Notes

The board of directors` report 2022 for UNION Real Estate Fund Holding AS

UNION Real Estate Fund Holding AS

Operational review

UNION Real Estate Fund Holding AS ("the Fund") was established in 2013 to focus on acquisition of commercial real estate properties primarily in Norway with the potential for value-add asset management through re-leasing, repositioning, refurbishment or expansion. The Fund's investment strategy has been to make investments in mid-sized, multi-tenant, commercial properties that are located primarily in the larger Norwegian cities and which have displayed a value creation potential over an expected two to five year holding period. The Fund is managed by UNION Eiendoms kapital UREF AS.

UNION Real Estate Fund Holding AS has invested in a total of 44 commercial properties in Norway from 2013 until the end of 2017, whereas 43 properties were sold in the period 2015 to 2021, and the last property was sold in January 2022. The investment operations through 2022 were based on the Fund's investment strategy outlined above in accordance with the investment committee and the Board of Directors.

Going concern

In accordance with the Accounting Act § 3-3a, the board of directors confirm that the financial statements have been prepared under the assumption of going concern. The Group's economic and financial position is sound.

Comments related to the financial statements

As of 31.12.2022 308 905 290 shares were issued in the Fund.

UNION Real Estate Fund Holding AS had an operating profit of MNOK 2.3 (2021: -33.1). The Group had an operating loss of MNOK 25.8 (2021: +118.6). Profit before tax was negative with MNOK 3.5 (2021: +89.1) for the parent company and negative with MNOK 24.3 (2021: +103.1) for the Group. The Group net rental and related income was MNOK 1.4 (2021: 44.7) for the year 2022.

The Board of UNION Real Estate Fund Holding AS proposes that the negative total comprehensive income for the year of the parent company of MNOK 6.8 (2021: +86.2) is allocated as follows:

- | | |
|--|-----------------|
| • Transferred from fund for unrealized gains | NOK 158 117 000 |
| • Transferred from retained earnings | NOK 151 298 000 |
| • Net change in equity | NOK -6 819 000 |

The company's liquid assets are invested in a bank and considered to be low risk.

As per 31.12.2022 the parent company had a bank balance of MNOK 3.6 (2021: 4.2) and for the Group MNOK 12.8 (2021: 11.5).

The total capital pr. 31.12.2022 was MNOK 39.5 (2021: 634.6) for the Group. Long-term debt equals 0% (2021: 7.15 %) and short-term debt equals 44.53% (2020: 60.79 %). The equity ratio for the Group was 55.47% (2021: 32.06 %). Non-controlling interest represents 0% (2021: 0%) of total assets.

Environment and equality

The parent company and the Group do not pollute the environment beyond what is normal for the operations of the Group. Waste and emissions arising from operations are treated under applicable laws and regulations. The company does not discriminate between the sexes and believe that equality is safeguarded thus no specific measures is implemented.

Financial risk

Market risk

The real estate market is exposed to effects related to macro-economic conditions and local market conditions. This could lead to changes in rent levels, occupancy rate and value of the properties. As of 31.12.2022 UNION Real Estate Fund Holding AS is not exposed to property related risks or changes in interest rates as they have no properties or liabilities to credit institutions.

Credit risk

The real estate market has risks associated with its tenants on the properties. The tenants economy and financial strength, and thus their ability to serve the rent, has great significance for the risk associated with the loss of rent/income. The risk of vacancy depends to a large extent on the economic conditions. Vacancy in a property will lead to loss of rental income, and cause the fund to cover the missing common costs. The fund strives to achieve a bank guarantee or rent deposit upon signing or renegotiating lease contracts. As of 31.12.2022 the Fund has credit risk related to a sellers credit to the buyer of one of the properties. The sellers credit is secured through a lien on the shares in the property company.

Risk of liquidity

The Board assesses the Fund's liquidity as satisfactory and it strives to have a liquidity buffer in case unforeseen situations occurs through daily operation of the properties.

Research and development

UNION Real Estate Fund Holding AS has no research and development activities.

Future development

The Fund has divested all its properties as of January 2022 and the Manager has initiated matters related to the liquidation process of the Fund.

The Board of Directors are covered by the directors` and officers` Liability Insurance policy entered into by UNION with a limit of liability of NOK 100 000 000.

The Transparency Act came into force on 1 July 2022, and will promote companies' respect for human rights and decent working conditions, as well as ensure the public's access to information.

Explanation of due diligence assessments cf. Section 5 of the Transparency Act will be made available on the Company's website - <https://union.no/> - by 30 June 2023.

The Board is not aware of any other incidents that has occurred which may impact the Company's annual results or financial position.

UNION Real Estate Fund Holding AS

Notes 2022

1 Summary of significant accounting policies

UNION Real Estate Fund Holding AS is a limited company, incorporated in Norway, headquartered in Oslo. Address headquarter: c/o UNION Eiendomskapital AS, Bolette Brygge 1, 0252 Oslo, Norway.

The combined consolidated financial statements of the consolidated group and parent company of UNION Real Estate Fund Holding AS for the fiscal year 2022 were approved in the board meeting at 01.03.2023.

The Group is engaged in the development, letting, management, operation, purchase and sale of office and retail properties in Norway. UNION Real Estate Fund Holding AS is managed by UNION Eiendomskapital UREF AS (the Manager).

1.1 Basis for preparation of the annual accounts

The UNION Real Estate Fund Holding AS' annual accounts, consisting of the annual accounts of the parent company and the Group's consolidated financial statements, have been prepared in accordance with International Financial Reporting Standards (IFRS) which have been adopted by the EU and are mandatory for financial years beginning on or after 1 January 2022, and Norwegian disclose requirements listed in the Norwegian Accounting Act as of 31.12.2022.

The annual accounts are based on historical cost, with the exception of the following:

- Financial instruments measured at amortised cost or at fair value through profit or loss
- Investment properties which are assessed at their fair value.

The consolidated financial statements have been prepared on the basis of uniform accounting principles for similar transactions and events under otherwise similar circumstances.

1.2 Functional currency and presentation currency

The functional currency and presentation currency for the parent company is NOK. The consolidated financial statements are presented in NOK.

1.3 Consolidation principles

(a) Subsidiaries

The Group's consolidated financial statements comprise UNION Real Estate Fund Holding AS and companies in which UNION Real Estate Fund Holding AS has a controlling interest. A controlling interest is normally obtained when the Group owns more than 50 % of the shares in the company and can exercise control over the company. Non-controlling interests are included in the Group's equity.

Business combinations are accounted for under the acquisition method. Any excess of the purchase price of business combinations over the fair value of the assets, liabilities and contingent liabilities acquired and resulting deferred tax thereon is recognised as goodwill. Any discount received is credited to the income statement in the period of acquisition.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date and any gains or losses arising from such re-measurement are recognised in the income statement.

UNION Real Estate Fund Holding AS

Notes 2022

Acquisition of subsidiaries that are not considered to represent business combinations as defined in IFRS 3, for example the acquisition of a “Single Purpose” subsidiary that only owns a property and neither has employees, management or significant processes, are recognised as an acquisition of an asset. The cost is allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. In such circumstances there is no recognition of deferred tax.

The Group management is of the opinion that the acquisition of all existing subsidiaries is considered not to represent business combinations.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control over the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Whenever necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group’s accounting policies.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. The consideration is recognised at fair value and the difference between the consideration and the carrying amount of the asset is recognised at the equity attributable to the parent.

In cases where changes in the ownership interest of a subsidiary lead to loss of control, the consideration is measured at fair value. Assets and liabilities of the subsidiary and non-controlling interest at their carrying amounts are derecognised at the date when the control is lost. Differences between the consideration and the carrying amount of the asset are recognised as a gain or loss in profit or loss.

(b) Associates and joint ventures

The Group has investments in associates and joint ventures. Associates are entities over which the Group has significant influence, but not control or joint control over the financial and operating management.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining whether the Group has joint control or significant influence over an entity are similar to those necessary to determine control over subsidiaries.

Associates and joint ventures are accounted for using the equity method from the date when significant influence or joint control is achieved until such influence ceases.

Investments in an associates or joint ventures are initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group’s share of net assets of the associate or joint venture since the acquisition date.

The statement of profit or loss reflects the Group’s share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Group’s OCI. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

If there are indication of that the investment in the associate or joint venture is impaired, the Group will perform an impairment test of the carrying amount of the investment. Any impairment losses are recognised as share of profit of an associate and a joint venture in the statement of profit or loss.

If the Group's share of the loss surpasses the carrying amount of the associate, the carrying amount is set to zero and further loss is not recognised unless the Group has an obligation to make up for the loss.

UNION Real Estate Fund Holding AS

Notes 2022

Upon loss of significant influence over the associate or joint control over the joint venture, and as such the equity method ceases, the Group measures and recognises any retained investment at its fair value. It will not be performed a new measurement of remaining ownership interests if the equity method is still applicable, for example by transition from an associate to a joint venture.

(c) Other investments

All other investments are recognised in accordance with IFRS 9 Financial Instruments, and additional information are provided in notes 3 and 9.

(d) Inter-company transactions and balances

Inter-company transactions and inter-company balances, including internal profits and unrealised gains and losses, are eliminated. Correspondingly, unrealised losses are eliminated but only to the extent that there are no indications of impairment in the value of the asset that has been sold internally.

(e) Non-controlling interests

The non-controlling interest in the consolidated financial statements is the non-controlling interest's share of the carrying amount of the equity. In a business combination are the non-controlling interests measured at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

The subsidiary's profit and loss is together with the separate components of other comprehensive income, is attributable to the owners of the parent company and the non-controlling interests. The comprehensive income is attributable to the owners of the parent company and to the non-controlling interest even though this leads to negative non-controlling interests.

1.4 The use of estimates and assessment of accounting policies when preparing the annual accounts

1.4.1 Estimates and assumptions

The management has used estimates and assumptions that have affected assets, liabilities, incomes, expenses and information on potential liabilities. Estimates and their underlying assumptions are reviewed on a regular basis and are based on best estimates and historical experience. Changes in accounting estimates are recognised during the period when the changes take place. If the changes also apply to future periods, the effect is divided among the present and future periods.

1.4.2 Judgements

The management has, when preparing the financial statements; made certain significant assessments based on critical judgement when it comes to application of the accounting principles. The following items have been subjected to a significant level of judgement when applying the accounting principles:

- Investment property valuation (further information in notes 3, 9, 10 and 13)
- Fair value of investments in subsidiaries (notes 2, 3 and 9)
- Investments in joint ventures and associates at equity value (notes 3, 9 and 16)
- Financial liabilities including interest rate derivatives (notes 3, 9 and 13)

UNION Real Estate Fund Holding AS

Notes 2022

1.5 Revenue recognition

The Group recognises revenue on an accruals basis, when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the Group.

The Group's revenue includes rental income from investment properties, other income and proceeds from the sale of properties.

Rental income from investment property leased out under an operating lease is recognised in the income statement on a straight-line basis over the term of the lease. The revenue is measured net of any value added tax. Lease incentives being offered to occupiers to enter into a lease, such as an initial rent-free period, are an integral part of the net consideration for the use of the property and are therefore recognised on the same straight-line basis.

Any overhead costs are recognised in the balance sheet along with payments from the tenants and consequently this has no effect on the result.

Other income is recorded as income in the periods in which it is earned.

Proceeds received on the sale of properties are recognised within Revenue when the significant risks and rewards of ownership have been transferred to the buyer.

1.6 Segments

UNION Real Estate Fund Holding's operations consist primarily of ownership and management of commercial properties in Norway. There are no significant differences in risk and profitability in areas where the company operates. The Company and the Group operates in one business segment and one geographical market, thus no further segment information will be prepared.

1.7 Borrowing costs related to construction and rehabilitation

Borrowing costs are recognised in the statement of comprehensive income when they arise. Borrowing costs are capitalised to the extent that they are directly related to the purchase, construction or rehabilitation of a non-current asset. The interest costs accrued during the period until the non-current asset is capitalised. Borrowing costs are capitalised until the date when the non-current asset is ready for its intended use. If the cost price exceeds the non-current asset's fair value, an impairment loss is recognised.

1.8 Income tax

The tax expense consists of the tax payable and changes to deferred tax. Deferred tax/tax assets are calculated on all differences between the book value and tax value of assets and liabilities.

Deferred tax assets are recognised when it is probable that the company will have a sufficient profit for tax purposes in subsequent periods to utilise the tax asset. The companies recognise previously unrecognised deferred tax assets to the extent it has become probable that the company can utilise the deferred tax asset. Similarly, the company will reduce a deferred tax asset to the extent that the company no longer regards it as probable that it can utilise the deferred tax asset.

Accordingly to the exception in IAS 12 deferred tax is not recognised when buying a company that is not a business. A provision for deferred tax is made after subsequent increases and decreases in the value beyond initial cost.

Deferred tax and deferred tax assets are measured on the basis of the expected future tax rates applicable to the companies in the Group where temporary differences have arisen.

Deferred tax and deferred tax assets are recognised at their nominal value and classified as non-current asset (non-current liabilities) in the statement of financial position.

Taxes payable and deferred taxes are recognised directly in equity to the extent that they relate to equity transactions.

UNION Real Estate Fund Holding AS

Notes 2022

1.9 Leases

The Group has applied IFRS 16 using the modified retrospective approach. The application of the new standard has not affected the preparation of the accounts.

Identifying a lease

At the inception of a contract, The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Separating components in the lease contract

For a contract that contains a lease component and one or more additional lease or non-lease components, The Group allocates the consideration in the contract applying the principles in IFRS 15 Revenue from Contracts with Customers.

Recognition of leases and income

For contracts where the Group acts as a lessor, it classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset.

The group as a lessor does not have any finance leases.

Operating leases

For operating leases, the Group recognises lease payments as other income, mainly on a straight-line basis, unless another systematic basis is more representative of the pattern in which benefit from the use of the underlying asset is diminished. The Group recognises costs incurred in earning the lease income in other operating expenses. The Group adds initial direct costs incurred in obtaining an operating lease to the carrying amount of the underlying asset and recognises those costs as an expense over the lease term on the same basis as the rental income.

1.10 Investment property

Investment property consists of properties (land, buildings or both) that are used to accrue rental income, to increase the value of capital or both. Investment properties are recognised at their fair value. The fair value equals the estimated market value without any deductions for expenses incurred in the case of any sale. Changes to the fair value are recognised in the statement of comprehensive income during the period when it arises.

The fair value is assessed annually, based on a valuation by an independent valuation expert that is qualified and has extensive experience of the area and the type of property that is valued. The valuation is prepared by discounting the total net annual rental income by a required rate of return that reflects the risk in net cash flows.

Transfers to or from the category of investment property are only carried out as a result of a change in the use of the property. A change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. The difference that arises between the carrying amount and the fair value on the reclassification date is recognised directly in equity in the case of a gain. If the property is later sold, the gain is transferred to retained earnings. Losses which arise due to such a reclassification are recognised in the statement of profit or loss immediately.

1.11 Non-current assets held for sale and discontinued operations

Non-current assets and groups of non-current assets and liabilities are classified as held for sale if their carrying amount will be recovered through a sales transaction instead of through continued use. This is only regarded as having been fulfilled when a sale is highly probable and the non-current asset (or groups of non-current assets and liabilities) is available for immediate sale in its present form. The management must be committed to a sale and the sale must be expected to be carried out within one year after the classification date.

Non-current assets and groups of non-current assets and liabilities that are classified as held for sale are valued at the lower of their former carrying amount or fair value minus sales costs.

UNION Real Estate Fund Holding AS

Notes 2022

1.12 Financial assets and financial liabilities

Recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and liabilities (other than financial assets and liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit and loss.

Financial assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless, an accounting mismatch is being avoided.

The Group classifies its financial assets in the following categories: at fair value through profit and loss (FVTPL), fair value through other comprehensive income (FVOCI) and at amortised cost.

(a) Debt instruments at amortised cost and effective interest method

Financial assets that is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and that the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured subsequently at amortised cost.

Assets in this category with fixed or determinable payments that are not quoted in an active market, are included in current assets except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets.

Assets in this category are subsequently measured at amortised cost using the effective interest (EIR) method and are subject to impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the effect of discounting is immaterial. See note 9 for "accounts receivables" and "other receivables".

(b) Fair value through other comprehensive income (FVTOCI)

Financial assets at fair value through other comprehensive income include equity investments which the Group intends to hold for the foreseeable future and has irrevocably elected to classify them as such upon initial recognition.

(c) Fair value through profit or loss (FVTPL)

Financial assets not measured at amortised cost or at fair value through other comprehensive income are classified as financial assets at fair value through profit or loss. Typically, such financial assets will be either:

- a debt instrument or equity instrument held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit, or
- a derivative, or
- designated as such upon initial recognition where permitted.

Financial assets at FVTPL are initially recognised and subsequently measured at fair value on a recurring basis with gains or losses arising from changes in fair value recognised through gains in investments in the income statement. Dividends or interest earned on the financial asset are excluded from the gains on investments and recognised separately within finance income.

UNION Real Estate Fund Holding AS

Notes 2022

Assets in this category are classified as current if they are either held for trading or are expected to be realised within 12 months of the balance sheet date. Otherwise, they are classified as non-current.

All investments in subsidiaries and joint ventures in the separate financial statements for the parent company, are measured at fair value through profit or loss. See notes 2, 3 and 9 for “investments in subsidiaries” and notes 9 and 16 for “joint arrangements”.

The Group classifies its financial liabilities in the following categories: at fair value through profit or loss (FVTPL), and other financial liabilities.

(a) Financial liabilities at fair value through profit or loss (FVTPL)

Financial liabilities at FVTPL include derivative liabilities and other financial liabilities designated as FVTPL.

A financial instrument is classified as at FVTPL if it is a derivative that is not designated and effective as a hedging instrument, or the designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise.

Financial liabilities are also classified as at FVTPL when the financial liability is held for trading.

Financial liabilities at FVTPL are initially recognised and subsequently measured at fair value on a recurring basis with gains or losses arising from changes in fair value recognised through gains in investments in the income statement. Interest paid on the financial instruments is excluded from the gains on investments and recognised separately within Finance costs

(b) Financial liabilities measured subsequently at amortised cost

Other financial liabilities (including borrowings and trade and other payables) are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, borrowings are stated at amortised cost with any difference between the amount initially recognised and the redemption value being recognised in the income statement over the period of the borrowings, using the effective interest method (“interest-bearing loans and borrowings”; notes 9, 11 and 13).

Trade payables are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities (“accounts payable” and “other current liabilities”; notes 9 and 11).

Derecognition of financial assets and liabilities

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when substantially all the risks and rewards of ownership of the asset are transferred to another party. On derecognition of a financial asset measured at amortised cost, the difference between the asset’s carrying value amount and the sum of the consideration received and receivable, is recognised in profit or loss. For financial assets classified at FVTOCI the cumulative gain or loss previously recognised in other comprehensive income and accumulated in equity, is reclassified in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group’s obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit and loss.

Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when the Group has a legal right to offset the amounts and intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

UNION Real Estate Fund Holding AS

Notes 2022

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses (ECL) on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the company's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

For trade receivables, contract assets and lease receivables, the Group always recognise lifetime ELC. The ECL on trade receivables are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For other financial instruments where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month ECL allowance is estimated. This represents a portion of the asset's lifetime ECL that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime ECL. The amount of ECL recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets measured at fair value through other comprehensive income, the loss allowance is recognised within other comprehensive income. In all other cases, the loss allowance is recognised in profit or loss.

Derivative financial instruments

The Group uses derivative financial instruments to manage exposure to interest rate risk. They are initially recognised on the trade date at fair value and subsequently re-measured at fair value.

In assessing fair value the Group uses its judgement to select suitable valuation techniques and make assumptions which are mainly based on market conditions existing at the balance sheet date.

A derivative with a positive fair value is recognised as a financial asset whilst a derivative with a negative fair value is recognised as a financial liability. A derivative is presented as a non current asset or non current liability if the remaining maturity of the instrument is more than 12 months, otherwise a derivative will be presented as a current asset or current liability. Changes in fair values of derivatives are recognised immediately in the statement of profit and loss, classified as financial items.

Amounts paid under interest rate swaps, both on obligations as they fall due and on early settlement, are recognised in the income statement as finance costs. Fair value movements on revaluation of derivative financial instruments are shown in the income statement through changes in fair value of financial instruments.

The Group does not currently apply hedge accounting to its interest rate swaps.

See notes 3, 9 and 13 for "derivatives".

1.13 Cash and cash equivalents

Cash includes cash in hand and at bank. Cash equivalents are short-term liquid investments that can be converted immediately into a known amount of cash and have a maximum term to maturity of three months.

1.14 Equity

Equity and liabilities

Financial instruments are classified as liabilities or equity in accordance with the underlying economical realities.

UNION Real Estate Fund Holding AS

Notes 2022

Interest, dividend, gains and losses relating to a financial instrument classified as a liability will be presented as an expense or income. Amounts distributed to holders of financial instruments that are classified as equity will be recorded directly in equity.

Transaction costs directly related to an equity transaction are recognised directly in equity after deducting tax expenses.

1.15 Provisions

A provision is recognised when the Group has an obligation (legal or self-imposed) because a result of a previous event, it is probable (more likely than not) that a financial settlement will take place because a result of this obligation and the size of the amount can be measured reliably. If the effect is considerable, the provision is calculated by discounting estimated future cash flows using a discount rate before tax that reflects the market is pricing of the time value of money and, if relevant, risks specifically linked to the obligation.

1.16 Events after the reporting period

New information on the company's financial position on the end of the reporting period which becomes known after the reporting period is recorded in the annual accounts. Events after the reporting period that do not affect the company's financial position on the end of the reporting period but which will affect the company's financial position in the future are disclosed if significant.

1.17 Application of new and amended standards

No significant changes have been made to accounting principles compared with the principles used in the preparation of the financial statements for 2021. UNION Real Estate Fund Holding AS has not implemented any new standards in the financial statement for 2022. There are no material new standards and interpretations not yet implemented.

Amendments to standards and interpretations with a future effective date

Amendments to IAS 1 - Classification of Liabilities as Current or Non-Current

The International Accounting Standards Board has issued amendments to IAS 1 Presentation of Financial Statements to clarify how to classify debt and other liabilities as current or non-current.

The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments include clarifying the classification requirements for debt a company might settle by converting it into equity.

The amendments clarify:

- The meaning of right to defer settlement
- That the right to defer must exist at the end of the reporting period
- That classification is not affected by the probability that an entity will exercise its deferral right
- That the terms of a liability would not impact its classification, only if an embedded derivative is an equity instrument itself.

The amendments must be applied retrospectively and are effective for annual periods beginning on or after 1 January 2023. The Group does not intend to early adopt the amendments.

It is not expected that the amendments will have any major effect to the financial statement of the Company.

Amendments to IAS 8 - Definition of Accounting Estimates

IASB has issued amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors. The amendments clarify how companies should distinguish changes in accounting policies from changes in accounting estimates. That distinction is important because changes in accounting estimates are applied prospectively only to future transactions and other future events, but changes in accounting policies are generally also applied retrospectively to past transactions and other past events.

UNION Real Estate Fund Holding AS

Notes 2022

The amendments are effective for annual periods beginning on or after 1 January 2023, but earlier application is permitted. The Group does not intend to early adopt the amendments.

It is not expected that the amendments will have any major effect to the financial statement of the Company.

Amendments to IAS 1 and IFRS Practice Statement 2 - Disclosure of Accounting policies

Following feedback that more guidance was needed to help companies decide what accounting policy information should be disclosed, IASB has issued amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgements. The amendments to IAS 1 require companies to disclose their material accounting policy information rather than their significant accounting policies. The amendments to IFRS Practice Statement 2 provide guidance on how to apply the concept of materiality to accounting policy disclosures.

The amendments are effective for annual periods beginning on or after 1 January 2023, but earlier application is permitted as long as this fact is disclosed. The Group does not intend to early adopt the amendments.

Some of the accounting policies presented in the annual accounts for 2022 may in this not be required for the 2023 annual accounts.

1.18 Alternative Investment Funds

UNION Real Estate Fund Holding AS is registered as a Alternative Investment Fund at the The Financial Supervisory Authority of Norway (*Finanstilsynet*), and must consequently meet certain disclosure requirements in the Act on Alternative Investment Fund Managers (AIF-Act) (*Lov om forvaltning av alternative investeringsfond (AIF-loven)*).

Article 104 in Commission delegated regulation (EU) No 231/2013 of 19 December 2012 supplementing Directive 2011/61/EU sets out certain requirements as to information in the Annual report, disclosure to investors and reporting to competent authorities.

See note 18 for more information in this context.

UNION Real Estate Fund Holding AS

Notes 2022

All amounts in NOK 1 000 unless otherwise stated

2 List of subsidiaries

The following subsidiaries are included in the consolidated financial statements:

Company	Business Office	Shareholding / voting rights	Acquisition date	Ownership interest	Ownership
Reevengen 13 Holding AS	Oslo	100,0 %	24.06.2014	100,0 %	Directly

Sold and liquidated companies in 2022 (consolidated in the ownership period):

Company	Business Office	Sale date	Shareholding / voting rights	Acquisition date	Ownership interest	Ownership
Kjelsåsveien 161 AS	Oslo	20.01.2022	100,0 %	30.01.2015	100,0 %	Directly

There are no particular significant restrictions on the ability of subsidiaries to transfer funds to the parent in the form of cash dividends or to repay loans or advances.

3 Critical accounting estimates and subjective judgements

In accordance with IFRS 13, disclosure is required for financial instruments that are measured in the consolidated statement of financial position at fair value.

This requires disclosure of fair value measurements by level for the following fair value measurement hierarchy:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs)

The following provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

There were no transfers between levels in the period.

Fair value of investments in subsidiaries and joint ventures

The sole purpose of the subsidiaries of the Group is to own the investment properties described above. Any other assets or liabilities that the subsidiaries and joint ventures may have will for the most part consist of cash and cash equivalents and short-term payables and receivables, and the fair value of these items is expected to approximate the nominal and carrying amounts.

As the main assets of the subsidiaries and joint ventures, i.e. the investment properties, are classified as level 3 financial instruments, the subsidiaries and joint ventures are also classified as level 3 instruments

The valuation technique for measuring the fair value of the subsidiaries and the joint ventures is an adjusted net asset value method, where the fair value of the main assets are measured by an income approach, and the fair value of the subsidiaries and joint ventures is then estimated by adjusting for any other assets and liabilities.

Consequently the inputs and the relationship of unobservable inputs to fair value for the subsidiaries and joint ventures will correspond with those for the investment properties.

UNION Real Estate Fund Holding AS

Notes 2022

Balance as of 31 December 2021	261 023	-	-	577 622

4 Operating leases

The Group mainly enters into contracts with a fixed rent for the lease of property.

Operating leases

The Group leases out its owned investment properties to third parties with contracted non-cancellable lease terms between 3 and 15 years. The Group has classified all of these leases as operating because they do not transfers substantially all the risks and rewards incidental to ownership of the properties the counterparties. For the Group's investment property leases the rental income is largely fixed under the contracts, however, subject to an annual price adjustment based on inflation.

The Group also leases out part of its owned machinery and equipment to third parties with contracted non-cancellable lease terms between 1 and 3 years. The Group has classified these leases as operating because they do not transfers substantially all the risks and rewards incidental to ownership of the counterparties. The lease payment in these contracts are fixed over the lease term.

The Group's lease income from operating leases are presented in the table below:

12 Related parties

12.1 Identification of related parties

Amongst the identified related parties there have been transactions with the Group's subsidiaries, the Group's management, UNION Eiendomskapital UREF AS and UNION Real Estate Fund AS (owns 79,54% of UREF Holding AS). Subsidiaries are listed in Note 2. Apart from the transactions described below, there are no significant transactions with related parties. Information about the parent company is provided in note 14.

12.2 Group related transactions

Interests on internal long-term loans are calculated on the basis of the groups external borrowing cost plus an margin of 0,25%. Transactions with group companies have been eliminated in the Consolidated Group.

The parent company recharge the group companies management fee based on an distribution model. The distribution model is based on work carried out for group companies.

12.3 Board, management and owners

UNION Eiendomskapital UREF AS have entered into a management agreement with UNION Real Estate Fund Holding AS. The management fee for the investment period amounts to 1,65% of total commitments per annum. After expiration of the investment period, management fee amounts to 1,65% of invested capital per annum.

Managers performance fee:

Distributions after payment of the Fund's fees, costs, expenses and liabilities;

- First, return to investors of drawn down commitments;
- Second, a preferred return of 8% p.a. to investors;
- Third, 20% to the manager as performance fee and 80% to investors until the investors have received a return of 11% p.a.;
- Fourth, 40% to the manager as performance fee and 60% to investors until the manager has received a Performance fee equal to 20% of cumulative profits distributed; and
- Fifth, 80% to investors and 20% to the manager as performance fee

If the management agreement is terminated, the manager is entitled to a performance fee for the period up to the termination date.

Other fees:

When UNION Eiendomskapital UREF AS negotiate lease contracts on behalf of group companies, the manager receives a fee of between 7,5% and 15% of the annual rent, depending on whether it applies to extension of existing contracts and finding new tenants.

13 Information on financial risks

UNION Real Estate Fund Holding AS will through recognised financial instruments be exposed to various forms of risk. The main types of risk will be liquidity risk, credit risk and market risk. It is the responsibility of the fund's manager to determine the strategies for managing risk associated with financial instruments and to operationalize and implement the chosen strategy. Selected strategies, fixed limits and actual exposure in relation to established limits are reported periodically to the Board of UNION Real Estate Fund Holding AS. UNION Real Estate Fund Holding AS has adopted an moderate risk profile, and this consideration is also governing the determination of the strategy for risk management in financial instruments.

13.1 Liquidity risk

UNION Real Estate Fund Holding AS are exposed to liquidity risk in the form of repayment of loans from credit institutions, current interest on such obligations, and the use of interest rate swaps result in payment obligations when paid interest exceeds interest received. The manager prepares liquidity forecasts, which include maturity overviews of debt. The cash flow projection are reported to the group board and form the basis for future financing plans.

The maturity plan below shows how commitments are payable in nominal amounts in accordance with the agreed instalment plans and expected payments under financial interest rate swaps based on current market rates. Commitments are here presented in nominal amounts.

13.2 Credit risk

For the financial assets in the balance sheet, financial derivatives and receivables, the maximum credit risk may be best expressed by the recognised value of the assets. No security have been established for financial assets. The risk connected with the financial derivatives and bank deposits are perceived in practice limited due to the counterparts being major Norwegian commercial banks. In terms of exposure to other counterparties than banks are at any given time is relatively limited compared to the total balance. For most rental agreements security in the form of cash or bank guarantees equivalent to half the annual rent including share of common costs have been established.

At 31 December 2022 the group have accounts receivable of nil. The group have made provision for bad debts on overdue receivables not covered by the rental guarantees.

13.3 Interest rate risk

The Group's exposure to interest rate risk mainly concerns financial liabilities which are floating rate

The Group uses interest rate swaps to hedge exposure to the variability in cash flows on floating rate debt, such as bank facilities, caused by movements in market rates of interest.

Due to a combination of factors, principally the high level of certainty required under IAS 39 'Financial Instruments: Recognition and Measurement', hedging instruments used in this context do not qualify for hedge accounting.

At 31 December 2022, the Group had no pay-fixed interest-rate swaps in place.

13.4 Foreign exchange risk

The Group is not exposed to currency risk in relation to the translation of net assets, currency transactions or the translation of net assets and income statement of foreign subsidiaries.

14 Share capital, shareholder information and dividend continues

14.4 Capital Resources

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to be able to implement future investments. The fund will target a gross leveraged internal rate of return of 15% to 17% with a targeted average dividend of at least 5% on invested capital per annum over the life of the fund, utilising target leverage of up to 60% of portfolio value.

The table below illustrates the gearing ratio for the consolidated group at December 31. Non-controlling interests are included in the total equity.

	2022	2021
Borrowings	17 584	431 135
Less cash and cash equivalents	(12 796)	(11 495)
Net debt	4 788	419 660
Total equity	21 907	203 449
Total capital resources	26 695	623 109
Gearing ratio	17,9%	67,3%

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2022 and 2021.

14.5 Financial Covenants

Under the terms of the major borrowing facilities, the Group is required to comply with certain financial covenants.

The parent company does not have any interest-bearing debt; instead many of the subsidiaries have separate loan facilities where they are the borrower, and where they have used it's property as a collateral.

The covenants under these facilities vary. The Group has complied with all covenants throughout the reporting period.

15 Subsidiaries with material non-controlling interests

Set out below is summarised financial information for each subsidiary that has non-controlling interests that are material to the Group.

The information below represents the consolidated figures of the subsidiaries at 100 per cent, and the amounts are before intercompany eliminations.

		2022	2021
The Company's ownership			
	Tønsberg Helsehus AS	N/A	N/A
Summarised income statement			
Revenue	Tønsberg Helsehus AS	-	716
Profit/(Loss) for the year	Tønsberg Helsehus AS	-	(123)

There has been paid a total dividend of TNOK 3 639 to non-controlling interests in 2021.

16 Joint ventures

The only joint venture was a 50% interest in Morenen Handelspark AS, a company located in Oslo which owns a retail park in Eidsberg Municipality. Morenen Handelspark AS is jointly controlled with one other party as a result of a contractual agreement involving sharing of control over the relevant activities of Morenen Handelspark AS. The 50% share were sold on 1 December 2021.

Since the contractual arrangement specifies that the parties with joint control have rights to the net assets of the arrangement, the Group is assessed to be party to a joint venture.

Morenen Handelspark AS owns, directly and indirectly, 100% of Morenen Senter AS, Morstongveien 47 AS, Morenen Eiendom AS and Morenen Eiendom II AS.

The joint venture is accounted for using the equity method in the consolidated group and at fair value through profit or loss in the separate financial statements for the parent company.

The table below provides summarised financial information for the joint venture. The information disclosed is based on a consolidation in accordance with IFRS for the joint venture. The information have been amended to reflect adjustments made by the Group when using the equity method, including fair value adjustments and modifications for differences in accounting policy.

These are consolidated figures at 100% and is not adjusted for holding period.

Compensation to the Manager

UNION Real Estate Fund Holding AS is managed by UNION Eiendomskapital UREF AS. As UNION Eiendomskapital UREF AS also manages other funds, the managers' compensation also derives from the results from managing these funds. For 2022 the employees in the management company received a total of TNOK 55,171 as compensation (including fixed and variable compensation). The leading management of the management company received a total of TNOK 10,580 as compensation (including fixed and variable compensation). Final variable compensation for leading employees will be decided by the board of directors after the annual accounts are approved. Total compensation is charged the 2022-accounts.

Annual report, disclosure to investors and reporting to competent authorities

The following table provides information about the direct and indirect costs, where the columns "direct costs" illustrate the costs expensed in UNION Real Estate Fund Holding AS and the columns "indirect costs" illustrate UNION Real Estate Fund Holding AS' share of the costs, according to ownership share, in the consolidated accounts (where UNION Real Estate Fund Holding AS is the parent), adjusted for joint ventures. Performance fee is in full presented as a direct cost for UNION Real Estate Fund Holding AS.

	Direct costs		Indirect costs	
	2022	2021	2022	2021
Auditor's fee	341	282	46	233
Management fee	19	1 130	77	4 655
Provision for performance fee to manager	(6 614)	30 873	-	-
Other fees	1 137	770	(4)	2 728
Other general and administrative expenses	2 852	82	925	703
Total general and administrative expenses	(2 265)	33 136	1 045	8 318

Uavhengig revisors beretning

Konklusjon

Vi har revidert årsregnskapet for UNION Drift UREF AS som viser et overskudd på NOK 0. Årsregnskapet består av balanse per 31. desember 2022, resultatregnskap for regnskapsåret avsluttet per denne datoen og noter til årsregnskapet, herunder et sammendrag av viktige regnskapsprinsipper.

Etter vår mening

- oppfyller årsregnskapet gjeldende lovkrav, og
- gir årsregnskapet et rettviseende bilde av selskapets finansielle stilling per 31. desember 2022, og av dets resultater for regnskapsåret avsluttet per denne datoen i samsvar med regnskapslovens regler og god regnskapsskikk i Norge.

Grunnlag for konklusjonen

Vi har gjennomført revisjonen i samsvar med International Standards on Auditing (ISA-ene). Våre oppgaver og plikter i henhold til disse standardene er beskrevet nedenfor under *Revisors oppgaver og plikter ved revisjonen av årsregnskapet*. Vi er uavhengige av selskapet i samsvar med kravene i relevante lover og forskrifter i Norge og International Code of Ethics for Professional Accountants (inkludert internasjonale uavhengighetsstandarder) utstedt av International Ethics Standards Board for Accountants (IESBA-reglene), og vi har overholdt våre øvrige etiske forpliktelser i samsvar med disse kravene. Innhentet revisjonsbevis er etter vår vurdering tilstrekkelig og hensiktsmessig som grunnlag for vår konklusjon.

Styrets og daglig leders ansvar for årsregnskapet

Styret og daglig leder (ledelsen) er ansvarlige for å utarbeide årsregnskapet og for at det gir et rettviseende bilde i samsvar med regnskapslovens regler og god regnskapsskikk i Norge. Ledelsen er også ansvarlig for slik internkontroll som den finner nødvendig for å kunne utarbeide et årsregnskap som ikke inneholder vesentlig feilinformasjon, verken som følge av misligheter eller utilsiktede feil.

Ved utarbeidelsen av årsregnskapet må ledelsen ta standpunkt til selskapets evne til fortsatt drift og opplyse om forhold av betydning for fortsatt drift. Forutsetningen om fortsatt drift skal legges til grunn for årsregnskapet så lenge det ikke er sannsynlig at virksomheten vil bli avvirket.

Revisors oppgaver og plikter ved revisjonen av årsregnskapet

Vårt mål er å oppnå betryggende sikkerhet for at årsregnskapet som helhet ikke inneholder vesentlig feilinformasjon, verken som følge av misligheter eller utilsiktede feil, og å avgi en revisjonsberetning som inneholder vår konklusjon. Betryggende sikkerhet er en høy grad av sikkerhet, men ingen garanti for at en revisjon utført i samsvar med ISA-ene, alltid vil avdekke vesentlig feilinformasjon. Feilinformasjon kan oppstå som følge av misligheter eller utilsiktede feil. Feilinformasjon er å anse som vesentlig dersom den enkeltvis eller samlet med rimelighet kan forventes å påvirke de økonomiske beslutningene som brukerne foretar på grunnlag av årsregnskapet.
