome of any uncertain tax issue is based on detailed facts and circumstances of each issue. Resolution of these uncertainties in a manner inconsistent with our expectations could have a material impact on our results of operations and financial condition.

In addition, the calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax regulations. We recognize liabilities for uncertain tax positions based on a two-step process. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step requires us to estimate and measure the tax benefit as the largest amount that is more than 50% likely of being realized upon ultimate settlement. It is inherently difficult and subjective to estimate such amounts, as this requires us to determine the probability of various possible outcomes. We reevaluate these uncertain tax positions on a quarterly basis. This evaluation is based on factors including, but not limited to, changes in facts or circumstances, changes in tax law, effectively settled issues under audit, and new audit activity. Such a change in recognition or measurement would result in the recognition of a tax benefit or an additional charge to the tax provision in the period.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash, money market funds, and time deposits with maturities of three months or less when purchased.

Inventories

Inventories are stated at the lower of standard cost or net realizable value. We compute inventory cost using standard costs, primarily on a FIFO method. Standard costs approximate actual costs, including materials, manufacturing costs, in-bound freight costs, and inbound-related supply chain costs. We regularly monitor inventory quantities on hand and committed orders with contract manufacturers, and record write-downs for excess and obsolete inventories based primarily on usage and our estimated forecast of product demand. Such write-downs establish a new cost basis of accounting for the related inventory.

Consigned inventories from our contract manufacturers where title has not been transferred to us are excluded from our inventories. In certain circumstances, we are obligated to prepay deposits to our contract manufacturers based on a percentage of the value of the inventories consigned to us, and after a certain period of time has elapsed, we may be required to prepay the full amount if we have not taken title to the inventory. Prepayments for consigned inventory are included in Prepaid expenses and other current assets in our Consolidated Balance Sheets.

Generally, we take title to consigned inventories when we ship to our customers, and record the full cost of the inventories as Cost of net revenues at that time. We must purchase the consigned inventories from our contract manufacturers after a certain agreed-upon period of time, ranging from 30 days to one year. Consigned inventories are included in our calculation of minimum order commitments from our contract manufacturers.

Fair Value Measurements

We measure and record certain of our financial assets and liabilities at fair value on a recurring basis. We also apply the provisions of fair value measurement to various non-recurring measurements for our financial and non-financial assets and liabilities.

Table of Contents

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

We define fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When estimating fair value, we consider the principal or most advantageous market in which we would transact, and we consider assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions, credit risk, and risk of non-performance.

In measuring fair value, we follow a three-level hierarchy based on the inputs used:

- Level 1 — Observable inputs that reflect unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2 — Other inputs that are directly or indirectly observable in the marketplace, such as similar instruments in an active market, or computations using, among other inputs, forward pricing curves, credit default spreads, or the Black-Scholes-Merton valuation model.
- Level 3 — Unobservable inputs that are supported by little or no market activity.

Equity Investments

We evaluate our equity investments to determine whether an investee is a variable interest entity (VIE). If we conclude that an investee is a VIE, we evaluate our power to direct the activities of the investee, our obligation to absorb the expected losses of the investee and our right to receive the expected residual returns of the investee to determine whether we are the primary beneficiary of the investee. If we are the primary beneficiary of a VIE, we consolidate such entity and reflect the noncontrolling interest of other beneficiaries of that entity.

If an entity fails to meet the characteristics of a VIE, then we evaluate such entity under the voting model. Under the voting interest entity model, we consolidate the entity if we have a controlling financial interest of more than 50 percent and the noncontrolling shareholders do not have substantive participating rights.

We periodically reassess whether we are the primary beneficiary of a VIE. The reassessment process considers whether we have acquired the power to direct the most significant activities of the VIE through changes in governing documents or other circumstances. We also reconsider whether entities previously determined not to be VIEs have become VIEs, and vice versa, based on changes in facts and circumstances including changes in contractual arrangements and capital structure.

If we do not consolidate the investee, we account for the investment under either the equity method or fair value alternative. Equity investments are accounted for under the equity method if we are able to exert significant influence over the investee but do not have a controlling financial interest. If we do not have significant influence over the investee, we account for it under the fair value alternative. The carrying value of equity investments are included in Other long-term assets in our Consolidated Balance Sheets.

Equity method investments are initially recorded at fair value and are adjusted for our proportionate share of the earnings and losses of the equity method investee. Earnings and losses of equity method investments are based on the most recently available financial statements of the investee and are included in Other income (expense), net in our Consolidated Statements of Operations. Basis differences between the cost of an equity method investment and the underlying equity in the long-lived assets are amortized over the estimated economic useful life of the underlying long-lived asset and the amortization expense is included in Other income (expense), net in our Consolidated Statements of Operations. We measure our fair value alternative equity investments which do not have a readily determinable fair value at cost less impairment and adjust for observable price changes in orderly transactions for the identical or a similar investment of the same issuer. Such investments are evaluated for impairment each reporting period.

Derivative Financial Instruments

We use derivative financial instruments to manage exposures to interest rate risks. Our primary objective in holding derivatives is to reduce the volatility of earnings and cash flows associated with changes in interest rates.

Table of Contents

VERIFONE SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

We do not use derivative financial instruments for speculative or trading purposes, nor do we hold or issue leveraged derivative financial instruments. Our derivative financial instruments do not include a right of offset, and we do not offset derivative financial assets against derivative financial liabilities.

Our derivative financial instruments consist of interest rate swaps and caps, which we use to hedge a portion of the variability in cash flows related to our interest payments. Our derivative financial instruments are reported at fair value at the end of each reporting period. We use the income approach to value the interest rate swaps and caps, using observable Level II inputs at the measurement date and discount future amounts to a single present amount reflecting current market expectations. Level II inputs for the valuations include London Interbank Offered Rate (USD LIBOR) and Secured Overnight Financing Rate (SOFR) rate curves, futures, volatilities and basis spreads at each period end date. Derivative asset and liability fair values are adjusted for credit quality.

The variable cash flow on our term debt and derivative financial instruments was based upon USD LIBOR rates which was discontinued on June 30, 2023 and replaced by a spread-adjusted SOFR rate. When we enter into hedges we formally assess hedge effectiveness. In our initial assessment, we applied several optional expedients provided under ASU 2020-04 Reference Rate Reform (Topic 848) to disregard the impact of the rate changes due to reference rate reform.

After our initial effectiveness assessment, we assess the effectiveness qualitatively on an ongoing basis. When an anticipated transaction is no longer likely to occur, the corresponding derivative instrument is ineffective as a hedge, and changes in fair value of the instrument are recognized in Other income (expense), net in the Consolidated Statements of Operations.

We record the estimated fair value of our outstanding derivative financial instruments on our Consolidated Balance Sheets at the end of each reporting period as either assets or liabilities. Gains and losses arising from derivative financial instruments that are designated as cash flow hedges are recorded in Accumulated other comprehensive income (loss) on our Consolidated Balance Sheets, and are subsequently reclassified into earnings in the period or periods during which the underlying transactions affect earnings.

Long-Lived Assets

Fixed assets are stated at cost, net of accumulated depreciation and amortization. Fixed assets are depreciated on a straight-line basis over the estimated useful lives of the assets, generally ranging from three to ten years, except buildings which are depreciated over 50 years. Leasehold improvements are amortized over the lesser of the lease term or the estimated useful life of the asset.

Revenue generating assets are comprised of tangible assets that are generating revenues under rental or service based arrangements. Revenue generating assets are stated at cost, net of accumulated depreciation, and are depreciated on a straight-line basis over the estimated useful lives of the assets, generally five years. Payments to acquire revenue generating assets are included in Capital expenditures within cash flows from investing activities on our Consolidated Statements of Cash Flows.

Equipment under finance type leases is recorded at the lesser of the present value of the minimum lease payments at the beginning of the lease term or the fair value of such equipment. Leased equipment is amortized on a straight-line basis over the shorter of the lease term or the estimated useful life of such equipment.

Purchased intangible assets that have finite useful lives are amortized on a straight-line basis over their estimated period of benefit, generally ranging from one to 15 years. Intangible assets with indefinite lives such as In-process research and development (IPR&D) are not amortized, but subject to an impairment assessment annually on August 1. If the project is completed, the carrying value of the related intangible asset is amortized over the estimated life of the asset beginning in the period in which the project is completed and sales of the related product commenced.

If the estimated period of benefit for any of our long-lived assets is determined to have changed, we amortize the remaining net book values over the revised period of benefit.

Table of Contents

VERIFONE SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

We periodically evaluate whether changes have occurred that would render our long-lived assets not recoverable. If such circumstances arise, we use an estimate of the undiscounted value of expected future operating cash flows to determine whether the long-lived assets are impaired. If the aggregate undiscounted cash flows are less than the carrying amount of the assets, the resulting impairment charge to be recorded is calculated based on the excess of the carrying amount of the assets over the fair value of such assets, with the fair value generally determined based on an estimate of discounted future cash flows. For assets held for sale, to the extent the carrying value is greater than the asset's fair value less costs to sell, an impairment loss is recognized for the difference.

Goodwill

Goodwill is measured as the excess of consideration transferred and the net of the acquisition date fair value of assets acquired and liabilities assumed in a business acquisition. Goodwill is not amortized for accounting purposes.

We review the goodwill allocated to each of our reporting units for possible impairment annually on August 1 and whenever events or changes in circumstances indicate its carrying amount may not be recoverable. We have two reporting units: Systems and Services. When assessing goodwill for impairment, we have the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, we determine it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then we perform a quantitative impairment test. If, we conclude otherwise, then no further action is taken. In a quantitative impairment test, we measure the recoverability of goodwill by comparing a reporting unit's carrying amount, including goodwill, to the estimated fair value of the reporting unit, and record an impairment charge for any excess.

In assessing the qualitative factors, we assess relevant events and circumstances that may impact the fair value and the carrying amount of the reporting unit. The identification of relevant events and circumstances, and how these may impact a reporting unit's fair value or carrying amount involve significant judgments and assumptions. The judgments and assumptions include the identification of macroeconomic conditions, industry and market considerations, cost factors, overall financial performance, VeriFone specific events, and share price trends, and making the assessment as to whether each relevant factor will impact the impairment test positively or negatively and the magnitude of any such impact.

The carrying amount of each reporting unit is determined based upon the assignment of our assets and liabilities, including existing goodwill and other intangible assets, to the identified reporting units. Where an acquisition benefits only one reporting unit, we assign, as of the acquisition date, all goodwill for that acquisition to the reporting unit that will benefit. Where we have an acquisition that benefited more than one reporting unit, we allocate the goodwill to our reporting units as of the acquisition date such that the goodwill assigned to a reporting unit is the excess of the fair value of the acquired business, or portion thereof, to be included in that reporting unit over the fair value of the individual assets acquired and liabilities assumed that are assigned to the reporting unit.

Debt Issuance Costs and Original Issue Discounts

Costs incurred in connection with the issuance of new debt are generally capitalized and amounts paid in connection with the modification of existing debt are generally expensed as incurred. Capitalizable debt issuance costs paid to third parties and original issue discounts paid to creditors, net of amortization, are offset against the associated Short-term and Long-term debt on our Consolidated Balance Sheets.

Table of Contents

VERIFONE SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Amortization expense on capitalized debt issuance costs and original issue discounts related to loans with fixed payment terms is calculated using the effective interest method over the term of the associated loans. Amortization expense on capitalized debt issuance costs and original issue discounts related to revolving loans are calculated using the straight-line method over the term of the revolving loan commitment. Amortization expense is recorded in Interest expense, net in our Consolidated Statements of Operations. When debt is extinguished prior to the maturity date, any remaining associated debt issuance costs or original issue discounts are expensed to Interest expense, net in our Consolidated Statements of Operations.

Leases

We determine whether an arrangement is a lease for accounting purposes at contract inception. For our operating leases, we record a right-of-use (ROU) assets in our Consolidated Balance Sheets, which represents our right to control the use of an underlying asset for the lease term. Control of an underlying asset is conveyed if we obtain the rights to direct the use of the asset, and if the company obtains substantially all of the economic benefits from the use of the asset. Lease expense for variable leases and short-term leases is recognized when the obligation is incurred. A corresponding lease liability, which represents our obligation to make lease payments arising from lease, is recorded in Accrued and other liabilities and Long-term lease liability in our Consolidated Balance Sheets.

ROU assets and lease liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. We use our incremental borrowing rate to calculate the present value of the lease payments. The incremental borrowing rate equals the rate of interest we would have to pay or borrow on a collateralized basis over a similar term an amount equal to the lease payments in a similar economic environment. The incremental borrowing rate is determined at the beginning of each fiscal period, and is applied to all leases entered in that fiscal period.

We elected the short-term lease exception and will not recognize ROU assets or lease liabilities for qualifying leases with a term of less than 12 months from lease commencement. Lease payments for short-term leases are recognized on straight-line basis.

Business Combinations

We allocate the fair value of purchase consideration to the tangible assets acquired, liabilities assumed, and intangible assets acquired based on their estimated fair values. The excess of the fair value of purchase consideration over the fair values of the identifiable assets and liabilities is recorded as goodwill. Such valuations require management to make significant estimates and assumptions, especially with respect to intangible assets. Management's estimates of fair value are based upon assumptions believed to be reasonable, but which are inherently uncertain and unpredictable and, as a result, actual results may differ from our estimates. During the measurement period, which is not to exceed one year from the acquisition date, we may record adjustments to the assets acquired and liabilities assumed, with the corresponding offset to goodwill. Upon the conclusion of the measurement period, any subsequent adjustments are recorded to earnings.

Uncertain tax positions and tax-related valuation allowances assumed in connection with a business combination are initially estimated as of the acquisition date. We reevaluate these items quarterly with any adjustments to our preliminary estimates being recorded to goodwill provided that we are within the measurement period, and we continue to collect information in order to determine their estimated values. Subsequent to the measurement period or our final determination of the tax allowance's estimated value, changes to these uncertain tax positions and tax-related valuation allowances will affect our Income tax provision in our Consolidated Statements of Operations and could have a material impact on our results of operations and financial position.

Acquisition-related costs are expensed as incurred.

Table of Contents

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Concentrations of Credit Risk

Our ability to generate revenues can be impacted by a variety of economic factors, such as country specific and global economic growth, infrastructure development, expanding presence of Internet and wireless connectivity and support from governments seeking to modernize their economies and to encourage electronic payment transactions as a means of driving commerce and improving tax collection. In addition, factors such as the advancement in payment technologies, price sensitivities, country specific compliance requirements or regulatory mandates and customer preferences for point of sale experiences also impact our ability to generate revenues. These factors can affect the nature, amount, timing and uncertainty of our revenues and cash flows.

Cash is placed on deposit in major financial institutions around the world. Some of these deposits may be in excess of insured limits. We believe that the financial institutions that hold our cash are financially sound and, accordingly, minimal credit risk exists with respect to these balances.

We invest cash not required for use in operations in high credit quality securities based on our investment policy. The investment policy has limits based on credit quality, investment concentration, investment type, and maturity that we believe reduce the risk of loss. Investments are of a short-term nature and include investments in money market funds and time deposits.

Our derivative financial instruments expose us to credit risk to the extent that the counterparties may be unable to meet the terms of the agreement when we have an unrealized gain on the instrument. We believe the counterparties for our outstanding contracts are large, financially sound institutions, and thus we do not anticipate nonperformance by these counterparties. However, given the high debt levels of many countries and institutions worldwide, the failure of the counterparties is possible. We have not experienced any investment losses due to institutional failure or bankruptcy.

Our accounts receivable are derived from sales to a large number of direct customers, resellers, and distributors globally. We perform ongoing evaluations of our customers' financial condition and limit the amount of credit extended when deemed necessary, but generally require no collateral. As of October 31, 2023 and 2022, no single customer accounted for more than 10% of our total Accounts receivable, net. For fiscal years ended October 31, 2023 and 2022, no single customer accounted for more than 10% of our total Net revenues.

We utilize a limited number of third parties to manufacture our products, and rely upon these contract manufacturers to produce and deliver products on a timely basis and at an acceptable cost. Furthermore, a majority of our manufacturing activities are concentrated in China, Thailand, Malaysia, Vietnam and Brazil. As a result, disruptions to the business or operations of the contract manufacturers or to their ability to produce the required products in a timely manner could significantly impact our business and operations. In addition, a number of components that are necessary to manufacture and assemble our systems are specifically customized for use in our products and are obtained from sole source suppliers on a purchase order basis. Because of the customized nature of these components and the limited number of available suppliers, if we were to experience a supply disruption, it would be difficult and costly to find alternative sources in a timely manner.

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Reclassifications

Certain immaterial prior period amounts have been reclassified to conform to the current financial statement presentation.

Recently Adopted Accounting Pronouncements

In October 2021, the Financial Accounting Standards Board (FASB) issued Accounting Standards Updates (ASU) No 2021-08, "Business Combinations (Topic 805), Accounting for Contract Assets and Contract Liabilities for Contracts with Customers" ("ASU 2021-08"). ASU 2021-08 requires that an entity (acquirer) recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with Topic 606 "Revenue from Contracts with Customers" instead of fair value as required by current GAAP rules. We adopted this standard effective November 1, 2022 with no impact to consolidated financial statements.

Recent Accounting Pronouncements Not Yet Adopted

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments - Credit Losses" (as amended by ASU 2018-19, 2019-10 and 2019-11), which introduces new guidance for the accounting for credit losses on financial instruments and provides for a simplified accounting model for purchased financial assets with credit deterioration since their origination. The standard is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. ASU 2016-13 provides a framework to determine our allowance for doubtful accounts on the consolidated balance sheets. The adoption of ASU 2016-13 is not expected to have a material impact on our consolidated financial statements. We will adopt this standard on November 1, 2023.

Note 2. Employee Benefit Plans

Retirement and Post-employment Plans

We maintain defined contribution retirement plans in certain countries, including a 401(k) plan for our U.S. employees. During the fiscal years 2023 and 2022, we contributed \$9.1 million and \$8.8 million to these plans.

We have defined benefit pension plans, as required by local laws, for our employees in certain countries, and non-retirement post-employment benefit plans for our employees in certain countries. These plans are not considered material to our financial position or results of operations.

Equity Incentive Plan

2018 Equity Incentive Plan

On August 20, 2018, Vertex Holdco, Inc. approved the 2018 Vertex Holdco, Inc. Stock Incentive Plan (the 2018 Plan) pursuant to which Vertex Holdco may grant options, stock appreciation rights, and other stock-based awards to its employees and those of its affiliates, for up to an aggregate of 22.3 million shares plus any shares purchased at fair market value under a share purchase program. Under this equity incentive plan, time-based stock options of 1.9 million and 1.4 million and performance based stock options of 1.9 million and 1.3 million were granted to key employees, directors, and other service providers of the Company during the fiscal years ended October 31, 2023 and 2022.

The Plan is administered by a committee of the Vertex Holdco board of directors. Such committee determines the terms of each stock-based award grant under the 2018 Equity Incentive Plan, except that the exercise price of any granted options and the grant price of any granted stock appreciation rights may not be lower than the fair market value of one share of common stock of Holdco as of the grant date. Vertex Holdco is the parent entity of VeriFone Systems, Inc.

Table of Contents

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Stock option awards are granted with an exercise price equal to or greater than the grant date fair value of the common stock and have a maximum term of ten years. Time-based awards have a vesting term over a period of 1 to 4 years from the grant date.

The following table provides a summary of stock option activity for the fiscal year 2023:

	Number of Shares (in thousands)	Weighted Average Exercise Price (per share)	Weighted Average Remaining Contractual Term (in years)
Outstanding at beginning of period	10,194	\$ 10.54	
Granted	3,900	\$ 10.02	
Canceled	(747)	\$ 10.66	
Expired	(215)	\$ 10.15	
Outstanding at end of period	<u>13,132</u>	\$ 10.36	7.33
Vested or expected to vest at October 31, 2023	<u>8,694</u>	\$ 10.37	7.07
Exercisable at October 31, 2023	<u>3,941</u>	\$ 10.28	5.91

As of October 31, 2023, 9.1 million shares remained available for future grants under this plan.

We estimate the grant-date fair value of stock options using the Black-Scholes-Merton valuation model, using the following weighted-average assumptions:

	Years Ended October 31,	
	2023	2022
Expected term (in years)	6.11	6.11
Risk-free interest rate	3.91 %	3.06 %
Expected dividend rate	— %	— %
Expected stock price volatility	67.2 %	49.3 %

These assumptions used to value our awards are determined as follows:

- The expected term of the options is based on the simplified method due to the lack of sufficient historical exercise data to provide a reasonable basis.
- The expected stock price volatility is derived by using the historical volatility of a group of peer companies since our shares are not traded publicly.
- The average risk-free interest rate is based on the U.S. Treasury zero-coupon issues with a remaining term equal to the expected term of the awards.
- The dividend yield assumption is based on our dividend history and future expectations of dividend payouts. We do not expect to have dividends in the future.

As of October 31, 2023 and 2022, total unrecognized stock-based compensation expense for unvested options was \$9.6 million and \$8.2 million and is expected to be recognized over a weighted average period of approximately 2.8 years and 3.1 years. The weighted-average grant-date fair value for stock options granted during the fiscal years ended October 31, 2023 and 2022 was \$4.07 and \$4.11. The total fair value of stock options vested during the fiscal years ended October 31, 2023 and 2022 was \$2.9 million and \$3.7 million.

Table of Contents

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Topco Profit Interest Units

On October 4, 2022, Vertex Topco LP (“Topco”) issued a total of 2.7 million profit interest units in Topco including 1.3 million time-based units and 1.4 million performance units. The units entitled the holder the rights to Topco distributions in excess of the threshold of \$11.66. Time-based units vest over a four year service period from the date of grant and the performance units vest upon the achievement of a two times total equity return to the existing Topco partners. The units have a maximum term of ten years.

The fair value attributed to the time-based units was \$2.5 million at the grant date. The fair value of the time-based units will be recognized over the remaining service period. The fair value of the performance units will not be recognized until it is probable the performance conditions will be satisfied.

Stock-Based Compensation Expense

The following table presents the stock-based compensation expense recognized in our Consolidated Statements of Operations (in thousands):

	Years ended October 31,	
	2023	2022
Cost of net revenues	\$ 573	\$ 395
Research and development	626	647
Sales and marketing	1,515	1,456
General and administrative	1,166	1,510
Total stock-based compensation expense	<u>\$ 3,880</u>	<u>\$ 4,008</u>

Our computation of stock-based compensation expense includes an estimate of award forfeitures based on historical experience. We record compensation expense only for those awards that are expected to vest.

Performance-based stock options ultimately vest depending upon satisfaction of conditions that only arise in the event of a sale of the Company. No compensation expense will be recognized on these stock options unless it becomes probable the performance conditions will be satisfied.

Note 3. Income Taxes

Income (loss) before income taxes consisted of the following (in thousands):

	Years ended October 31,	
	2023	2022
United States	\$ (60,412)	\$ (173,991)
Foreign	(26,623)	95,033
Income (loss) before income taxes	<u>\$ (87,035)</u>	<u>\$ (78,958)</u>

The provision for (benefit from) income taxes consisted of the following (in thousands):

	Years Ended October 31,	
	2023	2022
Current:		
Federal	17,480	695
State	1,288	(83)
Foreign	52,125	111,501
Total current provision for income taxes	<u>70,893</u>	<u>112,113</u>
Deferred:		
Federal	(2,787)	3,646
State	(973)	1,465
Foreign	(29,351)	(72,646)
Total deferred benefit from income taxes	<u>(33,111)</u>	<u>(67,535)</u>
Income tax provision (benefit)	<u>\$ 37,782</u>	<u>\$ 44,578</u>

A reconciliation of taxes computed at the federal statutory income tax rate to the provision for (benefit from) income taxes is as follows (in thousands):

	Years Ended October 31,	
	2023	2022
Provision for (benefit from) income taxes computed at the federal statutory rate	(18,277)	(16,581)
State income tax, net of federal tax benefit	475	914
Foreign income taxes at other than U.S. rates	29,849	46,045
Valuation allowance, net	44,349	(22,332)
Israel settlement deferred tax liability	(10,140)	24,235
Base Erosion and Anti-Abuse Tax (BEAT) Disallowance	6,195	15,623
Unrecognized tax benefit	(5,165)	(31)
Prior Period True Ups	(6,654)	(1,212)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The significant components of our deferred tax assets and liabilities were as follows (in thousands):

	October 31,	
	2023	2022
Deferred tax assets:		
Loss carry forwards	\$ 418,811	\$ 154,708
Basis differences in deductible goodwill and purchased intangibles	48,822	48,759
Foreign tax credit carry forwards	8,533	17,426
Accrued expenses and reserves	50,768	44,881
Contract liabilities	9,629	7,840
Unrealized foreign currency losses	14,814	15,406
Right of use lease liabilities	5,647	6,274
R&D credit carry forwards	2,064	7,322
Interest carry forwards	104,273	88,047
Inventories	12,882	12,673
Section 174 Capitalization	45,432	—
Other deferred tax assets	32,708	19,158
Total deferred tax assets	<u>754,383</u>	<u>422,494</u>
Valuation allowance	<u>(660,540)</u>	<u>(340,132)</u>
Deferred tax liabilities:		
Basis differences on purchased intangibles	(80,481)	(96,466)
Basis differences in investments in foreign subsidiaries	(9,522)	(17,566)
Other deferred tax liabilities	<u>(70,769)</u>	<u>(65,216)</u>
Total deferred tax liabilities	<u>(160,772)</u>	<u>(179,248)</u>
Net deferred tax liabilities	<u>\$ (66,929)</u>	<u>\$ (96,886)</u>

Provisions enacted in the the Tax Cut and Job Act ("TCJA") related to the capitalization for tax purposes of research and development expenditures became effective on November 1, 2022. These provisions require us to capitalize research and development expenditures and amortize them on our U.S. tax return over five or fifteen years, depending on where research is conducted.

The realization of deferred tax assets is dependent primarily on generating sufficient U.S. and foreign taxable income in future fiscal years. We regularly assess the need for a valuation allowance against deferred tax assets. In making that assessment, we consider both positive and negative evidence related to the likelihood of realization of the deferred tax assets to determine, based on the weight of available evidence, whether it is more-likely-than-not that some or all of the deferred tax assets will not be realized. In evaluating the need for a valuation allowance, we consider the cumulative loss in the U.S. as a significant piece of negative evidence. We will continue to assess the realizability of the deferred tax assets in each of the applicable jurisdictions going forward and adjust the valuation allowance accordingly. We intend to maintain the valuation allowances until sufficient positive evidence exists to support the reversal of the valuation allowance.

The valuation allowance increased by \$320.4 million in fiscal year 2023 primarily due to increased tax attributes as a result of current year losses, capitalized research expenditures and disallowed interest expense carryforward.

VERIFONE SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The tax loss carry forwards as of October 31, 2023 were related primarily to tax losses of \$850.2 million in the U.S. federal jurisdiction, of which \$417.5 million can be carried forward indefinitely, \$94.2 million in Ireland, \$13.9 million in Romania \$62.7 million in France, \$3 million in Netherlands, \$11.2 million in the Hong Kong, \$11.5 million in Germany, \$1,250 million in Luxembourg and \$9.3 million in various other non-U.S. countries. Approximately \$1,437.2 million of foreign tax losses may be carried forward indefinitely. The remaining approximately \$18.1 million of foreign tax losses is subject to limited carry forward terms of 3 to 20 years, and will expire at various dates beginning in fiscal year 2024, if not utilized. Various states have tax loss carry forwards of \$1,219.7 million that will expire at various dates beginning in fiscal year 2024 if not utilized.

Due to our acquisition by the Investor group in FY18, utilization of \$632.4 million of our U.S. NOL and \$14.1 million of our tax credit carryforwards may be subject to annual limitation due to the ownership change limitations provided by Sections 382 and 383 of the Internal Revenue Code and similar state provisions. Such an annual limitation may result in the expiration of certain NOLs and tax credits before future utilization. Under Section 382 of the Tax Code, the ability to utilize NOL carryforwards or other tax attributes, such as research tax credits, in any taxable year may be limited if we have experienced an “ownership change.” Generally, a Section 382 ownership change occurs if there is a cumulative increase of more than 50 percentage points in the stock ownership of one or more stockholders or groups of stockholders who own at least 5% of a corporation’s stock within a specified testing period. Similar rules may apply under state tax laws. During FY23, we have performed an analysis under Internal Revenue Code Sections 382 and 383 through October 31, 2023 to determine the amount of our net operating loss carryforwards and research development credit carryforwards will be subject to annual limitation. The analysis concluded that we have experienced one or more such ownership changes prior to October 31, 2023 and the Company’s net operating losses and tax credit carryforwards generated prior to the identified ownership changes are subject to limitation under Sections 382 and 383. Due to the Section 382 limits, \$5.1 million of the Federal research and development credits will be expired unused. Net operating losses generated after December 31, 2017 are not subject to expiration, but the utilization of these net operating losses will be limited to 80% of the taxable income in the years in which they are utilized. We may experience ownership changes as a result of future financing or other changes in the stock ownership.

As of October 31, 2023, we have recorded U.S. foreign tax credit carry forwards of \$8.4 million which will expire at various dates beginning in fiscal year 2024, if not utilized. In addition, we have recorded U.S. federal and state research and development tax credit carry forwards of \$13.3 million and \$4.9 million, which will expire at various dates beginning in fiscal year 2034, if not utilized.

Israel Tax Audit Assessment

On November 14, 2022, we entered into a final agreement with the Israeli Tax Authorities (ITA) to settle all tax related disputes. We were under audit by the Israeli Tax Authorities for fiscal years 2011 through 2015.

As part of the Settlement Agreement, we agreed to pay the ITA in a total sum of 347.5 million NIS (approximately \$85.4 million in USD at the foreign exchange rate as of October 31, 2023) in installments starting in FY2023 through FY2026, in addition to interest and CPI on the unpaid tax liability. During fiscal year 2023, we paid 32.7 million NIS in total to the ITA (\$8.0 million at the foreign exchange rate as of October 31, 2023) including taxes, interest and CPI. We have reversed the uncertain tax position reserve and recorded short-term and long-term liabilities associated with the settlement payments and interest.

Other Audits

We have certain other foreign subsidiaries under audit by foreign tax authorities, including Germany for years 2013 through 2018, India for years 2009 through 2020, Romania for years 2011 through 2016, Philippines for year 2019 and 2021, Thailand for year 2019 through 2020, UK for the year 2022, and Indonesia for year 2022. Although we believe we have appropriately provided for income taxes for the years subject to audit, the Germany, India, Romania, Philippines, and Thailand taxing authorities may adopt different interpretations. We have not yet received any final determinations with respect to these audits.

VERIFONE SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

We have accrued tax liabilities associated with these audits, except for UK and Indonesia where audit has been initiated recently. With few exceptions, we are no longer subject to tax examination for periods prior to 2008.

The aggregate changes in the balance of gross unrecognized tax benefits were as follows (in thousands):

	October 31,	
	2023	2022
Balance at beginning of period	\$ 350,110	\$ 303,083
Lapse of statute of limitations	(1,484)	(1,382)
Increases in balances related to tax positions taken during prior periods	14,175	52,063
Decreases in balances related to tax positions taken during prior periods	(3,397)	(7,532)
Increases in balances related to tax positions taken during current period	21,636	4,070
Settlements	(59,276)	(192)
Balance at end of period	<u>\$ 321,764</u>	<u>\$ 350,110</u>

Of the total \$321.8 million gross unrecognized tax benefits, 44.7 million, if recognized, will affect our effective tax rate. The amount of unrecognized tax benefits could be reduced upon closure of tax examinations or if the statute of limitations on certain tax filings expires without assessment from the tax authorities. As a result of the final settlement of the Israeli tax audits on November 14, 2022, there has been a decrease of uncertain tax benefits in the amount of \$58.9 million and related accrued interest of \$40.1 million in FY2023, for a total amount of \$99.1 million. In addition, we believe that it is reasonably possible that there could be an immaterial reduction in unrecognized tax benefits due to statute of limitation expirations in multiple tax jurisdictions during the next 12 months. Interest and penalties accrued on these uncertain tax positions will also be released upon the expiration of statutes of limitations. Interest and penalties recognized in each statement of operations were not material. As of October 31, 2023, we have accrued \$2.4 million for the payment of interest and penalties related to unrecognized tax benefits. We recognize interest and penalties related to unrecognized tax benefit on the income tax line in the accompany consolidated statement of operations. Accrued interest and penalties are included on the related liability lines in the consolidated balance sheet.

We are subject to income tax in many jurisdictions in and outside of the U.S. Our operations in the US and certain jurisdictions remain subject to examination for years 2004 to 2023, some of which are currently under audit by local tax authorities. The resolution of each of these audits is not expected to be material to our consolidated financial statements.

Note 4. Balance Sheet Components

Cash, Cash Equivalents and Restricted Cash

The following table provides a reconciliation of cash, cash equivalents and restricted cash shown in the Consolidated Statements of Cash Flows (in thousands):

	October 31,	
	2023	2022
Cash and cash equivalents	\$ 99,132	\$ 97,860
Restricted cash included in Prepaid expenses and other current assets	87,161	105,889
Restricted cash included in Other long-term assets	3,162	6,564
Total cash, cash equivalents and restricted cash	<u>\$ 189,455</u>	<u>\$ 210,313</u>

Table of Contents

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Restricted cash was mainly comprised of cash held on behalf of customers as part of our transaction processing services.

As of October 31, 2023 and 2022, \$70.9 million and \$71.1 million of our cash and cash equivalents were held by our foreign subsidiaries. If we decide to distribute or use such cash and cash equivalents outside those foreign jurisdictions, including a distribution to the U.S., we may be subject to additional taxes or costs.

Allowances for doubtful accounts

Activity related to the allowances for doubtful accounts consisted of the following (in thousands):

	Years Ended October 31,	
	2023	2022

(2) Amounts reclassified from Accumulated other comprehensive loss, net of tax, were recorded in Interest expense, net in the Consolidated Statements of Operations. The related tax impacts were insignificant.

(3) Amounts reclassified from Accumulated other comprehensive loss, net of tax, were recorded in General and administrative expenses in the Consolidated Statements of Operations. The related tax impacts were insignificant.

Table of Contents

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Note 5. Financial Instruments

Fair Value Measurements

Our financial assets and liabilities consist principally of cash, accounts receivable, accounts payable, debt, interest rate swap and caps and are reported at fair value. The estimated fair value of cash, accounts receivable, and accounts payable approximates their carrying value. The estimated fair value of our debt approximates the carrying value because the interest rate on such debt adjusts to market rates on a periodic basis. Interest rate swaps and caps are recorded at estimated fair value on a recurring basis.

Interest Rate Cap Agreements Designated as Cash Flow Hedges

Prior to fiscal year ending October 31, 2023, we used interest rate swaps to hedge the variability in cash flows related to interest payments of our term loans. These interest rate swaps expired in November 2022. In our fiscal quarter ending on October 31, 2022, we entered into interest rate caps to replace the expiring interest rate swaps. Six interest rate caps have a notional value of \$1.2 billion and a cap rate of 4.0% and one interest rate cap has a notional value of \$0.25 billion and a cap rate of 4.5%. The 4% interest rate caps mature on August 20, 2025 and the 4.5% interest rate cap matures on March 25, 2024. All interest rate caps were effective on November 30, 2022. The interest rate cap agreements require us to pay premiums of \$5.4 million and \$15.6 million in the fiscal years ending October 31, 2024 and 2025.

The interest rate caps qualify for hedge accounting treatment as cash flow hedges. We excluded the time value from our initial assessment of hedge effectiveness and will recognize the interest rate cap premiums in Interest expense, net on a straight line basis over the term of the interest rate caps.

As of October 31, 2023 and 2022, we recorded assets related to our interest rate caps of \$15.4 million and \$16.4 million. The assets are measured at fair value on a recurring basis and are classified in Level 2 within the fair value hierarchy. There were no transfers in fair value hierarchy in the fiscal years ended October 31, 2023 and 2022.

As of October 31, 2023, the estimated net derivative gain related to our cash flow hedges included in Accumulated other comprehensive loss that will be reclassified into earnings in the next 12 months is \$12.1 million. The derivative gain reclassified from Accumulated other comprehensive loss to Interest expense, net was \$8.2 million for the fiscal year ended October 31, 2023. The derivative loss reclassified from Accumulated other comprehensive loss to Interest expense, net was \$11.4 million for the fiscal year ended October 31, 2022.

Cash Flows Attributed to Interest Rate Swaps

We received interest payments of \$1.3 million during the fiscal year ending October 31, 2023 on interest rate swap agreements modified on June 24, 2019 and we paid interest of \$24.8 million during the fiscal year ending October 31, 2022, on the same interest rate swap agreements. These cash receipts and payments are included in Other financing activities, net on the Consolidated Statements of Cash Flows.

Note 6. Equity Investments

Equity Method Investments

We had a 25.3% equity interest in Gas Media Holdings, LLC ("Gas Media") at October 31, 2022. We accounted for its equity interest in Gas Media under the equity method of accounting.

Table of Contents

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

On June 21, 2023, we sold our entire equity interest in Gas Media for \$104.0 million in cash consideration with \$70.0 million received at close and \$34.0 million in non-interest bearing installment payments due from September 2023 to November 2024. Gas Media entered into a credit agreement to finance the transaction and we signed a subordination agreement that limited our rights to receive future installment payments in certain instances and prohibited liens to secure the installment payments. After the close, we have no involvement in or obligations to the Gas Media business and our rights are limited to the future installment payments.

The carrying value of our Gas Media investment was \$37.6 million on the sale close date. We estimated the fair value of the total consideration to be \$100.2 million and recognized a gain on sale of the equity investment of \$62.6 million during the fiscal year ending October 31, 2023.

Fair Value Alternative Investments

We have investments accounted for under the fair value alternative that have a carrying value of \$34.0 million as of October 31, 2023 and 2022 and were included in Other long-term assets in our Consolidated Balance Sheets. One of these investments is in variable interest entity where we are not the primary beneficiary. Our known maximum exposure to loss on the variable interest entity is our carrying value of the investments of \$30.3 million and a promissory note issued by the variable interest entity with a carrying value of \$1.2 million on October 31, 2023. These investments do not have a readily determinable fair values and we did not record any other-than-temporary impairments for the fiscal years ended October 31, 2023 and 2022.

Note 7. Goodwill and Purchased Intangible Assets

Goodwill

Activity related to goodwill for the fiscal years ended October 31, 2023 and 2022 consisted of the following (in thousands):

	Years Ended October 31,	
	2023	2022
Balance at the beginning of period	\$ 1,549,157	\$ 1,585,547
Currency translation adjustments	12,822	(36,390)
Balance at the end of period	\$ 1,561,979	\$ 1,549,157

During the fourth quarter of fiscal year 2023, we completed our annual impairment assessment and concluded that there was no impairment to goodwill. We used the quantitative method in our 2023 annual assessment related to both of our reporting units.

Purchased Intangible Assets, Net

Purchased intangible assets, net consisted of the following (in thousands):

	October 31, 2023			October 31, 2022		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Customer relationships	\$ 1,149,753	\$ (587,178)	\$ 562,575	\$ 1,141,185	\$ (473,661)	\$ 667,524
Developed technology	258,977	(213,522)	45,455	478,135	(349,556)	128,579
Trade name	158,800	(55,039)	103,761	158,800	(44,453)	114,347

Less: original issue discount and debt issuance costs	(16,415)	(25,491)
Total amounts outstanding	2,051,864	2,093,737
Less: current portion	(21,616)	(50,552)
Long-term portion	<u>\$ 2,030,248</u>	<u>\$ 2,043,185</u>

Credit Agreements

On August 20, 2018, we entered into a first lien and second lien credit agreement to provide for an aggregate amount of up to \$2.2 billion of debt. The first lien credit agreement provides for (i) \$1.75 billion seven-year first priority secured term loan facility and (ii) \$250.0 million on a five-year first priority secured revolving credit facility. The second lien credit agreement provided for \$200.0 million under an eight-year priority secured term loan facility.

Table of Contents

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

On May 10, 2019, we entered into a First Incremental Credit Facility Amendment to the First Lien Credit Agreement which provides for an additional term loan borrowing availability of \$425.0 million. The Company subsequently borrowed \$200.0 million on May 10, 2019. The proceeds of these borrowings were used to prepay the secured term loan facility of \$200.0 million under the second lien credit agreement. On June 24, 2019, the Company borrowed \$225.0 million to repay the outstanding balance of \$97.5 million on the revolving credit facility and pay \$4.0 million of fees and expenses incurred in connection with these incremental term loans. The remaining funds received from the incremental credit facility were used for general corporate purposes.

On May 8, 2020, we entered into the Second Amendment to the First Lien Credit Agreement which amended the quarterly financial covenants to temporarily increase the allowable ratio related to financial leverage and added monthly liquidity minimums and a restriction on cash levels when we have outstanding borrowings on the revolving credit facility. The covenant relief period under this second amendment ended on July 31, 2021.

On May 13, 2022, we entered into a Third Amendment to our First Lien Credit Agreement which amended the quarterly financial covenants to increase certain allowable ratios related to net financial leverage and added a minimum liquidity requirement that is tested monthly until August 20, 2023.

On July 21, 2022, we entered into a Fourth Amendment to our First Lien Credit Agreement which extended the maturity on \$175.0 million of our revolving commitments and revolving loans under the First Lien Credit Agreement, transitioned the revolving loans from LIBOR to SOFR, amended certain future quarterly financial covenants related to allowable net financial leverage ratios, and amended the minimum liquidity covenant to test liquidity until August 20, 2025. We incurred fees and third party expenses of \$0.7 million related to this amendment.

On July 21, 2023, we entered into the Fifth Amendment to our First Lien Credit Agreement which transitioned our first lien term debt loans from LIBOR to term SOFR plus rate adjustment depending on the elected interest period. The rate adjustments range from 0.11% for one month term SOFR to 0.43% for six month term SOFR.

Outstanding amounts under the term loans may be subject to mandatory repayment with the proceeds of certain asset sales, and debt issuances, depending on our total leverage ratio, as defined under the agreement. We were in compliance with the financial covenants as of October 31, 2023. The credit agreement also contains representations and warranties, affirmative covenants, negative covenants, financial covenants and conditions that are customarily required for similar financings including the following:

- A restriction on incurring additional indebtedness, subject to specified permitted debt;
- A restriction on creating certain liens, subject to specified exceptions;
- A restriction on mergers and consolidations, subject to specified exceptions;
- A restriction on certain investments, subject to certain exceptions and a suspension if we achieve certain credit ratings;
- A restriction on asset dispositions, subject to specified exceptions for ordinary course and other transactions;
- A restriction on the payment of dividends, subject to specified exceptions; and
- A restriction on entering into certain transactions with affiliates, subject to specified exceptions.

Borrowings under the credit agreement bear interest at an Alternate Base Rate or SOFR at our option plus applicable margin based upon certain leverage ratios, determined and payable quarterly. Applicable margin on borrowings under the revolving loan range from 2.0% to 2.5% on the alternate base rate loan and 3.0% to 3.5% on the SOFR loan depending upon the leverage ratios. Borrowings under the letters of credit shall bear interest at the same rate applicable to revolving loans. In addition, we pay a commitment fee on the aggregate outstanding revolving commitments ranging from 0.25% to 0.50% per annum, depending upon the leverage ratio.

Table of Contents

VERIFONE SYSTEMS, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The outstanding principal balance of the term loans is required to be repaid in quarterly installments for an amount equal to 1% per annum of the aggregate principal amounts of the initial and incremental term loans with the final balance to be paid at maturity on August 20, 2025. The withdrawals under the revolving loan shall be due and payable on August 20, 2025.

Borrowings under the credit agreement are guaranteed by certain of our wholly owned domestic subsidiaries and secured by a first priority lien and security interest in certain of our assets, subject to customary exceptions.

As of October 31, 2023, we elected the SOFR loan option on all of our borrowings. SOFR loans bear interest at a market interest rate plus a margin according to the credit agreement. As of October 31, 2023, the market interest rate was 5.7% on the first lien term loan with an applicable margin of 4.0%.

As of October 31, 2023, the commitment fee for the aggregate outstanding revolving commitment was 0.5% per annum, payable quarterly, and the amount available to draw under the revolving facility was \$170.2 million.

Principal Payments

Future principal payments due under our financing arrangements are as follows (in thousands):

	<u>Amounts</u>
Years ending October 31:	
2024	\$ 21,771
2025	<u>2,046,508</u>
Total	<u><u>\$ 2,068,279</u></u>

Note 9. Leases

We have operating leases for certain facilities throughout our global operations. The lease term for all of our leases includes the non-cancellable period of the lease plus any additional periods covered by an option to extend the lease that we are reasonably certain will exercise. Operating leases are included in Right-of-use assets, Other current liabilities and Long-term lease liabilities on our Consolidated Balance Sheet. ROU lease assets and liabilities are recognized at each lease's commencement date based on the present value of its lease payments over its respective lease term.

Operating lease expenses were \$18.4 million and \$18.9 million for the years ended October 31, 2023 and 2022. We have no material short-term and variable lease costs or sublease income for the period ended October 31, 2023 and 2022.

Cash paid for operating leases during the fiscal years ended October 31, 2023 and 2022 was \$17.6 million and \$20.1 million.

Supplemental balance sheet information related to Company's leases is as follows:

	<u>October 31,</u>	
	<u>2023</u>	<u>2022</u>
	(in thousands)	
ROU lease assets	\$ 44,884	\$ 49,006
Accruals and other current liabilities	11,701	14,689
Long-term lease liabilities	<u>37,810</u>	<u>38,176</u>
Total operating lease liabilities	<u><u>\$ 49,511</u></u>	<u><u>\$ 52,865</u></u>
Weighted average remaining lease term (years)	5.63	5.65
Weighted average discount rate	7.44 %	5.28 %

Maturity of operating lease liabilities as of October 31, 2023 were as follows (in thousands):

	<u>Amounts</u>
Years ending October 31:	
2024	\$ 14,619
2025	11,871
2026	9,683
2027	6,681
2028	4,843
2029 and thereafter	<u>13,012</u>
Total	60,709
Less: imputed interest payments	<u>11,198</u>
Present value of lease liabilities	<u>\$ 49,511</u>

Note 10. Commitments and Contingencies

Manufacturing Related Agreements

We work on a purchase order basis with our contract manufacturers, which are located predominantly in China, Malaysia, Vietnam, Thailand and Brazil, and component suppliers located throughout the world, to supply nearly all of our finished goods inventories, spare parts, and accessories. We provide each such supplier with a purchase order to cover the manufacturing requirements, which generally constitutes a binding commitment by us to purchase materials and finished goods produced by the manufacturer as specified in the purchase order. Most of these purchase orders are considered to be non-cancelable and are expected to be paid within one year of the issuance date. As of October 31, 2023, the amount of purchase commitments issued to contract manufacturers and component suppliers totaled approximately \$87.4 million.

Guarantees

We have issued bank guarantees with maturities ranging from one to five years to certain of our customers and vendors as required in some countries to support certain performance obligations under our service or other agreements with those parties. As of October 31, 2023, the maximum amount that may become payable under these guarantees was \$23 million, of which \$8.3 million was collateralized by restricted cash deposits.

Contingencies

We evaluate the circumstances regarding outstanding and potential litigation and other contingencies on a quarterly basis to determine whether there is at least a reasonable possibility that a loss exists requiring accrual or disclosure, and if so, whether an estimate of the possible loss or range of loss can be made, or whether such an estimate cannot be made. When a loss is probable and reasonably estimable, we accrue for such amount based on our estimate of the probable loss considering information available at the time. When a loss is reasonably possible, we disclose the estimated possible loss or range of loss in excess of amounts accrued, if material. Except as otherwise disclosed below, we do not believe that material losses were probable or that there was a reasonable possibility that a material loss may have been incurred with respect to the matters disclosed.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Oren Ganor v. Casponet Ltd. Israel

On August 14, 2018, a class-action complaint was filed against Casponet Ltd. in Israel claiming that ATMs that Casponet provides to merchants violate Israel's disability and accessibility laws. Before Casponet's deadline to respond to the original complaint, the plaintiffs amended their complaint to allege that Casponet should have published a February 6, 2018 decision by the Israeli disability and accessibility commission approving a compliance-extension request allowing Casponet to meet accessibility requirements gradually with milestones through 2023. On September 29, 2019, Casponet responded to the amended complaint, denying any liability. On September 19, 2021, the Court granted plaintiffs' class-certification motion, and class notice was published in October 2021. Casponet filed its statement of defense on December 15, 2021, denying any liability. Fact discovery has concluded, and both parties have filed their evidence. Expert discovery is continuing. An evidentiary hearing is scheduled to begin on January 16, 2024, and continue on April 10, 2024, and closing arguments are scheduled on May 22, 2024.

Israeli Consumer Council v. Casponet Ltd. Israel et al.

On February 1, 2022, nonprofit organization The Israeli Consumer Council filed a class-action complaint in Israel against ten defendant banks, Casponet Ltd., and a Casponet competitor claiming that defendants improperly disclose and overcharge fees for ATM cash withdrawals. The complaint also claims that the defendant banks have been unfairly closing branches to the particular detriment of disabled and old customers and that all ATM fees (including specifically disclosed service fees) are unlawfully excessive. On August 8, 2022, Casponet responded to the complaint, denying any liability and requesting dismissal. Discovery is proceeding. A preliminary hearing was held on December 20, 2022, but no trial date has yet been set.

Sisvel International S.A., 3G Licensing, S.A., and Sisvel S.p.A. v. VeriFone, Inc.

Nonpracticing entities Sisvel International S.A., 3G Licensing, S.A., and Sisvel S.p.A. have filed two patent-infringement lawsuits in the U.S. District Court for the District of Delaware claiming that VeriFone, Inc.'s point-of-sale terminals' use of standards-essential cellular communication network technology infringe several U.S. patents that they acquired from other entities. We deny any liability and are seeking indemnification and defense from our suppliers of the cellular chipset technology at issue. Both cases are currently stayed pending *inter partes* reviews (IPRs) of the patents at issue by the U.S. Patent and Trademark Office (USPTO).

Other Litigation

Certain cases are still in the preliminary stages, and we are not able to quantify the extent of our potential liability, if any, other than as described above. Further, the outcome of litigation is inherently unpredictable and subject to significant uncertainties. If any of these matters are resolved adversely to us, this could have a material adverse effect on our business, financial condition, results of operations and cash flows. In addition, defending these legal proceedings is likely to be costly, which may have a material adverse effect on our financial condition, results of operations and cash flows, and may divert management's attention from the day-to-day operations of our business. We are subject to various other legal proceedings related to commercial, customer, tax, intellectual property, employment and other matters that have arisen during the ordinary course of business. The outcome of such legal proceedings is inherently unpredictable and subject to significant uncertainties. Although there can be no assurance as to the ultimate disposition of these matters, our management has determined, based upon the information available at the date of these financial statements, including anticipated expected availability of insurance coverage, that the expected outcome of these matters, individually or in the aggregate, will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Table of Contents

VERIFONE SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Income Tax Uncertainties

As of October 31, 2023, the amount payable for unrecognized tax benefits was \$41 million, including accrued interest and penalties, none of which is expected to be paid within one year. This amount is included in other long-term liabilities on our Consolidated Balance Sheet as of October 31, 2023. We are unable to make a reasonably reliable estimate as to when cash settlement with a taxing authority may occur.

Note 11. Related parties

In August 2021, we divested our controlling interest in Verifone Systems (China), Inc. to the former general manager and minority shareholder of this business. The general manager and Verifone Systems (China), Inc. are related parties to VeriFone Systems, Inc. Subsequent to the divestiture, we purchased \$45.5 million and \$39.2 million in payment devices and development services from Verifone Systems (China), Inc. in the fiscal years ended October 31, 2023 and 2022. As of October 31, 2023 and 2022, we had \$8.9 million and \$6.1 million outstanding as accounts payables.

Note 12. Subsequent events

The Company has evaluated subsequent events through January 12, 2024, which is the date that these financial statements were available to be issued. Based on our evaluation there are no material subsequent events to be reported.

Uttalelse om revisjonen av årsregnskapet

Konklusjon

Vi har revidert Verifone Nordic Holding AS årsregnskap som viser et overskudd på kr 94.529.903. Årsregnskapet består av balanse per 31. oktober 2023, kontantstrømoppstilling og resultatregnskap for regnskapsåret avsluttet per denne datoen og noter til årsregnskapet, herunder et sammendrag av viktige regnskapsprinsipper.

Etter vår mening er det medfølgende årsregnskapet avgitt i samsvar med lov og forskrifter og gir et rettviseende bilde av selskapets finansielle stilling per 31. oktober 2023, og av dets resultater og kontantstrømmer for regnskapsåret avsluttet per denne datoen i samsvar med regnskapslovens regler og god regnskapsikk i Norge.

Grunnlag for konklusjonen

Vi har gjennomført revisjonen i samsvar med lov, forskrift og god revisjonsskikk i Norge, herunder de internasjonale revisjonsstandardene (ISA-ene). Våre oppgaver og plikter i henhold til disse standardene er beskrevet i *Revisors oppgaver og plikter ved revisjon av årsregnskapet*. Vi er uavhengige av selskapet slik det kreves i lov og forskrift, og har overholdt våre øvrige etiske forpliktelser i samsvar med disse kravene. Etter vår oppfatning er innhentet revisjonsbevis tilstrekkelig og hensiktsmessig som grunnlag for vår konklusjon.

Øvrig informasjon

Ledelsen er ansvarlig for øvrig informasjon. Øvrig informasjon består av årsberetningen, men inkluderer ikke årsregnskapet og revisjonsberetningen.

Vår uttalelse om revisjonen av årsregnskapet dekker ikke øvrig informasjon, og vi attesterer ikke den øvrige informasjonen.

I forbindelse med revisjonen av årsregnskapet er det vår oppgave å lese øvrig informasjon med det formål å vurdere hvorvidt det foreligger vesentlig inkonsistens mellom øvrig informasjon og årsregnskapet, kunnskap vi har opparbeidet oss under revisjonen, eller hvorvidt den tilsynelatende inneholder vesentlig feilinformasjon. Dersom vi hadde konkludert med at den øvrige informasjonen inneholder vesentlig feilinformasjon er vi pålagt å rapportere det. Vi har ingenting å rapportere i så henseende.

Grant Thornton Revisjon AS is a member of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered independently by the member firms. GTIL does not provide services to clients. An instinct for growth™

Styrets ansvar for årsregnskapet

Styret (ledelsen) er ansvarlig for å utarbeide årsregnskapet i samsvar med lov og forskrifter, herunder for at det gir et rettviseende bilde i samsvar med regnskapslovens regler og god regnskapsskikk i Norge. Ledelsen er også ansvarlig for slik intern kontroll som den finner nødvendig for å kunne utarbeide et årsregnskap som ikke inneholder vesentlig feilinformasjon, verken som følge av misligheter eller utilsiktede feil.

Ved utarbeidelsen av årsregnskapet må ledelsen ta standpunkt til selskapets evne til fortsatt drift og opplyse om forhold av betydning for fortsatt drift. Forutsetningen om fortsatt drift skal legges til grunn for årsregnskapet så lenge det ikke er sannsynlig at virksomheten vil bli avvirket.

Revisors oppgaver og plikter ved revisjonen av årsregnskapet

Vårt mål er å oppnå betryggende sikkerhet for at årsregnskapet som helhet ikke inneholder vesentlig feilinformasjon, verken som følge av misligheter eller utilsiktede feil, og å avgi en revisjonsberetning som inneholder vår konklusjon. Betryggende sikkerhet er en høy grad av sikkerhet, men ingen garanti for at en revisjon utført i samsvar med lov, forskrift og god revisjonsskikk i Norge, herunder ISA-ene, alltid vil avdekke vesentlig feilinformasjon som eksisterer. Feilinformasjon kan oppstå som følge av misligheter eller utilsiktede feil. Feilinformasjon blir vurdert som vesentlig dersom den enkeltvis eller samlet med rimelighet kan forventes å påvirke økonomiske beslutninger som brukerne foretar basert på årsregnskapet.

Som del av en revisjon i samsvar med lov, forskrift og god revisjonsskikk i Norge, herunder ISA-ene, utøver vi profesjonelt skjønn og utviser profesjonell skepsis gjennom hele revisjonen. I tillegg:

- identifiserer og anslår vi risikoen for vesentlig feilinformasjon i årsregnskapet, enten det skyldes misligheter eller utilsiktede feil. Vi utformer og gjennomfører revisjonshandlinger for å håndtere slike risikoer, og innhenter revisjonsbevis som er tilstrekkelig og hensiktsmessig som grunnlag for vår konklusjon. Risikoen for at vesentlig feilinformasjon som følge av misligheter ikke blir avdekket, er høyere enn for feilinformasjon som skyldes utilsiktede feil, siden misligheter kan innebære samarbeid, forfalskning, bevisste utelatelser, uriktige fremstillinger eller overstyring av intern kontroll.
- opparbeider vi oss en forståelse av den interne kontroll som er relevant for revisjonen, for å utforme revisjonshandlinger som er hensiktsmessige etter omstendighetene, men ikke for å gi uttrykk for en mening om effektiviteten av selskapets interne kontroll.
- evaluerer vi om de anvendte regnskapsprinsippene er hensiktsmessige og om regnskapsestimatene og tilhørende noteopplysninger utarbeidet av ledelsen er rimelige
- konkluderer vi på hensiktsmessigheten av ledelsens bruk av fortsatt drift-forutsetningen ved avleggelsen av årsregnskapet, basert på innhentede revisjonsbevis, og hvorvidt det foreligger vesentlig usikkerhet knyttet til hendelser eller forhold som kan skape tvil av betydning om selskapets evne til fortsatt drift. Dersom vi konkluderer med at det eksisterer vesentlig usikkerhet, kreves det at vi i revisjonsberetningen henleder oppmerksomheten på tilleggsopplysningene i årsregnskapet, eller, dersom slike tilleggsopplysninger ikke er tilstrekkelige, at vi modifierer vår konklusjon om årsregnskapet. Våre konklusjoner er basert på revisjonsbevis innhentet inntil datoen for revisjonsberetningen. Etterfølgende hendelser eller forhold kan imidlertid medføre at selskapet ikke fortsetter driften.

Grant Thornton

An instinct for growth™

- evaluerer vi den samlede presentasjonen, strukturen og innholdet i årsregnskapet, inkludert tilleggsopplysningene, og hvorvidt årsregnskapet gir uttrykk for de underliggende transaksjonene og hendelsene på en måte som gir et rettviseende bilde.

Vi kommuniserer med styret blant annet om det planlagte omfanget av revisjonen og til hvilken tid revisjonsarbeidet skal utføres. Vi utveksler også informasjon om forhold av betydning som vi har avdekket i løpet av revisjonen, herunder om eventuelle svakheter av betydning i den interne kontrollen.

Andre forhold

Selskapet har ikke opplyst om hvor redegjørelsen for arbeid med grunnleggende menneskerettigheter og anstendige arbeidsforhold (åpenhetsloven) er blitt gjort tilgjengelig. Jf. NRS 16.2.13, åpenhetsloven § 5

Selskapets årsregnskap og årsberetning ble ikke avlagt innen lovens frist.

Årsberetning 2023

Virksomheten

VeriFone Nordic Holding AS inngår i VeriFone-konsernet, som har fokus rettet mot elektroniske betalingsløsninger. VeriFone er et amerikansk selskap med datterselskaper over hele verden. Konsernet selger integrerte og frittstående elektroniske betalingsløsninger, løsninger for elektronisk handel med mer. Foruten salg og utleie, utvikler konsernet også programvare for løsningene, samt tilbyr tjenester knyttet til drift og vedlikehold av betalingsløsningene.

Eierforhold og konsernregnskap

Samtlige aksjer i VeriFone Nordic Holding AS er eid av det svenske selskapet Electronic Transaction Group Nordic Holding AB. Konsernet ble i 2011 kjøpt opp av det amerikanske selskapet VeriFone System Inc, som eier selskapet via sitt svenske datterselskap VeriFone Nordic AB. Verifone Nordic Holding AS eier direkte de operative selskapene i Sverige, Norge, Danmark, Island, Finland og Latvia. Indirekte eier selskapet også et operativt selskap i Storbritannia. Fra og med regnskapsåret 2012 utarbeides det ikke eget konsernregnskap for Verifone Nordic Holding AS, og det henvises til konsernselskapet for Verifone Systems Inc.

Omsetning og resultat

Selskapet hadde i 2023 0 kroner i omsetning og driftsresultat ble positivt på 77 millioner kroner. Resultatet etter skatt var positivt på 94,5 millioner kroner. Positivt driftsresultat er et resultat av reversering av nedskrivning på en tvilsom konsernintern fordring tidligere regnskapsført i 2019, som er gjort opp i sin helhet i inneværende regnskapsår.

Soliditet

Selskapet hadde ved utgangen av 2023 en egenkapital på solide 591,3 millioner kroner.

Markedsforhold og fremtidsutsikter

Selskapets regnskap for 2023 er avgitt under forutsetning om fortsatt drift og styret bekrefter at forutsetningen for fortsatt drift er til stede. Selskapets styre mener selskapet og konsernet er meget godt posisjonert med hensyn til produkter.

Organisasjon og miljø

Selskapet hadde ingen ansatte i 2023. Selskapets virksomhet forurenser ikke det ytre miljø.

Resultatdisponering

Selskapet hadde i 2023 et årsresultat på positive 94 529 903 kroner. Det er ikke avsatt til utbytte, hele beløpet på 94 529 903 kroner er overført til annen egenkapital.

Annet

Styret kjenner ikke til noe forhold av viktighet for å bedømme selskapets stilling og resultat som ikke fremgår av resultatregnskap og balanse med noter. Det har heller ikke inntrådt forhold etter regnskapsårets utgang som etter styrets syn har betydning for bedømmelsen av regnskapet.

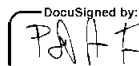

DocuSign Envelope ID: 6F8A98FD-4340-460E-BF53-484226FAC8CA

I dette rapporteringsperioden er det viktig å åpent adressere visse aspekter ved vår corporate governance og risikostyringspraksis. For øyeblikket har selskapet ikke en forsikringspolicy på plass for medlemmer av styret og administrerende direktør, spesielt utformet for å dekke potensielle ansvarsområder for disse nøkkelindividene overfor selskapet og tredjeparter. Mens vi kontinuerlig evaluerer vår risikoeksponering og forsikringsbehov, er det avgjørende å erkjenne at denne beslutningen gjenspeiler en balanse mellom risikoreducerende strategier og klok økonomistyring. Likevel er vi bevisst viktigheten av effektiv risikostyring og er dedikert til å opprettholde de høyeste standardene for governance og ansvarlighet i alle våre bestrebelser.

Finansiell rapporten for VeriFone Nordic Holding AS kan fås ved å laste ned en kopi på nettstedet www.brreg.no. Selskapet er en del av de konsoliderte finansielle rapportene til Verifone Systems Inc., og de konsoliderte finansielle rapportene kan fås ved å kontakte: Verifone Nordic AB c/o Germandt & Danielsson Advokatbyrå KB Postboks 5747 114 87 Stockholm, Sverige.
