To the owners of Northern Trust Global Services Se NUF

## INDEPENDENT AUDITOR'S REPORT

### *Opinion*

We have audited the financial statements of Northern Trust Global Services Se NUF, which comprise the balance sheet as at 31 December 2024, statement of comprehensive income, statement of changes in equity, statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion

- the financial statements comply with applicable statutory requirements, and
- the financial statements give a true and fair view of the financial position of the Branch as at 31 December 2024, and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as adopted by the EU.

### *Basis for opinion*

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Branch as required by relevant laws and regulations in Norway and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Other information*

The Managing Director (management) is responsible for the information in the Management report. The other information comprises information in the annual report, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the information in the Management report.

In connection with our audit of the financial statements, our responsibility is to read the Management report. The purpose is to consider if there is material inconsistency between the Management report and the financial statements or our knowledge obtained in the audit, or whether the Management report otherwise appears to be materially misstated. We are required to report if there is a material misstatement in the Management report. We have nothing to report in this regard.

Based on our knowledge obtained in the audit, it is our opinion that the Management report

- is consistent with the financial statements and
- contains the information required by applicable statutory requirements.

### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with IFRS Accounting Standards as adopted by the EU, and for such internal control as management determines is

Deloitte AS and Deloitte Advokatfirma AS are the Norwegian affiliates of Deloitte NSE LLP, a member firm of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee ("DTTL"). DTTL and each of its member firms are legally separate and independent entities. DTTL and Deloitte NSE LLP do not provide services to clients. ## Deloitte.

Independent auditor's report  
Northern Trust Global Services Se  
NUF

necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Branch's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Branch or to cease operations, or has no realistic alternative but to do so.

### *Auditor's Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error. We design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Branch's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- conclude on the appropriateness of management's use of the going concern basis of accounting, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Branch's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Branch to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a true and fair view.

We communicate with Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Northern Trust Global Services SE Norway Branch

### Management Report For the Year Ended 31 December 2024

The Branch Manager presents the annual report and the audited financial statements of Northern Trust Global Services SE Norway Branch ("the Branch") for the year ended 31 December 2024. These financial statements have been prepared on a going concern basis and the Branch Manager considers this assumption to be appropriate.

#### Principal activities

The principal activity of the Branch is to offer services as a depository for alternative investment funds and mutual funds. There has been no significant change in the activities undertaken by the Company during the year.

Turnover was NOK24,317,467 (2023: NOK20,380,565) and Profit before income tax was NOK6,027,452 (2023: NOK4,681,465) during the year.

#### Business review

The Company is a branch of Northern Trust Global Services SE, 10 Rue du Chateau d'Eau, LU-3364, Leudelange, Luxembourg. ("the Parent"). The ultimate parent is Northern Trust Corporation ("the Group"), which is listed on the NASDAQ in New York City, New York, USA.

#### Results and Distributions

The financial statements for the year ended 31 December 2024 are set out on pages 6 - 8. The profit on ordinary activities after tax for the year was NOK4,507,678 (2023: NOK3,500,866). Net cash flow from operating activities for the year was NOK1,584,972 (2023: NOK9,274,474). All adjustments made to the profit on ordinary activities after tax for the year to arrive at the net cash flow from operating activities for the year are disclosed in the statement of cashflows on page 8.

The total comprehensive income for the year to 31 December 2024 amounted to NOK4,507,678 (2023: NOK3,500,866).

A distribution in the amount of NOK3,500,000 was made from the branch to the parent (NTGS SE Luxembourg) on 17 December 2024 (2023: NOK2,000,000.). The purpose of this transaction was to minimize the foreign currency (NOK) exposure of the parent in the branch.

#### Branch Manager

The Branch Manager who served during the year was:

Mr. R. V. L Stenmark

The Branch has taken out insurance in respect of the Branch Manager's potential liability to the Northern Trust Corporation and third parties.

#### Principal risks and uncertainties

The Branch's exposure to risk, include climate risk and the potential adverse effects of climate change on the organisation as well as the risk and uncertainties that arise from operational risk due to the political and economic uncertainty surrounding the conflicts between Russia and Ukraine and Israel and Palestine. The Branch currently has limited exposure to financial risk (credit, liquidity and market risk). The Branch has two clients and fee receivables are driven by these clients. The Branch is funded by the Parent. The parent company is regulated by the Commission de Surveillance du Secteur Financier ("CSSF") in Luxembourg. The Branch's financial risk management policies and objectives are detailed in Note 18 to the financial statements.

#### Future developments

It is the intention of the Branch Manager to continue to develop the current activities of the Branch.

#### Statement of relevant audit information

The Branch Manager at the time when this Management Report is approved has confirmed that:

- so far as the Branch Manager is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- the Branch Manager has taken all the steps that ought to have been taken as a Branch Manager in order to be aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

## **Northern Trust Global Services SE Norway Branch**

---

### **External environment**

The Branch's commitment to its corporate social responsibilities around safeguarding the environment and climate change are in line with that of the Parent and wider Group.

### **Working environment**

In line with that of the Parent and wider Group, the Branch's goal is to create a positive working environment and develop a sound corporate culture marked by openness, tolerance and high ethical standards. The Branch is committed to promote an environment free from any discrimination. The Branch currently has 3 employees (2 male, 1 female) and in line with the Parent and wider Group, operates on the basis of equal opportunities for employment and promotion regardless of gender. There were no instances of damages to material or people during the year.

### **Significant events during the financial year**

On 1 January 2024, Deloitte replaced KPMG as auditors for Northern Trust Global Services SE Norway Branch. There have been no other significant events that would require disclosure in the branch's annual financial statements as at 31 December 2024.

### **Post balance sheet events**

There have been no significant events affecting the Branch since the year end.

## Northern Trust Global Services SE Norway Branch

### Notes to the Financial Statements For the year ended 31 December 2024

#### 1 Organisation and its activities

The Northern Trust Global Services SE Norway Branch ("the Branch") is a Norwegian Registered Foreign Company (Norskregistrert utenlandsk foretak) registered with the Brønnøysund Register Centre (Brønnøysundregistrene) Registration No. B232281 on 15 December 2020.

The Branch's registered office is located at the following address: Third Floor, Haakon VII's gate 6, Oslo 0161, Norway. The Branch is a branch of Northern Trust Global Services SE, 10 Rue du Chateau d'Eau, LU-3364, Leudelange, Luxembourg. ("the Parent"). The ultimate parent is Northern Trust Corporation ("the Group"), which is listed on the NASDAQ in New York City, New York, USA.

The principal activity of the Branch is to offer services as a depository for alternative investment funds and mutual funds. These Financial Statements have been prepared for the year ended 31 December 2024.

#### 2 Accounting policies

##### 2.1 Basis of preparation of financial statements

The accompanying financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) which are approved by the EU and adopted in Norway pursuant to IFRS regulations and the Norwegian Accounting Act.

##### Transfer pricing

The determination of transfer pricing is made using an "arm's-length" standard that tests what would have occurred in comparable circumstances between comparable, unrelated taxpayers. Judgement is required with regards to the appropriate methodology and verification of reasonableness. Further details are contained in Note 5.

##### 2.2 Basis of measurement

The financial statements have been prepared on historical cost basis using the accrual basis of accounting and the going concern assumption.

##### 2.3 Foreign currency translation

###### *Functional and presentation currency*

The Branch's functional currency is Norwegian Krone, which is denoted by the symbol NOK. The presentation currency of these financial statements is also Norwegian Krone.

###### *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each year end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses are presented in the Profit and Loss Account within 'other operating income'.

DocuSign Envelope ID: FF2FB2D1-7C0A-431F-B3FB-AB6E971C32B1

## Northern Trust Global Services SE Norway Branch

### Notes to the Financial Statements For the year ended 31 December 2024

#### 2.4 Revenue recognition

Fee income from contracts with customers is measured based on the consideration specified in a contract with a customer. The Branch recognises revenue when it transfers control over a service to a customer. Such revenue is recognised over time as the services are provided.

Fees are a function of the market value of assets serviced, the volume of transactions, and fees for other services rendered as set forth in the underlying client agreement. This revenue recognition involves the use of estimates and assumptions, including components that are calculated based on estimated asset valuations and transaction volumes.

Once the Branch determines that a performance obligation is satisfied over time, it measures its progress toward completion to determine the timing of revenue recognition. Revenue from each identified performance obligation is recognised over time using the output method. The output method recognises revenue on the basis of direct measurements of the value to the customer of the goods or services transferred to date, relative to the remaining goods or services promised under the contract.

#### 2.5 Operating Expenses

The Branch follows accrual basis method of accounting to record the operating expenses and recognised expenses in the year in which they are incurred.

#### 2.6 Payables and accruals

Accrued expenses and other liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the service provider or not.

#### 2.7 Interest receivable and interest payable

Interest income and expense for all interest-bearing financial instruments, including negative interest are recognised in 'Interest receivable and similar income' and 'Interest expense' in the Income Statement using the effective interest rates of the financial assets or financial liabilities to which they relate.

The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments received or paid on a financial asset or liability through its expected life or where appropriate, a shorter year, to the net carrying amount of the financial asset or financial liability. The effective interest rate includes all estimated cash flows considering the contractual terms of the financial instrument, but excludes the risk of future credit losses.

#### 2.8 Taxation

Tax is recognised in the Profit and Loss Account, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Branch operates and generates income.

#### 2.9 Financial instruments

##### Classification

On initial recognition, a financial asset is classified and measured at amortised cost, fair value through other comprehensive income ("FVOCI"), or fair value through profit or loss ("FVTPL"). It is measured at amortised cost if it meets both of the following conditions and is not designated at FVTPL:

- the asset is held in a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the asset give rise to cash flows that are solely payments of principal and interest.

A financial asset is measured at FVOCI if it meets both of the following conditions and is not designated at FVTPL:

- the asset is held in a business model whose objective is both to hold assets to collect contractual cash flows and sell financial assets; and
- the contractual terms of the asset give rise to cash flows that are solely payments of principal and interest.

## Northern Trust Global Services SE Norway Branch

### Notes to the Financial Statements For the year ended 31 December 2024

#### 2.9 Financial instruments (continued)

For equity instruments not held for trading, the Branch has the option to elect to measure the instrument at FVOCI at the time of initial recognition. The Branch made no such elections. All other financial assets are measured at FVTPL. The Branch may also designate a financial asset as FVTPL if doing so eliminates or significantly reduces an accounting mismatch. The Branch has made no such designations.

Financial liabilities are measured at amortised cost except for financial liabilities at FVTPL. Such liabilities include derivatives.

#### Business model assessment

The Branch utilises the Group framework when assessing the business model. This assessment is done at the portfolio level in the same manner that performance is reported. Information considered in this assessment includes stated policies and objectives for the portfolio and Group strategy; how performance is evaluated and reported; risks that impact the business model and how those risks are managed; and the frequency, volume, timing and reasons for sales in prior years. Instruments are not reclassified unless a business model for managing the assets has changed.

The Group's Asset and Liability Management Policy governs the management of different portfolios of financial assets. Per the Asset and Liability Management Policy, investments are made primarily for the purpose of maintaining high quality securities, managing interest rate risk, providing a temporary investment of excess funds, or providing interest income. The Asset and Liability Management Policy states that the assets considered as held to collect contractual cash flows can only consist of those investments purchased with the intent and ability to hold to maturity in order to meet one or more of the previously listed portfolio objectives. The Branch determined the business model's objective is satisfied by holding investments to collect contractual cash flows. All financial instruments fall within this business model.

#### Solely payments of principal and interest ("SPPI") assessment

Principal is defined as the fair value of the financial asset at initial recognition. Interest is defined as consideration for the time value of money, credit risk, other basic lending risks and costs, and a reasonable profit margin. The evaluation of whether cash flows are solely payments of principal and interest is based on the contractual terms of the instrument. The Branch considers whether contractual terms could change the timing or amount of cash flows so they are not solely payments of principal and interest. These features may include leverage features, prepayment or extension features, non-recourse arrangements, and periodic resets of interest rates.

All of the Branch's financial instruments have contractual terms that produce cash flows that are solely payments of principal and interest. The Branch considered interest rates, call options, redemption prices, seniority rankings, etc. in this evaluation before concluding instruments pass the SPPI test.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash balances.

#### Trade and other debtors

Trade and other debtors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses. Trade debtors include depository fees receivable, rental security deposits, other debtors and prepayments.

#### Trade and other creditors

Trade and other creditors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method.

#### Offsetting

Financial assets and liabilities are offset and are reported net in the balance sheet when there is a legally enforceable right to set off the recognized amounts and when the Branch intends to settle on a net basis, or to realize the asset and settle the liability simultaneously.

DocuSign Envelope ID: FF2FB2D1-7C0A-431F-B3FB-AB6E971C32B1

## Northern Trust Global Services SE Norway Branch

### Notes to the Financial Statements For the year ended 31 December 2024

#### 2.10 Impairment

The Branch's financial assets at amortised cost consist of cash and cash equivalents and depositary fees receivables.

The Branch recognises loss allowances for Expected Credit Losses ("ECLs") on the following financial instruments that are not measured at FVTPL:

- Cash and cash equivalents and
- Depositary fee receivables.

The Branch measures loss allowances at an amount equal to 12-month ECLs for cash and cash equivalents that have not experienced a significant increase in credit risk since initial recognition.

12-month ECLs refer to the portion of ECLs that result from default events on a financial instrument that are possible within 12 months of the reporting date. Lifetime ECLs result from all possible default events over the expected life of a financial instrument.

#### Credit impaired financial assets

At each reporting date, the Branch assesses whether financial assets at amortised cost are credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired include observable data about the following events:

- Significant financial difficulty of the issuer;
- A breach of contract, such as a default or past due event;

It may not be possible to identify a single discrete event and the combined effect of several events may have caused financial assets to become credit impaired.

#### Determining significant increases in credit risk

In determining whether an instrument has experienced a significant increase in credit risk, the Branch considers reasonable and supportable information available without undue cost or effort. This includes historical experience and forward-looking information.

The Branch assigns an internal borrower rating to each of its counterparties which reflects the creditworthiness of the counterparty. Borrower ratings are assigned according to the Credit Policy and account for quantitative and qualitative aspects of the counterparty's financial health. A borrower rating of one is the strongest and of nine is the weakest.

Borrower ratings are assigned at the time an obligor or obligation is approved and are reviewed and updated, if necessary, no less than annually for each counterparty and sooner if material information on a counterparty becomes available. The Branch determines a significant increase in credit risk has occurred if a borrower rating that previously fell inside a generally understood definition of high credit quality is updated to fall outside that range.

Debt securities with borrower ratings between one and three (inclusive) are mapped to external agencies investment grade and are determined to have low credit risk (Moody's rating of Baa3 or higher or S&P rating of BBB- or higher). Loans and general custody overdrafts with borrower ratings between one and five (inclusive) are mapped to Federal Deposit Insurance Corporation's loan classification ratings that are not adversely classified and are determined to have low credit risk.

For non-investment grade exposures that do not meet the investment grade low credit risk simplifications, indicators of a significant increase in credit risk may include an increase in a counterparty's borrower rating, whether the exposure is over 30 days past due, or if the counterparty is on the Branch's watch list. Quantitative and qualitative criteria include a significant increase in the credit spread; significant adverse changes in the business, financial, or economic conditions in which the obligor operates; actual or expected forbearance or restructuring; significant change in the collateral value which is expected to increase the risk of default; or early signs of cash flow or liquidity issues.

The Branch utilizes a simplified approach for assessing credit losses related to its fee receivables. Under this simplified approach, the Branch applies a matrix whereby reserves are calculated based on ratios specific to defined ageing buckets. These ratios are developed based on an analysis of historical data and are reviewed and updated to reflect changes in data and collectability of future cash flows with separate forward-looking adjustments for individual client

## Northern Trust Global Services SE Norway Branch

### Notes to the Financial Statements For the year ended 31 December 2024

#### 2.10 Impairment (continued)

circumstances on a case-by-case basis. There is a rebuttable presumption that exposures that are more than 30 days past due have experienced a significant increase in credit risk, however the Branch applies a 0% reserve provision for trust fee receivables outstanding less than 150 days as they historically have never experienced a credit loss, and delays in payment are operational in nature and not due to credit deterioration of clients.

The Branch considers a financial asset to be in default when one or more of the following events occur:

- A credit loss event associated with any obligation occurs (e.g. charge-off, distressed restructuring involving forgiveness or postponement of principal, interest or fees);
- The obligor has filed for bankruptcy or similar protection;
- The obligor's borrower rating is downgraded to eight or nine; or

#### Measuring ECLs

The key inputs into the measurement of the ECLs are the probability of default, loss given default, and exposure at default. Probability of default and loss given default vary by the type of exposure, asset class and geography of the financial instruments. Probability of Default and loss given default are estimated based on historical data from external sources and internal subject matter expertise. These factors are derived by applying quarterly macroeconomic projections using models developed from historical data on macroeconomic factors and financial assets with similar factors.

Exposure at default represents the current exposure amount in the case of a default (for financial assets, this is the carrying value of the asset).

Subject to using a maximum 12-month probability of default for financial assets where credit risk has not significantly increased, the Branch calculates ECLs considering the risk of default over the maximum contractual period it is exposed to credit risk.

The Branch determines an asset is credit impaired when factors described above lead to a lowering of the counterparty's borrowing rating to 9 (default levels). These assets are considered credit-impaired and are measured at lifetime ECLs.

#### Presentation of ECL allowances

Loss allowances on financial assets measured at amortised cost are presented as a deduction from the gross carrying amount of the assets. Loss allowances on off-balance sheet financial liabilities are generally recognised as a liability. Loss allowances on financial instruments at FVOCI are disclosed and recognised in the Statement of Comprehensive Income.

#### Non-financial assets

The carrying amounts of the Branch's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

In respect of other assets, impairment losses recognised in prior years are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

## Northern Trust Global Services SE Norway Branch

### Notes to the Financial Statements For the year ended 31 December 2024

#### 2.11 Leases (as a lessee)

The Branch recognises a "right-of-use" ("ROU") asset and a lease liability at lease commencement date for all leases [except for those with a lease term of 12 months or less for which the short-term lease exemption is applied]. The lease liability is measured at the present value of the lease payments that are not paid at lease commencement and discounted using the Branch's incremental borrowing rate. The ROU asset is initially measured at an amount equal to the lease liability, adjusted for any initial direct costs incurred and any lease payments made or incentives received before the commencement date.

The Branch will present the interest expense on the lease liability and depreciation charge for the ROU asset separately in the statement of profit or loss. The ROU asset is depreciated using the straight-line method from the commencement date.

The Branch presents ROU assets in "non-current assets" and lease liabilities in "non-current liabilities" on the Balance Sheet.

#### 2.12 Provisions

A provision is recognised in the balance sheet when the Branch has a present legal or constructive obligation as a result of a past event, that can be reliably measured and represents a probable outflow of economic benefits that will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects risks specific to the liability.

#### 2.13 Mandatory occupational pension

The Branch has a pension scheme which covers a total of 3 persons. The defined contribution scheme is expensed on a monthly basis to DNB Livsforsikring AS. The Branch's pension scheme meets the requirements of the law on compulsory occupational pension. Expenses relating to the defined-contribution scheme including employer's social security contributions during the year were NOK387,333 (2023: NOK326,442).

### 3 Standards and interpretations in issue but not yet effective

Certain standards, amendments and interpretations were in issue at the date of authorisation of these financial statements, but not yet effective, and therefore were not applied in these financial statements.

The impact of the adoption of these standards is currently being assessed; however, the Branch Manager anticipates that the adoption of these standards, amendments and interpretations in future periods will not have a significant impact on the financial statements of the Branch.

### 4 Turnover

	2024 NOK	2023 NOK
Revenue from contracts with customers (All fees currently derived from Norway based clients)	<u>24,317,467</u>	<u>20,380,565</u>

#### Depository fees

Depository fees comprise of revenues from our core asset servicing business for providing depository related services primarily to Asset Managers and Fund Managers.

#### Performance obligations

Customers are billed in arrears either monthly or quarterly, based on the fee arrangement agreed. The payment terms will vary depending on the client and services offered.

All revenues generated from contracts with customers are recognised on an accrual basis, over the year in which services are provided. The nature of the Branch's performance obligations is to provide a series of distinct services in which the customer simultaneously receives and consumes the benefits of the promised services as they are performed. Fee arrangements are mainly comprised of variable amounts based on market value of client assets serviced, transaction volumes and number of accounts.

DocuSign Envelope ID: FF2FB2D1-7C0A-431F-B3FB-AB6E971C32B1

## Northern Trust Global Services SE Norway Branch

### Notes to the Financial Statements For the year ended 31 December 2024

#### 4 Turnover (continued)

##### Performance obligations (continued)

Revenues accruals are recognized using the output method to an amount that reflects the consideration the Branch expects to be entitled to in exchange for providing each month or quarter of service. The revenue recognition involves the use of estimates and assumptions, including components that are calculated based on estimated asset valuations and transaction volumes.

#### 5 Administrative expenses

	2024	2023
	NOK	NOK
Transfer pricing	10,714,462	9,617,943
Occupancy expenses	889,334	842,615

Other operating expenses	292,322	527,923
	<u>12,948,639</u>	<u>11,616,904</u>

##### Transfer pricing

Transfer pricing generally refers to the determination of compensation for transactions conducted between commonly controlled taxpayers. The determination of an appropriate level of compensation is relevant for all transactions between affiliates for the provision of services, the utilisation of intellectual property and / or intercompany financing. This determination is made using an "arm's-length" standard that tests what would have occurred in comparable circumstances between comparable, unrelated taxpayers.

The Northern Trust Group's ("the Group") global transfer pricing methodology uses a residual profit split approach that allocates profit by providing appropriate recognition of each entity's contribution, revenues and expenses, its function in the Group, and its assets and risk profile. The framework also accounts for the fact that each Group service line may engage multiple affiliates to perform functions of varying complexity and value.

The residual profit split methodology framework starts with Group global revenue which is first used to reimburse most direct costs of affiliates with a routine margin. The remaining profit is then split into product related profit pools which are in turn allocated to affiliates, such as the Branch, using product specific allocation keys. The allocation keys are reflective of the economics of the Group's lines of business. The determination of the allocation keys begins with an evaluation of the metrics that represent contributions made by the various entities with respect to each product line. Allocation keys will be reassessed periodically to ensure that these continue to be representative.

## Northern Trust Global Services SE Norway Branch

### Notes to the Financial Statements For the year ended 31 December 2024

#### 16 Equity

	31 December, 2024 NOK	31 December, 2023 NOK
<b>Profit and loss account</b>		
Profit and loss account for the beginning of the year	1,063,126	(437,740)
Profit for the financial year	4,507,678	3,500,866
Distribution to Parent (note 17)	(3,500,000)	(2,000,000)
<b>Retained profit at the end of the year</b>	<b>2,070,804</b>	<b>1,063,126</b>

At 31 December 2024, the Branch had a positive reserves position of NOK2,070,804.

#### 17 Distribution to parent

A distribution in the amount of NOK3,500,000 was made from the branch to the parent (NTGS SE Luxembourg) on 17 December 2024. The purpose of this transaction was to minimize the foreign currency (NOK) exposure of the parent in the branch.

#### 18 Risk management

At the Corporate level, Northern Trust defines risk appetite as the amount and types of risk that it is willing to assume in its exposures and business activities to achieve its strategic and financial objectives. Risk appetite is a methodology to measure Northern Trust's willingness to take risk and reflects Northern Trust's tolerance of certain levels of risk exposures as measured at the enterprise and business level, as applicable. Northern Trust's Corporate Risk Appetite Statement reflects expectation that risk is consciously considered as part of day-to-day activities and strategic decisions. Northern Trust manages its business activities consistent with the risk appetite statement, in which specific guidelines are detailed for credit, operational, fiduciary, compliance, market, liquidity, and strategic risk.

This note presents information about the Branch's exposure to each of the above risks, the Branch's objectives, policies and processes for measuring and managing risk, and the Branch's management of capital.

##### Risk management framework

Risk management is the responsibility of the Branch Manager. The Branch Manager utilises the framework of its ultimate parent, the Northern Trust Corporation ("NTC" or "Northern Trust"), which has a global structure and process for risk management. Local risk management, by the Branch Manager and local risk oversight committees, use this global corporate risk structure. Policies are validated and approved locally and the local risk organisation is structured to provide the Branch's Board with the necessary risk reporting and oversight to satisfy their responsibilities.

The Branch's activities expose it to a variety of financial risks and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. Taking risk is core to the financial business, and the operational risks are an inevitable consequence of being in business. The Branch aims to achieve an appropriate balance between risk and return and to minimise potential adverse effects on the Branch's financial performance.

##### Credit risk

Loss allowances on financial assets measured at amortised cost are presented as a deduction from the gross carrying amount of the assets. At 31 December 2024, the impairment losses calculated in respect of the Branch's financial assets was NOK107,947 (2023: NOK23,593).

##### Credit risk exposure

The counterparties used for investment of surplus cash are highly credit worthy financial institutions and placements are limited to a maximum tenor of 3 months. Cash and cash equivalents are of very short duration, therefore determining whether there is a significant increase in credit risk is not necessary for these exposures. They are therefore measured at 12 month ECLs.

#### 18 Risk management (continued)

##### Credit risk exposure (continued)

For depositary fee receivables the simplified approach to recognising impairment is applied. The depositary fee receivables ageing is laid out in the following:

	2024	2024
	Lifetime ECL not credit impaired	Total
	NOK	NOK
<b>Trust fee receivables</b>		
Ageing		
0-149 days	8,698,195	8,698,195
150-364 days	334,708	334,708
365+ days	94,905	94,905
	<u>9,127,808</u>	<u>9,127,808</u>
Impairment allowance	<u>(107,947)</u>	<u>(107,947)</u>
	<u><u>9,019,861</u></u>	<u><u>9,019,861</u></u>
	2023	2023
	Lifetime ECL not credit impaired	Total
	NOK	NOK
<b>Trust fee receivables</b>		
Ageing		
0-149 days	3,904,335	3,904,335
150-364 days	42,491	42,491
365+ days	53,366	53,366
	<u>4,000,192</u>	<u>4,000,192</u>
Impairment allowance	<u>(23,593)</u>	<u>(23,593)</u>
	<u><u>3,976,599</u></u>	<u><u>3,976,599</u></u>

##### Liquidity risk

Liquidity risk is the risk of not being able to raise sufficient funds or collateral to meet balance sheet and contingent liability cash flow obligations when due, because of firm-specific or market-wide events. Liquidity risk may result from the inability to sell a financial asset quickly at an amount close to its fair value. The Branch's liquidity risk is minimal as it does not take on customer deposits or trade as principal; liquidity risk is limited to the management of day to day operating expenses. Liquidity risk is managed by monitoring on a regular basis that sufficient funds are readily available to meet the Branch's future commitments.

The table below summarises the maturity profile of financial liabilities.

December 2024	Less than one year NOK	More than one year NOK	Total NOK
<b>Liabilities</b>			
Due to related parties	(65,252,797)	-	(65,252,797)
Accrued expenses and other liabilities	(4,170,502)	-	(4,170,502)
Leases	(852,661)	-	(852,661)
	<u>(70,275,960)</u>	<u>-</u>	<u>(70,275,960)</u>

### Notes to the Financial Statements For the year ended 31 December 2024

#### 18 Risk management (continued)

##### Liquidity risk (continued)

December 2023	Less than one year NOK	More than one year NOK	Total NOK
<b>Liabilities</b>			
Due to related parties	(48,699,328)	-	(48,699,328)
Accrued expenses and other liabilities	(2,646,140)	-	(2,646,140)
Leases	(886,759)	(852,661)	(1,739,420)
	<u>(52,232,227)</u>	<u>(852,661)</u>	<u>(53,084,888)</u>

Foreign exchange risk is defined as the potential for movements in foreign exchange to cause changes in the value of financial instruments. The Branch's transactions are principally in Norwegian Krone and US Dollar, other transactions in foreign currencies are not material. Currency risk is managed on regular basis. The Branch's currency exposures are set out below:

	31 December 2024 NOK
Euro	-
Norwegian Krone	(69,815,175)
Pound Sterling	-
US Dollar	(460,785)
<b>Total</b>	<u>(70,275,960)</u>

	31 December 2023 NOK
Euro	(21,702)
Norwegian Krone	(52,915,046)
US Dollar	(148,140)
<b>Total</b>	<u>(53,084,888)</u>

##### Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. It represents the potential that inadequate information systems, operating problems, inappropriate product design and delivery difficulties, or catastrophes will result in unexpected losses. The main components are generally referred to as business continuity, product/process, technology, and transaction risks.

The Branch's operational risk framework is subject to documented procedural policies, with senior management within the Group being responsible for the implementation and maintenance of these policies.

The Branch Manager regularly reviews the risks which are faced by the Branch. The risk management processes and procedures are subject to periodic review by the Group's Internal Audit function.

##### Strategic risk

Strategic risk is the loss from the adverse effects of business decisions, improper implementation of business decisions, or the risk that internal or external forces impede the long-term plans of the business for growth, profitability and stability. Strategic risk within Northern Trust is managed and overseen at the Northern Trust Corporation level and at the Company level.

Att. Robert Vincent Leon Stenmark

## Permission to prepare the annual accounts and directors' report in English language for Northern Trust Global Services SE Norway Branch, org. no 925 952 567

With reference to your letter of 12 May 2022 with respect to the above matter regarding Northern Trust Global Services SE Norway Branch.

Based on a total evaluation, the view of the tax office is that Northern Trust Global Services SE Norway Branch may make the directors' report and annual accounts in English language according to the Norwegian Accounting Act § 3-4 third paragraph. The exemption requires that the information the decision is based on, does not change significantly.

A copy of this letter must be sent to the Register of Company Accounts in Brønnøysund together with the financial statements. It is incumbent on the company to document by this letter that the permit is granted.

### Background

Northern Trust Global Services SE Norway Branch is a Norwegian branch of a foreign company and is part of an international group. The company offers onshore depositary services to Norwegian asset managers and asset owners.

### Condition for the permission

According to the Norwegian Accounting Act § 3-4, third paragraph shall "the directors' report and annual accounts (...) be in Norwegian. The Ministry can in an individual decision decide that the directors' report and/or annual accounts may be in another language".

Ot. prp. nr. 42 (1997-1998) About Act about annual accounts etc., says the following about the purpose of the Accounting Act, refer section 1.1:

"The aim of the Government with respect to the Accounting Act is that it shall contribute towards providing informative accounts for different users of accounts. The users of accounts include investors and creditors, which provide capital for the companies. Other groups include those who have an interest in knowing how the companies are operated, for example employees and the local community. The information to the capital market is an important basis for the correct pricing of financial instruments. The

correct pricing of stocks is an important factor in securing the best possible allocation of resources in the economy. High quality accounts will also make it more difficult for market participants to obtain speculative gains as a result of non-publicly available information."

One of the main goals of the Accounting Act is to contribute to "informative accounts for different users of accounts". The users of the accounts will include investors, creditors, employees and the local community.

Hence, it is the view of the Ministry that it is crucial that the question of dispensation from the general rule that the annual accounts and/or directors' report should be prepared in Norwegian, not in any significant way deviate from the consideration of users of the accounts.

As mentioned above it is particularly the consideration of the users of the account information, which has to be taken into consideration when considering the application for permission. In this assessment, the tax office has emphasized that the company is a Norwegian branch of a foreign company and is part of an international group. Furthermore, all key players and partners in this industry understand and use English.

Please state "our reference" (see above) in all written communication with the Norwegian Tax Authorities.

Yours sincerely,

Vibeke Horne  
Adviser  
Customer Interaction Division, Customer Service  
The Norwegian Tax Administration
