## NorAm Drilling Company AS

### Notes to Financial Statement

#### Note 1 - Accounting Principles

The Financial Statements include Profit and Loss statement, Balance Sheet, Cash Flow Statement and Note Disclosures. The Financial Statements have been prepared in accordance with the Norwegian Accounting Act and generally accepted accounting principles in Norway.

The Financial Statements are based on the basic principles, and the classification of Assets and Liabilities is according to the definitions of the Norwegian Accounting Act. In application of the accounting principles and presentation of transactions and other information, emphasis has been put not only on legal form, but on economic reality. Conditional losses that are probable and quantifiable are expensed. There have been no changes in the accounting principles used.

##### 1-1 BASIS FOR CONSOLIDATION

The Group's consolidated financial statements comprise Noram Drilling Company AS and companies in which Noram Drilling Company AS has a controlling interest. A controlling interest is normally obtained when the Group owns more than 50% of the shares in the company and can exercise control over the company. Minority interests are included in the Group's equity. Transactions between Group companies have been eliminated in the consolidated financial statement. The consolidated financial statement has been prepared in accordance with the same accounting principles for both parent and subsidiary.

##### 1-2 USE OF ESTIMATES

Management has used estimates and assumptions that have affected assets, liabilities, incomes, expenses and information on potential liabilities in accordance with Norwegian generally accepted accounting principles.

##### 1-3 FOREIGN CURRENCY TRANSLATION

Transactions in foreign currency are translated at the rate applicable on the transaction date. Monetary items in a foreign currency are translated into USD using the exchange rate applicable on the balance sheet date. Non-monetary items that are measured at their historical price expressed in a foreign currency are translated into USD using the exchange rate applicable on the transaction date. Non-monetary items that are measured at their fair value expressed in a foreign currency are translated at the exchange rate applicable on the balance sheet date. Changes to exchange rates are recognized in the income statement as they occur during the accounting period.

##### 1-4 REVENUE RECOGNITION AND OPERATIONAL COSTS

Income from sale of goods and services are recognised at fair value of the consideration, net after deduction of VAT, returns, discounts and reductions. Sales are taken to income when the company has delivered its products to the customer and there are no unsatisfied commitments which may influence the customer's acceptance of the product. Delivery is not completed until the products have been sent to the agreed place, and risks relating to loss and obsolescence have been transferred to the customer.

NorAm Drilling Company Group revenue relates to rental of rig capacity and sale of drilling services from the US based subsidiary NorAm Drilling Company. Sales regarding rental of rig is invoiced and booked in line with actual contract and the period of delivering the services, while drilling services are invoiced and booked in the same period as the services has been provided.

Expenses are recognized with the income to which the expenses relate. Expenses that may not be related to income are recognized when accrued.

##### 1-5 INCOME TAX

The tax expense consists of the tax payable and changes to deferred tax. Deferred tax/tax assets are calculated on all differences between the book value and tax value of assets and liabilities. Deferred tax is calculated as 22%/21% (Norway/USA) of temporary differences and losses carried forward. Deferred tax assets are recorded in the balance sheet when it is more likely than not that the tax assets will be utilized. Taxes payable and deferred taxes are recognized directly in equity to the extent that they relate to equity transactions.

Temporary differences in jurisdictions with other currency than USD, is calculated using local currency and converted to USD at foreign exchange rate at the balance sheet.

##### 1-6 BALANCE SHEET CLASSIFICATION

Current assets and short term liabilities consist of receivables and payables due within one year, and items connected to the flow of goods. Other balance sheet items are classified as fixed assets / long-term liabilities.

Current assets are valued at the lower of cost and fair value. Short-term liabilities are recognized at nominal value at the time they incur.

Fixed assets are valued at cost, less depreciation and impairment losses. Long-term liabilities are recognized at nominal value.

## NorAm Drilling Company AS

### Notes to Financial Statement

#### 1-7 PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are capitalized and depreciated over the estimated useful life. Costs for maintenance are expensed as incurred, whereas costs for improving and upgrading property, plant and equipment are added to the acquisition cost and depreciated with the related asset. If carrying value of a non-current asset exceeds the estimated recoverable amount, the asset is written down to the recoverable amount. The recoverable amount is the greater of the net realizable value and value in use. In assessing value in use, the discounted estimated future cash flows from the asset are used. Operational leasing is expensed as ordinary rental expense and classified as an ordinary operating expense. Equipment leased on terms that transfer practically all economic rights and obligations to the company (financial leasing) is depreciated as a capital asset, and is included as a liability under interest bearing debt at the present value of minimum rental expense.

#### 1-8 SUBSIDIARIES

Subsidiaries are valued at cost in the company accounts. The investment is valued as cost of the shares in the subsidiary, less any impairment losses. An impairment loss is recognized if the impairment is not considered temporary, in accordance with generally accepted accounting principles. Impairment losses are reversed if the reason for the impairment loss disappears in a later period.

Dividends, group contributions and other distributions are recognized in the same year as they are recognized in the subsidiary financial statement. If dividends / group contribution exceed withheld profits after acquisition, the excess amount represents repayment of invested capital, and the distribution will be deducted from the recorded value of the investment in the balance sheet for the parent company.

#### 1-9 ACCOUNTS RECEIVABLE AND OTHER RECEIVABLES

Accounts receivable and other current receivables are recorded in the balance sheet at nominal value less provisions for doubtful accounts. Provisions for doubtful accounts are based on an individual assessment of the different receivables. For the remaining receivables, a general provision is estimated based on expected loss.

#### 1-10 PENSION OBLIGATIONS AND EXPENSES

Noram Drilling Company AS has a deposit-based pension plan. Yearly payments to the insurance company are expensed as pension costs.

#### 1-11 CASH FLOW STATEMENT

The cash flow statement has been prepared according to the indirect method. Cash and cash equivalents include cash, bank deposits, and other short term investments which immediately and with minimal exchange risk can be converted into known cash amounts, with due date less than three months from purchase date.

#### 1-12 Functional Currency and Presentational Currency

Functional and presentation currency is for NorAm Drilling Company AS and the NorAm Drilling Group is USD. This is based on the following rationale;

##### NorAm Drilling Company AS

All significant P/L transactions is denominated in USD (Interest income from group companies, Other interest expenses)

All significant Balance Sheet items is denominated in USD (Loan to group companies, accounts receivables, Cash and Bond Loan)

##### NorAm Drilling Group

All significant P/L transactions is denominated in USD (Sales, Payroll, Operating expenses from US subsidiary and Other interest expenses)

All significant Balance Sheet items is denominated in USD (Fixed assets, Accounts receivables, cash, Bond Loan, Accounts Payable and other current liabilities)

Noram Drilling Company AS receivables from NorAm Drilling Company (subsidiary)	-	10 067 167

Due to the difficulties in the market following COVID-19, Noram Drilling Company AS has given its subsidiary a temporary relief of any interest on intercompany loan.

### Note 7 Shares in Subsidiaries

(USD) Company	Book value	Shares	Share of voting rights	Equity 2021	Result 2021	Main Office
Noram Drilling Company	84 556 593	100 %	100 %	-1 749 859	-11 760 677	Houston

On December 23, 2021, the parent company converted part of its debt against its US Subsidiary NorAm Drilling Corp. The capital increase is done by issuance of 218.000 shares to a total amount of USD 51 413 737.

#### Impairment trigger analysis and impairment assessment for investments in subsidiaries

Book value of investment in subsidiary exceeds booked value of equity in the subsidiary. Based on this, management has tested shares in subsidiaries for impairment. The test is based on value in use test for fixed assets in the subsidiaries, adjusted for net interest bearing debt. See note 8. No impairment is recognized in 2021.

The changes in the impairment calculations has not resulted in any impairment expenses as of year-end 2021, and the headroom is in line with 2020.

There are always uncertainty relating to future changes in the market, hence the result of the calculation could change with other inputs. The most sensitive inputs to the impairment calculations is expected dayrates, OPEX, utilization and discount rate. Based on a small headroom in calculated NPV, small adjustment on key inputs, would lead to an impairment in shares.

For changes in estimated due to events after the reporting day, please see note 14

* Land	Indefinite

## NorAm Drilling Company AS

Notes to Financial Statement

### Note 8 Tangible assets continues

#### Impairment trigger analysis and impairment assessment on tangible assets

Due to the uncertain market conditions, resulting from COVID-19 pandemic and oil production changes, we have reviewed assumptions for the carrying values of our assets. This includes assumptions for development in dayrates, OPEX and other critical inputs were adjusted. The development in dayrates and rig utilization during 2020 and early 2021 was considered as temporary setbacks, and not permanent changes, hence this is reflected in the company's impairment model

There is significant uncertainty relating to the recovery of the market, and the key inputs are therefore uncertain.

The conclusion on the impairment calculation, based on information available and that dayrates and utilization have been better than projected, is that there is no need for impairment charges during 2021 or as of December 31, 2021. As of May 2022, all of our rigs were under contract. The timing of our rig reactivations, actual dayrates and margins being earned on current contracts and the near term outlook as a result of oil prices are all favorable compared to the assumptions used in our impairment analysis. Management and the board of directors will continue to follow the developments in the market closely and assess impairment continuously if expected future market conditions change.

For changes in estimated due to events after the reporting day, please see note 15

### Note 13 – Contingent assets

As a result of the COVID-19 pandemic, and as part of the Cares act, NorAm Drilling has applied for support relating to the Employee Retention Tax Credit (ERTC), which is a payroll credit available from March 12, 2020 through September 30, 2021 for a total amount of approximately MUSD 4. As of year end 2021 the company has not received confirmation that the application is approved, nor received confirmation that they comply with the requirements for receiving payroll credit. Due to this, there is significant uncertainty if the company will receive any support through this public system, hence no payroll credit is recognized in the Annual Report for 2021.

### Note 14 – Cares act

On March 27, 2020, President Trump signed into law the "Coronavirus Aid, Relief, and Economic Security (CARES) Act". The CARES Act, among other things, included provisions relating to refundable payroll tax credit, deferment of employer side social security payments, net operating loss carryback periods, alternative minimum tax credit refunds, modifications to the net interest deduction limitations, increased limitations on qualified charitable contributions, and technical corrections to tax depreciation methods for qualified improvements property.

On May 5, 2020 the company entered into an unsecured loan in the aggregate principal amount of MUSD 5,5 pursuant to the Paycheck Protection Program which is part of the CARES Act initiatives.

On October 16, 2020, we filed our final application for forgiveness requesting forgiveness of the entire MUSD 5.5 based upon the guidelines provided by the governing authorities. The loan was forgiven in full in May 2021.

On December 27, 2020, an additional COVID-19 Pandemic Relief Bill was approved. This bill both materially changed existing PPP loans and authorized another round of PPP loans ("second draw PPP loans").

On February 5, 2021, we entered into a second draw PPP loan in the aggregate principal amount of MUSD 2. The loan was forgiven in full in October 2021.

## NorAm Drilling Company AS

Notes to Financial Statement

### Note 15 – Subsequent events

#### Market & Activities

As a result of the COVID – 19 pandemics, changes in global oil supplies and demand and the recent Russian invasion of Ukraine, oil prices remain volatile. Since August 2020, WTI oil prices and US land rig counts have steadily increased indicating that the US drilling industry bottomed in 3Q 2020. Since October 2020, WTI has continued to improve. WTI began 2021 around \$50 per barrel and finished 2021 near \$75 per barrel. WTI is currently trading above \$100 per barrel.

As of May 20, 2022, the US land drilling active rig count and Permian rig count was 709 and 440, respectively. As of December 31, 2021, the US land drilling active rig count and Permian rig count was 570 and 293, respectively. In comparison, as of December 31, 2020, the US land drilling active rig count and Permian rig count was 332 and 175, respectively. We currently have all eleven rigs under contract.

#### Outlook

As of May 27, 2022, all of our rigs were under contract. The timing of our rig reactivations, actual dayrates and margins being earned on current contracts and the near term outlook as a result of oil prices are all favorable to our forecast.

We expect market conditions to remain volatile in the near term. The extent of a continued recovery in the US drilling industry cannot be reasonably predicted and is subject to many variables including, but not limited to:

- i. global oil demand
- ii. OPEC+ maintaining and complying with appropriate supply targets
- iii. Russian / Ukraine war
- iv. economic recovery as the COVID – 19 pandemic is mitigated
- v. possible economic recession in the US and around the globe
- vi. operator and drilling contractor discipline
- vii. labor and supply chain constraints
- viii. any possible regulatory changes issued by the US government

Subject to key risks and uncertainties mentioned above we currently expect continued demand for high end “super spec” drilling rigs. Currently, dayrates for high end “super spec” drilling rigs continue to improve primarily due to the lack of available rig supply, operator and drilling contractor financial discipline and supply chain constraints for both labor and supplies.

#### Bond amendments

On May 16, 2022, the Company and holders of the Bond loan agreed to the following amendments: (i) extend the maturity date from June 3, 2022, to June 3, 2023; (ii) schedule a principal installment of MUSD 5.0 on December 3, 2022; (iii) amend the prepayment structure to allow for partial prepayments at par value at a minimum of MUSD 5.0; and (iv) pay an amendment fee of USD 400,000.

#### New sharebased payment agreement 2022

On 28 February 2022 the Company issued a new option agreement with Marty Jimmerson and Thomas Taylor. For further information on the option agreement, see note 2.

## Independent Auditor's Report

### Opinion

We have audited the financial statements of Noram Drilling Company AS, which comprise:

- The financial statements of the parent company Noram Drilling Company AS (the Company), which comprise the balance sheet as at 31 December 2021, the income statement and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and
- The consolidated financial statements of Noram Drilling Company AS and its subsidiaries (the Group), which comprise the balance sheet as at 31 December 2021, the income statement and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion:

- the financial statements comply with applicable statutory requirements,
- the financial statements give a true and fair view of the financial position of the Company as at 31 December 2021, and its financial performance and its cash flows for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and
- the financial statements give a true and fair view of the financial position of the Group as at 31 December 2021, and its financial performance and its cash flows for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway.

### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company and the Group as required by laws and regulations and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Information

The Board of Directors and the Managing Director (management) are responsible for the information in the Board of Directors' report. The other information comprises information in the annual report, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the information in the Board of Directors' report.

In connection with our audit of the financial statements, our responsibility is to read the Board of Directors' report. The purpose is to consider if there is material inconsistency between the Board of Directors' report and the financial statements or our knowledge obtained in the audit, or whether the Board of Directors' report otherwise appears to be materially misstated. We are required to report if there is a material misstatement in the Board of Directors' report. We have nothing to report in this regard.

Drammen	Kristiansund	Stavanger	Ålesund

Based on our knowledge obtained in the audit, it is our opinion that the Board of Directors' report

- is consistent with the financial statements and
- contains the information required by applicable legal requirements.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's and the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern. The financial statements use the going concern basis of accounting insofar as it is not likely that the enterprise will cease operations.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error. We design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's or the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- conclude on the appropriateness of management's use of the going concern basis of accounting, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company and the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a true and fair view.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial

Independent Auditor's Report - Noram Drilling Company AS

statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Tillatelse til å utarbeide årsregnskap og årsberetning på engelsk språk for NorAm Drilling AS, org. nr. 990 947 619

Vi viser til deres brev av 5. september 2016 der det søkes om dispensasjon fra kravet til å utarbeide årsregnskap og årsberetning på norsk språk for NorAm Drilling AS.

Skattedirektoratet gir på bakgrunn av en konkret helhetsvurdering NorAm Drilling AS dispensasjon fra kravet til å utarbeide årsregnskap og årsberetning på norsk språk, jf. regnskapsloven § 3-4 tredje ledd. Dispensasjonen forutsetter at opplysningene som vedtaket baserer seg på ikke endres vesentlig.

Kopi av dette brevet må sendes Regnskapsregisteret i Brønnøysund sammen med årsregnskapet. Det påligger den regnskapspliktige å dokumentere ved dette brev at tillatelsen er gitt.

### Bakgrunn

NorAm Drilling AS var inntil november 2014 et børsnotert selskap. Selskapet er ikke lenger rettet mot allmenheten og er i dag et aksjeselskap. Av topp 20 eiere pr. 1. september 2016 er 63,92 prosent utenlandske. Aksjonærene består i all hovedsak av profesjonelle aktører. NorAm Drilling AS er morselskap og eier og finansierer datterselskaper i det internasjonale konsernet NorAm Drilling group. Selskapet har ingen operativ virksomhet i Norge. Den operative virksomheten foregår i sin helhet i datterselskapene i utlandet. Driften i konsernet styres fra NorAm Drilling Company som er lokalisert i USA. Datterselskapene driver utleie og drift av landbaserte borerigger for gass og olje. Konsernets arbeidsspråk er engelsk. Selskapet opererer i en internasjonal bransje og alle sentrale aktører og samarbeidspartnere behersker og benytter engelsk. En norsk oversettelse vil kun ha til formål å oppfylle regnskapslovens språkkrav.

### Skattedirektoratets vurdering

Etter regnskapsloven § 3-4 tredje ledd skal "årsregnskapet og årsberetningen ... være på norsk. Departementet kan ved ... enkeltvedtak bestemme at årsregnskapet og/eller årsberetningen kan være på et annet språk."

I Ot. prp. nr. 42 (1997-1998) Om lov om årsregnskap m.v., er det uttalt følgende om regnskapslovens formål, jf. pkt. 1.1:

Postadresse  
Postboks 9200 Grønland  
0134 Oslo

Besøksadresse:  
Se [www.skatteetaten.no](http://www.skatteetaten.no)  
Org.nr: 996250318  
E-post: [skatteetaten.no/sendepost](mailto:skatteetaten.no/sendepost)

Sentralbord  
800 80 000  
Telefaks  
22 17 08 60

*”Regjeringen har som siktemål at regnskapsloven skal bidra til informative regnskaper for ulike grupper av regnskapsbrukere. Regnskapsbrukerne er dels investorer og kreditorer som tilfører kapital til foretakene, og dels andre grupper som har interesse av å vite hvordan foretaket drives, f.eks. de ansatte og lokalsamfunnet. Informasjonen til kapitalmarkedet skal gi grunnlag for riktig prising av finansielle objekter. Riktig prisdannelse på aksjer er en forutsetning for at ressursbruken i samfunnsøkonomien skal bli best mulig. Gode regnskaper vil også gjøre det vanskeligere for markedsdeltakere å ta ut spekulasjonsgevinster med basis i skjevt fordelt informasjon.”*

Det fremgår således at et av hovedformålene med regnskapsloven er å bidra til “informative regnskaper for ulike grupper av regnskapsbrukere”. Regnskapsbrukere vil omfatte, jf. uttalelsen i proposisjonen, blant andre investorer, kreditorer, ansatte og lokalsamfunnet.

Det er etter Skattedirektoratets vurdering derfor avgjørende ved vurdering av om dispensasjon fra kravet til å utarbeide årsregnskap og/eller årsberetning på norsk kan gis, at det ikke foreligger mulige brukere av regnskapsinformasjon som blir vesentlig berørt negativt ved en eventuell dispensasjon.

Det er særlig hensynet til brukerne av regnskapsinformasjon som skal vurderes ved en dispensasjonssøknad. I denne vurderingen har Skattedirektoratet lagt særlig vekt på at majoriteten av aksjonærene er utenlandske. Aksjonærene består i all hovedsak av profesjonelle aktører. Arbeidsspråket er engelsk. Videre er det vektlagt at selskapet driver virksomhet i en internasjonal bransje der alle aktører behersker og benytter engelsk språk.

Vennligst oppgi vår referanse ved henvendelser i saken.

Med hilsen

NorAm Drilling Company

# **Annual Report 2021**

## **NorAm Drilling Company AS**

## **Contents**

General Information	3
Accounting and Auditing	3
NorAm Drilling Group	4
Board of Directors' Report 2021	5
Financial Statements 2021	13
Note Disclosures	18
Auditors Report	29

## **General Information**

This report contains forward-looking statements that involve a number of risks and uncertainties. Such forward-looking statements may be identified by the use of forward-looking terminology such as “believes”, “expects”, “predicts”, “may”, “will continue”, “should”, “would be”, “seeks” or “anticipates” or similar expressions or comparable terminology, or by discussions of plans, intentions and strategy.

Such forward-looking statements are necessarily dependent on assumptions, data or methods that may be incorrect or imprecise. The Company or its officers assumes no obligation that such expectations will prove to be correct. These forward-looking statements are subject to risks and uncertainties that could cause actual results to vary materially from such forward-looking statements.

## **Accounting and Auditing**

**NorAm Drilling Company AS** is audited by KPMG Norway. The accounting is outsourced to Amesto Business Partner, Norway.

**NorAm Drilling Company** performs its own accounting.

## **Alternative Performance Measurement (APM)**

In the report we refer to the APM EBITDA; Earnings Before Interest, Tax, Depreciation and Amortization.

## THIS IS NORAM DRILLING GROUP

NorAm Drilling Company AS (“the Group”, “NorAm” or “the Company”) owns and operates a quality rig portfolio of “super spec” advanced high-end AC driven rigs tailored for the drilling of horizontal wells in the US land drilling market. These rigs are designed to combine the cost efficiency of a compact rig with the versatility of different rig classes, enabling the rigs to cover a broad range of wells for both liquids and gas.

Established in 2007, the Company owns and finances companies operating onshore oil and gas drilling rigs. At year-end 2021, the Group’s fleet consisted of 11 “super spec” rigs located in the Permian Basin.

### The Company Structure

The parent company NorAm Drilling Company AS owns 100% of NorAm Drilling Company, Texas Corp., a US-based drilling contractor, located in Houston, Texas.

NorAm Drilling Company owns all eleven rigs and is financed through a combination of equity investments and intercompany loans, at arm’s length terms, from its parent. NorAm Drilling Company is staffed with competent, local personnel that perform all aspects of a contract drilling company. NorAm Drilling Company AS consists mainly shares in and loans to its US subsidiary.

### Our Offices

NorAm Drilling Company AS head office is in Oslo, Norway. The office is located at Bryggegata 3, 0112 Oslo, Norway.

NorAm Drilling Company is headquartered in Houston, Texas. NorAm Drilling Company has yard facilities in Odessa, Texas.

### Organization and Operations

Marty Jimmerson has served as Chief Executive Officer and Chief Financial Officer since joining the Company in January 2017. Thomas Taylor has served as Chief Operating Officer since November 2014 and has been with the Company for 13 years. Mr. Jimmerson and Mr. Taylor fulfil their roles for both NorAm Drilling Company AS and NorAm Drilling Company.

The executive team is supported with a compliment of business development, safety, operations (including electricians, mechanics and equipment specialists) and accounting functions. Each rig is supported by crews that work on 2-week hitches. Each hitch is staffed with crews working 12-hour shifts. The rig is managed by a rig manager and each hitch is typically staffed with a minimum of a driller, derrickman, motorman and two floormen.

## Board of Director's Report

### Nature of the business activities and where these are conducted

NorAm Drilling Company AS (herein called “Company”) and its subsidiaries (herein called “Group”) were established on February 19, 2007.

The Group’s executive management team is based out of Houston, Texas with administrative functions located in both Houston and Oslo, Norway.

The Group consists of the Norwegian parent company NorAm Drilling Company AS and operating subsidiary NorAm Drilling Company, Texas Corporation. The Group invests, owns and operates eleven onshore oil and gas well drilling rigs currently operating in the Permian Basin in the United States. The Group has established a solid foothold in the lower US, with significant operating experience in Louisiana, New Mexico, Oklahoma and Texas.

The Group currently focuses solely on the US land drilling market. The Group has a rig portfolio of eleven advanced high-end AC-driven rigs tailored for the drilling of horizontal wells. These rigs are designed to combine the cost efficiency of a compact rig with the versatility of different rig classes, enabling the rigs to cover a broad range of wells for both liquids and gas.

### 2021 Developments

#### MARKET and CONTRACTS

As a result of the COVID – 19 pandemic, changes in global oil supplies and demand and the recent Russian invasion of Ukraine, oil prices remain volatile. Since August 2020, WTI oil prices and US land rig counts have steadily increased indicating that the US drilling industry bottomed in 3Q 2020.

Since October 2020, WTI has continued to improve. WTI began 2021 around \$50 per barrel and finished 2021 near \$75 per barrel. WTI is currently trading above \$100 per barrel.

As of May 20, 2022, the US land drilling active rig count and Permian rig count was 709 and 343, respectively. As of December 31, 2021, the US land drilling active rig count and Permian rig count was 570 and 293, respectively. In comparison, as of December 31, 2020, the US land drilling active rig count and Permian rig count was 332 and 175, respectively. We currently have all eleven rigs under contract.

#### CARES ACT

On March 27, 2020, President Trump signed into law the “Coronavirus Aid, Relief, and Economic Security (CARES) Act.” On May 5, 2020, we entered into an unsecured loan in the aggregate principal amount of MUS\$ 5.5 pursuant to the Paycheck Protection Program which is part of the CARES Act Initiatives. This loan was forgiven in full on May 11, 2021.

On December 27, 2020, an additional COVID-19 Pandemic Relief Bill was approved. This bill authorized another round of PPP loans (“second draw PPP loans”). On February 5, 2021, we entered

into a second PPP loan in the aggregate principal amount of MUSD \$2.0. This loan was forgiven in full in October 2021.

As a result of the COVID-19 pandemic, and as part of the Cares act, NorAm Drilling applied for support relating to the Employee Retention Tax Credit (ERTC) which is a payroll credit available from March 12, 2020 through September 30, 2021 for a total amount of approximately MUSD 4.0. The company has not received confirmation that the application is approved, nor received confirmation that they comply with the requirements for receiving the payroll credit. Due to this, there is significant uncertainty if the company will receive any support through this public system, hence no payroll credit has been recognized in the Annual Report for 2021.

## **BOND AMEDMENTS**

On May 16, 2022, the Company and holders of the Bond loan agreed to the following amendments: (i) extend the maturity date from June 3, 2022, to June 3, 2023; (ii) schedule a principal installment of MUSD 5.0 on December 3, 2022; (iii) amend the prepayment structure to allow for partial prepayments at par value at a minimum of MUSD 5.0; and (iv) pay an amendment fee of USD 400,000.

## **COMPANY DEVELOPMENT, RESULTS and FINANCING**

NorAm had revenue of MUSD 50.4 during the twelve months of 2021 compared to MUSD 54.7 during the twelve months of 2020. During the twelve months of 2021 we generated an operating loss of MUSD 12.3 compared to an operating loss of MUSD 8.2 in the twelve months of 2020. During the twelve months of 2021 we generated EBITDA of MUSD 6.0 compared to MUSD 9.8 in the twelve months of 2020. The decrease in operating profit and EBITDA is primarily due to lower average dayrates and fleet utilization as well as costs incurred associated with warm stacking rigs to ensure reactivation costs would be minimized upon reactivations.

Capital expenditures were MUSD 3.4 in the twelve months of 2021, compared to MUSD 2.5 in 2020. As of December 31, 2021, our cash position was MUSD 12.8, and we had MUSD 80.0 of outstanding bonds payable to 3<sup>rd</sup> parties.

The parent company NorAm Drilling Company AS had total operating income of MUSD 0.1 in 2021, the same as for 2020. Operating expenses were reduced from MUSD 1.7 in 2020, to MUSD 0.7 in 2021, mainly due to bond amendment fees and cost saving initiatives. The company had a net loss before tax of MUSD 7.8 in 2021, compared to MUSD 9.3 in 2020. The main driver for the negative result is due to interest expenses on the Bond Loan.

In May 2021, the Company entered into an amendment of its Revolving Credit Facility that (i) extends the maturity date to the earlier of June 2023 and the maturity date of the Bond Loan, and (ii) allows for borrowings for financing capital expenditures. As of yearend 2021, there were no borrowings outstanding under this facility.

## **KEY FINANCIAL FIGURES**

	2021	2020
MUSD		
Revenue	50.4	54.7
Operating Profit	(12.3)	(8.2)
Net Profit before Tax	(19.5)	(16.0)
EBITDA	6.0	9.8

## IMPAIRMENT ON FIXED ASSETS

Due to the uncertain market conditions, resulting from COVID-19 pandemic and oil production changes, we have reviewed assumptions for the carrying values of our assets. This includes assumptions for development in dayrates, OPEX and other critical inputs were adjusted. The development in dayrates and rig utilization during 2020 and early 2021 was considered as temporary setbacks, and not permanent changes, hence this is reflected in the company's impairment model.

There is significant uncertainty relating to the recovery of the market, and the key inputs are therefore uncertain. The conclusion on the impairment calculation, based on information available and that dayrates and utilization have been better than projected, is that there is no need for impairment charges during 2021 or as of December 31, 2021. As of May 2022, all of our rigs were under contract. The timing of our rig reactivations, actual dayrates and margins being earned on current contracts and the near term outlook as a result of oil prices are all favorable compared to the assumptions used in our impairment analysis. Management and the board of directors will continue to follow the developments in the market closely and assess impairment continuously if expected future market conditions change.

## FINANCING

On the balance sheet, the Group has equity of MUSD 33.7 equivalent to an equity ratio of 27.6% at year-end 2021, compared to MUSD 45.1 of equity and a 32.4% equity ratio at year-end 2020.

The Company's balance sheet at year end 2021 had equity of MUSD 120.0 and an equity ratio of 58.7%, compared to MUSD 124.2 of equity and a 59.0% equity ratio at yearend 2020.

In Q4 2021 the parent company refinanced the US subsidiary by converting MUSD 51.2 from debt to equity to ensure better financing of the US subsidiary.

The Board considers the equity for both the Company and Group to be in compliance with the requirement for sufficient equity under the Norwegian Limited Liability Companies Act.

The Company and Group is financed through equity and a bond loan, see note 9 to the Financial Statement. The bond loan outstanding as of December 31, 2021, was MUSD 80.0. The bond loan agreement includes a set of covenants, that NorAm reports on. The Board of Directors confirm, based upon current market assumptions, that it is expected that the Company and Group will be compliant with all other covenants set out in the bond loan agreement through 2022.

On May 16, 2022, the Company and holders of the Bond loan agreed to the following amendments: (i) extend the maturity date from June 3, 2022, to June 3, 2023; (ii) schedule a principal installment of MUS\$ 5.0 on December 3, 2022; (iii) amend the prepayment structure to allow for partial prepayments at par value at a minimum of MUS\$ 5.0; and (iv) pay an amendment fee of USD 400,000.

## **CASH FLOW and LIQUIDITY**

The Company and Group is financed through equity and a bond loan, see note 9 to the Financial Statement. The Bond Loan outstanding as of December 31, 2021, was MUS\$ 80.0.

The cash position for the Group decreased from MUS\$ 16.3 as of December 31, 2020, to MUS\$ 12.8 as of December 31, 2021, mainly attributable to the Group investing MUS\$ 3.4 in capital expenditures in 2021.

For the Norwegian parent company, the cash position increased from MUS\$ 1.0 to MUS\$ 1.4.

## **KEY RISKS and UNCERTAINTIES**

The Group and the Company are exposed to a number of risk factors when performing its activities, such as market risk, operational risk, credit risk and liquidity risk. The Company's and the Group's key operational risks are comprised to a large extent of (i) oil and gas prices, (ii) number of rigs available for drilling in the US and the rig count (rigs employed), (iii) risk related to suppliers and clients, (iv) ability to recruit and retain employees and (v) ability to pass along increases in labor and rig expenses to our customers.

Global oil and gas prices have been historically and will likely continue to be volatile for the foreseeable future. Global demand and supply of oil; levels of exploration and production by oil and gas companies operating in the United States; worldwide political, regulatory, economic and military events as well as natural disasters have contributed to oil and gas volatility and are likely to continue to do so in the future. The US land drilling market is strongly related to energy prices. Day rates and utilization levels of the Group's rigs correlate with the price of oil and natural gas. An increase in oil price requires supply reductions or increases in demand. The Group's income is the most sensitive factor, and a reduction either in utilization or day rates compared to budget has clear negative effects on the result. Conversely, higher rates and utilization have very positive effects on our results. The cost level will vary with constraints in the market for input factors.

The client risk of the Group varies, and even though the Group targets blue-chip E&P clients with extensive operations, contracts may also be signed with smaller companies to increase utilization of the rigs. In such cases, a review of financial statements or payment references is performed to reduce risk of non-payment.

Supplier and client risks are also present in the market in which the Group is operating. Even if the Group targets contracts with larger and financially solid partners, the contracts will be subject to uncertainty with regards to the suppliers' or the clients' ability to meet their commitments, as they, too, on a general basis also will be subject to market and financial risk. Idle rigs will lead to significant loss of income.

In addition, there could be stacking expenses during weak periods of demand for rigs resulting in loss of work. Such expenses are modest in terms of influence on the result. The Group is also exposed to changes in the regulatory and fiscal frameworks in Norway and the USA.

## **BUSINESS OUTLOOK**

The Group will continue its focus on operating its premium rig fleet and evaluate opportunities to build a larger US presence by further developing our US subsidiary. The foundation has been laid over the years, building strong inhouse drilling competences and safety records, a flat organization with focus on training and motivation of our drilling crews, effective corporate routines and strong client relationships.

By growing the Group's rig fleet from three rigs in 2009 to eleven "Super Spec" rigs by 2021, the Group has taken important steps forward to become an important player in the US onshore drilling industry.

The Group has an ongoing dialogue with its existing customers as well as potential new customers about rig performance and contracts. The Board emphasizes the importance of modern, efficient rigs and trained personnel as a powerful combination for reaching our drilling, safety and utilization targets and winning new contracts with quality clients.

A key driver for financial results in 2022 will ultimately be the continued price development of crude oil and natural gas prices which impacts capital spending by the US energy producers.

### **Key targets for 2022:**

- Ensure continued high safety standard in line with our historical performance
- Continue to operate our rigs with an industry leading effectiveness and efficiency
- Scale our operations and overhead in response to the decline in rig activity, stacking our rigs in a manner that allows us to return to work without incurring substantial costs or delays when the market recovers
- Maintain and develop customer relationships in order to obtain higher dayrates contracts with reputable clients

## **FUTURE DEVELOPMENT**

### ***Dayrates and utilization outlook***

All eleven rigs are currently located in the Permian Basin. Our current drilling contract status as of May 24, 2022 is as follows:

- Rig 21 – on contract pad-pad
- Rig 22 – on contract through July 2022
- Rig 23 – on contract pad-pad
- Rig 25 – on contract through November 2022
- Rig 26 – on contract through September 2022
- Rig 27 – on contract through August 2022
- Rig 28 – on contract through November 2022
- Rig 29 – on contract pad-pad
- Rig 30 – on contract pad-pad
- Rig 32 – on contract through September 2022

- Rig 34 – on contract through June 2022

We expect market conditions to remain volatile in the near term. Subject to key risks and uncertainties mentioned in this report we currently expect continued demand for high end “super spec” drilling rigs. Currently, dayrates for high end “super spec” drilling rigs continue to improve primarily due to the lack of available rig supply, operator and drilling contractor financial discipline and supply chain constraints for both labor and supplies.

The Board expects to maintain the Group’s strong safety record and low TRIR consistent or better than industry averages.

### *Operating expenses*

Combined with focus on our rig personnel staffing levels and effectively managing our other daily operating costs we were able to maintain rig operating costs during 2021 and in line with our historical performance. In response to the significant reduction in crude oil prices in 2020 and the resulting fall in demand for drilling services in North America, we took decisive action to quickly scale down our expenses and conserve liquidity including: (i) lowering our direct field level personnel as rigs are released, (ii) implemented wage reductions for all employees and Board of Director fees, (iii) suspended our employer 401K match, (iv) working with our vendor partners for best pricing on goods and services and (v) eliminated all non-essential capital expenditures.

During 2021, we reinstated the wage reduction implemented in 2020. Additionally, we increased wages on January 1, 2022 in order to retain and recruit employees and remain competitive with other drilling contractors’ pay rates. We have also experienced price increases during 2022 in other rig supplies as supply chain constraints have increased. We have successfully passed along these increases in labor and rig supplies to our customers. We expect costs could continue to increase in the near future. While our contracts generally allow us to pass along cost increases we can not be certain that any future increases in costs will not negatively impact our operating margins and/or rig activity.

### **RESEARCH and DEVELOPMENT ACTIVITIES**

Neither the Company nor the Group had research and development expenses in 2021.

### **GOING CONCERN**

The Board considers the Financial Statements for 2021 to represent a true and fair view of the development and results of the Company’s and Group’s operations and accounts as of December 31, 2021. The Board confirms that going concern assumptions are satisfied as to the standards set by the Norwegian Accounting Act and which has formed the basis for the financial statements presented herein for the Company and the Group. This is based on the Boards expectations relating to market conditions going forward, with increased dayrates and utilization expected to continue to gradually recover over the next few years and to at least same levels experienced before COVID-19.

### **WORKING ENVIRONMENT**

As of December 31, 2021, the Group had an operational organization of 243 people including three working at the administration office in Houston.

The Board considers the working environment in the Company and the Group to be good.

Management consists of the Acting Chief Executive Officer / Chief Financial Officer and a Chief Operating Officer. Apart from these individuals, the Company uses external advisors for accounting, legal affairs and other professional services.

The absentee rate was minimal. There were no property damage incidents in 2021.

NorAm Drilling Company AS has no employees during 2021, hence no sick leave. No serious occupational accidents or incidents have been experienced over the year, whether in the parent company or in the subsidiaries.

## **EQUAL OPPORTUNITIES**

The Group and the Company target to be an employer to promote equality for all employees' regardless of nationality, sex, skin color, language or religion. This is true for recruiting new people, for salary and bonus schemes, working relations, promotions and protection against harassment. Women will be encouraged to apply for posted available positions in order to increase the representation of both sexes in the organization. At the end of 2021, the Group had two women employed. There will be no discrimination between men and women regarding recruitment, salaries in relation to position/competence, or promotion, or any other aspect of the Group's activities.

The group has conducted a high-level salary analysis showing that on average, men has higher salary than women. The main reason for this is that the management group consist of only men, and management level has higher average salary than the employees working on the rigs. Among employees working on the rigs, there is no indication on significant differences in average salary between men and women with the same experience etc.

During 2021 the group has had no involuntary part-time employees, and no persons have been on leave of absence.

The NorAm Drilling Company AS Board consists of three men. NorAm Drilling Company Inc. has the same board as NorAm Drilling Company AS.

## **EXTERNAL ENVIRONMENT**

NorAm Drilling Company AS has limited activity and does not pollute the external environment. The Group undertakes activities that are potentially polluting. The oil and gas well drilling business, by its very nature, can, if proper procedures are not followed adversely impact the environment. This can range from blowouts of wells or pollution of the area surrounding the drilling activities.

NorAm Drilling Company takes all reasonable precautions by assuring proper equipment and maintenance and that the rig personnel are all properly trained. Also, NorAm Drilling conducts standard procedures beyond regulations to ensure not to pollute. Other actions taken by NorAm Drilling includes converting engine systems into Dual Gas system, whereby our customers agree, allowing our engines to run on natural gas at a lower cost and generating less pollution.

NorAm Drilling has implemented Health, Environment and Safety services to support the company's activities and the rig crew is trained in Occupational Safety and Health Administration (OSHA) HSE regulations in the US. The focus is to train all site personnel in their daily routines to act safely and to prevent unwanted occurrences with the rigs.

NorAm Drilling complies with US state and federal regulations in its activities, including environmental protection regulation. The operator carries the main responsibility regarding the external environment when drilling a well under standard daywork drilling contracts.

**Signature of the Board, May 24, 2022**

Ole B. Hjertaker  
Chairman
