

ÅRSREGNSKAPET FOR REGNSKAPSÅRET 2021 - GENERELL INFORMASJON

Enheten

Organisasjonsnummer:	987 361 719
Organisasjonsform:	Aksjeselskap
Foretaksnavn:	NOVELDA AS
Forretningsadresse:	Garverivegen 2 3850 KVITeseid

Regnskapsår

Årsregnskapets periode:	01.01.2021 - 31.12.2021
-------------------------	-------------------------

Konsern

Mørselskap i konsern:	Ja
Konsernregnskap lagt ved:	Ja

Regnskapsregler

Regler for små foretak benyttet:	Nei
Benyttet ved utarbeidelsen av årsregnskapet til selskapet:	Regnskapslovens alminnelige regler
Benyttet ved utarbeidelsen av årsregnskapet til konsernet:	Regnskapslovens alminnelige regler

Årsregnskapet fastsatt av kompetent organ

Bekreftet av representant for selskapet:	Henrik Rosenlund
Dato for fastsettelse av årsregnskapet:	30.06.2022

Grunnlag for avgivelse

År 2021: Årsregnskapet er elektronisk innlevert
År 2020: Tall er hentet fra elektronisk innlevert årsregnskap fra 2021

Det er ikke krav til at årsregnskapet m.v. som sendes til Regnskapsregisteret er undertegnet. Kontrollen på at dette er utført ligger hos revisor/enhetens øverste organ. Sikkerheten ivaretas ved at innsender har rolle/rettighet for innsending av årsregnskapet via Altinn, og ved at det bekreftes at årsregnskapet er fastsatt av kompetent organ.

Brønnøysundregistrene, 30.08.2023

BOARD OF DIRECTORS' REPORT 2021

Operation and locations

Novelda develops and sells highly advanced Ultra-Wideband (UWB) radar sensors for use in consumer electronics, smart buildings and health applications.

The Novelda group includes, in addition to Novelda AS (Novelda), Novelda Inc Ltd and Novelda Japan K.K., together the Group. The Company also has a representative office in Hong Kong. Production of the Company's products is outsourced to external partners, mainly in Taiwan and Malaysia. The main office is in Oslo, Norway, and in addition Novelda also has office locations in Kviteseid and Trondheim.

Comments related to the financial statements

The Company experienced growth in sales revenue equalling 51 % (Group 51 %) to NOK 27.5m (Group NOK 27.5m) in 2021 compared to NOK 18.2m (Group NOK 18.2m) in 2020. Operating expenses increased 57 % (Group 57 %) to NOK 175.0m (Group NOK 174.6m). The operating result ended at NOK -136.8m (Group -136.3m), which is a decrease of 46 % (Group 46 %) compared to the previous year. The Company has an equity ratio of 91 % (Group 92 %) and strong liquidity following a capital raise undertaken in December 2021. The operating cash outflow in 2021 for the Company was NOK 121.6m (Group 122.2m). The 2021 results are in line with expectations as per the 2020 board of directors' report. The difference between loss before tax and net cash flow from operating activities is related to depreciation and amortisation and changes in inventory, receivables, payables and in other balance sheet items.

The board believes that the annual financial statements give a true and fair view of the Company's and the Group's financial position and result for the year.

Future challenges

Novelda targets markets known to be highly competitive and there is a risk that new competing technologies could become available. The Group is continuously working on expanding its product roadmap to ensure lasting competitiveness.

The global availability of electronic components is currently demanding and delays in the production and sale of end products may also affect Novelda's revenue going forward.

Financial risk

Novelda's near-term revenue growth forecast is largely dependent on traction and success with a limited number of large, international technology companies, which offers significant volume potential, but with whom sales- and design-in processes are demanding, leading to significant revenue risk. Novelda's products are also to a high degree still unproven in several of the company's targeted markets and applications, and success in attracting new customers in these markets will be crucial.

Credit risk related to Novelda's customer base is regarded to be low as payments from smaller and less creditworthy customers are received upfront.

Given further expected growth in revenue from the targeted markets, it's natural to expect increased currency risk linked to a high level of revenue being paid in USD. However, Novelda also has a significant part of its costs in USD and is closely monitoring the currency risk.

Following an equity raise in December 2021, raising NOK 400 million from existing and new investors, the Board of Directors regards Novelda to be sufficiently funded for now. Additional capital may be needed from investors in the future.

Research and development activities

As a leader in the fast-growing UWB market, Novelda is continuously working on its product roadmap through several R&D initiatives and projects. In 2021 Novelda continued to ramp the Human Presence Sensor into several Lenovo laptop models. In addition, significant R&D investments were made into the development of the new and highly differentiated radar platform (X7), as well as developing a new generation 12x12 mm module (X4F103) based on the X4 radar platform. This development will continue in 2022 and the X4F103 module is already attracting strong customer interests and will be released to the market in the end of 2022. The X7 product release is estimated to 2023.

Going concern

In accordance with the Accounting Act § 3-3a, we confirm that the financial statements have been prepared under the assumption of going concern. This assumption is based on profit forecasts for the year 2022 and the Group's long-term strategic forecasts. The Group's financial position is sound.

Strategy and outlook

Novelda targets to become the world leader within UWB sensing applications. To achieve this Novelda will offer ultra-low power and high-performance integrated radar solutions to the global market.

The market outlook is very promising with global UWB volumes growing rapidly, and Novelda sees a strong and growing demand for its products and services following the accelerating interest in UWB and sensing applications.

The working environment and the employees

As per end of the year, Novelda has 72 (Group 75) full-time employees. The sick leave in the Company was a total of 92 days in 2021, which amounted to 0.5% of total working hours. The board of Directors considers the sick leave level satisfactory.

There has not been reported any occupational accidents resulting in property damage or personal injury during 2021. The working environment is considered good but is continuously monitored and improved.

Diversity and equality

The Board of Directors and the management have a strong focus on ensuring diversity, equality and non-discrimination within the Group. The Company employs more than 21 nationalities represented at the Company's offices in Norway. The Board believes that bringing together a group of employees with varied cultural, educational and professional background, will help the Group in succeeding as a global player.

Out of the Novelda's 72 full-time employees 13 are women (18%) which represents an increase of 10 percentage points from the previous year. The proportion of women in management positions is 20% (unchanged). The continued skewed gender balance must be seen in context to the industry standard with woman representing only around 14% of the total. At Novelda, women represented 35% of all new employees in 2021. The Board of Directors together with the management team will continue their work to attract highly qualified female employees.

Novelda works actively, purposefully, and systematically for gender equality within the business. When recruiting, both internally and externally, personal qualifications take precedence over gender. The underrepresented gender will to a greater extent be encouraged to apply. In this way, Novelda will try to increase the proportion of women in the job categories where this is particularly low.

Equal pay and part-time employment

The average salary for women and men in full-time positions is NOK 770 200 and NOK 894 260 respectively. The salary gap is explained by the fact that a higher degree of female employees are recent hires in more junior roles. Novelda expects the salary difference to be reduced over time. Novelda's policy is that work of equal value shall provide equal pay. Salary levels are determined based on objective measures such as seniority, education and performance, in addition to local market practice and cost of living.

Novelda has five employees working part-time. The part-time work is freely chosen, and the part-time work is either due to studies or other additional employments. 4 of the part-time workers are men and one is a woman.

Equal opportunities and discrimination

Novelda works actively to promote equality, ensure equal opportunities and rights and prevent discrimination on the grounds of ethnicity, national origin, descent, skin colour, language, religion and outlook on life. To contribute to this, the Company has, among other things, established routines for recruitment.

In 2021 there were 4 employees in parental leave, and they were all men. The average length of the parental leave in 2021 was eleven weeks. At Novelda all employees (men and women) get their full salary during parental leave. Novelda is also compensating the male employees for the first 14 days leave directly after their child's birth, with full salary (fødselspermisjon).

Corporate governance

Novelda has a board liability Insurance on behalf of the members of the Board of Directors and the CEO. The insurance policy is issued by a reputable, specialized insurer with appropriate rating.

External environment

Novelda's operations has limited impact on the environment. The Group operates in compliance with all applicable environmental legislation, without any requirement for waivers or exemptions. Manufacturing is outsourced to leading third-party providers who are required to operate in compliance with the ISO 14001 environmental standards, in addition to other certifications, requirements, and qualifications.

Outlook

Current geopolitical tension and the ongoing war between Russia and Ukraine, combined with inflation fears and rising interest rates, leads to uncertainty also among Novelda's targeted customer base and end-users within all of Novelda's targeted applications. The effects of this are uncertain and it is currently not clear if and how Novelda might be affected in 2022.

The Board of Directors of Novelda AS,

Svein-Egil Nilsen (Jun 23, 2022 22:03 GMT+2)

Novelda AS

Notes to financial statements

Note 1 - Accounting Principles

The financial statements are prepared according to the Norwegian Accounting Act and generally accepted accounting principles in Norway.

The annual financial statements have been prepared under the going concern assumption.

Basis for consolidation

The consolidated financial statements comprise of the parent company Novelda AS (the company) and the wholly-owned subsidiaries Novelda US Inc and Novelda Japan K.K. (collectively the group). The consolidated financial statements are prepared such that the group of companies are presented as a single economic entity. Intercompany transactions have been eliminated from the consolidated financial statements. The consolidated financial statements are prepared according to the same accounting principles for both parent and subsidiary.

The consolidated financial statements are presented in NOK. Foreign subsidiaries with functional currency other than NOK have been translated to the presentation currency applying year-end rates for assets and liabilities and average exchange rates for income and expenses items during the year. Translation differences have been recognised in equity.

Investments in subsidiaries

Investments in subsidiaries are valued at cost in the company financial statements. The investment is valued as cost of acquiring shares in the subsidiary. If fair value of the investment is assessed to be lower than the investment's carrying amount, a write-down is recognised. Write-down to fair value will be carried out if the reduction in value is caused by circumstances which may not be regarded as incidental, and deemed necessary by generally accepted accounting principles. Write-downs are reversed when the cause of the initial write down no longer is present.

Sales revenue

Sales revenue consists of sales of UWB chip and modules to customers. Sales revenues are recognised at the time of delivery. The majority of sales are shipped on incoterms EX-Works (EXW).

Payments related to future deliveries are recorded in the balance sheet as deferred revenue and are recognised at the time when payment is received.

Balance sheet classification

Balance sheet items which are expected to be realised or settled within one year are classified as current. Other assets and liabilities are classified as non-current.

Trade and other receivables

Trade receivables and other current receivables are recorded in the balance sheet at nominal value less provisions for doubtful debts. Provisions for doubtful debts are calculated on the basis of individual assessments.

Inventories

Inventories are valued at the lower of cost and fair value. Cost is estimated using the FIFO method. Finished goods and work in progress are valued at full production cost. Write-downs are recognised for inventory items where fair value is assessed to be lower than the carrying value.

Novelda AS

Property, plant and equipment

Property, plant and equipment is recognised at the cost of acquisition and is capitalised and depreciated over the estimated useful economic life of the asset. Direct maintenance costs are expensed as incurred, whereas improvements and upgrading are assigned to the acquisition cost and depreciated along with the asset. If carrying value of a non-current asset exceeds the estimated recoverable amount, the asset is written down to the recoverable amount. The recoverable amount is the greater of the net selling price and value in use. In assessing value in use, estimated future cash flows are discounted to present value.

Intangible assets

Intangible assets relate to technology and intellectual property rights from third parties which are used in the production of Novelda's products. The rights have no expiration date, but are limited to a "single-product-use".

Intangible assets are recognised at the cost of acquisition and are capitalised and depreciated over the estimated useful economic life of the asset.

Research and development costs

Novelda has costs related to research and development of current products and also in relation to development of new radar chips and new modules. Research and development costs are expensed as they incur according to accounting policy choice in the Norwegian Accounting Act § 5-6.

Novelda receives government grants related to research and development (Skattefunn). Skattefunn is recognised as a reduction of associated costs and subject to final approval by the tax authorities. Novelda also has been granted funds from Innovasjon Norge amounting to total NOK 13 million. NOK 10,4 million has been recognised in 2021. These funds are related to research and development activities.

Pension costs

The group has a contribution pension plan for its employees. The company makes contributions for each employee's retirement account and pension will depend on the actual return on paid-in funds and the size of the deposits. The cost is included in payroll expenses.

Income tax

Tax expenses in the profit and loss account comprise both tax payable for the accounting period and changes in deferred tax. Deferred tax is calculated at 22 percent on the basis of existing temporary differences between accounting profit and taxable profit together with tax deductible deficits at the year end. Temporary differences both positive and negative, are balanced out within the same period. Deferred tax assets are recorded in the balance sheet to the extent it is more likely than not that the tax assets will be utilized.

Statement of cash flows

The statement of cash flows is presented using the indirect method. Cash and cash equivalents includes cash and bank deposits. Bank accounts holding rent deposits are classified as non-current other receivables.

Use of estimates

The preparation of the financial statements requires management to apply judgement about the future to determine the carrying amounts of some of the assets and liabilities and recognised items in the statement of profit or loss. Actual amounts in the future can differ from these estimates.

For the year ended 31 December 2021, the most significant areas where management has applied judgement relates to cost of share options for the year, write-down of inventory assessment and estimates of useful life of tangible and intangible assets.

Items in foreign currencies

Novelda AS' functional currency is NOK. Items in foreign currencies are recognised at the exchange rate at the balance sheet date. Transactions in the income statement are recorded at the relevant exchange rate at the time of the transaction.

11,226,722	11,424,213	Total	11,746,012	11,424,213

Note 13 - Research and development

The company has in this fiscal year received contribution for the following projects:

Skattefunn	NOK 4 750 000
Innovasjon Norge	NOK 10 400 000

Total cost for research and development in 2021 is NOK 28 258 409 (NOK 26 580 402 for 2020).

Note 14 - Share options to employees

As of 31.12.2021, Novelda AS has outstanding a total of 209 240 share options granted to employees (204 180 share options) and board members (7 610 share options). During 2021, 9 950 share options were issued. The share options are vested over 5-10 years and expire shortly after the end of the vesting period. Vesting and exercising of the share options are dependant on employment at the company.

The share options have the following strike price and maturity:

Strike price	2021	2022	2023	2024	2025+	Total
174,64	500					500
176,63		600				600
200,00			3,625	18,500	500	22,625
318,07					11,660	11,660
440,00		8,000	24,965	500	2,500	35,965
600,00			4,548	37,130	84,950	126,628
800,00			1,012		10,250	11,262
Total	500	8,600	34,150	56,130	109,860	209,240

An estimated share options cost of NOK 2 510 650 related to share options issued during 2021 and 2020 has been expensed in 2021, of which payroll tax of NOK 298 914 has been recognised as an accrued expense in the balance sheet.

The share options cost has been estimated using the Black-Scholes model. In the absence of observable market prices, the share options cost has been calculated using the subscription price from the last share issue prior to share options issuance as estimated share price. Volatility of the underlying shares have been estimated based on historical annualised volatility for peers. The risk-free interest rate has been estimated based on Norwegian government bonds with similar maturity as the share options. Employment leaving rate has been assessed based on actual leaving rate in 2021.

Share options issued prior to 2020 has not been expensed in conformity with Norwegian Accounting Act.

Novelda AS

Note 19 - Subsequent events

The capital increase of NOK 400m raised in December 2021 was registered in The Brønnøysund Register of Business Enterprises 2 March 2022. From this date the company's share capital is NOK 1,861,245.

Current geopolitical tension and the ongoing war between Russia and Ukraine, combined with inflation fears and rising interest rates, leads to uncertainty also among Novelda's targeted customer base and end-users within all of Novelda's targeted applications. The effects of these changes are uncertain and it is currently not clear if and how Novelda might be affected in 2022.

To the General Meeting of Novelda AS

Independent Auditor's Report

Opinion

We have audited the financial statements of Novelda AS, which comprise:

- The financial statements of the parent company Novelda AS (the Company), which comprise the balance sheet as at 31 December 2021, the income statement and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and
- The consolidated financial statements of Novelda AS and its subsidiaries (the Group), which comprise the balance sheet as at 31 December 2021, the income statement and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion:

- the financial statements comply with applicable statutory requirements,
- the financial statements give a true and fair view of the financial position of the Company as at 31 December 2021, and its financial performance and its cash flows for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and
- the financial statements give a true and fair view of the financial position of the Group as at 31 December 2021, and its financial performance and its cash flows for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company and the Group as required by laws and regulations and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Board of Directors and the Managing Director (management) are responsible for the information in the Board of Directors' report. The other information comprises information in the annual report, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the information in the Board of Directors' report.

In connection with our audit of the financial statements, our responsibility is to read the Board of Directors' report. The purpose is to consider if there is material inconsistency between the Board of Directors' report and the financial statements or our knowledge obtained in the audit, or whether the Board of Directors' report otherwise appears to be materially misstated. We are required to report if there is a material misstatement in the Board of Directors' report. We have nothing to report in this regard.

Offices in:

KPMG AS, a Norwegian limited liability company and member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity.

Based on our knowledge obtained in the audit, it is our opinion that the Board of Directors' report

- is consistent with the financial statements and
- contains the information required by applicable legal requirements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's and the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern. The financial statements use the going concern basis of accounting insofar as it is not likely that the enterprise will cease operations.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error. We design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's or the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- conclude on the appropriateness of management's use of the going concern basis of accounting, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company and the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a true and fair view.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial

Independent Auditor's Report - Novelda AS

statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
