Tillatelse til å utarbeide årsregnskap og årsberetning på engelsk språk for BKW Norway NWP AS, org. nr. 914 558 069

Vi viser til deres brev av 22. februar 2017 der det søkes om dispensasjon fra kravet til å utarbeide årsregnskap og årsberetning på norsk språk for BKW Norway NWP AS.

Skattedirektoratet gir på bakgrunn av en konkret helhetsvurdering BKW Norway NWP AS dispensasjon fra kravet til å utarbeide årsregnskap og årsberetning på norsk språk, jf. regnskapsloven § 3-4 tredje ledd. Dispensasjonen forutsetter at opplysningene som vedtaket baserer seg på ikke endres vesentlig.

Kopi av dette brevet må sendes Regnskapsregisteret i Brønnøysund sammen med årsregnskapet. Det påligger den regnskapspliktige å dokumentere ved dette brev at tillatelsen er gitt.

Bakgrunn

BKW Norway NWP AS er eid av BKW Energie AG, et sveitsisk børsnotert selskap hvor majoriteten av aksjonærene er Bern kantonen (Bern delstat) og det tyske børsnoterte E. ON Energie AG. BKW Norway NWP AS eier Nordic Wind Power DA, sammen med Credit Suisse (Lux) Power Central Holding. Nordic Wind Power DA fikk innvilget søknad om utarbeidelse av årsregnskap på engelsk 9. januar 2017. Selskapets virksomhet er å eie aksjer og andeler i selskaper innenfor produksjon av energi fra fornybare energikilder. I all hovedsak er dette deres datterselskap Nordic Wind Power DA. Styret har utenlandske medlemmer. Arbeidsspråk er engelsk. Alle sentrale aktører og samarbeidspartnere innen denne bransjen behersker og benytter engelsk. En norsk oversettelse vil kun ha til formål å oppfylle regnskapslovens språkkrav.

Skattedirektoratets vurdering

Etter regnskapsloven § 3-4 tredje ledd skal "årsregnskapet og årsberetningen ... være på norsk. Departementet kan ved ... enkeltvedtak bestemme at årsregnskapet og/eller årsberetningen kan være på et annet språk."

I Ot. prp. nr. 42 (1997-1998) Om lov om årsregnskap m.v., er det uttalt følgende om regnskapslovens formål, jf. pkt. 1.1:

”Regjeringen har som siktemål at regnskapsloven skal bidra til informative regnskaper for ulike grupper av regnskapsbrukere. Regnskapsbrukerne er dels investorer og kreditorer som tilfører kapital til foretakene, og dels andre grupper som har interesse av å vite hvordan foretaket drives, f.eks. de ansatte og lokalsamfunnet. Informasjonen til kapitalmarkedet skal gi grunnlag for riktig prising av finansielle objekter. Riktig prisdannelse på aksjer er en forutsetning for at ressursbruken i samfunnsøkonomien skal bli best mulig. Gode regnskaper vil også gjøre det vanskeligere for markedsdeltakere å ta ut spekulasjonsgevinster med basis i skjevt fordelt informasjon.”

Det fremgår således at et av hovedformålene med regnskapsloven er å bidra til *”informative regnskaper for ulike grupper av regnskapsbrukere”*. Regnskapsbrukere vil omfatte, jf. uttalelsen i proposisjonen, blant andre investorer, kreditorer, ansatte og lokalsamfunnet.

Det er etter Skattedirektoratets vurdering derfor avgjørende ved vurdering av om dispensasjon fra kravet til å utarbeide årsregnskap og/eller årsberetning på norsk kan gis, at det ikke foreligger mulige brukere av regnskapsinformasjon som blir vesentlig berørt negativt ved en eventuell dispensasjon.

Det er særlig hensynet til brukerne av regnskapsinformasjon som skal vurderes ved en dispensasjonssøknad. I denne vurderingen har Skattedirektoratet lagt vekt på at selskapene er eiet av to utenlandske selskap. Eierkretsen er begrenset. Arbeidsspråk er engelsk. Styret har utenlandske medlemmer. Selskapet har et datterselskap som har fått dispensasjon. Videre er det vektlagt at alle sentrale aktører og samarbeidspartnere innen denne bransjen behersker og benytter engelsk.

To the General Meeting of Bkw Norway Nwp AS

Independent Auditor's Report

Opinion

We have audited the financial statements of Bkw Norway Nwp AS (the Company), which comprise the balance sheet as at 31 December 2024, the revenue statement, statement of other comprehensive income and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion the financial statements comply with applicable statutory requirements, and the financial statements give a true and fair view of the financial position of the Company as at 31 December 2024, and its financial performance and its cash flows for the year then ended in accordance with simplified application of international accounting standards according to section 3-9 of the Norwegian Accounting Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company as required by relevant laws and regulations in Norway and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Matters

The Company's financial statements have been submitted after the expiry of the statutory time limit for preparation of financial statements.

Responsibilities of the Board of Directors for the Financial Statements

The Board of Directors (management) is responsible for the preparation of financial statements that give a true and fair view in accordance with simplified application of International Accounting Standards according to the Norwegian Accounting Act section 3-9, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. Below is a description of the most important accounting policies used in the preparation of the financial statement.

Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- Investments in associates and joint ventures –equity method

Estimates and assumptions

The preparation of the financial statement requires the application assumptions and estimates. The company based its assumptions and estimates on information available when the financial statement was prepared.

Principles of consolidation and equity accounting

Joint arrangements

Under IFRS 11 Joint Arrangements investments in joint arrangements are classified as either joint operations or joint ventures. The investment in Nordic Wind Power DA is accounted for using the equity method, after initially being recognized at cost in the balance sheet as a joint venture.

Equity method

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the group's share of the post-acquisition profits or losses of the investee in profit or loss, and the group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognized as a reduction in the carrying amount of the investment.

Unrealized gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax liabilities and assets are not recognized for temporary differences between the carrying amount and tax bases of investments in foreign operations where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other Comprehensive income or directly in equity, respectively.

Functional and presentation currency

Items included in the financial statement are measured using the currency in the primary economic environment in which the entity operates ("the function currency"). Normally it is the currency in which the entity primarily generates and expends cash. BKW Norway NWP AS is acting as an intermediate holding company within the international group BKW. Since BKW Norway NWP AS is a subsidiary that does nothing but hold investment on behalf of the parent company, BKW Norway NWP AS has adapted the functional currency of the Parent. BKW Energie AG finances BKW Norway NWP AS exclusively. The consolidated financial statements are thus presented in CHF, which is considered to be BKW Norway NWP AS functional currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from settlement of such transactions of monetary assets and liabilities denominated in currency at year end exchanges rates are generally recognised in profit and loss. Foreign exchange gains and losses that relate to borrowings are presented in the statement of profit or loss, within finance costs. All other foreign exchanges gains and losses are presented in the statement of profit and loss on a net basis within other expenses.

Non-monetary transactions that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on asset and

liabilities carried at fair value are reported as part of the fair value gain or loss.

When preparing the financial statements, joint ventures are translated into CHF in accordance with the current exchange rate method. This means that balance sheet items are translated to CHF at the exchange rate as of 31 December; while the income statement is translated using monthly weighted average exchange rates throughout the year. Currency translation effects are recognised in other comprehensive income and recycled to the income statement upon sale of shareholdings in foreign companies

Foreign exchange gains and losses (agio/disagio effects) are normally recognised as financial items in profit or loss.

For items recognised in Other Comprehensive Income (OCI), such as translation of investments in joint ventures, the related foreign exchange effects are recognised against the tax expense associated with the OCI items. This treatment ensures consistent timing of recognition for currency effects and the corresponding tax impact within OCI.

The Company has chosen to apply this accounting policy consistently, and the same classification has been applied for the comparative figures..

Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

Segment information

The company's purpose is to acquire, own, control and dispose of partnership shares in Nordic Wind Power DA, and all kinds of other business in connection with this. The company has currently no other operating segment.

Trade payables

These amounts represent liabilities for goods and services provided to the group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Financial risk management

The company is a 100 % controlled subsidiary of BKW Energie AG acting as agent of its parent company without any own operations. The Financial risk management and Capital management are performed at group level.

Note 1 Auditor fee, pensions and other employment remuneration

The company did not have any employees during the reporting period and is not obliged to have an occupational pension scheme

Deferred tax (22 %)	2 054 169	2 634 880	580 711

Deferred tax liability for 2023 has not earlier been calculated and recognized. This is due to an incomplete tax note and tax calculation for that year. In order to ensure consistency and comparability between reporting periods, the deferred tax liability has been included as a comparative figure in the current year's financial statements.

Most of the tax expenses are related to the partnership share in Nordic Wind Power DA, which again has partnership shares in Fosen Vind DA. A partnership is not a tax subject and BKW Norway NWP AS is the tax subject for the partnership share in Nordic Wind Power DA. The tax positions in Nordic Wind Power Da and Fosen Vind DA and Roan Vind DA might be subject to adjustments and translation differences.
