SKS TANKERS AS

NOTES TO THE FINANCIAL STATEMENTS

1. General information

SKS Tankers AS (the "Company") is fully owned by SKS Tankers Holding AS ("SKSTH"), a subsidiary of Kristian Gerhard Jebsen Skipsrederi AS ("KGJS"). KGJS presents consolidated financial statements, which include the financial statements of the Company. The Company is located in Bergen, Norway.

The Company has a 50% ownership in SKS Tankers I Ltd, which is the parent company of nine vessel owning companies owning nine product carriers of 120 000 dwt. (SKS D-class), all trading in the LR2/Aframax market. Administrative services are provided by KGJS.

2. Accounting principles

a. Basis of preparation

The Company prepares its financial statements according to "Simplified International Financial Reporting Standards" (IFRS) as dealt with in The Norwegian Accounting Act and Regulations dated 7 February 2022. This principally implies that all calculations and measurement methods are carried out in accordance with IFRS, while presentation and notes follows the Norwegian Accounting Act and Norwegian GAAP. The Company employs the simplifying rules relating to dividends and group contributions as regulated in The Norwegian Accounting Act.

The accounting year equals the calendar year and the items of the income statement are classified by their nature.

b. Changes in accounting principles and errors

The impact of changes in accounting principles and correction of significant errors in previous annual accounts are reported directly to equity. Comparative figures are revised accordingly.

c. Currency

The financial statements are presented in US Dollars (USD) as the Company operates in an international market where the functional currency is USD. Transactions in non-USD currencies are recorded at the exchange rate on the date of the transaction. Monetary items and debt in non-USD currencies are converted to USD at the rate of exchange prevailing at the reporting date. Currency gains and losses are recognised on the income statement classified as financial items.

d. Long term shareholding and other shares

Subsidiaries and other long-term shareholdings are recorded in the Company using the cost method. Investments are tested regularly for impairment and written down to fair value.

e. Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the reporting date and the reported amounts of revenue and expenses during the reporting period. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable. Accounting estimates are employed in the financial statements to determine reported amounts, including the useful life and disposal value of vessels. Actual results could differ from those estimates.

f. Classification of assets and liabilities

Assets are classified as current assets when:

- the asset is expected to be disposed of or consumed within 12 months of the reporting date
- the asset is held for trading
- the asset is cash or cash equivalents, except for items having restrictions to be exchanged within 12 months of the reporting date.

All other assets are classified as non-current assets.

Document ID:
218E76E8472D4B77989FEB921F7AF033

SKS TANKERS AS

NOTES TO THE FINANCIAL STATEMENTS

Liabilities are classified as current liabilities when:

- the liability is expected to be settled within 12 months of the reporting date
- the liability is held for trading
- the Company does not have an unconditional right to postpone settlement of the liability until at least 12 months after the reporting date.

All other liabilities are classified as non-current liabilities.

g. Segments

A business segment provides services that are subject to risks and returns that are different from those of other business segments.

The Company's primary reporting format is based on the Company's internal reporting which has one segment.

The Company's management does not evaluate performance by geographical region as the ships sail on a worldwide basis.

h. Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

Interest income is recognised in the income statement during the period in which it is earned.

Dividends from subsidiaries and group contributions are recorded as appropriations in the same year as proposed.

i. Taxes

The current income tax charge is calculated on the basis of the tax laws enacted or principally enacted at the reporting date. Management periodically evaluates the tax positions with respect to situations in which applicable tax regulations are subject to interpretation and on this basis establishes provisions for payable tax amounts.

Deferred income tax is provided for all temporary variances arising between the tax bases of assets and liabilities compared to the carrying amounts in the financial statements. Deferred income tax is determined using tax rates that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary variances can be utilised.

Both payable tax and deferred tax are recognised directly in equity, to the extent they relate to items recognised directly in equity. In cases where the equity transaction is considered a distribution and the source of the distribution is earlier years' net profit, the tax effect of the distribution should be recognised as tax expense in the year in which the distribution is recognised.

The Company is registered under the Norwegian tax legislation for shipping companies. The shipping tax-regulations include a tonnage tax and taxation of a company's net financial income and certain parts of the equity. Other ordinary net income is not taxable. Taxation under the shipping tax rules requires compliance to certain requirements.

SKS TANKERS AS

NOTES TO THE FINANCIAL STATEMENTS

j. Impairment of assets

Assets that are subject to depreciation are reviewed for impairment at each reporting date, or when events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Fair value reduced by estimated sale costs is made up of an attainable sale price less expenses to an independent third party. The recoverable amount is calculated for each cash-generating unit (CGU).

Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at each reporting date. Impairment losses which are reported in previous years' income statement are reversed when succeeding events indicates that the cause of the write down is no longer valid. The reversal is classified in income statement as an impairment reversal. The increased carrying amount of an asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined (net of depreciation) had no impairment loss been recognised for the asset in prior years.

k. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

The Company's financial assets are: trade receivables and cash and cash equivalents. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component, the Company initially measures a financial asset at its fair value plus transaction costs.

The Company classifies its financial assets in four categories:

- Financial assets at amortised cost
- Financial assets at fair value through other comprehensive income
- Equity instruments at fair value through other comprehensive income
- Derivatives at fair value through income statement

Financial assets at amortised cost

The Company measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held with the objective to collect contractual cash flows and,
- The contractual terms of the financial asset give rise to cash flows as payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in income statement when the asset is derecognised, modified or impaired.

The Company's financial assets at amortised cost includes trade receivables and other current deposit. Trade receivables that do not contain a significant financing component are measured at the transaction price.

SKS TANKERS AS

NOTES TO THE FINANCIAL STATEMENTS

Financial assets at fair value through other comprehensive income

The Company measures debt instruments at fair value through other comprehensive income if both of the following conditions are met:

- The financial asset is held with the objective of both collecting contractual cash flows and selling, and,
- The contractual terms of the financial asset give rise to cash flows as payments of principal and interest on the principal amount outstanding

For debt instruments at fair value through other comprehensive income, interest income, foreign exchange revaluation and impairment losses/reversals are recognised in the income statement and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. Upon derecognition, the cumulative fair value change recognised in other comprehensive income is reclassified to income statement.

The Company currently holds no investments in quoted instruments which would classify under this category.

Equity instruments at fair value through other comprehensive income

Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through other comprehensive income when they meet the definition of equity under IAS 32 Financial Instruments. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never reclassified to income statement. Dividends are recognised as other financial income in the income statement when the right to receive payment arise. Dividends representing a recovery of part of the cost of the financial asset are instead recorded as other comprehensive income. Equity instruments designated at fair value through other comprehensive income are not subject to impairment assessment.

The Company currently holds no non-listed equity investments which would classify under this category.

Derivatives at fair value through income statement

Derivatives are recognised in the balance sheet at their fair value. Changes in the fair value are currently recorded in the income statement in the period in which the change in fair value occurs. Classification depends on the nature of the derivative.

The Company currently holds no derivatives which would classify under this category.

Derecognition of financial assets

A financial asset or a part of a financial asset/group of similar financial assets is derecognised when:

- The right to receive cash flows from the asset have expired, or
- The Company has transferred its rights or has assumed an obligation to pay the received cash flows in full to a third party; and either
 - I. the Company has transferred substantially all the risks and rewards of the asset, or
 - II. the Company has transferred control of the asset

Financial liabilities

Financial liabilities are classified, at initial recognition, as loans and borrowings, payables or as derivatives. Derivatives are recognised initially at fair value. Loans, borrowings and payables are recognised at fair value net of directly attributable transaction costs.

Document ID:
218E76E8472D4B77989FEB921F7AF033

SKS TANKERS AS

NOTES TO THE FINANCIAL STATEMENTS

Derivatives are financial liabilities when the fair value is negative, accounted for similarly as derivatives as assets.

Interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method if this is considered to be significant. Gains and losses are recognised in income statement when the liabilities are derecognised. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate method. The effective interest rate amortisation is included as finance costs in the income statement.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognised in the income statement.

Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECL) for all instruments not held at fair value. If there is no substantial increase in credit risk since initial recognition, the ECLs are provided for credit losses that result from default events that are possible within the next 12-months. For those credit exposures facing a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure. Credit losses are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs. A provision for impairment of trade receivables is established when a loss is expected and indications that the Company will not be able to collect all amounts due in accordance with the original terms of the receivables are identified.

The Company considers a financial asset in default when contractual payments are considerably past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Measurement of fair value

Fair value of financial instruments actively traded are valued based on quoted prices for identical instruments. Fair value of financial instruments not actively traded are valued based on models or other valuations methodologies observable for similar instruments.

l. Cash and cash equivalents

Cash and cash equivalents include cash and cash deposits held at banks.

m. Equity

Ordinary shares are classified as equity. Transaction costs related to equity transactions, including any tax effect of the transaction costs, are charged directly to equity.

SKS TANKERS AS

NOTES TO THE FINANCIAL STATEMENTS

n. Contingent assets, liabilities and provisions

Contingent liabilities are defined as:

- Possible liabilities resulting from past events, but where its existence relies on future events
- Liabilities which are not accounted for as it is not likely that such liabilities will result in a cash outflow
- Liabilities which cannot be measured reliably.

Any major contingent liabilities are disclosed in notes to the accounts. Contingent assets will not be recorded in the accounts, but included as a note if it is likely that the Company will benefit from such assets.

Contingent liabilities and provisions are recognised in the accounts when it is deemed the Company has a lawful obligation that can be measured reliably and it is likely with a more than 50% probability that settlement will take place. Contingent liabilities and provisions are reviewed at each reporting date and adjusted to best estimate. When timing is insignificant, the liability is reported at the estimated cost of release from the liability. Otherwise, when timing is significant for the amount of the liability, the liability is recognised at fair value. Any increase over time in the amount of the liability is reported as interest costs.

o. Events after the reporting date

New information about the Company's financial standing at the reporting date is included in the financial statements. Events occurring after the reporting date that have no impact on the Company's financial position at the reporting date, but which have a significant impact on future periods, are presented in notes to the accounts.

p. Statement of cash flows

The statement of cash flows presents the total cash flow divided into operational activities, investment activities and financing activities. The statement is prepared using the indirect model and reflects the individual activities' impact on the cash reserve.

3. Related parties

In the normal course of its business, the Company has carried out a number of transactions with related parties. Related parties comprise of principal owners of the Company and companies controlled by those owners, management of the Company and companies in which the Company can exercise significant influence over their management or operating policies.

a. Transactions relating to management services:

KGJS provides the Company with administrative services and charges management fees. These costs amounted to USD 2 200 in 2022, compared to USD 1 400 in 2021, recorded in the income statement as general and administrative expenses.

b. Receivables/payables with related parties:

For the years ended 31 December (in US Dollar thousands)	2022	2021
Receivables - current assets - associates	9 000	0
Payables - current liabilities - shareholder	-8 907	0
Total	93	0

Settlement of inter-company balances takes place regularly. Interest is charged based on Nibor/Libor interest rates plus a margin

Risk management

a. Credit risk

The Company is exposed to credit risk in the event of failure of counter-parties to meet their obligations under a trading transaction. The Company's theoretical risk is the cost of replacement at current market prices of such transactions in the event of default by counter-parties. However, counter-parties are established with high credit ratings, and management believes that the possibility of non-performance by the counter-parties is remote. The Company therefore regards its maximum exposure to credit risk as being the carrying amount of receivables and other current assets. No collateral is held as security against receivables, none of which are considered to be impaired. The Company does not believe it is exposed to any material concentrations of credit-risk.

b. Liquidity risk

The Company's strategy is to have adequate liquid assets either in form of cash and/or available credit facilities at all times.

c. Market risk

Market risk comprises interest rate- and currency risk, and other price risks. The Company has no financial derivatives of which the fair value would fluctuate because of changes in other prices.

d. Interest rate risk

The Company is exposed to interest rate risk for debt with floating interest rates.

e. Currency risk

The Company incurs immaterial operating expenses in non-USD currencies. At the reporting date the Company has no non-current monetary assets or liabilities in non-USD currencies.

Att. Jan Håvard Faye Vågsholm

Tillatelse til å utarbeide årsregnskap og årsberetning på engelsk

Vi viser til deres brev av 9. desember 2021 der det søkes om dispensasjon fra kravet til å utarbeide årsregnskap og årsberetning på norsk for følgende selskaper:

SKS Tankers AS org.nr. 927 144 743
SKS Tankers II AS org.nr. 927 459 329

Skattekontoret gir på bakgrunn av en konkret helhetsvurdering de overnevnte selskaper dispensasjon fra kravet til å utarbeide årsregnskap og årsberetning på norsk, jf. regnskapsloven § 3-4 tredje ledd. Dispensasjonen gjelder så lenge opplysningene som danner grunnlaget for vedtaket ikke endres vesentlig.

Kopi av dette brevet må sendes til Regnskapsregisteret i Brønnøysund sammen med årsregnskapet. Den regnskapspliktige må selv dokumentere ved dette brev at tillatelse er gitt.

Bakgrunn

De ovennevnte selskapene er eid av et norsk selskap og er en del av et internasjonalt konsern. Morselskapet er tidligere gitt tillatelse til å bruke engelsk i årsregnskapet og årsberetningen. Selskapene driver virksomhet innen internasjonal skipsfart.

Skattekontorets vurdering

Etter regnskapsloven § 3-4 tredje ledd skal "årsregnskapet og årsberetningen [...] være på norsk. Departementet kan ved [...] enkeltvedtak bestemme at årsregnskapet og/eller årsberetningen kan være på et annet språk."

I Ot. prp. nr. 42 (1997-1998) Om lov om årsregnskap mv., er det uttalt følgende om regnskapslovens formål, jf. pkt. 1.1:

"Regjeringen har som siktemål at regnskapsloven skal bidra til informative regnskaper for ulike grupper av regnskapsbrukere. Regnskapsbrukerne er dels investorer og kreditorer som tilfører kapital til foretakene, og dels andre grupper som har interesse av å vite hvordan foretaket drives, f.eks. de ansatte og lokalsamfunnet. Informasjonen til kapitalmarkedet skal gi grunnlag for riktig prising av finansielle objekter. Riktig prisdannelse på aksjer er en forutsetning for at ressursbruken i

samfunnsøkonomien skal bli best mulig. Gode regnskaper vil også gjøre det vanskeligere for markedsdeltakere å ta ut spekulasjonsgevinster med basis i skjevt fordelt informasjon.”

Det fremgår således at et av hovedformålene med regnskapsloven er å bidra til "informative regnskaper for ulike grupper av regnskapsbrukere". Regnskapsbrukere vil omfatte, jf. uttalelsen i proposisjonen, blant andre investorer, kreditorer, ansatte og lokalsamfunnet.

Det er etter skattekontorets vurdering derfor avgjørende ved vurdering av om dispensasjon fra kravet til å utarbeide årsregnskap og/eller årsberetning på norsk kan gis, at det ikke foreligger mulige brukere av regnskapsinformasjon som blir vesentlig berørt negativt ved en eventuell dispensasjon.

Det er særlig hensynet til brukerne av regnskapsinformasjon som skal vurderes ved en dispensasjonssøknad. I denne vurderingen har skattekontoret lagt særlig vekt på at selskapene er eid av et selskap som også har tillatelse til å benytte engelsk. Videre er det vektlagt at selskapene driver virksomhet i en internasjonal bransje der alle sentrale aktører behersker og benytter engelsk.

Vennligst oppgi vår referanse ved henvendelse i saken.

To the General Meeting of SKS Tankers AS

Independent Auditor's Report

Opinion

We have audited the financial statements of SKS Tankers AS (the Company), which comprise the balance sheet as at 31 December 2022, the income statement, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion

- the financial statements comply with applicable statutory requirements, and
- the financial statements give a true and fair view of the financial position of the Company as at 31 December 2022, and its financial performance and its cash flows for the year then ended in accordance with simplified application of international accounting standards according to section 3-9 of the Norwegian Accounting Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company as required by relevant laws and regulations in Norway and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors and the Managing Director for the Financial Statements

The Board of Directors and the Managing Director (management) are responsible for the preparation of financial statements that give a true and fair view in accordance with simplified application of International Accounting Standards according to the Norwegian Accounting Act section 3-9, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.
