## Board of Directors' report

### The Company's operations

Since 2017, Knox Energy Solutions AS (Hyon AS till April 16<sup>th</sup>) has targeted product and technology development to deliver high-capacity hydrogen fueling systems for ships. The company was restructured in 2021 and 50 mill NOK was raised on entry to Euronext Growth in February 2022 with more than 400 shareholders.

During 2023, the company experienced significant changes in its market and its investor base.

At the beginning of year, Hyon saw the first signs of a delayed infrastructure development for maritime hydrogen. Driven by Ukraine war and uncertain political climate, market priority was energy security rather than green energy transition and thus an increased difficult investment climate for maritime hydrogen infrastructure.

In February, at the expiry date of the 1-year lock-up, two out of three cornerstone investors, i.e. Saga Pure and Nel (35% in total), sold out on their investments in Hyon. Saga Pure dissolving their green investment fund, Nel for strategic reasons of company direction and priority.

In April, Hyon entered its first hardware delivery contract to develop and deliver a mobile refueller for distribution of hydrogen from Norwegian Hydrogen's Hellestyt production plant in construction.

Knowing that company only had funding throughout 2023, the board, admin and cornerstone investor Norwegian Hydrogen intensified its work to raise further funding or find other ways to secure continued operations.

Attracting investors and raising funds to the company proved unsuccessful. In August, the board decided to

discontinue company operations from December 1<sup>st</sup> 2023, to cut cost as much as possible, and to continue sales efforts of company technology and stock position.

Employees were continuously informed about the situation, and as of December 1<sup>st</sup> there were no employees left in the company, after an orderly process with no claims raised.

Cost was significantly cut, and all subcontractors and service providers were paid in full, with no claims towards company.

As of December 1<sup>st</sup>, there were still funds in the company judged sufficiently to further follow leads on company and technology sales. Harald B. Hansen, former COO, volunteered towards the Board to do this job as CEO.

In an Extraordinary general assembly on April 16<sup>th</sup> 2024, decision on tech sales to Norwegian Hydrogen AS, Share Purchase Agreement with Blue Concept Ltd, and new board was decided.

### Financials

The company's turnover went down from NOK 5,703,283 in 2022 to 204,894 in 2023. Loss for the year 2023 were NOK -20,409,383 compared to NOK -20,281,865 in 2022.

The company's cash and cash equivalents as of 31 December 2023 amounted to NOK 4,388,097 compared to NOK 25,241,220 in 2022.

The company's operations are financed by Share Premium from listing of the company. A portion of the Share Premium is allocated to offset loss for the year.

As of 31 December 2023, the Group's current liabilities amounted to NOK 2,306,711 compared to 3,507,720 in 2022.

At the year-end of 2023, total assets amounted to NOK 5,874,968 compared to 27,133,880, during the previous year.

### Future developments

At year-end 2023, the company has discontinued its operations towards the hydrogen market and are working on prospects for technology sales and sales of stock position (in a so-called RTO).

### Financial risk

The board assess that company funds are sufficient to continue this process for a limited period and that this represents best outcome for Knox' shareholders. The alternative is a controlled closing of company.

Knox' risk of insolvency is, to the board best judgement, considered low.

### Subsequent events - note on continued operation

Hyon discontinued its operations towards maritime hydrogen as of 31.12.2023. All subcontractors, service providers, statutory bodies and employees have been paid in full with no disputes or claims raised.

The contract with Norwegian Hydrogen AS, signed in April 2023, stipulated delivery before end of 2023. Upon signing, a payment of NOK 500k was received.

Following the resolution passed at the Extraordinary General Assembly (EGA) on April 16<sup>th</sup>, a technology transfer agreement was signed with Norwegian Hydrogen AS where it was agreed that there will be no requirement for repayment, or claims made related to the agreement.

As decided on the same Extraordinary General Assembly (EGA), a Share Purchase Agreement was signed with Blue Concept Ltd, involving a transaction in which Blue Concept acquires majority ownership in Hyon through the transfer of its shares in Rapid Oil Ltd.

Following the transaction with Blue Concept, the company changes name to Knox Energy Solutions AS, changes its purpose to investments into energy projects, changes board of directors, and issues a report on continued listing to Euronext Growth. Hyon AS CEO will continue as CEO of Knox Energy Solutions to ensure continuity in transition.

Knox does not generate sufficient income from operations to fund its operations through the next 12 months and is dependent on external financing, such as obtaining loans, issuing new equity, or divesting assets, to maintain its operations, therefore there is an uncertainty related to going concern.

The company is currently in active discussions with potential investors to strengthen the liquidity position of the company.

The Company has taken active measures to reduce its monthly cash burn rate in 2024 and operations are being maintained with a focus on minimal cash utilization. The company's liquidity is further supported by Blue

Concept, the principal shareholder, which has committed to providing a guarantee for adequate working capital to cover ongoing activities throughout 2024. Further, the company owns asset through it's 20% holding in Rapid Oil Production Ltd, with a book value of approximately USD 4.4 mill. This coupled with a growing interest from new investors, has led the Board to conclude that there is a reasonable expectation for Knox to secure the necessary funding to continue its operations into the future.

### Going concern

In accordance with Section 3-3a of the Accounting Act, it is confirmed that the conditions necessary for the Company to be considered a going concern are met.

The financial statements have been prepared based on the assumption that the Company is a going concern.

### Recommended appropriation of profit

The Board of Directors recommends the following appropriation of Knox Energy Solutions AS' loss for the year:

Uncovered loss	NOK 0
Total amount appropriated	NOK -20,409,383

### Working environment

The working environment in the company has been good, and all employees have been able to secure new employment.

### Equality and discrimination

Absence due to illness within the company was insignificant. There have been no injuries or accidents. Knox Energy Solutions AS practices equality as regards religion, beliefs, disability, sexual orientation, gender identity and gender expression.

### External environment

Knox did not start manufacturing its mobile refueler, but some special non-returnable goods with minor value are in stock after closure of the project. Thus, the company does not inflict any type of damage on the external environment other than that which follows from ordinary office activities.

### Insurance for board members and the CEO

Health and pension insurance policies were established with DNB for all full-time employees. At 31.12.2023 board insurances are in effect for board members and CEO.

Financial statements

Annual Report 2023

Knox Energy Solutions AS

# Notes to the financial statements

## Note 1 – Accounting policies

As of 31.12.2023 Hyon AS discontinued its venture into maritime hydrogen. Following decisions on Extraordinary General Assembly on April 16th, the company transitions to an energy investment company named Knox Energy Solutions AS under new majority ownership, new board of directors and revised purpose.

The financial statements have been prepared in accordance with the Norwegian Accounting Act and the NRS8 Norwegian accounting standard for small businesses.

### 1-1 Currency

Monetary items in foreign currency are valued at the exchange rate at the end of the financial year. Foreign currency transactions are valued at the exchange rate at the time of the transaction.

### 1-2 Income

Services are recognised in revenue as they are delivered. Services are recognised at the time when they are carried out. The share of sales revenue that is related to future services, is recognised in the balance sheet as unearned income from the sale and then recognised at the time when the service is delivered.

### 1-3 Tax

The tax expense in the income statement includes both the payable tax for the period and the change in deferred tax. Deferred tax is calculated at 22% based on the temporary differences that exist between accounting and tax values, as well as any tax deficit to be posted at the end of the financial year. Tax-increasing and tax-reducing temporary differences that reverse or can reverse in the same period have been offset. The company does not record deferred tax advantage in the balance sheet.

### 1-4 Classification and assessment of balance sheet items

Current assets and current liabilities include items that are due for payment within one year of the time of acquisition, as well as items associated with the goods circulation. Other items are classified as fixed assets/long-term liabilities.

Current assets are valued at the lowest of acquisition cost and fair value. Current liabilities are recognised in the balance sheet at the nominal amount at the time of establishment.

Fixed assets are valued at acquisition cost and depreciated over the expected economic life of the fixed asset and are written down to recoverable amount in the event of a fall in value that is not expected to be temporary. The recoverable amount is the highest of the net sales value and value in use. Long-term debt is recognised in the balance sheet at the nominal amount at the time of establishment.

### 1-5 Other receivables

Receivables are recorded in the balance sheet at nominal value after deduction of provisions for expected losses. Provisions for losses are made on the basis of individual assessments of the individual receivables. In addition, an unspecified provision is made for other accounts receivables to cover assumed losses.

# Notes to the financial statements

## Note 9 - Subsequent events/Continued operations

HYON discontinued its operations towards maritime hydrogen as of 31.12.2023. All subcontractors, service providers, statutory bodies and employees have been paid in full with no disputes or claims raised.

In the contract with Norwegian Hydrogen AS, entered April for delivery late year, NOK 500k was paid at contract signing. Under the subsequent scaling down of business, the obligation to deliver could not be met. Following decision on Extraordinary General Assembly (EGA) on April 16th, a technology transfer agreement with Norwegian Hydrogen AS was signed against no payback or claims.

Following decision on the same EGA, a Share Purchase Agreement with Blue Concept was signed, involving a Transaction where Blue Concept transfer takes majority ownership in Hyon by transfer of its shares in Rapid Oil Ltd.

Following this, the company changes name to Knox Energy Solutions AS, changes its purpose to investments into energy projects, changes board of directors, and issues a report on continued listing to Euronext Growth. Hyon AS CEO will continue as CEO of Knox Energy Solutions AS to ensure continuity in transition.

Knox does not generate sufficient income from operations to fund its operations through the next 12 months and is dependent on external financing, such as obtaining loans, issuing new equity, or divesting assets, to maintain its operations, therefore there is an uncertainty related to going concern.

The company is currently in active discussions with potential investors to strengthen the liquidity position of the company.

The Company has taken active measures to reduce its monthly cash burn rate in 2024 and operations are being maintained with a focus on minimal cash utilization. The company's liquidity is further supported by Blue Concept, the principal shareholder, which has committed to providing a guarantee for adequate working capital to cover ongoing activities throughout 2024. Further, the company owns asset through its 20% holding in Rapid Oil Production Ltd, with a book value of approximately USD 4.4 mill. This coupled with a growing interest from new investors, has led the Board to conclude that there is a reasonable expectation for Knox to secure the necessary funding to continue its operations into the future.

INDEPENDENT AUDITOR'S REPORT

To the Annual Shareholders' Meeting of Knox Energy Solutions AS

Opinion

We have audited the financial statements of Knox Energy Solutions AS (the Company), which comprise the balance sheet as at 31 December 2023, the income statement and statement of cash flow for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion the financial statements comply with applicable legal requirements and give a true and fair view of the financial position of the Company as at 31 December 2023 and its financial performance for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the requirements of the relevant laws and regulations in Norway and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We draw attention to note 9 of the financial statements, which describes that the Company is dependent on raising additional funding to meet its obligations as a going concern. These conditions, along with other matters as set forth in note 9, indicate that material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other information

Other information consists of the information included in the annual report other than the financial statements and our auditor's report thereon. Management (the board of directors and the other executive officers) is responsible for the other information. Our opinion on the financial statements does not cover the other information, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information, and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and for such internal control as management determines is necessary to enable the

## Tillatelse til å utarbeide årsregnskap og årsberetning på engelsk for Hyon AS, org.nr. 918 710 655

Vi viser til deres brev innkommet 1. november 2022 der det søkes om dispensasjon fra kravet til å utarbeide årsregnskap og årsberetning på norsk for Hyon AS. Søknaden ble sendt til Skattedirektoratet. Skattedirektoratets myndighet til å treffe enkeltvedtak etter regnskapsloven § 3-4 tredje ledd ble delegert til skattekontoret med virkning fra 1. juni 2019.

Skattekontoret gir på bakgrunn av en konkret helhetsvurdering Hyon AS dispensasjon fra kravet til å utarbeide årsregnskap og årsberetning på norsk, jf. regnskapsloven § 3-4 tredje ledd. Dispensasjonen gjelder så lenge opplysningene som danner grunnlaget for vedtaket ikke endres vesentlig.

Kopi av dette brevet må sendes til Regnskapsregisteret i Brønnøysund sammen med årsregnskapet. Den regnskapspliktige må selv dokumentere ved dette brev at tillatelse er gitt.

### Bakgrunn

Hyon AS har profesjonelle eiere og er notert på Euronext Growth på Oslo Børs. Selskapet har som formål å tilby hydrogenbaserte løsninger og konsulenttjenester.

Mange av selskapets aksjonærer er i dag engelskspråklige, og selskapet vil fremover rette mye av sin kapitaliseringsaktivitet mot engelskspråklige investorer.

### Skattekontorets vurdering

Etter regnskapsloven § 3-4 tredje ledd skal "årsregnskapet og årsberetningen [...] være på norsk. Departementet kan ved [...] enkeltvedtak bestemme at årsregnskapet og/eller årsberetningen kan være på et annet språk."

I Ot. prp. nr. 42 (1997-1998) Om lov om årsregnskap mv., er det uttalt følgende om regnskapslovens formål, jf. pkt. 1.1:

"Regjeringen har som siktemål at regnskapsloven skal bidra til informative regnskaper for ulike grupper av regnskapsbrukere. Regnskapsbrukerne er dels investorer og kreditorer som tilfører kapital til foretakene, og dels andre grupper som har interesse av å vite hvordan foretaket drives,

f.eks. de ansatte og lokalsamfunnet. Informasjonen til kapitalmarkedet skal gi grunnlag for riktig prising av finansielle objekter. Riktig prisdannelse på aksjer er en forutsetning for at ressursbruken i samfunnsøkonomien skal bli best mulig. Gode regnskaper vil også gjøre det vanskeligere for markedsdeltakere å ta ut spekulasjonsgevinster med basis i skjevt fordelt informasjon.”

Det fremgår således at et av hovedformålene med regnskapsloven er å bidra til “informative regnskaper for ulike grupper av regnskapsbrukere”. Regnskapsbrukere vil omfatte, jf. uttalelsen i proposisjonen, blant andre investorer, kreditorer, ansatte og lokalsamfunnet.

Det er etter skattekontorets vurdering derfor avgjørende ved vurdering av om dispensasjon fra kravet til å utarbeide årsregnskap og/eller årsberetning på norsk kan gis, at det ikke foreligger mulige brukere av regnskapsinformasjon som blir vesentlig berørt negativt ved en eventuell dispensasjon.

Det er særlig hensynet til brukerne av regnskapsinformasjon som skal vurderes ved en dispensasjonssøknad. I denne vurderingen har skattekontoret lagt særlig vekt på at selskapet har profesjonelle eiere og er notert på Euronext Growth på Oslo Børs. Videre er det vektlagt at selskapet driver virksomhet i en bransje der alle sentrale aktører behersker og benytter engelsk.

Vennligst oppgi vår referanse ved henvendelse i saken.
