ÅRSREGNSKAPET FOR REGNSKAPSÅRET 2020 - GENERELL INFORMASJON

Enheten

Organisasjonsnummer:	947 313 533
Organisasjonsform:	Aksjeselskap
Foretaksnavn:	SEMCO MARITIME AS
Forretningsadresse:	Hanøytangen 130 5310 HAUGLANDSHELLA

Regnskapsår

Årsregnskapets periode:	01.01.2020 - 31.12.2020

Konsern

Morselskap i konsern:	Ja
Konsernregnskap lagt ved:	Ja

Regnskapsregler

Regler for små foretak benyttet:	Nei
Benyttet ved utarbeidelsen av årsregnskapet til selskapet:	Regnskapslovens alminnelige regler
Benyttet ved utarbeidelsen av årsregnskapet til konsernet:	-

Årsregnskapet fastsatt av kompetent organ

Bekreftet av representant for selskapet:	Dennis Thomsen
Dato for fastsettelse av årsregnskapet:	10.06.2021

Grunnlag for avgivelse

År 2020: Årsregnskapet er elektronisk innlevert

År 2019: Tall er hentet fra elektronisk innlevert årsregnskap fra 2020

Det er ikke krav til at årsregnskapet m.v. som sendes til Regnskapsregisteret er undertegnet. Kontrollen på at dette er utført ligger hos revisor/enhetens øverste organ. Sikkerheten ivaretas ved at innsender har rolle/rettighet for innsending av årsregnskapet via Altinn, og ved at det bekreftes at årsregnskapet er fastsatt av kompetent organ.

RENEWABLES

Mayflower Wind

In January 2020, Semco Maritime began working on the Mayflower Wind project, which is the Group's largest order to date, comprising engineering works, procurement and the construction of a 1,200 MW offshore substation. The project is carried out in a consortium with Bladt Industries and has proceeded according to plan despite the COVID-19 pandemic. Mayflower Wind is being erected south of Nantucket, Massachusetts, and is expected to supply 804 MW of clean, renewable energy to power up to half a million households with expected start-up in 2025.

Semco Maritime emerged stronger from the challenging 2020

Steen Brødbæk
CEO

We created strong results and ensured effective execution in 2020 although the year was both unusual and challenging for Semco Maritime and the entire energy sector. A strong start to the year with bright prospects and a historically strong order book was abruptly replaced by travel restrictions and difficult working conditions following the outbreak of COVID-19. The situation was exacerbated by severe oil price fluctuations, which made operators strongly hold back on investment decisions.

Nevertheless, we continued our endeavours to promote the green transition and to ensure responsible oil and gas extraction, taking every safety precaution necessary to avoid the spread of infection among employees, customers and business partners. Although we experienced an abrupt slowdown in our service business and more cumbersome decision-making processes, we continued to improve on project execution in both our business areas and to ensure strong business development despite historically different market conditions. By the end of the year, our revenue had stabilised at DKK 1.9 billion and all parts of our organisation had contributed to significantly lifting earnings (EBITDA) to DKK 71 million before special items relating to COVID-19 and other factors.

Our ability to deliver good results was attributable exclusively to an exceptional effort by all employees of Semco Maritime. In recent years, we have created an organisation capable of seamlessly switching between projects in Renewables and Oil & Gas, and the agility and flexibility of our employees have proven decisive for our ability to serve our customers in a satisfactory manner. In fact, we delivered all projects on time and to budget although the versatile environment placed heavy demands on our innovative capabilities along the way. We owe a sincere thanks to our dedicated employees in this regard.

At the same time, we were pleased to record an improved safety performance on the basis of our intensfied focus on this area in recent years, where we have carried out global safety campaigns and initiatives to bring attention to work-related incidents and »near-misses« throughout the organisation. All employees responded to the campaigns with a high level of responsibility, and in 2020 we sharply reduced the number of work-related incidents related to human causes. We will continue these efforts at full force in the coming years, with »safety« still being one of our core values.

Overall, Semco Maritime emerged stronger from 2020, which was in many ways a year of extensive learning. We learned that we can be efficient, adapt and perform by working remotely – but also that, longer term, we rely on fruitful cooperation with colleagues, customers and business partners to create the quality projects that Semco Maritime is known for. With customers who continue to have confidence in us, we landed an order intake of DKK 3.1 billion in 2020, and at 1 January we had a historically large order book of DKK 2.3 billion, with Renewables accounting for 76% and Oil & Gas for 24%. This makes us expect the high level of activity will continue in 2021, as we intend to increase our revenue and consolidate earnings, although we will also be investing heavily in creating continued growth in our Renewables business in particular.

Semco Maritime at a glance

Semco Maritime is an international engineering and contracting business undertaking and solving assignments across the value chain of the global energy sector. The company also helps its customers to seize opportunities in the green transition and to ensure responsible fossil fuel extraction processes. Since 1980, we have applied our specialist competencies as a platform for the work carried out at all stages of offshore and onshore assignments – from preliminary analyses over design, procurement and manufacturing to installation, commissioning and subsequent service as well as rental of manpower and supply of bespoke components, systems and solutions. Semco Maritime has 1,500 employees, who secure our customers cost-effective project management and operations from our head office in Denmark.

Leader in offshore substations

Semco Maritime has built a market-leading position and unique expertise in the development, construction and commissioning of offshore substations for offshore wind projects. Over the coming years, Semco Maritime will contribute to ensuring that millions of people get access to renewable energy from more and ever-larger offshore wind farms.

Kaskasi II

Engineering works, procurement and construction of offshore substation and onshore and offshore construction work and commissioning.

- Innogy
- The German part of the North Sea
- 2019 - 2022
- 325 MW

Arcadis Ost I

The engagement covers engineering works, procurement and construction of an offshore substation in cooperation with 50 Hertz Transmission GmbH.

- Parkwind Ost
- The German part of the Baltic Sea
- 2020 - 2023
- 247 MW

Mayflower Wind

The project is the largest in Semco Maritime's history and covers engineering works, procurement and construction of a 1,200 MW offshore substation.

- Mayflower Wind Energy LLC
- Massachusetts, USA
- 2020 - 2024
- 1,200 MW

Vineyard Wind

Semco Maritime is to assist with engineering works, procurement and construction of a substation for the first offshore wind farm in the USA.

- Vineyard Wind LLC
- Massachusetts, USA
- 2019-2023
- 800 MW

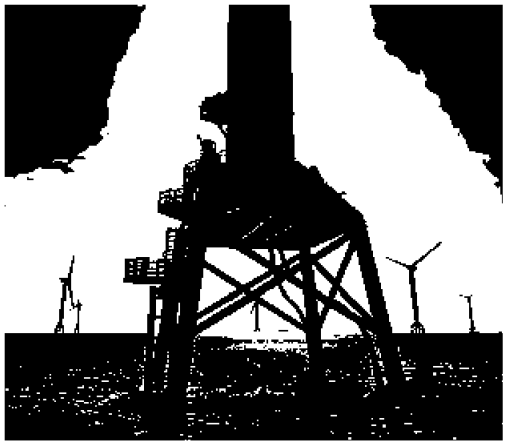
In 2020, non-current assets include an escrow account regarding prepayment on contract work in progress of DKK 753 million, which will be released in line with the completion of the project.



Service and maintenance assignments in the Baltic Sea

Semco Maritime is performing more and more service and maintenance assignments in the Offshore Wind business area, and in 2020 we continued our project in the Baltic Sea north-east of the German island of Rügen, the site of Iberdrola's Wikinger wind farm. The assignments include planned as well as unscheduled service and maintenance of the electrical systems on the wind farm's offshore substation and on the turbine foundations and transition pieces. Furthermore, Semco Maritime's employees perform inspections of safety equipment, steel constructions and piping systems above and below sea level, including cleaning of the foundations.

A definition of financial ratios is provided on page 45.

MANPOWER

Collaboration with Total in the UK

In April 2020, Semco Maritime and its two partners in the PBS consortium, Ponticelli and Brand Energy & Infrastructure Services, commenced work on a large-scale maintenance and operations support contract with Total's UK entity Total Exploration and Production UK (TEPUK). The PBS consortium was established in 2019 to make a bid for the five-year contract covering all TEPUK assets, which produce more than 250,000 barrels of oil per day. The project involves, among other things, maintaining, securing and modifying TEPUK's assets, and will engage some 900 employees from the PBS consortium, who will contribute to improving the safety, effectiveness and sustainability for TEPUK.

Developments in 2020

Semco Maritime saw a stable business development in 2020 despite the historically difficult market conditions caused by the COVID-19 pandemic and very volatile oil prices. Accelerating its order intake, the Group secured a historically large order book in the Renewables business area, which in the coming years will represent a growing proportion of revenue in accordance with Semco Maritime's strategy.

Although travel restrictions and the postponement of customer investment decisions put a damper on the level of activity in 2020, Semco Maritime still managed to create stable results and a strong foundation for future growth.

Revenue
Revenue was relatively stable, totalling DKK 1,879 million (2019: DKK 1,905 million) despite the difficult market conditions in 2020. After a high level of activity during the first few months of the year, the COVID-19 pandemic weighed on revenue due to travel restrictions and an abrupt slowdown in the service business as well as slower decision-making processes by customers.

Semco Maritime reported a sharp order intake increase of 29% to DKK 3,114 million (2019: DKK 2,412 million) from a strong starting point. By the end of the year, the order book had thus risen to DKK 2,278 million (2019: DKK 1,043 million) with the positive developments driven especially by the conclusion of major strategic contracts in the Renewables business area.

Renewables
Revenue in the Renewables business area rose to DKK 395 million (2019: DKK 366 million) in 2020, when the Group started work on the large Mayflower Wind project in the USA and performed assignments on the Kaskasi II and Arcadis Ost offshore wind projects.

The order intake rose to DKK 1,429 million (2019: DKK 834 million) in 2020 driven by large and multi-year contracts for offshore wind projects, and the end-of-year order book reached DKK 1,734 million (2019: DKK 655 million).

Oil & Gas
The Oil & Gas business area reported a moderate drop in revenue to DKK 1,484 million (2019: DKK 1,539 million) in 2020 owing to the effects of COVID-19 and declining oil prices over the course of the year. The negative effects of the difficult market conditions were partly offset by strong activity in the Group's facilities at Hanøytangen early in the year and a strong contribution from the activities in the PBS consortium for Total in the UK.

In 2020, the business area's order intake rose to DKK 1,685 million (2019: DKK 1,578 million), and the end-of-year order book rose to DKK 544 million (2019: DKK 388 million).

08.07.2022 kl 20:36

Brønnøysundregistrene

Earnings
Semco Maritime held its gross margin at 61% (2019: 61%) despite the negative consequences of COVID-19 in 2020 owing to strong project execution and cost management. The Group significantly improved its earnings, lifting EBITDA to DKK 71 million (2019: DK 53 million) before special items of DKK 26 million (2019: DKK 11 million) associated with handling the COVID-19 crisis etc. The EBITDA margin before special items was 3.8% (2019: 2.8%).

Financials items
Financial items amounted to an expense of DKK 10 million (2019: expense of DKK 6 million) in 2020 owing to higher interest expenses and negative exchange rate adjustments.

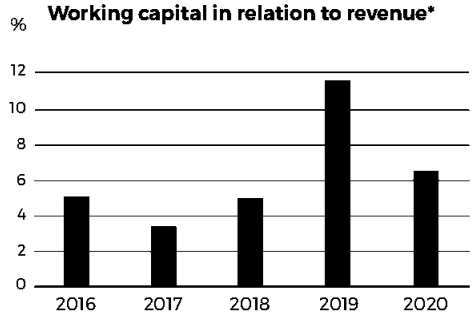
Profit/loss for the year
Profit before tax rose to DKK 18 million in 2020 (2019: DKK 16 million), and profit after tax was also DKK 18 million (2019: DKK 18 million).

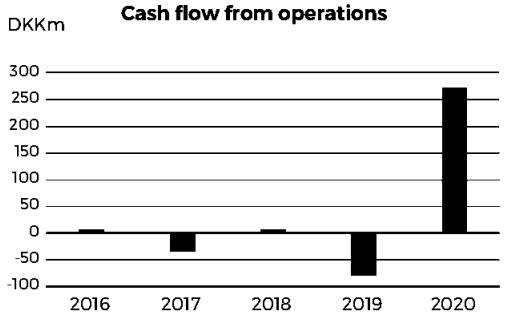
Cash flows
Consolidated cash flows from operating activities were significantly affected by working capital changes due to large prepayments from customers, tight cash management and the utilisation of the possibility of deferring the payment of employee income taxes during the COVID-19 pandemic. Against this background, cash flows from operating activities grew to a net inflow of DKK 271 million (2019: outflow of DKK 72 million). Cash flows for investing activities fell to DKK 10 million (2019: DKK 23 million) from a high level in 2019 driven by investments to upgrade Semco Maritime's facilities at Hanøytangen. In 2020, cash flows from financing activities amounted to a net outflow of DKK 216 million (2019: inflow of DKK 91 million) due to changes in the Group's credit facility resulting from a positive bank balance at year-end 2020.

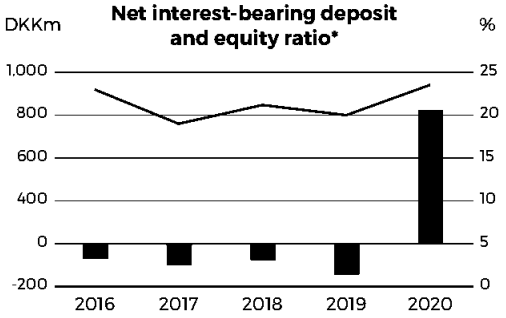
Balance sheet
Due to a special customer prepayment of DKK 789 million, Semco Maritime had a net interest-bearing deposit of DKK 802 million (2019: net interest-bearing debt of DKK 153 million) at the end of 2020. Equity improved further to DKK 161 million (2019: DKK 155 million), while the equity ratio fell to 10.9% (2019: 20.2%) because of a substantial increase in total assets to DKK 1,472 million (2019: DKK 768 million) driven by the high level of activity and the large prepayment. Return on equity was 11.2% in 2020 (2019: 12.6%).

Adjusted for the large prepayment, total assets amounted to DKK 683 million, and the equity ratio rose to 23.6%. The Group had financial resources of DKK 223 million at 31 December 2020.

Events after the balance sheet date
No events have occurred since the balance sheet date which are expected to have a material effect on an assessment of the Annual Report for 2020.







*Working capital in relation to revenue and equity ratio are shown exclusive of the effect of a customer prepayment of DKK 789 million in 2020.

Brønnøysundregistrene

Outlook for 2021

Management expects a higher level of activity in 2021 despite continuing adverse consequences of the COVID-19 pandemic. The positive development is to be achieved on the basis of the strong order book and sound business developments in the first quarter of the year.

The improvement is expected to be driven by strong activity on the large open contracts in Offshore Wind and in the PBS consortium for Total in the UK and in connection with the re-opening of the Tyra field in the North Sea in the second half of the year. Against that background, revenue is expected to rise in 2021, and EBITDA is also expected to improve as a result of the increased business activity and the continuing focus on good project management.

The Offshore Wind market is expected to see growth escalating further in the coming years, particularly in the new markets in the USA and Asia. Market growth will be driven by the enhanced focus on the green transition among populations, decision-makers and players in the industry, and markets are expected to remain extremely competitive in Europe, the USA and Asia.

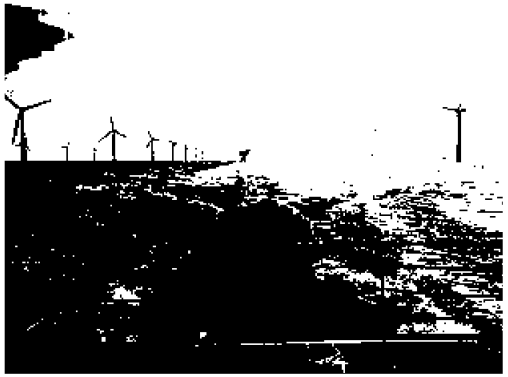
Competition on prices remains fierce in the Oil & Gas markets, and management does not expect to see any noticeable changes in competition within the near future.

The outlook for 2021 is subject to considerable uncertainty due to COVID-19, which continues to affect several of the Group's markets.

Forward-looking statements

The forward-looking statements in this Annual Report reflect Semco Maritime's current expectations for future events and financial results.

The statements involve uncertainty and the results achieved may deviate from expectations, one reason being the trends in economic conditions, commodity prices, subsidy and grant schemes as well as fluctuations in the financial markets and amended legislation and rules in the Group's markets. See also Risks on page 18.



Increase in Offshore Wind investments

The global energy sector transition is leading to steadily increasing investments in Offshore Wind projects with a particularly strong trend in several markets outside Europe. The USA and Asia are expected to see a particularly strong increase in the number of offshore wind projects in the years ahead with the industry persistently being focused on lowering costs and ensuring that sustainable energy remains competitive.

Semco Maritime invests in product development and competence building, innovative solutions and digitalisation measures to retain and expand its strong position in the attractive market for Offshore Wind and also to continue to contribute to the all-important climate change mitigation.

Responsibility

Demand for innovative and sustainable solutions is growing in the international energy industry, and our ability to develop and deliver cost-efficient and sustainable projects makes us stand out from other market players and constitutes an ever-increasing competitive advantage to Semco Maritime.

Continuing safety improvements
In 2020, we continued our efforts to avoid negative impacts on our employees, stakeholders, assets and the environment. The level of safety improved notably, and we reduced the number of work-related incidents bringing the Total Recordable Incident Frequency down to 2.2 per one million man-hours, thus meeting our goal of a maximum frequency of 2.5. Against this background, we have reduced the future goal to a maximum frequency of 1.5.

We conducted a Safety Culture Survey at all operational and offshore sites, the result being a score of 3.26 on a scale from one to four (2019: 3.22). 58% of the recipients of the survey responded to the questions, and we improved the results, living up to our goal of achieving a level of 3.25. In 2021, our goal remains to land a result above 3.25 and a higher response percentage.

High employee satisfaction and loyalty
In order to retain and attract the most skilled employees, we focus on creating attractive jobs and optimum opportunities for professional development across the Group. In 2020, we conducted an employee satisfaction survey to areas such as management, cooperation and work-life balance and to provide us with an overview of our employees' knowledge of and insight into our strategy. In 2020, a record-high number of employees participated in the survey (89%), securing an overall score of 4.2 (on a scale of 1 to 5, with 5 being the best).

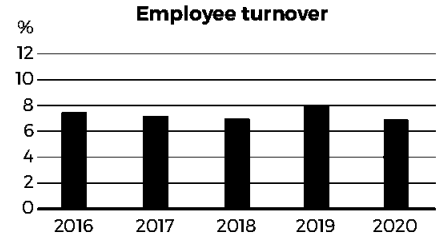
We also measure employee turnover, sickness absence and results of appraisal interviews.

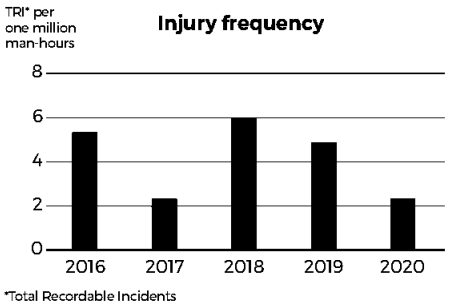
The employee turnover for white-collar workers was 7% (2019: 8%), which is highly satisfactory and within our target of a level below 10%.

During the outbreak of COVID-19, sickness absence rose to 3.3% (2019: 2.7%) because more employees at some locations had to consider their own health and care for their family members. In 2021, we expect to reduce sickness absence to a maximum level of 2.5%.

In 2020, we started to implement a new approach to conducting and assessing appraisal interviews, and in 2021 we will launch the new tool globally to ensure that all employees experience the same type of appraisal interview regardless of location and job function.

More women in management
There is a great potential in ensuring diversity in the management team and among the employees, and we aim to increase the number of female managers at Semco Maritime from 25% in 2020 to at least 35% in 2021.





*Total Recordable Incidents

Reporting to Global Compact

Semco Maritime is a signatory to the UN Global Compact and works actively to promote a number of the UN sustainable development goals. Read more about our corporate social responsibility and efforts to promote diversity in our Communication On Progress report for Global Compact here: https://campaigns.semcomaritime.com/hubfs/COP%202020.pdf

OIL & GAS

Hanøytangen

In the first half of 2020, Semco Maritime's employees modified and carried out service of the two rigs Deepsea Stavanger and West Bollsta designed for demanding tasks in challenging waters for Odfjell Drilling and Seadrill Limited, respectively. The projects were carried out at the Group's own yard facilities at Hanøytangen in Norway, which have in recent years been upgraded to handle the high-precision process of servicing and modifying some of the world's largest rigs. Despite the effects of COVID-19, the projects were carried out on time by Semco Maritime's experienced employees and several close business partners. The picture shows Deepsea Stavanger heading into dry dock to be painted.

Management and ownership

Management structure
Semco Maritime's management is composed of a Board of Directors and an Executive Board, which are independent of each other.

The shareholders of the company elect the members of the Board of Directors, which makes overall decisions about the Group's strategic development, monitors risks and supervises the Executive Board. The Board of Directors consists of six members, of which four are elected by the shareholders and two by the employees. In July 2020, Andreas Nauen stepped down as a shareholder-elected board member, and at the annual general meeting held on 20 April 2021, Gunnar Groebler was elected by the shareholders as a new board member.

The Board of Directors is focused on ensuring that the shareholder-elected board members have competencies in and experience from one or more of Semco Maritime's business areas and are capable of contributing to the commercial development of the business.

The Board of Directors undertakes its work in compliance with rules of procedure that have been prepared in compliance with the provisions set out in the Danish Companies Act. The members of the Executive Board may speak, but cannot vote at board meetings, and they do not attend meetings when matters reserved for the Board of Directors are considered. The Board of Directors held four ordinary and four extraordinary meetings in 2020. Six board meetings were held wholly or partially as video or telephone meetings due to the special circumstances caused by COVID-19.

The Executive Board is appointed by the Board of Directors and is responsible for the day-to-day management and development of Semco Maritime as well as the operations and performance of the company. The Executive Board is charged with executing the strategy in accordance with the general resolutions adopted by the Board of Directors.

Ownership
The principal shareholder of the company is Semco Maritime Holding A/S, which is included in the consolidated financial statements of C.W. Obel A/S and Det Obelske Familiefond, the beneficial owners of Semco Maritime since 1996. C.W. Obel A/S's solid financial position, in-depth insight into the industry and long-term ownership have laid the foundation for a stable development of the Group both during times of attractive and less favourable market conditions.

Executive Board

Steen Brødbæk, CEO since 2009

Extensive international management experience of engineering, technology and manufacturing businesses, not to mention strong strategic skills. Previous employment as CEO of Arvid Nilsson A/S and Invensys APV A/S as well as managerial positions with ABB A/S. Chairman of the board of directors of Carl Ras A/S and member of the boards of directors of Arkil Holding A/S and DI Energi. Qualified electrical power engineer.

Jørgen Devantier Gade, CFO since 2013

Experienced manager of finance organisations with particularly strong skills in finance, treasury, procurement and IT. Previous employment as CFO of Qubiqa A/S, CFO of LM Wind Power and CFO of ABB A/S. MSc (Econ. and Business Adm.).

Risks

Being an international engineering and contracting business with project activities in the global energy sector, Semco Maritime is exposed to a number of significant risks. Management continually monitors these risks to maintain the right balance between risk and earnings and development potential.

Anchored in the management team
Risk management is anchored in the day-to-day management, which is handled by the Executive Board within the general framework and guidelines defined by Semco Maritime's Board of Directors. The responsibilities of the Executive Board comprise the ongoing identification and management of risk and any necessary adjustment and development of the company's processes and activities to mitigate such risks.

In connection with the conclusion of contracts with customers and collaboration partners, Semco Maritime engages its legal department, which is also in charge of the company's insurance programme. Material contracts are subject to a review by the Executive Board and approval according to standardised procedures. Large individual contracts may be approved by the Executive Board together with the Chairman of the Board of Directors, while specific maximum amounts have been defined for contracts that are subject to the approval of the entire Board of Directors.

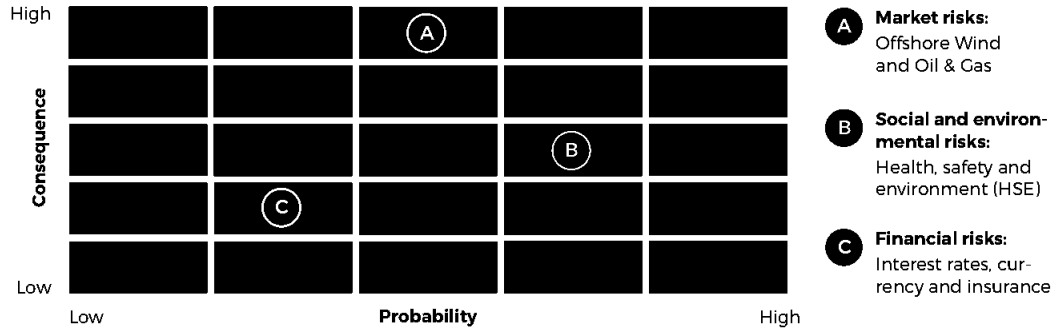
Semco Maritime's business entities regularly monitor developments in health, safety and environment (HSE), which is a key risk area with an important impact on the company's ability to attract and retain customers and employees. The operational responsibility for monitoring, follow-up and reporting HSE matters to the Executive Board lies with the managers of the individual business entities in cooperation with a dedicated corporate function which maintains statistics in the field and ensures knowledge-sharing and consistent follow-up procedures.

The Executive Board reports to the Board in connection with an annual strategic review of Semco Maritime's overall risk profile and risk management, reviewing the conclusions of an external insurance broker's annual review of the company's insurance programme.

Materiality assessment
In addition to the repercussions of the global outbreak of COVID-19, management assesses that the most significant risks in the upcoming period relate to market developments in Offshore Wind and Oil & Gas, HSE matters and developments in the financial markets. These risks are shown in the figure below based on management's assessment of the probability that each individual risk materialising and on the potential consequence it could have on Semco Maritime's business. The risks and mitigating measures are described in the following pages.

In addition to the risks listed, Semco Maritime has identified other risks, which comprise, among other things, changes in the balance between oil & gas projects in renewable energy, the company's ability to attract and retain skilled employees and IT security and disruption.

Risks



Side 22 av 75

Brønnøysundregistrene Årsregnskap regnskapsåret 2020 for 947313533

A Market risks

RISK

Offshore Wind

Subsidy schemes remain a key element in the funding of offshore wind farm projects even though the need is gradually declining and set to be eliminated within a period of 5-10 years. In recent years, several offshore wind farm projects have been won without subsidy schemes, and the increasing maturity of the market makes it increasingly competitive.

Oil & Gas

The Group's activities and results are influenced by the investment activity in the oil and gas industry, which depends significantly on trends in oil and gas prices as well as in the US dollar rate.

MONITORING AND HANDLING

Offshore Wind

Semco Maritime monitors offshore wind farm auctions all over the world and engages closely with customers to ensure an overview of industry developments and outlook. We continue to optimise costs and continuously look for innovative solutions that can supplement Semco Maritime's market-leading service and product offerings to the industry.

Oil & Gas

The exposure to fluctuations in oil and gas prices is countered by cost efficiency improvement of existing products and development of new solutions that reduce customer cost bases. Moreover, Semco Maritime has diversified the Group's activities across Oil & Gas and Renewables over a period of time. Fluctuations in the US dollar rate are countered, for instance, by the use of forward exchange contracts as described below and by increased focus on purchases denominated in US dollars.

B Social and environmental risks

Health and safety at work

Semco Maritime's activities involve risks of work-related incidents that may result in personal injury and disrupt the operation of customer assets, and this may result in claims for damages or demands that the Group must take preventive and restorative measures.

As a supplier to the oil and gas and the Offshore Wind industries, Semco Maritime's ability to maintain satisfactory health and safety at work and the required safety certificates is key to the continued success of the Group.

Environment

The Group's activities – particularly in the offshore industry – are governed by the legislation and rules applicable to the handling of environmentally harmful substances and preventive measures to avoid discharge into the sea and the ground when assignments are undertaken by the Group. Unintended discharge may harm the environment, equipment and humans, and such discharge may impose liability on Semco Maritime.

Health and safety at work

Group entities report observations and the number and type of accidents on a monthly basis. Semco Maritime has also appointed a special team to analyse the background to incidents occurred and introduce measures to reduce the risk of repetition.

Semco Maritime works actively to promote the safety culture of the Group and demands that the conduct of the employees is based on the safety policy »Safety is part of our DNA«. The Group strives to rank among the absolutely safest workplaces in the industry, and the level of safety is improved on an ongoing basis through global campaigns, training and education of managers and employees as well as safety talks, etc.

Environment

Environmental risks are managed in cooperation with the Group's customers in individual projects and on the basis of clear policies and procedures that are laid down and revised at Group level.

Brønnøysundregistrene Årsregnskap regnskapsåret 2020 for 947313533

C Financial risks

RISK

Interest rates

The funding of the Group is exposed to changes in interest rates, which may affect customer investment decisions and the Group's financial expenses.

Foreign currency

Semco Maritime's operations are exposed to currency risks. The Group issues invoices in DKK, EUR, GBP, NOK, SGD and USD, whereas a significant share of goods purchased are denominated in DKK, EUR, GBP, NOK and USD. In addition to these transaction risks, Semco Maritime is exposed to translation risks arising when the income statements and balance sheets of foreign subsidiaries are translated into the Group's operating currency (DKK).

Insurance

There may be cases where the insurance taken out by the Group does not cover losses or provides only partial cover, and there may be long periods of uncertainty as regards the cover of losses.

MONITORING AND HANDLING

Interest rates

Semco Maritime's treasury function monitors the level of interest rates on an ongoing basis and secures a balanced mix of prepayments, liabilities and capital structure. In addition, Semco Maritime's focus on efficiency and ongoing cost reduction helps set off increases in the financing expenses of customer projects.

Foreign currency

The Group treasury function enters into forward exchange contracts for the purpose of hedging Semco Maritime's greatest transaction risks at Group level and in individual large-scale projects, and such risks are hedged on an ongoing basis as part of the day-to-day operations when purchases of goods and invoicing are denominated in the same currency to a wide extent. Translation risks are not hedged as translation into the Group's operating currency does not have any material effect on liquidity. Semco Maritime does not make speculative transactions.

Insurance

Semco Maritime has established an extensive insurance programme reflecting the Group's activities. The overall insurance programme is reviewed once a year and comprises, for instance, a contractors all-risk policy, property insurance, third-party liability insurance and other statutory and contractual insurance policies.

MANPOWER

Extended agreement with Total

Semco Maritime continued its strong collaboration with Total in Denmark in 2020 after having signed an agreement for a two-year extension of an existing contract for rental of manpower towards the end of 2019. The extension of the collaborative agreement with Total emphasises Semco Maritime's leading position in the market for rental of experienced and skilled employees to the oil and gas industry in Denmark. At the same time, Total extended existing agreements with Semco Maritime on a number of service assignments, including the servicing of subsurface safety valves.

Accounting policies

Revenue

Construction contracts, in which projects are to a large degree individually designed, are included in revenue in proportion to the work completed, so that revenue is matched with the sales value of the work carried out during the year (the percentage of completion method). When the profit or loss from a construction contract cannot be reliably estimated, revenue is recognised only for costs incurred to the extent that it is likely such costs will be recovered.

In relation to the completion of construction contracts, from time to time the Group undertakes to make procurements on behalf of third parties. In situations where the Group does not assume significant rewards and risks relating to the goods, revenue is presented as net figures and measured at fair value of the agreed consideration for the service in question. Revenue is recognised as such when rewards and risks pass from the supplier to the third party, which is the time when the Group has earned the right to the consideration.

Other income from the sale of goods and services is recognised in the income statement when transfer of the most significant rewards and risks to the buyer has taken place and provided that the income can be reliably measured and payment is expected to be received.

Segment information

Information is provided about geographical and business markets. The segment information follows the Group's accounting policies, risks and in-house financial management.

Accounting policies

Other operating income/expenses

Other operating income/ cost comprises items secondary to the activities of the enterprises, including gains on disposal of intangible assets and property, plant and equipment.

Accounting policies

Tax on profit for the year

Semco Maritime A/S is jointly taxed with C.W. Obel A/S and a number of Danish subsidiaries. The current income tax liability is allocated among the jointly taxed Danish companies in proportion to their taxable income (full distribution with refunds for tax losses). The jointly taxed companies are taxed under the Danish tax prepayment scheme,

Tax for the year, comprising current corporate tax for the year, joint taxation contributions for the year and changes in deferred tax for the year, including such changes as follow from changes in the tax rate, is recognised in the income statement for such part of it as can be attributed to the profit/(loss) for the year, and directly in equity for such part of it as is attributable to amounts recognised directly in equity.

Current tax payable and receivable is recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account.

Accounting policies

Corporation tax and deferred tax

Current tax payable and receivable is recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account.

Joint taxation contributions payable and receivable are recognised in the balance sheet as »Income tax receivable« or »Income tax payable«, respectively.

Deferred tax is measured in accordance with the balance sheet liability method on all temporary differences between the carrying amount and tax base of assets and liabilities. However, deferred tax on temporary differences relating to goodwill which is not deductible for tax purposes and office buildings and other items is not recognised where temporary differences – other than business acquisitions – arise at the date of acquisition without affecting either the profit/(loss) for the year or the taxable income. In cases where the tax base may be computed according to several sets of tax regulations, deferred tax is measured on the basis of the intended use of the asset or settlement of the liability planned by Management.

Deferred tax assets are recognised at the expected value of their utilisation, either as a set-off against tax on future earnings or as a set-off against deferred tax liabilities within the same legal tax entity and jurisdiction.

Deferred tax is measured on the basis of the tax regulations and rates that, according to the rules in force at the balance sheet date, are applicable in the relevant countries at the time the deferred tax is expected to crystallise as current tax.

DKK'000	Group 2020	Group 2019	Parent Company 2020	Parent Company 2019
7. Special items				
Special items comprise significant income and expenses of an exceptional nature relative to the Group's earnings-generating operating activities such as the costs of extensive structuring of processes and basic structural adjustments that over time have a material effect.				
Special items also include other significant amounts of a one-off nature which Management considers not to be a part of the Group's primary operations.				
As described in the Management's review, the profit for the year is affected by a number of factors which Management considers not to be a part of the primary operations.				
The year's special items are specified below, including in which line items in the income statement they are recognised.				
Income				
COVID-19 compensation schemes	7,627	-	-	-
Costs				
Restructuring costs, etc.	(4,659)	(10,780)	(4,594)	(4,943)
Costs associated with the outbreak of COVID-19	(21,668)	-	(12,430)	-
Change in calculation method for employee obligations, etc.	(6,847)	-	(6,847)	-
Result of special items	**(25,547)**	**(10,780)**	**(23,871)**	**(4,943)**
Special items are recognised in the following line items:				
Other operating income	7,627	-	-	-
Staff costs	(31,691)	(5,874)	(22,453)	(3,399)
Other external expenses	(1,483)	(3,429)	(1,418)	(900)
Depreciation and impairment of non-current assets	-	(1,477)	-	(644)
Result of special items	**(25,547)**	**(10,780)**	**(23,871)**	**(4,943)**

The statement of special items is subject to uncertainty and estimates concerning costs derived from and the consequences of the COVID-19 pandemic.

The statement of costs and consequences derived from the COVID-19 pandemic include direct costs for standby time, down manning, demobilisation, safety precautions and lower utilisation of the Group's resources on projects affected by travel restrictions and other restrictions.

Goodwill
The Company's investments in subsidiaries are considered to be of strategic importance to the Group. Goodwill is amortised on a straight-line basis over a maximum amortisation period of 20 years, longest for strategically acquired enterprises with strong market positions and long-term earnings profiles. The amortisation period is also determined on the basis of underlying lease agreements.

Development projects
Completed development projects primarily comprise the development and launch of new products and systems in the business area »Products & Technology«. Costs primarily covers internal costs related to salaries, which are recorded using the Company's in-house project module, and costs from third-party suppliers and consultants in connection with developing, testing and launching products and systems. The business area »Products & Technology« markets the new products and systems, which are expected to substantially improve the Company's competitiveness, leading to a higher level of activity and earnings going forward. Management has not found any evidence of impairment relative to the carrying amount.

Accounting policies

Goodwill

Goodwill is amortised over its estimated economic life determined on the basis of Management's experience with the individual business areas. Goodwill is amortised on a straight-line basis over a maximum amortisation period of 20 years, longest for strategically acquired enterprises with strong market positions and long-term earnings profiles.

Impairment of intangible assets

The carrying amount of intangible assets is analysed annually for evidence of impairment in addition to what is reflected by normal amortisation and depreciation charges.

If there is evidence of impairment, each asset or group of assets is tested for impairment. If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is written down to its recoverable amount.

The recoverable amount is the higher of the net selling price and the value in use of an asset. The value in use is determined as the present value of the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Management has not found any evidence of impairment relative to the carrying amount.

Accounting policies

Patents and licences

Patents are measured at cost less accumulated amortisation and impairment losses. Patents are amortised on a straight-line basis over the remaining patent period, whereas licenses are amortised over the licence period, although not exceeding 5 years.

Gains and losses on the sale of patents and licenses are determined as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Profits or losses are recognised in the income statement under other operating income and expenses, respectively.

Development projects

Development costs comprise costs, salaries, depreciation and amortisation directly or indirectly attributable to development activities.

Development projects which are clearly defined and identifiable, where the technical feasibility, sufficient resources and a potential future market or business opportunity can be demonstrated and where the intention is to manufacture, market or utilise the project, are recognised as intangible assets if the cost can be reliably measured and there is sufficient certainty that future earnings can cover production and selling costs, administrative expenses and development costs. Other development costs are recognised in the income statement as incurred.

Development costs recognised in the balance sheet are measured at cost less accumulated amortisation and impairment. After completion of the development work, development costs are amortised on a straight-line basis over the estimated economic life. The usual amortisation period is three to five years.

Accounting policies

Property, plant and equipment

Land and buildings, leasehold improvements, plant and machinery and other fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment. Land is not depreciated.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date when the asset is available for use. For assets produced in-house, cost comprises direct and indirect costs of materials, components, third-party suppliers and labour.

Where individual components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items, which are depreciated separately.

Assets are depreciated on a straight line basis over their estimated useful lives based on the following assessment of the expected lives of the assets:

Buildings	max. 50 years
Fixtures in buildings	10-25 years
Leasehold improvements	max. 10 years
Plant and machinery	5 years
Other fixtures and fittings, tools and equipment	3-5 years
Cars	5-7 years
Rental material	10 years

Profits or losses are recognised in the income statement under other operating income and expenses, respectively.

Accounting policies

Impairment of property plant and equipment

The carrying amount of property, plant and equipment is analysed annually for evidence of impairment in addition to what is reflected by normal depreciation charges.

If there is evidence of impairment, each asset or group of assets is tested for impairment. If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is written down to its recoverable amount.

The recoverable amount is the higher of the net selling price and the value in use of an asset. The value in use is determined as the present value of the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Accounting policies

Impairment of financial assets

The carrying amount of investments in group enterprises is analysed annually for evidence of impairment over and above what is reflected by normal amortisation and depreciation charges. If there is evidence of impairment, each asset or group of assets is tested for impairment. If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is written down to its recoverable amount. The recoverable amount is the higher of the net selling price and the value in use of an asset. The value in use is determined as the present value of the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Accounting policies

Profit/(loss) from investments in group enterprises

Under the equity method, a proportionate share of the profit/loss after tax in the underlying subsidiaries are recognised in the income statement.

The proportionate share of the profit or loss of subsidiaries after tax is recognised in the parent company income statement after full elimination of intra-group gains/losses.

Investments in group entities

Investments in subsidiaries are measured in the parent company's financial statements according to the equity method. The parent company has opted to consider the equity method a method of consolidation.

On initial recognition, investments in subsidiaries are measured at cost. Cost is allocated in accordance with the purchase method of accounting. See accounting policies regarding consolidated financial statements.

Cost is adjusted to reflect shares of profits after tax calculated in accordance with the Group's accounting policies with the deduction or addition of unrealised intra-group gains or losses.

Any value added and goodwill relative to the net asset value of the underlying business will be amortised in accordance with the Group's accounting policies. Dividends received are deducted from the carrying amount.

Investments in subsidiaries measured at net asset value are subject to an impairment test requirement in case of indications of impairment.

Inventories

Inventories are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, inventories are written down to this lower value.

The cost of goods for resale, raw materials and consumables comprises the purchase price plus delivery costs.

The net realisable value of inventories is calculated as the sales amount less costs of completion and costs necessary to make the sale and is determined taking into account marketability, obsolescence and development in the expected selling price.

Accounting policies

Construction contracts

Construction contracts are measured at the selling price of the work performed. The selling price is measured by reference to the stage of completion at the balance sheet date and the total expected income from the individual contracts.

When the selling price of a construction contract cannot be measured reliably, the selling price is measured at the lower of costs incurred and net realisable value.

Individual construction contracts are recognised in the balance sheet under either receivables or payables. Net assets are determined as the sum of construction contracts where the selling price of the work performed exceeds progress billings. Net liabilities are determined as the sum of construction contracts where progress billings exceed the selling price.

Selling costs and costs incurred in securing contracts are recognised in the income statement as and when incurred.

14. Prepayments

Prepayments include prepaid costs regarding rent, IT licenses, rentals, etc.

Accounting policies

Prepayments

Prepayments comprise costs incurred relating to subsequent financial years.

Accounting policies

Provisions

Provisions comprise expected expenses relating to guarantee commitments, restructuring, etc. Provisions are recognised when the Group has a legal or constructive obligation that arises from past events and it is probable that an outflow of financial resources will be required to settle the obligation.

Provisions are measured at net realisable value or fair value. If the obligation is expected to be settled far into the future, the obligation is measured at fair value.

Guarantee commitments comprise obligations to perform repair work within a warranty period of 1-5 years. Provisions are measured at net realisable value and recognised on the basis of experience from warranty work. Provisions expected to be maintained for more than one year from the balance sheet date are discounted at the average bond yield.

Accounting policies

Liabilities

Financial liabilities are recognised at the time a loan is raised in the amount of the proceeds less any transaction costs incurred. In subsequent periods, the financial liabilities are measured at amortised cost, equivalent to the capitalised value when the effective rate of interest is used, so that the difference between the proceeds and the nominal value is recognised in the income statement over the loan period.

Other payables are measured at net realisable value.

Accounting policies

Deferred income

Deferred income comprises payments received relating to income in subsequent financial years.

1 - 5 years	6,425	10,298	6,425	10,298
	10,609	**13,692**	**10,609**	**13,692**

Accounting policies

Leases

On initial recognition, lease contracts for non-current assets under which the company has all material risks and rewards of ownership (finance leases) are measured in the balance sheet at the lower of the fair value and the present value of future lease payments. For the calculation of the net present value, the interest rate stated in the leases is used as the discount rate. Assets held under finance leases are subsequently depreciated as the company's other non-current assets.

The capitalised residual lease liability is recognised in the balance sheet as a liability, and the interest component of the lease payment is recognised in the income statement over the lease term.

All other leases are operating leases. Payments under operating leases are recognised in the income statement over the terms of the lease. The Company's total obligation relating to operating leases and other leases is disclosed in contingent liabilities, etc.

Accounting policies

Joint arrangements

Joint arrangements are activities or entities jointly controlled by the Group and one or more other parties through cooperation agreements. Joint control implies that decisions on relevant activities require unanimous consent among the parties jointly controlling the arrangement.

Joint arrangements are classified as either joint operations or joint ventures. Joint operations are activities where the participants have direct rights over assets and are subject to direct liability, whereas joint ventures are activities where the participants solely have rights over the net assets.

The Group's activities in joint operations are recognised in the consolidated financial statements on a line-by-line basis.

08.07.2022 kl 20:36 Brønnøysundregistrene Side 44 av 75
Brønnøysundregistrene Årsregnskap regnskapsåret 2020 for 947313533

DKK'000	Group 2020	Group 2019	Parent Company 2020	Parent Company 2019
19. Contingent and other liabilities – continued				
The Company is jointly taxed with C.W. Obel A/S and other Danish Group companies. The companies included in the joint taxation have joint and several unlimited liability for Danish corporation taxes and withholding taxes on dividends, interest and royalties.				
The company has entered into a cash pool arrangement with C.W. Obel A/S and subsidiaries in Norway, Germany and the UK.				
As security for debt to credit institutions in C.W. Obel A/S, the Company has provided a limited guarantee with primary liability in the amount of DKK 425 million.				
The company has issued letters of support towards a few of the subsidiaries.				
Due to its business character, the Group is naturally involved in various disputes and pending lawsuits. In Management's opinion the outcome of these disputes and lawsuits is not expected to have a material negative effect on the financial position.				
Financial instruments				
In order to secure debtors and creditors in foreign currencies, and future transactions for signed sale agreements, forward contracts have been entered into as per 31 December 2020 in USD, NOK, GBP and EUR. The counter value is:	**90,316**	**25,081**	**90,316**	**25,081**
The future transactions are expected to be effected in 2021.				

Accounting policies

Derivative financial instruments

Derivative financial instruments are initially recognised in the balance sheet at cost and subsequently measured at fair value. Positive and negative fair values of derivative financial instruments are recognised under other receivables and other payables, respectively.

Changes in the fair value of derivative financial instruments designated as and qualifying for recognition as a hedge of future assets or liabilities are recognised as other receivables or payables and in equity. If the future transaction results in the recognition of assets or liabilities, amounts previously recognised in equity are transferred to the cost of the asset or liability respectively. If the expected future transaction results in income or expenses, amounts previously recognised in equity are transferred to the income statement in the period in which the hedged transaction affects the income statement.

For derivatives that do not qualify for hedge accounting, changes in fair value are recognised in the income statement as they occur.

Foreign exchange gains and losses on loans and derivative financial instruments designated as hedges of foreign subsidiaries are recognised directly in equity.

Brønnøysundregistrene

Accounting policies

The annual report for Semco Maritime has been prepared in accordance with the provisions applying to reporting class C large enterprises under the Danish Financial Statements Act.

The accounting policies applied in the preparation of the financial statements are consistent with those of last year.

The sections on accounting policies next to the notes form an integral part of the overall accounting policies.

Foreign currency translation
On initial recognition, transactions denominated in foreign currency are translated at the exchange rates at the transaction date. Exchange rate differences arising between the exchange rate at the transaction date and the date of payment are recognised in the income statement under financial income or expenses.

Receivables, payables and other monetary items denominated in foreign currency are translated at the exchange rates ruling at the balance sheet date. The difference between the exchange rate ruling at the balance sheet date and the exchange rate at the date when the receivable or payable arose or was recorded in the most recent financial statements is recognised in the income statement under financial income or expenses.

Foreign subsidiaries are considered independent entities. Income statements are translated at average exchange rates for the month, while balance sheet items are translated at the year-end rates. Foreign exchange adjustments arising on translation of foreign subsidiaries' opening equity at the exchange rates at the balance sheet date and on translation of income statement items from average exchange rates to the exchange rates at the balance sheet date are taken directly to equity.

Foreign exchange adjustments of intra-group balances with independent foreign subsidiaries which are considered part of the investment in the subsidiary are recognised directly in equity. Foreign exchange gains and losses on loans and derivative financial instruments designated as hedges of foreign subsidiaries are also recognised directly in equity.

On recognition of foreign subsidiaries monetary items are translated at the exchange rates at the balance sheet date.

Non-monetary items are translated at the exchange rates at the acquisition date or at the date of any subsequent revaluation or impairment of the asset.

Income statement items are translated at the exchange rates at the transaction date, although items derived from non-monetary items are translated at the historical exchange rates applying to the non-monetary items.

Derivative financial instruments – see note 19

Consolidated financial statements
The financial statements consolidate the parent company, Semco Maritime A/S, and subsidiaries in which Semco Maritime A/S directly or indirectly holds more than 50% of the voting rights or in other ways exercises a controlling interest.

On consolidation, intra-group income and expenses, equity investments, balances and dividends as well as realised and unrealised gains and losses on transactions between the consolidated entities are eliminated.

Investments in subsidiaries are eliminated at the proportionate share of the subsidiaries' fair value of net assets and liabilities at the date of acquisition. Jointly managed joint ventures are consolidated pro rata.

Enterprises acquired or formed during the year are recognised in the consolidated financial statements from the date of acquisition. Enterprises divested or wound up are recognised in the consolidated income statement until the date of disposal. Comparative figures are not restated to reflect acquisitions, divestments or companies wound up.

Acquisitions are accounted for using the purchase method, according to which the identifiable assets and liabilities of companies acquired are measured at fair value at the time of acquisition. A provision is recognised for costs relating to scheduled and announced restructuring in the acquired company in connection with the acquisition. The tax effect of revaluations is taken into account.

Any excess of the cost over the fair value of the identifiable assets and liabilities acquired (goodwill) is recognised as intangible assets and amortised on a systematic basis in the income statement based

Side 47 av 75

Brønnøysundregistrene Årsregnskap regnskapsåret 2020 for 947313533

on an individual assessment of the economic life of the asset. Negative differences (negative goodwill) are recognised as income in the income statement at the time of acquisition when the general revenue recognition criteria are met.

Positive and negative goodwill from acquired businesses may be adjusted until the end of the year after the acquisition.

Joint arrangements – see note 19

Income statement

Revenue – see note 1

Segment information – see note 1

Cost of sales
Cost of sales include costs such as direct and indirect costs for raw materials and consumables, wages and salaries incurred in generating the revenue for the year. Also, provision for losses on construction contracts is recognised.

Other operating income/expenses – see note 2

Staff costs – see note 3

Other external costs – see note 4

Profit/(loss) from investments in group enterprises – see note 10

Financial income and expenses – see note 5

Tax on profit/loss for the year – see note 6

Balance sheet

Intangible assets

Goodwill – see note 8

Patents and licences – see note 8

Development projects – see note 8

Property plant and equipment – see note 9

Lease agreements – see note 19

Investments in group enterprises – see note 10

Impairment of non-current assets – see notes 8, 9 and 10

Inventories – see note 12

Receivables
Receivables are measured at amortised cost. If there is objective evidence that a receivable or a portfolio of receivables is impaired, an impairment loss is recognised. If there is objective evidence that an individual receivable may be impaired, an impairment loss is recognised on an individual level.

In the event there is no objective evidence of individual impairment, receivables are tested for objective indications of impairment on a portfolio level. Portfolios are primarily based on debtors' registered office and credit ratings in accordance with the Company's and the Group's credit risk management policy. The objective indicators used for portfolios are fixed based on historical loss experience.

Impairment losses are calculated as the difference between the carrying amount of receivables and the present value of expected future cash flows, including the realisable value of any collateral provided. The discount rate used is the effective interest rate for the individual receivables or portfolios.

Contract work in progress at cost – see note 13

Prepayments and accrued income – see note 14

Equity

Dividends
Proposed dividend is recognised as a liability at the time of adoption by the shareholders at the annual general meeting (the declaration date). Dividend expected to be paid in respect of the financial year is stated as a separate line item under equity.

Reserve for development costs
The reserve for development costs comprises recognised development costs. The reserve cannot be used to distribute dividend or cover losses. The reserve will

08.07.2022 kl 20:36
Brønnøysundregistrene
Side 48 av 75
Brønnøysundregistrene Årsregnskap regnskapsåret 2020 for 947313533

be reduced or dissolved if the recognised development costs are no longer part of the Company's operations by a transfer directly to the distributable reserves under equity.

Hedging reserve
The hedging reserve contains the accumulated net change in the fair value of hedging transactions that qualify as hedges of future cash flows and for which the hedged transaction has yet to be realised. The reserve is dissolved when the hedged transaction is realised, if the hedged cash flows are no longer expected to be realised or if the hedge is no longer effective. As the reserve does not represent a legally binding amount, it may be negative.

Tax and deferred tax – see note 6

Provisions – see note 15

Liabilities – see note 16

Cash flow statement

The cash flow statement shows the Group's cash flows from operating, investing and financing activities for the year, the year's changes in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities
Cash flows from operating activities are calculated as the Group's share of profit or loss, adjusted for non-cash operating items, changes in working capital and income tax paid.

Cash flows from investing activities
Cash flows from investing activities comprise payments made in connection with the acquisition and disposal of companies and activities and of intangible assets, property, plant and equipment and investments.

Cash flows from financing activities
Cash flows from financing activities comprise changes in the size or composition of the Group's share capital and related costs as well as the raising of loans, repayment of interest-bearing debt and payment of dividends to shareholders.

Cash and cash equivalents – see note 21

Financial ratios

The financial ratios listed in »Financial highlights« have been calculated as follows:

Profit margin
Operating profit x 100
Revenue

Equity ratio
Equity at year-end x 100
Total equity and liabilities, year-end

Return on equity
Profit on ordinary activities after tax x 100
Average equity

Brønnøysundregistrene

Statement by the Board of Directors and the Executive Board

The Board of Directors and the Executive Board have today considered and approved the annual report of Semco Maritime A/S for the period 1 January to 31 December 2020.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the financial statements of the parent company give a true and fair view of the Group's and the company's assets and liabilities and financial position at 31 December 2020 and of the results of the Group's and the company's operations and the Group's cash flows for the financial year 1 January to 31 December 2020.

Furthermore, in our opinion, the Management's review includes a fair review of developments in the operations and financial position of the Group and the parent company, the financial results for the year and the Group's and the parent company's financial position.

We recommend the annual report for adoption at the annual general meeting.

Independent auditor's report

To the shareholders of Semco Maritime A/S

Opinion
We have audited the consolidated financial statements and the parent company financial statements of Semco Maritime A/S for the financial year 1 January – 31 December 2020, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies, for the Group and the Parent Company, and a consolidated cash flow statement. The consolidated financial statements and the parent company financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2020 and of the results of the Group's and the Parent Company's operations as well as the consolidated cash flows for the financial year 1 January – 31 December 2020 in accordance with the Danish Financial Statements Act.

Basis for opinion
We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the »Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements« (hereinafter collectively referred to as »the financial statements«) section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence
We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

Management's responsibilities for the financial statements
Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements
Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that

Side 52 av 75

Brønnøysundregistrene Årsregnskap regnskapsåret 2020 for 947313533

are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review
Management is responsible for the Management's review. Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

UAVHENGIG REVISORS BERETNING

Til generalforsamlingen i Semco Maritime AS

Uttalelse om revisjonen av årsregnskapet

Konklusjon

Vi har revidert årsregnskapet for Semco Maritime AS som består av balanse per 31. desember 2020, resultatregnskap og kontantstrømoppstilling for regnskapsåret avsluttet per denne datoen, og en beskrivelse av vesentlige anvendte regnskapsprinsipper og andre noteopplysninger.

Etter vår mening er årsregnskapet avgitt i samsvar med lov og forskrifter og gir et rettvisende bilde av selskapets finansielle stilling per 31. desember 2020, og av dets resultater og kontantstrømmer for regnskapsåret avsluttet per denne datoen i samsvar med regnskapslovens regler og god regnskapsskikk i Norge.

Grunnlag for konklusjonen

Vi har gjennomført revisjonen i samsvar med lov, forskrift og god revisjonsskikk i Norge, herunder de internasjonale revisjonsstandardene (ISA-ene). Våre oppgaver og plikter i henhold til disse standardene er beskrevet i avsnittet *Revisors oppgaver og plikter ved revisjonen av årsregnskapet*. Vi er uavhengige av selskapet i samsvar med de relevante etiske kravene i Norge knyttet til revisjon slik det kreves i lov og forskrift. Vi har også overholdt våre øvrige etiske forpliktelser i samsvar med disse kravene. Etter vår oppfatning er innhentet revisjonsbevis tilstrekkelig og hensiktsmessig som grunnlag for vår konklusjon.

Øvrig informasjon

Øvrig informasjon omfatter informasjon i selskapets årsrapport bortsett fra årsregnskapet og den tilhørende revisjonsberetningen. Styret og daglig leder (ledelsen) er ansvarlig for den øvrige informasjonen. Vår uttalelse om revisjonen av årsregnskapet dekker ikke den øvrige informasjonen, og vi attesterer ikke den øvrige informasjonen.

I forbindelse med revisjonen av årsregnskapet er det vår oppgave å lese den øvrige informasjonen med det formål å vurdere hvorvidt det foreligger vesentlig inkonsistens mellom den øvrige informasjonen og årsregnskapet eller kunnskap vi har opparbeidet oss under revisjonen, eller hvorvidt den tilsynelatende inneholder vesentlig feilinformasjon. Dersom vi konkluderer med at den øvrige informasjonen inneholder vesentlig feilinformasjon, er vi pålagt å rapportere det. Vi har ingenting å rapportere i så henseende.

Ledelsens ansvar for årsregnskapet

Ledelsen er ansvarlig for å utarbeide årsregnskapet i samsvar med lov og forskrifter, herunder for at det gir et rettvisende bilde i samsvar med regnskapslovens regler og god regnskapsskikk i Norge. Ledelsen er også ansvarlig for slik intern kontroll som den finner nødvendig for å kunne utarbeide et årsregnskap som ikke inneholder vesentlig feilinformasjon, verken som følge av misligheter eller feil.

Ved utarbeidelsen av årsregnskapet må ledelsen ta standpunkt til selskapets evne til fortsatt drift og opplyse om forhold av betydning for fortsatt drift. Forutsetningen om fortsatt drift skal legges til grunn for årsregnskapet med mindre ledelsen enten har til hensikt å avvikle selskapet eller legge ned virksomheten, eller ikke har noe annet realistisk alternativ.

Revisors oppgaver og plikter ved revisjonen av årsregnskapet

Vårt mål er å oppnå betryggende sikkerhet for at årsregnskapet som helhet ikke inneholder vesentlig feilinformasjon, verken som følge av misligheter eller feil, og å avgi en revisjonsberetning som inneholder vår konklusjon. Betryggende sikkerhet er en høy grad av sikkerhet, men ingen garanti for at en revisjon utført i samsvar med lov, forskrift og god revisjonsskikk i Norge, herunder ISA-ene, alltid vil avdekke vesentlig feilinformasjon. Feilinformasjon kan skyldes misligheter eller feil og er å anse som vesentlig

Penneo Dokumentnøkkel: SUT2D-JVOTI-WZN11-AKP8E-EQXXY-LNBWU

Building a better working world

dersom den enkeltvis eller samlet med rimelighet kan forventes å påvirke de økonomiske beslutningene som brukerne foretar på grunnlag av årsregnskapet.

Som del av en revisjon i samsvar med lov, forskrift og god revisjonsskikk i Norge, herunder ISA-ene, utøver vi profesjonelt skjønn og utviser profesjonell skepsis gjennom hele revisjonen. I tillegg

- identifiserer og anslår vi risikoen for vesentlig feilinformasjon i årsregnskapet, enten det skyldes misligheter eller feil. Vi utformer og gjennomfører revisjonshandlinger for å håndtere slike risikoer, og innhenter revisjonsbevis som er tilstrekkelig og hensiktsmessig som grunnlag for vår konklusjon. Risikoen for at vesentlig feilinformasjon som følge av misligheter ikke blir avdekket, er høyere enn for feilinformasjon som skyldes feil, siden misligheter kan innebære samarbeid, forfalskning, bevisste utelatelser, uriktige fremstillinger eller overstyring av intern kontroll;
- opparbeider vi oss en forståelse av den interne kontrollen som er relevant for revisjonen, for å utforme revisjonshandlinger som er hensiktsmessige etter omstendighetene, men ikke for å gi uttrykk for en mening om effektiviteten av selskapets interne kontroll;
- vurderer vi om de anvendte regnskapsprinsippene er hensiktsmessige og om regnskapsestimatene og tilhørende noteopplysninger utarbeidet av ledelsen er rimelige;
- konkluderer vi på om ledelsens bruk av fortsatt drift-forutsetningen er hensiktsmessig, og, basert på innhentede revisjonsbevis, hvorvidt det foreligger vesentlig usikkerhet knyttet til hendelser eller forhold som kan skape betydelig tvil om selskapets evne til fortsatt drift. Dersom vi konkluderer med at det foreligger vesentlig usikkerhet, kreves det at vi i revisjonsberetningen henleder oppmerksomheten på tilleggsopplysningene i årsregnskapet. Hvis slike tilleggsopplysninger ikke er tilstrekkelige, må vi modifisere vår konklusjon. Våre konklusjoner er basert på revisjonsbevis innhentet frem til datoen for revisjonsberetningen. Etterfølgende hendelser eller forhold kan imidlertid medføre at selskapets evne til fortsatt drift ikke lenger er til stede;
- vurderer vi den samlede presentasjonen, strukturen og innholdet i årsregnskapet, inkludert tilleggsopplysningene, og hvorvidt årsregnskapet gir uttrykk for de underliggende transaksjonene og hendelsene på en måte som gir et rettvisende bilde.

Vi kommuniserer med styret blant annet om det planlagte omfanget av revisjonen, tidspunktet for vårt revisjonsarbeid og eventuelle vesentlige funn i vår revisjon, herunder vesentlige svakheter i den interne kontrollen som vi avdekker gjennom vårt arbeid.

Uttalelse om øvrige lovmessige krav

Konklusjon om årsberetningen

Basert på vår revisjon av årsregnskapet som beskrevet ovenfor, mener vi at opplysningene i årsberetningen om årsregnskapet, forutsetningen om fortsatt drift og forslaget til disponering av resultatet er konsistente med årsregnskapet og i samsvar med lov og forskrifter.

Konklusjon om registrering og dokumentasjon

Basert på vår revisjon av årsregnskapet som beskrevet ovenfor, og kontrollhandlinger vi har funnet nødvendige i henhold til internasjonal standard for attestasjonsoppdrag (ISAE) 3000 «Attestasjonsoppdrag som ikke er revisjon eller forenklet revisorkontroll av historisk finansiell informasjon», mener vi at ledelsen har oppfylt sin plikt til å sørge for ordentlig og oversiktlig registrering og dokumentasjon av selskapets regnskapsopplysninger i samsvar med lov og god bokføringsskikk i Norge.

SEMCO MARITIME AS

Årsberetning 2020

Generelt om virksomheten
Semco Maritime AS er et entreprenørselskap med tjenester innenfor prosjektgjennomføring, ingeniørtjenester, installasjonsarbeider og spesialiserte bemanningsløsninger innenfor offshore industrien.
Videre har virksomheten spesialkompetanse, produkter og løsninger for brannsikring og nitrogen generering med membran teknologi innen det globale gass og petroleumsmarkedet.

Selskapet driver sin virksomhet ut fra hovedkontor i Sola med avdeling på Hanøytangen.

Kapitalstruktur

Egenkapitalen pr. 31. desember 2020 utgjør kr. 124,5 mill.

Årets resultat.
Omsetningen i selskapet var på 282 mill. i 2020 mot 122 mill. i 2019. Årsresultatet ble i 2020 et overskudd på 38.0 mill. mot 33.1mill. i 2019.

Resultatet ansees som tilfredsstillende.

Selskapet gjennomførte flere større projekter på Hanøytangen i 2020, hvilket i særlig grad har bidratt til den høye omsetning. Forretningen innenfor Operation Support har hatt utfordringer relatert til COVID-19 og oljeprisfallet som har resultert i nedgang i omsetning for 2020.

Netto kontantstrøm fra investeringsaktiviteter ble påvirket av forbedringer av tørrdokken på Hanøytangen, og utgjør samlet 0,5 mill. kr. pr. 31. desember.2020. Netto kontantstrøm fra finansieringsaktiviteter utgjorte -31,4 mill. pr. 31. desember 2020. Netto kontantstrøm fra operasjonelle aktiviteter utgjorde 30,3 mill kr. pr. 31. desember 2020. Samlet ble likvider påvirket med -0,6 mill. kr. i 2020.

Selskapets finansielle stilling er tilfredsstillende. Egenkapitalandelen pr. 31. desember 2020 var 65,1%, sammenlignet mod 49,1 % pr. 31. desember 2019.

Etter styrets vurdering gir det fremlagte resultatregnskap og balanse med tilhørende noter en rettvisende oversikt over selskapets drift og stilling pr. 31. desember 2020.

Det har ikke siden regnskapsårets avslutning inntruffet begivenheter, som er av vesentlig betydning for bedømmelsen av selskapets økonomiske stilling per 31. desember 2020.

Operasjonell risiko.
Selskapet genererer størsteparten av sin inntekt fra oljerelaterte aktiviteter og er slik sårbar for sykliske svingninger i oljebransjen.

Penneo Dokumentnøkkel: AKVSV-EW6N6-BVFDN-858VH-PODES-CBGI5

Finansiell risiko.
Selskapet er utsatt for kredittrisiko og renterisiko i den ordinære forretningsvirksomhet, og styrer mot å ha en akseptabel risiko innenfor disse områdene. Alle nye kunder blir kredittvurdert, og våre kunder er for det meste store aktører innen offshoremarkedet.

Arbeidsmiljø og personale.
Arbeidsstokken utgjør ved årets utgang 16 medarbeidere offshore og 33 onshore.

Langtids syke fravær i 2020 var: 1.496 timer av totalt 74.340 timer.
Egenmeldings fravær i 2020 var: 522 timer av totalt 74.340 timer.
Sykdom egne barn i 2020 var: 184 timer av totalt 74.340 timer.

Bedriften opplevde i 2020 0 fraværsskade (LTA), samt 0 medisinsk skade (MTI).

Likestilling i bedriften.

Driftspersonell:	Andel menn	100 %	Andel kvinner 0 %
Administrasjonspersonell:	Andel menn	42,3 %	Andel kvinner 57,7 %

Selskapet har som mål å være en arbeidsplass der det råder full likestilling mellom kvinner og menn. Selskapet har tradisjonelt rekruttert fra miljøer hvor antall yrkesaktive kvinner er lavere enn for menn. Vi har gitt åpning for kvinnelige operatører, og har et klart mål om å øke antall kvinnelige driftsansatte. I ledelsen utgjør andel kvinner 42,8 %.

Diskriminering.
Diskrimineringslovens formål er å fremme likestilling, sikre like muligheter og rettigheter og å hindre diskriminering på grunn av etnisitet, nasjonal opprinnelse, avstamning, hudfarge, språk, religion og livssyn. Egne prosedyrer og retningslinjer ligger bla. i personalhåndboken som skal ivareta de ansatte.

Selskapet har nulltoleranse for alle former for mobbing eller trakassering. Selskapet arbeider aktivt, målrettet og planmessig for å fremme lovens formål innenfor vår virksomhet. Aktivitetene omfatter blant annet rekruttering, lønns- og arbeidsvilkår, forfremmelse, utviklingsmuligheter og beskyttelse mot trakassering.

Selskapet har som mål å være en arbeidsplass hvor det ikke forekommer diskriminering på grunn av nedsatt funksjonsevne. Selskapet arbeider aktivt og målrettet for å utforme og tilrettelegge de fysiske forholdene slik at virksomhetens ulike funksjoner kan benyttes av flest mulig. For arbeidstakere eller arbeidssøkere med nedsatt funksjonsevne foretas det individuell tilrettelegging av arbeidsplass og arbeidsoppgaver. Semco Maritime AS har et internasjonalt miljø, og det er ansatte fra mange forskjellige nasjonaliteter samlet i selskapet.

Miljørapportering.
Selskapets virksomhet er regulert av følgende krav når det gjelder det ytre miljøet;

- Miljøinformasjonsloven
- Forurensningsloven
- Brann og eksplosjonsvernloven
- Avfallsforskriften
- Produktkontroll loven

Penneo Dokumentnøkkel: AKVSV-EW6N6-BVFDN-858VH-PODES-CBGI5

- Forskrift om utførelse av arbeid

Selskapet har svært høy sorteringsgrad, 92% (gjennomsnitt for Norge), som er langt over mål for konsernet.

Selskapet er på miljøsiden sertifisert i henhold til NS ISO 14001 og jobber kontinuerlig med forbedringer for å opprettholde det gode nivået vi har oppnådd.

Fremtidig utvikling.
Aktiviteten for næringslivet knyttet til offshore modifikasjonsmarkedet var utfordrende i 2020 som følge av hardt presset oljebransje, oljeprisfall og COVID-19. Selskapet gikk inn i 2020 med en god ordrereserve og vant noen viktige kontrakter gjennom året som resulterte i ett sterkt år omsetningsmessig for rigg modifikasjoner samt en god ordrereserve inn i 2021.

Det forventes høy aktivitet i modifikasjonsmarkedet som følge av flere nye rigger som entrer sokkelen samt at realisering av potensialet for reaktivering av rigger som ligger i opplag er nært forestående. Selskapet forventes å ta markedsandeler også i 2021 som følge av en kostnadseffektiv profil, som er godt tilpasset kundenes behov i et marked hvor de fleste prosjekter vil være små og konkurransen hard. Når det gjelder Rig yardstays står selskapet godt rustet grunnet et fleksibelt og skalerbart oppsett rundt Nordsjøen.

Operation Support viste positive tendenser på slutten i 2020, noe som forventes å fortsette inn i 2021. Det vil være et videre fokus å få tak i driftsprosjekter til operation support avdelingen.

Fortsatt drift.
Selskapet har hensyntatt det utfordrende markedet ved å tilpasse bemanningen i selskapet, styrke kostnadsfokus og ha høyt fokus på å vinne nye kontrakter.

Basert på årets overskudd og økt egenkapital bekrefter styret, i henhold til regnskapsloven §3-3a, at årsregnskapet er utarbeidet under forutsetningen om fortsatt drift.

Noter til regnskapet for 2020

Note 1 - Regnskapsprinsipper

Årsregnskapet er satt opp i samsvar med regnskapslovens bestemmelser og god regnskapsskikk.

Datterselskap

Datterselskapet vurderes etter kostmetoden i selskapsregnskapet. Investeringen er vurdert til anskaffelseskost for aksjene med mindre nedskrivning har vært nødvendig. Det er foretatt nedskrivning til virkelig verdi når verdifall skyldes årsaker som ikke kan antas å være forbigående og det må anses nødvendig etter god regnskapsskikk. Nedskrivninger er reversert når grunnlaget for nedskrivning ikke lenger er til stede.

Utbytte og andre utdelinger er inntektsført samme år som det er avsatt i datterselskapet. Overstiger utbytte andel av tilbakeholdt resultat etter kjøpet, representerer den overskytende del tilbakebetaling av investert kapital, og utdelingene er fratrukket investeringens verdi i balansen.

Salgsinntekter

Inntektsføring ved salg av varer skjer på leveringstidspunktet. Tjenester inntektsføres i takt med utførelsen. Prosjekter under utførelse inntektsføres etter løpende avregningsmetode med fortjeneste. Prinsippet for vurdering av fullføringsgraden er det påløpte kostnadene målt mot totalt estimerte kostnader for det enkelte prosjekt. For prosjekter som forventes å gi tap, kostnadsføres hele det beregnede tapet. I balansen inngår prosjekter under utførelse i posten kundefordringer.

Klassificering og vurdering av balanseposter

Omløpsmidler og kortsiktig gjeld omfatter poster som forfaller til betaling innen ett år etter balansedagen, samt poster som knytter seg til varekretsløpet. Øvrige poster er klassifisert som anleggsmiddel/langsiktig gjeld.

Omløpsmidler vurderes til laveste av anskaffelseskost og virkelig verdi. Kortsiktig gjeld balanseføres til nominelt beløp på etableringstidspunktet.

Anleggsmidler vurderes til anskaffelseskost, men nedskrives til virkelig verdi ved verdifall som ikke forventes å være forbigående. Anleggsmidler med begrenset økonomisk levetid avskrives planmessig. Langsiktig gjeld balanseføres til nominelt beløp på etableringstidspunktet.

Fordringer

Kundefordringer og andre fordringer er oppført i balansen til pålydende etter fradrag for avsetning til forventet tap. Avsetning til tap gjøres på grunnlag av individuelle vurderinger av de enkelte fordringene. I tillegg gjøres det for øvrige kundefordringer en uspesifisert avsetning for å dekke antatt tap.

Valuta

Pengeposter i utenlandsk valuta er vurdert til kursen ved regnskapsårets slutt.

Penneo Dokumentnøkkel: AKVSV-EW6N6-BVFDN-858VH-PODES-CBGI5

Noter til regnskapet for 2020

Varige driftsmidler

Varige driftsmidler balanseføres og avskrives over driftsmidlets forventede økonomiske levetid. Direkte vedlikehold av driftsmidler kostnadsføres løpende under driftskostnader, mens påkostninger eller forbedringer tillegges driftsmidlets kostpris og avskrives i takt med driftsmidlet. Dersom gjenvinnbart beløp av driftsmiddelet er lavere enn balanseført verdi foretas nedskrivning til gjenvinnbart beløp. Gjenvinnbart beløp er det høyeste av netto salgsverdi og verdi i bruk. Verdi i bruk er nåverdien av de fremtidige kontantstrømmene som eiendelen vil generere.

Immaterielle eiendeler

Goodwill oppstått ved oppkjøp verdsettes til anskaffelseskost, men nedskrives til virkelig verdi når verdifallet forventes å ikke være forbigående. Denne utgjør den delen av total anskaffelseskost som overstiger netto virkelig verdi av identifiserbare eiendeler, gjeld og betingede forpliktelser. Ved indikasjoner på at bokført verdi kan være forringet, vurderes bokført goodwill for eventuell nedskrivning.

Skatter

Skattekostnaden i resultatregnskapet omfatter både periodens betalbare skatt og endring i utsatt skatt. Utsatt skatt er beregnet med 22% på grunnlag av de midlertidige forskjeller som eksisterer mellom regnskapsmessige og skattemessige verdier, samt ligningsmessig underskudd til fremføring ved utgangen av regnskapsåret. Skatteøkende og skattereduserende midlertidige forskjeller som reverserer eller kan reversere i samme periode er utlignet og nettoført. Netto utsatt skattefordel balanseføres i den grad det er sannsynlig at denne kan bli nyttiggjort.

Kontantstrømoppstilling

Kontantstrømoppstillingen er utarbeidet etter den indirekte metode. Kontanter og kontantekvivalenter omfatter kontanter, bankinnskudd og andre kortsiktige, likvide plasseringer.

Penneo Dokumentnøkkel: AKVSV-EW6N6-BVFDN-858VH-PODES-CBGI5

Noter til regnskapet for 2020

Note 2 - Varige driftsmidler

	Goodwill	Oppgradering byggninger	Teknisk anlegg og utstyr	Driftsløsøre, inventar, verktøy mm.	Anlegg under utførelse	Totalt
Anskaffelseskost 01.01.	61.151.748	10.130.496	42.296.647	16.591.318	13.894.000	144.064.209
Tilgang kjøpte driftsmidler	-	7.403.165	4.928.174	115.639	931.766	13.378.744
Avgang solgte driftsmidler	-	-	-	-	-13.894.000	-13.894.000
Anskaffelseskost 31.12.	**61.151.748**	**17.533.661**	**47.224.821**	**16.706.957**	**931.766**	**143.548.953**
Tilgang kjøpte driftsmidler	-	-	-	-		-
Avgang solgte driftsmidler	-	-	-	-		-
Akk. avskrivninger 31. 12. i alt	**-29.098.989**	**-5.034.307**	**-41.037.250**	**-16.336.758**	**-**	**-91.507.304**
Balanseført pr. 31.12.	**32.052.759**	**12.499.354**	**6.187.571**	**370.199**	**931.766**	**52.041.649**
Årets avskrivninger	-2.241.540	-1.842.045	-1.787.234	-729.788	-	-6.600.607
Akk. avskrivninger avgang	-	-	-	-		-
Økonomisk levetid	20 år	5 år	5 år	3-5 år	3-5 år	
Avskrivningsplan	Lineær	Lineær	Lineær	Lineær	Lineær	

Goodwill er relatert til oppkjøp av virksomhet innen rigg service fra Bergen Group Hanøytangen AS i 2015. Avskrivningstiden er fastsatt til 20 år som er samme tidshorisont som inngått leieavtale på anlegget på Hanøytangen.

Selskapet har i 2020 gjennomført en større investering i dokk-facilitetene på Hanøytangen.
De utførte investeringer har forbedret bunnen i dokken, som gjør det mulig å gjennomføre "high-docking" projekter for kundene. 4.2MNOK av nevnte nvesteringen er klassifisert som en finansiell leasingkontrakt mot Odfjell Drilling og skal nedbetales ved å tilbakebetale 2.5MNOK ved hver gjennomførte "high-docking" frem til tilbakebetaling.
Den finansielle leasingkontrakten er reflektert som langsiktig gjeld.

Noter til regnskapet for 2020

Note 3 - Lønnkostnader, antall ansatte, lån til ansatte og godtgjørelse til revisor

Lønkostnader	2020	2019
Lønninger	42.829.526	50.494.973
Arbeidsgiveravgift	5.091.497	6.228.942
Pensjonskostnader	1.217.427	3.022.632
Andre ytelser	2.064.509	2.400.794
Sum	**51.202.958**	**62.147.341**

Selskapet har i regnskapsåret 2020 sysselsatt totalt 43 årsverk.

Selskapet er pliktig til å ha tjenestepensjonsordning etter lov om obligatorisk tjenestepensjon. Selskapets pensjonsordninger tilfredsstiller kravene i denne lov.

Ytelser til ledende personer

Lønn daglig leder kr. 1.650.000, andre ytelser 107.303. Styrehonorar var kr. 245.000.

Kostnadsført godtgjørelse til revisor er fordelt på følgende:	**2020**
Honorar for lovpålagt revisjon	252.375
Honorar for andre tjenester	260.831
Merverdiavgift er ikke inkludert i revisjonshonoraret	

Note 4 - Datterselskap

Selskap	Kontor	Eierandel	Stemme-andel	Resultat 2020	Egenkapital pr. 31.12	Bokført verdi pr. 31.12
Semco Maritime Drift AS	Sola	100%	100%	23.766.501	20.809.013	30.000
Inmaco Pty Ltd	Perth	100%	100%	121.707	1.225.011	-
Sum				**23.888.208**	**22.034.024**	**30.000**

Note 5 - Bankinnskudd

	2020
Bundne skattetrekksmidler utgjør	1.530.388

Penneo Dokumentnøkkel: AKVSV-EW6N6-BVFDN-858VH-PODES-CBGI5

Noter til regnskapet for 2020

Note 6 - Salgsinntekter

	2020	2019
Geografisk fordeling		
Norge	184.680.848	79.999.024
Andre land	97.674.036	42.264.614
	282.354.884	**122.263.638**

Note 7 - Kundefordringer og prosjekter under utførelse

Selskapets prosjekter behandles i samsvar med løpende avregningsmetode

	2020	2019
Påløpte kontraktkostnader	36.160.597	77.361.630
Estimert kontraktsfortjeneste	4.785.012	-76.662
Fakturert	-41.985.493	-78.458.946
= Verdiskapt på prosjekter i arbeid	**-1.039.885**	**-1.173.978**
Kundefordringer	25.953.228	9.624.501
Forutbetalinger	7.895.000	4.167.000
Avsatt for tap på krav	-200.000	-393.438
Sum kundefordringer og prosjekter under utførelse	**32.608.343**	**12.224.085**

Fullføringsgraden beregnes som forholdet mellom påløpte prosjektkostnader og estimerte totalkostnader for prosjektet.

Note 8 - Mellomværende med selskap i samme konsern

Fordringer	**2020**	**2019**
Kunderfordringer	6.151.204	10.966.578
Konsernbidrag	20.000.000	25.000.000
Andre fordringer	172.788	16.486.679
Sum	**26.323.992**	**52.453.257**

Gjeld	**2020**	**2019**
Leverandørgjeld	6.153.419	-
Annen kortsiktig gjeld	16.936.878	12.509.020
Gjeld knyttet til konsernkonto	1.904.761	29.566.075
	24.995.058	**42.075.095**
Gjeld, ikke faktureret	4.588.872	6.666.275
Sum	**29.583.931**	**48.741.370**

Konsernets likviditet er organisert i en konsernkontoordning. Dette innebærer at Semco Maritime AS trekk på konsernkontoordning formelt sett er gjeld til morselskapet Semco Maritime A/S, og alle konsernselskaper er solidarisk ansvarlige for de trekk konsernet har gjort.

Selskapet har stilt kausjon til fordel for morselskapets gjeld i Danske Bank pålydende DKK 325 000 000.

Andre fordringer inkluderer mellomværende med selskaper i samme konsern, som ikke er faktureret på balansedagen. Annen kortsiktig gjeld inkluderer husleie forpliktelser.

Inkludert i Andre fordringer er konsernbidrag NOK 20m fra datterselskap

Penneo Dokumentnøkkel: AKVSV-EW6N6-BVFDN-858VH-PODES-CBGI5

Noter til regnskapet for 2020

Note 12 - Operasjonelle leieavtaler

Selskapet leier følgende lokaler/eiendommer:	Avtalens utløp	**2020**
Flyplassvejen 262, Stavanger*	01-03-2021	416.610
Hanøytangen**	30-04-2025	17.500.000
Sum årlig leiebeløp		**17.916.610**

*Leieavtalen utløper 01-03-2021, den blir erstattet af en ny leieavtale på Vassbotnen 1, Sola
**Selskapet har en opsjon på forlengelse med 5 + 5 år.

Selskapet har inngått en operasjonell leasingavtale vedrørerende "dokk blokker", som anvendes ved utførelse av "high-docking" prosjekter. Den samlede leasingforpliktelse for "dokk blokker" utgør 13,2 mNOK. Leasingforpligtelsen reduseres med 2,5 mNOK for hver bruk av "dokk blokker" til "high-docking" prosjekter og leasingavtalen har en løpetid på opp til 7 år. "Dokk blokkene" ble benyttet ved ett prosjekt i 2020.

Note 13 - Fortsatt drift

Selskapets morselskap i Danmark, Semco Maritime A/S, har avgitt en erklæring om at de vil finansiere videre drift i selskapet.

Note 14 - Øvrige forhold - implikasjoner av COVID-19
Som for de fleste virksomheter i Norge og ellers i verden, vil Covid-19 viruset påvirke selskapet også i 2021, men utrulling av korona-vaksiner og ulike økonomiske tiltakspakker forventes i kombinasjon å bidra til å redusere innvirkningen viruset vil ha på selskapet.
Selskapet følger utviklingen knyttet til Covid-19 utbruddet tett og foretar kontinuerlig vurderinger og tiltak for å begrense effektene viruset vil kunne få for virksomheten. Gjennom etablerte rutiner og iverksatte tiltak har selskapet håndtert konsekvensene av Covid-19 pandemien og sikret driften av selskapets gjennom 2020.

Penneo Dokumentnøkkel: AKV5V-EW6N6-BVFDN-858VH-PODES-CBGI5

Dokumentet er signert digitalt, med **Penneo.com**. Alle digitale signatur-data i dokumentet er sikret og validert av den datamaskin-utregnede hash-verdien av det opprinnelige dokument. Dokumentet er låst og tids-stemplet med et sertifikat fra en betrodd tredjepart. All kryptografisk bevis er integrert i denne PDF, for fremtidig validering (hvis nødvendig).

Hvordan bekrefter at dette dokumentet er orginalen?
Dokumentet er beskyttet av ett Adobe CDS sertifikat. Når du åpner dokumentet i Adobe Reader, skal du kunne se at dokumentet er sertifisert av **Penneo e-signature service <penneo@penneo.com>**. Dette garanterer at innholdet i dokumentet ikke har blitt endret.

Det er lett å kontrollere de kryptografiske beviser som er lokalisert inne i dokumentet, med Penneo validator - **https://penneo.com/validate**
