Att. Rigmor Mebostad

Permission to prepare the annual accounts and directors' report in English language for Bird Rides Norway AS, org. no 923 147 608

With reference to your letter of 24 October 2022 with respect to the above matter regarding Bird Rides Norway AS.

Based on a total evaluation, the view of the tax office is that Bird Rides Norway AS may make the directors' report and annual accounts in English language according to the Norwegian Accounting Act § 3-4 third paragraph. The exemption requires that the information the decision is based on, does not change significantly.

A copy of this letter must be sent to the Register of Company Accounts in Brønnøysund together with the financial statements. It is incumbent on the company to document by this letter that the permit is granted.

Background

Bird Rides Norway AS is a private limited company 100 % owned by a foreign company. The company is part of the Bird Ride Group, which is a major worldwide provider of short-term rental of electric vehicles via a mobile application.

The communication internally, communication with the owner and communication in the group is in English. The chairperson of the board is not Norwegian.

Condition for the permission

According to the Norwegian Accounting Act § 3-4, third paragraph shall "the directors' report and annual accounts (...) be in Norwegian. The Ministry can in an individual decision decide that the directors' report and/or annual accounts may be in another language".

Ot. prp. nr. 42 (1997-1998) About Act about annual accounts etc., says the following about the purpose of the Accounting Act, refer section 1.1:

"The aim of the Government with respect to the Accounting Act is that it shall contribute towards providing informative accounts for different users of accounts. The users of accounts include investors and creditors, which provide capital for the companies. Other groups include those who have an interest in

knowing how the companies are operated, for example employees and the local community. The information to the capital market is an important basis for the correct pricing of financial instruments. The correct pricing of stocks is an important factor in securing the best possible allocation of resources in the economy. High quality accounts will also make it more difficult for market participants to obtain speculative gains as a result of non-publicly available information.”

One of the main goals of the Accounting Act is to contribute to “informative accounts for different users of accounts”. The users of the accounts will include investors, creditors, employees and the local community.

Hence, it is the view of the Ministry that it is crucial that the question of dispensation from the general rule that the annual accounts and/or directors’ report should be prepared in Norwegian, not in any significant way deviate from the consideration of users of the accounts.

As mentioned above it is particularly the consideration of the users of the account information, which has to be taken into consideration when considering the application for permission. In this assessment, the tax office has emphasized that the company is a subsidiary of a foreign company and is part of an international group. Furthermore, all key players and partners in this industry understand and use English.

Please state “our reference” (see above) in all written communication with the Norwegian Tax Authorities.

Yours sincerely,

Vibeke Horne
Adviser
Customer Interaction Division, Customer Service
The Norwegian Tax Administration

Note 6 Going concern

Considering both the economic viability of markets and the regulatory environment, the company decided to cease its operations in Norway at the end of 2022. The annual accounts for the financial year ended 31 December 2024 were prepared based on the assumption of going concern and that the company can rely on the financial support of its shareholders. Meanwhile, the situation will be continuously reassessed throughout the next accounting period to ensure the company's financial stability and ability to meet its obligations.
