Food Folk Group Holdings AS
Annual Report 2023

Statement by the Board of Directors

The Company

The Group was formed on 31 March 2017 when Food Folk Group Holdings AS (the Company) acquired the McDonald's operation in the Nordics territories through its wholly owned subsidiaries: Food Folk Norge Holdings AS (Norway), Food Folk Sweden Holdings AB (Sweden), Food Folk Danmark Holdings ApS (Denmark) and Food Folk Suomi Holdings Oy (Finland). In connection with the acquisition, the Group and its subsidiaries became the Development Licensee of McDonald's Corporation under a 20-year Multi-Unit Master Franchise Agreement.

McDonald's is one of the most recognised consumer brands in the world with unparalleled brand strength in the Informal Eating Out (IEO) restaurant market. With 457 restaurants as at 31 December 2023 (2022: 445 restaurants) across the Nordics territories McDonald's is also the leading IEO restaurant chain in the region, based on sales.

The Group operates its business through a diversified real estate portfolio with approximately 235 (51%) restaurants located on owned land, with the remaining restaurants located in leased locations under long-term lease agreements. As of 31 December 2023, the Group operated 47 (10%) of the McDonald's restaurants, while the remaining 410 (90%) restaurants were operated by 70 independent Franchisees under individual sub-franchisee agreement with Group companies.

Through its offices in Oslo, Stockholm, Copenhagen and Helsinki, the Group employs 287 employees who provide both own and franchised restaurant advice, guidance and support within areas such as restaurant operation, HR, marketing, finance/IT and building maintenance/development.

The Company employs two people. There are a further 3,060 staff employed in Group operated restaurants.

For further information about McDonald's, please visit www.mcdonalds.com.

Annual accounts

Parent Company

The Company's operation for the year ended 31 December, 2023 resulted in an operating loss of EUR 1.2 million (2022: EUR 1.2 million), net finance income of EUR 3.2 million (2022: net finance expenses EUR 1.5 million) and income from profit in subsidiaries, net of tax of EUR 53.0 million (2022: EUR 71.6 million). Profit for the year amounts to EUR 54.5 million (2022: EUR 68.2 million).

At the end of December 2023, the Company had:

- Balance sheet assets totaling EUR 356.8 million (2022: EUR 411.0 million)
- Equity of EUR 294.4 million, with an Equity ratio of 82.5% (2022: EUR 324.5 million – 79.0%)
- Cash holdings of EUR 103.4 million (2022: EUR 16.3 million), including restricted cash holdings of EUR 14.8 million (2022: EUR 10.3 million)
- Cash flow from operating activities during the year ended 31 December, 2023 was EUR -0.1 million (2022: EUR -3.7 million), from investment activities EUR +186.1 million (2022: EUR -14.0 million) and from financing activities EUR -99.4 million (2022: EUR -15.0 million).

Group

Revenues for the period amounted to EUR 464.8 million (2022: EUR 431.8 million) with operating profit of EUR 104.2 million (2022: EUR 99.9 million) and net finance expenses of EUR 38.4 million (2022: EUR 13.3 million). Profit for the year ended 31 December, 2023 amounted to EUR 54.5 million (2022: EUR 68.1 million).

The financial result is in line with management's expectations.

At the end of December 2023, the Group had:

- Consolidated balance sheet assets totaled EUR 1,126.6 million (2022: EUR 1,009.4 million)
- Equity of EUR 294.4 million, with an Equity ratio of 26.1% (2022: EUR 324.5 million - 32.1%)
- Cash holdings of EUR 107.9 million (2022: EUR 33.0 million), including restricted cash holdings of EUR 16.6 million (2022: EUR 11.4 million)
- Cash flow from operating activities during the year ended 31 December, 2023 was EUR +139.0 million (2022: EUR +146.5 million), from investment activities EUR -57.6 million (2022: EUR -83.7 million), and from financing activities EUR -10.4 million (2022: EUR -80.5 million).

Business outlook

In 2023, the Group had growth in like-for-like restaurant sales with a stable number of guests across all markets (revenue increased by 7.7%) and managed the inflationary headwinds and the increase of prices on food and paper.

Positive free cash flows from operating activities were generated and significant investments in new store openings/re-modelling/upgrades/capacity increases have been made, which will continue also in the future. The Group has opened 20 new stores and closed 8.

Looking forward to 2024, the Group will continue on its growth trajectory both in terms of sales and EBITDA, with an expected stabilization of food and paper prices across all markets. Food Folk will continue to execute on the 'Accelerating the Arches' strategy, strengthen operational excellence and strengthen the franchisee relationship

Food Folk Group Holdings AS
Annual Report 2023

Statement by the Board of Directors and the Executive Board

through central and local engagement. Despite challenging weather conditions and challenging macro-economic trends, the System wide sales performance of the first quarter of 2024 has increased compared to last year.

Financial and market risk

Group companies have taken out long-term mortgage loans denominated in local currency and granted security to the lender in the owned property portfolio. Part of the future interest payments on mortgage loans is fixed, and the rest has been mostly swapped from variable to fixed obligations using interest rate swap agreements. All intergroup lending is subordinated to all other creditors.

The credit risk associated with cash holdings is limited as the counterparties have high credit ratings assigned by international credit-rating agencies.

The Group operates across four markets each with its own currency, and whilst there is some matching of assets and liabilities by currency, and similarly of revenues and expenditures, the Group remains exposed to exchange risk to the extent of unmatched currency exposures.

The Board of Directors and management considers financial and market risk limited and in line with industry norms.

Research and Development

Neither the Company nor the Group had any research and/or development activities during 2023.

Impact on climate/environment

Food Folk's mission is to provide customers with the most friendly, convenient, and consistently excellent McDonald's experience in the world. We do this while at the same time remaining focused on having a positive impact on the communities we serve, and continuously reducing the impact of our operations on climate.

Over the years, we have made progress in reducing our environmental impact in key areas such as packaging, waste, animal feed, etc. However, we know that there is much more to be done and we want to play a leadership role in solving some of the big issues in the food industry, contributing to keeping global warming of the planet below 1.5 degrees. Therefore, in 2022, utilizing the *Green House Gas Protocol* (GHG), we conducted a full review of our *Scope I, II and III* emissions. In 2023, we engaged the leadership team of Food Folk in setting goals and targets to reduce our impact across all scopes including setting 2030 targets and a 2050 Net Zero target.

Our target is to reduce emissions across all scopes by 25% by 2030 which will require a 50.4% reduction in our supply chain emissions and a 50.4% reduction in our offices and restaurants. Our targets are part of the McDonald's global targets and have been validated by the Science Based Targets Initiative.

In 2022, we conducted an ESG materiality assessment, identifying key environmental, social and governance risks and priorities, which has informed both our climate reduction roadmap and broader ESG strategy. This work and our priority areas were further validated in 2023 through a double materiality review in preparation for the forthcoming CSRD regulation.

In 2023, the *Sustainable Brand Index* named McDonald's in Norway the restaurant and catering industry's best in terms of sustainability.

Food Waste

Since 2018 we have significantly reduced food waste in our kitchens. This continues to be an area of focus for reduction. The introduction of our *'made for you'* system into the kitchens has played a large role in the overall reduction. However, we continue to focus on annual measurement of food waste and introduction of new measures to continue to reduce. As the science on re-purposing food waste continues to improve, we are looking at re-purposing our food waste into other elements such as biochar. Today we repurpose cooking oil from our French fries into biofuel.

Packaging

Our public goal for packaging is that 100% of our guest packaging will be both recyclable and originating from renewable, certified, or recycled sources by 2025. As of 2023, 93% of our packaging was in compliance with this goal. As packing technologies continue to improve such as molded fiber and others, we will continue to transition our packaging. In 2023 we introduced reusable cups into our Swedish restaurants in line with regulation.

Reducing the impact on our packaging on nature continued to be a key focus for us in 2023 with littering reduction programs established in each of our markets. For example, we continue our programs to actively reduce the impact of our packaging on nature across all four of our markets. For example, in Denmark, through our partnership with Ren Natur, 524 routes of litter were collected in 2023. A total of 52 municipalities participated along with 7,206 volunteers. Of these 50 routes were nearby McDonald's. In Norway we work to tackle litter through our partnership with *'Rusken'* and in collaboration with *'Keep Norway Clean'*, where our employees join clean-up activities. In all markets our *'one-block policy'* means employees continuously help keep the local area clean not only from McDonald's own litter but also litter from society in general.

Sustainable sourcing

For ingredients sourced from regions categorized as "high risk" we use world leading certification standards to verify traceability and farming practices.

Food Folk Group Holdings AS
Annual Report 2023

Statement by the Board of Directors and the Executive Board

- *Palm oil* - 100% of the palm oil we sourced in 2023 was certified by the *Roundtable of Sustainable Palm Oil (RSPO)*. Palm oil produced for McDonald's must be certified by the RSPO, which sets out strict criteria to minimize negative impacts to the environment and to communities in palm oil producing regions.
- *Soy* - 100% of soy sourced in 2023 for the feed of chicken used in McDonald's products supported deforestation-free supply chains globally. One of the primary environmental impacts of raising chickens comes from the use of soy in their feed.
- *Coffee* - 100% of our ground and whole bean coffee was sustainably sourced in 2023 and *Rainforest Alliance* certified. We also source 100% organic coffee for the Swedish and Norwegian market.

As of 2023 up to 65% of our food and packaging suppliers have validated climate targets in place for 2030 and 2050 in line with the *Science Based Targets Initiative*. Our goal is to have 100% of food and packaging suppliers with approved SBTI targets in place by the end of 2025. Key initiatives in our value chain include:

- *Beef* – 100% of our beef suppliers in the Nordics have validated climate targets in place, including Net Zero target dates no later than 2050. We are working in close cooperation with our beef suppliers to identify key initiatives and interventions in our own value chain that will reduce the impact per kilo of beef. Their efforts on working on reducing emissions. Our expectation is that suppliers will work on innovative solutions and independent strategies as part of self-managed excellence including reporting of their progress to CDP (*Climate Disclosure Project*) to allow us to monitor the climate risks, opportunities, targets and actions being taking across our supply chain.
- *Fish* - Our goal is that all the wild-caught fish sourced for use in McDonald's products comes from verified sustainable sources. 100% of the fish used in McDonald's Filet-O-Fish® in 2023 came from verified sustainable fisheries and was certified by the *Marine Stewardship Council (MSC)*.
- *Chicken* – Our strategy is informed by large scale commercial trials conducted together with our suppliers to study the effects certain production parameters have on key welfare, environmental and farm-level outcomes. As a result, we are working with our suppliers on the implementation of key enrichments and we plan to set targets, measure performance and report on key farm-level welfare outcomes. Our strategy approach is holistic and focuses on animal welfare, environmental impact, affordability and nutrition.
- *Antibiotics Policy* – Our longstanding commitment to the reduction of antibiotic use in food animals – including reducing the use of medically important antibiotics as defined by the *World Health Organization (WHO)* – spans over 18 years, since McDonald's first outlined its position on antibiotic use in the supply chain in 2003. Through our commitment to responsible antibiotic use, we are doing our part to help preserve the effectiveness of antibiotics for future generations. Antimicrobial Resistance (AMR) is a critical global public health issue that we believe we and our suppliers have a responsibility to help address. Our antibiotic use policies do not permit the routine use of medically important antibiotics for the purpose of growth promotion or the habitual use of antibiotics for disease prevention. Our focus is on refining antibiotic selection and administration, reducing non-therapeutic antibiotic use and, when possible, replacing antibiotics with long-term solutions to proactively prevent disease and protect animal health and welfare. We remain committed to the treatment of sick animals aligned with herd veterinarian direction to ensure the safety of our supply chain. Our suppliers adhere to criteria set by WOA standards on the responsible and prudent use of antimicrobials, as defined in the *Terrestrial Animal Health Code*.

Human rights

McDonald's has a comprehensive Supplier Workplace Accountability (SWA) program, which supports compliance with the standards and expectations outlined in our Supplier Code of Conduct. The SWA program aims to help suppliers understand our expectations, verify compliance and work toward continuous improvement.

The SWA program provides suppliers and McDonald's Global Supply Chain Team with training to understand human rights issues and our SWA program requirements. Built on a model of continuous improvement and education, SWA includes an online training platform where suppliers can access optional tools and resources that provide guidance on human rights issues.

In line with the Norwegian Transparency Act, the Group carried out a comprehensive materiality assessment of human rights within its supply chain and reported the results under the website www.mcdonalds.com/no. We are now preparing for our 2023 report to be filed in line with the regulatory timing requirements and will conduct a full review of human rights in across our organization in Norway.

Employees and working environment

Similar to McDonald's international practice concerning employees' working conditions, the Group applies a systematic job-rotation scheme intended to create the best possible working environment. Furthermore, it regularly offers its employees the possibility to take part of various training programs. Such programs focus on individual development as well as facilitating promotions within the system. Additionally, performance reviews and staff-surveys are conducted on a regular basis in order to better understand and improve our working environment.

Overall, the Board of Directors deems the working environment of the Group to be on a satisfactory level.

Food Folk Group Holdings AS
Annual Report 2023

Statement by the Board of Directors and the Executive Board

There have been no serious occupational accidents or incidents during the year. Moreover, the Group has not observed any noticeable increase in sickness rate or leave of absence due to health and/or safety related reasons (specifically in the Norwegian entities: 2.81% in Food Folk Norge AS and 3.00% in Zero Five AS in 2023). The Group recognizes the importance of monitoring sickness/absence and is in the pilot phase of implementing a Nordic program to further improve information accuracy related to statistics on occupational accidents and sick leave. In 2023 the Group have also focused on training all leaders in leading the new generation of employees, the generation Z.

Equal opportunities, Non-discrimination and accessibility

(applicable to Food Folk Group Holdings AS and the Norwegian subsidiaries Food Norge AS and Zero Five AS)

Diversity and equal opportunity

Diversity and inclusion are one of our strategic focuses related to the Group's sustainable development goals. It is believed that a dynamic mix of people is instrumental to a sustainable and healthy working environment. Our ethical guidelines and policies clearly underline an absolute non-acceptance of inappropriate behavior such as bullying, harassment and any kind of discrimination based on *e.g.* gender, sexual orientation, age, ethnicity, or religious beliefs.

Business code of conduct

At Food Folk, we believe in the value of treating people with equality and respect. Our non-acceptance of harassment, intimidation, discrimination and other forms of inappropriate behavior is manifested in the Food Folk Code of Conduct. The Code of Conduct is shared on an annual basis with our employees who are requested to certify understanding and compliance with the values and principles set out in the Code of Conduct.

Speak-Up Policy - Integrity Line

The Food Folk Speak-Up Policy and Integrity Line facilitate the possibility for our employees to report unaccepted behavior. Employees are offered the possibility to report anonymously and the Speak Up policy manifests a guarantee of non-retaliation. The Integrity Line is furthermore available also to external parties such as suppliers and contractors. In order to avoid a culture of silent acceptance and leniency towards unaccepted behaviors, the Speak-Up Policy encourages our employees to act and report misconduct and unethical behavior, including but not limited to fraud and violations of laws and regulations.

Suspicion of Misconduct/Fraud

All employees with knowledge of suspected misconduct are encouraged to report suspicions of fraudulent or unethical conduct in violation of the Food Folk Code of Conduct and all violations of the law.

Women@McDonald's

Women@McDonald's is a network within McDonald's and its affiliates, which aims to engage, elevate and empower women across the McDonald's system and its organizations. One employee from the Group is participating in the network's operations in order to further support and enable:

- Break down barriers and build a community of women and allies across the organization to champion gender equity (Engage);
- Promote women's voices, ideas, and impact (Elevate); and
- Provide learning and engagement opportunities to advance professional development (Empower).

Employee engagement survey

Food Folk conducts an engagement PULS-survey through the whole year where employees are asked if they have a positive and physical good workplace, and if they feel safe and cared for as an employee. The most recent survey was conducted in December 2023. The report indicates that our employees feel that Food Folk have a good working environment and care for them as employees. Our employees are sure that Food Folk would react in the right way if any misconduct was reported.

In addition, an engagement survey is conducted on an annual basis at restaurant level (November 2023). The reports from that survey do not indicate any significant dissatisfaction in relation to the employer. The reports further indicate that employees on an overall basis experience good treatment from managers, a good working environment and respectful treatment amongst colleagues.

The company has several initiatives to ensure a safe and good working environment, such as a demonstration of the use of the Integrity Line (notification function), e-learning tools with a focus on a safe and respectful workplace and improved collaboration between company health service providers.

Initiatives to reduce the risk of discrimination

In order to mitigate risks relating to various kinds of discrimination, the following measures/processes are put in place:

- Annual gender balance mapping.

Nationalities

In Norway, we have employees from over 80 different nationalities.

Gender balance

In Food Folk Group Holdings AS, both two employees are males.
The gender balance in Food Folk Norge AS is as follows:

Executives men	33,33 %
Executives female	66,66 %
People Managers men	40 %
People Managers female	60 %
Office employees men	42,22%
Office employees female	57,77%

About 49.7% of total managers in ZeroFive AS is women (included shift managers). The same gender balance exists when it comes to crew level (employees without manager responsibility). These numbers have been stable for several years.

Part time work (not voluntary)

Neither Food Folk Group Holdings AS nor Food Folk Norge AS has any part-time workers employed.

Temporary Work

The vast majority of our Norwegian employees within Food Folk Norge AS (all under Food Folk Group Holdings AS) are employed on permanent employment contracts.

Salary balance (Zero Five AS)

Salaries to hourly-paid employees are governed and determined by collective agreement (Riksavtalen and Restaurant). Full-time employees (managers and support functions) are salaried based on role/position and salary levels are subject to annual review. Women's Average Salary as Percentage of Men's Average Salary is almost 100 % balanced.

Parental leave

Parental leave follows legal regulations and individual choices. Food Folk pays full salary to employees on parental leave – also for employees with higher salary than the cap in Norwegian social security regulations. This apply also to the owned restaurant staff, but only for restaurant managers.

During 2023:

- Food Folk Norge As - female employees on parental paid leave took in total 5 weeks, while two male employee were on paid parental leave for 30 weeks in total;
- Food Folk Group Holdings AS – one male on paid parental leave took in total 11 weeks;
- ZeroFive AS - female employees on parental paid leave took in total 344.6 weeks and male employees 195.8 weeks.

Women's Average Salary as Percentage of Men's Average Salary

In ZeroFive AS the level is almost 100% balanced, while in Food Folk Norge AS:

- On executive level woman earn in average 16.9 % more than men.
- On people manager level woman earn in average 36.8 % more than men.
- Other employees women earn in average 3.7 % more than men.

Directors' and officers' liability insurance

The Company is covered by the Food Folk Group's Directors' & Officers' Liability Insurance including inter alia general liability, crisis loss and losses due to environmental matters.

Food Folk Group Holdings AS
Annual Report 2023

Food Folk Corporate Social Responsibility

Food Folk's mission is to provide customers with the most friendly, convenient, and consistently excellent McDonald's experience in the world. We do this while at the same time remaining focused on having a positive impact on the communities we serve, and continuously reducing the impact of our operations on climate.

Our values:

- **Serve:** We put our customers and people first
- **Inclusion:** We open our doors to everyone
- **Community:** We are good neighbors
- **Integrity:** We do the right thing
- **Family:** We Get Better Together

Our role in the community

As one of the largest youth employers in the Nordics, we provide invaluable learning experiences for young people across the country from all backgrounds. Young people aged 16-18 account for roughly 40% of our staff and through their employment - which is often the first steppingstone into the labor market- we provide them with opportunities to grow and gain experience that can be used for the rest of their working lives, providing them with continuous learning opportunities.

As part of the community, we work with values-aligned organizations to make a difference. Through *Ronald McDonald House Charities®* (RMHC®), Ronald McDonald House provides housing accommodation, comfort and care to the families of seriously ill or injured children undergoing medical treatment in hospital. Our aim is to keep families close to their child to help in the healing process.

Food Folk Risk & Impact

a) Impact on climate/environment

Over the years, we have made progress in reducing our environmental impact in key areas such as packaging, waste, animal feed, etc. However, we know that there is much more to be done and we want to play a leadership role in solving some of the big issues in the food industry, contributing to keeping global warming of the planet below 1.5 degrees. Therefore, in 2022, utilizing the *Green House Gas Protocol* (GHG), we conducted a full review of our *Scope I, II and III* emissions. Our latest review will be conducted in May 2024. In 2023, the leadership team set targets and goals to take action to continue to reduce our emissions across all scopes, utilizing the *Science Based Targets Initiative* (SBTI), the world leading framework for setting climate targets and reduction of absolute emissions. McDonald's Net Zero target date is 2050.

In 2022 we conducted an ESG materiality assessment, identifying key environmental, social and governance risks and priorities, which will inform both our climate reduction roadmap and broader ESG strategy. This work and our priority areas was further validated in 2023 through a double materiality review in preparation for the forthcoming CSRD regulation.

In 2023, the *Sustainable Brand Index* named McDonald's in Norway the restaurant and catering industry's best in terms of sustainability.

Packaging

Our public goal for packaging is that 100% of our guest packaging will be both recyclable and originating from renewable, certified, or recycled sources by 2025. As of 2023, 93% of our packaging was in compliance with this goal. As packing technologies continue to improve such as molded fiber and others, we will continue to transition our packaging. In 2023 we introduced reusable cups into our Swedish restaurants in line with regulation.

Reducing the impact on our packaging on nature continued to be a key focus for us in 2024 with littering reduction programs established in each of our markets.

Food Folk Group Holdings AS
Annual Report 2023

Food Folk Corporate Social Responsibility

Examples of sustainability initiatives

- Sweden - In 2023, over 90% of energy to our restaurants was renewable and purchased via certificates. HAVI, our distribution partner, transported 80% of deliveries via renewable fuel. Electricity equivalent to 55 Mkm of driving was charged at our restaurants, compared to 33 Mkm in 2022.
- Norway - In Norway, we joined with the community to protect nature through "Rusken", where our employees join clean-up activities, to tackle the problem with littering. We also continue the *Young Farmer of the Year* award, a collaboration between Food Folk, Norwegian Rural Youth and Felleskjøpet Agri (Norwegian agricultural cooperative). The goal is to increase recruitment to Norwegian agriculture and focus on the production of Norwegian quality food. The candidate must be a food producer, under the age of 35, and be a healthy role model who can inspire more people to work in Norwegian agriculture.
- Finland - Centralized collection of used cooking oil for upstream processing into biodiesel was trialed at the end of 2019 in our test restaurant and in 2023 this was extended to 100% of our restaurants. In 2020 we began installing electric car charging stations outside at our drive through restaurants and by the end of 2023, we had a total of 35 charging stations in place.
- Denmark - In Denmark through our partnership with Ren Natur 524 routes of litter collection were organized in 2023. A total of 52 municipalities participated along with 7206 volunteers. Of these 50 routes were nearby McDonald's. Our 'one-block policy' means employees continuously help keep the local area clean not only from McDonald's own litter but also litter from society in general.

b) Sustainable Sourcing

Our approach to sourcing is to balance environmental factors and animal and human health, together with a strong focus on human rights within our supply chain. For ingredients sourced from regions categorized as "high risk" we use world leading certification standards to verify traceability and farming practices.

- Palm oil - 100% of the palm oil we sourced in 2023 was certified by the Roundtable of *Sustainable Palm Oil* (RSPO). Palm oil produced for McDonald's must be certified by the RSPO, which sets out strict criteria to minimize negative impacts to the environment and to communities in palm oil producing regions.
- Soy - 100% of soy sourced in 2023 for the feed of chicken used in McDonald's products supported deforestation-free supply chain globally. One of the primary environmental impacts of raising chickens comes from the use of soy in their feed.
- Coffee - 100% of our ground and whole bean coffee was sustainably sourced in 2023 and Rainforest Alliance certified. We also source 100% organic coffee for the Swedish and Norwegian market.
- Beef - As of 2023 up to 65% of our food and packaging suppliers has validated climate targets in place for 2030 and 2050 in line with the *Science Based Targets Initiative*. Our goal is to have 100% of food and packaging suppliers with approved SBTi targets in place by the end of 2025.
- Fish - Our goal is that all the wild-caught fish sourced for use in McDonald's products comes from verified sustainable sources. 100% of the fish used in McDonald's Filet-O-Fish® in 2023 came from verified sustainable fisheries and was certified by the *Marine Stewardship Council* (MSC).
- Chicken - Our strategy is informed by large scale commercial trials conducted together with our suppliers to study the effects certain production parameters have on key welfare, environmental and farm-level outcomes. As a result, we are working with our suppliers on the implementation of key enrichments and we plan to set targets, measure performance and report on key farm-level welfare outcomes. Our strategy approach is holistic and focuses on animal welfare, environmental impact, affordability and nutrition.
- Antibiotics Policy - Our longstanding commitment to the reduction of antibiotic use in food animals – including reducing the use of medically important antibiotics as defined by the *World Health Organization* (WHO) – spans over 18 years, since McDonald's first outlined its position on antibiotic use in the supply chain in 2003. Through our commitment to responsible antibiotic use, we are doing our part to help preserve the effectiveness of antibiotics for future generations. *Antimicrobial Resistance* (AMR) is a critical global public health issue that we believe we and our suppliers have a responsibility to help address. Our antibiotic use policies do not permit the routine use of medically important antibiotics for the purpose of growth promotion or the habitual use of antibiotics for disease prevention. Our focus is on refining antibiotic selection and administration, reducing non-therapeutic antibiotic use and, when possible,

11

Development Partner
of McDonald's

Transaction 09222115557516432133

Signed AH, RB, LKS

replacing antibiotics with long-term solutions to proactively prevent disease and protect animal health and welfare. We remain committed to the treatment of sick animals aligned with herd veterinarian direction to ensure the safety of our supply chain. Our suppliers adhere to criteria set by WOAH standards on the responsible and prudent use of antimicrobials, as defined in the *Terrestrial Animal Health Code*.

c) Human rights

McDonald's has a comprehensive *Supplier Workplace Accountability (SWA)* program, which supports compliance with the standards and expectations outlined in our Supplier Code of Conduct. The SWA program aims to help suppliers understand our expectations, verify compliance and work toward continuous improvement.

The SWA program provides suppliers and McDonald's Global Supply Chain Team with training to understand human rights issues and our SWA program requirements. Built on a model of continuous improvement and education, SWA includes an online training platform where suppliers can access tools and resources that provide guidance on human rights issues.

In order to provide goods and services to the McDonald's System, suppliers must meet our high standards, and direct suppliers are required to commit to upholding the standards contained in our Code. We expect and provide guidance to assist our suppliers to meet the standards for human rights, workplace environment, business integrity and environmental management contained in the Code. We also expect suppliers to implement their own management systems in these areas.

We expect that suppliers treat their employees with fairness, respect and dignity, and follow practices that protect the health and safety of people working in their facilities, in compliance with national and local laws. We also require our suppliers to hold their own suppliers to the same standards as outlined in our Code, and to create internal mechanisms and programs for handling reports of workplace grievances, including anonymous reporting.

d) Governance

In compliance with McDonald's corporate standards, Food Folk has developed specific internal policies covering anti-fraud, anti-corruption, and has an established Code of Conduct. Food Folk staff are trained annually on governance related issues.

e) Anti-corruption and bribery

We have an anti-corruption policy, which is aligned with McDonald's Global policy. Our head offices' employees conduct annually an anti-corruption e-learning program aimed at preventing the risk of corruption and bribery at the company. We have a whistle-blower system set-up for each of our countries. All current and new employees at the headquarters must read, sign our code of conduct and attend e-learning system training annually.

f) Our people

Diversity and equal opportunity

Diversity and inclusion are cornerstones of our people strategy. We believe that a dynamic mix of people is instrumental to a sustainable and healthy working environment. Our ethical guidelines and policies make clear zero tolerance for inappropriate behavior such as bullying, harassment and any kind of discrimination based on e.g. gender, sexual orientation, age, ethnicity, or religious beliefs. Each year employees attend online digital certification training on "Building a safe, respectful and inclusive workplace" (human rights).

Business Code of Conduct

Food Folk Group believes in the value of treating people with equality and respect. Our non-acceptance of harassment, intimidation, discrimination and other forms of inappropriate behavior is manifested in the Food Folk Code of Conduct. Each year employees sign the Code of Conduct and attend online digital certification training on the "Standards of business conduct" (anti-corruption and bribery).

Speak-Up Policy – Integrity Line

The Food Folk Speak-Up Policy and Integrity Line facilitate the possibility for our employees to report unaccepted behavior. Employees are offered the possibility to report anonymously and the Speak Up policy manifests a guarantee of non-retaliation.

The Integrity Line is furthermore available also to external parties such as suppliers and contractors.

In order to avoid a culture of silent acceptance and leniency towards unaccepted behaviors, the Speak-Up Policy encourages our employees to act and report misconduct and unethical behavior, including but not limited to fraud and violations of laws and regulations.

Food Folk Group Holdings AS
Annual Report 2023

Food Folk Corporate Social Responsibility

Employee engagement survey

Since May 2023, Food Folk conducts frequent engagement surveys through which employees are asked questions on Diversity and Inclusion at Food Folk. Diversity and Inclusion measures employees perception of Food Folk's efforts to maintain a diverse workforce and create an environment where every individual feels included. During 2023, the question set on Diversity and Inclusion was posed 6 times. In addition, an engagement survey is conducted on an annual basis at restaurant level. The reports from the said surveys do not indicate any significant dissatisfaction in relation to the employer.

Gender diversity

Food Folk is committed to inclusivity and gender equality.

At the management level, the gender ratio of managers is 45% females and 55% males. Below the split by country:

- Denmark 35% females and 65% males
- Norway 56% females and 44% males
- Sweden 48% females and 52% males
- Finland 40% females and 60% males

For the future, a similar split between genders is expected to be continued.

The board consists of three males. A female representative is expected to be introduced by the end of 2024.

Food Folk Group Holdings AS
Annual Report 2023

Basis of preparation

Reporting entity

Food Folk Group Holdings AS is a limited liability company domiciled in Norway.

The financial statements for the years ended 31 December 2022 and 31 December 2023 comprise the consolidated financial statements for Food Folk Group Holdings AS and its subsidiaries (the Group), and separate parent company financial statements.

The Group's main activity consists of acquiring real estate by renting or buying it, and renovating and fitting it for the purpose of operating a McDonald's restaurant under a master franchise agreement made with McDonald's Corporation (hereafter referred to as McDonald's), the holder of the McDonald's global trademark.

Accounting policies

The Group has consistently applied the following accounting policies to all periods presented in these consolidated and parent company financial statements.

In addition, the Group adopted *Disclosure of Accounting Policies (Amendment to IAS 1 and IFRS Practice Statement 2)* from 1 January 2023. The amendments require the disclosure of 'material', rather than 'significant', accounting policies. The amendments did not result in any changes to the accounting policies themselves.

Functional and presentation currency

The consolidated financial statements and the parent company financial statements are presented in EUR rounded to the nearest EUR 1,000.

Basis of accounting

The consolidated financial statements for the year ended 31 December 2023 have been prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the European Union (EU).

Changes and details of the accounting policies are included further.

Changes in significant accounting policies

A number of new standards and interpretations are effective from 1 January 2023:

Newly effective EU-endorsed standards for 01 Jan 2023 to 31 Dec 2023

Effective date	New standards or amendments
1 January 2023	Deferred tax related to assets and liabilities arising from a single transaction (Amendments to IAS 12) IFRS 17 Insurance Contracts Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) Definition of Accounting Estimates (Amendments to IAS 8)

It has been assessed that they do not have a material effect on the Group's consolidated financial statements.

23 May 2023	International Tax Reform – Pillar Two Model Rules – Amendments to IAS 12
-------------	--

The Group has applied the mandatory exception and does not recognise or disclose information about deferred tax assets and liabilities related to Pillar Two income taxes. The mandatory exception applies retrospectively.

However, since no new legislation to implement the top-up tax was enacted or substantively enacted in 2023 in the countries where the Group operates, and no related deferred tax was recognized at that date, the retrospective application has no impact on the Group's consolidated financial statements.

Standards issued but not yet effective

The IASB has issued a number of new or amended accounting standards and interpretations, effective for annual periods beginning after 1 January 2024. The approved, though not yet effective, standards and IFRICs will be applied as they become mandatory for the Group.

Food Folk Group Holdings AS
Annual Report 2023

Basis of preparation

Standards not / not yet endorsed by the EU

Effective date	New standards or amendments
1 January 2024	Non-current Liabilities with Covenants (Amendments to IAS 1) Classification of Liabilities as Current or Non-current (Amendments to IAS 1) Lease Liabilities in a Sale and Leaseback (Amendments to IFRS 16) Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7)
1 January 2025	Lack of Exchangeability (Amendments to IAS 21)

The Group has assessed that these new standards will not have a material effect on the Group's consolidated financial statements.

Use of judgements and estimates

In preparing the consolidated financial statement, Management has made judgements, estimates and assumptions that affect how the Group's accounting policies are applied and the amount of assets, liabilities, income and expenses reported. The actual results may deviate from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Judgements

The following provides information about judgements made in applying those accounting policies that most significantly impact the amounts recognised in the financial statements:

- **Gross vs. net recognition of royalty income and out-of-pocket expenses**

Food Folk both receives royalty income from the sub-franchisees and pays royalty income to McDonald's. These amounts represent the fees for using the McDonald's brand and intellectual property.

McDonald's has stipulated that Food Folk is required to charge its sub-franchisee a fixed percentage of system-wide sales as a royalty expense. Based on the indicators in IFRS 15 management has assessed that Food Folk is acting as a principal (requiring royalty payments to be recognised gross). This is substantiated by the fact that Food Folk is responsible and bears the risk that the sub-franchisees do not perform in accordance with the license granted by McDonald's, being also primarily responsible for providing the services to the franchisees.

Costs and fees (out-of-pocket expenses) related to leaseholds that are used by sub-franchisees are invoiced with no mark-up to the sub-franchisee, and recognised net of payments received from franchisees. Based on the indicators in IFRS 15 management has assessed that Food Folk is acting as an agent (requiring out-of-pocket costs to be recognised net). This is substantiated by the fact that other parties are primarily responsible for providing the services related to the out-of-pocket costs and that the prices for the services related to the out-of-pocket costs are not determined by Food Folk.

- **Investment incentives**

Food Folk grants investment incentives to franchisees, by reducing the franchise fee for a certain period after investment. The incentive is recognised as a reduction of revenue as the discount is provided to the franchisee. Historical data shows that the incentives offered are generally around 1% of system-wide sales.

- **Minimum lease term**

The lease term has an impact on the accounting for:

- right-of-use assets
- lease liabilities
- restoration provisions

According to IFRS 16 the lease term includes the non-cancellable period of the contract and any further periods for which the lessee has an option to continue to lease the asset and for which, at the time of inception of the lease, it is judged reasonably certain that the lessee will exercise that option.

Food Folk has a 20-year agreement with McDonald's (expiring in 2037) requiring Food Folk to ensure that there is a certain number of restaurants in the market, and restaurants can only be closed if permission is granted by McDonald's. Management has assessed that renewable leases expiring before 2037 will be in general extended, unless otherwise agreed with McDonald's.

Food Folk Group Holdings AS
Annual Report 2023

Basis of preparation

Assumptions and estimation uncertainties

When preparing the consolidated financial statements of the Group, Management makes a number of accounting estimates and assumptions on which the recognition and measurement of the Group's assets and liabilities are based.

The following provides information about assumptions and estimation uncertainties with a significant risk of resulting in a material adjustment in the year ending 31 December 2023:

- **Business combination**

On acquisition of businesses, the acquired identifiable assets, liabilities and contingencies are recognised at fair value in accordance with the acquisition method. For a majority of the assets and liabilities acquired, no active market exists which can be used to determine the fair value. This applies in particular to intangible assets and property, plant and equipment. Methods typically used are based on the net present value of expected future cash flows and depreciated replacement costs. Management therefore estimates the fair value of acquired assets, liabilities and contingencies. Depending on the nature of the item, the fair value may therefore be uncertain and could require subsequent adjustment. The fair values of identifiable assets, liabilities and contingencies associated with the purchase of restaurants are disclosed in note 24.

- **Impairment test intangible assets and property, plant and equipment**

When there is an indication of impairment, an estimate is made of how the Company's individual cash generating units will be able to generate sufficient positive net cash flows to support the value of the tangible and intangible assets of the unit. Estimates of future cash flows may span many years in the future and will be subject to uncertainty. The key assumptions supporting recoverable amounts mainly comprise discount rate (WACC) and expectations regarding future system-wide sales in restaurants.

- **Provisions**

The restoration provision is determined based on the net present value of expected future cash flows. Estimates of future cash flows will be subject to uncertainty. The key assumptions supporting the provisions are expectations regarding future system-wide sales in restaurants, cost per square meter for restoring leaseholds and the discount rate used to calculate the present value of the future cash flows. Please refer to note 16 for more details related to the provisions.

of McDonald's

Transaction 09222115557516432133

Signed AH, RB, LKS

Food Folk Group Holdings AS
Annual Report 2023

Material accounting policies

The financial statements have been prepared on a historical cost basis, except for derivative financial instruments that have been measured at fair value.

Basis of consolidation

Subsidiaries

The consolidated financial statements comprise the financial statements of Food Folk Group Holdings AS and entities under its control. Control is achieved when the Group has the power to direct the relevant activities of an entity, is exposed to or has rights to variable returns from its involvement with the entity and is able to affect those returns through its power over the entity. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

When necessary, the financial statements of subsidiaries are adjusted to bring their accounting policies in line with the Group's accounting policies.

Transactions eliminated on consolidation

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between Group members are fully eliminated on consolidation.

Business combinations

The Group accounts for business combinations using the acquisition method when control is transferred to the Group. The consideration transferred in the acquisition is measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred.

Foreign currency

Transactions in currencies other than the functional currency are foreign currency transactions.

On initial recognition, transactions denominated in foreign currencies are translated into the functional currency at the exchange rate prevailing at the transaction date. Foreign currency translation adjustments made when such transactions are settled or as a result of translation of monetary items denominated in foreign currencies at year-end exchange rates are recognised in profit or loss under financial income or financial expenses.

Foreign currency differences arising from the translation of certain items (such as cash flow hedges) are recognised in OCI.

Statement of profit or loss

Revenues

Revenue consists of sales of goods from restaurants, recognized in the statement of income in the point in time when the sales occur, fees from franchised restaurants recognized over time, as the customer simultaneously consumes and receives benefit from the services as the service is performed.

Franchise fees from franchised restaurants are based on a percentage of sales realised by the franchised restaurant if they exceed a minimum monthly amount and are recognised in the period they are earned.

Incentives granted to franchisees are calculated and recognized as part of the variable revenue for the period.

Revenue is presented net of discounts, rebates and incentives granted. Also, revenue is also presented net of VAT and other indirect taxes charged on behalf of third parties.

Raw materials and consumables

Raw materials and consumables include expenses relating to raw materials and consumables used in restaurants.

Other external expenses

Other external expenses include expenses relating to the entity's core activities, including expenses relating to advertising, administration, premises, bad debts, royalties paid to McDonald's, etc.

Costs and fees related to leaseholds that are used by sub-franchisees are invoiced with no mark-up to the sub-franchisee, and recognised net of payments received from franchisees. According to the Franchise agreements the franchisees are required to cover all costs related to the premises used as restaurants, such as common costs, marketing contributions, municipality fees and property taxes. As Food Folk does not obtain control of the goods or the right to the services, more than momentarily, in advance of transferring those goods or services to the franchisee, Food Folk acts as an agent rather than as a principal in rendering the services.

22

Food Folk Group Holdings AS
Annual Report 2023

Material accounting policies

Staff costs

Staff costs include wages and salaries, including compensated absence and pensions, as well as other social security contributions, etc., made to the Group's employees. Staff costs are net of refunds made by public authorities.

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled fully within 12 months of the reporting date, then they are discounted.

Other operating (expense)/income, net

Other operating (expense)/income, net is secondary to the principal activities of the Group and includes intercompany recharge of services provided, gains and losses on disposal of intangible assets and property, plant and equipment.

Financial income and expenses

Financial income and expenses comprise interest income and expense, financial costs regarding finance leases, gains and losses on securities, payables and transactions denominated in foreign currencies, amortisation of financial assets and liabilities as well as surcharges and refunds under the on-account tax scheme, etc. Positive changes in the fair value of derivative financial instruments not designated as hedging arrangements are also included.

Financial expenses comprise interest, losses on transactions denominated in foreign currencies, amortisation of financial liabilities, including finance lease commitments, and surcharges under the Norwegian tax prepayment scheme, etc. Negative changes in the fair value of derivative financial instruments not designated as hedging arrangements are also included.

Share of profit of subsidiaries and associates, net of tax

The item includes the Company's proportionate share of the profit/loss for the year in equity accounted investees after elimination of intra group gains or losses, impairment of goodwill and amortisation/depreciation of other excess values at the time of acquisition.

Tax for the year

Income tax expense comprises current and deferred tax. It is recognised in profit except to the extent that it relates to a business combination or items recognised directly in equity or in OCI.

Interest and penalties related to income taxes, including uncertain tax treatments, are accounted for under IAS 37 Provisions, Contingent Liabilities and Contingent Assets.

Statement of financial position

Property, plant and equipment

Items of property, plant and equipment are measured at cost which includes capitalised borrowing costs, less accumulated depreciation and impairment losses.

The cost of certain items of property, plant and equipment at 31 March 2017, the Group's date of transition to IFRS, was determined with reference to its fair value at that date.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date when the asset is available for use. The cost of self-constructed assets comprises direct and indirect costs of materials, components, sub-suppliers, and wages and salaries. The present value of estimated liabilities related to restoring leaseholds is added to the cost of leasehold improvements or buildings if the liabilities are provided for.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

Where individual components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items, which are depreciated separately.

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in profit or loss. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

Buildings	40 years
Leasehold improvements	length of lease + options but maximized to 30 years
Fixtures, fittings, and equipment	3-10 years

FOOD FOLK

Development Partner
of McDonald's

23

Transaction 09222115557516432133

Signed AH, RB, LKS

Food Folk Group Holdings AS
Annual Report 2023

Material accounting policies

Where the residual value exceeds the carrying amount of the asset, no further depreciation charges are recognised. The depreciation period and the residual value are determined at the time of acquisition and are reassessed every year.

In the case of changes in the amortisation period or the residual value, the effect on the depreciation charges is recognised prospectively as a change in accounting estimates.

Gains and losses on the disposal of items of property, plant and equipment are calculated as the difference between the selling price less costs to sell and the carrying amount at the date of disposal. The gains or losses are recognised in the statement of profit or loss as other operating (expense)/income net.

Intangible assets

Goodwill arising from the acquisition of a subsidiary or a restaurant from a franchisee is measured at cost less accumulated impairment losses. Other intangible assets, including rights (key money), software licenses that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses.

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

Since the period of amortisation is based on the assets expected useful life, no salvage value has been taken into account. Amortisation is calculated to write off the cost of intangible assets using the straight-line method over their estimated useful lives, and is generally recognised in profit or loss.

The estimated useful lives for current and comparative periods are as follows:

Contractual rights	2-20 years
Software licenses	3-5 years

Useful lives are reviewed at each reporting date and adjusted if appropriate.

Gains and losses on the disposal of intangible assets are determined as the difference between the selling price less costs to sell and the carrying amount at the date of disposal. Gains or losses are recognised in the income statement as other operating (expense)/income, net.

Investments

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Associates are those entities in which the Company has significant influence, but not control or joint control, over the financial and operating policies.

Interests in subsidiaries and associates are accounted for using the equity method. The investments are initially recognised at cost, which includes transaction costs. The equity value consists of the parent company's proportionate share of the entities' equity, adjusted for distributions plus goodwill and intra-group losses and less intra-group gains and gain on bargain purchase, if any.

Investments in entities whose net asset value is negative are measured at EUR 0. The entity's proportionate share of a deficit on equity, if any, is set off against receivables from the investment in so far as the deficit is irrecoverable. Amounts in excess thereof are recognized under 'Provisions' in so far as the parent has a legal or constructive obligation to cover the deficit.

Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss of equity accounted investees, until the date on which significant influence or control ceases.

Investment in entities in which the Company has no control or significant influence are categorized as "Other investments" and recognised at cost.

Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash Generating Units (CGUs). Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss under 'Depreciation, amortization and impairment'. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

Development Partner
of McDonald's

Transaction 09222115557516432133

Signed AH, RB, LKS

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in, first-out principle. The cost of raw materials and consumables comprises the cost of acquisition plus delivery costs as well as other costs directly attributable to the acquisition.

The net realisable value of inventories is calculated as the sales amount less costs of completion and costs necessary to make the sale and is determined taking into account marketability, obsolescence and development in expected selling price.

Receivables

Receivables are measured at amortised cost, which usually corresponds to the nominal value. Provisions are made for bad debts on the basis of objective evidence that a receivable or a group of receivables are impaired.

An impairment loss is calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate.

Derivative financial instruments and hedge accounting

The Group holds derivative financial instruments to hedge its interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if certain criteria are met.

Derivatives are initially measured at fair value; any directly attributable transaction costs are recognised in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in profit or loss.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income (OCI) and accumulated in the hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss. The amount accumulated in equity is retained in OCI and reclassified to profit or loss in the same period or periods during which the hedged item affects profit. If the hedge no longer meets the criteria for hedge accounting, the hedging instrument expires or is sold, terminated or exercised, or the designation is revoked, then hedge accounting is discontinued prospectively.

When hedge accounting for cash flow hedges is discontinued, the amount that has been accumulated in the hedging reserve remains in equity until it is reclassified to profit or loss in the same period or periods as the hedged expected future cash flows affect profit or loss.

For additional details, see note 18.

Prepayments

Prepayments recognised under 'Assets' comprise prepaid expenses regarding subsequent financial reporting years.

Cash and cash equivalents

Cash comprises cash balances and bank balances.

Due to the nature of the scheme, balances in the Group's cash pool scheme are not considered cash but are recognised under 'Receivables from/Payables to related parties'.

Income tax

Income tax expense comprises current and deferred tax.

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Provisions for deferred tax are calculated of all temporary differences between carrying amounts and tax values, with the exception of temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss and taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date. Deferred tax assets are recognised at the value at which they are expected to be utilized, either through elimination against tax on future earnings or through a set off against deferred tax liabilities within the same jurisdiction.

Liabilities

Financial liabilities are initially measured at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. Borrowing costs, including capital losses, are recognised as financing costs in the income statement over the term of the loan. Other liabilities are measured at net realisable value.

Food Folk Group Holdings AS
Annual Report 2023

Material accounting policies

Provisions

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

When the Group has a legal obligation to restore a leasehold/leased land, a provision is recognised corresponding to the present value of expected future costs.

Deferred income

Deferred income recognised as a liability comprises payments received concerning income in subsequent financial reporting years.

Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group uses the definition of a lease in IFRS 16.

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index/rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'Loans and borrowings' in the statement of financial position.

Presentation of cash flow statement

The consolidated cash flow statement shows the Group's cash flows from operating, investment and financing activities for the year, the year's changes in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning of the year.

Cash flows from operating activities are determined using the indirect method and stated as the consolidated profit for the year adjusted for non-cash operating items, including depreciations and amortisations, gain on sale of property, plant and equipment, provisions and changes in working capital, interest received and income tax paid.

Cash flows from investing activities comprise payments connected with the purchase and sale of non-current assets, including property, plant and equipment.

Cash flows from financing activities include proceeds from loans and repayments on borrowings, interest and financing cost payments, capital reductions and dividends.

Cash and cash equivalents consist of cash and short-term deposits with a maturity of three months or less and an insignificant risk of changing value.

Impairment loss and subsequent reversal

In 2023, Group has identified that there are impairment indicators related to a number of CGUs (restaurants). Management has estimated the recoverable amount of these restaurants with impairment triggers based on their value in use, resulting in a net impairment loss of EUR 1,094 thousand.

The estimate of value in use was calculated using a pre-tax discount rate within a range of 12.3%-13.1%, depending on the geographical market.

Security

At 31 December 2023, properties with a carrying amount of EUR 391,878 thousand (2022: EUR 393,829 thousand) were subject to registered real estate mortgage notes that form security for bank loans.

As security for mortgage loans, the Group has registered mortgage security on the Group's properties of EUR 413,104 thousand (2022: EUR 249,789 thousand).

At 31 December 2023	10 888	58 359	4 911	74 158

Impairment loss and subsequent reversal

In 2023, Group has identified that there are impairment indicators related to a number of CGUs (restaurants). Management has estimated the recoverable amount of the restaurants with impairment triggers based on its value in use. Based on the calculated value in use of restaurants the Group has recognised a net impairment reversal on Intangible assets for EUR 147 thousand.

The estimate of value in use was calculated using a pre-tax discount rate within a range of 12.3%-13.1%, depending on the geographical market.

Management has assessed that the recoverable amount would exceed the carrying amount also with a reasonably possible change in the key assumptions (average growth rate 5.0% and discount rate 10.6 %) to the impairment test. The following data shows by which percentage these two assumptions would need to change individually for the estimated recoverable amount to be approximately equal to the carrying amount: growth rate -1.75% on explicit years and -1% on terminal value and discount rate +2%.

Terms and debt repayment schedule

a) Bank refinancing

On 17 February 2023, Food Folk Group signed an amendment to the current loan agreement with Danske Bank AS/Realkredit Danmark. The impact on the Group is below described:

- the A2 facility has been fully repaid in all markets for a principal amount of EUR 9,883 thousand (SEK 52,453 thousand, DKK 7,141 thousand, EUR 4,198 thousand) and substituted by a new A4 facility amounting to EUR 43,416 thousand (SEK 140,794 thousand, DKK 25,806 thousand, EUR 27,264 thousand), expiring in 5 years with half-yearly installments starting on June 2023. In addition, also a C facility of EUR 34,485 thousand (SEK 242,565 thousand, NOK 141,896 thousand) has been granted with the same financial conditions as the A4 facility;
- a new B4 facility of EUR 108,656 thousand (SEK 359,700 thousand, DKK 418,268 thousand, NOK 226,125 thousand) expiring in March 2037 has been added to the existing B facilities (B1,B2,B3). All the previously existing B facilities got the same financial terms as the new B4 facility, meaning an increase of 0.1% on the margin and the extension of the first installment repayment (March 2028 instead of 2023/2024, except Denmark where installments remain quarterly starting March 2023).

All facilities are subject to variable rate (Ibor) – except the B1/B2/B3 facilities in Denmark which are at fixed rate – and hedged with interest rate swaps at 90% of the total loan value.

Direct transaction costs (such as stamp duties, arrangement fees, coordination fees, commitment fees, registration fees, property valuation fees), plus legal/consultants fees, incurred a total of EUR 5,943 thousand.

b) Repayment of shareholder loan

The Company repaid in March 2023 the shareholder loan against Capitola Capital II Sarl for a total amount of EUR 30,218 thousand, of which EUR 28,512 thousand as principal, EUR 1,450 thousand as accumulated interests and EUR 256 thousand as withholding taxes on interests. This follows the repayment of the shareholder loan to the Company from Food Folk Sverige Holdings AB, amounting to EUR 10,598 thousand (equivalent to SEK 117,409 thousand), includes EUR 10,000 thousand as principal and EUR 598 thousand as accumulated interests for the period June 2022 – February 2023.

The dilapidation provision relates to the expected cost of restoring leased premises to the condition specified in the lease documents on termination of these leases. These costs will be incurred on exit from the properties, and the amount that will be payable is primarily dependent on negotiations with the individual landlords on exit.

18 Financial instruments

The Group uses various financial instruments. These include loans, cash and various items, such as trade receivables and trade payables that arise directly from its operations. The main purpose of these financial instruments is to raise finance for the Group's operations.

The existence of these financial instruments exposes the Group to a number of financial risks, which are described in more detail below. In order to manage the Group's exposure to those risks, in particular the Group's exposure to interest rate risk, the Group enters into a number of derivative transactions including, but not limited to, variable to fixed rate interest rate swaps. All transactions in derivatives are undertaken to manage the risks arising from underlying business activities and no transactions of a speculative nature are undertaken.

The main risks arising from the Group's financial instruments are credit risk, liquidity risk and market risk. The policies for managing each of these risks are summarised below.

18 (a) Fair values of financial instruments

Fair value hierarchy

All financial instruments measured at fair value use quoted prices (unadjusted) in active markets for identical assets or liabilities. As a result, no fair value hierarchy table is presented. If a table was presented, all financial instruments measured at fair value would be classed as Level 2 of the fair value hierarchy.

Effect of change of inputs used in fair value measurement

As the possibility of quoted prices (unadjusted) in active markets for identical assets not being available for these assets is remote, no analysis of the effect of changing one or more of the inputs used in fair value measurement to another reasonably possible assumption has been prepared.

The fair value of financial instruments is deemed to be materially equivalent to the carrying value, except for loans and borrowings with third parties. The fair value of loans and borrowings for the Group is EUR 472,846 thousand.

The fair value of all financial assets and liabilities by class together with their carrying amounts shown in the balance are as follows:

18 (b) Credit risk

Credit risk is the risk of financial loss to the Group if a franchisee or counterparty to a financial instrument fails to meet its contractual obligations. The Group's principal financial assets are bank balances and trade receivables and the maximum exposure to credit risk at the balance sheet date is represented by the carrying value of these assets.

The credit risk associated with bank balances is limited as the counterparties have high credit ratings assigned by international credit-rating agencies.

The principal credit risk arises therefore from trade receivables, which represent outstanding fees receivable. In order to limit the risk surrounding outstanding fees are reviewed on a regular basis in conjunction with debt ageing and collection history.

The Group also has a limited credit risk arising from trade receivables, which represent outstanding fees receivable. The risk is limited due to short payment terms and limited receivables being past due. The Group has not realised any significant credit losses in 2023.

Credit quality of financial assets and impairment losses (Group)

EUR'000	Gross 2023	Gross 2022	Impairment 2023	Impairment 2022
Not past due	31 400	27 738	0	0
Past due	3 110	2 792	0	0
Total	34 510	30 530	0	0

The allowance account for trade receivables is used to record impairment losses unless the Group is satisfied that no recovery of the amount owing is possible; at that point, the amounts considered irrecoverable are written off against the trade receivables directly.

Annual Report 2023

Notes

18 (c) Liquidity risk

The liquidity risk is managed for both the Group and the Company by maintaining sufficient cash balances to meet working capital needs. Cash flow requirements are monitored by short-term and long-term rolling forecasts. In addition, the Company and the Group regularly review their position in relation to all financial covenants in place in relation to both its external borrowings and to McDonald's.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the effect of netting agreements:

18 (d) Market risk

Market risk is the risk that changes in market prices, such as energy prices, foreign exchange rates and interest rates, will affect the Group's income or the value of its holdings of financial instruments.

Market risk – Energy price risk

The Group's operations are subject to the risk of an increase in energy prices. The company "Nordic Diensten Ekonomisk" (see Note 10) has signed a Nordic master agreement with a vendor in order to hedge (with different coverage percentages and usually over a period of maximum 3 years) the risk of a significant change in the electricity cost on the restaurants. Being this contract not directly managed by the Group, no further accounting and disclosure implications have been identified.

Market risk - Foreign currency risk

The Group's operations have exposure to foreign currency risk at year end due to the fact that the amount of financial instruments in foreign currencies amounts to EUR 407,183 thousand (2022: EUR 279,692 thousand). A change of 1% in the exchange rate against DKK, SEK and NOK at year end would have impacted the carrying amount of financial instruments in foreign currency by EUR -2,760 thousand (2022: EUR 2,769 thousand).

Market risk - Interest rate risk

The Group has loans and borrowings in local currency with variable nominal interest rates as described in note 15. Variable rates may lead to unexpected increases in financial expenses. Therefore, for most of the loan facilities, the Group uses a fixed rate hedge contract to hedge the variability of the interest rates. The hedge follows the same period as the loans, for the majority of the amount.

At the balance sheet date, the interest rate profile of the Group's interest-bearing financial instruments was:

EUR'000	2023	2022
Fixed rate instruments		
Financial assets	1 217	10 876
Financial liabilities	<u>(75 250)</u>	<u>(106 208)</u>
Total fixed rate instruments	<u>(74 033)</u>	<u>(95 332)</u>
Variable rate instruments		
Financial assets	107 900	33 026
Financial liabilities	<u>(284 002)</u>	<u>(133 082)</u>
Total variable rate instruments	<u>(176 102)</u>	<u>(100 056)</u>

All financial assets and liabilities identified as fixed rate instruments in the above table are accruing interest at rates that are fixed for the life of the instrument. Interest rate swaps and caps are disclosed above at fair value as fixed rate instruments, whilst the loans that they are hedging are disclosed as variable rate instruments.

Sensitivity analysis

A change of 100 basis points in interest over the year would have increased/decreased the result for the year by EUR 1,761 thousand (2022: EUR 1,001 thousand). The analysis assumes that all other variables, in particular foreign currency rates, remain constant and considers the effect of all financial instruments with variable interest rates.

18 (e) Capital management

The Group manages its capital to safeguard its ability to operate as a going concern and to optimise returns to shareholders. Overdraft and revolving credit facilities will be used to finance the working capital cycle if required.

The capital structure of the Group consists of net debt, which includes the borrowings disclosed in note 15 after deducting cash and cash equivalents, and equity attributable to the parent, comprising issued capital, reserves and retained earnings as disclosed in the statement of changes in equity.

The debt and equity balances are subject to externally imposed capital requirements, such as those imposed by third party loan providers and McDonald's. The Group has been in compliance with these capital requirements during the year.

The local tax treatment is also taken into consideration when determining the most appropriate capital structure for investments in subsidiaries.

Food Folk Group Holdings AS
Annual Report 2023

Notes

19 Commitments

Capital commitments

During the year ended 31 December 2023, the Group entered into contracts to purchase property, plant and equipment for EUR 8,231 thousand (2022: EUR 5,831 thousand).

Off-balance sheet arrangements

The Group is jointly and severally liable with the co-owners of I/S Fællesskiltning for the partnership's obligations. The total net assets from the statement of financial position amounts to EUR 23 thousand at year end (2022: EUR 20 thousand).

Other commitments amount to EUR 3,154 thousand (2022: EUR 2,694 thousand), mostly related to bank guarantees.

20 Contingencies

The Group is a guarantor for the performance of subsidiaries under credit agreement that the Food Folk Group Holdings AS group has entered into with a financial institution. The guarantee includes customary limitations that ensure that payments cannot exceed what would normally be permitted to be distributed as dividends from the companies. The Food Folk Group Holdings AS group's total obligation amounts to EUR 367.7 million as of 31 December 2023.

21 Related parties

Parent and ultimate controlling party

The Company's ultimate controlling party of the Company is Capitola Capital II Ltd, which owns 100% of all the shares in Food Folk Group Holdings AS. Guy Hands is the ultimate owner.

Key management personnel compensation

Compensation of the Company's / Group's key management personnel includes salaries, non-cash benefits and contributions to post-employment defined contribution plans (see Note 3).

Group related party transactions

Group companies within the Food Folk Group are rendering/receiving services for the use in ordinary business operations. The Group has also entered into an agreement for the provision of services with Terra Firma Investment Limited, which is a related party as it is owned by Guy Hands who is also the Company's ultimate owner. All transactions are priced on an arm's length basis and are settled in cash at the request of the related party. None of the below balances in respect of related party transactions are secured.

Annual Report 2023

Notes

22 Leases

The Group leases mainly properties. Information about leases for which the Group is a lessee is presented below.

i. Amounts recognised in Statement of financial position

EUR'000	2023	2022
- Right-of-use assets (presented in Property, plant and equipment - see note 8)	295 454	271 187
- Prepaid expense (presented in Trade and Other Receivables)	(3 677)	(3 122)
- Lease liabilities (presented in Other interest-bearing loans and borrowings - see note 15)	(313 870)	(282 667)

ii. Amounts recognised in Income Statement

EUR'000	2023	2022
- Depreciation charges (including impairment loss/reversal)	22 649	20 152
- Interest on lease liabilities	10 695	9 855
- variable lease payments not included in the measurement of lease liabilities	3 614	3 353
- expenses relating to other short-term leases	16	28
- expenses relating to leases of low-value assets	923	802
- other expenses	(46)	14

Some leases of restaurants contain variable lease payments that are based on sales that the Group makes at the restaurant.

Fixed and variable rental payments for the period ended 31 December 2023 were as follows:

EUR'000	2023	2022
Fixed payments	7 746	6 211
Variable payments	3 614	3 357
Total lease payments based on sales	11 360	9 568

The Group expects the incidence variable lease payments over the fixed ones to increase consistently with the sales growth expected for the future years.

iii. Amounts recognised in statement of cash flows

EUR'000	2023	2022
- Payment of Lease liabilities (interest portion)	(10 926)	(9 795)
- Payment of Lease liabilities (principal portion)	(18 087)	(17 308)
Total cash outflow for leases	(29 013)	(27 103)

iv. Extension Options

Most of the restaurants' lease contracts contain extension options exercisable only by the Group and not by lessors up to a specific period (usually not higher than one year) before the end of the non-cancellable contract period. The Group assesses at lease commencement whether it is reasonably certain to exercise the options if there is a significant event or significant change in circumstances within its controls.

According to the master franchise agreement with McDonald's, expiring 31 March 2037, a restaurant cannot be closed without its approval, even though it is loss making. It is therefore assumed that the lease term will be renewed until 31 March 2037 if there is not an approval from McDonald's to close a specific restaurant.

As a consequence, all available extension options have been already included in the lease term until the closest date to 31 March 2037. No other potential future lease payments not included in lease liabilities can be therefore disclosed.

v. Lease not yet commenced

The Group has entered during 2023 into lease agreements with few landlords not yet commenced, but committing to pay rent from the subsequent year.

The estimated amount of lease liability for the lease period has been assessed around EUR 19.0 million.

Food Folk Group Holdings AS
Annual Report 2023

Notes

In 2023, the Group has acquired in Sweden few restaurants from the Franchisees. The acquired restaurants contributed a net profit of EUR 0.4 million to the net profit for the year. If the acquisitions had occurred on the first day of the accounting period, the Group revenues would have increased by EUR 1.3 million and net profit would have been higher by EUR 1.1 million. In determining these amounts, Management has assumed that the fair value adjustments that arose on the date of acquisition would have been the same if the acquisition occurred on the first day of the accounting period.

Measurement of fair values

The valuation techniques used for measuring the fair value of material assets were as follows:

- Leasehold improvements and Fixtures, fittings and equipment - depreciated replacement cost has been used as the valuation model. Depreciated replacement cost reflects adjustments for physical deterioration as well as functional and economic obsolescence.
- Contractual rights - Multi-earnings excess method: The multi excess earnings method considers the present value of net cash flows expected to be generated by the contractual rights, by excluding any cash flows related to contributory assets.

Acquisition related costs

No acquisition related costs were incurred by the Group.

b) Acquisition of subsidiaries

EUR'000	2023	2022
Acquirees net assets at the acquisition date:		
Land	157	23
Trade and other payables	<u>0</u>	<u>0</u>
Total identifiable net assets acquired	<u>157</u>	<u>23</u>
Consideration paid:		
Cash	<u>492</u>	<u>23</u>
Total consideration	<u>492</u>	<u>23</u>
Difference	<u>335</u>	<u>0</u>

During 2023, the Group acquired the 100% of the shares in a Norwegian company for an amount of EUR 492 thousand. The difference arising from the acquired assets and the consideration paid for EUR 335 thousand has been allocated to the land owned by this company.

25 Subsequent events

No events have occurred after the balance sheet date that materially affect the financial position of the Group at 31 December 2023.

FOOD FOLK GROUP HOLDINGS AS
Storgata 15
0155 OSLO

Tillatelse til å utarbeide årsregnskap og årsberetning på engelsk språk

Vi viser til deres brev av 25. april 2018 hvor dere søker om dispensasjon fra kravet til å utarbeide årsregnskap og årsberetning på norsk språk for:

- Food Folk Group Holdings AS, org.nr. 817 906 222
- Food folk Norge Holdings AS, org.nr. 917 906 254
- Food Folk Norge AS, org.nr. 950 173 378
- Zero Five AS, org.nr. 951 816 981

Skattedirektoratet gir på bakgrunn av en konkret helhetsvurdering ovenstående selskaper dispensasjon fra kravet til å utarbeide årsregnskap og årsberetning på norsk språk, jf. regnskapsloven § 3-4 tredje ledd. Dispensasjonen gjelder så lenge opplysningene som vedtaket baserer seg på ikke endres vesentlig.

Kopi av dette brevet må sendes Regnskapsregisteret i Brønnøysund sammen med årsregnskapet. Det påligger den regnskapspliktige å dokumentere ved dette brev at tillatelsen er gitt.

Bakgrunn

Fra søknaden gjengis:

Food Folk Group Holdings AS ("Food Folk") er Development Licensee til McDonald's Corporation I Norden ("McD") — og holder rettighetene til å utvikle, drive og videreleie rettighetene til McDonald's restauranter i de nordiske markedene gjennom en 20 års Master Unit Franchise Agreement ("MUFA") med McD.

Alle aksjene i Food Folk eies av en utenlandsk aksjonaer, Capitola Capital II S.a.r.l som igjen eies av engelskmannen Guy Hands.

Det er således klart at hovedmassen av aksjonærene ikke forstår norsk, men fullt ut behersker engelsk. Engelskkunnskaper er således nødvendig for å holde seg oppdatert om selskapet. All intern rapportering og kommunikasjon, med unntak av oversettelsen av årsregnskap og årsrapport til norsk som følge av lovkrav, foregår på engelsk. Det er ikke formidlet noe ønske fra selskapets aksjonærer om at slik rapportering og kommunikasjon bør være på norsk som et supplement til engelsk.

McDonalds er et internasjonalt konsern med virksomhet i mange land og med profesjonelle

Postadresse	Besøksadresse:	Sentralbord
Postboks 9200 Grønland	Se www.skatteetaten.no	800 80 000

	E-post:	22 17 08 60
	skatteetaten.no/sendepost	

kontraktspartner, og behersker engelsk fullt ut.

Food Folks interne og eksterne arbeidsspråk er engelsk. Hovedbankforbindelse til Food Folk (Danske Bank) har i tillegg krevd at engelsk benyttes ved rapportering. Flesteparten av konsernets ansatte snakker ikke norsk. Konsernledelsen og styret har medlemmer som ikke behersker norsk. Alle sakspapirer til styre og konsernledelse er på engelsk.

En rekke av de personer som utarbeider grunnlagsdata for årsregnskap og årsberetning behersker ikke norsk. I praksis arbeides det med den engelske versjon av årsrapporten, som siden oversettes til norsk.

En norsk oversettelse vil kun ha til formål å tilfredsstille regnskapslovens språkkrav.

Skattedirektoratets vurdering

Etter regnskapsloven § 3-4 tredje ledd skal ”årsregnskapet og årsberetningen ... være på norsk. Departementet kan ved ... enkeltvedtak bestemme at årsregnskapet og/eller årsberetningen kan være på et annet språk.”

I Ot. prp. nr. 42 (1997-1998) Om lov om årsregnskap m.v., er det uttalt følgende om regnskapslovens formål, jf. pkt. 1.1:

Regjeringen har som siktemål at regnskapsloven skal bidra til informative regnskaper for ulike grupper av regnskapsbrukere. Regnskapsbrukerne er dels investorer og kreditorer som tilfører kapital til foretakene, og dels andre grupper som har interesse av å vite hvordan foretaket drives, f.eks. de ansatte og lokalsamfunnet. Informasjonen til kapitalmarkedet skal gi grunnlag for riktig prising av finansielle objekter. Riktig prisdannelse på aksjer er en forutsetning for at ressursbruken i samfunnsøkonomien skal bli best mulig. Gode regnskaper vil også gjøre det vanskeligere for markedsdeltakere å ta ut spekulasjonsgevinster med basis i skjevt fordelt informasjon.

Det fremgår således at et av hovedformålene med regnskapsloven er å bidra til “*informative regnskaper for ulike grupper av regnskapsbrukere*”. Regnskapsbrukere vil omfatte, jf. uttalelsen i proposisjonen, blant andre investorer, kreditorer, ansatte og lokalsamfunnet.

Det er etter Skattedirektoratets vurdering derfor avgjørende ved vurdering av om dispensasjon fra kravet til å utarbeide årsregnskap og/eller årsberetning på norsk, at det ikke foreligger mulige brukere av regnskapsinformasjon som blir vesentlig berørt negativt ved en eventuell dispensasjon.

Som nevnt ovenfor er det særlig hensynet til brukerne av regnskapsinformasjon som skal vurderes ved en dispensasjonssøknad. I denne vurderingen har Skattedirektoratet lagt vekt på at det norske konsernet er heleid av et utenlandsk selskap, og at eierkretsen derfor er begrenset. Det er videre lagt vekt på at selskapet har utenlandske styremedlemmer, og at arbeidsspråket er engelsk.

Vennligst oppgi vår referanse ved henvendelser i saken.

To the General Meeting of Food Folk Group Holdings AS

Independent Auditor's Report

Opinion

We have audited the financial statements of Food Folk Group Holdings AS, which comprise:

- the financial statements of the parent company Food Folk Group Holdings AS (the Company), which comprise the statement of financial position at 31 December 2023, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, and
- the consolidated financial statements of Food Folk Group Holdings AS and its subsidiaries (the Group), which comprise the statement of financial position at 31 December 2023, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion

- the financial statements comply with applicable statutory requirements,
- the financial statements give a true and fair view of the financial position of the Company as at 31 December 2023, and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as adopted by the EU, and
- the consolidated financial statements give a true and fair view of the financial position of the Group as at 31 December 2023, and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as adopted by the EU.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company and the Group as required by relevant laws and regulations in Norway and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The Board of Directors (management) is responsible for the information in the Board of Directors' report and the other information accompanying the financial statements. The other information comprises information in the annual report, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the information in the Board of Directors' report nor the other information accompanying the financial statements.

In connection with our audit of the financial statements, our responsibility is to read the Board of Directors' report and the other information accompanying the financial statements. The purpose is to consider if there is material inconsistency between the Board of Directors' report and the other information accompanying the financial statements and the financial statements or our knowledge obtained in the audit, or whether the Board of Directors' report and the other information accompanying the financial statements otherwise appear to be materially misstated. We are required to report if there is a material misstatement in the Board of Directors' report or the other information accompanying the financial statements. We have nothing to report in this regard.

Based on our knowledge obtained in the audit, it is our opinion that the Board of Directors' report

- is consistent with the financial statements and
- contains the information required by applicable statutory requirements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with IFRS Accounting Standards as adopted by the EU, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's and the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error. We design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's and the

Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and the Group to cease to continue as a going concern.

- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a true and fair view.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
