Styrelsen för

Carlsberg Sweden Holding 2 AE

Org nr 556762-6048

får härmed avge

Årsredovisning

för räkenskapsåret 1 januari - 31 december 2023

Innehåll:	sida
Förvaltningsberättelse	2
Resultaträkning	3
Balansräkning	4
Noter med redovisningsprinciper och bokslutskommentarer	5
Underskrifter	7

Ovan intagna resultat- och balansräkningar har fastställts vid ordinarie bolagsstämma 2024-06-28 varvid även beslöts, att resultatet enligt balansräkningen skulle disponeras i enlighet med i förvaltningsberättelsen framlagt förslag.

.....

Styrelseledamot/Verkställande direktör

20240711109528

Förvaltningsberättelse

Information om verksamheten

Carlsberg Sweden Holding 2 AB bildades under 2008, med säte i Stockholm.
Carlsberg Sweden Holding 2 AB är ett helägt dotterbolag till Carlsberg Breweries A/S.
Carlsberg Sweden Holding 2 AB innehar 100% av aktierna i Baltic Beverages Holding AB.
Bolagets verksamhet består i att förvalta aktierna i sitt dotterbolag.

Väsentliga händelser under räkenskapsåret

Under 2023 mottog Carlsberg Sweden Holding 2 en sakutdelning av aktier i dotterbolag som tidigare ägdes av Baltika Breweries värderade till 848.928 KEUR, som omedelbart delades ut till Carlsberg Sweden Holding 2's moderbolag
Den 16 juli utfärdade den ryska regeringen ett presidentdekret som tillfälligt överförde förvaltningen av verksamheten i Baltika Breweries till den the Ryska Federala Byrån för Förvaltning av Statlig Egendom.
Enligt dekretet behåller Carlsberg Sverige äganderätten till aktierna i Baltika Breweries,
men har i övrigt inte längre någon kontroll eller något inflytande över ledningen av verksamheten.
Som en följd av förlusten av kontroll skrevs investeringen i Baltika Breweries ned i sin helhet i Carlsberg Sverige AB.
I bokslutet 2022 gjordes en nedskrivning i Carlsberg Sweden Holding 2, avseende aktierna i Baltic Beverages Holding AB.
I bokslutet 2023 har ytterligare 1 643 848 kEUR skrivits ned.
Baltic Beverages Invest AB har i maj 2023 fusionerats upp i Carlsberg Sverige AB
ett helägt dotterbolag till Baltic Beverages Holding AB.

Styrelsen föreslår att till förfogande stående vinstmedel om EUR 2 598 025 449 disponeras enligt följande:

Noter med redovisningsprinciper och bokslutskommentarer

Belopp i KEUR om inget annat anges

Årsredovisningen har upprättats i enlighet med årsredovisningslagen och Bokföringsnämndens allmänna råd BFNAR 2012:1 Årsredovisning och koncernredovisning (K3).

Finansiella tillgångar och skulder
Finansiella tillgångar och skulder redovisas i enlighet med kapitel 11 (Finansiella instrument värderade utifrån anskaffningsvärdet) i BFNAR 2012:1.
Finansiella tillgångar värderas vid första redovisningstillfället till anskaffningsvärde, inklusive eventuella transaktionsutgifter som är direkt hänförliga till förvärvet av tillgången.
Andelar i dotterföretag, intresseföretag och gemensamt styrda företag redovisas till anskaffningsvärde minskat med ackumulerade nedskrivningar med tillägg för uppskrivningar. I anskaffningsvärdet ingår förutom inköpspriset även utgifter som är direkt hänförliga till förvärvet.

Räntor och utdelning
Intäkt redovisas när de ekonomiska fördelarna som är förknippade med transaktionen sannolikt kommer att tillfalla företaget samt när inkomsten kan beräknas på ett tillförlitligt sätt.
Ränta redovisas som intäkt enligt effektivräntemetoden.
Utdelning redovisas när behörigt organ har fattat beslut om att utdelning ska lämnas.

Koncernbidrag och aktieägartillskott
Koncernbidrag som erhållits/lämnats redovisas som en bokslutsdisposition i resultaträkningen.

Skatt
Skatt på årets resultat i resultaträkningen består av aktuell skatt och uppskjuten skatt. Aktuell skatt är inkomstskatt för innevarande räkenskapsår som avser årets skattepliktiga resultat och den del av tidigare räkenskapsårs inkomstskatt som ännu inte har redovisats. Uppskjuten skatt är inkomstskatt för skattepliktigt resultat avseende framtida räkenskapsår till följd av tidigare transaktioner eller händelser.
Uppskjutna skattefordringar har värderats till högst det belopp som sannolikt kommer att återvinnas baserat på innevarande och framtida skattepliktiga resultat. Värderingen omprövas varje balansdag.

Funktionell valuta och rapporteringsvaluta
Företagets funktionella valuta är EUR och rapporteringsvaluta EUR. Det innebär att de finansiella rapporterna presenteras i EUR. Samtliga belopp är, om inte annat anges, avrundade till närmaste tusental.

Anställda och personalkostnader
Carlsberg Sweden Holding 2 AB har inte haft någon personal anställd under räkenskapsåret och några ersättningar har ej utbetalats.

20240711109532

Koncernbidrag

Koncernbidrag som erhållits/lämnats redovisas som en bokslutsdisposition i resultaträkningen.
Det erhållna/lämnade koncernbidraget har påverkat företagets aktuella skatt.

Erhållna och lämnade koncernbidrag redovisas som bokslutsdispositioner.

Revisionsberättelse

Till bolagsstämman i Carlsberg Sweden Holding 2 AB, org.nr 556762-6048

Rapport om årsredovisningen

Uttalanden

Vi har utfört en revision av årsredovisningen för Carlsberg Sweden Holding 2 AB för år 2023.

Enligt vår uppfattning har årsredovisningen upprättats i enlighet med årsredovisningslagen och ger en i alla väsentliga avseenden rättvisande bild av Carlsberg Sweden Holding 2 ABs finansiella ställning per den 31 december 2023 och av dess finansiella resultat för året enligt årsredovisningslagen. Förvaltningsberättelsen är förenlig med årsredovisningens övriga delar.

Vi tillstyrker därför att bolagsstämman fastställer resultaträkningen och balansräkningen för Carlsberg Sweden Holding 2 AB.

Grund för uttalanden

Vi har utfört revisionen enligt International Standards on Auditing (ISA) och god revisionssed i Sverige. Vårt ansvar enligt dessa standarder beskrivs närmare i avsnittet Revisorns ansvar. Vi är oberoende i förhållande till Carlsberg Sweden Holding 2 AB enligt god revisorssed i Sverige och har i övrigt fullgjort vårt yrkesetiska ansvar enligt dessa krav.

Vi anser att de revisionsbevis vi har inhämtat är tillräckliga och ändamålsenliga som grund för våra uttalanden.

Styrelsens ansvar

Det är styrelsen som har ansvaret för att årsredovisningen upprättas och att den ger en rättvisande bild enligt årsredovisningslagen. Styrelsen ansvarar även för den interna kontroll som de bedömer är nödvändig för att upprätta en årsredovisning som inte innehåller några väsentliga felaktigheter, vare sig dessa beror på oegentligheter eller misstag.

Vid upprättandet av årsredovisningen ansvarar styrelsen för bedömningen av bolagets förmåga att fortsätta verksamheten. De upplyser, när så är tillämpligt, om förhållanden som kan påverka förmågan att fortsätta verksamheten och att använda antagandet om fortsatt drift. Antagandet om fortsatt drift tillämpas dock inte om styrelsen avser att likvidera bolaget, upphöra med verksamheten eller inte har något realistiskt alternativ till att göra något av detta.

Revisorns ansvar

Våra mål är att uppnå en rimlig grad av säkerhet om huruvida årsredovisningen som helhet inte innehåller några väsentliga felaktigheter, vare sig dessa beror på oegentligheter eller misstag, och att lämna en revisionsberättelse som innehåller våra uttalanden. Rimlig säkerhet är en hög grad av säkerhet, men är ingen garanti för att en revision som utförs enligt ISA och god revisionssed i Sverige alltid kommer att upptäcka en väsentlig felaktighet om en sådan finns. Felaktigheter kan uppstå på grund av oegentligheter eller misstag och anses vara väsentliga om de enskilt eller tillsammans rimligen kan förväntas påverka de ekonomiska beslut som användare fattar med grund i årsredovisningen.

En ytterligare beskrivning av vårt ansvar för revisionen av årsredovisningen finns på Revisorsinspektionens webbplats: www.revisorsinspektionen.se/revisornsansvar. Denna beskrivning är en del av revisionsberättelsen.

Rapport om andra krav enligt lagar och andra författningar

Uttalanden

Utöver vår revision av årsredovisningen har vi även utfört en revision av styrelsens förvaltning för Carlsberg Sweden Holding 2 AB för år 2023 samt av förslaget till dispositioner beträffande bolagets vinst eller förlust.

Vi tillstyrker att bolagsstämman disponerar vinsten enligt förslaget i förvaltningsberättelsen och beviljar styrelsens ledamöter ansvarsfrihet för räkenskapsåret.

Grund för uttalanden

Vi har utfört revisionen enligt god revisionssed i Sverige. Vårt ansvar enligt denna beskrivs närmare i avsnittet Revisorns ansvar. Vi är oberoende i förhållande till Carlsberg Sweden Holding 2 AB enligt god revisorssed i Sverige och har i övrigt fullgjort vårt yrkesetiska ansvar enligt dessa krav.

20240711109535

Vi anser att de revisionsbevis vi har inhämtat är tillräckliga och ändamålsenliga som grund för våra uttalanden.

Styrelsens ansvar

Det är styrelsen som har ansvaret för förslaget till dispositioner beträffande bolagets vinst eller förlust. Vid förslag till utdelning innefattar detta bland annat en bedömning av om utdelningen är försvarlig med hänsyn till de krav som bolagets verksamhetsart, omfattning och risker ställer på storleken av bolagets egna kapital, konsolideringsbehov, likviditet och ställning i övrigt.

Styrelsen ansvarar för bolagets organisation och förvaltningen av bolagets angelägenheter. Detta innefattar bland annat att fortlöpande bedöma bolagets ekonomiska situation, och att tillse att bolagets organisation är utformad så att bokföringen, medelsförvaltningen och bolagets ekonomiska angelägenheter i övrigt kontrolleras på ett betryggande sätt.

Revisorns ansvar

Vårt mål beträffande revisionen av förvaltningen, och därmed vårt uttalande om ansvarsfrihet, är att inhämta revisionsbevis för att med en rimlig grad av säkerhet kunna bedöma om någon styrelseledamot i något väsentligt avseende:

- företagit någon åtgärd eller gjort sig skyldig till någon försummelse som kan föranleda ersättningsskyldighet mot bolaget, eller
- på något annat sätt handlat i strid med aktiebolagslagen, årsredovisningslagen eller bolagsordningen.

Vårt mål beträffande revisionen av förslaget till dispositioner av bolagets vinst eller förlust, och därmed vårt uttalande om detta, är att med rimlig grad av säkerhet bedöma om förslaget är förenligt med aktiebolagslagen.

Rimlig säkerhet är en hög grad av säkerhet, men ingen garanti för att en revision som utförs enligt god revisionssed i Sverige alltid kommer att upptäcka åtgärder eller försummelser som kan föranleda ersättningsskyldighet mot bolaget, eller att ett förslag till dispositioner av bolagets vinst eller förlust inte är förenligt med aktiebolagslagen.

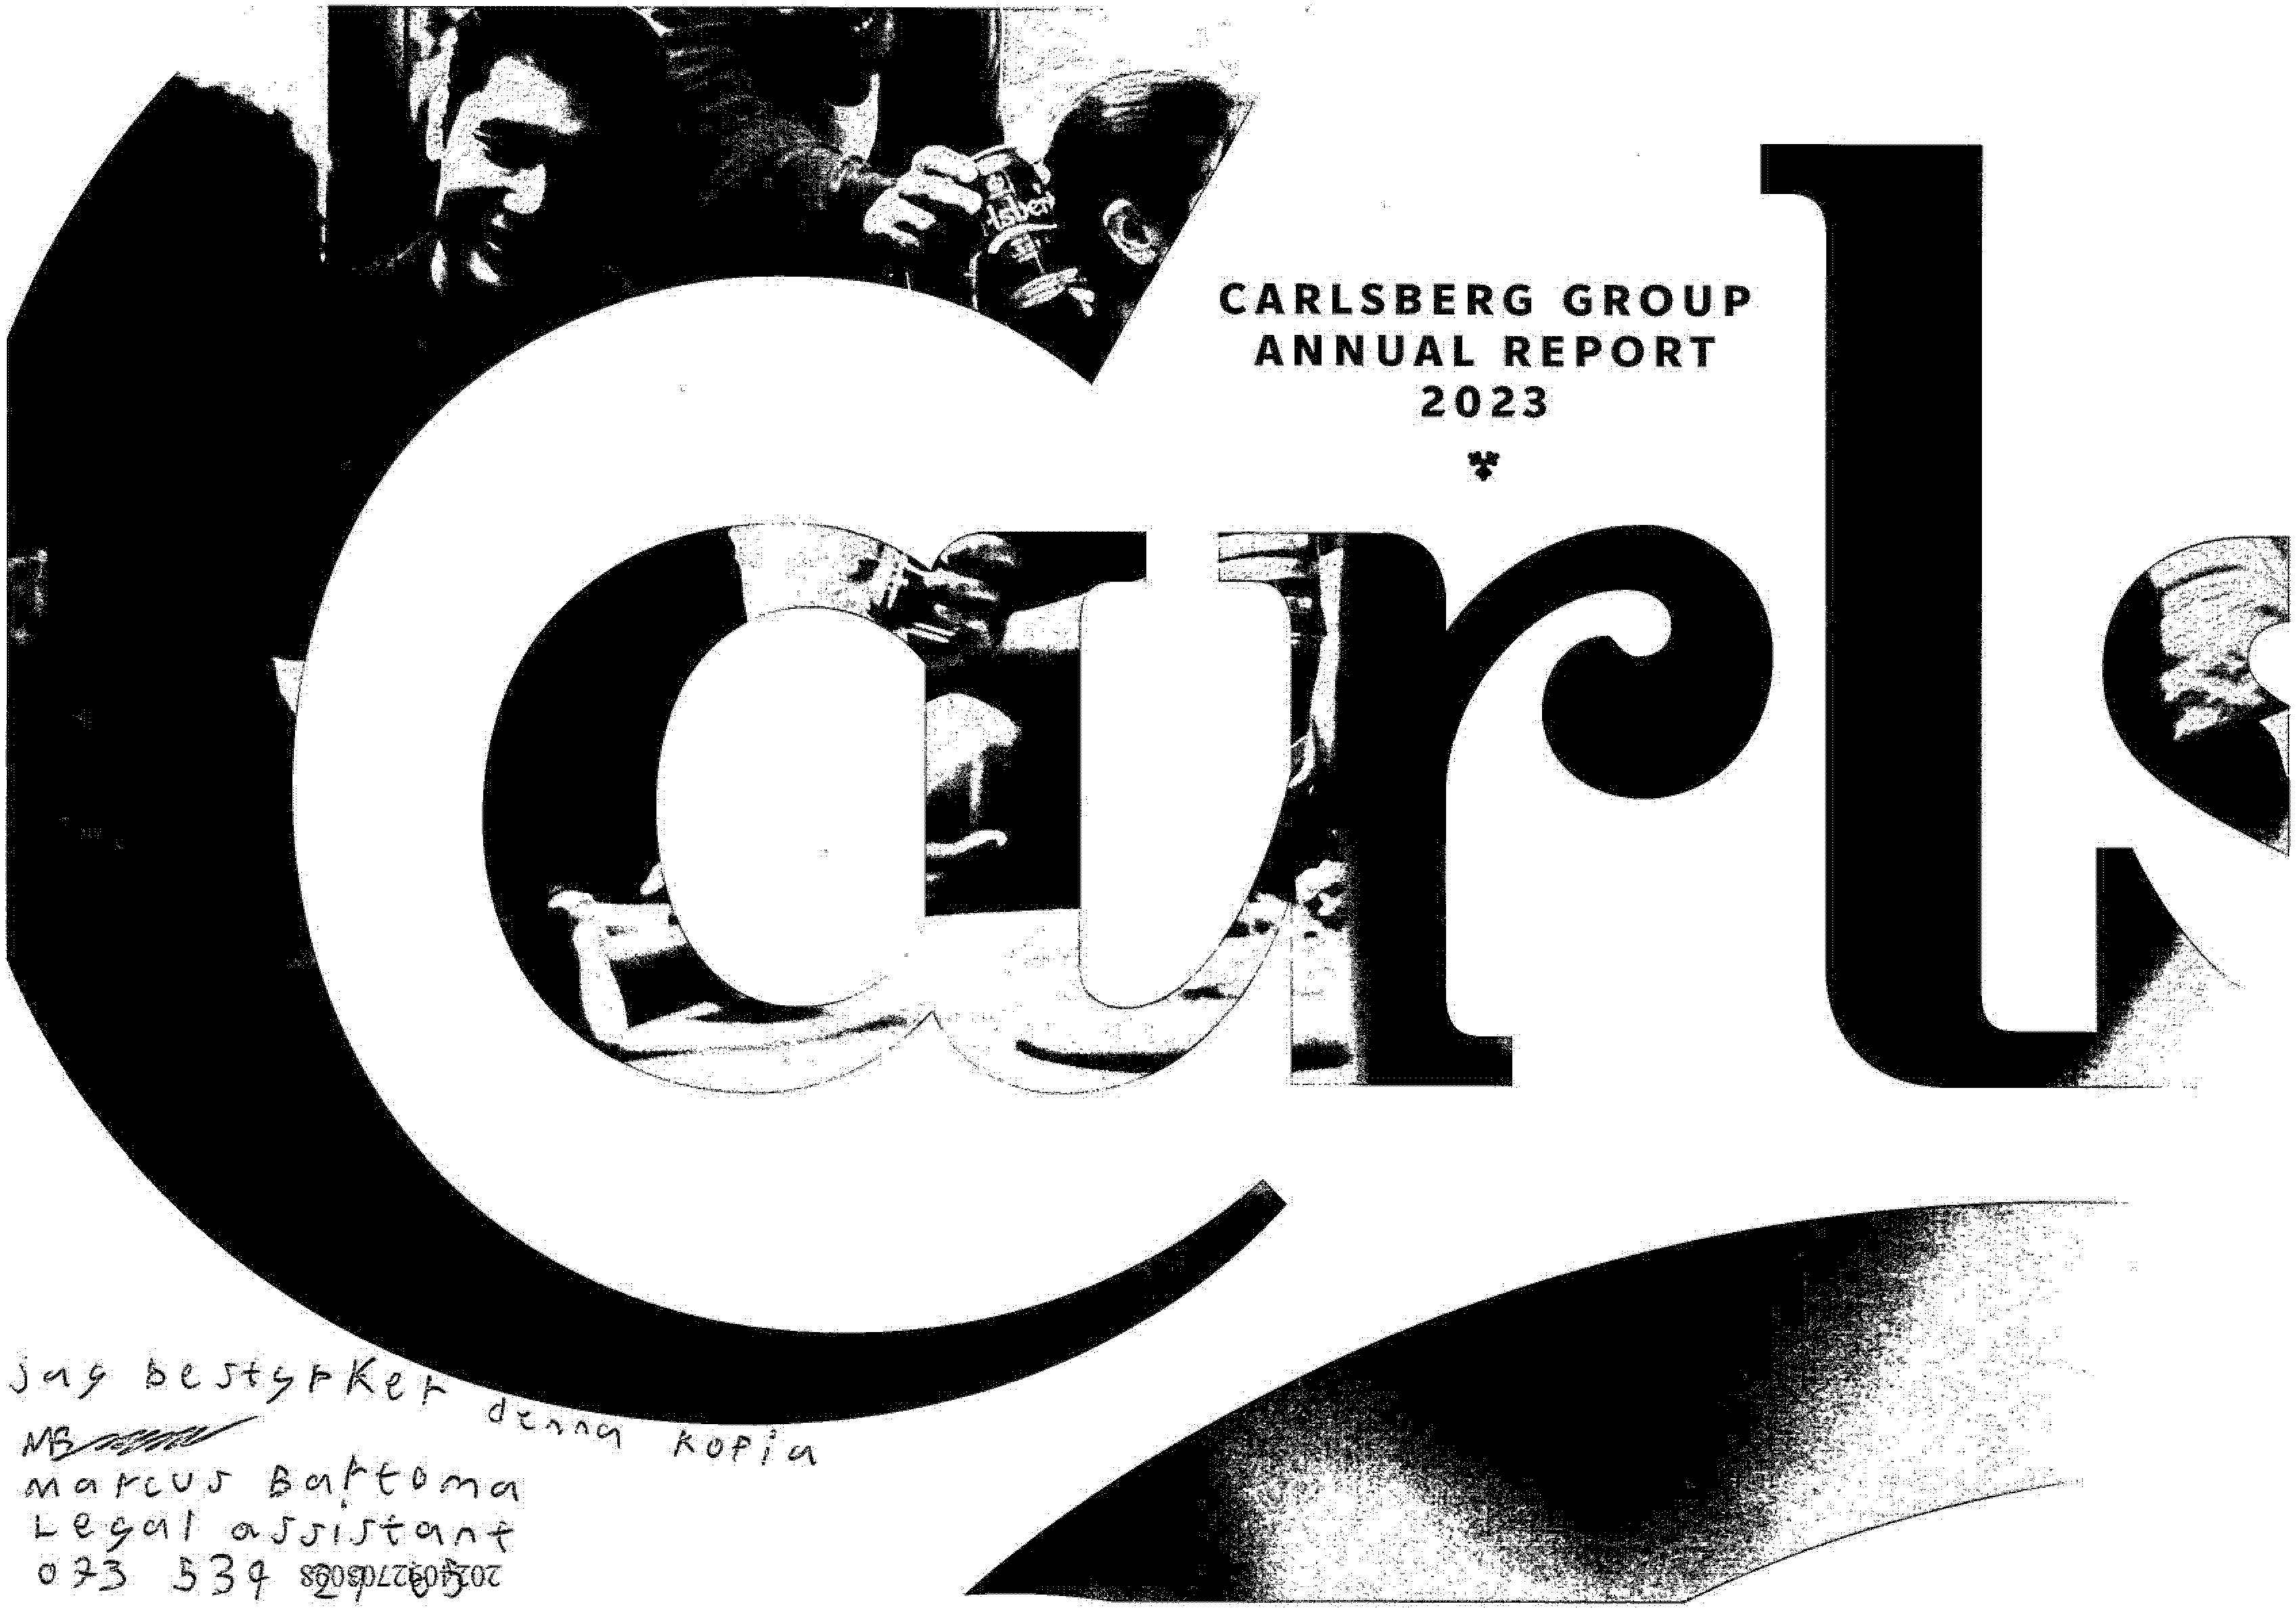

En ytterligare beskrivning av vårt ansvar för revisionen av förvaltningen finns på Revisorsinspektionens webbplats: www.revisorsinspektionen.se/revisornsansvar. Denna beskrivning är en del av revisionsberättelsen.

LETTER FROM THE CHAIR & THE CEO

EMBARKING ON OUR GROWTH JOURNEY

We delivered solid results in a year impacted by a challenging trading environment across our regions.

Organic revenue growth was 9.2%, driven by a strong 10% revenue/hl improvement. Operating profit grew organically by 5.2% despite our cost base being subject to continued inflation throughout the year and increased commercial investments.

The reported operating profit of DKK 11.1bn was impacted by the strengthening of the DKK against a number of key currencies, resulting in reported development of -3.2%. Free operating cash flow was DKK 7.5bn and ROIC was 14.5%.

Despite the weakening consumer sentiment in Europe and Asia during the year, and bad weather in many markets during the important summer months, we were able to upgrade our earnings expectations twice – in May and August.

Thanks to the strong financial health of the Group, we were also able to step up our commercial investments in the latter part of the year in support of our long-term growth opportunities.

The Group's financial results are presented in full on pages 30-33.

SHAREHOLDER RETURNS

Our capital allocation principles are unchanged (see page 10). We will remain disciplined in our allocation decisions to ensure the right balance between continued short-term delivery and building the right long-term profitable growth profile of the business.

Our leverage of 1.47x was well under our target of below 2x, and as a result of the solid business performance and financial position the Group continued its share buy-back programme. During the year, we bought back shares amounting to DKK 3.2bn.

In addition, in March we paid a total dividend of DKK 3.7bn, equivalent to 48% of adjusted net profit from continuing operations in 2022.

At the Annual General Meeting in March 2024, the Supervisory Board will recommend a dividend of DKK 27.0 per share for 2023. The dividend per share is unchanged compared with 2022 and equals a payout ratio of 49% of adjusted net profit for continuing operations.

UKRAINE AND RUSSIA

The war in Ukraine continued to impact our business. The health and safety of our Ukrainian colleagues remain our first priority. We are deeply saddened by the continued hardship and challenges endured by

Henrik Poulsen

Jacob Aarup-Andersen

20240927031100

our people and the population in Ukraine.
Because of the war, we announced the sale of Baltika Breweries – our Russian business – in June. Shortly afterwards, a presidential decree temporarily transferred the management of the business to a Russian federal agency. This step by the Russian authorities had several implications, including the full impairment of the Russian business in the Carlsberg Group's accounts.
Read more on page 40.

CHANGING OF THE GUARDS

2023 saw a changing of the guards. After eight years at the helm of the Carlsberg Group, Cees 't Hart retired at the end of August. Cees leaves behind an impressive legacy, having delivered outstanding results during his tenure.

We want to thank Cees for his significant contribution to Carlsberg, and to wish him all the best for the next chapter of his life.

Jacob Aarup-Andersen joined Carlsberg as new CEO in September, and Ulrica Fearn joined the Group as new CFO in January 2023. The Supervisory Board is convinced that we have the right team on board for the next stage of Carlsberg's value-creating growth journey.

ACCELERATE SAIL

Our strategy, SAIL'27, was developed by a broad group of leaders and colleagues from across the Group in late 2021 and early 2022 – before the war in Ukraine and subsequently high inflation. Because of these significant events, in addition to COVID-19, our focus in the past few years has been on managing these shorter-term challenges.
With the impact from these major disruptions decreasing, it is now time to sharpen the longer-term focus on, and ensure sufficient investments in, our future growth. Consequently, the Executive Committee and extended leadership team conducted a review of the SAIL'27 priorities in late 2023 and early 2024, leading to the refreshed Accelerate SAIL strategy.

We have increased our ambition for top-line growth to 4-6% (previously 3-5%) to be achieved by accelerating support for the most important strategic growth levers, including our premium beer brands, Beyond Beer products and specific geographies.

We will also further strengthen our capabilities, including digital, to build an even more efficient, competitive and scalable company.

Read more about Accelerate SAIL on pages 19-20.

CONTINUED COMMITMENT TO DOING BETTER

Our ESG programme, Together Towards ZERO and Beyond (TTZAB), is an integral part of Accelerate SAIL.

TTZAB focuses on 11 areas, which were identified through an assessment of the most material environmental, social and governance (ESG) topics for our business. This year, we reconfirmed the relevance of these topics through our first double materiality assessment.

As part of TTZAB, we have ambitious targets and commitments. These enable us to tackle global social and environmental challenges while supporting our licence to operate and our ability to brew better beers now and in the future. We recognise that the hardest work is ahead of us, and we will need to challenge ourselves to be able to succeed in our TTZAB ambitions.

In September, we published the results of the 2022 assessment of our full value chain emissions, confirming that we have achieved a 16% reduction in the relative value chain emissions per hectolitre of beer produced compared with 2015.

Read more about our ESG programme and how we will achieve our targets on pages 24-27, and in detail in the ESG Report.

OUR PEOPLE

We are a purpose- and value-driven organisation where respect, responsibility, integrity and caring about each other lead the way, and where we win as a team.

We believe that the foundation for sustained success rests upon fostering a high organisational heartbeat and a strong organisational culture that integrates diversity, equity & inclusion (DE&I).

We are committed to nurturing our inclusive culture, to treating our people with fairness, honesty and kindness, and to making Carlsberg a workplace where everyone belongs and can be at their best.

In 2023 – one year ahead of schedule – we reached our target of 30% women in senior leadership roles. We will continue to drive the DE&I agenda and encourage you to read more about it in our ESG Report.

THANK YOU

This past year, we were again impressed by the high level of engagement and commitment from the Group's employees, and we would like to say thank you to each and every one of them. In particular, we want to acknowledge our long-suffering colleagues in Ukraine.

We greatly appreciate the continued support and trust shown to us by our shareholders. We also extend our thanks to all suppliers and customers for their cooperation during 2023, and express our gratitude to our consumers around the world.

MEET OUR CEO AND OUR CFO

A TALK WITH OUR CEO AND OUR CFO

Our new CEO and CFO share their first impressions of Carlsberg and their ideas for the future.

Please share your initial views of Carlsberg after joining the Group.

Jacob: "First of all, my excitement about this great company has only grown since I started on 1 September. Carlsberg has a unique heritage and purpose, and an amazing legacy from its founders. Combining that with our great brands, our geographical footprint, our highly talented people and our strong culture means we have excellent opportunities to continue to create value in the coming years."

Ulrica: "I already knew I was joining a great company when I started in January 2023. I can say that Carlsberg's purpose is not just words on paper, but really a living part of everyday life. It's a company with high ethical values and high standards in how we do business."

What has impressed you the most?

Jacob: "Being highly familiar with Carlsberg from the outside, it's been the strong culture and passionate colleagues across the Group, who are committed to excellence and proud of the company, the brands and the broader value we create in our communities. I'm also impressed with how the Funding the Journey mentality is embedded across the Group."

Ulrica: "I'm really impressed with the outcome and performance orientation that we have in the Group, and this is something that we'll continue and further develop."

What do you enjoy the most?

Jacob: "I enjoy being part of the team who will unlock the many opportunities in this business and deliver appealing growth rates for many years to come."

Ulrica: "That's an easy one. I truly enjoy working with all my talented, passionate and dedicated colleagues across the Group. And then I'm excited to be back in the branded beverage category."

What can Carlsberg do better?

Jacob: "It's fair to say that the past few years have been extraordinary and challenging, calling for a short-term focus. Fortunately, we can now take on a more longer-term focus to realise the growth potential of our categories, brands and geographies, while continuing the short-term delivery."

Ulrica: "We have a very strong foundation. But it's inherent in the nature of business that there are always things that can be done better and areas to improve. One area is our ways of working and processes, which can be streamlined and made less complicated, freeing up time and resources for value-adding activities. We can also do better on data and analytics, and leverage this commercially and in the back-end."

20240927031102

WELCOMING JACOB TO THE CARLSBERG GROUP
After joining Carlsberg, Jacob Aarup-Andersen began an intense and fast-paced onboarding, deep-diving into all major areas of the business, travelling to many markets, visiting breweries, and spending time with customers and consumers in the off-trade and on-trade, and with key people across the organisation.

EMBRACING OUR PURPOSE AND STRATEGY...
Being highly familiar with Carlsberg's unique history and purpose, Jacob obtained a thorough understanding of SAIL'27 by engaging with managers and colleagues across markets and functions.

... MEETING OUR REGIONS...
Jacob met with staff in regions and markets, getting insights into the fundamentals of the regions and markets in terms of market dynamics and outlook, competitive landscape, segments and brands, financials, and risks and opportunities.

... UNDERSTANDING KEY FUNCTIONS...
Our people are key to Carlsberg's success, and an introduction to Carlsberg's HR agenda was an important topic in addition to getting acquainted with the commercial organisation, IT, the supply chain and the Carlsberg Research Laboratory, where ground-breaking research has taken place since its foundation in 1875.

... ENDORSING TOGETHER TOWARDS ZERO & BEYOND...
Being an important priority in SAIL'27, Jacob fully endorses our ESG programme, Together Towards ZERO and Beyond, including the ambitious targets for our focus areas (read more on pages 24-25 and in the ESG Report).

... AND FAMILIARISING HIMSELF WITH THE ART OF BREWING
We take great pride in brewing high-quality beers, and obviously an important element of Jacob's onboarding was a thorough introduction to the art of brewing.

20240927031103

HIGHLIGHTS OF THE YEAR

KEY EVENTS DURING 2023

JANUARY

ULRICA FEARN JOINS CARLSBERG

On 1 January, Ulrica Fearn joined Carlsberg as Chief Financial Officer and member of the Executive Board. Find out more about Ulrica on pages 5 and 54.

MARCH

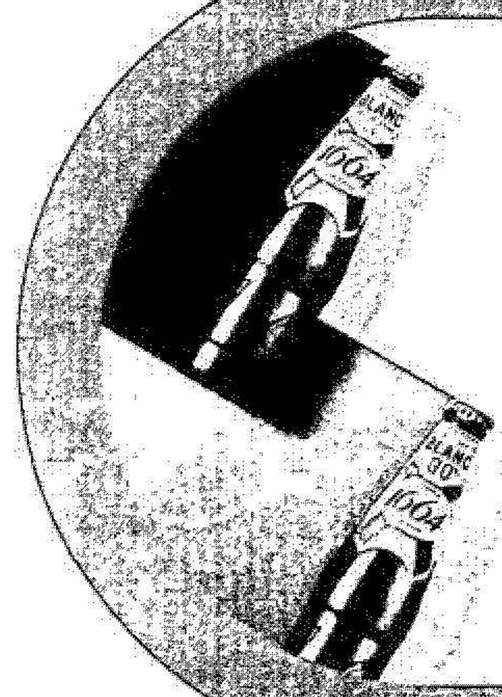

SIGNING THE UN WOMEN'S EMPOWERMENT PRINCIPLES

The Carlsberg Group signed the guiding principles on women's empowerment and gender equity, further cementing the company's diversity, equity & inclusion (DE&I) commitment. Read more about our DE&I work and targets in the ESG Report.

JUNE

REFRESHED VISUAL IDENTITY

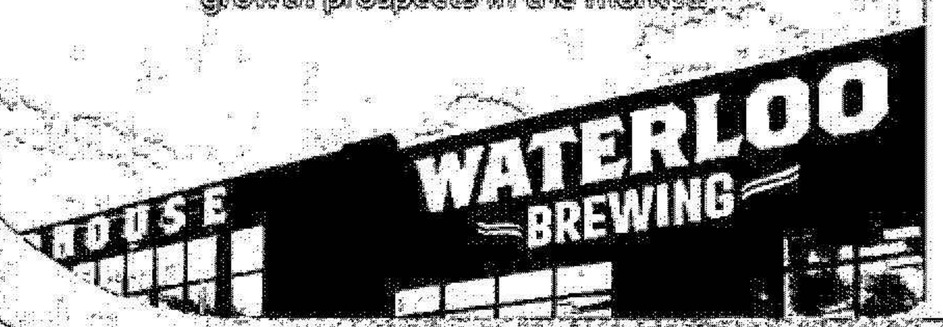

We unveiled a refreshed brand identity for the 1664 portfolio, elevating the brand image and building on its global success. Still undeniably French, the refreshed brand identity is designed to feel modern, be easily recognisable and continue to build premium perceptions. Read more on page 21.

MARCH

ACQUISITION OF WATERLOO BREWING

The Group acquired Waterloo Brewing in Canada, strengthening our local business, reducing logistics costs and improving our growth prospects in the market.

JUNE

KRONENBOURG 1664 IN THE UK

We terminated the licensee agreement in the UK for the Kronenbourg 1664 brand. Bringing this iconic beer brand home to Carlsberg Marston's Brewing Company is a great complement to our local portfolio and will support our Accelerate SAIL ambition of strengthening and growing our premium portfolio.

JUNE

BROOKLYN PILSNER AND GLASTONBURY FESTIVAL

Brooklyn Pilsner was the official beer of the Glastonbury Festival, the largest greenfield music and performing arts event in the world. Bars across the expansive site served the ultimate summer refreshment thanks to the beer's crisp, bright and refreshing taste. Read more about Brooklyn on page 21.

20240927031104

JUNE

INVESTING IN UKRAINE

In 2023, Carlsberg invested around EUR 40m in Ukraine, including in a new production line at the Kiev brewery, increasing can capacity by 80%. The investment is testament to Carlsberg's ongoing commitment to the business in Ukraine. Read about the results in Ukraine on page 38.

JUNE/JULY

THE RUSSIAN BUSINESS

On 23 June, Carlsberg announced that it had signed an agreement to sell the Russian business. On 16 July, the Russian government issued a presidential decree, temporarily transferring the management of our Russian business to the Russian Federal Agency for State Property Management. Read more on page 40.

AUGUST

FAREWELL TO CEES 'T HART

We said farewell to Cees 't Hart, our CEO since June 2015. We pay tribute to his remarkable achievements at Carlsberg and the invaluable steps he took to drive Carlsberg's progress. Total annual cash returns to shareholders in 2022 were 4.6 times higher than in 2015.

SEPTEMBER

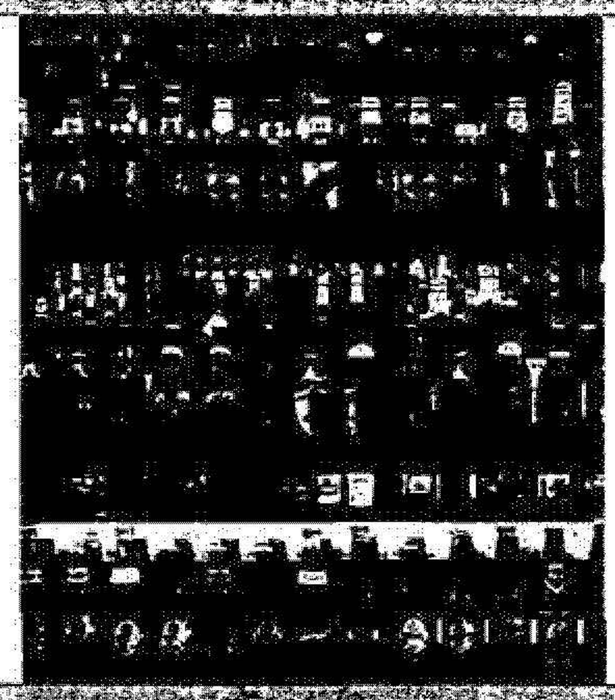

WELCOMING JACOB AARUP-ANDERSEN

On 1 September, we welcomed Jacob Aarup-Andersen as the new CEO of the Carlsberg Group. Jacob has a strong strategic mindset and global operational experience, and is an engaging and purpose-led leader. Meet Jacob on pages 5-6 and 54.

SEPTEMBER

CO_2 REDUCTIONS AHEAD OF TARGET

We announced the result of the updated assessment of our full value chain carbon emissions, showing better-than-targeted performance. Our actual delivery was a 16% reduction, ahead of the target of 15% reduction versus 2015. Read more on page 26.

DECEMBER

HOME OF CARLSBERG

We opened the doors to Home of Carlsberg, our new visitor centre. The 3,000 m² exhibition is located right where it all began, and includes a restaurant and bar, our brewery horses, architectural buildings, beer tastings, old cellars and – probably – the world's largest bottle collection.

CAPITAL ALLOCATION

PRINCIPLES MAINTAINED

We delivered well against our capital allocation principles. We maintain our commitment to these principles and will ensure the right balance of investing in compounding, profitable, long-term growth and delivering continued cash returns to our shareholders.

1

INVESTING IN OUR BUSINESS TO DRIVE LONG-TERM SUSTAINABLE GROWTH

+10%

We continued to invest in our business in support of our SAIL'27 priorities. In Q4, we accelerated our commercial investments in support of our growth categories, including premium beer, Beyond Beer and growth in Asia. For the year, marketing investments grew organically by 10%.

We will continue to ensure sufficient support of and investments in our brands, markets and capabilities to drive sustainable, compounding growth.

2

TARGETING NIBD/EBITDA OF BELOW 2.0X.

1.47x

The net interest-bearing debt to EBITDA ratio remained conservative at 1.47x.

This was well below our target of below 2.0x

3

TARGETING AN ADJUSTED PAYOUT RATIO OF AROUND 50%

49%

At the Annual General Meeting on 11 March 2024, the Supervisory Board will propose a dividend per share of DKK 27, or a total of DKK 3.6bn. This equals a payout ratio of 49% of adjusted net profit for continuing operations.

4

DISTRIBUTING EXCESS CASH TO SHAREHOLDERS THROUGH SHARE BUY-BACKS

3.2bn

In 2023, we bought back 3,338,514 shares at an average price of DKK 958, equal to a total purchase price of DKK 3.2bn.

At the Annual General Meeting on 11 March 2024, the Supervisory Board will recommend that 3.1m treasury shares not used for hedging of incentive programmes be cancelled, equalling a decrease of 2.3% in the total number of shares.

5

VALUE-ENHANCING M&A

2023

We completed the acquisition of Waterloo Brewing Ltd. in Canada.

In the UK, Carlsberg Marston's Brewing Company took over the Kronenbourg 1664 brand, terminating a licensee agreement.

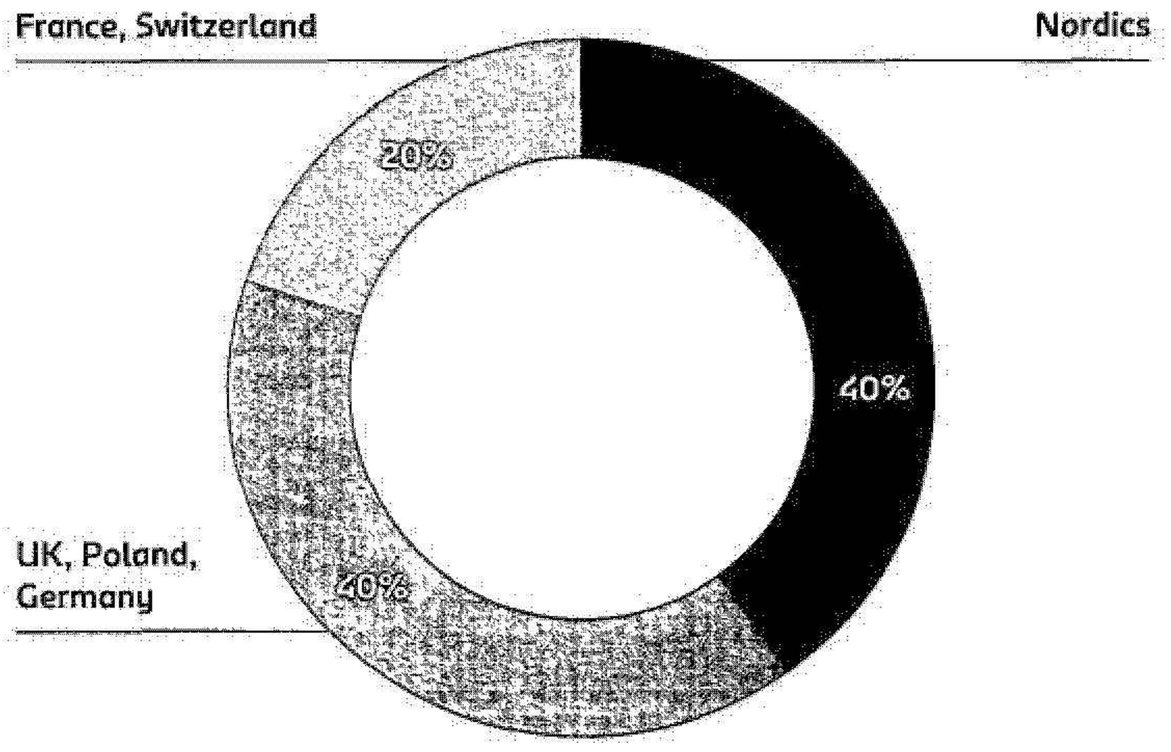

20240927031107

OUR REGIONS

WESTERN EUROPE

While volumes in Western Europe were impacted by bad weather in many markets during the peak season and soft consumer sentiment, revenue/hl growth was strong, supporting organic revenue and operating profit growth.

OUR PURPOSE

BREWING FOR A BETTER TODAY AND TOMORROW

We pursue perfection every day. We strive to brew better beers. Beers that stand at the heart of moments that bring people together. We do not settle for immediate gain when we can create a better tomorrow for all of us.

Our purpose stated above is rooted in our heritage and in the mentality of our founders, who left a rich legacy that still greatly influences how we run our business today. Their pioneering spirit, passion for brewing and proactive contribution to society are what make us who we are.

We are proud of our purpose of "Brewing for a better today and tomorrow". Current and prospective employees look for companies with a clear purpose, a keen sense of social responsibility, and work that has meaning and gives them a sense of belonging.

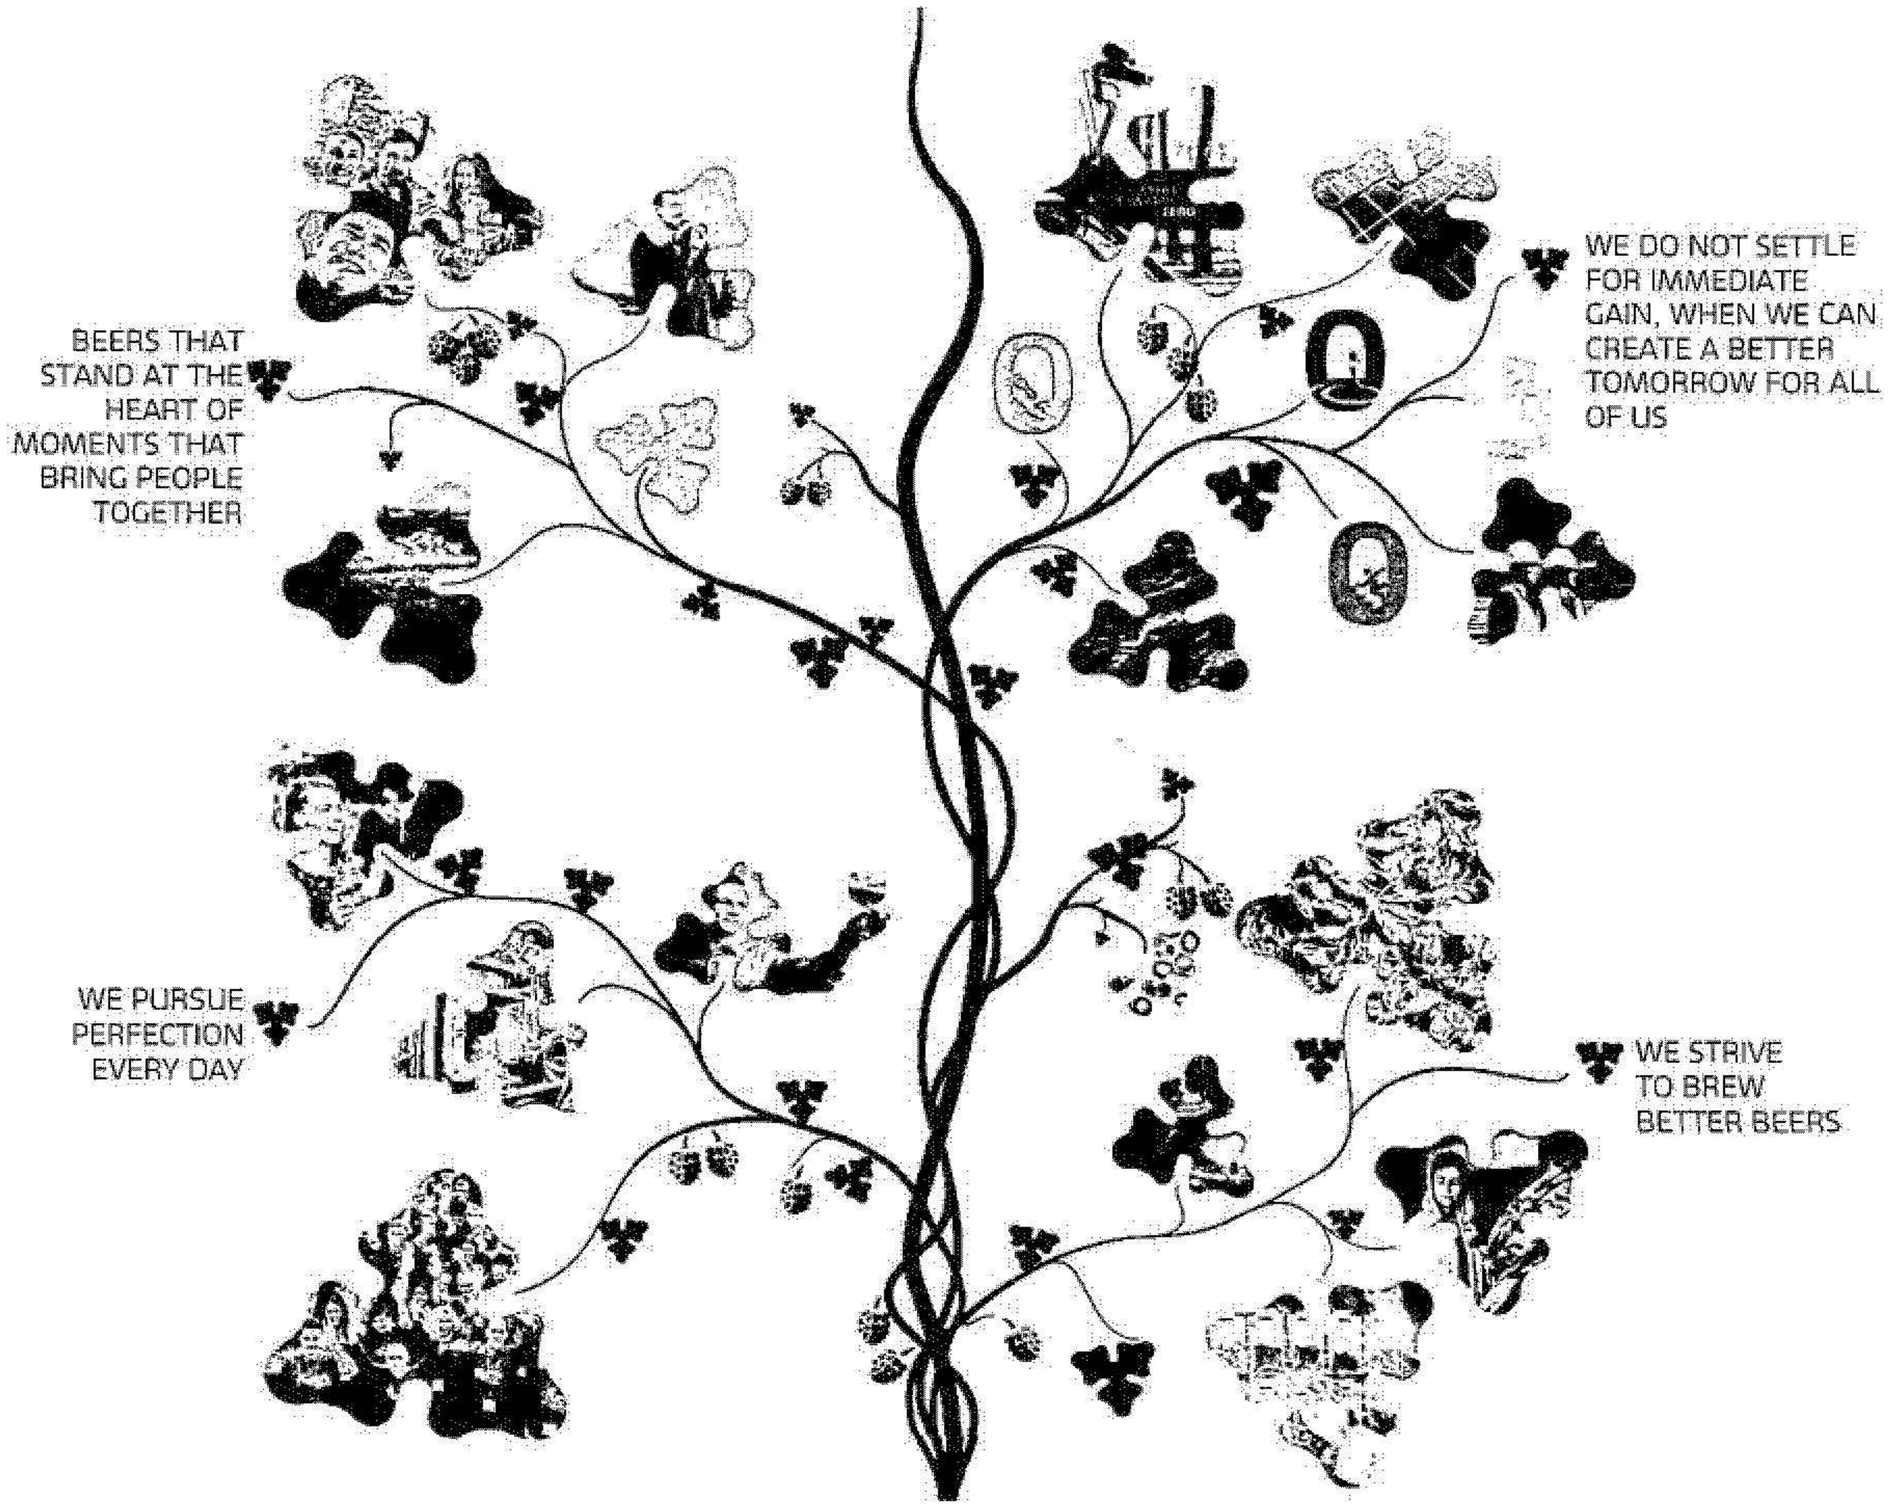

We live our purpose every day by focusing on our brands and the art of brewing, exciting our consumers with quality brews that strengthen our identity and pride as brewers, and by continuously aiming to do better.

We will continue to live our purpose, as it is key for the successful execution of our strategy and for achieving our ambition of being successful, professional and attractive in our markets:

Successful in ensuring the financial health of our company by outperforming our competitors through improved market share, revenue, margins and compounding earnings growth.

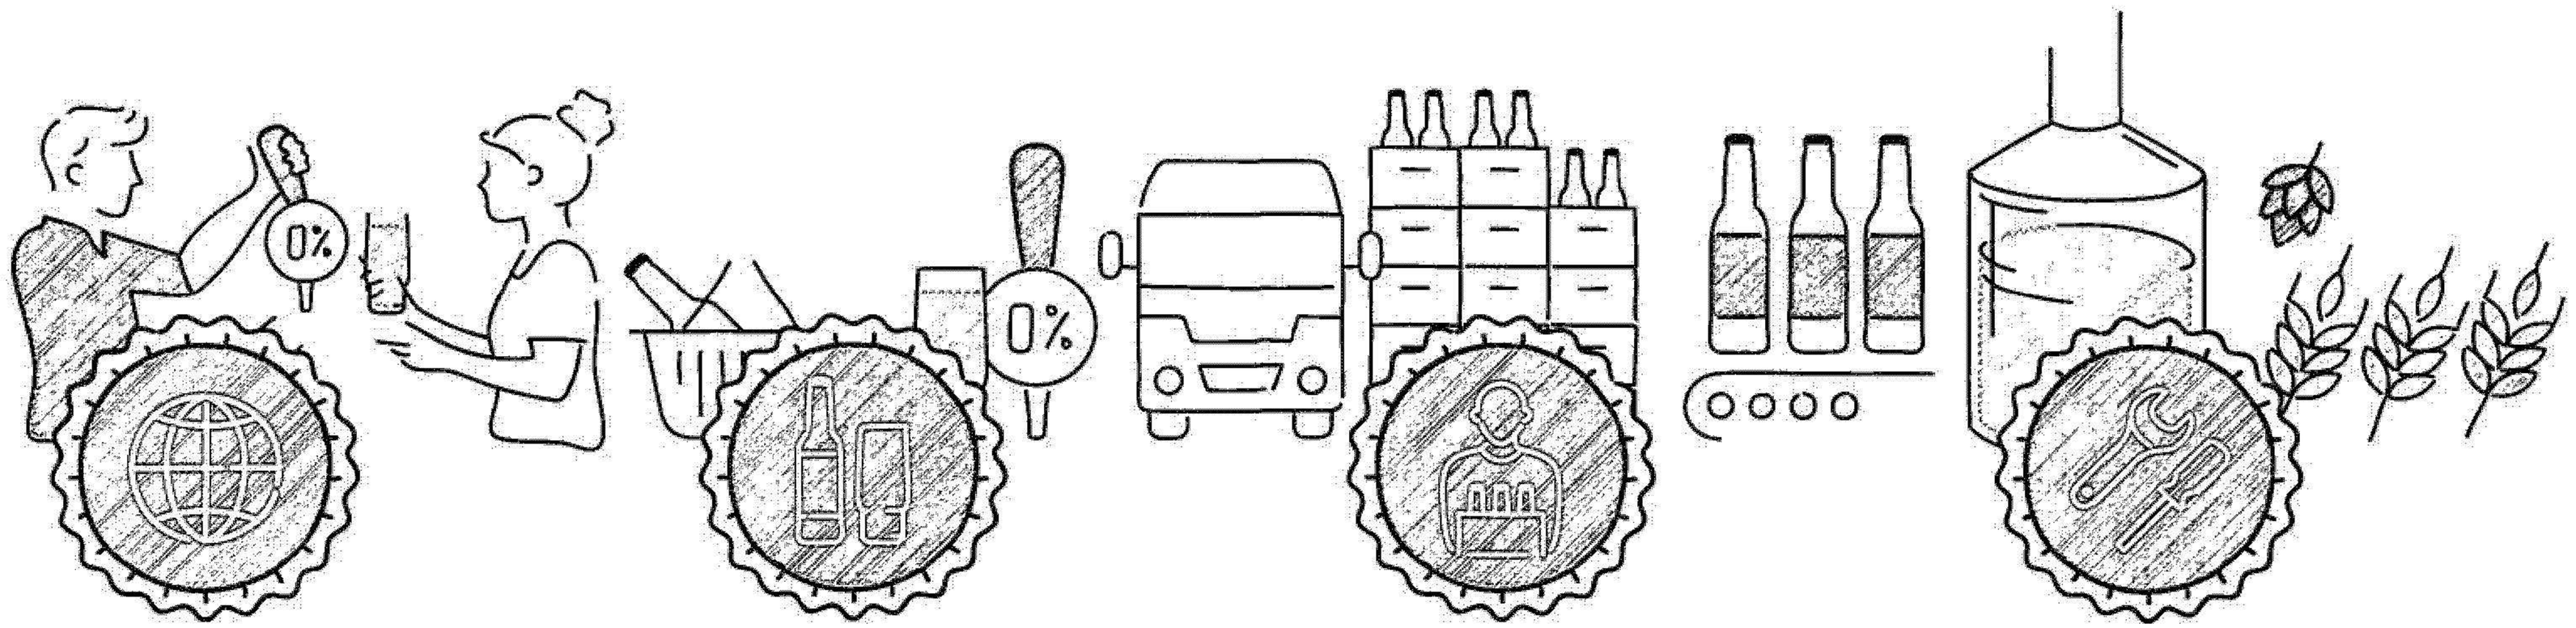

Professional in ensuring the strategic health of our company by delivering the highest standards in everything we do, including brands, brews and service.

Attractive in ensuring the organisational and societal health of our company by being purpose-led and performance-driven for shareholders, employees and society.

202409270311 4

OUR BUSINESS MODEL
ROOTED IN OUR PURPOSE

WE FOCUS ON THE MARKETS WHERE WE HAVE A NO. 1 OR 2 POSITION...

Core beer is a volume business, and strong market positions are key drivers of profitability. We have particular focus on the 21 markets in Western Europe, Asia and Central & Eastern Europe where we are no. 1 or 2.

BREWING FOR A BETTER TODAY AND TOMORROW

In all our markets, we aim to lead in sustainability because it is central to our purpose and because we genuinely believe it is the right thing to do – delivering tangible benefits for our business and for society as a whole.

... WHERE WE DELIVER AN ATTRACTIVE BEER PORTFOLIO FOR ALL CONSUMER OCCASIONS...

The strength of our beer portfolio lies in the strong local roots of our local power brands, combined with our local and international premium brands, alcohol-free brews and brands Beyond Beer.

BREWING FOR A BETTER TODAY AND TOMORROW

Our brands offer us powerful opportunities for communicating with consumers. We use these opportunities to encourage moderate, responsible consumption of our products. We also increase the availability of low- and alcohol-free brews.

... AND STRIVE TO EXCEL IN OUR SERVICE TO ON- AND OFF-TRADE CUSTOMERS...

Our customers range from on-trade to off-trade, from online to offline, and from small to large. We aim to become their preferred beer supplier, offering products and services that deliver value growth for them and us.

BREWING FOR A BETTER TODAY AND TOMORROW

We develop digital solutions and services to help our customers grow their business. We engage in developing sustainable packaging solutions and launching initiatives to increase collection and recycling rates.

... BY OPTIMISING OUR SUPPLY CHAIN AND IMPROVING PROCESSES AND SYSTEMS.

We optimise systems and processes to deliver the right data at the right time in support of our growth agenda, and optimise asset utilisation while brewing high-quality beer.

BREWING FOR A BETTER TODAY AND TOMORROW

Recognising the need for strong actions in the face of complex sustainability challenges, Together Towards ZERO and Beyond sets ambitious targets for carbon, water, agricultural raw materials, packaging, and health & safety.

202409270311 5

OUR STRATEGY

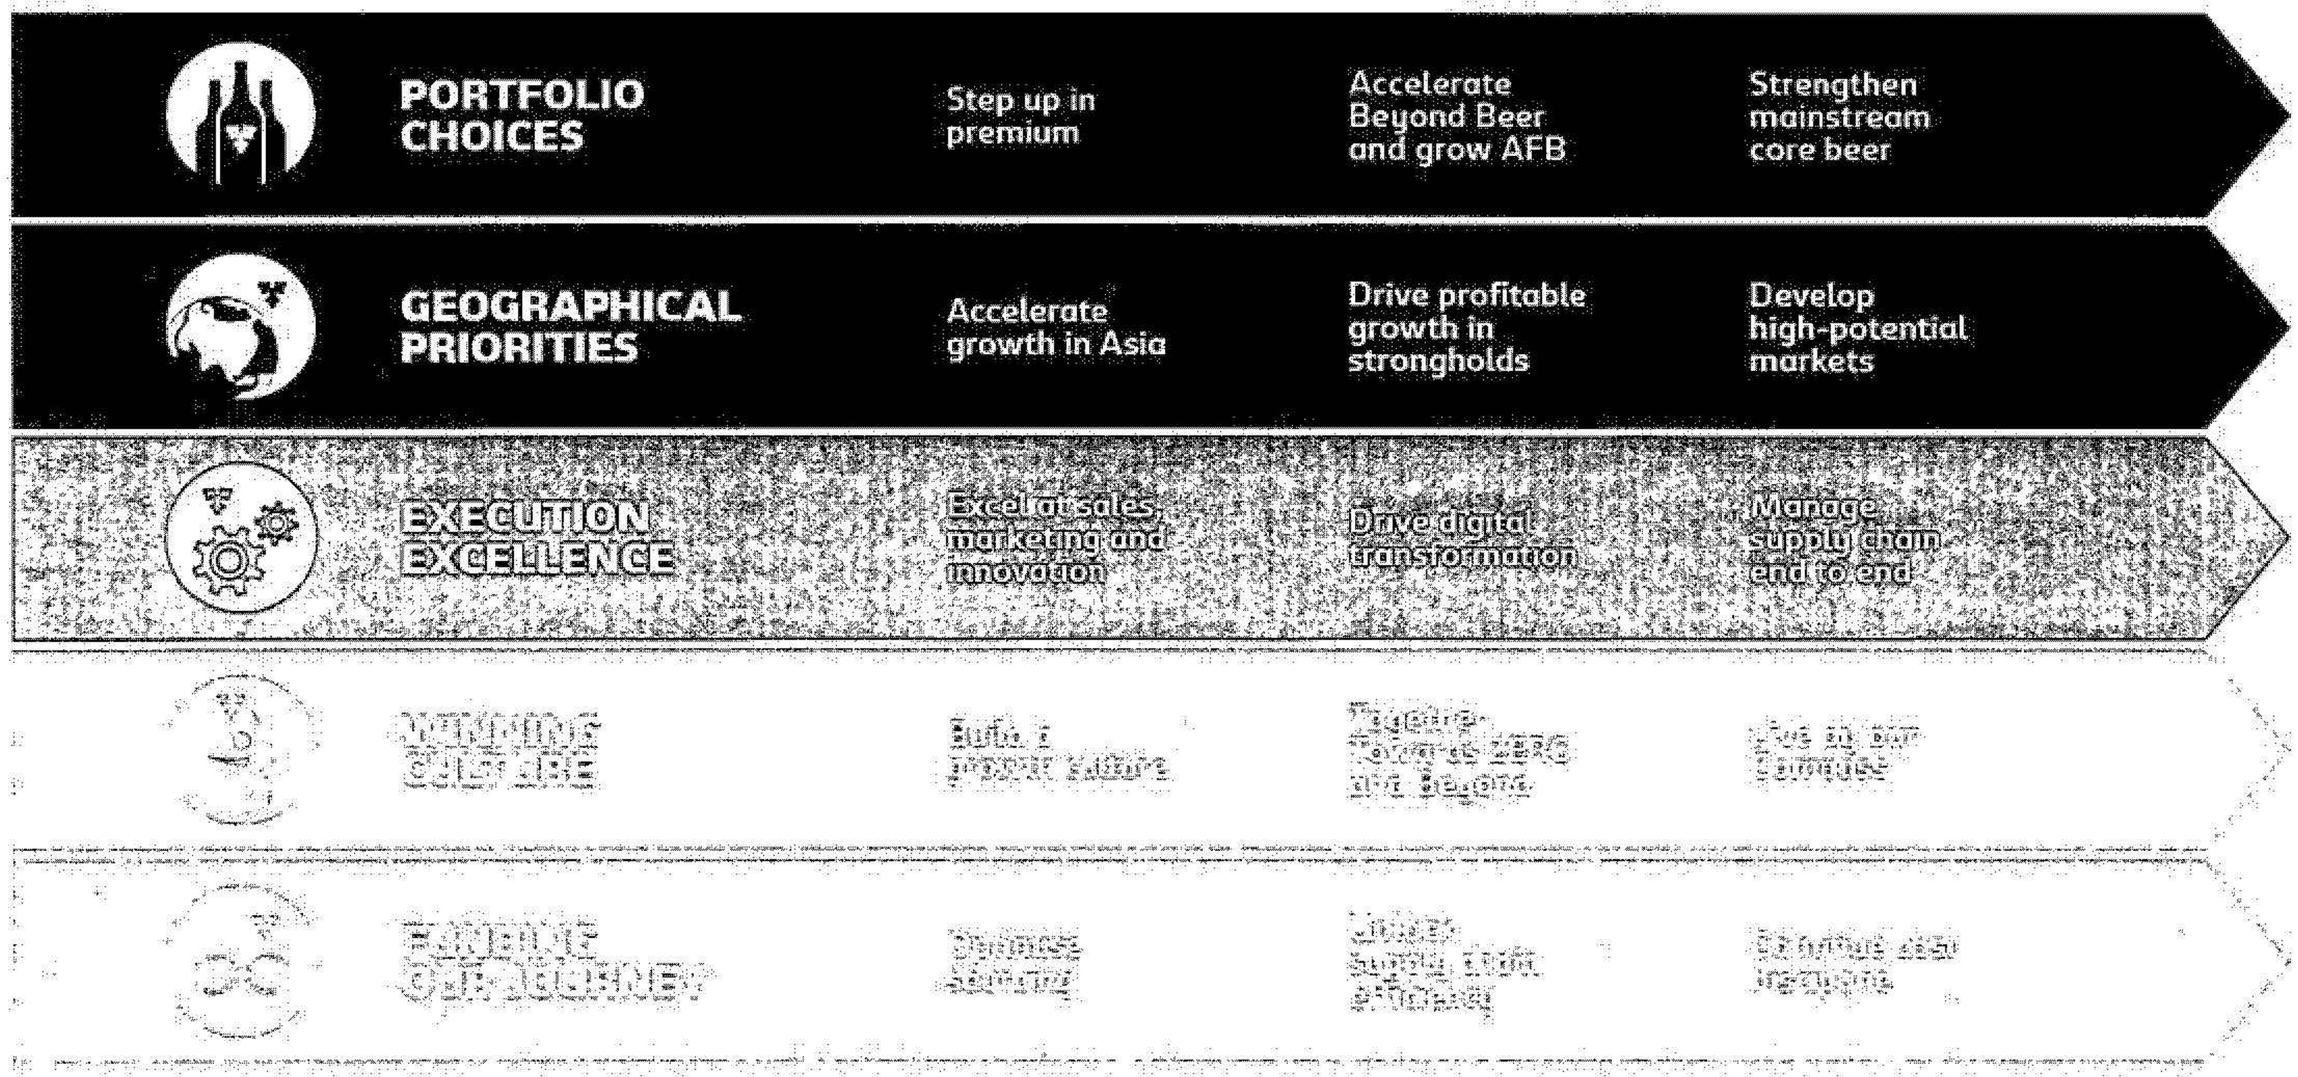

ACCELERATE SAIL

Launched in early February 2022, SAIL'27 remains our strategic frame, but with Accelerate SAIL we will sharpen our focus on long-term compounding growth.

The Group's strategy, SAIL'27, was developed by a broad group of leaders and employees in late 2021 and early 2022 – before the war in Ukraine and subsequent high inflation. These significant events, in addition to COVID-19, meant that the focus in the past few years has been on successfully navigating through these shorter-term challenges.

With the impact from these major disruptions decreasing, it is now time to sharpen the longer-term focus on, and ensure sufficient investments in, our future growth. Consequently, the Executive Committee and extended leadership team conducted a review of the SAIL'27 priorities in late 2023 and early 2024, leading to the refreshed Accelerate SAIL strategy.

SAIL'27 set the strategic frame for Carlsberg. Accelerate SAIL builds on this foundation, setting higher growth ambitions by increasing investments in and support for selected growth drivers within portfolio, geographies and capabilities, improving supply

CREATING VALUE FOR ALL OUR STAKEHOLDERS

SHAREHOLDERS
- Organic revenue growth of 4-6% CAGR.
- Organic operating profit growth above revenue growth.
- Continued ROIC focus.
- Disciplined capital allocation.
- Ambitious sustainability targets.

EMPLOYEES
- A purpose-led and growth-driven company with strong development opportunities and engagement.
- An attractive, diverse and inclusive workplace.
- Strong brands, quality products and ambitious sustainability efforts to be proud of.

SOCIETY
- Championing sustainability in our journey Together Towards ZERO and Beyond.
- Enabling the Carlsberg Foundation to grant funding to science, art and culture.
- Partnering with communities and contributing to prosperity in the markets in which we operate.

20240927031116

chain efficiency, developing a growth culture and continuing the well-embedded cost focus.

The key elements of Accelerate SAIL are explained in the following.

STEP UP PREMIUM GROWTH

The premium category remains attractive across our markets, where we see appealing growth and margin opportunities. Premium accounts for 20% of the Group's total volumes and is a key revenue growth driver.

In recent years, our strong portfolio of international and local premium brands has outperformed our mainstream portfolio despite the significant external headwinds. By increasing investments in marketing and brand building and further developing our execution capabilities, we believe that we can accelerate growth of our premium portfolio and significantly increase the premium exposure.

ACCELERATE BEYOND BEER

Our opportunities in Beyond Beer will initially be captured through the Somersby and Garage brands, which are well established in many markets. The category currently accounts for 2% of our total volumes.

We aim to grow the Beyond Beer category in our business through increased investments in brand building, innovation, footprint expansion and execution. We will also explore opportunities to expand our Beyond Beer portfolio through partnerships and local brand extensions, leveraging our strong route-to-market.

ACCELERATE GROWTH IN ASIA

Asia has been and remains a key volume and value growth driver for the Group.

As part of Accelerate SAIL, we remain committed to growing in China, which is our largest market. We still see attractive volume and value growth opportunities in this market in the coming years for our strong premium portfolio of local and international beer and Beyond Beer brands, both in our strongholds in the western part of the country and in the big cities. We will strengthen our presence and market share in existing big cities by developing and advancing our route-to-market, while continuing to seed for the future in recently entered and new cities.

In Vietnam, we will continue the execution of our multi-year transformation strategy with its clear ambition to accelerate momentum by increasing investments and achieve growth through focus on key brands, regions and capabilities. In India, we will investigate an acceleration plan when possible.

DRIVE PROFITABLE GROWTH IN STRONGHOLDS

We will maintain our focus on driving profitable growth in our stronghold markets, such as the Nordics, Switzerland, France and Laos by leveraging our strong portfolios, our scale and leading route-to-market set-up.

DRIVE DIGITAL TRANSFORMATION

We have identified the key capabilities and enablers for the delivery of our Accelerate SAIL ambitions. These require improved tools, processes and digitisation in areas such as value management, sales execution and B2B e-commerce (eB2B) to drive revenue growth, and in the areas of supply chain management end to end and transactional processes to drive productivity. We will ensure the right investments behind these capabilities and enablers.

FUNDING OUR JOURNEY

Over the coming years, we intend to restore gross margins to pre-COVID levels to enable the step-up in investment levels required to capture the growth opportunities. The opportunities lie in supply chain areas such as procurement, value engineering and standardisation of raw and packaging materials across markets.

The Group already has a very strong and well-embedded cost focus across the business, centred in particular around SG&A costs and enabled by the operating cost management (OCM) framework, which will be maintained.

BUILD A GROWTH CULTURE

Carlsberg has a strong performance- and cost-focused culture. Building on this strong foundation, we will develop our corporate culture to become more growth-oriented and reward calculated risk-taking.

We will do that by developing our Leadership Charter to show how our values translate into behaviours, ways of working and leadership profiles, and design employee incentive programmes to support a growth culture. Our growth culture will also encompass a systematic approach to talent development across the Group and increase global mobility to ensure the right capabilities at the right time in the right place.

TOGETHER TOWARDS ZERO AND BEYOND

We remain committed to our ESG programme - Together Towards ZERO and Beyond - and our ambitious targets for carbon emissions, regenerative farming, packaging, water, irresponsible drinking, accidents and diversity.

RAISING OUR AMBITIONS

As a result of Accelerate SAIL, we are raising our long-term growth ambitions (with 2024 as baseline):

- Organic revenue growth of 4-6% CAGR (previously 3-5%).
- Organic operating profit growth ahead of revenue growth.

The financial health of the business is strong and provides a good foundation for Accelerate SAIL. In the coming years, we will increase our commercial investments to support our growth ambitions. Consequently, we expect marketing/revenue to reach around 9%. We will increase sales expenses, but aim to keep SG&A/revenue flat through continued tight G&A cost control. The higher commercial investments will be financed by gradually restoring the gross margin to pre-COVID levels through supply chain productivity improvements.

Our capital allocation priorities – in place since 2016 – remain unchanged (see page 10).

SAIL'27 is presented in full in the 2022 Annual Report, available on www.carlsberggroup.com. In the following pages, we highlight examples of how SAIL'27 came alive during 2023.

20240927031117

Step up in premium

1664 – A LIFE-STYLE BRAND

In 2023, we unveiled a refreshed identity for 1664 to elevate the brand image and build on its global success. While the iconic blue bottle is unchanged, the primary packaging now features a more contemporary iteration of the brand's cockade, variant styling, and a bold yet elegant new bespoke typeface, all printed on premium matte label paper. Still undeniably French, the refreshed brand identity was designed to feel modern, be easily recognisable and continue to build premium perceptions. 1664 became our key international super-premium brand in 2016, and its continued success builds upon well-executed strategies for brand assets, portfolio offerings, distribution and execution. In 2023, 1664 grew by 3%, supported by strong growth in both existing and new markets, such as Norway, Finland, Switzerland, Serbia, Ukraine and Vietnam.

Step up in premium

BROOKLYN BEER DELIGHTS FESTIVAL-GOERS

Recognised globally as an iconic craft beer brand, Brooklyn is a craft beer for the many, bringing the welcoming spirit of Brooklyn to the world. Embracing this essence of diverse communities, common values and self-expression, Brooklyn Pilsner was the official beer of the Glastonbury Festival in the UK – the world's largest greenfield music and performing arts event. As a festival that encourages and stimulates culture around the world, there were clear synergies with Brooklyn's values. Bars located across the expansive site served Brooklyn Pilsner throughout the five-day event, delighting festival-goers with the ultimate summer refreshment. We also engaged with a wide range of other amazing music festivals across Europe, including Roskilde Festival, Copenhell and Queer Distortion in Denmark, Sideway Festival in Finland and 12 different festivals in Poland, all serving up our vibrant portfolio of beers. In 2023, we reached close to one million happy festival-goers, supporting the total Brooklyn volume growth of 34%.

Strengthen mainstream core beer

LEVERAGING OUR CORE BRANDS IN CHINA

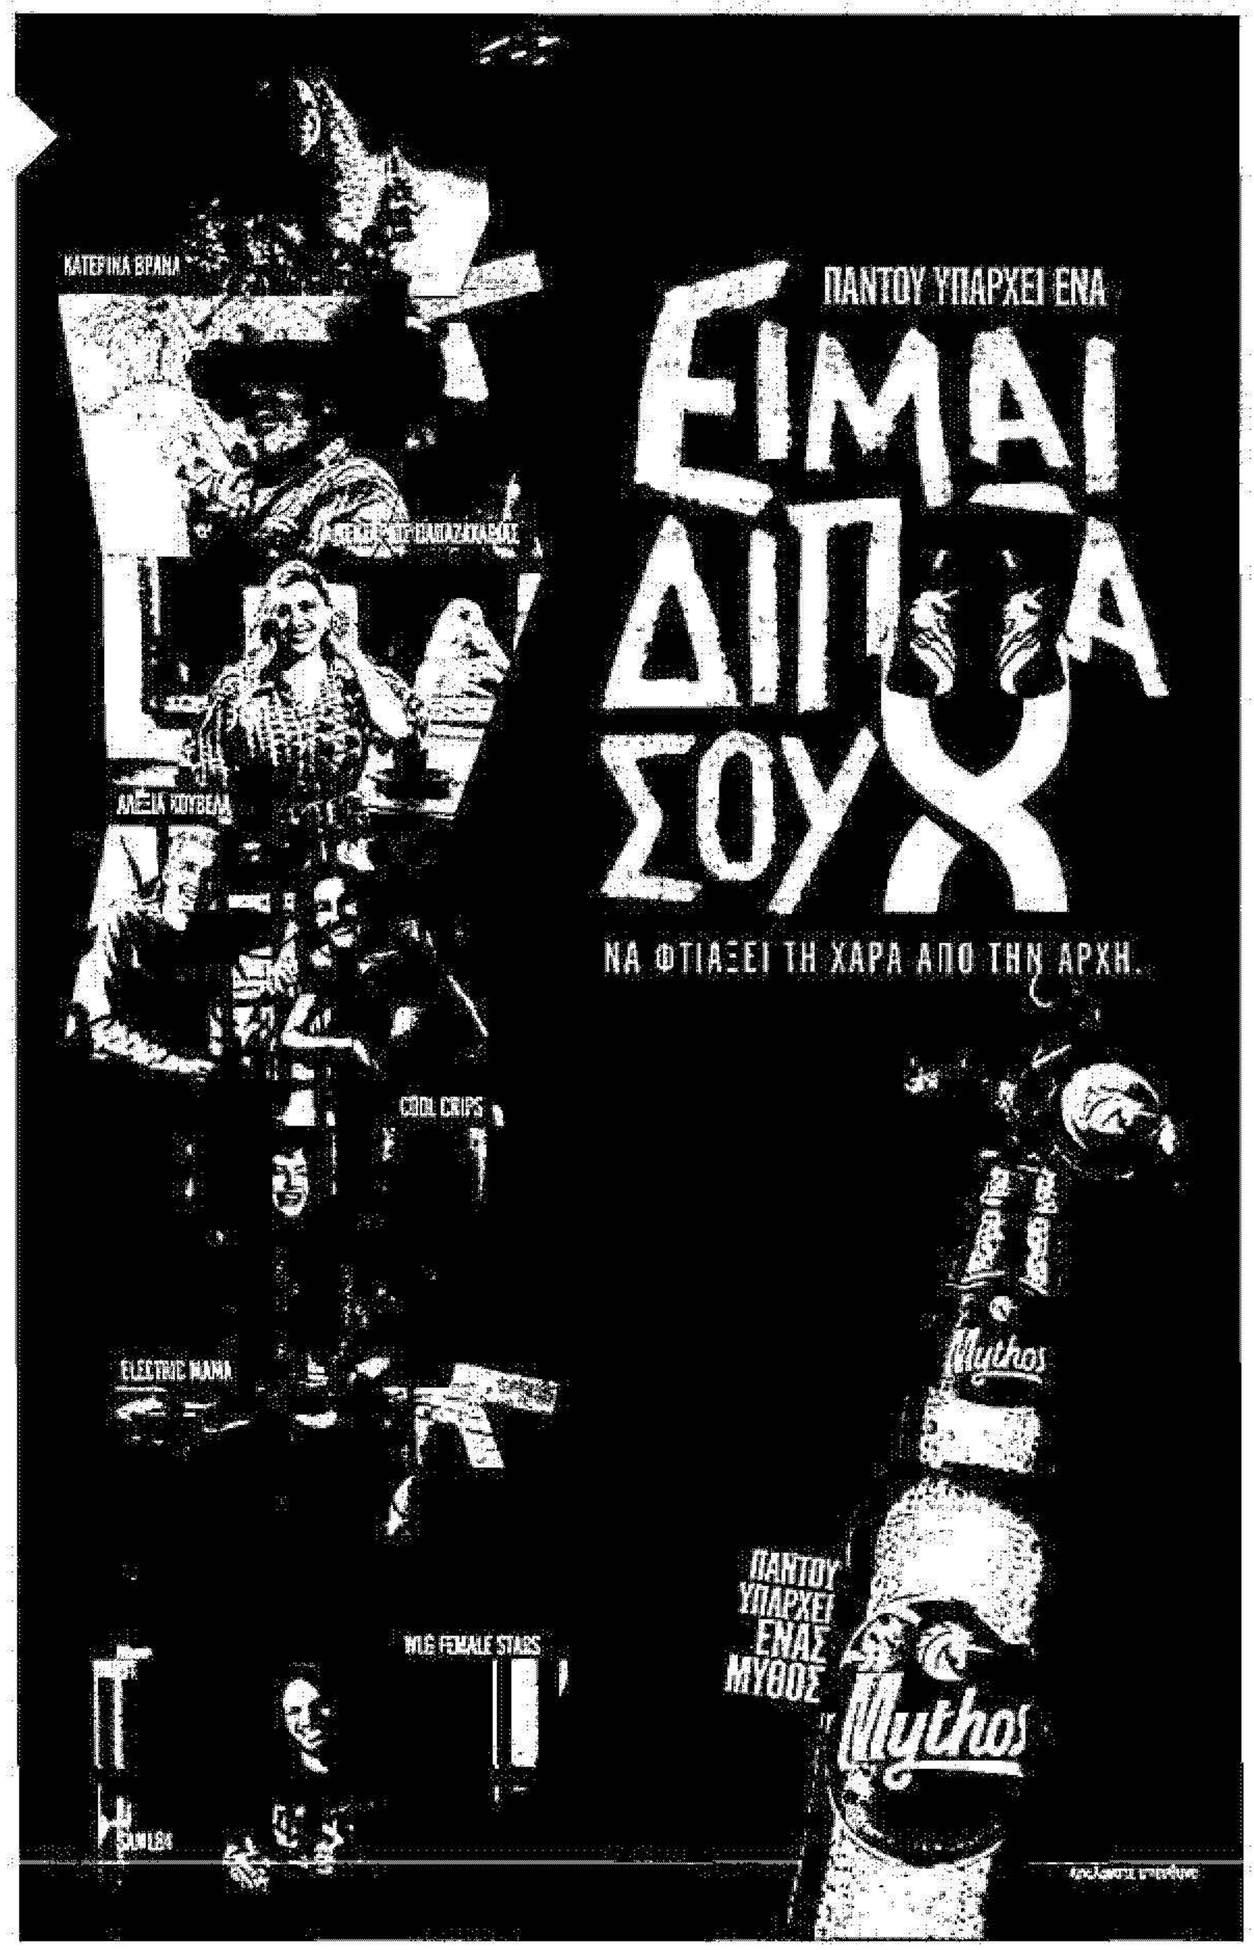

Around 60% of our beer volumes in China comprises local core beer brands, which are well established and enjoy strong market positions in their home regions. Brands include Dali, Xixia, Wusu and Chongqing. While the local brands have slightly different brand identities, they share many similarities, including an image of being trustworthy and modern. To reinforce the strength of the local power brands, in 2023 we successfully enhanced the local bonding and consolidated the brand equity of these brands, sharpening their position in the local regions. While acknowledging the strong mainstream position, we also strive for continued relevance by driving bold innovation and offering premium line extensions, such as extra malt, white beer and pure draft, applying a repeatable commercial model across brands. In 2023, our local mainstream core beer portfolio in China grew by 7%.

20240927031118

Strengthen mainstream core beer

MYTHOS – THE BEER OF CHOICE

Mythos, our local power brand in Greece, was initially introduced in Thessaloniki in 1997. It is a modern and dynamic brand that encourages consumers to live life to the fullest. Thanks to a series of updates, such as the launch of Mythos Radler in 2014, implementation of the pull-off cap in 2016 and the introduction of Mythos Ice in 2020, Mythos has cemented its place as one of the most popular beer brands in Greece. Despite the difficulties faced during the COVID-19 pandemic, we took the initiative to revamp Mythos in 2022, positioning it as the beer of choice for an inclusive society where entertainment and fun are considered fundamental rights. The 2023 campaign featured TV and online commercials accessible to hearing- and sight-impaired people, showcasing Mythos' support of real people's fight for an inclusive society. Strengthened market share and volume growth of 3% in 2023 are testimony to Mythos' success.

Step up in premium and Accelerate Beyond Beer

TAKE A BREAK AND CHILL

Wind Flower Snow Moon (WFSM) is one of our local premium brands in China. It comes from the beautiful Yunnan province and was first launched in 1996. The name, bottle and labelling elegantly encapsulate the spirit and nature of Yunnan, encouraging consumers to take a break to chill and enjoy life. Thanks to continual updates to drive a modern and young image, and activations in both the off- and on-trade and online, the brand has delivered strong growth despite the challenges of COVID, almost tripling volumes since 2016. In 2023, we expanded the reach of WFSM through the launch of the low-alcohol WFSM in the Beyond Beer space. The low-alcohol WFSM will play in the premium-plus segment and be a vehicle for further expansion outside the home region of Yunnan. At the same time as attracting new consumers, the low-alcohol WFSM leverages the young adult, chill and joyful positioning of the premium WFSM beer. In 2023, total WFSM volumes increased by more than 60%.

202409270311 9

Accelerate growth in Asia

STRENGHTENING OUR BUSINESS IN VIETNAM

Vietnam is one of the largest beer markets in the world with a very strong beer culture among consumers – more than 90% of alcohol consumed is beer. We have been present in this core Asian market since 1993, and now hold a strong position in the central part of the country with the Huda brand. The market posted a good post-COVID recovery in 2022 but came under significant pressure in 2023 because of the country's economic downturn. Despite this, we still believe Vietnam holds exciting growth opportunities for us, and expanding our business and building a winning portfolio in this market remain an important priority within Accelerate SAIL. Our winning portfolio includes Carlsberg, 1664 Blanc, Tuborg, Somersby and the core mainstream brand Huda. In 2022 and 2023, we step-changed our execution capabilities and expanded our business, resulting in volume growth of 8%.

Execution excellence

TECH-ENABLED SALES EXECUTION

Faced with an increasingly competitive environment, the need to digitise, analyse and optimise sales in stores has never been greater. Image recognition powered by artificial intelligence (AI) enables us to turn images into insights to unlock the potential of every shelf across all outlet channels and fuel our data-driven approach in sales execution. More specifically, AI-powered image recognition allows our sales teams to identify in-store performance gaps and delivers real-time actionable insights to increase revenue opportunities at all points of sale; provides instant visibility in channels, brands, products and competitors to improve compliance and drive sales; reduces audit time; and enables cost efficiencies. Additionally, implementing image recognition supports our culture of continuous improvement and innovation. During the year, we began the roll-out of AI-powered image recognition across Western Europe and Asia.

OnePlan

Manage supply chain end to end

TRANSFORMING SUPPLY CHAIN CAPABILITIES

We are transforming our end-to-end supply chain planning capability to enhance our agility and improve our supply chain resilience. In 2023, we went live in the first market with OnePlan, which is a programme that will transform our supply chain planning capabilities and be a key growth enabler. OnePlan is a new-generation planning tool, bringing together all aspects of supply chain planning, including demand, supply, inventory, production and materials planning. It enables a fully connected sales and operations planning (S&OP) process and near-real-time "what if" scenario planning, as well as faster identification of capacity constraints and faster response time to changes in demand. The significant benefits of OnePlan will not only be seen in the supply chain, but will also be tangible in the commercial area by improving demand visibility across customers and products, and in finance by increasing the speed of data availability and analysis.

OUR ESG PROGRAMME

TOGETHER TOWARDS ZERO AND BEYOND

Our ESG programme, Together Towards ZERO and Beyond (TTZAB), is an integral part of Accelerate SAIL and our response to global challenges such as climate change, water scarcity and inequality.

The programme focuses on 11 areas identified through an assessment of the most material ESG impacts of our business. In 2023, we reconfirmed the relevance of these topics through our first double materiality assessment.

Our targets and commitments enable us to tackle global social and environmental challenges, and our actions help us mitigate risks and capture opportunities, including the generation of new business.

TTZAB also bolsters our licence to operate, boosts our reputation and strengthens our relationships with stakeholders – including our people, consumers, customers, suppliers and investors – by demonstrating our commitment to acting responsibly and taking positive action on ESG.

Our targets and commitments demand transformative change – across our operations and value chain – that we cannot achieve alone. Partnering with suppliers, customers, consumers and communities remains central to our approach as we drive progress Together Towards ZERO and Beyond.

See how we exceeded our 2022 target for reducing carbon emissions across the full value chain and examples of how we are working with partners to deliver on our TTZAB ambitions and targets on pages 26-27.

OUR ESG REPORTING

Our ESG Report, available at www.carlsberggroup.com/reports-downloads/carlsberg-group-2023-esg-report, provides comprehensive information on the TTZAB programme, ambitions, targets, governance, performance and partnerships.

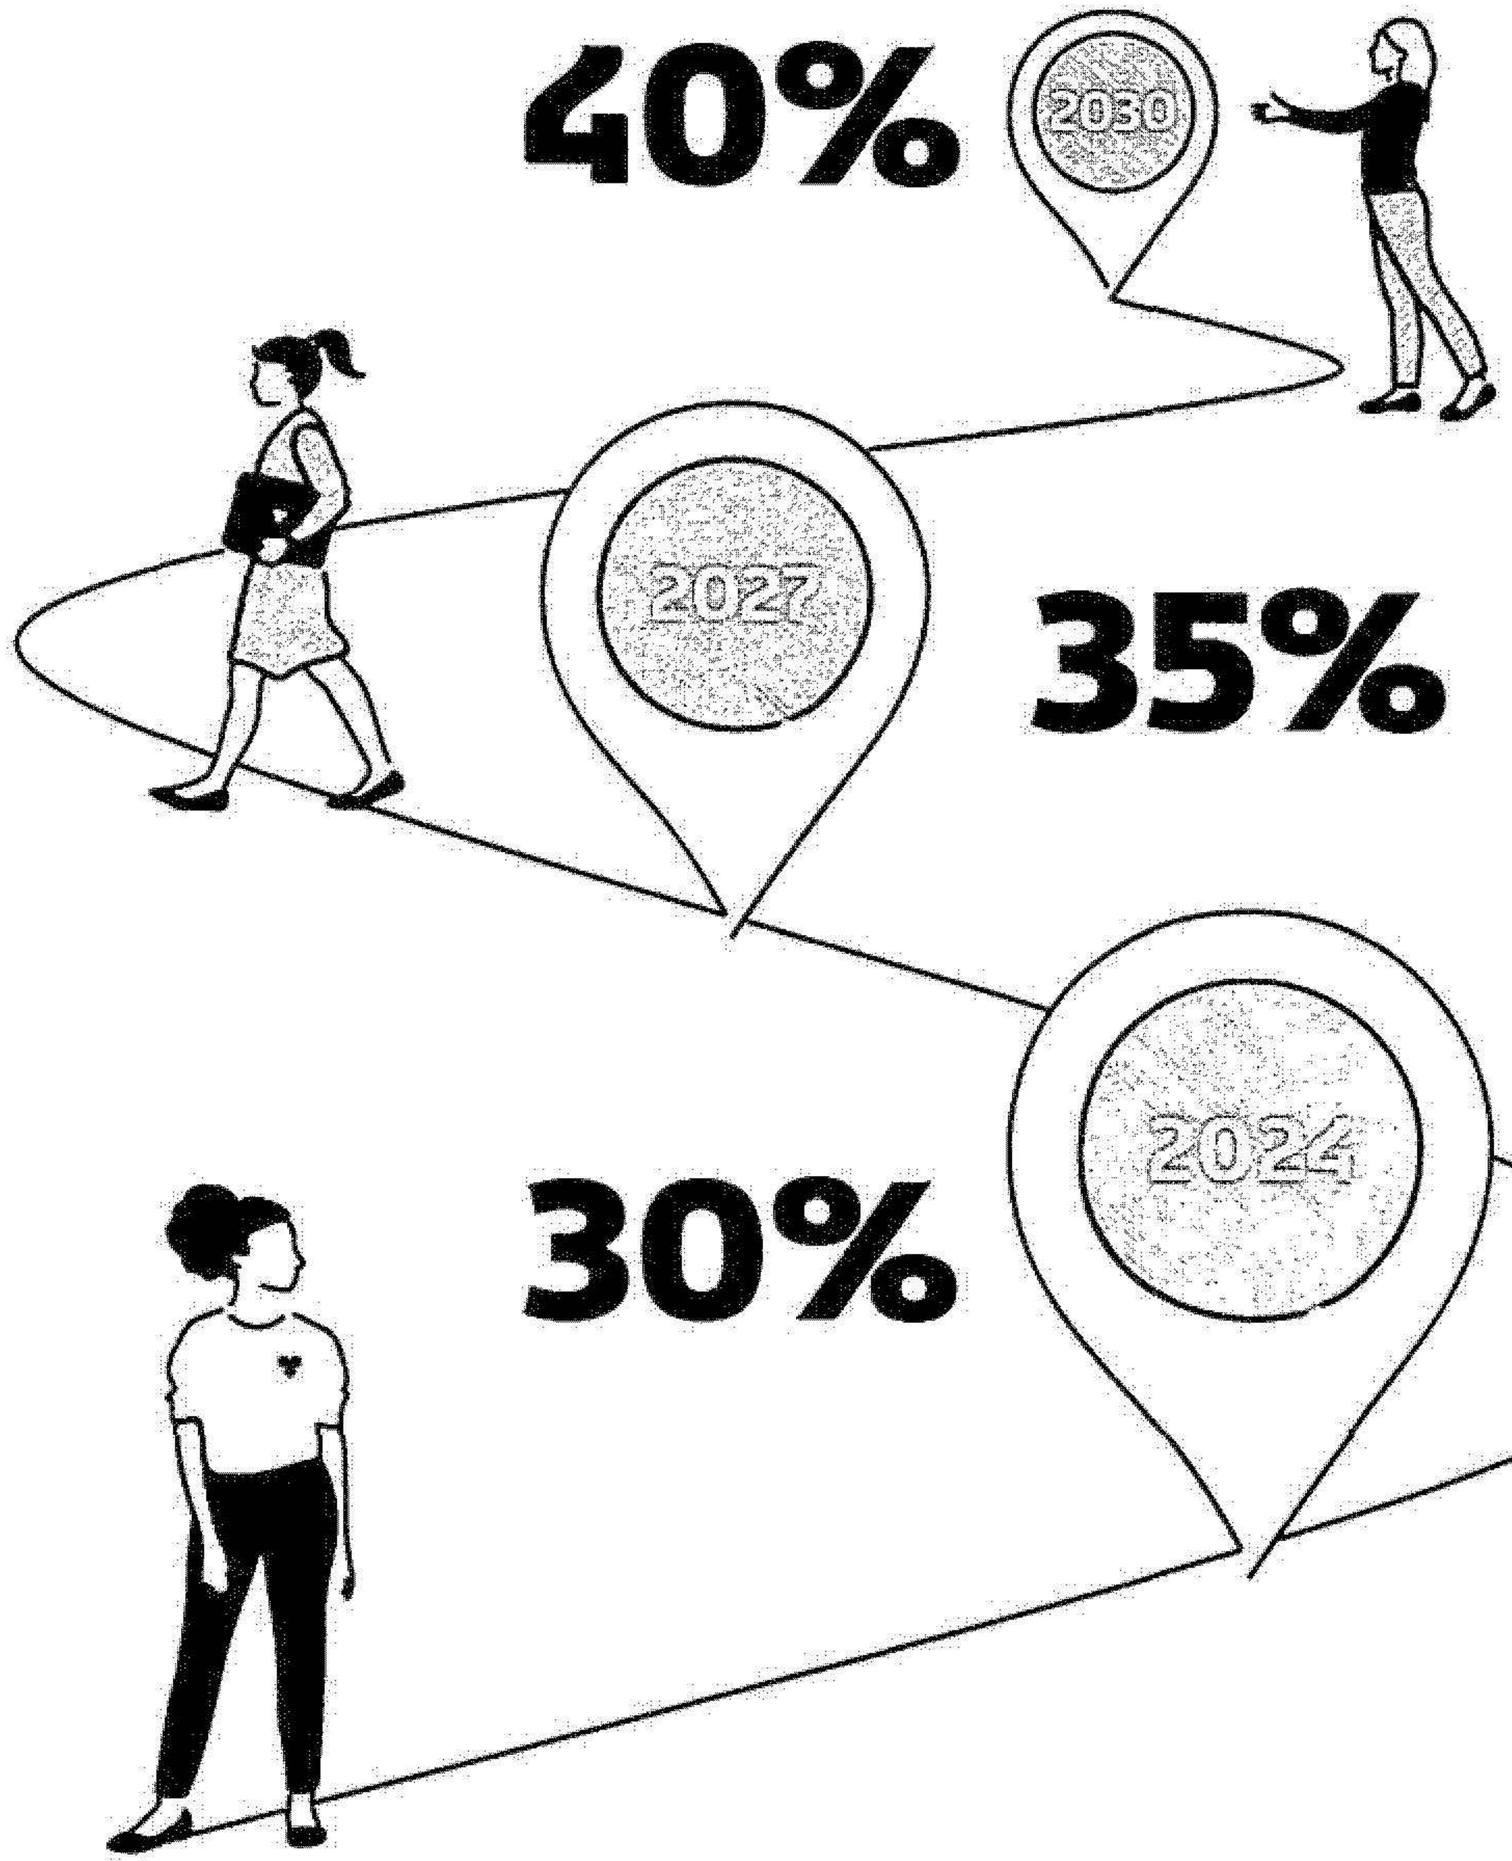

The ESG Report serves as our statutory statement on corporate social responsibility in accordance with sections 99a, 99d and 107d of the Danish Financial Statements Act.

Next year, we will align our ESG reporting approach and format with the forthcoming EU Corporate Sustainability Reporting Directive and the corresponding European Sustainability Reporting Standards.

Our ESG actions also contribute to the UN's global ambitions on sustainability. Our ESG Report forms the basis for our 2023 Communication on Progress to the UN Global Compact, which will be submitted in 2024 in line with new requirements.

We have also issued our first stand-alone Human Rights Report, which provides more detail on our due diligence approach and the actions we are taking to uphold human rights throughout our value chain.

Our Human Rights Report is available at www.carlsberggroup.com/reports-downloads/carlsberg-group-2023-human-rights-report/.

30%

REACHING OUR 2024 TARGET FOR WOMEN IN LEADERSHIP ROLES

We are actively working to attract, retain and develop more women in the brewing industry and our own business, driven by ambitious targets to increase the number of women in leadership. We partner with groups such as Brewers of Europe and the Pink Boots Society to attract more women into brewing careers, and we encourage women to join our graduate and apprenticeship programmes. In 2023, we launched a global sponsorship programme to help develop women leaders identified as having potential to take on executive roles. Each of the first 12 women to participate – chosen from across our regions and functions – was paired with a senior sponsor for six months of coaching, support and access to networks of internal influencers, which will better prepare them for later success at the top of the company.

TOGETHER TOWARDS ZERO & BEYOND

202409270312 2

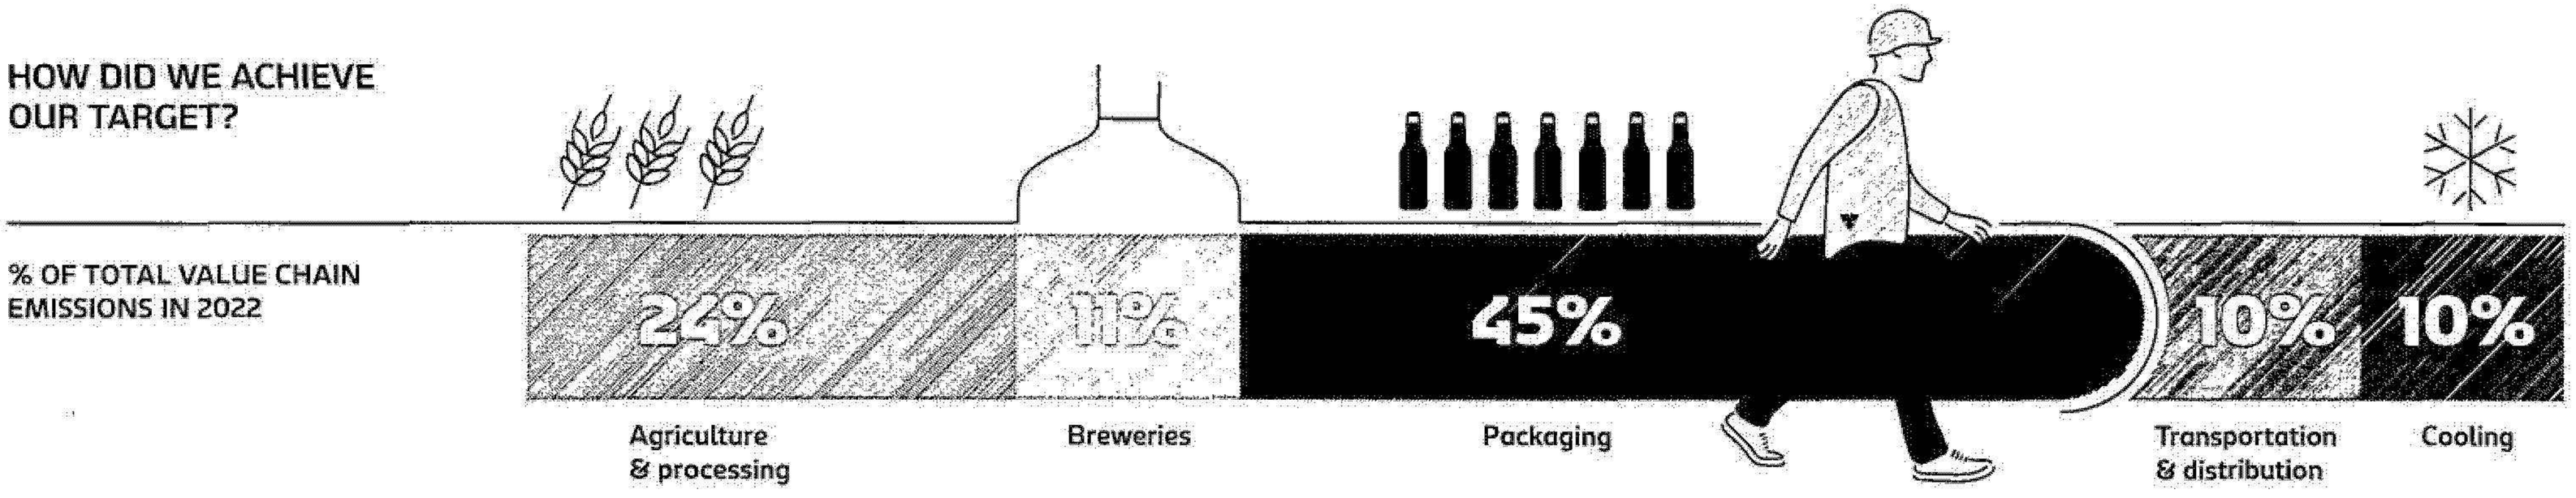

Together Towards ZERO and Beyond

REDUCING VALUE CHAIN CARBON EMISSIONS PER HL BY 16% FROM 2015 TO 2022

In 2023, we completed our latest three-year analysis of our value chain carbon emissions, based on 2022 data. The analysis confirmed that we have slightly exceeded our target to cut value chain emissions per hl of beer produced by 15% by 2022 from the 2015 baseline. To reach our target of a net ZERO value chain by 2040, we will continue to work closely with our suppliers as they play a critical role in helping us reduce our carbon footprint at every stage of the value chain.

More details on our value chain carbon emissions reductions can be found in the ESG Report.

HOW DID WE ACHIEVE OUR TARGET?

EMISSIONS REDUCTIONS 2015-2022

-18%	-41%	-3%	-10%	-26%
Agriculture & processing Lower-carbon solutions in malting processes were a major progress driver, while increased usage of rice and sugars added carbon intensity.	**Breweries** Reductions supported by the elimination of coal, increased energy efficiency and use of renewable electricity and innovative solutions, such as the extraction of biogas at on-site wastewater treatment plants.	**Packaging** Carbon intensity reduced across all packaging types, and recycling rates for PET bottles and aluminium cans improved. Progress was counteracted by an increased share of cans and fewer refillable glass bottles in the overall packaging mix.	**Transportation & distribution** Reduction primarily achieved by efficiency improvements, supported by marginal improvements from electrification and reduced business travel.	**Cooling** Reduction in emissions from fridges and beer dispense equipment through the use of energy management devices, decarbonisation of national electricity grids and other initiatives.

20240927031123

Together Towards ZERO and Beyond

PUTTING WATER ON TAP IN CAMBODIA

Around one in five people lack essential access to clean water in Cambodia. Our new partnership with the social enterprise TapEffect will establish water supply and associated infrastructure, providing access to clean water for more than 6,800 people in a remote rural area in Pursat province. The project will include a treatment plant, clean storage, a pumping system and over 50 km of pipework. Within two years, it is expected to deliver 7 million litres of water per month. By 2025, it is projected to yield around 25% of the water needed to replenish consumption at our brewery in Sihanoukville.

Together Towards ZERO and Beyond

A NEW REGENERATIVE BREW FOR THE UK

Our journey towards 100% regenerative barley in the UK has begun. Carlsberg Marston's Brewing Company and the Archer-Daniels-Midland Company contracted 23 farmers to grow an estimated 686 tonnes of regeneratively grown barley in 2023 using techniques such as no- or low-tillage, planting cover crops and restricting chemical use to the minimum required. The harvest will be used to brew Carlsberg Danish Pilsner from 2024. We aim to expand this pilot to source enough regenerative barley to brew all Carlsberg beer in the UK by 2027, and we are committed to making our brews in the UK with 100% regenerative barley by 2031.

Read more about these and other case stories in the ESG Report.

Together Towards ZERO and Beyond

TEAMING UP WITH THE TOUR DE FRANCE

Tourtel Twist offers alcohol-free beer mixes combined with fruit juices free of colouring, sweeteners and artificial flavours. This tasty and healthy combination has made it France's most popular alcohol-free beer and our biggest-selling alcohol-free brand in Western Europe. For Tourtel Twist, 2023 was the second of three years as an official supplier of the Tour de France. The partnership with the Tour de France generated around 340 million contacts through TV and social media advertising, supporting our efforts to raise awareness of responsible drinking. In 2024, Tourtel will not only be an official supplier of the Tour de France but also an official supporter of the Paris Olympics.

202409270312 4

ADDRESSING CLIMATE RISKS

CLIMATE RISKS IMPACTING OUR BUSINESS

Climate change is affecting our operations and value chain. Across our regions, we see its impact through land degradation and more frequent extreme weather events.

We are working to understand the related risks and opportunities, and to mitigate impact on our business.

Our annual ESG Report details our Together Towards ZERO and Beyond approach, progress towards our ambitious ZERO Carbon Footprint, ZERO Water Waste and ZERO Farming Footprint targets, and the actions we are taking to support the Paris Agreement on Climate Change to limit the increase in global average temperature to a maximum of 1.5°C.

The report also addresses our exposure to climate change-related risks and the impacts on our value chain.

In the table on page 29, we outline the relevant sections for TCFD reporting in this Annual Report and in our ESG and Remuneration Reports.

ZERO FARMING FOOTPRINT

Agriculture is the second-largest driver of our value chain carbon emissions. We cannot reach net ZERO by 2040 without taking steps to reduce its climate impact. Today's food systems, including intensified agricultural production, are also the primary driver of the acceleration in biodiversity loss that is threatening the health of the planet. We have made bold commitments to ensure that all our raw ingredients are sourced sustainably and produced using regenerative agricultural practices by 2040. These commitments will support global action on environmental challenges, improve farmers' livelihoods and help us secure a sustainable supply of raw ingredients – from barley to rice – to make our brews now and in the future. Read more about how we will move towards 100% regenerative agricultural raw materials by 2040 in the ESG Report.

TOGETHER TOWARDS ZERO & BEYOND

20240927031125

Task Force on Climate-related Financial Disclosures (TCFD) reporting recommendations

Recommendation	Our disclosure in brief	Learn more
Governance Disclose the organisation's governance around climate-related risks and opportunities.	The Supervisory Board is ultimately responsible for risk management, including climate-related risks, and has appointed the Audit Committee to act on its behalf in monitoring the effectiveness of the Group's risk management. The Executive Committee (ExCom) is responsible for reviewing the overall risk exposure associated with the Group's activities and ensuring that appropriate actions are taken. In 2022, the Supervisory Board reviewed and approved our enhanced ESG programme, Together Towards ZERO and Beyond (TTZAB), including revised and new targets related to carbon, packaging, water and agriculture. Progress against TTZAB targets is reported monthly to ExCom, where climate change is specifically covered at least biannually, and at least twice a year to our Supervisory Board.	• Risk management framework, pages 48-49. • Overview of Supervisory Board work and responsibilities, pages 44-46. • ESG Report, section on governance and transparency.
Strategy Disclose the actual and potential impacts of climate-related risks and opportunities on the organisation's businesses, strategy and financial planning, where such information is material.	Climate-related risks and opportunities have been assessed through a series of analyses. Some specific categories of risks have been assessed, including, but not limited to, regulatory risks (e.g. carbon pricing), reputational risks, extreme weather risks and water risks. More specific and detailed financial effects of the risks will be further analysed in 2024. Based on existing analyses, however, our preliminary conclusion is that climate-related risks would only be financially material in the long term. Mitigation actions are implemented in response to the results of risk assessment and scenario analysis where risks are identified. Furthermore, climate-related hazard risk analysis has been integrated into the requirements for making capital expenditure investments above a certain level. TTZAB targets to reduce our own and our value chain environmental footprints will also help us reduce some of the climate-related transition risks.	• Together Towards ZERO and Beyond, pages 24-27. • ESG Report, sections on ZERO Carbon Footprint, ZERO Farming Footprint and ZERO Water Waste. • ESG Report, section on governance and transparency: double materiality assessment.
Risks Disclose how the organisation identifies, assesses and manages climate-related risks.	From 2023, climate-related impacts, risks and opportunities are reviewed annually in our double materiality assessment (DMA) process. This includes short-, medium- and long-term time horizons. Our preliminary DMA, conducted in 2023 and summarised in a voluntary disclosure, confirmed that climate change was among the highest-ranking issues for us to address, both in terms of impact and long-term financial materiality. As transition risks are one of the key areas, we analyse our total value chain carbon emissions (Scope 1, 2 and 3 emissions) to measure progress towards our emissions reduction targets and identify where to focus our efforts to reduce emissions and mitigate risk. For some specific risks related to climate change, we have additional processes in place. Physical/hazard risks in our assets (including both production sites and warehouses) are assessed annually by applying three RCP scenarios (RCP 2.6, 4.5 and 8.5). For water-related risks, we used WWF's Water Risk Filter to identify which of our breweries are in areas of high water risk, as well as carrying out water risk assessment of two key commodities, rice and barley.	• Risk management framework, pages 48-49. • ESG Report, section on governance and transparency. • ESG Report, sections on ZERO Carbon Footprint and ZERO Water Waste. • ESG Report, section on governance and transparency: double materiality assessment.
Metrics and targets Disclose the metrics and targets used to assess and manage relevant climate-related risks and opportunities, where such information is material.	TTZAB is an integral part of Accelerate SAIL and includes our bold target to achieve a net ZERO value chain by 2040 – ahead of the global 2050 timeline demanded by science – to guide our long-term carbon reduction agenda. Our science-based targets to reduce emissions are approved by the Science Based Targets initiative, and we aim to reduce emissions in line with the goal of the Paris Agreement to limit global warming to a maximum of 1.5°C. TTZAB's focus areas and targets are based on an assessment of material ESG issues to ensure we focus on the sustainability impacts, risks and opportunities that are most relevant to our stakeholders, including those related to climate change, packaging, water and agriculture. Our annual ESG Report discloses our approach, our TTZAB targets and progress to date, key performance indicators and actions to support the UN Sustainable Development Goals and the UN Global Compact. The report includes detailed data on Scope 1, 2 and 3 carbon emissions, energy and water. Our Scope 3 analysis, previously carried out every three years, will be performed annually from 2023. We have also disclosed detailed information to CDP on our greenhouse gas emissions and approach to climate change management annually since 2007. Sustainability measures, including the reduction of carbon emissions and water use, have been included in the long-term incentive scheme for the Extended Leadership Team (ELT) from 2023. Approved by the Supervisory Board, ESG performance now accounts for 20% of the LTI scheme for ELT for 2023-2025.	• Accelerate SAIL and Together Towards ZERO and Beyond, pages 19, 24 and 26. • ESG Report, sections on ZERO Carbon Footprint, ZERO Farming Footprint and ZERO Water Waste. • ESG Report, data summary tables. • ESG Report, section on contributing to the UN Sustainable Development Goals. • Remuneration Report, section on remuneration of the Executive Board.

202409270312 6

GROUP

SOLID RESULTS IN A CHALLENGING ENVIRONMENT

The Group delivered a solid set of results in a challenging environment.

VOLUMES

Total Group volumes were 125.1m hl, corresponding to a reported growth rate of -0.3%. Beer volumes declined organically by 0.4%, as volume growth in Asia was offset by lower volumes in Western Europe and Central & Eastern Europe. Other beverage volumes grew in Western Europe, Central & Eastern Europe and Laos, but total volume development was -0.9%, impacted by lower volumes in Cambodia.

INCOME STATEMENT

Revenue was DKK 73,585m. Revenue/hl increased organically by 10%, resulting in strong organic revenue growth of 9.2%. The revenue/hl improvement was primarily driven by price increases across markets to offset the significant cost increases and supported by a positive product mix.

Reported revenue grew by 4.7%. The negative currency impact related to the strengthening of the Danish currency against, in particular, the Chinese, Laotian, Indian, Ukrainian, Norwegian and Swedish currencies. The small acquisition impact related to the acquisition of Waterloo Brewing in Canada.

Gross profit increased organically by 7.4% and by 2.4% in reported terms. Gross profit was positively impacted by the increase in revenue/hl and negatively by the increase in cost of sales of 6.7%. The reported gross margin was 44.6%, a decline of 100bp.

We maintained our focus on costs, supporting our efforts to offset inflation and increase investments in brands and activities. Consequently, marketing investments were up organically by 10% and by 7% in reported terms. As a percentage of revenue, reported marketing investments increased slightly to 8.4%, with a larger increase in H2 following the Q3 decision to accelerate commercial investments.

Total reported operating expenses increased by 4.0%, supported by lower administrative costs. As a percentage of revenue, reported operating expenses excluding marketing improved by 30bp to 22.1%.

Other operating activities increased by DKK 56m, while profit from associates declined by DKK 320m, mainly due to lower property income in Carlsberg Byen and certain one-off expenses in associates in Asia.

Operating profit before depreciation, amortisation and impairment losses (EBITDA) grew organically by 3.9%

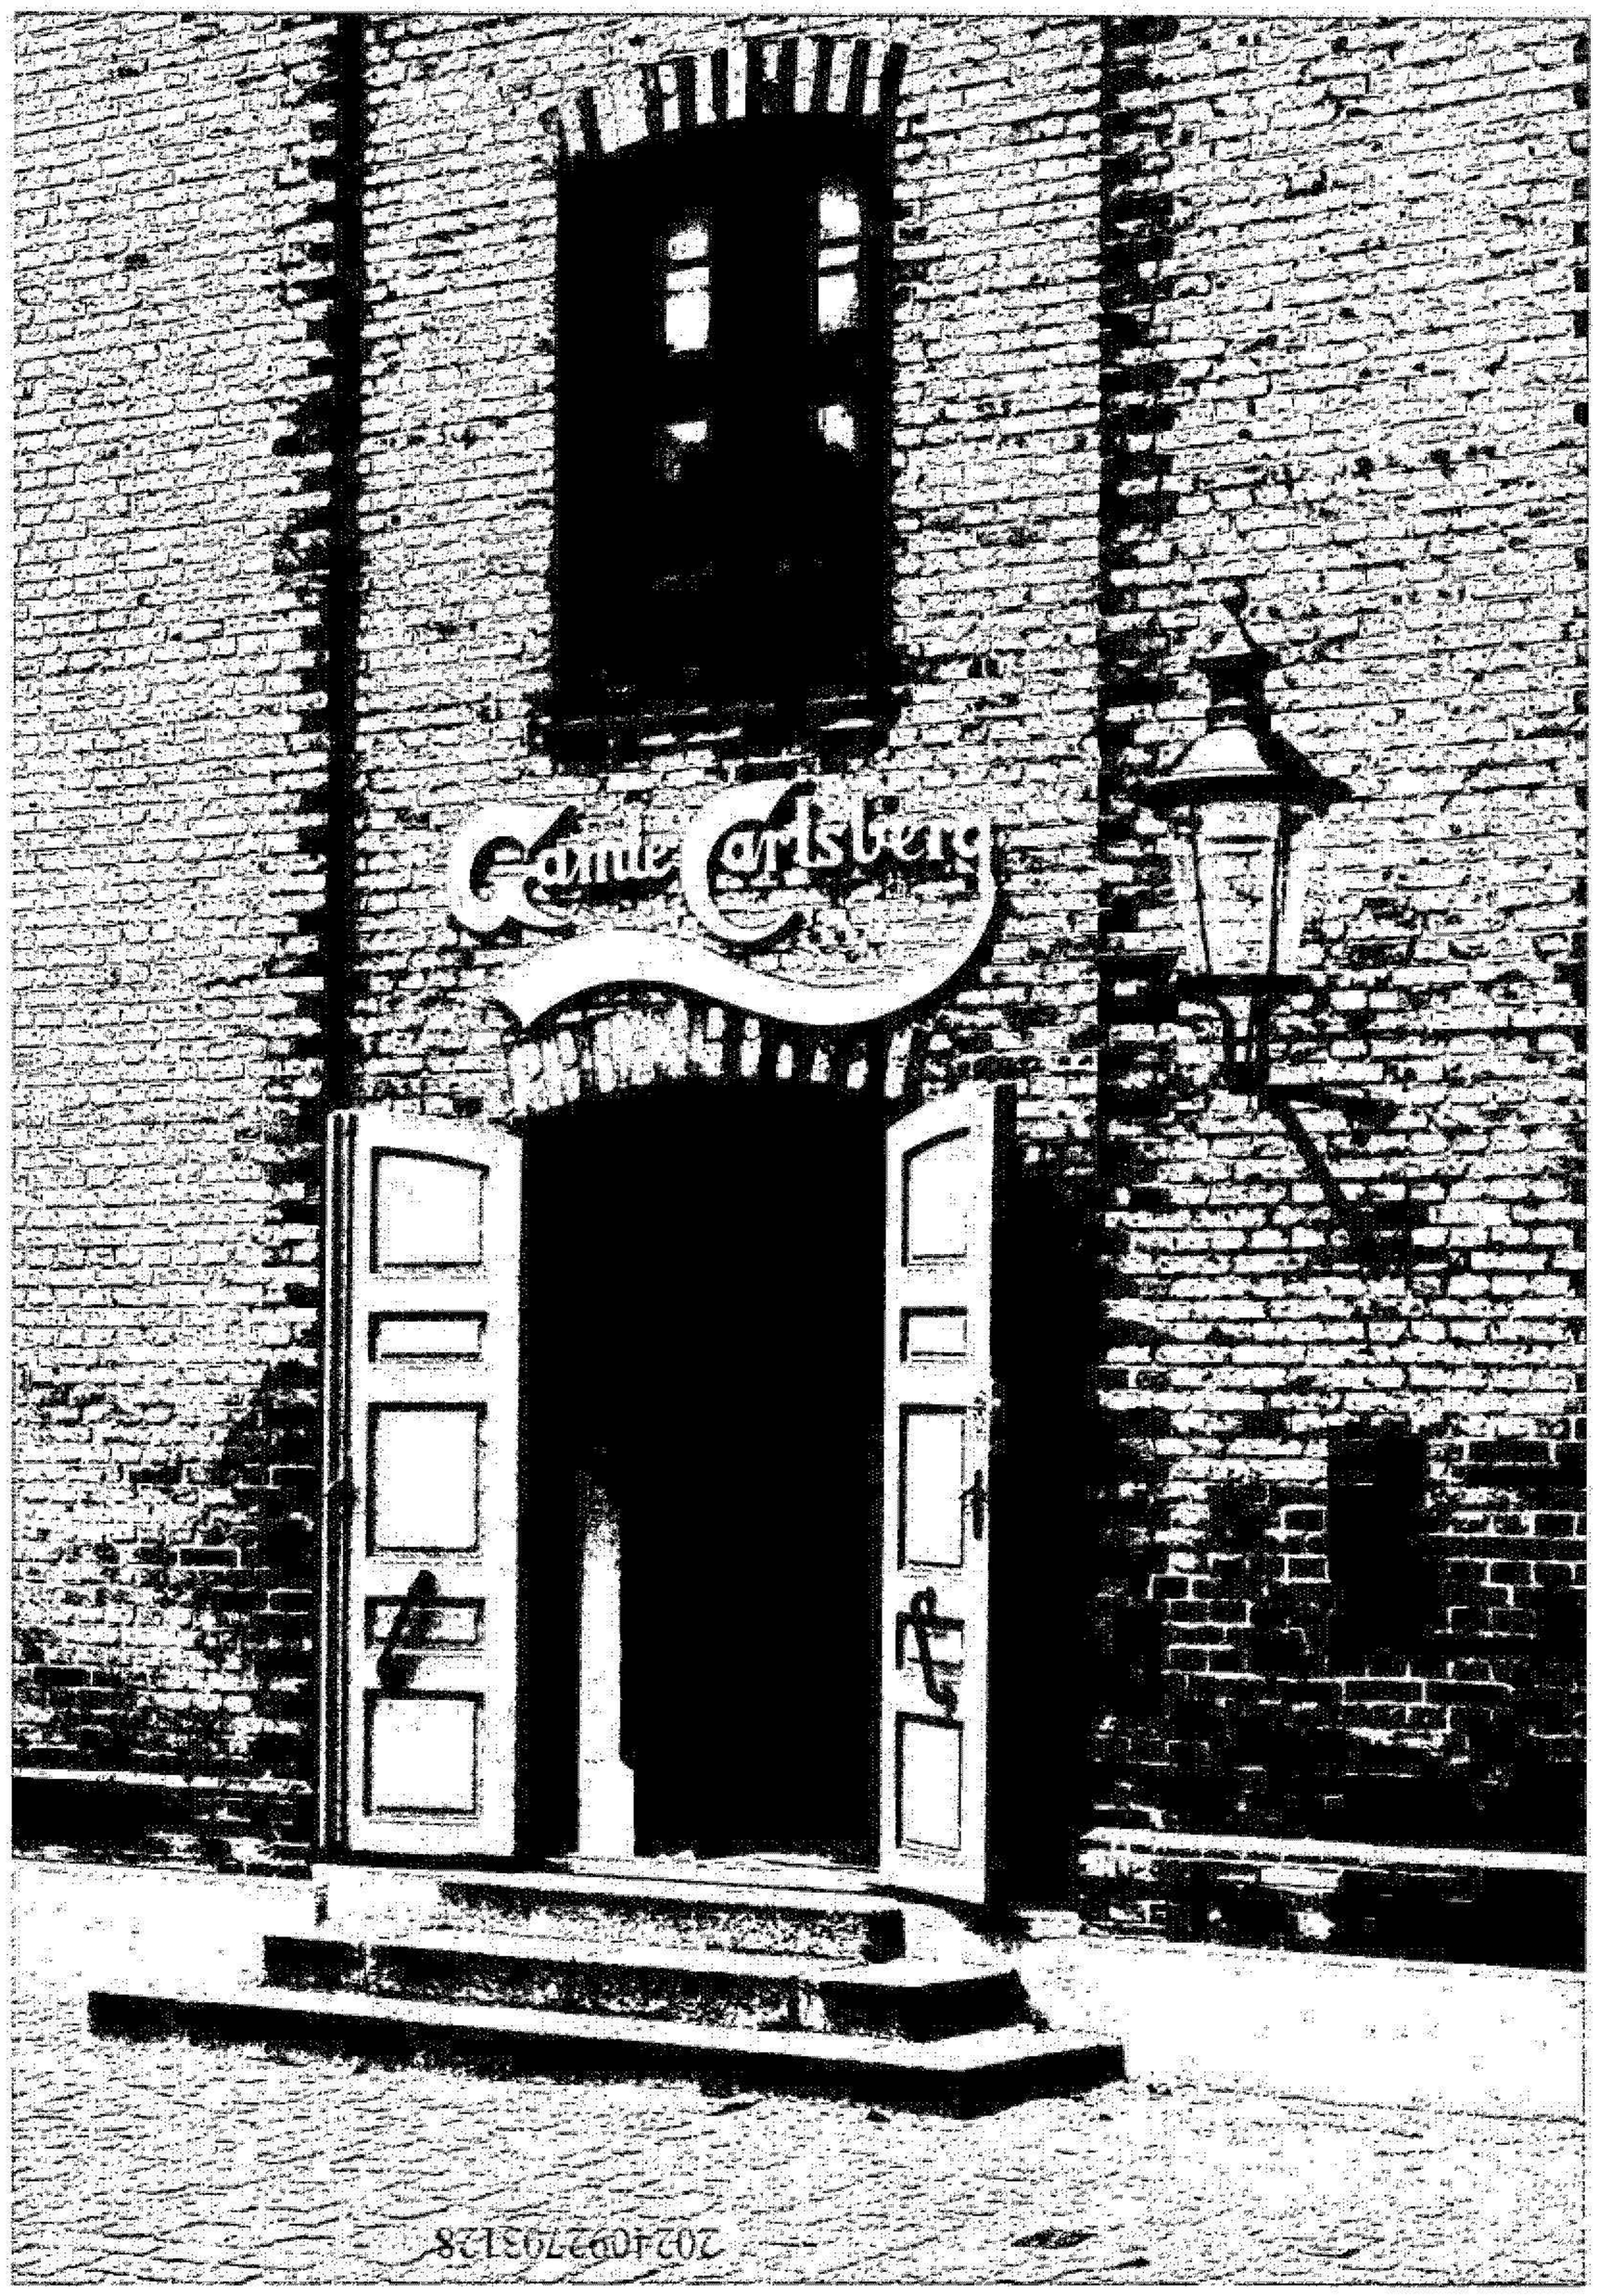

Earnings expectations 2023

Date	Expectation for operating profit
7 February 2023	Organic growth in operating profit of -5% to +5%.
27 April 2023	Organic growth in operating profit of -2% to +5%.
15 August 2023	Organic growth in operating profit of +4% to +7%.
7 February 2024	Organic growth in operating profit of 5.2% (reported).

Group

		Change				Change
	2022	Organic	Acq., net	FX	2023	Reported
Volumes (million hl)						
Beer	101.0	-0.4%	0.3%	-	101.0	-0.1%
Other beverages	24.4	-0.9%	0.0%	-	24.1	-0.9%
Total volume	**125.4**	**-0.5%**	**0.2%**	**-**	**125.1**	**-0.3%**
DKK million						
Revenue	70,265	9.2%	0.6%	-5.1%	73,585	4.7%
Operating profit	11,470	5.2%	-0.2%	-8.2%	11,105	-3.2%
Operating margin (%)	16.3				15.1	-120bp

20240927031127

but declined by 3.1% in reported terms due to adverse currencies.

The reported operating profit before special items development of -3.2% was impacted by strengthening of the Danish krone against, in particular, the Chinese, Laotian, Ukrainian and Norwegian currencies.

The small acquisition impact related to the acquisition of Waterloo Brewing in Canada. The reported operating margin decreased by 120bp to 15.1%, mainly due to the lower gross margin and increased marketing investments.

Section 1 of the consolidated financial statements contains more details on operating activities.

Net special items (pre-tax) amounted to DKK -431m (2022: DKK -784m). Special items were positively impacted by reversal of brand impairment in China and the derecognition of a loan to Baltika Breweries, and negatively impacted by impairment of certain brands, impairment related to the business in Cambodia, the cost of terminating the Kronenbourg 1664 licensee agreement in the UK, restructuring costs, costs related to acquisitions and impairment of receivables from Baltika Breweries.

HOME OF CARLSBERG

SEE, HEAR AND TASTE THE STORY OF CARLSBERG

It all began in 1847, when Carlsberg's founder, J.C. Jacobsen, established his brewery on a small hilltop just outside Copenhagen. Since 1982, the original brewery with its unique narrative and its historic and well-preserved buildings has become an increasingly popular tourist attraction. After extensive restoration in recent years, we reopened the doors to Home of Carlsberg in 2023. The new exhibition showcases Carlsberg's pivotal role in modern beer brewing, the essential ingredients of beer, the stables housing the majestic brewery horses, a bottle collection that will amaze, architectural buildings, a great restaurant, beer tastings, and engaging storytelling about family feuds, scientific breakthroughs and much more.

SAIL 27

OUR WINNING CULTURE

Read more about net special items in section 3.1 of the consolidated financial statements.

Financial items, net, amounted to DKK -844m (2022: DKK -725m). Excluding currency gains and losses, financial items, net, amounted to DKK -693m (2022: DKK -506m). The increase was mainly a result of higher average funding costs due to refinancing and higher short- and long-term interest rates and higher net interest-bearing debt. Net currency losses amounted to DKK 151m, mainly related to the strengthening of the EUR/DKK and conversion costs for the Laotian kip.

Read more about net financial items in section 4.1 of the consolidated financial statements.

Tax totalled DKK -1,859m (2022: DKK -1,778m). The normalised tax rate was 20.8%, while the effective tax rate was 18.9% due to non-recurring items, including adjustments related to prior years and the deconsolidation of the Russian business. Section 6.1 of the consolidated financial statements contains more details on income tax.

The Carlsberg Group's share of profit from continuing operations amounted to DKK 6,960m (2022: DKK 7,012m). The Group's share of consolidated profit (net profit) for the period was DKK -40,788m (2022: DKK -1,063m), impacted by the deconsolidation of the Russian business, which led to the recognition of accumulated currency translation and hedge losses for the period of 2004 to 2023 of DKK 41,504m and impairment losses of DKK 7,002m, giving a net result from the Russian operation of DKK -47,748m.

Read about the accounting treatment and impact of the deconsolidation of the Russian business in section 5.1 of the consolidated financial statements.

Non-controlling interests' share of profit for the period was DKK 1,011m (2022: DKK 1,171m). The non-controlling interests consist of Lao Brewery, Carlsberg Chongqing Breweries Group, Carlsberg Malaysia Group and Carlsberg Marston's Brewing Group, as well as other minor interests, primarily in the Asia region.

Adjusted net profit (adjusted for special items after tax), continuing operations, declined by 4.6% to DKK 7,425m. Adjusted earnings per share declined by 2.0% to DKK 54.6 (2022: DKK 55.7), supported by the share buy-back. Reported earnings per share of DKK -299.7 were impacted by the deconsolidation of the Russian business.

STATEMENT OF FINANCIAL POSITION

ASSETS

Total assets amounted to DKK 111,831m at 31 December 2023 (31 December 2022: DKK 115,341m). The main reason for the decrease was the deconsolidation of the Russian business, the assets of which amounted to DKK 11,618m in 2022, partly offset by higher current assets.

Total non-current assets amounted to DKK 81,633m (31 December 2022: DKK 81,092m).

Intangible assets totalled DKK 49,100m (31 December 2022: DKK 49,223m). Intangible assets were impacted by currencies, in particular the Chinese and Laotian, and impairment of brands, offset by the acquisition of Waterloo Brewing and reversal of brand impairment in China.

Property, plant and equipment totalled DKK 24,405m (2022: DKK 23,679m). The increase was mainly impacted by additions and the acquisition of Waterloo Brewing in March 2023. Financial assets of DKK 8,128m were on a par with 31 December 2022 (DKK 8,190m).

Total current assets amounted to DKK 30,198m (31 December 2022: DKK 22,631m). The increase was mainly due to higher cash and cash equivalents and deposits, following the net issuance of EMTN bonds of EUR 1.55bn.

Inventories amounted to DKK 5,811m (31 December 2022: DKK 5,718m), trade receivables to DKK 5,102m (31 December 2022: DKK 5,067m) and various other receivables to DKK 3,667m (31 December 2022: DKK 3,683m).

Deposits and securities amounted to DKK 2,236m (31 December 2022: DKK 0) and were deposits not meeting the definition of cash and cash equivalents but co-managed with cash and cash equivalents. Cash and cash equivalents amounted to DKK 13,382m (31 December 2022: DKK 8,163m).

Section 2 of the consolidated financial statements contains more details on assets and section 4.5.2 on cash and cash equivalents.

Assets in discontinued operations totalled DKK 0m (31 December 2022: DKK 11,618m) following the deconsolidation of the Russian business.

EQUITY AND LIABILITIES

Equity

Equity amounted to DKK 25,749m at 31 December 2023 (31 December 2022: DKK 34,722m), DKK 23,234m of which was attributable to shareholders in Carlsberg A/S and DKK 2,515m to non-controlling interests.

The change in equity of DKK -8,973m mainly related to the profit for the period of DKK -39,777m, other comprehensive income of DKK 38,556m, dividends paid to shareholders and non-controlling interests of DKK -4,844m and the share buy-back of DKK -3,200m.

Liabilities

At 31 December 2023, non-current and current borrowings amounted to DKK 39,101m (31 December 2022: DKK 28,646m): non-current borrowings of DKK 30,763m (31 December 2022: DKK 22,865m) and current borrowings of DKK 8,338m (31 December 2022: DKK 5,781m).

The increase in non-current borrowings of DKK 7,898m was impacted by the issuance of three EUR bonds under the company's Euro Medium Term Notes (EMTN) programme during the year: a 3.5-year EUR 750m bond in May, and in September a 5-year EUR 700m and a 10-year EUR 600m bond. This was partly offset by the reclassification of a EUR 1bn bond maturing in May 2024 to current borrowings. Current borrowings were reduced by a EUR 500m bond, which matured in September 2023.

20240927031129

Non-current tax liabilities, retirement benefit obligations etc. amounted to DKK 8,089m (31 December 2022: DKK 9,007m). The decline was mainly the result of a decline in the Group's obligation, net, on defined benefit plans, the settlement of a fine related to a competition case in Germany, and the reversal of other legal and contractual obligations that did not materialise.

Current liabilities excluding current borrowings were DKK 38,892m (31 December 2022: DKK 38,866m).

Liabilities in discontinued operations totalled DKK 0m (2022: DKK 4,100m) following the deconsolidation of the Russian business.

CASH FLOW

Free operating cash flow amounted to DKK 7,469m (2022: DKK 9,474m), impacted by the lower EBITDA and net contribution from the change in working capital, higher capital expenditure (CapEx).

Free cash flow amounted to DKK 4,878m (2022: DKK 9,884m), impacted by an increase in financial investments.

Net cash flow amounted to DKK 5,254m (2022: DKK 1,696m), positively impacted by the issuance of three bonds during the year, in total amounting to EUR 2,050m, more than offsetting the cash returns in the form of dividends and share buy-backs, in total amounting to DKK -8,001m.

CASH FLOW FROM OPERATING ACTIVITIES

Cash flow from operating activities amounted to DKK 11,607m (2022: DKK 12,949m).

EBITDA amounted to DKK 15,179m (2022: DKK 15,657m), negatively impacted by currencies.

The change in trade working capital was DKK +698m (2022: DKK +1,908m), mainly impacted by an increase in trade payables. Average trade working capital to revenue for the year remained strong at -20.3% (2022: -21.5%).

The change in other working capital was DKK -780m (2022: DKK -465m), impacted by the payment of a competition fine in Germany.

A specification of trade working capital and other working capital is shown in section 1.4 of the consolidated financial statements.

Restructuring costs and other special items amounted to DKK -552m (2022: DKK -171m), impacted by the termination of the Kronenbourg 1664 licensee agreement in the UK.

Net interest etc. paid amounted to DKK -273m (2022: DKK -1,010m). The improvement was mainly due to the settlement of financial instruments. Corporation tax paid was DKK -2,166m (2022: DKK -2,103m).

CASH FLOW FROM INVESTING ACTIVITIES

Cash flow from investing activities was DKK -6,729m (2022: DKK -3,065m).

Acquisition of property, plant and equipment and intangible assets (CapEx) amounted to DKK -4,243m (2022: DKK -4,018m), while total operational investments amounted to DKK -4,138m (2022: DKK -3,475m), also impacted by a small negative contribution from the change in on-trade loans compared with a positive contribution in 2022.

Total financial investments amounted to DKK -2,591m (2022: DKK +410m), mainly attributable to the placement of cash in deposits not meeting the definition of cash and cash equivalents. In the cash flow statement, this is presented as acquisition of financial investments.

RETURN ON INVESTED CAPITAL

ROIC was 14.5% (2022: 15.2%), mainly impacted by the lower reported operating profit before special items due to currencies. ROIC excluding goodwill was 38.3% (2022: 41.6%).

FINANCING

At 31 December 2023, gross financial debt amounted to DKK 39,101m (2022: DKK 28,646m) and net interest-bearing debt to DKK 22,351m (2022: DKK 19,326m).

The increase in net interest-bearing debt of DKK 3,025m was mainly the result of the dividend payout, share buy-back, CapEx and the acquisition of Waterloo Brewing, partly offset by cash flow from operating activities.

The difference of DKK 16,750m between gross financial debt and net interest-bearing debt mainly comprised cash and cash equivalents of DKK 13,382m and deposits and securities of DKK 2,236m.

At 31 December 2023, the average debt duration was 5.7 years (2022: 4.1 years). Of the gross financial debt, 79% (DKK 30,763m) was long term, i.e. with maturity of more than one year from 31 December 2023.

Net interest-bearing debt/EBITDA was 1.47x (2022: 1.23x).

Read more about net-interest bearing debt, capital structure and borrowings in sections 4.2, 4.3 and 4.4 of the consolidated financial statements.

SHARE BUY-BACK

2023 PROGRAMME

In 2023, we initiated three quarterly share buy-back programmes, in total amounting to DKK 3.0bn. Shares worth DKK 2.7bn were bought back in 2023 and the remaining DKK 0.3bn in January 2024. A total of 3,160,923 shares were bought at an average price per share of DKK 949.

In fiscal 2023, 3,338,514 shares were repurchased at a total purchase price of DKK 3.2bn, equal to an average price per share of DKK 958.

2024 PROGRAMME

Based on its continued strong financial position, the Group initiated a new quarterly share buy-back programme on 7 February, with the intention of buying back Carlsberg B shares amounting to DKK 1.0bn up until 19 April 2024.

20240927031300

WESTERN EUROPE

SOLID RESULTS IN A CHALLENGING YEAR

It was a challenging year for Western Europe with significant cost increases, a weakening consumer sentiment and bad weather during the high season in Q3.

We gained market shares in the majority of our markets in the region thanks to good commercial execution, but the overall declining market meant beer volumes declined organically by 3.8%.

Other beverage volumes grew by 0.7%, thanks to growth of the soft drinks businesses in the Nordics. Consequently, total volume development was -2.3%.

Revenue/hl improved organically by 11%, mainly impacted by price increases. In addition, revenue/hl improved as a result of the inclusion of excise duties in the UK following the termination in June of the Kronenbourg 1664 licensee agreement. The full-year and H2 impact on revenue/hl was 1 percentage point and 2 percentage points respectively. Organic revenue growth was 8.9%, while reported growth was 7.0%, mainly due to the depreciation of the Norwegian and Swedish currencies.

Organic operating profit growth was 3.3%, as the business was able to offset the significant commodity, packaging and energy cost increases through higher revenue/hl and continued cost focus.

The organic operating profit growth was offset by currencies, and reported operating profit growth was 0.3%. The operating margin contracted by 90bp to 13.3%.

MARKETS

THE NORDICS

Volumes in the Nordics were flat, as declining beer volumes were offset by solid growth in the soft drinks portfolio.

In Denmark, total volumes were slightly up. We strengthened our beer market share in a market that was under pressure. We saw solid performance for Tuborg, alcohol-free brews and Beyond Beer products.

In Norway, we grew volumes slightly in a flat market, gaining market share in both beer and soft drinks. Our local premium brand, Frydenlund, and the Pepsi portfolio performed well.

In a slightly declining Swedish market, we grew volumes by low-

202409270313 1

single-digit percentages. Despite downtrading being observed in the market, our premium brands Eriksberg and 1664 Blanc both grew. We gained market share, driven by premium beer, alcohol-free brews and soft drinks.

In Finland, volumes declined by low-single-digit percentages. Our premium portfolio delivered strong growth, supported by good results for 1664 Blanc and Brooklyn, and alcohol-free brews also grew, while mainstream core beer and other beverages declined.

FRANCE
We gained market share in France, despite our volumes being down by mid-single-digit percentages. Our premium portfolio outperformed the market, supported by Grimbergen, Brooklyn and local speciality brands. We also saw good performance of 1664. Tourtel declined as a result of lower promotional activity.

SWITZERLAND
The Swiss market was impacted by negative consumer sentiment, declining by an estimated low-single-digit percentage. Our volume development was in line with the market. The premium Valaisanne and 1664 Blanc brands did well, and our alcohol-free portfolio grew strongly. We continued to develop the Pepsi portfolio and see appealing long-term opportunities.

POLAND
After a challenging start to the year in Poland, our performance improved during the second half-year. Our volumes declined by mid-single-digit percentages for the full year, in line with the market. Revenue/hl improved significantly by high-teens percentages, as we took several price increases to mitigate significant cost price inflation.

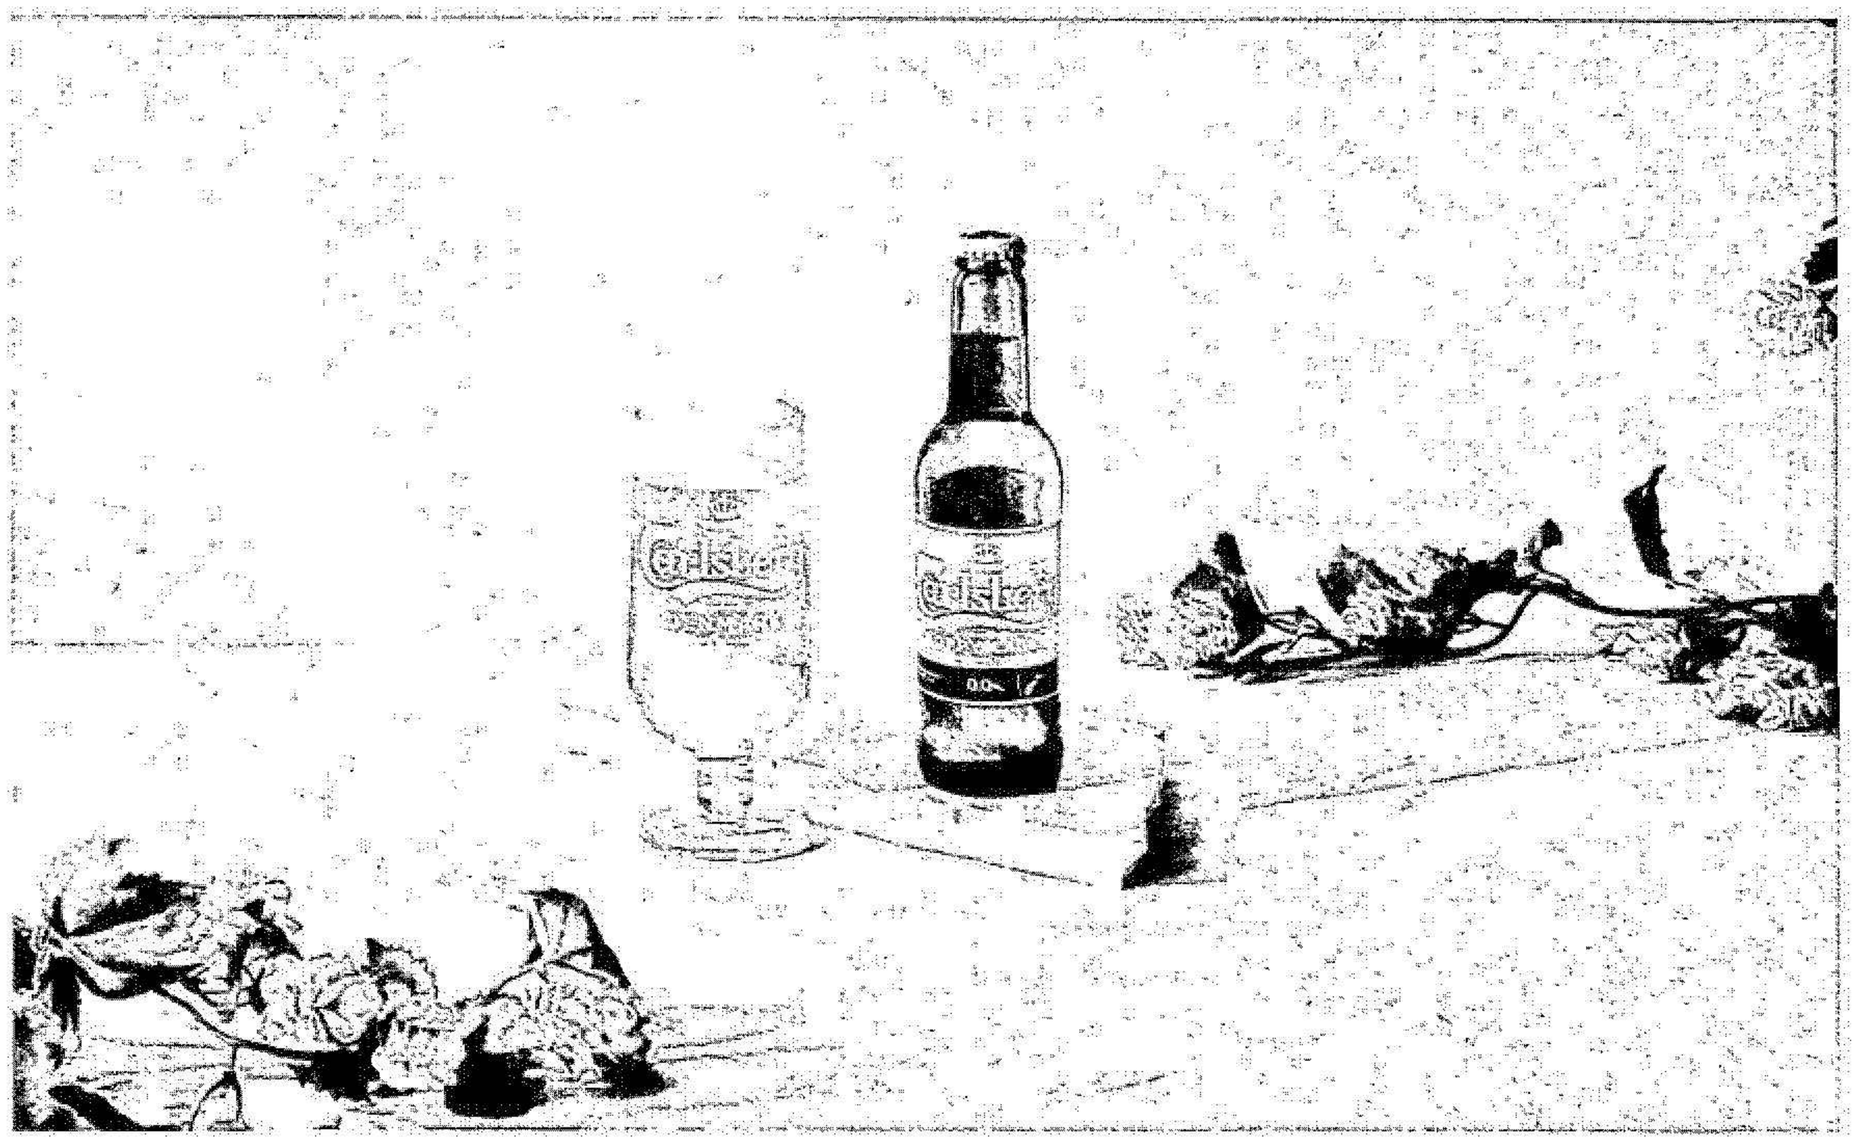

THE UK
In a challenging environment, our UK business delivered solid performance ahead of the market. We saw good growth for premium brands such as Poretti and Brooklyn, and for the alcohol-free versions of Carlsberg and Brooklyn. Total volumes declined by low-single-digit percentages, impacted by the loss of a licence brand.

GROWING

ALCOHOL-FREE BREWS IN SWEDEN

The alcohol-free beer category is the fastest growing beer segment in Sweden, currently accounting for approximately 5% of the total beer market. With an alcohol-free market share of 54%, Carlsberg is a very strong player in Sweden with a broad portfolio of alcohol-free brews catering for different consumer occasions and price points. The portfolio includes Carlsberg – the no. 1 alcohol-free beer brand in Sweden – as well as Brooklyn, 1664 and local brands such as Falcon, Pripps and Eriksberg. In 2023, we launched Carlsberg Hoppy Lager 0.0%. This refreshing and thirst-quenching lager with flavourful aromatic hop notes has taken Swedish consumers by storm, bringing an exciting innovation to the range. Carlsberg Hoppy Lager 0.0% was a strong contributor to our no. 1 market position and the 12% growth of our alcohol-free brews in Sweden.

SAIL 27 **ACCELERATE ALCOHOL-FREE BREWS**

202409270313 2

ASIA

ANOTHER SET OF GOOD RESULTS

Our Asia region delivered another set of solid results in an increasingly challenging macroeconomic environment, particularly in South-East Asia and China.

Beer volumes grew organically by 5.1%, while other beverage volumes declined by 5.8% due to weak energy drinks volumes in Cambodia.

Organic revenue growth was 8.4%. Revenue/hl grew organically by 5%, supported by a positive brand mix and price increases.

Reported revenue declined by 1.7% due to a negative currency impact, notably from the Laotian kip and Chinese renminbi.

Operating profit increased organically by 7.9%, positively impacted by the volume and revenue/hl growth, which more than offset a step-up in commercial investments. H2 in particular was impacted by higher commercial investments following our decision in Q3 to accelerate investments in certain markets.

Reported operating profit declined by 4.2% due to the adverse currency impact.

MARKETS

CHINA

The Chinese beer market was flat (estimate) for the year, but weakened considerably during the second half of the year. We maintained our positive trajectory, growing volumes by 5% and strengthening our market share.

The growth was driven by both premium and mainstream brands. Our local power brands, such as Chongqing, Wusu and Wind Flower Snow Moon, did particularly well, supported by an increase in domestic tourism. Our premium brands Carlsberg and Tuborg grew strongly, while 1664 Blanc was impacted by consumers becoming more price-sensitive.

VIETNAM

We continued to expand our business in Vietnam, delivering high-single-digit volume growth in a market that

		Change				Change

202409270313 3

declined by close to a double-digit percentage (estimated).

The growth was mainly driven by our international premium brands, in particular 1664 Blanc and Tuborg, which benefited from the strengthening of our route-to-market and expanded coverage and number of outlets, enabled by the increase in our commercial investments.

INDIA
Our business in India delivered high-single-digit percentage volume growth, supported by good growth for Carlsberg and Tuborg. We gained market share in some states, supported by premium brand growth. In other states, we lost market share due to capacity constraints, particularly during the peak season.

LAOS
Volumes in Laos grew by high-single-digit percentages, despite several price increases during the year to offset the significant inflationary pressure. Revenue/hl was supported, in addition to price, by a positive mix because of good performance for Somersby and the Beerlao crafty line extension.

CAMBODIA
Following several years of significant decline, our beer business in Cambodia delivered solid high-single-digit percentage growth, albeit from a very low base. However, total volumes declined significantly due to deteriorating volumes for the energy and soft drinks business.

MALAYSIA AND SINGAPORE
The beer markets in Malaysia and Singapore were challenged by the macroeconomic slowdown. In Malaysia, volume development was better than the market and our market share improved. In Singapore, market share was flat, supported by share gains in all categories except premium, which was subject to high promotional pressure in the market.

TUBORG

SEXTUPLING VOLUMES IN ASIA

Over the past decade, Tuborg has become a popular brand in many Asian markets following the launch of Tuborg in India in 2009, China in 2012, Vietnam in 2016, and Laos and Cambodia in 2017. Despite the setback due to COVID, Tuborg volumes in Asia have sextupled since 2013, supported by volumes more than quadrupling in India and increasing by more than tenfold in China, where it quickly became – and remains – our largest premium brand. To further cement Tuborg's brand vision of being a catalyst of excitement, fun and movement within a world full of unexpected and playful experiences, we launched Tuborg Ice and a new global Tuborg campaign – Tilt your World – in 2023. Supported by strong growth in markets such as China and Vietnam, Tuborg grew by 7% in Asia.

SAIL 27 **STEP UP IN PREMIUM AND ACCELERATE IN CORE MARKETS IN ASIA**

202409270313 4

CENTRAL & EASTERN EUROPE

RESULTS IMPACTED BY WEATHER AND INFLATION

Volumes in Central & Eastern Europe were impacted by bad weather during the season, inflation and the transfer of the Kronenbourg 1664 licence volume in the UK to Western Europe.

Volumes were also impacted by the termination of the Kronenbourg 1664 licensee agreement in the UK, which was previously managed in the Export & License division. Consequently, organic beer volume development was -4.0%. Other beverage volumes declined organically by 4.2%, despite growth of energy drinks in the eastern part of the region.

The volume decline in H2 was more pronounced than in H1, as volumes in H2 were impacted by the Kronenbourg 1664 licensee termination and less easy comparables in Ukraine, because volumes in Q1 2022 were severely impacted by the outbreak of the war.

Organic revenue growth was 11.9% due to a significant increase in revenue/hl of 17% thanks to price increases in all markets and a positive product mix despite pressure on disposable income.

Despite significant increases in the total cost base, including cost of sales and marketing investments, operating profit grew organically by 4.1%. Although the higher costs were compensated for in absolute terms, the operating margin contracted by 230bp to 17.2%.

MARKETS

UKRAINE

The health and safety of our Ukrainian colleagues remain our first priority as the country remains at war.

Volume development during the year varied significantly between quarters, with strong volume growth in Q1 due to comparables, as production stopped in Q1 2022 following the

		Change				Change

20240927031335

outbreak of the war, while volumes in the remainder of the year were impacted by the war, intensified competition and bad weather in Q2.

Total volumes for the year were flat, while revenue/hl benefited from price increases and strong growth for the premium and alcohol-free portfolios.

SOUTH-EASTERN EUROPE
Volumes grew organically in Greece and Serbia, but this was offset by double-digit percentage volume decline in Italy due to significant price increases. We strengthened our market share in all markets except Italy, supported by strong growth for our premium and alcohol-free portfolios.

Revenue/hl increased by double-digit percentages in all markets due to price increases and a positive brand mix.

THE BALTICS
Our volumes in the Baltic markets were impacted by bad weather in Q3, a challenging consumer environment and our price increases. Consequently, total volume decline was mid-single-digit percentage. We saw good growth for the alcohol-free portfolio. The revenue/hl increase was in the mid-teens.

EASTERN EUROPE
In Kazakhstan and Belarus, volumes declined by low-single-digit percentages.

In Kazakhstan, the volume decline was the result of a challenging consumer environment, while in Belarus the volume development was impacted by our price increases in a highly promotional trading environment. Revenue/hl increased significantly due to very high price increases.

EXPORT & LICENSE
Volumes in our Export & License business were down by mid-single-digit percentages impacted by the Kronenbourg 1664 licensee termination. We saw good growth for 1664 Blanc, Carlsberg and Brooklyn, but this was offset by lower volumes for Somersby and Tuborg.

UKRAINE

CONTINUED SUPPORT

Our Ukrainian colleagues have shown incredible strength and resilience, navigating the ongoing humanitarian crisis and significant business challenges in another year marked by the terrible war. To acknowledge the impressive work done by our people in Ukraine and confirm the Carlsberg Group's continued commitment to our local business there, Executive Vice President, Central & Eastern Europe Lars Lehmann, travelled to Ukraine several times in 2023, where he met with employees, visited breweries and on- and off-trade outlets, and held meetings with partners and local authorities. Our continued investments in the business, including a new canning line, are further confirmation of the Group's commitment. Maintaining its focus on the SAIL'27 priorities, our team in Ukraine managed to grow the premium portfolio by 12% and support the conversion of former popular Russian brands into other brands, including Garage 0.0, which grew by 55%.

SAIL 27 **DRIVE VALUE AND BUILD SCALE IN CENTRAL & EASTERN EUROPE**

202409270313 6

RUSSIA

On 28 March 2022, we announced the decision to seek a full divestment of our Russian business following Russia's invasion of Ukraine.

On 23 June, Carlsberg announced the conditional sale of Baltika Breweries in Russia.

On 16 July, the Russian government issued a presidential decree temporarily transferring the management of our Russian business – Baltika Breweries – to the Russian Federal Agency for State Property Management. According to the presidential decree, Carlsberg retains title to the shares in Baltika Breweries, but otherwise no longer has any control or influence over the management of the business.

As a result of the loss of control, the investment was fully written down and previous years' accumulated currency translation and hedging losses were reclassified to the income statement. The loss from the discontinued operation in 2023 amounted to DKK 47,748m (2022: loss of DKK 8,075m).

In October, we announced that we had informed Baltika Breweries of our termination of all licence agreements enabling Baltika Breweries to produce, market and sell the Carlsberg Group's products, including international and regional brands. There will be a limited run-off period until 1 April 2024, during which Baltika Breweries may use up existing stock and materials.

We continue to take all possible actions, including legal, to protect assets and operations.

Read about the accounting treatment and impact of the deconsolidation of the Russian business in section 5.1 of the consolidated financial statements.

202409270313 7

2024 EARNINGS EXPECTATIONS

EARNINGS EXPECTATIONS

2024 is the first year of Accelerate SAIL, and we will be stepping up investments in support of our growth priorities and enablers.

While the macroeconomic environment and impact on consumer behaviour remain uncertain, inflationary pressure is moderating. Consequently, we expect a more moderate increase in our total cost base than in previous years. We intend to offset the higher total costs/hl in absolute terms through higher revenue/hl and continued tight cost control.

To position the Group for successful delivery of our increased long-term growth ambitions, we will step up commercial investments in 2024 in alignment with Accelerate SAIL. While keeping the ratio of SG&A to revenue flat, we intend to increase absolute sales and marketing investments, the latter by more than 10%. The majority of the incremental sales and marketing investments will be allocated to brand and route-to-market investments in China and Vietnam, premium brands in markets across our regions, digital capability projects and B2B e-commerce (eB2B).

Consequently, our earnings expectations for 2024 are:

- Organic operating profit growth of 1-5%.

Based on the spot rates at 6 February, we assume a translation impact on operating profit of around DKK -100m for 2024.

Other relevant assumptions are:
- Financial expenses, excluding foreign exchange losses or gains, of DKK 1.1bn.
- Reported effective tax rate of around 21%.
- Capital expenditure of around DKK 5bn, impacted by capacity expansion in Asia, commercial investments across the Group, sustainability and digital investments.

Forward-looking statements
Forward-looking statements are subject to risks and uncertainties that could cause the Group's actual results to differ materially from those expressed in the forward-looking statements. Accordingly, forward-looking statements should not be relied on as a prediction of actual results. See page 57 for the full forward-looking statements notice.

20240927031138

CORPORATE GOVERNANCE

FOCUS ON CORPORATE GOVERNANCE

Our governance framework aims to ensure value creation, safeguard active and transparent stewardship across the Group and reduce risk.

The governing bodies of the Carlsberg Group are the Supervisory Board and the Executive Board. None of the members of the Supervisory Board are or have been involved in the executive management of the Group.

The Supervisory Board hires and supervises the CEO and the CFO, who are formally registered as executive directors of the Company. The CEO and CFO are not members of the Supervisory Board.

The Executive Committee (ExCom) includes the CEO, the CFO and a wider group of Executive Vice Presidents, portrayed on pages 54-55. The Executive Committee collectively prepares and implements the Company's strategic plans.

RECOMMENDATIONS ON CORPORATE GOVERNANCE

The Supervisory Board is responsible for the Company's corporate governance framework and compliance with the Danish corporate governance recommendations and statutory requirements.

The Company complies with all but two of the current recommendations:

- With respect to the recommendation to publish quarterly reports, the Group has chosen to only publish full- and half-year reports.
- With respect to the recommendation that a majority of the members of a board committee should be independent, in 2023 two of the four members of the Nomination Committee and two of the four members of the Remuneration Committee were independent.

The Company's statutory report on corporate governance includes the full list of recommendations, with comments on the Group's position on each recommendation.

Download our statutory report on corporate governance

www.carlsberggroup.com/who-we-are/corporate-governance/#statutoryreports

OUR COMPASS

The Supervisory Board is responsible for overseeing that the Executive Committee has an adequate system and resources in place to ensure compliance with the Company's codes and policies in relation to its business activities.

The Company is dedicated to conducting business with integrity in a responsible, honest and ethical manner. Living by these values – our Compass – is an integrated part of our strategy, Accelerate SAIL, mitigates risks and protects our reputation as a responsible brewer.

Our Compass consists of a Code of Ethics & Conduct and our Group policies, which guide everyone in the Group on everyday decisions and actions, setting out the ethical standards for our behaviour both within the company and towards external business partners such as customers and suppliers.

Group policies include, but are not limited to, anti-bribery & corruption, labour & human rights, diversity, equity & inclusion, competition law, information security & acceptable use, trade sanctions, data protection, data ethics, risk management, finance, marketing, corporate communication, responsible drinking and public & government affairs.

The ESG Report includes a thorough description of how we implement and live by our Compass in our day-to-day actions, including areas such as anti-bribery & corruption, compliance and our Speak Up system, as well as how we work with and seek to ensure high standards for data ethics as described in our Data Ethics Policy.

Download our policies

THE ANNUAL GENERAL MEETING

The 2023 Annual General Meeting (AGM) took place on 13 March. The minutes of the meeting are available on www.carlsberggroup.com.

Rules and deadlines applying to the AGM and other general meetings are stipulated in the Company's Articles of Association, available on www.carlsberggroup.com along with other AGM-related information.

COMPOSITION OF THE SUPERVISORY BOARD

The members of the Supervisory Board and their board meeting attendance are shown in the table on page 43.

Download our ESG Report

www.carlsberggroup.com/reports-downloads/carlsberg-group-2023-esg-report/

202409270313 9

The Supervisory Board currently has eight members elected by the General Meeting and, in accordance with the Danish Companies Act, five members elected by the employees.

Six of the eight members elected by the General Meeting have an international business background and, in addition, competencies related to FMCG, finance, ESG, supply chain, procurement, mergers & acquisitions, Carlsberg's three key regions and emerging markets.

The other two members are affiliated to the Carlsberg Foundation, the Company's largest shareholder, in their capacity as members of the Carlsberg Foundation Board, and both have an academic background. These members are bearers of the Carlsberg Group culture and heritage and the values stemming from our founder, J.C. Jacobsen, and the Supervisory Board sees these members as patrons of the same.

The employee representatives are elected for a term of four years. They have the same rights and obligations as the members elected by the General Meeting. The current employee representatives were elected in 2022 and the next election will take place in 2026.

Information on the Supervisory Board members is available on pages 51-53. Detailed CVs can be found on www.carlsberggroup.com.

DIVERSITY AND COMPETENCIES

The Supervisory Board recognises the value and benefits of diversity in respect of experience, culture, international experience and gender.

Consequently, diversity is of high priority for the Supervisory Board, and it has laid down the following specific objectives in relation to international experience and gender:

- With regard to international experience, the objective is that 50% or more of the Supervisory Board members elected by the General Meeting should have substantial international experience from managing large corporations or institutions. The Supervisory Board fulfils the objective regarding international experience.

THE CARLSBERG FOUNDATION

The Carlsberg Foundation is the Company's largest shareholder. According to its Charter, the Foundation must own shares equivalent to at least 51% of the votes in Carlsberg A/S. At 31 December, the Carlsberg Foundation held 29% of the capital and 77% of the votes in Carlsberg A/S.

The Foundation is a long-term value-oriented shareholder, supporting the Group in creating sustainable value growth through the execution of its strategy and adherence to the Company's capital allocation priorities.

The Foundation participates pro rata in the share buy-back programmes. The dividends from Carlsberg A/S are given back to society by granting funds to foster and support academic research within natural sciences, humanities and social sciences, and funds for cultural and socially beneficial purposes. The Foundation also grants funds to the Carlsberg Research Laboratory. In 2023, dividends received by the Foundation amounted to DKK 1.1bn.

20240927031140

- With regard to gender, the target for the under-represented gender is 40% of the Supervisory Board members elected by the General Meeting. As per the Annual General Meeting 2023, three of the eight members (38%) elected by the General Meeting are women. This represents an equal distribution of gender according to the Danish rules on diversity in top management.

The Supervisory Board constantly considers how to best achieve as diverse a representation as possible in terms of views, culture, experience, background, gender etc. and will maintain the current targets in relation to international experience and gender.

As required by the Financial Statements Act, section 99b, the number of members of the Supervisory Board and at other management levels (as defined by the Danish Companies Act), the share of and targets for the under-represented gender in the parent company are shown in the table below. As the table shows, we have achieved our gender targets for the Supervisory Board and other management levels.

Driving diversity is a business priority, but the scope of the Group's work on diversity is broader and more comprehensive than what is defined in the Danish Companies Act. The Diversity, Equity & Inclusion Policy, available on www.carlsberggroup.com, sets out the Group's broader aspirations and commitments to attract, develop and retain people with different perspectives, experiences and backgrounds. See the 2023 ESG Report for more information on how we work to promote diversity and increase the number of women in leadership positions across the Group.

The skills and competencies that should be represented on the Supervisory Board are described in the Specification of Competencies, available on www.carlsberggroup.com. On the basis of a recommendation from the People & Culture Committee (previously Nomination Committee), the Supervisory Board reviews the Specification of Competencies annually.

The Supervisory Board continuously assesses, including as part of its annual board evaluation, whether the board members possess the required skills and competencies to best support the Carlsberg Group and its strategy, and whether the composition can be further optimised for this purpose.

The Supervisory Board believes that the current composition of the Board ensures an appropriate level of skills, breadth and diversity in the members' approach to their duties, thereby helping to ensure that decisions are well considered and that both short- and long-term perspectives are taken into account.

Management and share of women, parent company, Carlsberg A/S

			Target
	2023	2024	2027
Supervisory Board			
Total members[1]	8		
Share of women	38%	40%	40%
Other management levels[2]			
Total members	3		
Share of women	67%	30%	35%

[1] Elected by the Annual General Meeting [2] Other management levels employed by Carlsberg A/S in Denmark, as defined by the Danish Companies Act.

SUPERVISORY BOARD EVALUATION PROCESS

Each year, the Chair of the Supervisory Board heads a structured evaluation of the Board's work, accomplishments and competencies.

In 2023, the evaluation was facilitated by an external consultancy firm. The process included online questionnaires, mapping of board composition, competencies, benchmarking, review of various board materials and an in-depth personal interview with each board member and selected executives.

The external consultancy firm prepared an evaluation report, which was discussed with the Board, and each board member, the CEO and the CFO received feedback on their performance.

The overall conclusions of the evaluation were that meetings are well planned, prepared and conducted with an open and constructive dialogue, that board members are professional, diligent, knowledgeable and demonstrate ability to adapt to a volatile world and business landscape, and that the Supervisory Board's cooperation and dialogue with the Executive Management are characterised by respect and trust.

The evaluation also resulted in a list of ideas to improve the Board work and an action plan with specific initiatives for 2024. In addition to the externally facilitated evaluation process, the Chair had a one-to-one conversation with each member of the Board and ExCom.

THE WORK OF THE SUPERVISORY BOARD

The main topics of discussion at the Supervisory Board meetings in 2023 are presented in the box on page 45.

The CEO and CFO always attend the Supervisory Board meetings and, in order to ensure transparency, the members of ExCom are also invited and attend when relevant. This gives the Supervisory Board better insight into the business and exposure to the full group of senior executives.

In connection with most Supervisory Board meetings, key people from the Group present a market, a function, a specific risk or other relevant topics.

BOARD COMMITTEES

The Supervisory Board has established three board committees: the People & Culture (previously Nomination), the Remuneration and the Audit Committee. Each year, the Supervisory Board considers whether the number and scope of the committees are appropriate.

20240927031141

Committee members are appointed for one year at a time. The members of the respective committees and their meeting attendance are shown in the tables below and on page 46.

THE PEOPLE & CULTURE COMMITTEE

The Terms of Reference for the People & Culture Committee are available on www.carlsberggroup.com.

In 2023, the Committee had particular focus on:

- Changing the name of the Nomination Committee to the People & Culture Committee to reflect the expansion of the Committee remit to cover a more holistic, end-to-end Supervisory Board approach to the Group's people agenda.
- Planning the Board's evaluation process, including selecting an external provider.
- Reviewing the Specification of Competencies for board members to ensure that they reflect the skills and experiences needed to best support the execution of SAIL'27.
- Succession planning at management and Supervisory Board level, including nomination of Jacob Aarup-Andersen as new Chief Executive Officer to replace Cees 't Hart.
- Evaluating the composition of ExCom and the composition, structure and size of the Supervisory Board.

THE REMUNERATION COMMITTEE

The Terms of Reference for the Remuneration Committee are available on www.carlsberggroup.com.

In 2023, the main activities of the Remuneration Committee were:

- Finalising terms and conditions for Jacob Aarup-Andersen as the new

SUPERVISORY BOARD 2023

MAIN TOPICS OF REVIEW AND DISCUSSION

Strategy

- The impact, and the consequences for employees and the business of the war in Ukraine and the Group's exit from Russia, including the sale of the Russian business on 23 June and the subsequent presidential decree on 16 July announcing the temporary transfer of the management of the Russian business
- SAIL'27 and its execution
- The ESG programme Together Towards ZERO and Beyond
- R&D, innovation, brand portfolio and branding initiatives, quality and other strategic priorities
- Organic growth opportunities, including commercial priorities and three-year plans
- Inorganic growth opportunities
- Selected market and function deep dives
- Continued embedding of cost focus, including the Operating Cost Management toolkit
- Capital structure, funding, dividend and share buy-backs

Organisation, people, succession planning and talent management

- Supervisory Board composition
- Succession planning for the executive management, including the hiring of Jacob Aarup-Andersen as new CEO
- The Group's people agenda
- The diversity, equity & inclusion agenda
- The changing of the name of the Nomination Committee to the People & Culture Committee to reflect an expansion of the Committee remit to cover a more holistic, end-to-end Supervisory Board approach to the Group's people agenda
- The update of the Remuneration Policy for recommendation to the AGM
- Bonus structures, incentive programmes, ensuring support for and alignment with SAIL'27

Governance, compliance and risk management

- Review of the outcome of the 2022 Board evaluation process, including follow-up on all suggestions in 2023
- Externally facilitated board evaluation
- Compliance risks and set-up, including discussion of compliance-enhancing efforts
- An enhanced enterprise risk management approach and anchoring of the same in the Board
- Internal audit & control reports, working processes and continued improvement
- The IT & cyber security strategy
- Compliance with the upcoming EU sustainability reporting regulation
- Relevant issues and ways of working with the external auditor
- Approval of the external auditor for election at the 2023 AGM

202409270314 2

Chief Executive Officer, effective 1 September 2023.
- Ensuring a smooth transition from Cees 't Hart to the new CEO and approving the treatment of Cees' terms and conditions in relation to his retirement.
- Reviewing the Company's Remuneration Policy to reflect both stakeholder input and external best practice. The revised policy will be up for vote at the forthcoming AGM.
- Moving ESG targets into the long-term incentive scheme (LTI) with effect from the grant made in 2023.
- Increasing the revenue growth targets in the long-term incentive scheme to reflect our SAIL'27 ambition.
- Revising the total shareholder return (TSR) peer group in the LTI scheme to better reflect our most direct global competitors.

The work of the Committee is described in more detail in the Remuneration Report, available on www.carlsberggroup.com.

THE AUDIT COMMITTEE

The Terms of Reference for the Audit Committee are available on www.carlsberggroup.com. The Committee members have the relevant financial expertise and necessary experience of the Company's sector.

The Audit Committee works according to the Terms of Reference and a detailed annual meeting plan, which is reviewed and approved by the Supervisory Board prior to the beginning of each financial year.

In 2023, the Audit Committee had particular focus on a number of areas, including:
- Monitoring the effectiveness of the control environment and overseeing the progress on improving and further developing the effectiveness of the controls over financial reporting.
- Monitoring the external financial reporting and accounting judgements, including the accounting treatment of Carlsberg's Russian business and exit, as well as the work of the external auditors.
- Monitoring the preparation for implementing the new EU sustainability reporting regulation.
- Reviewing the progress of the work of the Group Internal Audit function.
- Reviewing the external financial reporting, including the annual reporting.
- Reviewing the work regarding Speak Up matters.
- Managing financial risk.
- Reviewing the risk management process.
- Receiving updates on Group tax.
- Reviewing succession planning for financial personnel.
- Reviewing the Company's reporting against the EU Taxonomy Regulation for sustainable activities.

INTERNAL CONTROL AND RISK MANAGEMENT RELATED TO THE FINANCIAL REPORTING PROCESS

OVERALL CONTROL ENVIRONMENT

The Supervisory Board and ExCom have overall responsibility for the Carlsberg Group's internal control environment.

The Audit Committee is responsible for monitoring the effectiveness of the overall internal control environment and risk management systems, in particular related to the financial reporting process.

The Group has a number of policies and procedures in key areas of financial reporting, including the Finance Policy, the Accounting Manual, the Controller Manual, the Use of Auditors Policy, the Chart of Authority, the Risk Management Policy, the Financial Risk Management Policy, the Corporate Governance Policy, the Information Security & Acceptable Use Policy, the Records Management & Personal Data Protection Policy, the Stock Exchange Compliance Policy, the Tax Policy and the Code of Ethics & Conduct.

The policies and procedures apply to all subsidiaries, and similar requirements are set out in collaboration with the partners in joint ventures.

The Group's internal control framework for financial reporting is designed to reduce and mitigate financial risks identified and ensure reliable internal and external financial reporting. It defines roles and responsibilities and provides assurance that key risks are covered by internal control activities.

While systems and processes are not standardised across all entities, all entities are subject to the same set of internal key controls.

The Group continuously seeks to strengthen the internal control environment through further standardisation, increased automation, strong analytics and transparent governance.

The internal financial control framework is monitored through entities' self-assessment of the

202409270314 3

effectiveness of the implemented controls and continuous testing of performance by the Group's Internal Control function. The monitoring of the performance of the controls focuses on the adequacy of the controls, their effectiveness and the efficiency of the overall controlling processes.

RISK ASSESSMENT

In the internal control framework for financial reporting, the Group has identified the risks that could have a direct or indirect material impact on the financial statements. Group entities are required to carry out and document the internal controls defined by the Group to cover the key risks identified.

All entities are required to reassess the coverage and effectiveness of their controls biannually and must update changes to the control framework for financial reporting, including new risks and controls.

Furthermore, Group entities are required to maintain mapping of risks related to the segregation of duties and implement necessary compensating controls, thereby continuously strengthening the internal control environment and enforcing optimal segregation of duties in the ERP systems.

The segregation of duties within the main ERP systems is continuously monitored by the Group's Internal Control function.

CONTROL ACTIVITIES AND MONITORING

The Group has implemented a formalised financial reporting process, budget process, estimates and monthly reporting on actual performance. The accounting information reported by all Group companies is reviewed by controllers with regional or functional in-depth knowledge of the individual companies/functions and by technical accounting specialists.

Controllers are continuously updated on best practice relating to internal financial controls, and trained in new accounting and reporting requirements.

The entities in the Group are dependent on IT systems. Any weaknesses in the system controls or IT environment are compensated for by manual controls to mitigate any significant risk relating to the financial reporting.

The quality of processes and associated internal controls is subject to continuous monitoring and testing by the Group's Internal Control function as well as to regular internal audits.

The Audit Committee's monitoring covers both the internal control environment and business risk. Monitoring of the internal control environment is covered by the Group's control framework for financial reporting.

The financial risks are assessed and reviewed at multiple levels in the Group, including monthly performance review meetings at ExCom level, periodic review of control documentation, and audits performed by Group Internal Audit.

GROUP INTERNAL AUDIT

Group Internal Audit provides objective and independent assessment of the adequacy, effectiveness and quality of the Group's internal controls. Group Internal Audit works in accordance with a charter, which is reviewed periodically and approved by the Audit Committee.

Taking into account the annual review of business risks (see pages 48-50), an internal audit plan is drawn up for the year. The plan is reviewed and approved by the Audit Committee. In 2023, Group Internal Audit conducted audits mainly in the areas of key operational processes, financial reporting controls, brewery operations, compliance (internal and external regulation) and information technology.

In addition, Group Internal Audit continuously assesses the adequacy of actions implemented by management to address previously raised risks and control issues.

SPEAK UP

The Carlsberg Group has a Speak Up system that enables employees to report misconduct. Reports typically relate to suspected violations of the Carlsberg Code of Ethics & Conduct.

The Speak Up system is operated by an external provider and allows concerns to be brought to the attention of the Group Speak Up Review team anonymously, confidentially and via multiple channels. The EU Whistleblowing Directive is currently under adoption in relevant jurisdictions and our system and process are being adapted to it for full compliance.

The Speak Up Review team is responsible for reviewing and overseeing all reported Speak Up matters. Furthermore, an Integrity Committee, chaired by the CFO, oversees the follow-up of major Speak Up investigations and provides a report to ExCom and the Audit Committee at least quarterly. The Speak Up Summary report contains an overview of all open and closed investigations during the quarter and the time taken to resolve cases.

The Speak Up Review Manual, which clarifies how investigations should be undertaken, is regularly updated to reflect the most recent changes in legislation and new tools used in investigations.

In 2023, there was a relaunch of a communication campaign to raise awareness of the various Speak Up channels available and the importance of speaking up. In Q4 2022, a specific sexual harassment awareness and prevention campaign was launched. Similar campaigns will be repeated every year.

Since the establishment of the Speak Up system, some reports and their subsequent investigation have led to disciplinary sanctions, including dismissal on the basis of violation of the Code of Ethics & Conduct and/or Group policies. The incidents have not had any material impact on the financial results of the Group.

More information regarding the Speak Up system, including reported concerns and disciplinary actions, can be found in the ESG Report.

20240927031144

RISK MANAGEMENT

MANAGING BUSINESS RISKS

In conducting our business and executing our strategy, we seek to manage risks in such a way as to minimise the threats they present.

Our business is subject to a number of risks and uncertainties that could have both short-term and long-term implications for the Group.

The aim of our risk management approach is to address these risks and uncertainties in due time.

GOVERNANCE STRUCTURE

The Supervisory Board is ultimately responsible for the risk management framework and its effectiveness.

At least once a year, the Board reviews the overall risk matrix. The identified risks, including risk development, are subsequently monitored by the Supervisory Board, ensuring that plans are in place for managing the individual risks, such as strategic, operational, financial and compliance risks.

The Supervisory Board may choose to delegate the monitoring of one or more specific risks to a board committee, which then reports back to the Supervisory Board on progress.

The Executive Committee (ExCom) is responsible for reviewing the overall risk exposure associated with the Group's activities and ensuring that appropriate actions are taken.

RISK MANAGEMENT PROCESS

In 2023, we updated the Group's risk management process to ensure timely identification and proactive management of risks and uncertainties throughout the year.

Risks are assessed according to a two-dimensional heat map that estimates the impact of the risk on operating profit or brand/image and the likelihood of the risk materialising.

The risks identified in the heat map represent the most significant current and emerging risks to the company over the next 3-5 years.

The identification of current and emerging risks is founded on a systematic bottom-up/top-down approach involving markets, regions and functions. This is complemented with external views, including publicly available whitepapers from leading organisations and enterprises.

Local and functional risk assessment workshops follow the same principles and methodology as Group-level risk assessment, and are held at appropriate intervals, or as a minimum on an annual basis.

Based on the risk assessment, risks are assessed holistically by ExCom, generally applying a time horizon of up to five years, although some risks may have a longer time horizon.

ExCom assigns risk owners, who are responsible for mitigating the risks through a programme of risk management activities. Each key risk is assigned to an ExCom member, who assumes ultimate responsibility for risk mitigation.

ExCom conducts half-yearly reviews of the risk heat map and mitigation plans, and also conducts a deep dive into each risk at least once a year.

Top risks are presented to and discussed with the Supervisory Board at least once a year.

IDENTIFIED RISKS

The most significant current risks identified are listed in the box below and elaborated on in the following, including in each case a description of the risk and associated mitigation efforts.

MOST SIGNIFICANT CURRENT RISKS

- Economic instability/geopolitical tension impacting our trading and operating environment
- Cybercriminal attack with severe financial, regulatory and reputational consequences for our business
- Ability to take price increases being impacted by political sensitivity and retailer resistance
- Breach of or other non-compliance with laws on competition, anti-bribery and corruption, trade sanctions and data protection resulting in significant fines or settlements as well as reputational loss

202409270314S

The risk movement paragraph indicates whether the likelihood of risk has increased, decreased or is unchanged versus last year.

In addition to the risks described in the following, other significant risks identified included consumer boycott following inappropriate advertising, unfavourable changes in third-party brand licence agreements, business interruption in the supply chain caused by health and safety issues, breach of standards or lack of processes, and stakeholder actions against the Group due to lack of progress on ESG matters negatively impacting corporate and brand reputation.

OTHER EMERGING AND LONG-TERM RISKS

Significant potential long-term risks with a time horizon over five years are mostly associated with climate change impact.

They include the introduction of a cost of carbon initiative and other regulatory initiatives, potentially impacting profitability through increased costs; physical operational interruptions due to climate change in the value chain, such as water scarcity and/or water quality issues, leading to production interruptions and loss of sales; and storms or flooding causing disruptions at the breweries or in the supply chain, resulting in loss of sales and customer dissatisfaction.

For climate-related risk reporting, see our TCFD reporting on pages 28-29.

ECONOMIC INSTABILITY/ GEOPOLITICAL TENSION

Risk movement

Unchanged versus last year.

Description

Across our regions, the macroeconomic environment is challenged by wars and an increased level of global geopolitical tensions. The wider impact of these challenges may be economic instability, inflation and recession, which all pose a real risk to consumer sentiment and disposable incomes, possibly impacting beer markets negatively. Geopolitical tensions may also ultimately force Carlsberg to exit, restructure or change approach in certain markets.

Mitigation

Our strategic priorities are well defined, and we will continue to invest in and drive growth for our premium brands, alcohol-free brews and beverages in the Beyond Beer category. As part of Accelerate SAIL, we have defined the specific priorities that we believe will generate volume and value growth in the next 3-5 years.

Investing in these priorities will strengthen our market positions in growth markets, such as Vietnam and India, and in mature markets in Western Europe, supporting a more balanced geographical exposure.

Our mainstream core beer accounts for 59% of total volume, and this portfolio of strong local power brands acts as an attractive offering in an environment where some consumers may become more price-sensitive.

We will also continue to leverage our value management capabilities to support the positive development in revenue/hl.

In addition, our well-embedded and rigorous Funding the Journey and performance management culture and transparency on costs through our Operating Cost Management (OCM) tool allow us to quickly adapt to changes in the trading environment, while our low financial leverage and access to short-term financing serve as protection during financial uncertainty.

We monitor the global geopolitical situation on an ongoing basis and develop scenarios for intervention in the event that tensions emerge or further evolve. In our scenario analyses, we apply lessons learned from various geographies, including the impact and consequences of the situation in Russia since the outbreak of the war.

CYBER AND IT SECURITY

Risk movement

Unchanged versus last year.

Description

Like all other businesses, the Carlsberg Group relies heavily on technology and IT infrastructure for its day-to-day business. A cyber attack or non-availability of IT systems could have severe financial, regulatory and reputational consequences for our business.

Mitigation

Our Chief Information Security Officer (CISO) leads an independent cyber security function within our IT organisation. The CISO coordinates risk mitigation plans and activities with ExCom and the Supervisory Board.

As the cyber security threat assessment has intensified in recent years, we have strengthened our protective work to counter the risk.

Furthermore, we deploy a wide array of advanced defensive technologies, as well as continuing to embed our risk management framework in all layers of the organisation. We undertake regular testing of our security controls via an ongoing series of technological audits and breach simulations.

20240927031446

While the threat landscape remains difficult, especially with the latest geopolitical challenges, we continue to invest in improving our security and mitigation activities.

ABILITY TO TAKE PRICE INCREASES

Risk movement

Decreased versus last year.

Description

Although at a lower rate than in 2023, we are expecting further inflation in our cost base in 2024.

Political sensitivity and retailer resistance to accepting price increases on consumer goods pose a risk for our ability to take price increases to offset the cost inflation.

Mitigation

We will assess the need for price increases market by market, taking into consideration all internal cost mitigation actions, the economic situation in the given market, and customers' and consumers' ability to cope with price increases.

As part of this, we will leverage value management to seek the right promotional and packaging mix, while also utilising the strength of our brand portfolio, particularly our strong local power brands in markets where consumers are less resilient to the inflationary pressure.

We will also be transparent in our negotiations with retailers, providing them with an understanding of the total cost inflation impacting our business. As price increases taken in recent years have been insufficient for maintaining our gross margins, we need to restore these in the coming years to ensure sufficient funds to invest in future profitable growth.

LEGAL AND REGULATORY COMPLIANCE

Risk movement

Unchanged versus last year.

Description

Legal and regulatory compliance risks include competition law and data protection compliance (GDPR), as well as non-compliance with trade sanctions and anti-bribery & corruption regulations. Failure to comply with regulations and Group policies may lead to fines, claims, and brand and reputation damage.

In recent years, the Group has experienced competition-law dawn raids in a few jurisdictions. Non-compliance with competition law is a growing risk due to increased regulatory enforcement and the availability of leniency or a reduction in fines for those who proactively report breaches to the authorities.

The Group is party to certain ongoing lawsuits and disputes. These and their significance are described in section 3.4 of the consolidated financial statements.

The risk related to trade sanctions is likely to persist, as sanctions imposed on Russia are expected to continue. The Group has continued its enhanced screening requirements to ensure that our counterparties, banks and logistics operators are not sanctioned entities and that transactions are legal.

Mitigation

We continuously review and strengthen the Group-wide control framework covering legal compliance areas, including, but not limited to, competition law, anti-bribery & corruption, trade sanctions and data protection, to reflect areas of increased regulatory focus.

We regularly review and, where necessary, update relevant Group legal and compliance policies, and conduct compulsory training of all relevant employees. In addition, we have embedded the enhanced third-party screening process, launched in Q3 2022, to reduce bribery and sanctions risks.

We actively set a strong tone from the top and work with our managing directors to communicate the importance of compliance and how to mitigate the areas of highest risk in each market.

Read more about our compliance efforts in the Living by our Compass section of the ESG Report.

HENRIK POULSEN
CHAIR (SINCE 2022)
Nationality: Danish
Year of birth: 1967
Appointed (until): 2021 (2024)
Shareholding (B shares): 3,056 (2022: 3,056)

Henrik Poulsen is Senior Advisor to A.P. Moller Holding. He is Deputy Chair of the Board of Directors, a member of the Audit Committee and Chair of the Remuneration Committees of Novo Nordisk. He is Chair of the Board of Directors and Chair of the Nomination and Remuneration Committee at Faerch, and a member of the boards of Directors of Novo Holdings and Bertelsmann SE & Co.

Henrik Poulsen has extensive executive and board experience in large international companies, significant financial knowledge and in-depth knowledge of mergers and acquisitions, strategy, risk management, ESG, transformation and innovation.

MAJKEN SCHULTZ
DEPUTY CHAIR (SINCE 2022)
Nationality: Danish
Year of birth: 1958
Appointed (until): 2019 (2024)
Shareholding (B shares): 150 (2022: 0)

Majken Schultz, PhD, is a Professor at Copenhagen Business School and Chair of the Board of Directors of the Carlsberg Foundation. She is actively involved in the Danish business community in a variety of networks and is a founder partner in the CBS board education programme. She is a member of the Danish Committee on Foundation Governance.

Majken Schultz has substantial experience and is consulted within the areas of organisational culture, identity and corporate branding. She also has extensive board experience. In addition to her analytical and strategic capabilities, she has a broad international network and expertise.

MIKAEL ARO
Nationality: Finnish
Year of birth: 1965
Appointed (until): 2022 (2024)
Shareholding (B shares): 0 (2022: 0)

Mikael Aro is Senior Industry Adviser in the private equity firm Triton. He is Chair of the Board of Directors of Kojamo, Caverion, Glamox AS, Geia Foods AS, Flokk AS and Esperi Care Oy, and a member of the Board of Directors of Habeo Group. He is Chair of the Remuneration Committee at Kojamo and Chair of the Audit Committee at Caverion.

Mikael Aro has strong experience of the branded beverage sector. He has significant financial knowledge and in-depth knowledge of mergers and acquisitions, business development, logistics, sales and marketing.

MAGDI BATATO
Nationality: Swiss
Year of birth: 1959
Appointed (until): 2018 (2024)
Shareholding (B shares): 401 (2022: 201)

Magdi Batato is Chair of the IDH board (an NGO specialised in farmers' livelihoods and overall sustainable value chains), executive in residence at the IMD Business School, Senior Advisor with the Boston Consulting Group and Advisor on the board of o9.

Magdi Batato has international experience and significant expertise within procurement and supply chain operations and efficiency, health & safety and sustainability, including environmental and human rights-related matters. He has extensive knowledge of emerging markets, having held several positions across Asia, the Middle East and Africa. In addition, he has a broad understanding of the assessment and management of business risks.

LILIAN FOSSUM BINER
Nationality: Swedish
Year of birth: 1962
Appointed (until): 2019 (2024)
Shareholding (B shares): 350 (2022: 250)

Lilian Fossum Biner is a member of the Board of Directors and of the Audit Committee of Alfa Laval, a member of the Board of Directors and of the Audit Committee at Pandora and a member of the Board of Directors of Röko.

Lilian Fossum Biner has wide experience from a range of consumer-fronted industries. She has substantial experience of financial management and control, strategic pricing, HR matters and multiple brand strategy.

RICHARD BURROWS
Nationality: Irish
Year of birth: 1946
Appointed (until): 2009 (2024)
Shareholding (B shares): 2,040 (2022: 2,040)

Richard Burrows has extensive experience of the branded consumer goods sector and wide international business experience. He also has a deep understanding of shareholder and investor relations, and the assessment and mitigation of business risks, and he has worked extensively with developing markets and product innovation. In addition, he has substantial experience of financial management and reporting processes.

EVA VILSTRUP DECKER[1]
Nationality: Danish
Year of birth: 1964
Appointed (until): 2014 (2026)
Shareholding (B shares): 68 (2022: 68)

Eva Vilstrup Decker is Senior Director Customer Service & Sourcing, Carlsberg Breweries A/S. She is an employee representative on the Board of Carlsberg Breweries A/S.

202409270314 9

PUNITA LAL
Nationality: Indian
Year of birth: 1962
Appointed (until): 2022 (2024)
Shareholding (B shares): 0 (2022: 0)

Punita Lal has over 30 years of experience in the consumer packaged goods industry within the areas of strategy, marketing and leadership. She is a member of the Board of Directors and a member of the Audit, Compensation & Management Development and Nominating Committees of DBS Group Bank and a member of the Board of Directors Chair of the Nomination & Remuneration Committee and a member of the Corporate Social Responsibility Committee of Cipla.

Punita Lal's broad experience spans multiple disciplines, geographies and cultures, particularly in Asia. She has strong commercial acumen backed by insights, with deep expertise in the areas of branding, consumer behaviour, product development and portfolio management in the beverage space.

ERIK LUND[1]
Nationality: Danish
Year of birth: 1964
Appointed (until): 2015 (2026)
Shareholding (B shares): 54 (2022: 54)

Erik Lund is Head Brewer at Carlsberg Research Laboratory.

IVAN NIELSEN[1]
Nationality: Danish
Year of birth: 1964
Appointed (until): 2023 (2026)
Shareholding (B shares): 0 (2022: 0)

Ivan Nielsen is a brewery worker at Carlsberg Supply Company Danmark A/S, where he is an employee representative on the Board.

OLAYIDE OLADOKUN[1]
Nationality: British
Year of birth: 1986
Appointed (until): 2022 (2026)
Shareholding (B shares): 0 (2022: 0)

EXECUTIVE COMMITTEE

OUR SENIOR MANAGEMENT TEAM

JACOB AARUP-ANDERSEN
GROUP CEO

Nationality: Danish
Year of birth: 1977
Appointed to ExCom: 2023

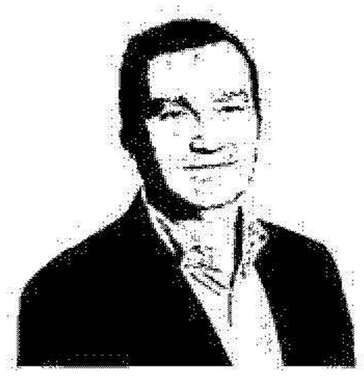

Jacob joined Carlsberg on 1 September 2023. Prior to joining Carlsberg, Jacob served as CEO of ISS, a global leader in facility management with 350,000 employees operating in 60 countries globally. Prior to ISS, he had executive leadership roles at Danske Bank and Danica Pension. Before that, Jacob worked as an investment professional in firms including TPG-Axon Capital and Goldman Sachs. Jacob is a member of the Board of Directors of SEB Group.

ULRICA FEARN
CFO

Nationality: Swedish
Year of birth: 1973
Appointed to ExCom: 2023

Ulrica joined the Carlsberg Group on 1 January 2023. Before joining Carlsberg, Ulrica was CFO of Equinor, Norway. Prior to Equinor, she was Director, Group Finance at BT Group. She began her career at Diageo, where she spent almost 20 years in various senior finance and other management roles across Europe, APAC and the USA. Ulrica is a member of the Board of Directors of Capgemini.

JOÃO ABECASIS
EXECUTIVE VICE PRESIDENT, ASIA

Nationality: Portuguese
Year of birth: 1972
Appointed to ExCom: 2019

João joined the Carlsberg Group in 2011 as CCO and later CEO of Super Bock, our associate in Portugal. In 2016, he became Vice President for smaller markets in the Western Europe region. He has also served as interim Managing Director of Carlsberg Danmark. In 2017, he became Managing Director of our French business, Kronenbourg. He became CCO and a member of ExCom in 2019. Earlier in his career, João held a range of sales and marketing roles at Unilever.

SØREN BRINCK
EXECUTIVE VICE PRESIDENT, GROUP COMMERCIAL AND STRATEGY

Nationality: Danish
Year of birth: 1974
Appointed to ExCom: 2021

Søren joined Carlsberg's commercial team in 2005. During his career at Carlsberg, he has held various management positions at Group, regional and market level. From 2009 to 2019, he was Managing Director in Denmark, Norway and Greece, and after that he was SVP, Asia. Before joining Carlsberg, Søren worked as a consultant at Accenture and was a manager at Arla Foods.

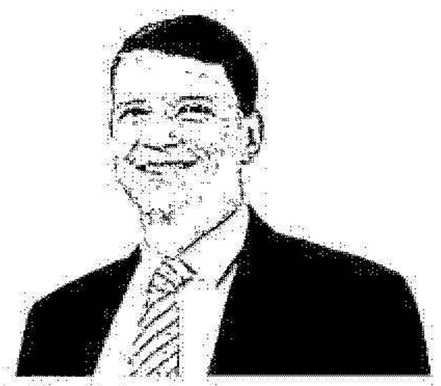

GRAHAM FEWKES
EXECUTIVE VICE PRESIDENT, WESTERN EUROPE

Nationality: British
Year of birth: 1968
Appointed to ExCom: 2014

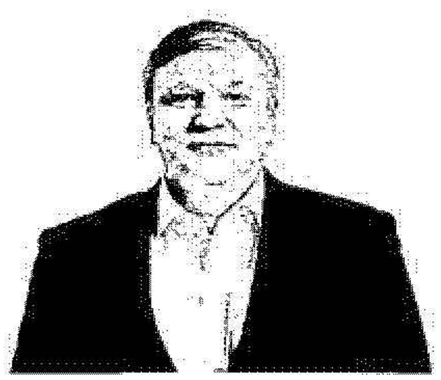

Graham joined the Carlsberg Group as Vice President Commercial, Asia in 2008, before becoming SVP of Group Sales, Marketing & Innovation in 2014. Prior to his current role, he served as EVP, Asia from 2015 to 2021. Graham has strong experience in the global drinks business, having served in a wide range of international sales and marketing roles for Grand Metropolitan plc, Foster's Brewing Group and S&N plc.

202409270315 1

LARS LEHMANN
EXECUTIVE VICE PRESIDENT, CENTRAL & EASTERN EUROPE
Nationality: Danish
Year of birth: 1966
Appointed to ExCom: 2019

Lars joined the Carlsberg Group in 2003 as Commercial Development Director. Since then, he has held several management positions, including VP, Commercial for Eastern Europe & BBH and head of Export, License & Duty Free. In 2016, he became Managing Director of Carlsberg Malaysia. Prior to joining Carlsberg, Lars was with Action Nordic and Unilever Denmark.

VICTOR SHEVTSOV
EXECUTIVE VICE PRESIDENT, SUPPLY CHAIN
Nationality: Russian
Year of birth: 1970
Appointed to ExCom: 2021

Victor joined Carlsberg from PepsiCo in 2015 as Vice President for our supply chain in Asia. Victor's solid end-to-end supply chain expertise has been accrued through various supply chain roles, including several operative and strategy roles within supply chain across Europe and Sub-Saharan Africa during his 20 years with PepsiCo. Prior to PepsiCo, Victor worked for Siemens.

202409270315Z

INFORMATION FOR SHAREHOLDERS

Carlsberg A/S is listed on Nasdaq Copenhagen. The Company has around 56,000 registered shareholders.

The Company has two share classes: Carlsberg A and Carlsberg B. An A share carries 20 votes, while a B share carries two votes and is entitled to a preferential dividend. The B share is included in the Nasdaq OMX Nordic Large Cap and OMXC20 blue-chip indices.

As a supplement to its Copenhagen listing, the Company has established a sponsored level 1 ADR (American Depository Receipt) programme with J.P. Morgan. The ADRs trade over-the-counter in the USA under the symbol CABGY. More information on the ADR programme is available on our investor website.

MAJOR SHAREHOLDERS

At 31 December 2023, the Company's largest shareholder was the Carlsberg Foundation with 29% of the capital and 77% of the votes. In accordance with section 29 of the Danish Securities Trading Act, Massachusetts Financial Services Company (Boston, USA) has notified Carlsberg that it owns more than 5% of the share capital.

SHAREHOLDER RETURN

The Carlsberg Group's dividend policy stipulates an adjusted payout ratio of around 50%. In addition, the Company conducted share buy-backs amounting to DKK 3.2bn in 2023. For more information, see page 10.

INVESTOR RELATIONS

The Carlsberg Group aims to give shareholders and the market the best possible insight into factors considered relevant for ensuring market-efficient and fair pricing of the Company's shares. This is achieved through the quality, consistency and continuity of the information provided to the market, which is handled by the Group's Investor Relations department.

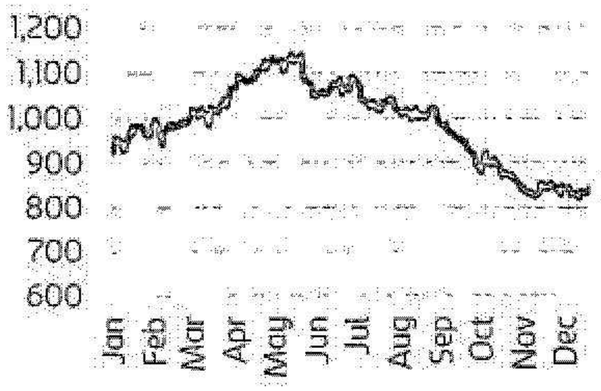

We observe a four-week silent period prior to the publication of the annual and half-year reports, and a two-week silent period prior to the Q1 and Q3 trading statements.

GROUP WEBSITE

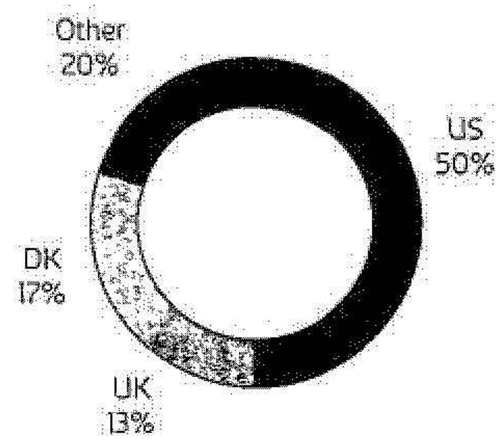

www.carlsberggroup.com provides comprehensive information about the Group and its shares and bonds, including Company announcements, annual and half-year financial statements and quarterly trading statements, share prices and financial data, investor presentations, webcasts and transcripts, and a financial and event calendar.

At the end of 2023, a total of 29 brokers had coverage of the Company. The analysts' names and consensus estimates can be found on the website.

FORWARD-LOOKING STATEMENTS AND ESEF

This Annual Report contains forward-looking statements, including statements about the Group's sales, revenues, earnings, spending, margins, cash flow, inventory, products, actions, plans, strategies, objectives and guidance with respect to the Group's future operating results.

Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain the words "believe, anticipate, expect, estimate, intend, plan, project, will be, will continue, will result, could, may, might", or any variations of such words or other words with similar meanings.

Any such statements are subject to risks and uncertainties that could cause the Group's actual results to differ materially from the results discussed in such forward-looking statements.

Prospective information is based on management's then current expectations or forecasts. Such information is subject to the risk that such expectations or forecasts, or the assumptions underlying such expectations or forecasts, may change.

The Group assumes no obligation to update any such forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting such forward-looking statements.

Some important risk factors that could cause the Group's actual results to differ materially from those expressed in its forward-looking statements include, but are not limited to: economic and geopolitical uncertainty (including interest rates and exchange rates), financial and regulatory developments, demand for the Group's products, increasing industry consolidation, competition from other breweries, the availability and pricing of raw materials and packaging materials, cost of energy, production- and distribution-related issues, information technology failures, breach or unexpected termination of contracts, market-driven price reductions, market acceptance of new products, changes in consumer preferences, launches of rival products, stipulation of fair value in the opening balance sheet of acquired entities, litigation, environmental issues and other unforeseen factors.

New risk factors can arise, and it may not be possible for management to predict all such risk factors, nor to assess the impact of all such risk factors on the Group's business or the extent to which any individual risk factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement.

Accordingly, forward-looking statements should not be relied on as a prediction of actual results.

202409270315 9

SECTION 1

OPERATING ACTIVITIES

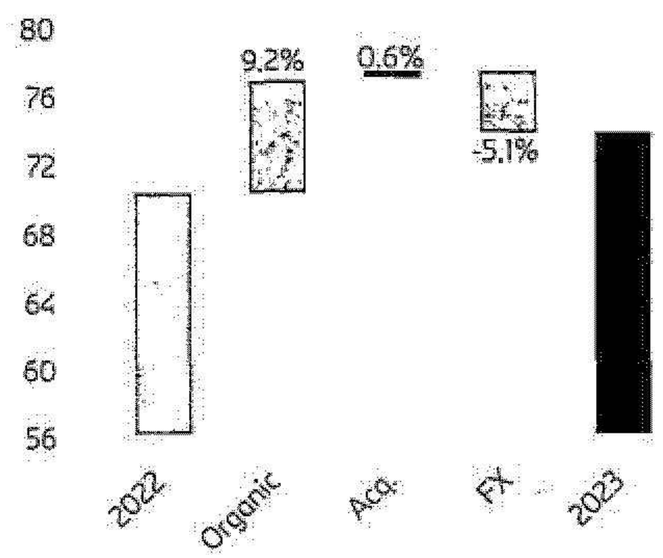

73.6bn

REVENUE (DKK)

Revenue grew by 4.7% to DKK 73,585m (2022: DKK 70,265m). Revenue growth was primarily driven by price increases across markets, taken in order to offset the significant cost increases, and supported by a positive product mix.

The negative currency impact related in particular to the Chinese, Laotian, Indian, Ukrainian, Norwegian and Swedish currencies. The acquisition impact related to the acquisition of Waterloo Brewing in Canada.

REVENUE DEVELOPMENT (%)

44.6%

GROSS MARGIN

Although gross profit/hl increased by 3%, the gross margin declined by 100bp to 44.6% due to increased cost of sales from higher input and energy costs and higher salaries.

11.1bn

OPERATING PROFIT (DKK)

Operating expenses increased by 4% due to increased marketing and sales investments, while administrative expenses declined. Total operating expenses as a percentage of revenue declined by 20bp.

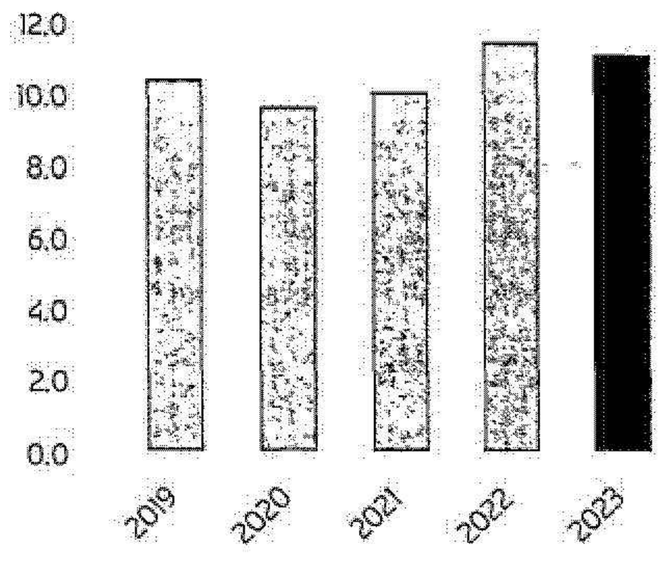

The share of profit after tax of associates declined by DKK 320m, mainly due to lower property income in Carlsberg Byen and certain one-off expenses in associates in Asia.

Operating profit before depreciation, amortisation and impairment losses (EBITDA) declined by 3.1% to DKK 15,179m. The EBITDA margin declined by 170bp to 20.6%, impacted by the lower gross margin, higher operating expenses and currencies.

Group operating profit declined by 3.2% to DKK 11,105m, again due to the negative currency impact, which offset the organic growth of 5.2%. The currency impact primarily related to the Chinese, Laotian, Ukrainian and Norwegian currencies.

The operating margin declined by 120bp to 15.1%, mainly due to the lower gross margin and increased marketing investments.

OPERATING PROFIT DEVELOPMENT (DKKbn)

2019-2020 including Russia. 2021-2023 excluding Russia.

8.0bn

PROFIT FROM CONTINUING OPERATIONS (DKK)

Special items, net, amounted to DKK -431m (2022: DKK -784m). Special items are detailed in section 3.1.

Financial items, net, amounted to DKK -844m (2022: DKK -725m). Excluding currency gains and losses, financial items, net, amounted to DKK -693m (2022: DKK -506m). The increase was mainly due to higher average funding costs, higher net interest-bearing debt and factoring fees. Net currency losses mainly related to the strengthening of the EUR/DKK and conversion costs for the Laotian kip. Financial items are detailed in section 4.1.

Tax totalled DKK -1,859m (2022: DKK -1,778m). The effective tax rate was impacted by certain non-recurring items, including adjustments related to prior years and the deconsolidation of the Russian business. Tax is detailed in section 6.1.

Profit for the period, continuing operations, was DKK 7,971m (2022: DKK 8,183m).

20240927031160

The Carlsberg Group's share of profit for the period was DKK -40,788m (2022: DKK -1,063m), impacted by the deconsolidation of the Russian business. See section 5.1 for further details. Non-controlling interests' share of profit for the period was DKK 1,011m (2022: DKK 1,171m).

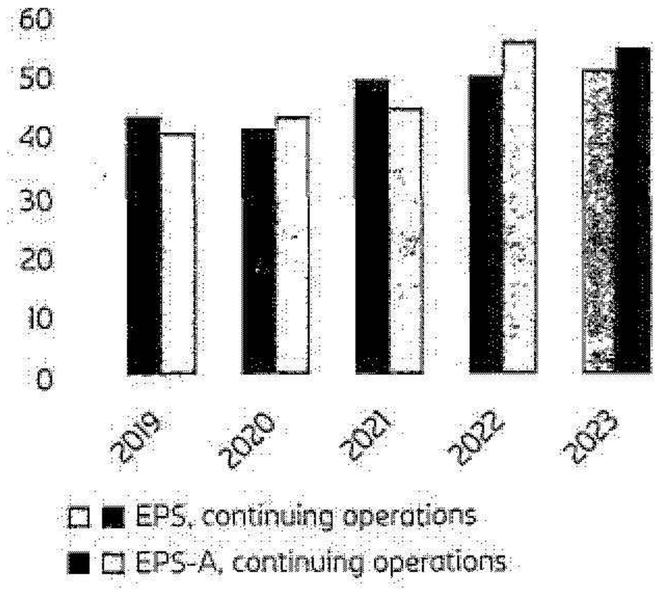

54.6

EARNINGS PER SHARE, CONTINUING OPERATIONS, ADJUSTED (DKK)

Adjusted earnings per share for continuing operations declined by 2.0% to DKK 54.6 (2022: DKK 55.7). Adjusted earnings per share were supported by the share buy-back programmes.

Earnings per share were DKK -299.7 due to the deconsolidation of the Russian business.

EARNINGS PER SHARE, CONTINUING OPERATIONS (DKK)

11.6bn

OPERATING CASH FLOW (DKK)

Cash flow from operating activities amounted to DKK 11,607m (2022: DKK 12,949m).

The change in trade working capital was DKK +698m (2022: DKK +1,908m), mainly impacted by the increase in trade payables. Average trade working capital to revenue for the year was -20.3% (2022: -21.5%).

The change in other working capital was DKK -780m (2022: DKK -465m), impacted by the payment of a competition fine in Germany.

Restructuring costs and other special items paid of DKK -552m (2022: DKK -171m) were impacted by the termination of the Kronenbourg 1664 licensee agreement in the UK. Net interest etc. paid amounted to DKK -273m (2022: DKK -1,010m). The improvement was mainly due to gains on the settlement of financial instruments. Corporation tax paid was DKK -2,166m (2022: DKK -2,103m).

4.9bn

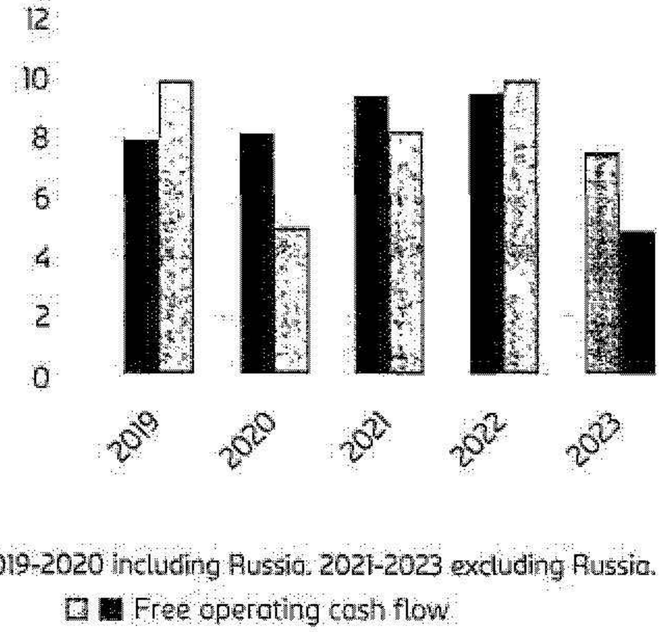

FREE CASH FLOW (DKK)

Free cash flow amounted to DKK 4,878m (2022: DKK 9,884m), while free operating cash flow amounted to DKK 7,469m (2022: DKK 9,474m). Free cash flow was negatively impacted in 2023 by the placement of cash in deposits not meeting the definition of cash and cash equivalents.

Operational investments totalled DKK -4,138m (2022: DKK -3,475m). Acquisition of property, plant and equipment and intangible assets (CapEx) amounted to DKK -4,243m (2022: DKK -4,018m).

Total financial investments amounted to DKK -2,591m (2022: DKK +410m), mainly attributable to the considerations related to the acquisition of Waterloo Brewing in Canada and the placement of cash in deposits.

FREE CASH FLOW (DKKbn)

2019-2020 including Russia. 2021-2023 excluding Russia.

202409270316I

SECTION 1.1

SEGMENTATION OF OPERATIONS

The segmentation used in the Annual Report 2023 is unchanged from 2022. Since the acquisition, Waterloo Brewing in Canada has been included in Central & Eastern Europe, and Jing-A Group in China has been included in Asia, cf. section 5.3.

REVENUE

The Group's revenue arises primarily from the sale of beverages to its customers.

In 2023, total revenue was positively impacted by improved revenue/hl growth driven by price increases across all markets in order to offset the significant cost increases. This was supported by a positive product mix. Reported revenue growth was partly offset by a negative currency impact.

Other revenue by category is sales of products other than beverages that do not drive any volume, such as merchandise, services and by-products. In aggregate, other revenue accounts for around 1% of Group total revenue and is therefore not considered material.

Not allocated revenue, DKK 21m (2022: DKK 16m), consisted of DKK 750m (2022: DKK 733m) in revenue and DKK -729m (2022: DKK -717m) from eliminations of sales between the geographical segments.

The distribution of revenue between beer and other beverages relative to volumes is largely the same across regions.

VOLUMES
The organic decline in total volumes was the result of lower volumes in Western Europe and Central & Eastern Europe while Asia continued the volume growth from last year. Reported volume was positively affected by the acquisition of Waterloo Brewing.

OPERATING PROFIT BEFORE SPECIAL ITEMS
Not allocated operating profit before special items, DKK -1,266m (2022: DKK -1,370m), related to central costs not managed by the regions, including costs of developing branding activities to support the strategic initiatives and general costs of centralised functions. Group operating profit declined by 3.2%, negatively affected by currency impact. Organic growth in operating profit was 5.2%.

OPERATING MARGIN
The operating margin declined to 15.1% compared to 16.3% in 2022. The decline was due to lower gross margin and increased marketing investments.

NON-CONTROLLING INTERESTS
The Group's non-controlling interests consist of Lao Brewery, Carlsberg Chongqing Breweries Group, Carlsberg Malaysia Group and Carlsberg Marston's Brewing Group, as well as other non-controlling interests, primarily in the Asia region. Non-controlling interests are not individually material to the Group's total profit.

CHANGES TO THE SEGMENTATION IN 2024
The Group's regional structure was changed effective 1 January 2024, with the aim of rebalancing the size of the regions after our exit from Russia. As a result of this change, the operation in Carlsberg India and the investment in Gorkha Brewery in Nepal will move from the Asia region to the renamed Central & Eastern Europe and India (CEEI) region. At the same time, Carlsberg Shared Services will move from Not allocated to Western Europe as it mainly provides services to the markets in this region. Please refer to section 9.5 for further disclosures.

ACCOUNTING ESTIMATES AND JUDGEMENTS

The Group considers all terms and activities in contracts with customers in order to determine the performance obligation, the transaction price and the allocation of the transaction price.

If the consideration in a contract includes a variable amount, the Group estimates the consideration to which it will be entitled in exchange for transferring goods to the customer. The variable consideration is estimated at contract inception based on expected sales volumes using historical and year-to-date sales data and other information about trading with the individual customer or with a group of customers.

The Group estimates discounts using either the expected value method or the most likely amount method, depending on which method better predicts the amount of consideration to which it will be entitled.

The most likely amount method is used for contracts with a single contract sum, while the expected value method is used for contracts with more than one threshold because of the complexity and the activities agreed with the individual customer.

Certain contracts related to specific major events that are held within such a short time period that it is not possible to sell all the goods during the event (e.g. football matches) give the customer the right to return the goods within a specified period.

202409270316 3

SECTION 1.1 (CONTINUED)

SEGMENTATION OF OPERATIONS

The Group uses the expected value method to estimate the goods that will not be returned, as this method best predicts the amount of variable consideration to which the Group will be entitled. For goods that are expected to be returned, the Group recognises a refund liability instead of revenue.

Management makes judgements when deciding whether supporting activities with customers should be classified as a discount or a marketing expense. Generally, activities with an individual customer are accounted for as a discount, whereas costs related to broader marketing activities are classified as marketing expenses.

Whether the Group is acting as a principal or an agent is assessed by management on a country-by-country basis. The Group has concluded that it acts as the principal in its revenue arrangements because it controls the goods before transferring them to the customer.

Excise duties, taxes and fees
The classification of duties, taxes and fees paid to local authorities or brewery organisations etc. requires judgements on the classification to be made by management.

Locally imposed duties, taxes and fees are typically based on product type, alcohol content, consumption of certain raw materials, such as glue, plastic or metal in caps, and energy consumption. These are classified as either sales- or production-related.

Excise duties are generally imposed by the tax authorities as taxes on consumption and are collected by the Group on behalf of the authorities when the goods are transferred to the customers and thereby ready for consumption.

Taxes and fees related to the input/use of goods in production, distribution etc. are recognised as part of the cost of the goods or services purchased. The type of authority or organisation imposing the duty, tax or fee and the objective of this are key factors when determining the classification.

ACCOUNTING POLICIES

Revenue
Recognition and measurement
Revenue from contracts with customers comprises sales of goods, royalty income, rental income from non-stationary equipment, service fees and sales of by-products.

Revenue from the sale of own-produced finished goods, goods for resale (third-party products) and by-products is recognised at the point in time when the control of goods and products is transferred to the customer, which is generally upon delivery. For contracts providing the customer with a right of return within a specified period, the Group considers the timing of recognition.

Revenue from sales- or usage-based royalties is recognised when (a) the customer subsequently sells or uses the goods, or (b) the performance obligation to which some or all of the sale- or usage-based royalty has been allocated is satisfied (or partially satisfied), whichever is later.

Revenue from contracts with customers is measured at an amount that reflects the expected consideration for those goods. Amounts disclosed as revenue exclude discounts, VAT and excise duties collected on behalf of authorities.

The Group considers whether contracts include separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Group considers the effects of variable consideration. No element of financing is deemed present, as payment is generally made on the basis of cash on delivery or up to 30 days of credit.

Variable consideration
The Group offers various discounts depending on the nature of the customer and business.

Discounts comprise off-invoice discounts, volume- and activity-related discounts, including specific promotion prices offered, and other discounts. Furthermore, discounts include the difference between the present value and the nominal amount of on-trade loans to customers, cf. section 1.5.

Off-invoice discounts arise from sales transactions where the customer immediately receives a reduction in the sales price. This also includes cash discounts and incentives for early payments.

Volume- and activity-related discounts is a broad term covering incentives for customers to sustain business with the Group over a longer time and may be related to a current campaign or a sales target measured in volumes or total value. Examples include discounts paid as a lump sum, discounts for meeting certain sales targets or progressive discounts offered in step with increasing sales to a customer.

Other discounts include listing fees, i.e. fees for certain listings on shelves, in coolers or in favourable store locations, as specific promotions of this nature are closely related to the volumes sold.

Segment information
The Group's beverage activities are segmented according to the three geographical regions where sales take place. These regions make up the Group's reportable segments.

The segmentation reflects the geographical and strategic management, decision and reporting structure applied by the Executive Committee for monitoring the Group's strategic and financial targets. Segments are managed based on business performance measured as operating profit before special items.

Not allocated comprises income and expenses incurred for ongoing support of the Group's overall operations and strategic development. The expenses include costs of running central functions and marketing, such as global sponsorships.

The non-beverage segment, comprising research and real estate activities, is managed separately and therefore shown separately instead of geographically segmented.

The geographical allocation of revenue and non-current assets is based on the selling entities' domicile and comprises countries individually accounting for more than 10% of the Group's consolidated revenue as well as the domicile country.

Decisions on restructuring, acquisition and divestment of entities included in special items as well as on financing (financial income and expenses) are made based on information for the Group as a whole and therefore not segmented. A similar approach is taken regarding tax associated with these transactions.

The segmentation of the Group's assets and returns is disclosed in section 2.1.

Reported figures
Reported figures are analysed by looking at the impact of organic growth, net acquisitions and foreign exchange effects.

The net acquisition effect is calculated as the effect of acquisitions and disposals, including any share obtained from an increase/decrease in ownership of associates, for a 12-month period from the acquisition/disposal date.

The foreign exchange effect is calculated as the difference between the figures for the current reporting period translated at the current exchange rates and at the exchange rates applied in the previous reporting period.

Organic growth is the remaining growth that is not related to acquisitions, disposals or foreign exchange effects.

202409270316 4

SECTION 1.2

OPERATING EXPENSES AND INVENTORIES

1.2.1 COST OF SALES AND INVENTORIES

Cost of sales increased by 7% compared with 2022, due to higher input and energy costs and higher salaries. Cost of sales per hl increased by 7% compared with 2022.

Cost of sales

DKK million	2023	2022
Cost of materials	23,618	21,655
Direct staff costs	1,528	1,521
Amortisation and depreciation	2,411	2,536
Indirect production overheads	5,067	4,788
Purchased finished goods and other costs	8,129	7,698
Total	**40,753**	**38,198**

Inventories increased by 2% compared with 2022, impacted by cost increases across markets and the acquisition of Waterloo Brewing.

Inventories

DKK million	2023	2022
Raw materials	2,359	2,333
Work in progress	399	344
Finished goods	3,053	3,041
Total	**5,811**	**5,718**

Commodity price risk is associated with externally sourced input materials, such as malt (barley), cans (aluminium), paper, sugar and glass & plastic (PET) bottles. Commodity risk management is coordinated centrally and aimed at achieving predictable prices in the medium term.

As the underlying markets for the commodity categories are different, so is the way in which they are hedged.

The most common form of hedging is fixed-price purchase agreements with suppliers in local currencies.

For barley and aluminium, the two most significant commodity exposures, Group policy is to have a minimum of 70% hedged for a given year by the end of the third quarter of the previous year, with a target hedge ratio of 90% at the beginning of the year.

A significant part of the Group's barley exposure for 2023 had therefore been hedged through fixed-price purchase agreements entered into in 2022. Likewise, the majority of the exposure for 2024 was hedged in 2023.

In the Group's long-term purchase agreements for cans, the aluminium price is variable and based on the global market price of aluminium (London Metal Exchange, LME) and in some contracts the can price is also variable with respect to the aluminium spot premium.

The aluminium price risk was hedged for both 2023 and 2024, and for 2024 the aluminium spot premium has been hedged using derivative financial instruments applying hedge percentages in line with the policy. The fair values of the derivative financial instruments are specified in section 4.9.

For sugar we enter into rolling forward hedges with suppliers fixing prices linked to official indices, for example NY11. As with barley and aluminium, the majority of the 2023 sugar exposure had been hedged in 2022. Likewise, the majority of the exposure for 2024 was hedged in 2023.

Other commodities, such as PET resins, paper, rice and corn, are also hedged directly via suppliers fixing prices to the extent possible.

For electricity and natural gas, used in production of the Group's own products, most markets in Central & Eastern Europe and Asia are regulated with no possibility to hedge prices. In Western Europe, where most markets allow forward hedging, the majority of the Group's exposure is hedged up to a 15-month rolling basis. For the electricity used at the Fredericia site in Denmark, a 10-year PPA starting mid-2024 has been entered into.

The fair value of derivative financial instruments is specified in section 4.9.

In January 2023, the Group hedged fuel, linked to distribution expenses, via financial contracts for 2023 using a similar set-up to how aluminium is hedged. At 31 December there were no fuel hedges for 2024.

Hedging of raw material price risk

DKK million	Sensitivity assuming 100% efficiency				Time of maturity		
Aluminium	Change	Effect on OCI	Tonnes purchased	Average price (DKK)	2023	2024	2025
2023	20%	371	116,529	16,238	-	93,582	22,947
2022	20%	381	116,454	18,304	93,608	22,846	-
Aluminium premium	**Change**	**Effect on OCI**	**Tonnes purchased**	**Average price (DKK)**	**2023**	**2024**	**2025**

2023	20%	29	289,966	420	12,123	116,000	161,843
2022	20%	34	289,966	420	-	99,123	190,843

20240927031653

SECTION 1.2 (CONTINUED)

OPERATING EXPENSES AND INVENTORIES

ACCOUNTING ESTIMATES AND JUDGEMENTS

At least once a year, management assesses whether the standard cost of inventories approximates the actual cost. During the year, the standard cost is revised if it deviates by more than 5% from the actual cost. Indirect production overheads are calculated on the basis of relevant assumptions as to capacity utilisation, production time and other factors.

The calculation of the net realisable value of inventories is relevant to packaging materials, point-of-sale materials and spare parts. The net realisable value is normally not calculated for beer and soft drinks due to their limited shelf-life, which means that slow-moving goods must be scrapped instead.

ACCOUNTING POLICIES

Cost of sales comprises cost of materials used in own-produced finished goods, including malt (barley), hops, glass, cans, other packaging materials, direct labour, indirect production overheads and standard cost variations. Further, it comprises purchased finished goods, which include cost of point-of-sale materials and third-party products sold to customers.

Indirect production overheads comprise indirect supplies, wages and salaries, amortisation of brands and software, as well as maintenance and depreciation of machinery, plant and equipment used for production.

The cost of purchased finished goods, raw and packaging materials and point-of-sale materials includes the purchase cost and costs directly related to bringing inventories to the relevant place of sale and getting them ready for sale, for example insurance, freight and duties.

Inventories are measured at the lower of standard cost (own-produced finished goods) and weighted average cost (other inventories), or net realisable value. The net realisable value is the estimated selling price less costs of completion and costs necessary to make the sale, also taking into account marketability, obsolescence and developments in expected selling price.

The cost of scrapped/impaired goods is expensed in the function (line item) responsible for the loss, i.e. losses during distribution are included in distribution expenses, while scrapping of products due to sales not meeting forecasts is included in sales expenses.

1.2.2 SALES AND DISTRIBUTION EXPENSES

Marketing expenses increased due to accelerated investments in brands and activities. Distribution expenses increased by 6% per hl as a result of increased energy prices. Total marketing, sales and distribution expenses increased by 6%.

Sales and distribution expenses

DKK million	2023	2022
Marketing expenses	6,169	5,793
Sales expenses	5,371	5,120
Distribution expenses	6,815	6,424
Total	**18,355**	**17,337**

ACCOUNTING POLICIES

Marketing expenses consist of expenses for brand marketing and trade marketing.

Brand marketing is an investment in the Group's brands and consists of brand-specific investments in the development of communication vehicles, the use of these is to drive the sale of branded products, sales campaigns and sponsorships.

Trade marketing is promotional activities directed towards customers, such as the supply of point-of-sale materials, promotional materials and trade offers.

Sales expenses comprise costs relating to general sales activities, write-downs for bad debt losses, wages and salaries as well as depreciation and impairment of sales equipment. Distribution expenses comprise costs incurred in distributing goods, wages and salaries, and depreciation and impairment of distribution equipment.

1.2.3 OTHER OPERATING ACTIVITIES, NET

Other operating activities are secondary to the principal activities of the Group and include income and expenses relating to rental properties, restaurants, on-trade loans, research activities, and gains and losses on disposal of intangible assets and property, plant and equipment.

Other operating activities, net

DKK million	2023	2022
Gains and losses on disposal of property, plant and equipment and intangible assets, net	47	79
On-trade loans, net	95	30
Real estate, net	13	18
Research centres, net	-132	-107
Other, net	101	48
Total	**124**	**68**

ACCOUNTING POLICIES

Gains and losses on disposal of intangible assets and property, plant and equipment are determined as the sales price less selling costs and the carrying amount at the disposal date.

On-trade loans, net, comprise the effective interest on the loans measured at amortised cost less impairment.

Expenses relating to research activities comprise research in Denmark and France less funding received from the Carlsberg Foundation for the operation of the Carlsberg Research Laboratory and grants received to fund research. The funding and grants are recognised in the income statement in the same period as the activities to which they relate. Product development costs are included in cost of sales.

20240927031166

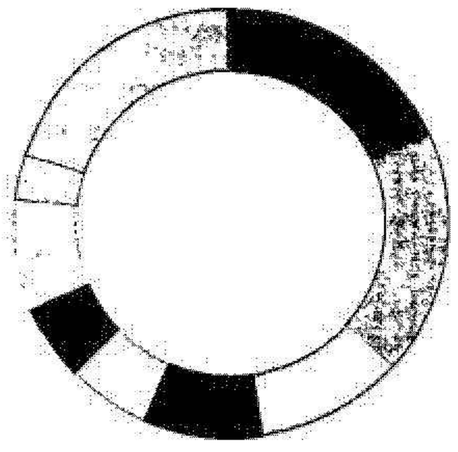

SECTION 1.3

FOREIGN EXCHANGE RISK RELATED TO EARNINGS

The majority of the Group's activities take place outside Denmark and in currencies other than DKK. Foreign exchange risk is therefore a principal financial risk for the Group, and exchange rate fluctuations can have a significant impact on the income statement both in the form of transactional and translational risk.

REVENUE BY CURRENCY (%)

2023 (2022)

- CNY 18% (20%)
- GBP 11% (10%)
- NOK 6% (7%)
- SEK 4% (4%)
- LAK 3% (3%)
- EUR 19% (18%)
- DKK 9% (9%)
- CHF 6% (6%)
- PLN 4% (4%)
- Other 20% (19%)

EUR and DKK are in a fixed exchange rate relationship and consequently EUR is not hedged.

TRANSACTION RISKS ON PURCHASES AND SALES

The Group is exposed to transaction risks on purchases and sales in currencies other than the local functional currencies. The Group aims to hedge 70-90% of future cash flows in currencies other than the local functional currency on a four-quarter rolling basis.

Western Europe

For the entities in Western Europe, a major part of the purchases in foreign currencies is in EUR. This also applies to markets with a functional currency other than EUR.

Hedging of EUR against the non-EUR local currencies will effectively eliminate a significant part of the currency risk in the entities' operating profit in local currency. At Group level, these hedges are effectively a hedge of (parts of) the revenue in the relevant currency and are accounted for as cash flow hedges, cf. section 4.9. The hedged amounts and the sensitivity analysis regarding these hedges are shown in section 4.7.4.

Asia

The transaction risk is considered to be less significant due to lower purchases of raw and packaging materials in currencies other than the local functional currencies as well as the high correlation between USD and most of the Asian currencies. An exception is Laos, which has a significant spend in USD that is not possible to hedge.

Central & Eastern Europe

The largest foreign exchange risk in Central & Eastern Europe relates to Ukraine and Kazakhstan and the purchase of raw and packaging materials denominated in foreign currencies. For 2023 and 2024, the Group has chosen to hedge a portion of Carlsberg Ukraine's expenses in EUR and USD by designating bank deposits in these currencies as hedging instruments. Carlsberg Kazakhstan holds intercompany deposits in EUR and USD. The revaluation of these is recognised in financial items, and they are not designated as cash flow hedges, but will in economic terms give the Group some protection against depreciation of the local currencies.

TRANSLATION RISK

The Group is exposed to risk from translation of foreign entities into the Group's presentation currency, DKK.

The single largest translation impact in respect of operating profit in 2023 was CNY due to the 7.7% depreciation of the currency compared with 2022 and the relative share of the Group's operating profit generated in China. Moving into 2024, the most significant currency volatility exposure in terms of operating profit and translation of net investments in foreign entities is CNY.

The foreign exchange risk on translation of revenue or earnings in foreign currencies can not be hedged accounting-wise. To reduce the economic risk, the Group has entered into financial instruments designated as net investment hedges, cf. section 4.7.1.

Impact on operating profit

Developments in exchange rates between DKK and the functional currencies had a negative impact of 8.2% on operating profit measured in DKK.

Impact on net finance

Developments in exchange rates between functional currencies of entities and the currency of cash, borrowings and ordinary trade receivables and payables will impact net finance. The main currencies impacting net finance during 2023 have been RUB, KZT and LAK (receivables and payables) and EUR (borrowings). The combined foreign exchange and fair value adjustment loss in 2023 was DKK 151m net. As at 31 December 2023 there is no RUB exposure.

Entities in	Functional currency	Change in average FX rate 2022 to 2023
The eurozone	EUR	0.2%
China	CNY	-7.7%
Norway	NOK	-11.7%
UK	GBP	-1.6%
Switzerland	CHF	3.4%
Sweden	SEK	-7.3%
Laos	LAK	-26.5%
Ukraine	UAH	-15.3%

SECTION 1.4

CASH FLOW FROM OPERATING ACTIVITIES

The change in trade working capital amounted to DKK 698m (2022: DKK 1,908m), driven by continued cash management discipline and higher trade payables.

Average trade working capital to revenue for the year was -20.3% (2022: -21.5%).

Cash flow from the change in other working capital declined by DKK 780m (2022: DKK 465m), impacted by the payment of a competition fine in Germany, cf. section 3.2.

The change in on-trade loans amounted to DKK -10m (2022: DKK +129m).

Restructuring costs and other special items paid amounted to DKK -552m (2022: DKK -171m), mainly due to the termination of a licensee agreement in the UK, as well as various restructuring and optimisation projects across the Group.

Net interest etc. paid amounted to DKK -273m (2022: DKK -1,010m). The improvement was largely due to settlement of financial instruments.

Income tax paid amounted to DKK -2,166m (2022: DKK -2,103m).

Supplier finance arrangements A number of the Group's suppliers participate in supplier finance arrangements, with a supply chain finance provider and related financial institutions acting as a funding partner. When suppliers participate in these programmes, they have the option of receiving early payment from the funding partner of invoices sent to Carlsberg.

The arrangement is exclusively between the supplier and the supply chain finance provider and separate from Carlsberg's relationship with its suppliers. Carlsberg's liability to pay invoices is unaffected by the supplier finance arrangement and whether or not the suppliers opt for early payment. The liability is recognised in trade payables until the due date of the invoice, which is in no case more than 180 days from the invoice date. Cessation of the supplier finance arrangement would not constitute a significant risk in terms of liquidity because of the amounts involved and the number of supply chain finance providers.

Sale of receivables Carlsberg has chosen to sell some of its trade receivables in selected Western European markets in non-recourse factoring agreements to expedite cash collection from groups of customers. Carlsberg does not carry any credit risk on these customers and has no continuing involvement in these trade receivables, which have therefore been derecognised.

The impact on average trade working capital from the use of supplier finance arrangements and factoring is limited, as the utilisation is similar to previous years.

ACCOUNTING ESTIMATES AND JUDGEMENTS

The deposit on returnable packaging materials is estimated based on movements during the year in recognised liabilities, loss of returnable packaging materials in the market, planned changes in packaging types and historical information about return rates.

ACCOUNTING POLICIES

Trade payables are recognised initially at fair value and subsequently measured at cost. Trade payables comprise purchase of goods and services, including payables to supplier finance vendors, and retrospective rebates to customers, and are part of the normal working capital cycle. The cash flow arising from all trade payables is part of cash flow from operating activities.

The obligation to refund deposits on returnable packaging materials is measured on the basis of deposit price, an estimate of the number of bottles, kegs, cans and crates in circulation, and expected return rates.

202409270316B

SECTION 1.5

TRADE AND OTHER RECEIVABLES

The Group's trade receivables consist of receivables from sales of goods and services and on-trade loans. Non-current receivables consist mainly of on-trade loans that fall due more than one year from the reporting date. Of the total non-current receivables, DKK 124m (2022: DKK 166m) falls due more than five years from the reporting date.

The carrying amount of receivables approximates their fair value. For on-trade loans, the fair value is calculated as discounted cash flows using the interest rate at the reporting date.

ON-TRADE LOANS

Under certain circumstances, the Group grants loans to on-trade customers in France, the UK, Switzerland, Germany and Sweden. On-trade loans are spread across a large number of customers/debtors and consist of several types of loan, including loans repaid in cash or through reduced discounts and guarantees for loans provided by third parties, cf. section 3.4. The operating entities monitor and control these loans in accordance with Group guidelines.

The average effective interest rate on loans to the on-trade was 4.7% (2022: 3.5%). The interest income is recognised in other operating activities.

On-trade loans recognised in other operating activities, net

Loans provided	-448	-261
Repayments	218	192
Amortisation of on-trade loans	220	198
Total	**-10**	**129**

OTHER RECEIVABLES

Other receivables primarily comprise VAT and similar government receivables, interest receivables and other financial receivables. These are associated with low risk.

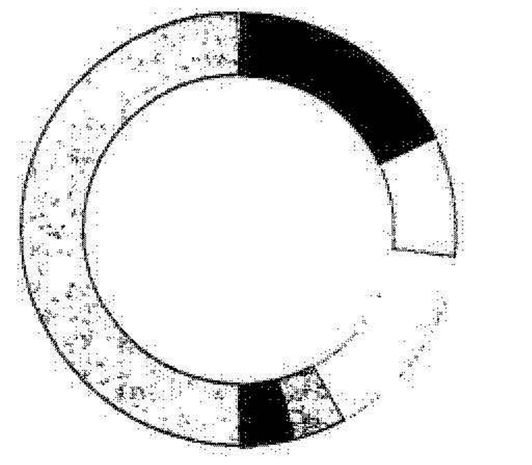

The distribution of receivables broken down by country is affected by market-specific changes in payment patterns. For receivables from sale of goods and services, the distribution is furthermore impacted by the value of receivables sold. The overall level of receivables sold in non-recourse factoring schemes was similar to the level in 2022.

2023 (2022)

202409270316 9

SECTION 1.5 (CONTINUED)

TRADE AND OTHER RECEIVABLES

1.5.1 CREDIT RISK

In 2023, receivables not past due amounted to 85% (2022: 78%) of total gross receivables. The past-due share of gross loans to on-trade customers was 34% (2022: 34%).

Total accumulated allowances for impairment losses on on-trade loans were DKK 426m (2022: DKK 438m).

The share of receivables from sales of goods and services that are past due decreased from 18% to 14%.

The credit risk on trade receivables is assessed locally and monitored at Group level. The on-trade channel, especially, has experienced instability across markets, influenced by unpredictable energy prices, inflation and interest rates. As a result, the credit risk for on-trade loans has on a collective basis increased significantly since initial recognition, which is why loss allowances are measured at an amount equal to the lifetime expected credit losses. This is the same as for receivables from sales of goods and services.

The increased risk of credit losses is expected to continue in 2024.

ACCOUNTING ESTIMATES AND JUDGEMENTS

On-trade loan agreements are complex, cover several aspects of the customer relationship and may vary from agreement to agreement. Management assesses the recognition and classification of income and expenses for each agreement, including the allocation of payments from the customer between revenue, discounts, interest (other operating activities) and repayment of the loan.

Management also assesses both individually and on a portfolio basis whether developments in local conditions for on-trade customers could impact the expected credit losses.

Exposure to credit risk on receivables is managed locally, and credit limits are set as considered appropriate for the customer, taking into account the current local market conditions.

The local entities assess the credit risk and adhere to Group guidelines, which include setting credit limits, encouraging cash payment, purchasing credit insurance and holding collateral.

In assessing credit risk, management analyses the need for impairment of trade receivables and on-trade loans due to customers' inability to pay. Credit risk remains high and is expected to continue in 2024.

At year-end 2023, management continued to assess the lifetime expected credit losses for both receivables from goods and services and on-trade loans in line with 2022.

Expected credit losses are assessed for portfolios of receivables based on customer segments, historical information on payment patterns, terms of payment and concentration maturity. The expected impact includes the risk of insolvencies due to lack of liquidity.

The portfolios are based on on-trade and off-trade customers, and on-trade receivables and loans. On-trade loans carry a higher risk than receivables from sales of goods and services and are concentrated in a few markets.The local entities manage and control these loans in accordance with Group guidelines.

The credit risk on on-trade loans can be reduced by means of collateral and pledges of on-trade movables (equipment in bars, cafés etc.). The fair value of the pledged on-trade movables cannot be estimated reliably but is assessed to be insignificant, as they cannot readily be reused.

ACCOUNTING POLICIES

Receivables are recognised initially at the transaction price and subsequently measured at amortised cost less loss allowance or impairment losses. Trade receivables comprise sale of goods and services as well as short-term on-trade loans to customers. Other receivables comprise VAT receivables, loans to partners and associates, interest receivables and other financial receivables.

For on-trade loans, any difference between the present value and the nominal amount at inception is treated as a prepaid discount to the customer, and the discount is recognised in the income statement in accordance with the terms of the agreement.

The market interest rate is used as the discount rate, corresponding to the money market rate based on the maturity of the loan with the addition of a risk premium. The effective interest on these loans is recognised in other operating activities, net. The amortisation of the difference between the discount rate and the effective interest rate is included as a discount in revenue.

The Group applies the simplified approach to measure expected credit losses. This entails recognising a lifetime expected loss allowance for all receivables from sales of goods and services. Loss rates are determined based on grouping of receivables sharing the same credit risk characteristics and past-due days.

Regarding on-trade loans and loans to associates, a loss allowance is recognised based on 12-month or lifetime expected credit losses, depending on whether a significant increase in credit risk has arisen since initial recognition.

In certain markets, the Group enters into factoring agreements on a non-recourse basis, which involves selling receivables from sales of goods and services to a factor. Receivables subject to factoring agreements are derecognised once the criteria for derecognition have been met and all substantial risks and rewards transferred. The Group does not have any continuing involvement once the receivables have been derecognised.

20240927031711

SECTION 2

ASSET BASE AND RETURNS

111.8bn

TOTAL ASSETS (DKK)

Total assets declined by DKK 3.5bn. The main reason for the decrease was the deconsolidation of the Russian business, partly offset by higher current assets.

Intangible assets amounted to DKK 49.1bn at 31 December 2023 (2022: DKK 49.2bn).

Property, plant and equipment totalled DKK 24.4bn (2022: DKK 23.7bn), mainly impacted by additions and the acquisition of Waterloo Brewing in March 2023.

Current assets increased by DKK 7.6bn to DKK 30.2bn. The increase was mainly due to higher cash and cash equivalents and deposits following the net issuance of EMTN bonds of EUR 1.55bn.

4.2bn

CAPEX (DKK)

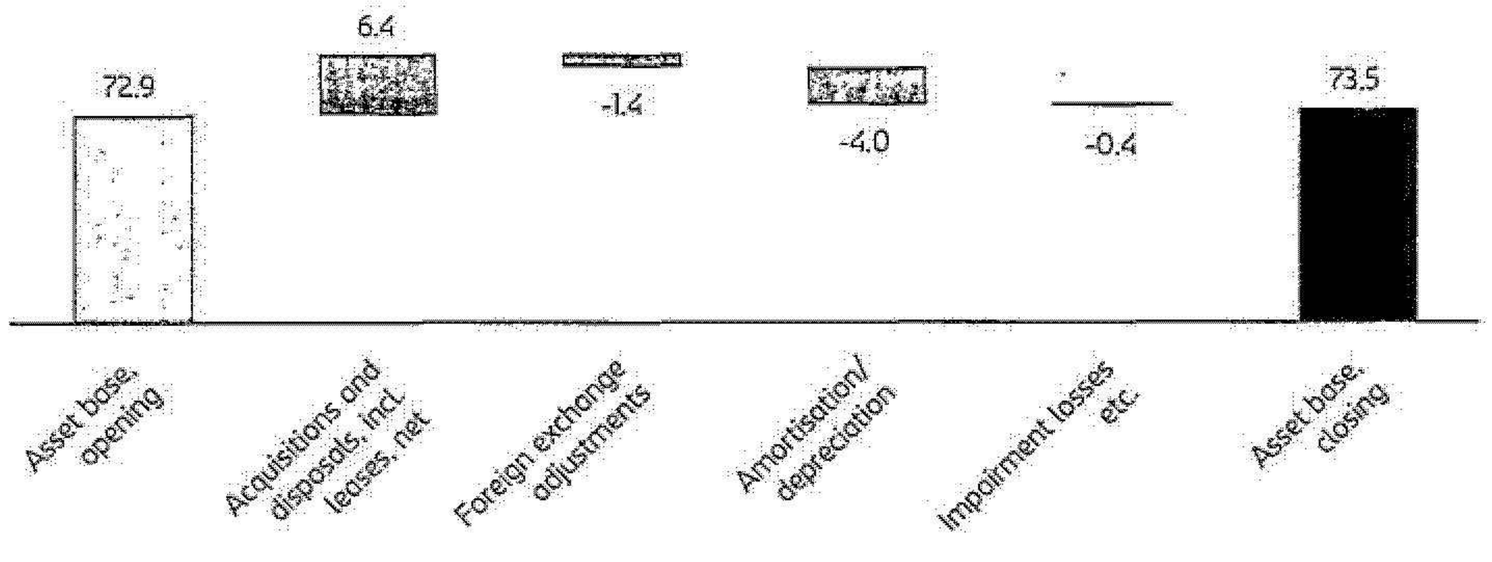

CapEx increased by DKK 225m, driven by brewery investments in China and Vietnam, as well as various capacity and capability upgrades across the Group. CapEx to amortisation and depreciation, excluding right-of-use assets, increased to 117% (2022: 106%).

14.5%

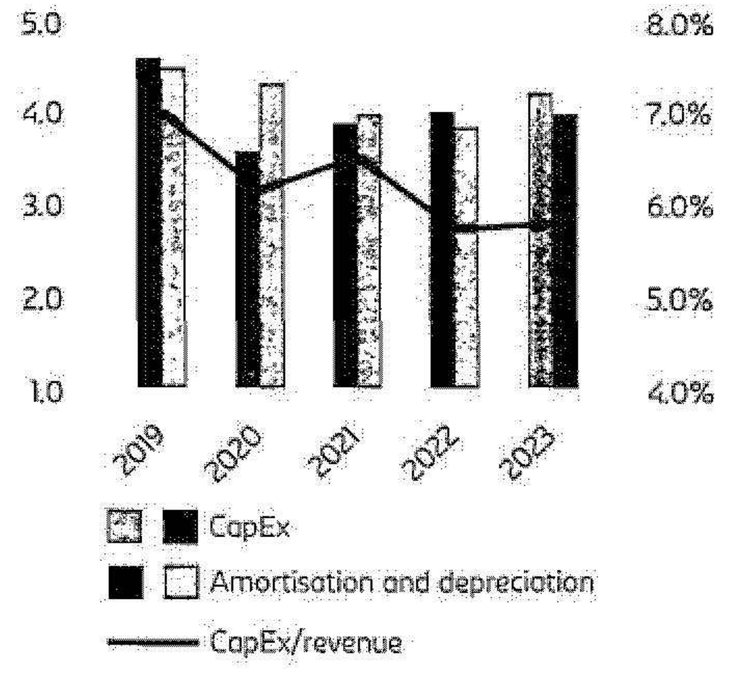

ROIC

Return on invested capital (ROIC) decreased by 70bp to 14.5% as a result of the lower operating profit due to currencies, partly offset by the lower effective tax rate, which was impacted by non-recurring items. ROIC excluding goodwill declined by 330bp to 38.3%.

ASSET BASE, CONTINUING OPERATIONS

202409270317Z

SECTION 2.1

SEGMENTATION OF ASSETS AND RETURNS

At year-end, invested capital was up by DKK 0.9bn, primarily due to the acquisition of Waterloo Brewing and the reduction of provisions related to legal claims, and partially offset by developments in currencies.

Waterloo Brewing was acquired in March 2023 and therefore did not have a full-year impact on average invested capital.

Invested capital

DKK million	2023	2022
Total assets excluding assets in discontinued operations	111,831	103,723
Less		
Tax assets	-1,810	-1,731
Financial receivables, hedging instruments and receivables sold	217	615

202409270317 3

SECTION 2.2

IMPAIRMENT

2.2.1 RECOGNISED IMPAIRMENTS

The impairment tests of goodwill and brands with indefinite useful life were prepared at the reporting date.

Impairment test 2023

The impairment tests prepared at 31 December 2023 did not identify any indication of impairment of goodwill.

The Group recognised impairment losses of DKK 305m on brands with indefinite useful life in Western Europe, DKK 70m in Central & Eastern Europe and DKK 97m in Asia. In addition, impairment losses of DKK 53m were recognised on brand rights in Central & Eastern Europe for the use of brands from the discontinued operation in Russia. In total, impairment losses on brands amounted to DKK 525m.

Impairment losses of DKK 400m previously recognised on brands in Asia were reversed. Impairment losses and reversal of impairment losses on brands were recognised in special items, cf. section 3.1.

Impairment losses of DKK 171m primarily related to Asia were recognised on property, plant and equipment, of which DKK 122m was recognised as special items. Impairment losses on other non-current assets totalled DKK 63m and were recognised in special items.

Impairment test 2022

In 2022, Russia was separated from the Central & Eastern Europe CGU. The CGU was subsequently tested for impairment, leading to a write-down of goodwill of DKK 700m in March 2022. Impairment tests of goodwill and brands with indefinite useful life were prepared at the reporting date, including an update to the impairment test of the Central & Eastern Europe CGU. The tests did not identify any further impairments.

In addition, the Group recognised impairment losses of DKK 233m on returnable packaging in certain markets in Asia, DKK 22m on sales equipment and returnable packaging in Ukraine and DKK 172m on other items of property, plant and equipment, in total DKK 427m.

Impairment of discontinued operation in Russia

Following the issuance of the presidential decree in July 2023, temporarily transferring the management of our Russian business to the Russian Federal Agency for State Property Management, the business was deconsolidated. In September 2023, the Group terminated its licence agreements with Baltika Breweries for all the international brands sold in Russia and wrote down its interest in the business to zero. Total impairment losses in 2023 amounted to DKK 7,002m (2022: DKK 9,949m).

2.2.2 SIGNIFICANT AMOUNTS OF GOODWILL AND BRANDS

Goodwill and brands with indefinite useful life relating to the acquisitions of Kronenbourg, Chongqing Brewery Group and the 40% non-controlling interest in Carlsberg Breweries A/S each accounted for 10% or more of the total carrying amount of goodwill and brands with indefinite useful life at the reporting date. Goodwill from these acquisitions has been allocated to CGUs based on the geographical segmentation.

The international brands acquired with the 40% non-controlling interest in Carlsberg Breweries A/S, Kronenbourg 1664 and Chongqing are individually material and specified in section 2.2.4.

202409270317 4

SECTION 2.2 (CONTINUED)

IMPAIRMENT

ACCOUNTING ESTIMATES AND JUDGEMENTS

Identification of cash-generating units
The Group's management structure reflects the geographical segments, cf. section 1.1, and decisions are made by the regional managements responsible for performance, operating investments and growth initiatives in their respective regions.

There is significant vertical integration of the production, logistics and sales functions, supporting and promoting optimisations across the Group or within regions.

Assets, other than goodwill and brands with regional and global presence, are allocated to individual cash-generating units (CGUs), being the level at which the assets generate largely independent cash inflows. As the Group operates with local sales and production organisations, the cash inflows are generated mostly locally, and the CGUs are therefore usually identified at country level.

The determination of CGU allocation is made, and cash inflows are assessed in connection with the purchase price allocation within 12 months from the date of acquisition.

Goodwill
Goodwill does not generate largely independent cash inflows on its own and is therefore allocated to the Group's geographical segments, which is the level at which it is monitored for internal management purposes.

At the time of acquisition of entities, goodwill is allocated to a CGU. The structure and groups of CGUs are reassessed every year. The Group gained control of Waterloo Brewing Ltd. and Jing-A Group in 2023. The goodwill recognised on the acquisition of Waterloo Brewing Ltd. was allocated to the Central & Eastern Europe CGU, and the goodwill recognised on the Jing-A Group acquisition was allocated to the Asia CGU.

Entities classified as held for sale and measured at the lower of carrying amount and fair value less costs of disposal are removed from the CGU to which they are allocated at the time of classification as held for sale.

Brands
Cash flows for brands are separately identifiable and brands are therefore tested individually for impairment. This test is performed in addition to the test for impairment of goodwill.

The following brands are considered significant when comparing their carrying amount with the total carrying amount of brands with indefinite useful life:
- International brands
- Kronenbourg 1664
- Chongqing

International brands is a group of brands recognised in connection with the acquisition of the 40% non-controlling interest in Carlsberg Breweries A/S and allocated to Western Europe. The carrying amount is not allocated to individual brands.

Corporate assets
The Group has identified capitalised software relating to the Group's ERP systems as corporate assets, and as such these are peripheral to the generation of cash inflow. The Group's ERP landscape is closely linked to the internal management structure, and the identified assets are therefore tested for impairment at the CGU level to which goodwill is allocated.

Other non-current assets
Other non-current assets are tested for impairment when indications of impairment exist.

For property, plant and equipment, management performs an annual assessment of the assets' future application, for example in relation to changes in production structure, restructurings or brewery closures.

For investments in associates, examples of indications of impairment are loss-making activities or significant changes in the business environment.

ACCOUNTING POLICIES

Goodwill and brands with indefinite useful life are subject to an annual impairment test, performed initially before the end of the year of acquisition. The test is performed at the level where cash flows are considered to be generated: either at CGU level or at the level of a group of CGUs. All assets are tested if an event or circumstance indicates that the carrying amount may not be recoverable. If an asset's carrying amount exceeds its recoverable amount, an impairment loss is recognised. The recoverable amount is the higher of the asset's fair value less costs of disposal and its value in use.

For all assets, the recoverable amount is assessed based on budget and target plan with reference to the expected future net cash flows. The assessment is based on the lowest CGU affected by the changes that indicate impairment. The cash flow is discounted by a rate adjusted for any risk specific to the asset, if relevant to the calculation method applied.

Impairment losses on goodwill and brands, significant losses on property, plant and equipment, investments in associates, and losses arising on significant restructurings of processes and structural adjustments are recognised as special items. Minor losses are recognised in the income statement in the relevant line item.

Key considerations in impairment tests	Goodwill	Brands
CGU level of test	Geographical segment	Individual brand
Method to estimate recoverable amount	Value in use	Fair value less cost of disposal
Method to estimate present value of future cash flows	Expected value approach: multiple probability-weighted cash flows	Traditional approach: single most likely future cash flows
Discount rate	Risk-free rate	Risk-adjusted rate

Impairment of goodwill is not reversed. Impairment of other assets is reversed only to the extent of changes in the assumptions and estimates underlying the impairment calculation. Impairment is only reversed to the extent that the asset's new carrying amount does not exceed the carrying amount of the asset after amortisation/depreciation had the asset not been impaired.

2.2.3 IMPAIRMENT TEST OF GOODWILL

The carrying amount of goodwill allocated to groups of CGUs

DKK million	2023	2022
Western Europe	20,480	20,241
Asia	14,396	15,258
Central & Eastern Europe	3,439	2,954
Total	**38,315**	**38,453**

The impairment tests prepared at year-end 2023 did not identify any indication of impairment of goodwill.

Estimating expected cash flow involves developing multiple probability-weighted scenarios to reflect different outcomes in terms of timing and amount. Measurement of the forecast period growth rates reflects risk adjustments made to calculate the expected cash flows.

20240927031175

SECTION 2.2 (CONTINUED)

IMPAIRMENT

Key assumptions

2023	Forecast cash flow growth	Terminal period growth	Pre-tax discount rate
Western Europe	-17.0%	0.5%	3.4%
Asia	-16.2%	1.0%	4.3%
Central & Eastern Europe	-0.9%	2.0%	8.2%
2022			
Western Europe	-11.4%	0.5%	3.0%
Asia	-12.7%	1.0%	4.5%
Central & Eastern Europe	-21.4%	2.0%	9.8%

The average cash flow growth in the forecast period reflects the significant risk adjustments included in the forecast specifically for the impairment test.

Potential upsides are not identified and adjusted in the cash flows used for impairment testing. Growth is projected in nominal terms and therefore does not translate into cash flow at the same growth rate in the Group's presentation currency, DKK.

ACCOUNTING ESTIMATES AND JUDGEMENTS

Goodwill
The value in use is the discounted value of the expected future risk-adjusted cash flows. This involves developing multiple probability-weighted scenarios to reflect different outcomes in terms of timing and amount.

Key assumptions
The cash flow is based on the budget and target plans for the next three years. Cash flows beyond the three-year period are extrapolated using the terminal period growth rate. The budget and plans for 2024-2026 represent management's best estimate of the impact from the significant inflation in our cost base and increased interest rates.

The probability weighting applied is based on past experience and the uncertainty of the prepared budget and target plans. Potential upsides and downsides identified during the budget process and in the daily business are reflected in the future cash flow scenarios for each CGU.

The risk-adjusted cash flows are discounted using a rate that reflects the risk-free interest rate for each CGU. The interest rates used in the impairment tests are based on observable market data. Please refer to the description of discount rates in section 2.2.4.

The key assumptions on which management bases its cash flow projections are:
- Volumes
- Sales prices
- Input costs
- Operating investments
- Terminal period growth

The assumptions are determined at CGU level and are based on past experience, external sources of information and industry-relevant observations for each CGU. Local conditions, such as expected developments in macroeconomic and market conditions specific to the individual CGUs, are considered. The assumptions are challenged and verified by management at CGU and Group level.

The budget and target plan processes consider events or circumstances that are relevant to reliably projecting the short-term performance of each CGU. Examples include significant campaign activities, changes in excise duties etc., which may have a short-term impact but are non-recurring. Given their short-term nature, they are not taken into consideration when estimating the terminal period growth rate.

Volumes
Projections are based on past experience, external market data, planned commercial initiatives, such as marketing campaigns and sponsorships, and the expected impact on consumer demand and the level of premiumisation. If relevant, the projections are adjusted for the expected changes in the level of premiumisation. No changes in market share are assumed in the medium or long term.

Demographic expectations general to the industry, such as the development in population, consumption levels, generation-shift patterns, rate of urbanisation and macroeconomic trends, are also considered in medium- and long-term projections.

Events and circumstances can impact the timing of volumes entering the market. These include excessive stocking related to an increase in excise duties, campaign activities, and the timing of national holidays and festivals. Such short-term effects are not material to volume projections and do not impact the long-term projections.

Sales prices
The level of market premiumisation and the locally available portfolio are key drivers in identifying price points. When planning pricing structures, factors including price elasticity, local competition and inflation expectations can also impact the projection. Increases in excise duties are typically passed on to the customers immediately or with a delay of no more than a few months. Since the increase is a pass-through cost and thereby compensated for by price increases at the time of implementation, it does not impact the long-term sales price growth and is therefore not taken into consideration in the projections unless circumstances specifically indicate otherwise. No changes to duties in the short or medium term are taken into consideration unless there is a firm plan to introduce changes.

Recent significant inflationary pressure has meant revenue growth compensating for rising input costs, especially in Europe. The short- and medium-term forecast includes the risk of delays in increasing sales prices to compensate for future rises in input costs.

Input costs
Input costs in the budget and target plans are based on past experience and on:
- Contracted raw and packaging materials
- Contracted services within sales, marketing, production and logistics
- Planned commercial investments
- Cost optimisations not related to restructurings
- Expected inflation

The recent years' elevated level of inflation has increased the overall input cost level, especially in Europe. The short- and medium-term forecast incorporates continued pressure on input costs.

In the long term, projections follow the level of inflation unless long-term contracts are in place.

Operating investments
Projections are based on past experience of the level of necessary maintenance of existing production capacity, including replacement of parts. This also includes scheduled production line overhauls and improvements to existing equipment. Capacity increases and new equipment are not included.

Terminal period growth
Growth rates are projected to be equal to or below the expected rate of general inflation and assume no nominal economic growth. The projected growth rates and the discount rates applied are compared to ensure a sensible correlation between the two.

SECTION 2.2 (CONTINUED)

IMPAIRMENT

2.2.4 IMPAIRMENT TEST OF BRANDS

In 2023, significant brands represented 66% (2022: 62%) of the total carrying amount of brands with indefinite useful life.

Brands with indefinite useful life

DKK million	2023	2022
International brands	3,000	3,000
Kronenbourg 1664	1,950	1,948
Chongqing	1,293	954
Significant brands	**6,243**	**5,902**
Western Europe	1,028	1,318
Asia	363	503
Central & Eastern Europe	920	846
Not allocated	945	941
Other brands	**3,256**	**3,608**
Total brands	**9,499**	**9,510**

Other brands comprise a total of 20 brands (2022: 19 brands) that are not individually material compared with the total carrying amount.

Impairment of brands in Western Europe
In the UK, the ale category has been severely impacted by the COVID-19 pandemic and secular trends, and the long-term expectations for the ale brands was therefore updated, leading to the recognition of impairment losses of DKK 305m.

Impairment of brands in Central & Eastern Europe
A local Lithuanian mainstream brand has experienced a decline in exports, resulting in impairment losses of DKK 70m.

Brand rights in Central & Eastern Europe for the use of brands from the discontinued operation in Russia were unilaterally terminated by Carlsberg, resulting in recognition of impairment losses of DKK 53m.

Impairment of brands in Asia
In Cambodia our business operates in a very challenging environment both in terms of competitive conditions and consumer sentiment. In 2020, this led to the recognition of an impairment loss of DKK 200m on the local Angkor brand.

The beer market has remained weak and is still far from having fully recovered to its 2019 level before COVID-19. In addition, a change in consumer preference has resulted in a decline in volumes and margins, in particular for the beer category.

This led to a reassessment of the recoverable amount of the assets in the operation, including the brand, and resulted in the full write-down of the remaining carrying amount of the brand of DKK 97m.

The Chinese mainstream brand Chongqing was last impaired in 2016, following sales declines due to premiumisation in the Chinese market. Since then, brand volumes have recovered significantly, and expectations for the mainstream category in China have improved. As a result, impairments of DKK 400m were reversed.

Key assumptions

2023	Average revenue growth	Terminal period growth	Pre-tax discount rate	Post-tax discount rate
International brands	2.6%	1.9%	6.9%	6.6%
Kronenbourg 1664	2.8%	1.6%	7.2%	6.7%
Chongqing	2.0%	1.5%	7.8%	7.4%
2022				
International brands	2.4%	1.9%	6.7%	6.5%
Kronenbourg 1664	2.4%	1.6%	6.6%	6.4%
Chongqing	0.1%	1.0%	6.7%	6.4%

ACCOUNTING ESTIMATES AND JUDGEMENTS

Brands
The test for impairment of brands is performed using the relief from royalty method and is based on the expected future cash flows generated from the royalty payments avoided for the individual brand for the next 10 years and projections for subsequent years.

The risk-free cash flows are discounted using a rate reflecting the risk-free interest rate with the addition of the risk premium associated with the individual brand.

Key assumptions
The key assumptions on which management bases its cash flow projection include the expected useful life, revenue growth, a theoretical tax amortisation benefit, the royalty rate and the discount rate.

Expected useful life
Management has assessed that the value of brands with indefinite useful life can be maintained for an indefinite period, as these are well-established brands in their markets, having existed for decades or even centuries. The beer industry is characterised as being very stable with consistent consumer demand and a predictable competitive environment, and is expected to be profitable for the foreseeable future. Control of the brands is legally established and enforceable indefinitely.

In management's opinion, the risk of the useful life of these brands becoming finite is minimal because of their individual market positions and because current and planned marketing initiatives are expected to sustain their useful life.

Revenue growth
At the time of acquisition of any individual brand, a revenue growth curve is forecast based on a long-term strategic view of the risk and opportunities relevant to the brand. The curve is projected for a 10-year horizon. This horizon reliably reflects the lengthy process of implementing brand strategies to support a brand occupying its intended place in the Group's portfolio. The forecast period applied is comparable to the common term of the majority of licence agreements to which the Group is party.

In the local markets, the product portfolio usually consists of local power brands and international premium brands. When projecting revenue growth for local brands, in addition to their commercial strength – such as market share and segment position – the forecast takes into consideration the demographics of the primary markets, including expected developments in population, consumption levels, generation-shift patterns, rate of urbanisation, beer market maturity, level of premiumisation, circumstances generally limiting the growth opportunities for alcoholic beverages etc.

For brands with global or regional presence, enhanced investments in product development and marketing are expected. The expected growth rate for these brands is generally higher than for more localised brands and is usually highest early in the 10-year period.

202409270317

SECTION 2.2 (CONTINUED)

IMPAIRMENT

Depending on the nominal growth expectations for the individual brand, the revenue growth in individual years may be above, equal to or below the forecast inflation level in the markets where the brand is present.

When preparing budgets, consideration is given to events or circumstances that are relevant to reliably projecting the short-term performance of each brand. Examples include significant campaign activities, changes in excise duties etc., which may have a short-term impact but are non-recurring and quickly absorbed by the business. Since the impact is not material to the long-term projections, it is not taken into consideration when estimating the long-term and terminal period growth rates. Please refer to the description of the impact of increases in excise duties in the description of sales prices in section 2.2.3.

Tax benefit
The theoretical tax benefit applied in the test uses tax rates and amortisation periods based on current legislation. The impairment test applies tax rates in the range of 15-31% and amortisation periods of 5-20 years.

Royalty rate
Royalties generated by a brand are based on the Group's total income from the brand and are earned globally, i.e. the income is also earned outside the CGU that owns the brand. If external licence agreements for the brand already exist, the market terms of such agreements are taken into consideration when assessing the royalty rate that the brand is expected to generate in a transaction with independent parties. The royalty rate is based on the actual market position of the individual brand in the global, regional and local markets, and assumes a 10-year horizon. This term is common to the beverage industry when licensing brands.

For some brands, the share of the total beer market profit exceeds the volume share to an extent that creates significant market entry barriers for competing brands and justifies a higher royalty rate.

Royalty rates

International, premium and speciality beers	3.5-7.5%
Strong regional and national brands	3.0-5.0%
Local and mainstream brands	2.0-3.5%

Discount rates
The discount rate is a weighted average cost of capital (WACC) that reflects the risk-free interest rate with the addition of a risk premium relevant to each brand.

The risk-free interest rates used in the impairment tests are based on observed market data. For countries where long-term risk-free interest rates are not observable or valid due to specific national or macroeconomic conditions, the interest rate is estimated based on observations from other markets and/or long-term expectations expressed by international financial institutions considered reliable by the Group.

The added credit risk premium (spread) for the risk-free interest rate is fixed at market price or slightly higher, reflecting the expected long-term market price. The aggregate interest rate, including spread, thereby reflects the long-term interest rate applicable to the Group's investments in the individual markets.

2.2.5 IMPAIRMENT OF OTHER ASSETS

In 2023, impairment losses were recognised on intangible assets, DKK 46m, property, plant and equipment, DKK 171m, and other non-current assets, DKK 63m, totalling DKK 280m.

Impairment of non-current assets in Cambodia, DKK 152m
As mentioned above in section 2.2.4, our business in Cambodia is facing challenges, which led to a reassessment of the recoverable amount of the assets in the operation.

The reassessment showed that DKK 103m of property, plant and equipment was lying idle and this has therefore been impaired. Consequently, a local investment of DKK 49m in a joint venture manufacturing can bodies has also been impaired.

Other impairments, DKK 128m
Impairment losses of DKK 46m on other intangible assets primarily relate to centrally owned IT assets. Other impairment losses of DKK 68m on property, plant and equipment related partly to flooding in China. The decision to close Ringwood Brewery in the UK resulted in a write-down of assets held for sale of DKK 14m.

2.2.6 SENSITIVITY TESTS

Sensitivity tests have been performed to determine the lowest forecast and terminal period growth rates and/or highest discount rates that can occur in the groups of CGUs and brands with indefinite useful life without leading to any impairment loss.

Due to a challenging macroeconomic situation in some CGUs and groups of CGUs, the Group performed additional sensitivity tests in 2023 to ensure that no potential impairment had been overlooked. These did not identify any potential impairment.

GOODWILL
The test for impairment of goodwill did not identify any CGUs or groups of CGUs to which goodwill is allocated where a reasonably possible negative change in a key assumption would cause the carrying amount to exceed the recoverable amount.

BRANDS
For brands that were previously written down, a reasonably possible negative change in a key assumption would cause the carrying amount of these brands to exceed the recoverable amount. However, management considers the risk of a significant write-down on these brands to be low.

Key assumptions
The key assumptions relevant to the assessment of the recoverable amount are:
- Useful lifetime
- Volume and price
- Royalty rate
- Discount rate

The assumptions for volume and price are closely linked, which, together with the presence of multiple sub-brands in various geographies within each brand, makes individual sensitivity testing on the basis of these two assumptions highly impractical. Instead, sensitivity testing is performed for the overall revenue growth rate, in both the forecast period and the terminal period.

202409270318O

SECTION 2.3 (CONTINUED)

INTANGIBLE ASSETS AND PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment under construction amounted to DKK 1,728m (2022: DKK 1,197m). Property, plant and equipment under construction are recognised in plant and machinery until completion.

Other equipment, fixtures and fittings include transport, office and draught beer equipment, fridges and returnable packaging materials.

Other intangible assets include software, land use rights and beer delivery rights.

RIGHT-OF-USE ASSETS

The Group leases various properties and warehouses, production equipment, cars and trucks. Leases are negotiated on an individual basis and contain a wide range of different terms and conditions.

At 31 December 2023, the carrying amount of right-of-use assets was DKK 1,748m (2022: DKK 1,540m). During the year, additions amounted to DKK 721m (2022: DKK 706m) and depreciation to DKK 449m (2022: DKK 386m).

Lease expenses recognised in the income statement, relating to short-term leases and leases of low-value assets, amounted to DKK 48m (2022: DKK 49m). Such contracts usually comprise the lease of copy and printing machines, coffee machines, small IT devices and similar equipment.

For disclosures of the interest expenses, cash flow and lease liabilities, please refer to sections 4.1, 4.5.1 and 4.8.

Cash flow from disposal of property, plant and equipment and intangible assets was DKK 115m (2022: DKK 414m).

CAPITAL COMMITMENTS

The Group has entered into various capital commitments that will not take effect until after the reporting date and have therefore not been recognised in the consolidated financial statements. Capital commitments in 2023 amounted to DKK 144m (2022: DKK 100m).

ACCOUNTING ESTIMATES AND JUDGEMENTS

Useful life and residual value of intangible assets with finite useful life and property, plant and equipment

Useful life and residual value are initially assessed both in acquisitions and in business combinations.

Management assesses brands and property, plant and equipment for changes in useful life. If an indication of a reduction in the value or useful life exists, such as changes in production structure, restructuring and brewery closures, the asset is tested for impairment. If necessary, the asset is written down or the amortisation/depreciation period is reassessed and, if necessary, adjusted in line with the asset's changed useful life. When changing the amortisation or depreciation period due to a change in the useful life, the effect on amortisation/depreciation is recognised prospectively as a change in accounting estimates.

Management assesses the local business model to determine whether the Group has a legal or constructive obligation to accept returns of packaging materials from the market and the level of control. This entails the Group considering, among other things, the return rate and the annual circulation in the individual markets. These factors are assessed annually. Returnable packaging materials controlled by the Group are capitalised as property, plant and equipment and depreciated over the expected useful life.

Lease and service contracts

At inception of a contract, management assesses whether the contract is or contains a lease. Management considers the substance of any service being rendered to classify the arrangement as either a lease or a service contract. Particular importance is attached to whether fulfilment of the contract depends on the use of specific assets. The assessment involves judgement of whether the Group obtains substantially all the economic benefits from the use of the specified asset and whether it has the right to direct how and for what purpose the asset is used. If these criteria are satisfied at the commencement date, a right-of-use asset and a lease liability are recognised in the statement of financial position.

Amortisation, depreciation and impairment losses

	Intangible assets		Property, plant and equipment

SECTION 2.3 (CONTINUED)

INTANGIBLE ASSETS AND PROPERTY, PLANT AND EQUIPMENT

In determining the lease term, management considers all the facts and circumstances that create an economic incentive to exercise an extension option or not to exercise a termination option. Extension or termination options are only included in the lease term if the lease is reasonably certain to be extended or not terminated. The term is reassessed if a significant change in circumstances occurs. The assessment of purchase options follows the same principles as those applied for extension options.

The lease payment for cars and trucks often includes costs of service and insurance. If these costs are not objectively assessable, the Group estimates the costs when separating the service component from the lease.

ACCOUNTING POLICIES

Cost
Intangible assets and property, plant and equipment are initially recognised at cost and subsequently measured at cost less accumulated amortisation or depreciation and impairment losses.

Cost comprises the purchase price and costs directly attributable to the acquisition until the date when the asset is available for use. The cost of acquired brand rights is accounted for using the accumulated cost approach if the total consideration includes an earn-out dependent on the brands' future performance.

The cost of self-constructed assets comprises direct and indirect costs of materials, components, sub-suppliers, wages and salaries, and capitalised borrowing costs on specific or general borrowings attributable to the construction of the asset, and is included in plant and machinery.

Research and development costs are recognised in the income statement as incurred. Development costs of intangible assets, for example software, are recognised as other intangible assets if the costs are expected to generate future economic benefits.

For assets acquired in business combinations, including brands and property, plant and equipment, cost at initial recognition is determined by estimating the fair value of the individual assets in the purchase price allocation.

Goodwill is only acquired in business combinations and is measured in the purchase price allocation.

Goodwill is not amortised but is subject to an annual impairment test, cf. section 2.2.

Where individual components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items.

Returnable packaging materials that the Group controls through a legal or constructive obligation are capitalised as property, plant and equipment.

Subsequent costs, for example in connection with replacement of components of property, plant and equipment, are recognised in the carrying amount of the asset if it is probable that the costs will result in future economic benefits for the Group. The replaced components are derecognised from the statement of financial position and recognised as an expense in the income statement. Costs incurred for ordinary repairs and maintenance are recognised in the income statement as incurred.

Useful life, amortisation, depreciation and impairment losses
Useful life and residual value are determined at the acquisition date and reassessed annually. If the residual value exceeds the carrying amount, depreciation is discontinued.

Amortisation and depreciation are recognised on a straight-line basis over the expected useful life of the assets, taking into account any residual value. The expected useful life and residual value are determined based on past experience and expectations of the future use of assets.

Depreciation is calculated on the basis of the cost less the residual value and impairment losses.

Amortisation and depreciation are recognised as cost of sales, sales and distribution expenses, and administrative expenses depending on the use of the asset.

The expected useful life is as follows:

Brands with finite useful life	Normally 20 years
Software	Normally 3-5 years. Group-wide systems developed as an integrated part of a major business development programme: 5-7 years
Delivery rights	Depending on contract; if no contract term has been agreed, normally not exceeding 5 years
Customer agreements/ relationships	Depending on contract with the customer; if no contract exists, normally not exceeding 20 years

Buildings	20-40 years
Technical installations	15 years
Brewery equipment	15 years
Filling and bottling equipment	8-15 years
Technical installations in warehouses	8 years
On-trade and distribution equipment	5 years
Fixtures and fittings, other plant and equipment	5-8 years
Returnable packaging materials	3-10 years
Hardware	3-5 years
Land	Not depreciated

Impairment
Impairment losses of a non-recurring nature are recognised under special items.

Leases
At the commencement date, the Group recognises a lease liability and a corresponding right-of-use asset at the same amount, except for short-term leases of 12 months or less and leases of low-value assets.

A right-of-use asset is initially measured at cost, which consists of the initial lease liability and initial direct costs less any lease incentives received. The Group has applied the practical expedient option allowed under IFRS Accounting Standards by using a portfolio approach for the recognition of lease contracts related to assets of the same nature and with similar lease terms, i.e. cars and trucks.

Subsequently, the right-of-use asset is measured at cost less depreciation and impairment losses and adjusted for remeasurement of the lease liability. The right-of-use asset is depreciated over the earlier of the lease term and the useful life of the asset. The impairment testing of right-of-use assets follows the same principles as those applied for property, plant and equipment, cf. section 2.2.

Right-of-use assets are recognised as property, plant and equipment.

The Group has elected not to recognise right-of-use assets and liabilities for leases with a term of 12 months or less and leases of low-value assets. Lease payments related to such leases are recognised in the income statement as an expense on a straight-line basis over the lease term.

Government grants and other funding
Grants and funding received for the acquisition of assets and development projects are recognised in the statement of financial position by deducting the grant from the carrying amount of the asset. The grant is recognised in the income statement over the life of the asset as a reduced depreciation charge.

202409270318Z

SECTION 3

SPECIAL ITEMS, PROVISIONS AND OTHER LIABILITIES

381m

SPECIAL ITEMS, INCOME (DKK)

Impacted by the derecognition of loan and payables to the discontinued operation in Russia.

-812m

SPECIAL ITEMS, EXPENSES (DKK)

Impacted by impairment losses and reversal on impairment losses, termination of the Kronenbourg 1664 licensee agreement in the UK and restructuring costs across the Group.

SECTION 3.1

SPECIAL ITEMS

SPECIAL ITEMS, INCOME

In 2023, a loan of DKK 297m and payables for brand rights of DKK 53m, totalling DKK 350m, were derecognised. Both the loan and the payables were owed to the discontinued operation in Russia prior to the issuance of the presidential decree on 16 July 2023.

In 2022, the Group recognised reversal of provisions made in purchase price allocations in prior years, mainly in Asia, of DKK 217m.

SPECIAL ITEMS, EXPENSES

These comprise impairment losses of DKK 305m on brands in Western Europe, DKK 123m in Central & Eastern Europe and DKK 97m in Asia, in total DKK 525m. Impairment losses of DKK 400m previously recognised on brands in Asia were reversed.

In Cambodia our business was negatively impacted by the challenging environment, resulting in the recognition of impairment losses of DKK 152m on non-current assets.

Impairment losses of DKK 76m were recognised on receivables from the discontinued operation in Russia that are no longer expected to be received.

Special items

DKK million	Section	2023	2022
Special items, income			
Derecognition of loan and payables to the discontinued operation in Russia	5.1	350	-

Other expenses		-42	-
Expenses		**-812**	**-1,001**
Special items, net		**-431**	**-784**

Provisions of DKK 100m recognised in prior years for legal claims that did not materialise (2022: DKK 37m) were reversed.

The Group terminated the licensee agreement for Kronenbourg 1664 in the UK, resulting in a cost of DKK 196m.

20240927031183

SECTION 3.1 (CONTINUED)

SPECIAL ITEMS

The Group continued to carry out various restructuring projects as part of the ongoing focus on cost and efficiency initiatives, resulting in a cost of DKK 141m (2022: DKK 76m). Other impairment losses of DKK 33m on property, plant and equipment, partly related to flooding in China and the decision to close Ringwood Brewery in the UK. In 2022, the impairment losses included DKK 74m on property, plant and equipment in Asia.

In 2022, the Group recognised a write-down of goodwill allocated to the Central & Eastern Europe region of DKK 700m. Additionally, as a consequence of the war in Ukraine, impairment of trade receivables, inventories and plant and equipment was recognised at DKK 79m.

ACCOUNTING ESTIMATES AND JUDGEMENTS

The use of special items entails management judgement in the separation from ordinary items. Management carefully considers individual items and projects (including restructurings) in order to ensure the correct distinction and split between operating activities and significant income and expenses of a special nature.

Management initially assesses the entire restructuring project and recognises all present costs of the project. The projects are assessed on an ongoing basis, with additional costs possibly being incurred during the lifetime of the project.

The estimate includes expenses related to termination of employees, onerous contracts, break fees and other obligations arising in connection with restructurings. Management reassesses the useful life and residual value of non-current assets used in an entity undergoing restructuring.

ACCOUNTING POLICIES

Special items include significant income and expenses of a special nature in relation to the Group's revenue-generating activities that cannot be attributed directly to the Group's ordinary operating activities.

Special items also include significant non-recurring items, including termination benefits related to retirement of members of the Executive Committee, impairment of goodwill and brands, significant provisions in relation to certain disputes and lawsuits, gains and losses on the disposal of activities and associates, revaluation of the shareholding in an entity held immediately before a step acquisition or cessation of consolidation of that entity, and transaction costs in a business combination.

Significant restructuring of processes and structural adjustments are included in special items. Special items are shown separately from the Group's ordinary operations to facilitate a better understanding of the Group's financial performance.

Impact of special items on operating profit

DKK million	2023	2022
If special items had been recognised in operating profit before special items, they would have been included in the following line items:		
Cost of sales	-501	-98
Sales and distribution expenses	-6	-5
Administrative expenses	58	-15
Other operating activities, net	2	34
Impairment of goodwill	-	-700
Financial items	16	-
Special items, net	**-431**	**-784**

SECTION 3.2

PROVISIONS

Restructuring provisions relate to termination benefits to employees made redundant, primarily as a result of a restructuring project accounted for as special items.

The restructuring provision of DKK 85m in 2023 primarily relates to various projects mainly concerning centralised Group functions.

Provisions for onerous contracts primarily relate to contract brewing in Asia and are expected to be utilised by 2028.

Other provisions of DKK 2,058m include ongoing disputes and lawsuits of varying content and scope, provisions made in connection with purchase price allocations (PPA provisions) and employee obligations other than retirement benefits.

Timing of settlement of ongoing disputes, lawsuits and PPA provisions cannot be determined, whereas the remaining liabilities are expected to be settled in one to two years.

Total provisions were impacted by settlement of the fine of DKK 372m received in the competition case in Germany, cf. section 3.4, and reversal of other legal and contractual obligations that did not materialise, in total DKK 619m.

ACCOUNTING ESTIMATES AND JUDGEMENTS

In connection with restructurings, management assesses the timing of the costs to be incurred, which influences the classification as current or non-current liabilities.

Provision for onerous contracts is based on agreed terms with the other party and expected fulfilment of the contract, based on the current estimate of volumes, use of raw materials etc.

DKK million

2023	Restructurings	Onerous contracts	Other	Total

Total	**85**	**366**	**2,058**	**2,509**

20240927031184

SECTION 3.2 (CONTINUED)

PROVISIONS

Management assesses provisions, contingent assets and liabilities, and the likely outcome of pending or probable lawsuits etc. on an ongoing basis. The outcome depends on future events, which are by nature uncertain. In assessing the likely outcome of lawsuits and tax disputes etc., management relies on external legal advice and established precedents.

ACCOUNTING POLICIES

Provisions, including profit-sharing provisions, are recognised when, as a result of events arising before or at the reporting date, the Group has a legal or a constructive obligation and it is probable that there may be an outflow of economic benefits to settle the obligation.

Provisions are discounted if the effect is material to the measurement of the liability. The risk-free interest rate is used as the discount rate.

Restructuring costs are recognised when a detailed, formal restructuring plan has been announced to those affected no later than at the reporting date. On acquisition of entities, restructuring provisions in the acquiree are only included in the opening balance when the acquiree has a restructuring liability at the acquisition date.

A provision for onerous contracts is recognised when the benefits expected to be derived by the Group from a contract are lower than the unavoidable costs of meeting its obligations under the contract.

SECTION 3.3

OTHER LIABILITIES

DKK million	2023	2022
Classified as		
Non-current liabilities	314	305
Current liabilities	13,020	13,503
Total	**13,334**	**13,808**
Other liabilities by origin		
Staff costs payable	2,296	2,335
Excise duties and VAT payable	2,401	2,487
Other payables	2,693	2,835
Deferred income	499	574
Contingent consideration	5,445	5,577
Total	**13,334**	**13,808**

For a detailed description of contingent considerations, see section 5.4.

ACCOUNTING POLICIES

Other liabilities include excise duties (specific taxes imposed on sales of beer and soft drinks), VAT, withholding tax, accrued interest and payroll, e.g. salaries, overtime, vacation and bonus.

Other liabilities (current) are initially recognised at fair value and subsequently at amortised cost.

SECTION 3.4

CONTINGENT LIABILITIES

The Group operates in very competitive markets where consolidation is taking place within the industry and among our customers and suppliers, all of which influence our business in different ways.

In the ordinary course of business, the Group is party to certain lawsuits, disputes etc. of varying content and scope, some of which are referred to below. The resolution of these lawsuits, disputes etc. is associated with uncertainty, as they depend on relevant applicable proceedings, such as negotiations between the parties affected, government actions and court rulings.

In May 2023, Carlsberg Deutschland was ordered to pay a fine of EUR 50m (DKK 372m) for alleged infringement of the competition rules in 2007. It was decided not to appeal the decision and the fine was paid in July.

In October 2021, the French competition authority issued a Statement of Objection against a large number of FMCG companies, including three entities in the Group – Kronenbourg SAS, Carlsberg Breweries A/S and Carlsberg A/S – for alleged participation in an anticompetitive agreement not to advertise the non-use of bisphenol A (BPA). Carlsberg did not agree with the French competition authority and prepared its defence in the case during 2021, which was submitted in the first quarter of 2022. A decision was issued on 10 January 2024. None of the companies in the Group were fined by the French competition authority as the allegations were time-barred.

In October and November 2021, the Group's associate in Portugal, Super Bock Group, received decisions on the alleged anticompetitive practice in two ongoing cases. In the first case the Portuguese Court of Appeal confirmed the fine of EUR 24m issued by the competition authority, and in the second case the Portuguese competition authority imposed a fine of EUR 33m on Super Bock. Both decisions have been appealed to the Supreme Court by Super Bock. Subsequently, on account of Super Bock's alleged anticompetitive practices, a separate private enforcement claim of EUR 400m was filed by a consumer protection association against Super Bock for compensation of Portuguese consumers for alleged harm. There have been no significant developments in this case since.

In December 2023, Chongqing Jiawei Beer Co. Ltd., in which the Group holds a 33% shareholding, raised a claim for damages of RMB 631m against Chongqing Brewery Co. Ltd. for alleged breach of contract in relation to a contract brewing agreement between the parties. In June 2022, Chongqing Jiawei Beer Co. Ltd. had withdrawn previous claims based on substantially similar allegations. Based on the facts and evidence currently put forward, it is not considered likely that the claim will lead to a negative outcome for the Group.

20240927031185

SECTION 3.4 (CONTINUED)

CONTINGENT LIABILITIES

For some time, the Group has had serious disagreements with our partner CSAPL Holdings Pte Ltd (CSAPLH) in relation to Carlsberg South Asia Pte Ltd (CSAPL), of which Carlsberg owns two thirds and CSAPLH the remaining one third. CSAPL is the holding company for the businesses in India (100%) and Nepal (90%). Several issues have previously been referred to arbitration, including various allegations relating to governance and breach of the Shareholders' Agreement and governance matters, in all of which Carlsberg has been completely vindicated. As a result, the arbitration tribunal in May 2022 awarded Carlsberg the right to call CSAPLH's shares in CSAPL. Carlsberg immediately invoked the right to begin the call option valuation process, and CSAPLH subsequently exercised its right under the Shareholders' Agreement to begin the put option valuation process. In accordance with the Shareholders' Agreement, the put option price was determined as the simple average of two valuations assessed by two independent external valuers, which are internationally recognised accounting firms, one appointed by each shareholder. The put option valuation was released by the valuers in February 2023, stating a value for CSAPLH's shares in CSAPL of USD 744m. CSAPLH subsequently issued a formal put notice to sell its 33% shareholding in CSAPL to the Group at the put option valuation amount. The put option valuation was referred to arbitration by the Group, as the valuation is considered to have been conducted in breach of the Shareholders' Agreement. An arbitration award is expected to be issued in Q4 2024. In accordance with the Shareholders' Agreement, the call option awarded to Carlsberg by the arbitration panel must be settled at an amount determined by a valuer appointed by the International Chamber of Commerce. The valuer released the call valuation in July 2023. Carlsberg is satisfied with the valuation outcome and subsequently exercised its call option. The call option will come into effect if the put valuation is invalidated by the arbitration tribunal.

In addition to the disputes with our partner in CSAPL regarding India and Nepal, there is a dispute with the local 10% shareholder in Gorkha Brewery, a related party to the Group's 33% partner in CSAPL. The conclusion of the put or call option process and the increase to 100% ownership of CSAPL does not include the 10% held locally and would not settle the dispute with the local shareholder, and Gorkha Brewery therefore remains not consolidated until the dispute has been settled separately.

Management and the Group General Councel continuously assess these risks and their likely outcome. It is the opinion of management and the Group General Councel that, apart from items recognised in the statement of financial position, the outcome of these lawsuits, disputes etc. cannot be reliably estimated in terms of amount or timing or the risk of a negative outcome is considered to be remote. The Group does not expect the ongoing lawsuits and disputes to have a material impact on the Group's financial position, net profit or cash flow, in excess of items recognised in the statement of financial position.

GUARANTEES AND COMMITMENTS

The Group has issued guarantees for third-party obligations (non-consolidated entities) of DKK 201m (2022: DKK 205m). No guarantees have been issued for loans raised by associates. Certain guarantees etc. are issued in connection with disposal of entities and activities, and in connection with on-trade loans. Apart from items recognised in the statement of financial position or disclosed in the consolidated financial statements, these guarantees etc. will not have a material effect on the Group's financial position. Capital commitments, lease liabilities and service agreements are described in section 2.3.

202409270318 6

SECTION 4

FINANCING COSTS, CAPITAL STRUCTURE AND EQUITY

22.4bn

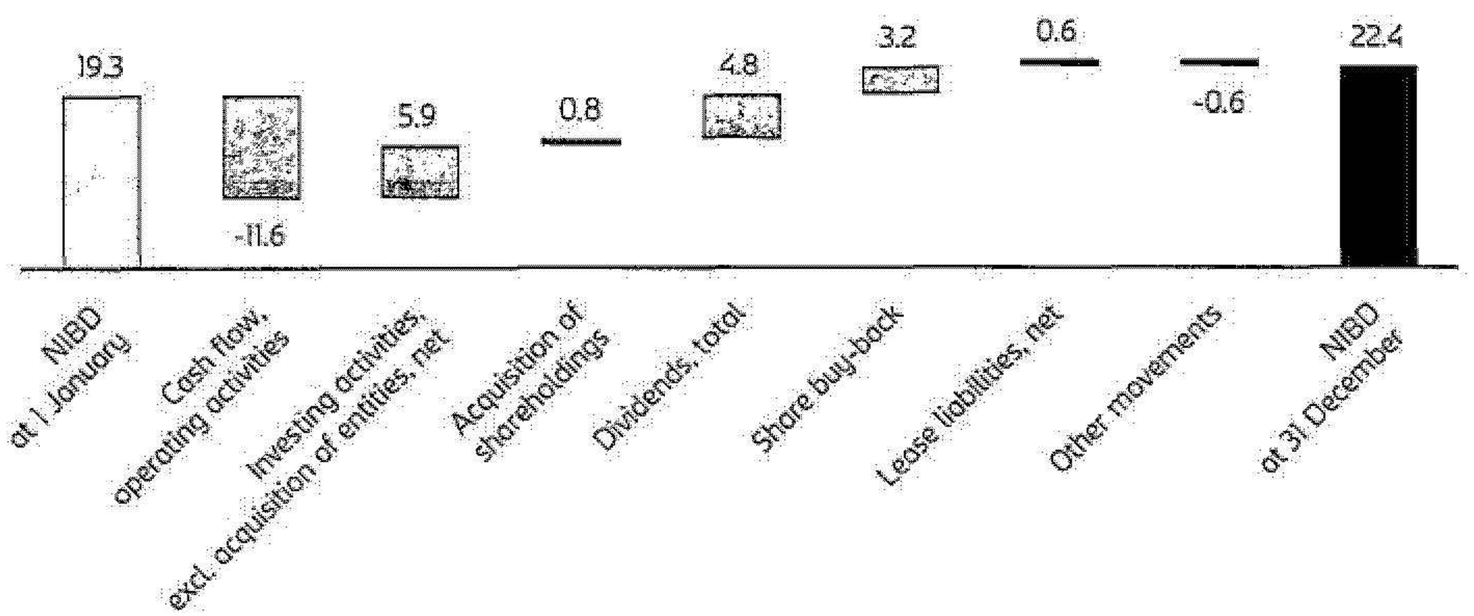

NET INTEREST-BEARING DEBT (DKK)

Gross financial debt amounted to DKK 39.1bn (2022: DKK 28.6bn). Net interest-bearing debt was DKK 22.4bn, an increase of DKK 3.0bn compared with year-end 2022.

The liquidity position remained solid due to the free cash flow of DKK 4.9bn (free operating cash flow of DKK 7.5bn) and access to a EUR 2bn credit facility, which was unutilised at 31 December 2023.

The leverage ratio, measured as net interest-bearing debt to EBITDA, was 1.47x at year-end (2022: 1.23x), well below our target of below 2.0x.

CHANGES IN NET INTEREST-BEARING DEBT
(DKKbn)

3.2bn

SHARE BUY-BACK (DKK)

During 2023, the Company repurchased shares worth DKK 3.2bn under the quarterly share buy-back programmes initiated in 2022 and 2023.

25.7bn

EQUITY (DKK)

Equity amounted to DKK 25.7bn (2022: DKK 34.7bn), DKK 23.2bn of which was attributable to shareholders in Carlsberg A/S and DKK 2.5bn to non-controlling interests.

The change in equity of DKK -9.0bn was mainly due to foreign exchange losses on translation of foreign entities for the period of DKK 3bn, the dividend payout of DKK 4.8bn and the share buy-back of DKK 3.2bn.

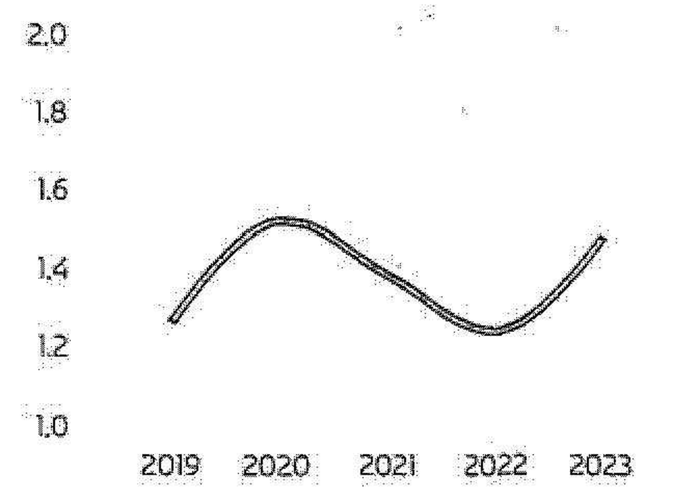

Profit for the period from continuing activities was DKK 8.0bn, partly offset by the loss from discontinued operations, excluding reclassification of the accumulated currency translation and hedge losses of DKK 6.3bn. The reclassification of the currency translation and hedge losses relating to Russia did not impact net equity.

-844m

NET FINANCIAL ITEMS (DKK)

Financial items, net, amounted to DKK -844m (2022: DKK -725m). Excluding currency losses and fair value adjustments, financial items, net, amounted to DKK -693m (2022: DKK -506m). The increase was mainly due to the increase in interest rates and average net debt.

LEVERAGE RATIO (NIBD/EBITDA)

2019-2020 including Russia. 2021-2023 excluding Russia.

20240927031187

SECTION 4.1

FINANCIAL INCOME AND EXPENSES

Interest income primarily relates to interest on cash and cash equivalents and deposits measured at amortised cost.

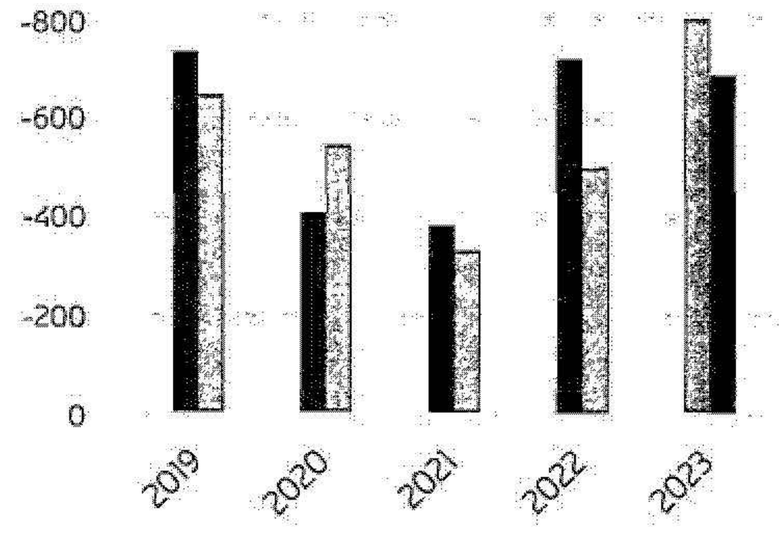

Foreign exchange losses, net, include fair value adjustments of hedges not designated as hedging instruments and foreign exchange losses. The fair value adjustment of hedges not designated as hedging instruments amounted to DKK 60m (2022: DKK -121m), cf. section 4.9.

Foreign exchange losses and fair value adjustments amounted to DKK 151m (2022: DKK 219m).

Of the net change in fair value of cash flow hedges transferred or reclassified to the income statement, DKK -280m (2022: DKK 69m) has been included in revenue and cost of sales, DKK -22m in special items (2022: DKK 0m), DKK 0m (2022: DKK -16m) in financial items, DKK -545m (2022: DKK 0m) in loss from discontinued operations, and DKK -18m (2022: DKK -2m) in intangible assets and property, plant and equipment.

Foreign exchange adjustments of foreign entities recognised in other comprehensive income amounts to DKK 37,781m, cf. section 4.4.4.

FINANCIAL ITEMS, NET (DKKm)

2019-2020 including Russia. 2021-2023 excluding Russia.

SECTION 4.3

NET INTEREST-BEARING DEBT

Of the gross financial debt at year-end, 79% (2022: 80%) was non-current, i.e. with maturity of more than one year.

Gross financial debt amounted to DKK 39.1bn (2022: DKK 28.6bn). Non-current borrowings totalled DKK 30.8bn (2022: DKK 22.9bn) and current borrowings totalled DKK 8.3bn (2022: DKK 5.8bn). A EUR 500m EMTN bond matured in September 2023, and during the year a total of EUR 2.05bn of EMTN bonds was issued with maturities in 2026, 2028 and 2033, cf. section 4.5. The Group continuously assesses the maturity and repayment profile of its debt, and the high level of refinancing in 2023 should be seen in the light of the EUR 1bn EMTN bond maturing in May 2024.

The difference of DKK 16.8bn between gross financial debt and net interest-bearing debt mainly comprised cash and cash equivalents, deposits and securities and on-trade loans.

Net interest-bearing debt

SECTION 4.4

CAPITAL STRUCTURE

4.4.1 CAPITAL STRUCTURE

Management regularly assesses whether the Group's capital structure is in the interests of the Group and its shareholders.

The overall objective is to ensure a continued development and strengthening of the Group's capital structure that supports long-term profitable growth and a solid increase in key earnings and ratios. This includes assessment of and decisions on the split of financing between share capital and borrowings, which is a long-term strategic decision to be made in connection with significant investments and other transactions.

Carlsberg A/S' share capital is divided into two classes (A shares and B shares). Combined with the Carlsberg Foundation's position as majority shareholder (in terms of control), management considers that this structure will remain advantageous for all of the shareholders, enabling and supporting the long-term development of the Group.

The Group targets a leverage ratio below 2.0x. At the end of 2023, the leverage ratio was 1.47x (2022: 1.23x). The Group currently uses share buy-back programmes to return excess cash to shareholders.

The share buy-back programmes are initiated based on a cautious evaluation of the Group's funding flexibility and credit resources available. The size and duration of each programme depend on the expected organic and inorganic investments needed to grow the business and the Group's intention to maintain a leverage ratio below 2.0x.

Share capital

	Class A shares		Class B shares		Total share capital	
	Shares of DKK 20	Nominal value, DKK '000	Shares of DKK 20	Nominal value, DKK '000	Shares of DKK 20	Nominal value, DKK '000
1 January 2022	33,699,252	673,985	111,557,554	2,231,151	145,256,806	2,905,136
Cancellation of treasury shares	-	-	-3,400,000	-68,000	-3,400,000	-68,000

Cancellation of treasury shares	-	-	-4,500,000	-90,000	-4,500,000	-90,000
31 December 2023	**33,699,252**	**673,985**	**103,657,554**	**2,073,151**	**137,356,806**	**2,747,136**

A shares carry 20 votes per DKK 20 share. **B shares** carry two votes per DKK 20 share. A preferential right to an 8% non-cumulative dividend is attached to B shares. Apart from votes and dividends, all shares rank equally.

20240927031189

SECTION 4.4 (CONTINUED)

CAPITAL STRUCTURE

The Group generally intends to cancel treasury shares that are not used for hedging of incentive programmes.

The Group is rated by Moody's Investors Service and Fitch Ratings. Management assesses the risk of changes in the Group's investment-grade rating as an element in strategic decisions on capital structure. Identification and monitoring of risks that could change the rating were carried out on an ongoing basis throughout the year.

4.4.2 SHARE CAPITAL

At the Annual General Meeting on 13 March 2023, it was decided to reduce the share capital of Carlsberg A/S by a nominal amount of DKK 90,000,000 to a nominal amount of DKK 2,747,136,120 by cancelling 4,500,000 of the B shares held by the Company, each with a nominal value of DKK 20.

The cancellation was completed on 11 April 2023. These shares had been repurchased as part of the Company's share buy-back programmes.

At the Annual General Meeting on 11 March 2024, the Supervisory Board will recommend that 3,100,000 treasury shares not used for the hedging of the incentive programme be cancelled.

4.4.3 EQUITY

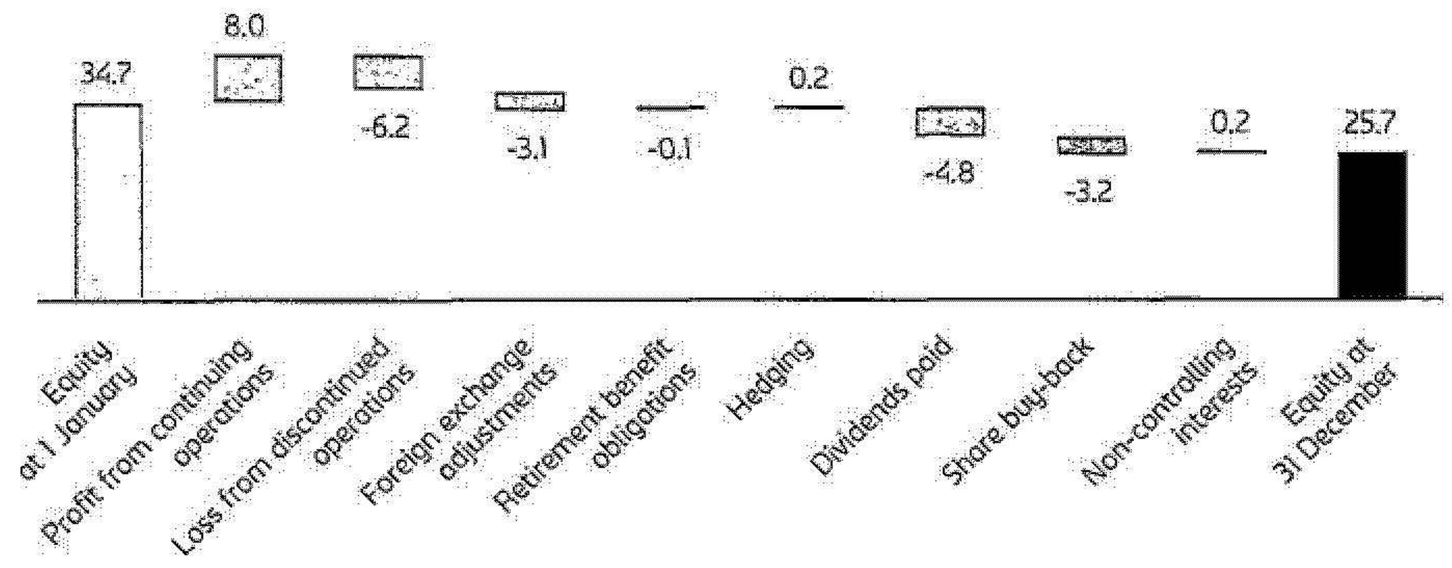

DIVIDENDS

The Group proposes a dividend of DKK 27.00 per share (2022: DKK 27.00 per share), amounting to DKK 3,709m (2022: DKK 3,830m). The proposed dividend has been included in retained earnings at 31 December 2023.

Dividends to be paid out in 2024 for 2023, net of dividends on treasury shares held at 31 December 2023, will amount to DKK 3,621m (paid out in 2023 for 2022: DKK 3,708m).

At 31 December 2023, dividends to non-controlling interests of DKK 43m were payable.

EQUITY[1] (DKKbn)

[1] Excluding the gross impact of the reclassification of cumulative currency translation and hedge losses related to the discontinued operation that has no net impact on total equity.

SHARE BUY-BACK AND TREASURY SHARES

On 7 February 2023, the Company announced its intention to continue the share buy-back, executed as quarterly programmes. In 2023, a total of 3,338,514 B shares worth DKK 3.2bn were repurchased. The 2023 programme ended with the fourth quarterly programme, which was finalised on 26 January 2024. Under this programme, the Company has repurchased a total of 3,160,923 B shares at a total purchase price of DKK 3.0bn over a 12-month period.

According to the authorisation of the Annual General Meeting, the Supervisory Board may, in the period until 13 March 2027, allow the Company to acquire treasury shares up to a total holding of 10% of the nominal share capital at a price quoted on Nasdaq Copenhagen at the time of acquisition with a deviation of up to 10%. The permitted holding of treasury shares covers those acquired in share buy-back programmes. The Company holds no class A shares.

SECTION 4.4 (CONTINUED)

CAPITAL STRUCTURE

ACCOUNTING POLICIES

Proposed dividends
The proposed dividend is recognised as a liability at the date when it is adopted at the Annual General Meeting (declaration date).

Treasury shares
Cost of acquisition, consideration received and treasury share dividends received are recognised directly in equity as retained earnings. Capital reductions from the cancellation of treasury shares are deducted from the share capital at an amount corresponding to the nominal value of the shares and added to retained earnings.

Proceeds from the sale of treasury shares in connection with the settlement of share-based payments are recognised directly in equity.

4.4.4 OTHER COMPREHENSIVE INCOME

Other comprehensive income has mainly been impacted by the reclassification adjustments to the income statement of accumulated currency translation losses of DKK 40.9bn and hedge losses of DKK 0.5bn following the deconsolidation of the Russian operation in July 2023. This was partly offset by negative foreign exchange adjustments of DKK 3.1bn from translation of Group entities with a functional currency other than DKK.

4.4.5 FINANCIAL RISK MANAGEMENT

The Group's activities mean it is exposed to a variety of financial risks, including market risk (foreign exchange risk, interest rate risk and commodity risk), credit risk and liquidity risk. These risks are described in the following sections:

- Foreign exchange risk: sections 1.3 and 4.7
- Interest rate risk: section 4.6
- Commodity risk: section 1.2.1
- Credit risk: sections 1.5.1 and 4.5.2
- Funding and liquidity risk: section 4.8
- Fair value and fair value adjustments of derivatives used for hedging: sections 4.7.2 and 4.9

The Group's financial risks are managed by Group Treasury in accordance with the Financial Risk Management Policy approved by the Supervisory Board as an integrated part of the overall risk management process. The risk management governance structure is described in the Management review (pages 48-50).

To reduce exposure to these risks, the Group enters into a variety of financial instruments and generally seeks to apply hedge accounting to reduce volatility in the income statement.

Debt instruments and deposits in foreign currency reduce the overall risk but will generally not achieve the objective of reducing volatility in specific items in the income statement, unless they are designated as cash flow hedges.

Other comprehensive income as recognised in the statement of changes in equity

SECTION 4.5

BORROWINGS AND CASH

4.5.1 BORROWINGS

Total borrowings increased by DKK 10.5bn. Non-current borrowings increased by DKK 7.9bn, as a EUR 1.0bn EMTN bond that matures in May 2024 was reclassified to short-term and EUR 2.05bn of non-current EMTN bonds were issued. Current borrowings increased by DKK 2.6bn due to the repayment of a EUR 500m EMTN bond in September, the aforementioned reclassification of the EUR 1bn bond and no issuance under the commercial paper programme at year-end 2023.

ACCOUNTING POLICIES

Borrowings

Borrowings are initially recognised at fair value less transaction costs and subsequently measured at amortised cost using the effective interest method. Accordingly, the difference between the fair value less transaction costs and the nominal value is recognised under financial expenses over the term of the loan.

Lease liability

The lease liability is measured at the present value of the remaining lease payments at the reporting date, discounted using the incremental borrowing rate for similar assets, taking into account the terms of the leases. A remeasurement of the lease liability, for example a change in the assessment of an option to purchase, results in a corresponding adjustment of the related right-of-use assets, cf. section 2.3.

Extension or termination options are included in the lease term if the lease is reasonably certain to be extended or not terminated. Consequently, all cash outflows that are reasonably certain to impact the future cash balances are recognised as lease liabilities at initial recognition of lease contracts. The Group reassesses the circumstances leading to it not recognising extension or termination options on an ongoing basis.

4.5.2 CASH AND DEPOSITS

Cash and cash equivalents include short-term marketable securities with an original term of less than three months that are subject to an insignificant risk of changes in fair value and form part of the short-term cash planning. Short-term bank deposits amounted to DKK 6,896m at 31 December 2023 (2022: DKK 1,530m). Carlsberg has placed surplus liquidity of DKK 2,236m from the issuance of bonds in bank deposits that do not meet the definition of cash and cash equivalents. These are classified as deposits and are co-managed with cash and cash equivalents. The average interest rate on deposits was 4.5% (2022: 6.2%). Total cash including deposits amounted to DKK 15,618m in 2023 (2022: DKK 8,163m).

Cash and deposits

DKK million	2023		2022	
	Cash and deposits	Derivative financial instruments	Cash and deposits	Derivative financial instruments
AA range	5,743	3	1,571	33
A range	8,476	245	5,580	177
BBB range	756	4	546	6
Not rated or below BBB range	643	48	466	83
Total	**15,618**	**300**	**8,163**	**299**

ASSESSMENT OF CREDIT RISK

The Group is exposed to credit risk on cash and cash equivalents (including deposits), and derivative financial instruments with a positive fair value depending on the creditworthiness of the counterparty.

The Group has established a credit policy under which financial transactions may be entered into only with financial institutions with a solid credit rating, defined as BBB. Carlsberg only enters into FX and aluminium derivatives with relationship banks, and the associated credit risk is mitigated to some extent by entering into ISDA agreements, partly because it is the same group of banks extending loans to the Group.

Carlsberg operates with individual limits on banks, based on rating and other factors. For some of the markets in which the Group operates and holds cash, the financial institutions do not have a BBB rating, in which case an exemption is approved by Group Treasury.

EXPOSURE TO CREDIT RISK

The carrying amount of DKK 15,618m (2022: DKK 8,163m) represents the maximum credit exposure related to cash and cash equivalents and deposits. The credit risk on receivables is described in section 1.5.1

202409270319Z

SECTION 4.6

INTEREST RATE RISK

Interest rate risk is monitored on net financial debt, i.e. borrowings, cash and cash equivalents, deposits and securities and derivative financial instruments. The target is to have a duration between three and eight years. At 31 December 2023, the duration was 5.7 years (2022: 4.1 years). Interest rate risk is mainly managed using fixed-rate bonds, which are all denominated in EUR. At the reporting date, 126% of the net financial debt consisted of fixed-rate borrowings with interest rates fixed for more than one year (2022: 106%). The increase is due to the increase in both issued bonds and cash and cash equivalents.

On a gross debt basis, 76% was at fixed interest rates (2022: 76%). Significant parts of the Group's cash and cash equivalents are held in currencies other than EUR, whereas EUR accounts for the predominant part of the fixed-rate borrowings. As a result, 124% of the Group's net debt is in EUR, which is why the interest rate exposure primarily relates to interest rate developments for EUR.

SENSITIVITY ANALYSIS

Total cash and cash equivalents including deposits exceeds borrowings with a floating interest rate, hence an increase in interest rates would result in a decrease in net interest expenses. It is estimated that a 1 percentage point interest rate increase across currencies would lead to a decrease in net interest expenses of DKK 61m (2022: DKK 12m).

All debts are carried at amortised cost and changes in the interest rate will not impact the carrying amount of debt but will impact the fair value of debt, cf. section 4.5.1. The fair value of total gross borrowings was DKK 652m lower than the carrying amount (2022: DKK 1,952m lower).

If all interest rates across tenor and currencies had been 1 percentage point higher at the reporting date, it would have led to a gain of DKK 1,326m (2022: DKK 842m), and a similar loss had the interest rate been 1 percentage point lower.

The sensitivity analysis is based on the financial instruments (borrowing, cash and cash equivalents, deposits and securities and derivative financial instruments) recognised at the reporting date.

The analysis was performed on the same basis as for 2022.

Net financial debt by currency

DKK million

2023	Gross financial debt	Net financial debt	Fixed	Gross financial debt, fixed %	Net financial debt, fixed %[1]
EUR	37,282	29,166	29,291	79%	100%
CNY	146	-2,801	-	-	-

20240927031931

SECTION 4.7

FOREIGN EXCHANGE RISK RELATED TO NET INVESTMENTS AND FINANCING ACTIVITIES

4.7.1 CURRENCY PROFILE OF BORROWINGS

The Group is exposed to foreign exchange risk on borrowings denominated in a currency other than the functional currency of the local entities reporting the debt, as well as the risk that arises when net cash inflow is generated in one currency and borrowings are denominated and have to be repaid in another currency.

4.7.2 HEDGING OF NET INVESTMENTS IN FOREIGN SUBSIDIARIES

The Group holds a number of investments in foreign subsidiaries where the translation of net assets to DKK is exposed to foreign exchange risks. The revaluation of the net investment is recognised in other comprehensive income. The Group hedges part of this foreign exchange exposure by selling foreign currencies via FX forwards and non-deliverable forwards (NDF), and designates these as net investment hedges. This mainly applies to net investments in CHF, CNY, MYR and NOK. The basis for hedging is reviewed at least once a year, and the two parameters, risk reduction and cost, are balanced. At the 2023 review it was decided to increase the hedging of CNY and to temporarily decrease the hedging of NOK.

In economic terms, having debt in foreign currency or creating synthetic debt via forward exchange contracts constitutes hedging of the DKK value of future cash flows arising from operating activities or specific transactions. Where the notional amounts of forward exchange contracts do not exceed the net investment, the fair value adjustments are recognised in other comprehensive income.

Two of the most significant net risks relate to foreign exchange adjustment of net investments in CNY and CHF, both of which are partly hedged.

All the forward exchange contracts mature during 2024. At 31 December 2023, all adjustments of financial instruments have been recognised in other comprehensive income. Fair value adjustments of loans designated as strategic intra-group loans have also been recognised in other comprehensive income.

The fair value of derivatives used as net investment hedges recognised at 31 December 2023 amounted to DKK -13m (2022: DKK 38m).

The closing balance in the equity reserve for currency translation of hedges of net investments for which hedge accounting no longer applies amounted to DKK -1,962m (2022: DKK -2,282m) on a pre-tax basis.

Positive fair values of derivatives are recognised as other receivables and negative values as other liabilities. During 2023 losses of DKK 24m regarding hedges of the net investment in RUB were reclassified from equity to the income statement and included in the loss from discontinued operations.

202409270319 4

SECTION 4.7 (CONTINUED)

FOREIGN EXCHANGE RISK RELATED TO NET INVESTMENTS AND FINANCING ACTIVITIES

4.7.3 EXCHANGE RATE RISK ON CASH AND BORROWINGS

The main principle for funding subsidiaries is that cash and borrowings should be denominated in local currency or hedged to local currency to avoid foreign exchange risk. However, in some Group entities, cash and borrowings are denominated in a currency other than the functional currency of the local entity without the foreign exchange risk being hedged. This applies primarily to a few entities in Central & Eastern Europe that hold cash and loans in EUR and USD and in this way obtain either hedge accounting or proxy hedging of the foreign exchange risk associated with the purchase of goods in foreign currency in these markets.

4.7.4 IMPACT ON FINANCIAL STATEMENTS AND SENSITIVITY ANALYSIS

IMPACT ON INCOME STATEMENT

For the impact of currency on operating profit and financial items, please refer to sections 1.3 and 4.1 respectively.

IMPACT ON STATEMENT OF FINANCIAL POSITION

Fluctuations in foreign exchange rates will affect the level of debt, as funding is obtained and cash held in a number of currencies. In 2023, net interest-bearing debt increased by DKK 614m (2022: DKK 431m) because of changes in foreign exchange rates.

SENSITIVITY ANALYSIS

An adverse development in the exchange rates would, all other things being equal, have had the hypothetical impact on other comprehensive income (OCI) for 2023 as illustrated in the table. The calculation is based on hedges existing as at 31 December 2023.

Other comprehensive income

Other comprehensive income is affected by changes in the fair value of currency derivatives designated as cash flow hedges of future purchases.

APPLIED EXCHANGE RATES

The average exchange rate was calculated using the monthly exchange rates weighted according to the phasing of the revenue per currency throughout the year.

Exchange rate sensitivity - other comprehensive income

20240927031951

SECTION 4.8

FUNDING AND LIQUIDITY RISK

Liquidity risk results from the Group's potential inability to meet the obligations associated with its financial liabilities, for example settlement of financial debt and payment of suppliers.

The Group's overall objective is to ensure continuous access, at the right price, to the financial resources needed for operations and growth.

The aim is to ensure effective liquidity management, which involves obtaining sufficient committed credit facilities to ensure adequate financial resources and, to some extent, tapping a range of funding sources.

DIVERSIFIED FUNDING SOURCES

The Group is diversifying its access to funding to avoid relying on one single source of funding.

The Group has access to a committed EUR 2bn revolving credit facility (RCF) maturing in 2026, which is currently not being utilised. In addition, the Group has committed cash pool bank overdraft facilities to cover the day-to-day liquidity needs and uncommitted access to the Euro Commercial Paper (ECP) market, which provides short-term funding.

At 31 December 2023, bonds accounted for 94% of the gross funding.

202409270319 6

SECTION 4.8 (CONTINUED)

FUNDING AND LIQUIDITY RISK

CREDIT RESOURCES AVAILABLE

The Group uses the term "credit resources available" to determine the adequacy of access to credit facilities.

Credit resources available include cash, deposits and unutilised credit facilities with more than 12 months to maturity less utilised credit facilities with less than 12 months to maturity and uncommitted working capital facilities.

Net financial debt is used internally to monitor the Group's credit resources available. Net financial debt is the Group's net interest-bearing debt, excluding interest-bearing assets other than cash and deposits, as these assets are not actively managed in relation to liquidity risk. Net financial debt is shown in section 4.3.

At 31 December 2023, the Group had total credit resources available of DKK 22,192m, consisting of cash and cash equivalents and deposits of DKK 15,618m plus committed unutilised non-current credit facilities of DKK 14,912m less utilisation of current facilities of DKK 8,338m. Including current credit facilities of DKK 1,149m, total committed unutilised credit facilities amounted to DKK 16,061m.

Credit resources available at year-end 2023 were DKK 5bn higher than at year-end 2022, as a result of the ongoing funding activities.

The credit resources available and access to unused committed credit facilities are considered reasonable in light of the Group's current needs in terms of financial flexibility.

The Group uses cash pools for day-to-day liquidity management in most of its entities in Western Europe, as well as intra-group loans to and from subsidiaries. Central & Eastern Europe and Asia are less integrated in terms of cash pools, and liquidity is managed via intra-group loans. For some markets in Asia, intra-group loans are not possible, and surplus liquidity will be paid out in the form of dividends, which results in a time lag between when the cash flow is generated and when it becomes available for repayment of Group debts. The most significant cash balances related to this delay are in China. Cash balances held in Ukraine of DKK 922m are temporarily unavailable for Group purposes due to the ongoing war.

MATURITY OF FINANCIAL LIABILITIES

The table lists the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements, and thus summarises the gross liquidity risk.

The risk implied by the values reflects the one-sided scenario of cash outflows only. Trade payables and other financial liabilities originate from the financing of assets in ongoing operations, such as property, plant and equipment, and investments in working capital, for example inventories and trade receivables.

The nominal amount/contractual cash flow of gross financial debt totalled DKK 39,278m in 2023 (2022: DKK 28,757m), whereas the total carrying amount was DKK 39,101m (2022: DKK 28,646m). The difference between these amounts arises at initial recognition and is treated as a cost that is capitalised and amortised over the duration of the borrowings.

The interest expense is the contractual cash flows expected on the gross financial debt existing at 31 December 2023.

The cash flow is estimated based on the notional amount of the above-mentioned borrowings and expected interest rates at year-end 2023 and 2022. Interest on debt recognised at year-end 2023 and 2022 for which no contractual obligation exists (current borrowing and other debts) has been included for a two-year period. The synthetic interest on lease liabilities has also been included for a two-year period. The interest applied to the part of the debt where no contractual obligation exists is 4.0% for 2024 and 2.5% for 2025 (2022: 2.8%). The increase is due to the increase in interest rates seen for most currencies during 2023.

SECTION 4.9

DERIVATIVE FINANCIAL INSTRUMENTS

The Group enters into derivative financial instruments to hedge foreign exchange and commodity risks, cf. sections 1.2 and 1.3, and seeks to apply hedge accounting when this is possible. Hedging of future, highly probable forecast transactions is designated as cash flow hedges.

Total net gain on active cash flow hedges recognised in OCI was DKK 123m with gains on aluminium and losses on exchange rate instruments and energy. The energy hedge is a power purchase agreement which secures fixed price electricity for 10 years commencing 2024.

Positive fair values of derivatives are recognised as other receivables and negative values as other liabilities.

The impact on other comprehensive income and the fair value of derivatives classified as cash flow hedges is presented in the cash flow hedge table.

Following the deconsolidation of the Russian operation, the value of hedges relating to the original acquisition of the Russian operation and the value of aluminium and FX hedges in the Russian operation have been reclassified from equity to the income statement and included in the loss from discontinued operations at the time of deconsolidation. The total amount of the reclassification was DKK 545m. Additional losses of DKK 40m regarding hedges of financial investment were reclassified from the cash flow hedge reserve: DKK 22m to the income statement and DKK 18m to intangible assets. At 31 December 2023, hedging reserves included DKK -215m in relation to cash flow hedges for which hedge accounting is no longer applied.

Fair value adjustments of derivative financial instruments that are not designated as either net investment hedges or cash flow hedges are recognised in financial income and expenses.

The fair value adjustment of derivatives which have become ineffective is recognised in the income statement. In 2023 the ineffective portion amounted to DKK -9m and relates to exchange rate instruments and aluminium.

ACCOUNTING ESTIMATES AND JUDGEMENTS

When entering into financial instruments, management assesses whether the instrument is an effective hedge of expected future cash flows or financial investments. The effectiveness of recognised hedging instruments is assessed at least twice a year.

Fair values of derivative financial instruments are calculated on the basis of level 2 input consisting of current market data and generally accepted valuation methods. Internally calculated values are used, and these are compared with external market quotes on a quarterly basis. For currency, aluminium and electricity derivatives, the calculation is as follows:

a) The forward market rate is compared to the agreed rate on the derivatives, and the difference in cash flow at the future point in time is calculated.
b) The amount is discounted to present value. Where relevant the discounting rate includes a credit risk adjustment.

When entering into a contract, management assesses whether the contract contains embedded derivatives and whether they meet the criteria for separate classification and recognition. The Group currently does not have any embedded derivatives that meet the criteria for separate classification and recognition.

SECTION 4.9 (CONTINUED)

DERIVATIVE FINANCIAL INSTRUMENTS

ACCOUNTING POLICIES

Derivative financial instruments are initially recognised at fair value on the trade date and subsequently remeasured at fair value at the reporting date.

The accounting for subsequent changes in fair value depends on whether the derivative is designated as one of:

- Cash flow hedges of particular risks associated with the cash flow from forecast transactions
- Net investment hedges of currency fluctuations in subsidiaries or associates.

The fair values of derivative financial instruments are presented in other receivables or payables, and positive and negative values are offset only when the Group has the right and the intention to settle several financial instruments net.

Changes in the fair value of derivative financial instruments not designated in a hedge relationship are recognised in financial income or expenses in the income statement.

Changes in the effective portion of the fair value of derivative financial instruments that are designated and qualify as a **cash flow hedge** are recognised in the hedging reserve within equity. When the hedged transaction materialises, amounts previously recognised in other comprehensive income are transferred to the same item as the hedged item.

Derivatives designated as and qualifying for recognition as a cash flow hedge of financial investments are recognised in other comprehensive income. On complete or partial disposal of the financial investment, the portion of the hedging instrument that is recognised in other comprehensive income and relates to that financial investment is recognised in the income statement when the gain or loss on disposal is recognised.

Hedges of net investments in foreign subsidiaries and associates are accounted for in the same way as cash flow hedges. Notional amounts, average hedge rates and the fair values and disclosed in section 4.7.2.

202409270319 9

SECTION 5

DISCONTINUED OPERATIONS, ACQUISITIONS, DISPOSALS AND ASSOCIATES

Deconsolidation of the Russian operation

Deconsolidation of the operation in Russia following the presidential decree issued on 16 July 2023 temporarily transferring management of the business to a government agency.

Waterloo Brewing

Acquired Waterloo Brewing and expanded the production network needed for our business in Canada.

SECTION 5.1

DISCONTINUED OPERATIONS

On 16 July 2023, the Russian Government issued a presidential decree, temporarily transferring the management of the Group's Russian subsidiary Baltika Breweries to the Russian Federal Agency for State Property Management. According to the presidential decree, Carlsberg retains title to the shares in Baltika Breweries, but otherwise no longer has any control or influence over the management of the business.

The decree was issued shortly after the Group announced it had signed an agreement for the conditional sale of Baltika Breweries. The sales agreement was subsequently terminated.

In June 2023, following the signing of the sales agreement and prior to the issuance of the presidential decree, the Russian operation was revalued at fair value less expected cost to sell, resulting in recognition of impairment losses of DKK 1,686m.

Following the loss of control over Baltika Breweries, the Russian business was deconsolidated from July 2023. The business had been accounted for as held for sale and presented as discontinued operations since March 2022. Upon deconsolidation, the currency translation and hedging reserves within equity related to the Russian business were reclassified from equity to the income statement and included in the loss from discontinued operations.

The accumulated currency translation reserve reclassified to the income statement represented a loss of DKK 40.9bn, around half of which was recognised in December 2014 when the RUB depreciated significantly following the Russian invasion and annexation of Crimea. This figure included the accumulated fair value of net investment hedges of DKK 24m, cf. section 4.7.

The accumulated hedging reserve reclassified to the income statement represented a loss of around DKK 0.5bn and included both active hedges and hedges for which hedge accounting was no longer applied, cf. section 4.9.

In addition, following the issuance of the decree, the interest retained in Baltika Breweries no longer met the accounting definition of an equity investment and was reclassified as consideration receivable from the Russian Federation for its illegitimate takeover of the Group's business in Russia. Following reclassification as a receivable, it was written down in full and derecognised, bringing impairment losses recognised in the year to DKK 7,002m (2022: DKK 9,949m).

As a consequence of the Group being prevented from disposing of its Russian business on acceptable terms, all licence agreements enabling Baltika Breweries to produce, market and sell the Carlsberg Group's products, including international and regional brands, were terminated in September 2023. There will be a limited run-off period until 1 April 2024, during which Baltika Breweries may use up existing stock and materials.

The issuance of the presidential decree extinguished the Group's obligation to repay a loan provided by Baltika Breweries. This resulted in a gain of DKK 297m. The Group's trade receivables of DKK 76m for providing goods and services to the Russian business were considered to be unrecoverable and have therefore been fully impaired. These amounts have been recognised in special items, cf. section 3.1.

202409270320O

SECTION 5.1 (CONTINUED)

DISCONTINUED OPERATIONS

Financial performance

The loss from discontinued operations for 2023 only includes the six months of operation until the time of loss of control. Reported revenue in Russia amounted to DKK 4,305m (2022: DKK 10,207m) and profit to DKK 758m (2022: DKK 1,874m). The net result was DKK -47,748m (2022: DKK -8,075m), impacted by the reclassification from equity of accumulated losses on currency translation and hedges of DKK 41,504m and the write-down of the investment by DKK 7,002m (2022: DKK 9,949m).

The cash flow from investing activities in the discontinued operations amounted to DKK -2,588m (2022: DKK -376m), of which DKK -2,495m was the impact from deconsolidating cash and cash equivalents in the Russian operation.

ACCOUNTING ESTIMATES AND JUDGEMENTS

The Group classifies non-current assets and disposal groups as held for sale when management assesses that their carrying amounts will be recovered through a sale rather than continued use. Management's assessment is based on an evaluation of whether the sale is highly probable and the asset or disposal group is available for immediate sale in its current condition. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the plan to sell the asset and the sale must be expected to be completed within one year from the date of the classification.

On classification, management estimates the fair value. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs of disposal. Costs of disposal are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense.

Depending on the nature of the non-current assets and the disposal group's activity, assets and liabilities, the estimated fair value may be associated with uncertainty and possibly adjusted subsequently. Measurement of the fair value of disposal groups is categorised as level 3 in the fair value hierarchy, as measurement is not based on observable market data.

20240927052O1

SECTION 5.1 (CONTINUED)

DISCONTINUED OPERATIONS

ACCOUNTING POLICIES

Assets held for sale comprise non-current assets and disposal groups held for sale. Liabilities held for sale are those directly associated with the assets that will be transferred in the transaction. After derecognition, the classification is changed to assets and liabilities in discontinued operations respectively. Immediately before classification as held for sale, the assets or disposal groups are remeasured in accordance with the Group's accounting policies. Thereafter, they are measured at the lower of their carrying amount and fair value less costs to sell. Any impairment loss is allocated first to goodwill, and then to remaining assets on a pro rata basis, except that no loss is allocated to inventories, financial assets, deferred tax assets or employee benefit assets, which continue to be measured in accordance with the Group's accounting policies. Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held for sale.

Impairment losses on initial classification as held for sale, and subsequent gains and losses on remeasurement are recognised in the income statement.

Non-current assets and disposal groups held for sale are presented separately as current lines in the statement of financial position and the main elements are specified in this section. Comparative figures are not restated.

A disposal group is presented as discontinued operations if it is a group of companies, i.e. part of a geographical area of operations that has either been disposed of or is classified as held for sale.

Discontinued operations are excluded from the results of continuing operations and presented separately as profit/loss from discontinued operations in the income statement. Comparative figures are restated.

Cash flow from discontinued operation is presented separately as net cash flow from discontinued operation in the statement of cash flows and specified in this section. Comparative figures are restated.

The disposal group/assets and liabilities classified as held for sale are presented separately as current items in the statement of financial position. Comparative figures are not restated.

202409270320Z

SECTION 5.2

INVESTMENT MODEL AND RISKS

MARKET ACCESS

In the beer industry, access to local markets is highly dependent on establishing good relationships with customers in the on- and off-trade channels, national distributors, local suppliers and relevant authorities governing the beverage industry. One way of establishing such relations is by acquiring a local brewer or engaging with a local partner that already has the relevant relationships.

When the Group expands its business to new geographies, it often does so in collaboration with a local partner. Such a partnership can take different legal forms and impacts the consolidated financial statements accordingly.

In addition to its activities in the beer industry, the Group operates in the soft drinks industry, an industry dominated by large global brand owners. The Group is engaged in long-term contractual partnerships to produce, distribute and sell third-party soft drink brands. In addition to granting the right to produce, the brand owner usually provides the recipe and/or raw material, while the Group has the necessary production capabilities and distribution platform.

INVESTMENT MODEL

Entering into a partnership can reduce the financial exposure and mitigate the business risks associated with entering new markets or expanding the activities in an existing market. The financial exposure, however, varies depending on the structure of the partnership. Business and financial success, and the related risks, depend on the ability of the Group and the local partner to forge a strong and aligned cooperation.

In some markets, the Group enters as a non-controlling shareholder, providing a degree of financing and contributing knowledge of the beer industry. The Group thus leaves control with the partner and recognises the investment as an associate.

More often, the Group structures its partnerships such that it exercises management control, usually by way of majority of the voting rights. These investments are fully consolidated subsidiaries, which are just as important as other types of partnership for success in the local markets, but mean that the Group has increased financial exposure. Investments in businesses in which the Group exercises management control often involve put and/or call options to acquire additional shares.

IMPACT ON FINANCIAL STATEMENTS

Investments in associates are consolidated in the financial statements using the equity method. The accounting risks associated with these entities are limited to the investment made, the proportionate share of the net profit and any specific additional commitments to banks or other parties, as well as specific guarantees or loans the Group provides to the partnership.

In businesses where the Group exercises management control, the consolidated financials are impacted by full exposure to the earnings and other financial risks. From an accounting point of view, the Group treats any put options held by partners in such entities as if they had already been exercised by the partner, i.e. anticipating that the acquisition will occur. The accounting impact is that the non-controlling interests are not recognised, and no part of net profits or equity is attributed to them. Instead, the dividends paid to the partner are reported as financial expenses.

Common to all partnerships is the risk of disagreement and ultimately dissolution. Disagreements with partners on the operational management and strategic direction of partnerships may limit our ability to manage the growth and risk profile of our business. The Group continuously seeks to promote a fair and mutually beneficial development of the partnerships, which is crucial to be successful. However, in certain partnerships the partners' pursuit of goals and priorities that are different from those of the Group might result in disagreements, affecting operational and financial performance. Different goals and priorities of this kind can become more pronounced in the period when a partner has the right to exit the partnership.

A dissolution will initially impact the accounting treatment of an investment. The accounting treatment will depend on whether the Group or its partner is exiting the business. In the long term the impact on the operation of the local entity and the collaboration with customers, distributors, authorities etc. can be significant if the partner was instrumental in managing these relationships. The risk of a partnership dissolution may therefore have a negative impact on the underlying business and the financial performance recognised in the consolidated financial statements.

The Group is involved in many partnerships, one being Carlsberg South Asia Pte Ltd (CSAPL), of which Carlsberg owns two thirds and CSAPL Holdings Pte Ltd (CSAPLH) the remaining one third. CSAPL is the holding company for the businesses in India (100%) and Nepal (90%). In 2022, the Group invoked its right to begin the call process, and the partner exercised its put option under the Shareholders' Agreement. A put option valuation certificate was issued in February 2023, cf. section 5.4. For the purpose of the consolidated financial statements, the put option is accounted for as if it had already been exercised. CSAPL and its investments in India and Nepal are therefore included in the consolidated financial statements, with no profits or equity attributed to the non-controlling shareholder. Please refer to section 3.4 for a detailed description of the dispute with the partner in CSAPL.

Partnerships in the soft drinks industry are based on long-term contractual agreements and come to an end when the contract terminates. The termination of a significant partnership with a global soft drink brand owner would have a negative impact on the Group's financial performance.

The issuance of the presidential decree in Russia, temporarily transferring the management of the Group's subsidiary Baltika Breweries to the Russian Federal Agency for State Property Management, effectively prevents the Group from acting as shareholder in Baltika Breweries. In an attempt to prevent the Group from exercising its rights as the lawful owner of certain assets and intellectual property rights of which Baltika Breweries previously enjoyed the benefit or possessed as part of the Carlsberg Group, various claims have been filed in Russia against the Group by Baltika Breweries. The claims are considered to be baseless and without merit. The Group continues to defend, uphold and protect its assets, legal and intellectual property rights.

202409270320 3

SECTION 5.3

ACQUISITIONS AND DISPOSALS

ACQUISITION OF ENTITIES IN 2023

The Group gained control of two businesses during the year. The purchase price allocation of the fair value of the identified assets, liabilities and contingent liabilities for both businesses was completed in 2023.

Waterloo Brewing
On 7 March 2023, the Group acquired 100% of the Canadian Waterloo Brewing company for a cash consideration of CAD 144m (DKK 734m). The company was fully consolidated as of the acquisition date.

The purpose of the acquisition was to strengthen the Group's market position and to deliver supply chain and other synergies. The calculated goodwill represents staff competences and synergies from expected optimisations of sales and distribution, supply chain and procurement, possible product innovations, increase in market share and access to new customers.

Jing-A Group
In September 2023, Carlsberg gained control of Jing-A Group through the acquisition of an additional 26.5% of the shares, giving Carlsberg a 75.5% ownership interest, cf. section 5.5. The non-controlling interest holds an option to sell its remaining shareholding to Carlsberg and, in accordance with the Group's accounting policies, the non-controlling interest has not been recognised. Instead the contingent consideration payable has been recognised at fair value, cf. section 5.4.

The step acquisition of Jing-A Group was completed to further strengthen the Group's presence in the growing craft beer segment in China. The shareholdings held before obtaining control were remeasured at a fair value of DKK 47m with the revaluation adjustment, DKK 20m, recognised in special items.

ACQUISITION OF ENTITIES IN 2022

The Group did not complete any acquisitions of entities in 2022.

CASH FLOW

Cash flow to acquire or dispose of shareholdings in associates and when gaining control of subsidiaries is included in financial investments, while the cash flow on acquisition of an additional shareholding in a subsidiary, i.e. acquiring non-controlling interests, is presented in financing activities. In 2022, the Group made a capital injection of DKK 48m in an associate.

ACCOUNTING ESTIMATES AND JUDGEMENTS

Assessment of control
The classification of entities where Carlsberg controls less than 100% of the voting rights is based on an assessment of the contractual and operational relationship between the parties. This includes assessing the conditions in shareholder agreements, contracts etc.

Consideration is also given to the extent to which each party can govern the financial and operating policies of the entity, how the operation of the entity is designed, and which party possesses the relevant knowledge and competences to operate the entity.

Another factor relevant to this assessment is the extent to which each of the parties can direct the activities and affect the returns, for example by means of rights, reserved matters or casting votes.

Purchase price allocation procedures
For acquisitions of entities, the assets, liabilities and contingent liabilities of the acquiree are recognised using the acquisition method. The most significant assets acquired generally comprise goodwill, brands, property, plant and equipment, receivables and inventories.

No active market exists for the majority of the acquired assets and liabilities, in particular in respect of acquired intangible assets. Accordingly, management makes estimates of the fair value of acquired assets, liabilities and contingent liabilities. Depending on the nature of the item, the determined fair value of an item may be associated with uncertainty and possibly adjusted subsequently.

The unallocated purchase price (positive amount) is recognised in the statement of financial position as goodwill and allocated to the Group's cash-generating units.

Brands
The value of the brands acquired and their expected useful life are assessed based on the individual brand's market position, expected long-term developments in the relevant markets and profitability.

The estimated value includes all future cash flows associated with the brand, including the related value of customer relations etc.

Management determines the useful life based on the brand's relative local, regional and global market strength, market share, and the current and planned marketing efforts that are helping to maintain and increase its value. When the value of a well-established brand is expected to be maintained for an indefinite period in the relevant markets, and these markets are expected to be profitable for a long period, the useful life of the brand is determined to be indefinite.

20240927032O4

SECTION 5.3 (CONTINUED)

ACQUISITIONS AND DISPOSALS

Brands are measured using the relief from royalty method, under which the expected future cash flows are based on key assumptions about expected useful life, royalty rate, growth rate and the theoretical tax effect. A post-tax discount rate is used that reflects the risk-free interest rate with the addition of a risk premium associated with the particular brand. The model and assumptions applied are consistent with those used in impairment testing, and are described in further detail in section 2.2.4.

Customer agreements and portfolios
The value of acquired customer agreements and customer portfolios is assessed based on the local market and trading conditions. For most entities, there is a close relationship between brands and sales. Consumer demand for beer and other beverages drives sales, and therefore the value of a brand is closely linked to consumer demand, while there is no separate value attached to customers (shops, bars etc.), as their choice of products is driven by consumer demand. The relationship between brands and customers is carefully considered so that brands and customer agreements are not both recognised on the basis of the same underlying cash flows.

Property, plant and equipment
The fair value of land and buildings, and standard production and office equipment is based, as far as possible, on the fair value of assets of similar type and condition that may be bought and sold in the open market.

Property, plant and equipment for which there is no reliable evidence of the fair value in the market (in particular breweries, including production equipment) are valued using the depreciated replacement method.

This method is based on the replacement cost of a similar asset with similar functionality and capacity. The calculated replacement cost is then reduced to reflect functional and physical obsolescence. The expected synergies and the user-specific intentions for the expected use of assets are not included in the determination of the fair value.

Completed purchase price allocations
Management believes that the purchase prices for Waterloo Brewing and Jing-A Group's activities, which are accounted for in the consolidated financial statements, reflect the best estimate of the total fair value of these businesses.

The purchase price allocations of the identified assets, liabilities and contingent liabilities were completed within 12 months of the acquisitions. The main revaluation adjustments related to brands, property, plant and equipment, and deferred tax liabilities, which in turn mainly related to brands.

Goodwill
Goodwill related to Waterloo Brewing, DKK 533m, was allocated to the Central & Eastern Europe CGU in line with the allocation of the Group's existing Canadian business. Goodwill related to Jing-A Group, DKK 110m, was allocated to the Asia CGU. The goodwill is not deductible for tax purposes.

Brands
The value of brands was estimated using the Group's principles described above. Brands with a fair value of DKK 164m were recognised and classified as an intangible asset with an indefinite useful life.

Property, plant and equipment
The fair value and expected useful life of the brewery equipment and related buildings of the acquired brewery were determined with assistance from external engineering experts in the brewery industry and resulted in a positive revaluation adjustment of DKK 27m.

Financial impact of acquisitions
In 2023, revenue includes DKK 431m from Waterloo Brewing and Jing-A Group. Had the acquisitions been completed at the beginning of the reporting period, revenue would have included DKK 577m. Profit for the period includes DKK -29m from Waterloo Brewing and Jing-A Group. Had the acquisitions been completed at the beginning of the reporting period, profit for the period would have included DKK -31m.

ACCOUNTING POLICIES

Acquisitions
The acquisition date is the date when the Group effectively obtains control of an acquired subsidiary or significant influence over an associate.

The cost of a business combination comprises the fair value of the consideration agreed upon, including the fair value of any consideration contingent on future events.

In a step acquisition, the Group gains control of an entity in which it already held a shareholding before gaining control. The shareholding held before the step acquisition is remeasured at fair value at the acquisition date and added to the fair value of the consideration paid for the shareholding acquired in the step acquisition and is accounted for as the total cost of the shareholding in the acquired entity. The gain or loss on the remeasurement is recognised in the income statement under special items.

Goodwill and fair value adjustments in connection with the acquisition of an entity are treated as assets and liabilities belonging to the foreign entity and translated into the foreign entity's functional currency at the exchange rate at the transaction date.

The acquired entities' identifiable assets, liabilities and contingent liabilities are measured at fair value at the acquisition date.

Identifiable intangible assets are recognised if they are separable or arise from a contractual right. Deferred tax on revaluations is recognised.

The identifiable assets, liabilities and contingent liabilities on initial recognition at the acquisition date are subsequently adjusted up until 12 months after the acquisition. The effect of the adjustments is recognised in the opening balance of equity, and the comparative figures are restated accordingly if the amount is material.

Changes in estimates of contingent purchase considerations are recognised in the income statement under special items, unless they qualify for recognition directly in equity.

Disposals and loss of control
Gains or losses on the disposal or liquidation of subsidiaries and associates are recognised as the difference between the sales price and the carrying amount of net assets (including goodwill) at the date of disposal or liquidation, and net of foreign exchange adjustments recognised in other comprehensive income, and costs to sell or liquidation expenses.

The shareholding retained after the loss of control of subsidiaries is remeasured at fair value and accounted for as the fair value on initial recognition of a financial asset or the cost of an investment in an associate. Gains or losses on the loss of control of subsidiaries are recognised as the difference between the fair value of the retained shareholding and the carrying amount of the derecognised net assets (including goodwill) at the date of loss of control, and net of foreign exchange adjustments recognised in other comprehensive income.

20240927032O5

SECTION 5.4

CONTINGENT CONSIDERATIONS

Contingent considerations relate to options held by non-controlling interests in subsidiaries to sell their shares to the Group and to deferred payments in the acquisition of entities contingent on market conditions.

At the end of the reporting period, the contingent considerations related to put options on the shares in CSAPL, Brewery Alivaria in Belarus, Jing-A Group in China and a minor craft brewery in Western Europe.

In accordance with the Group's accounting policy, shares subject to put options are consolidated as if the shares had already been acquired. The ownership percentage at which these subsidiaries are consolidated therefore differs from the legal ownership interest held by the Group. Both the legal and the consolidated ownership are stated in section 10.

The carrying amount of contingent considerations is determined in accordance with the terms and conditions agreed with the holders of the options.

Of the contingent considerations, DKK 0.3bn (2022: DKK 0.3bn) is expected to fall due after more than 12 months.

PUT OPTION FOR SHARES IN CARLSBERG SOUTH ASIA PTE LTD (CSAPL)

A liability award was issued by the arbitration tribunal in May 2022. The arbitration tribunal awarded Carlsberg the right to call our partner CSAPL Holdings Pte Ltd's (CSAPLH) shares in CSAPL. Carlsberg immediately invoked its right to begin the call option valuation process, and CSAPLH subsequently exercised its right under the Shareholders' Agreement to begin the put option valuation process.

The put option price was determined as the simple average of two valuations assessed by two independent external valuers, which are internationally recognised accounting firms, one appointed by each shareholder. The put option valuation was released by the valuers in February 2023, stating a value for CSAPLH's shares in CSAPL of USD 744m. CSAPLH subsequently issued a formal put notice to sell its 33% shareholding in CSAPL to the Group at the put option valuation amount. The put option liability recognised in the consolidated financial statements was adjusted to reflect the put option valuation amount received from the valuers, as the acquisition of the shares may be completed at that price.

The put option valuation was referred to arbitration by the Group, as the valuation is considered to have been conducted in breach of the Shareholders' Agreement. An arbitration award is expected to be issued in Q4 2024.

In accordance with the Shareholders' Agreement, the call option awarded to Carlsberg by the arbitration panel must be settled at an amount determined by a valuer appointed by the International Chamber of Commerce. The valuer released the call valuation in July 2023. Carlsberg is satisfied with the valuation outcome and subsequently exercised its call option. The call option will come into effect if the put valuation is invalidated by the arbitration tribunal.

The recognised value of the put option decreased by DKK 169m in 2023 because of changes in the USD exchange rate.

The Group previously called in a loan made to CSAPLH, the loan having become due and payable in full. In January 2022, the Singapore court of appeal finally confirmed that the loan with interest was repayable to Carlsberg in full, totalling DKK 354m. The loan had not been repaid as of 31 December 2023.

Contingent considerations

DKK million	2023	2022
Contingent considerations at 1 January	5,577	4,254
Additions	23	-
Transfer to discontinued operations	-	-13
Fair value adjustments	-155	1,336
Contingent considerations at 31 December	**5,445**	**5,577**

ACCOUNTING ESTIMATES AND JUDGEMENTS

The fair value of contingent considerations linked to put options is measured on the basis of level 3 input consisting of non-observable data, such as entity-specific discount rates and industry-specific expectations of price developments, and generally accepted valuation methods, including discounted cash flows and multiples.

ACCOUNTING POLICIES

On acquisition of non-controlling interests, i.e. subsequent to the Group obtaining control, acquired net assets are not measured at fair value. The difference between the cost and the non-controlling interests' share of the total carrying amount, including goodwill, is transferred from the non-controlling interests' share of equity to equity attributable to shareholders in Carlsberg A/S. The amount deducted cannot exceed the non-controlling interests' share of equity immediately before the transaction.

On disposal of shareholdings to non-controlling interests, the difference between the sales price and the share of the total carrying amount, including goodwill acquired by the non-controlling interests, is transferred from equity attributable to shareholders in Carlsberg A/S to the non-controlling interests' share of equity.

Fair value adjustments of put options granted to non-controlling interests are recognised directly in the statement of changes in equity.

Other contingent considerations (earn-outs) that are not linked to a future transfer of additional shareholdings are measured in accordance with the terms of the contract with the seller. The revaluation of such contingent considerations is recognised in special items.

20240927032O6

SECTION 5.5

ASSOCIATES

Investments in associates mainly include the businesses in Portugal (60%), Myanmar (61%), Gorkha Brewery in Nepal (90%), Carlsberg Byen in Denmark (25%) and four associates in China (50%). The total investment in these associates amounted to DKK 4,340m at 31 December 2023 (2022: DKK 4,307m).

The Group's ownership of Super Bock Group, Portugal, is 60%. Nevertheless, Super Bock remains an associate of the Group due to the ownership structure. Please refer to section 10 for further details.

Disputes with the local non-controlling shareholder of Gorkha Brewery, Nepal, prevent the Group from exercising its rights as a controlling shareholder despite the legal ownership of 90%. Therefore, it was reclassified as an associate and recognised at fair value in December 2021.

Despite the 61% legal ownership share in Myanmar Carlsberg, the entity is classified as an associate due to the structure of the agreement with the partner and the business environment in the country.

In Q4 2023, Carlsberg gained control of the associate Jing-A Group through a step acquisition, cf. section 5.3.

In 2023, the Group recognised a write-down of a minor associate in Cambodia of DKK 49m, cf. section 2.2.

For associates in which the Group holds an ownership interest of less than 20% and participates in the management of the associate, the Group is considered to be exercising significant influence. None of the associates are material to the Group.

Fair value of investment in listed associates

DKK million	2023	2022
The Lion Brewery Ceylon, Sri Lanka	384	214

ACCOUNTING POLICIES

Investments in associates are recognised according to the equity method, which entails measurement at cost and adjustment for the Group's share of the profit or loss and other comprehensive income of the associate after the date of acquisition. The share of the result must be calculated in accordance with the Group's accounting policies. The proportionate share of unrealised intra-group profits and losses is eliminated. Investments in associates with negative net asset values are measured at DKK 0.

If the Group has a legal or constructive obligation to cover a deficit in the associate, the deficit is recognised under provisions. Any amounts owed by associates are written down to the extent that the amount owed is deemed irrecoverable.

Key figures for associates

DKK million	Carlsberg Group share			
2023	Profit after tax	Other comprehensive income	Total comprehensive income	Investments in associates
Total	581	-	581	5,437
2022				
Total	901	-	901	5,523

202409270320 7

SECTION 6

TAX

18.9%

TAX RATE

Total tax is impacted by non-recurring items. Excluding non-recurring tax impacts the effective tax rate would have been 20.8% (2022: 20.5%).

SECTION 6.1

INCOME TAX

The nominal weighted tax rate for the Group is calculated as the domestic tax rates applicable to profits in the entities as a proportion of each entity's share of the Group's profit before tax.

The Group's total tax cost was DKK 110m less than the nominal weighted tax (2022: DKK 389m). Compared with the nominal weighted tax expense, the total tax expense was impacted by tax incentives related to e.g. R&D incentives, non-deductible expenses and increased withholding tax expenses, resulting in an effective tax rate of 18.9% (2022: 17.9%).

The impact from non-recurring items primarily comprised movement in tax on special items, change in recognised tax assets and liabilities and the deconsolidation of the Russian Business. Excluding non-recurring items and tax thereon, the effective tax rate would have been 20.8% (2022: 20.5%).

The Carlsberg Group is not expected to be materially impacted by the OECD/EU Pillar Two Model Rules and their local implementation. Most countries where the Group has operations impose taxation in excess of 15%, and the remainder are expected to increase the tax rate such that all markets not covered by the transitional safe harbour rules are still expected to show an effective tax rate in excess of 15%.

As such, these rules are not expected to result in either materially increased tax payments or a change to the Group's effective tax rate.

ACCOUNTING POLICIES

Income tax comprises current tax and changes in deferred tax for the year, including changes as a result of a change in the tax rate. The tax expense relating to the profit/loss for the year is recognised in the income statement, while the tax expense relating to items recognised in other comprehensive income is recognised in the statement of comprehensive income.

If the Group obtains a tax deduction on computation of the taxable income in Denmark or in foreign jurisdictions as a result of share-based payment programmes, this tax effect of the programmes is recognised in tax on profit/loss for the year.

202409270320 9

SECTION 6.2

TAX ASSETS AND LIABILITIES

Of the total deferred tax assets recognised, DKK 249m (2022: DKK 285m) relates to tax losses carried forward, the utilisation of which depends on future positive taxable income exceeding the realised deferred tax liabilities. It is management's opinion that these tax losses carried forward can be utilised within the foreseeable future.

Tax assets not recognised of DKK 1,194m (2022: DKK 1,123m) primarily relate to tax losses that are not expected to be utilised in the foreseeable future. Of these, tax losses that will not expire amounted to DKK 922m (2022: DKK 932m). Tax losses of DKK 287m (2022: DKK 342m) can only be carried forward for a limited number of years.

No deferred tax (2022: DKK 23m) has been recognised in respect of future dividend distributions. No deferred tax liability was recognised from the loss of control and de-consolidation of the discontinued operation in Russia.

Distribution of reserves for other subsidiaries will not trigger a significant tax liability based on current tax legislation.

Changes in deferred tax and non-current tax payables recognised in the income statement for the year amounted to DKK 164m (2022: DKK 240m).

ACCOUNTING ESTIMATES AND JUDGEMENTS

The Group recognises deferred tax assets, including the expected tax value of tax loss carried forward, if management assesses it can be offset against positive taxable income in the foreseeable future. This assessment is made annually and based on budgets and business plans for the coming years, including planned commercial initiatives under our control.

Carlsberg operates in a large number of tax jurisdictions where tax legislation is highly complex and subject to interpretation. Management assesses uncertain tax positions to ensure recognition and measurement of tax assets and liabilities.

ACCOUNTING POLICIES

Current tax payable and receivable are recognised in the statement of financial position as tax for the year, adjusted for tax related to prior years and tax paid.

Deferred tax on all temporary differences between the carrying amount and the tax base of assets and liabilities is measured using the balance sheet liability method. However, deferred tax is not recognised on temporary differences relating to goodwill that is not deductible for tax purposes or on office premises and other items where temporary differences, apart from business combinations, arise at the acquisition date without affecting either profit/loss for the year or taxable income.

Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on the planned use of the asset or settlement of the liability.

Deferred tax assets, related to tax loss carried forward, are recognised at the expected value of their utilisation, or as a set-off against deferred tax liabilities in the same legal tax entity and jurisdiction.

Deferred tax assets and tax liabilities are offset if the entity has a legally enforceable right to offset current tax liabilities and tax assets or intends either to settle current tax liabilities and tax assets or to realise the assets and settle the liabilities simultaneously. Deferred tax assets are recognised only to the extent that it is probable that the assets will be utilised.

Deferred tax is measured according to the tax rules at the reporting date and at the tax rates applicable when the deferred tax is expected to materialise as current tax. The change in deferred tax as a result of changes in tax rates is recognised in the income statement. Changes to deferred tax on items recognised in other comprehensive income are, however, recognised in other comprehensive income. Carlsberg has applied the exception to recognise and disclose information about deferred tax in the OECD/EU Pillar Two Model Rules and their local implementation.

20240927032111

SECTION 7.2

REMUNERATION

The remuneration of the Supervisory Board, the executive directors and key management personnel is described in detail in the Remuneration Report.

The remuneration of the executive directors increased, driven by compensation paid to Jacob Aarup-Andersen and Ulrica Fearn for forfeited long-term incentive awards from their previous employers. The remuneration of key management personnel declined in 2023, mainly due to lower accruals for the annual cash bonus.

In 2023, the Supervisory Board received total remuneration of DKK 10.31m (2022: DKK 10.36m), comprising fixed salary only.

Remuneration

Total cash and non-cash	**52.4**	**58.3**	**69.9**	**74.6**	**82.6**

[1] Executive directors consist of Jacob Aarup-Andersen and Ulrica Fearn. Cees 't Hart resigned as CEO on 31 August 2023, but was remunerated for an additional two months where he supported the company in an advisory capacity.

[2] As compensation for long-term incentive awards forfeited from their previous employers, Jacob Aarup-Andersen and Ulrica Fearn were paid DKK 12m and DKK 0.9m respectively, amounts that were used for the purchase of Carlsberg shares. Jacob Aarup-Andersen was also added to the running 2022-2024 and 2023-2025 long-term incentive schemes. Further information can be found in the Remuneration Report.

All elements except for share-based payments are classified as short-term employee benefits. Share-based payments are classified as long-term employee benefits.

ACCOUNTING POLICIES

Staff costs are recognised in the financial year in which the employee renders the related service.

The cost of share-based payments, which is expensed over the vesting period of the programme according to the service conditions, is recognised in staff costs and provisions or equity, depending on how the programme is settled with the employees.

Key management personnel comprise the Executive Committee, excluding the executive directors. Other management personnel included in the share-based payment schemes comprise vice presidents and other key employees in central functions as well as the management of significant subsidiaries.

SECTION 7.3

SHARE-BASED PAYMENTS

The Group has set up share-based incentive programmes to attract, retain and motivate the Group's executive directors and other levels of management personnel, and to align their interests with those of the shareholders. There is no share-based remuneration of the Supervisory Board.

The Group has one type of share-based payment known as performance shares.

Entitlement to performance shares requires fulfilment of service in the vesting period (3 years) but does not have any exercise price. Instead, the shares are transferred to the recipients based on achievement of the KPIs attached to the shares.

PERFORMANCE SHARES

The number of performance shares granted is the maximum number of performance shares that can vest. The number of shares outstanding at the end of the period is the number expected to vest, based on the extent to which the vesting conditions are expected to be met. The number of shares expected to vest is revised on a regular basis.

In 2023, 157 employees (2022: 160 employees) across the Group were awarded performance shares.

For the 2023 grant, vesting is subject to achievement of five KPIs: total shareholder return, adjusted EPS growth, organic revenue growth, growth in ROIC and achievement of ESG targets. For prior grants yet to vest, vesting is subject to four KPIs: total shareholder return, adjusted EPS growth, organic revenue growth and growth in ROIC. The average share price at vesting was DKK 964 (2022: DKK 1,086). The average contractual life at the end of 2023 was 1.3 years (2022: 1.2 years).

Key information

	Performance shares	
	2023	2022
Assumptions		
Expected volatility	23.0%	24.0%
Risk-free interest rate	2.8%	1.3%
Expected dividend yield	0.0/2.7%	0.0/2.4%
Expected life, years	3.0	3.0
Fair value at measurement date	DKK 570-989	DKK 404-987

ACCOUNTING ESTIMATES AND JUDGEMENTS

The volatility of performance shares is based on the historical volatility of the price of Carlsberg A/S' class B shares over the previous three years. For share options, the volatility is based on similar data over the previous eight years.

The share price and the exercise price of share options are calculated as the average price of Carlsberg A/S' class B shares on Nasdaq Copenhagen during the first five trading days after publication of Carlsberg A/S' financial statements.

The risk-free interest rate is based on Danish government bonds of the relevant maturity. The expected life is based on exercise at the end of the exercise period.

ACCOUNTING POLICIES

The fair value of granted performance shares is estimated using a stochastic (quasi-Monte Carlo) valuation model of market conditions and a Black-Scholes call option-pricing model of non-market and service conditions, taking into account the terms and conditions upon which the performance shares were granted. The market condition is based on a ranking of the total shareholder return of Carlsberg A/S' class B shares versus a peer group of publicly traded companies in the alcoholic beverage sector.

On initial recognition of performance shares, the number of awards expected to vest is estimated and subsequently revised for any changes. Accordingly, recognition is based on the number of awards that ultimately vest.

20240927032213

SECTION 7.4

RETIREMENT BENEFIT OBLIGATIONS AND SIMILAR OBLIGATIONS

A number of employees are covered by retirement benefit plans. The nature of the plans varies depending on labour market conditions in the individual countries. Benefits are generally based on wages/salaries and length of employment.

Retirement benefit obligations cover both present and future retirees' entitlement to retirement benefits.

DEFINED CONTRIBUTION PLANS

A defined contribution plan is a post-employment benefit plan under which the Group pays contributions to a separate independent company. The Group's legal or constructive obligation is limited to the contributions.

In 2023, 71% (2022: 68%) of the Group's retirement benefit costs related to defined contribution plans. The expense recognised in relation to these contributions was DKK 417m (2022: DKK 391m).

DEFINED BENEFIT PLANS

A defined benefit plan guarantees employees a certain level of pension benefits for life. The pension is based on seniority and salary at the time of retirement. The Group assumes the risk associated with future developments in interest rates, inflation, mortality and disability etc.

The most significant plans are in the UK and Switzerland, representing 42% and 46% respectively (2022: 42% and 44%), while the eurozone countries represented 5% (2022: 5%) of the gross obligation at 31 December 2023.

The majority of the obligations are funded, with assets placed in independent pension funds, mainly in Switzerland and the UK. Most of the plan assets are quoted investments. In some countries, primarily Germany, Sweden and China, the obligation is unfunded. The retirement benefit obligations for these unfunded plans amounted to DKK 1,134m (2022: DKK 1,180m) or 11% (2022: 12%) of the gross obligation.

In 2023, the Group's obligation, net, on defined benefit plans decreased by DKK 170m compared with 2022. Changes in financial assumptions impacted the obligation; in particular in the UK (DKK 86m) and in Switzerland (DKK 250m). The increase in obligation in Switzerland was partly offset by the effect of the asset ceiling of DKK -204m. Moreover, foreign exchange adjustments affected the net obligation by DKK -68m.

[1] The total return on plan assets for the year amounted to DKK 367m (2022: DKK -2,637m).

202409270321 4

SECTION 7.4 (CONTINUED)

RETIREMENT BENEFIT OBLIGATIONS AND SIMILAR OBLIGATIONS

The Group has a three-yearly valuation process to agree on any future funding arrangements in the UK. The most recent one was completed in 2022. The Group expects to contribute DKK 104m (2022: DKK 109m) to the plan assets in 2024, which is in line with the agreed funding arrangement, under which the Group will contribute DKK 311m up to 2026. Plan assets do not include shares in the Group or properties used by Group companies.

The actuarial gain and foreign exchange adjustment recognised in other comprehensive income amounted to DKK 27m (2022: DKK 543m), comprising a foreign exchange adjustment of DKK 48m and a net actuarial gain of DKK 73m.

The accumulated actuarial loss and foreign exchange adjustment recognised at 31 December 2023 was DKK 2,345m (2022: DKK 2,322m), with actuarial net losses of DKK 2,639m (2022: DKK 2,566m).

Assumptions applied
In 2023, the discount rate used for the defined benefit plans in Western Europe was determined by reference to market yields on high-quality corporate bonds. In the Asian countries, where no deep market in high-quality corporate bonds exists, the discount rate was determined by reference to market yields on government bonds.

The mortality tables used in Carlsberg UK are S3PMA/S3PFA_M tables for post-retirement, while the Swiss entities use BVG 2020 for valuation of their retirement benefit obligations.

Sensitivity analysis
The sensitivity analysis is based on a change in one of the assumptions, while all other assumptions remain constant. This is highly unlikely, however, as a change in one assumption would probably affect other assumptions as well. When calculating the obligation on the basis of a changed assumption, the same method has been applied as when calculating the defined benefit obligation.

Expected maturity and duration
Defined benefit obligations are primarily expected to mature after five years. The expected duration of the obligations at year-end 2023 was 12 years. The duration is calculated using a weighted average of the duration divided by the obligation.

Breakdown of plan assets

	2023		2022

202409270321S

SECTION 7.4 (CONTINUED)

RETIREMENT BENEFIT OBLIGATIONS AND SIMILAR OBLIGATIONS

ACCOUNTING ESTIMATES AND JUDGEMENTS

The value of the Group's defined benefit plans is based on valuations from external actuaries. The valuation is based on a number of actuarial assumptions, including discount rates, expected growth in wages and salaries, mortality and retirement benefits.

The present value of the net obligation is calculated by using the projected unit credit method and discounting the defined benefit plan by a discount rate for each country. The discount rate is determined by reference to market yields on high-quality corporate bonds. Where high-quality corporate bonds are not available, the market yields on government bonds are used instead.

Mortality assumptions are based on the Group entity's best estimate of the mortality of plan members during and after employment and include expected changes in mortality. Due to the broad range of entities comprising the retirement benefit obligation, several different mortality tables are used to calculate the future retirement benefit obligation.

ACCOUNTING POLICIES

Contributions paid to a **defined contribution plan** are recognised in the income statement in the period during which services are rendered by employees. Any contributions outstanding are recognised in the statement of financial position as other liabilities.

The Group's net obligation recognised in the statement of financial position in respect of **defined benefit plans** is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets calculated by a qualified actuary.

The present value is determined separately for each plan by discounting the estimated future benefits that employees have earned in return for their service in the current and prior years.

The costs of a defined benefit plan are recognised in the income statement and include service costs, net interest based on actuarial estimates and financial expectations.

Service costs comprise **current service cost and past service cost. Current service cost** is the increase in the present value of the defined benefit obligation resulting from employee services in the current period. **Past service cost** is the change in the present value of the obligation regarding employee services in prior years that arises from a plan amendment or a curtailment. Past service costs are recognised immediately, provided employees have already earned the changed benefits.

Realised gains and losses on curtailment or settlement are recognised under staff costs.

Interest on retirement benefit obligations and the interest on return on plan assets are recognised as financial income or financial expenses.

Differences between the development in retirement benefit assets and liabilities and realised amounts at year-end are designated as actuarial gains or losses and recognised in other comprehensive income. As they will never be reclassified to the income statement, they are included in retained earnings.

If a retirement benefit plan constitutes a net asset, the asset is recognised only if it offsets future refunds from the plan or will lead to reduced future payments to the plan.

Realised gains and losses on the adjustment of retirement benefit obligations as a result of termination of a significant number of positions in connection with restructurings are recognised under special items.

SECTION 8

OTHER DISCLOSURE REQUIREMENTS

7,425m

Profit attributable to shareholders in Carlsberg A/S, adjusted for special items after tax and loss from the discontinued operations (DKK).

54.6

Earnings per share, adjusted for special items after tax, continuing operations (DKK).

SECTION 8.1

EARNINGS PER SHARE

During 2023, the Group repurchased a total of 3.3 million B shares under the share buy-back programmes. The share buy-back programmes decreased the average number of shares by 3.7 million, which in turn increased adjusted earnings per share by DKK 1.5. The adjustment for special items after tax increased adjusted earnings per share by DKK 3.5.

For all share-based incentive instruments, the average market price of Carlsberg B shares, including the fair value of services to be received in the future, exceeded the exercise price and the fair value at the grant date. As a result, diluted earnings per share included all share-based incentive instruments that could potentially dilute earnings in the future.

Fees for services other than the statutory audit of the financial statements provided by PricewaterhouseCoopers Statsautoriseret Revisionspartnerselskab, Denmark, amounted to DKK 2m (2022: DKK 1m). This includes other assurance opinions, agreed-upon procedures as well as tax, accounting, and compliance related services.

SECTION 8.3

RELATED PARTIES

RELATED PARTIES EXERCISING CONTROL
The Carlsberg Foundation, H.C. Andersens Boulevard 35, 1553 Copenhagen V, Denmark, exercises control over Carlsberg A/S. The Foundation holds 29.4% of the shares and 76.7% of the voting power in Carlsberg A/S, excluding treasury shares.

The following transactions took place between the Carlsberg Foundation and the Group in 2023:

The Carlsberg Foundation received a dividend of DKK 27.00 per share from Carlsberg A/S, the same as every other shareholder. The dividend received amounted to DKK 1,115m.

The Carlsberg Foundation participates in the share buy-back programme on a 30.33% pro rata basis. In 2023, the Carlsberg Foundation sold B shares to Carlsberg A/S at a fair value of DKK 971m. The number of A shares held by the Foundation remains unchanged, explaining why the ownership share increased to 29.4% at 31 December 2023 (2022: 29.2%). The shares were sold at the average weekly share buy-back market prices.

FUNDING AND GRANTS
Carlsberg A/S received statutory grants and further funding from the Carlsberg Foundation, in total DKK 86m, for the basic research and development activities at the Carlsberg Research Laboratory (2022: DKK 69m). Of the total grants, DKK 18m (2022: DKK 22m) was deferred to be used for research projects in the future.

In 2023, the Carlsberg Foundation contributed an additional amount of DKK 13m to Home of Carlsberg A/S to support the rebuilding of the Carlsberg Visitor Centre.

OTHER ACTIVITIES
Home of Carlsberg A/S, a 100%-owned subsidiary of the Carlsberg Group, hosted and administered events at the Carlsberg Academy, which is owned by the Carlsberg Foundation, at a value of DKK 1m.

The Group's delivery of beer and soft drinks to the Carlsberg Foundation is charged at ordinary listing price minus a discount. In 2023, the deliveries amounted to DKK 0.1m (total sales of goods) (2022: DKK 0.3m).

Carlsberg A/S leases parking spaces from the Carlsberg Foundation to provide parking for employees at the Carlsberg Research Laboratory and Visit Carlsberg. Furthermore, Carlsberg Breweries A/S leases storage facilities in the researcher apartments in Carlsberg Byen. These lease agreements are with subsidiaries of the Foundation. The two annual lease payments amount to DKK 0.2m and the leases are on market terms.

It is estimated that the benefit to the Carlsberg Group corresponds to the value of the other activities provided to the Carlsberg Foundation, which in turn corresponds to what each party would have had to pay to have the same deliverables provided by external parties.

OTHER RELATED PARTIES
Related parties also comprise Carlsberg A/S' Supervisory Board and Executive Board, their close family members and companies in which these persons have significant influence. During the year, there were no transactions between these parties and the Group, except for remuneration as disclosed in section 7.

Related party transactions with associates recognised in the income statement and the statement of financial position

SECTION 8.4

EVENTS AFTER THE REPORTING PERIOD

Apart from the events recognised or disclosed in the consolidated financial statements, no events have occurred after the reporting period of importance to the consolidated financial statements.

20240927032218

SECTION 9

BASIS FOR PREPARATION

SECTION 9.1

SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The consolidated financial statements cover the period 1 January to 31 December. In preparing the consolidated financial statements, management makes various accounting estimates and judgements that form the basis of presentation, recognition and measurement of the Group's assets, liabilities, income and expenses.

Other estimates and judgements made are based on historical experience and other factors that management assesses to be reliable, but that, by their nature, are associated with uncertainty and unpredictability and may therefore prove incomplete or incorrect.

Areas involving significant estimates and judgements:

Receivables	Section 1
Impairment testing, useful life and residual value	Section 2
Restructurings, provisions and contingencies	Section 3
Discontinued operations	Section 5
Acquisitions and disposals, including contingent considerations	Section 5
Tax assets and liabilities	Section 6
Defined benefit obligations	Section 7

SECTION 9.2

GENERAL ACCOUNTING POLICIES

The Group's consolidated financial statements for 2023 have been prepared in accordance with IFRS Accounting Standards as adopted by the EU and further requirements in the Danish Financial Statements Act.

The consolidated financial statements are presented in Danish kroner (DKK), which is the Parent Company's functional currency, and all values are rounded to the nearest DKK million, except when otherwise stated.

The accounting policies set out below have been used consistently in respect of the financial year and the comparative figures.

DEFINING MATERIALITY

Significant items are presented individually in the financial statements as required by IAS 1. Other items that are considered relevant to stakeholders and necessary for an understanding of the Group's business model, including research, real estate and geographical diversity, are also presented individually in the financial statements.

The consolidated financial statements are prepared as a consolidation of the financial statements of the Parent Company, Carlsberg A/S, and its subsidiaries according to the Group's accounting policies.

Subsidiaries are all the entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity.

Entities over which the Group exercises significant influence, but which it does not control, are considered associates. Significant influence is generally obtained by direct or indirect ownership or control of less than 50% of the voting rights or participation in the management of the company. The assessment of whether Carlsberg A/S exercises control or significant influence includes potential voting rights exercisable at the reporting date. Entities that by agreement are managed jointly with one or more other parties are considered joint ventures.

On consolidation, intra-group income and expenses, shareholdings, balances and dividends, and realised and unrealised gains are eliminated. Unrealised gains on transactions

202409270321 9

SECTION 9.2 (CONTINUED)

GENERAL ACCOUNTING POLICIES

with associates are eliminated in proportion to the Group's ownership share of the entity.

Unrealised losses are eliminated in the same way as unrealised gains to the extent that impairment has not taken place.

The accounting items of subsidiaries are included in full in the consolidated financial statements. Non-controlling interests' share of subsidiaries' profit/loss for the year and of equity is included in the Group's profit/loss and equity but is disclosed separately. Entities acquired or established during the year are recognised in the consolidated financial statements from the date of acquisition or formation. Entities disposed of or discontinued are recognised in the consolidated income statement until the date of disposal or discontinuation. The comparative figures are not restated.

FOREIGN CURRENCY TRANSLATION

A functional currency is determined for each of the reporting entities in the Group. The functional currency is the primary currency used for the reporting entity's operations. Transactions denominated in currencies other than the functional currency are considered transactions denominated in foreign currencies.

On initial recognition, transactions denominated in foreign currencies are translated to the functional currency at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised as financial income or expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the reporting date. The difference between the exchange rates at the reporting date and at the date at which the receivable or payable arose or the exchange rate in the latest consolidated financial statements is recognised as financial income or expenses.

On recognition of entities with a functional currency other than the presentation currency, the income statement and statement of cash flows are translated at the exchange rates at the transaction date, and the statement of financial position items are translated at the exchange rates at the reporting date. Foreign exchange differences arising on translation of the opening balance of equity, and of the income statement on the reporting date, are recognised in other comprehensive income and attributed to a separate translation reserve in equity. Foreign exchange differences arising on the translation of the proportionate share of associates are likewise recognised in other comprehensive income.

Foreign exchange adjustment of balances with entities that are considered part of the investment in the entity is recognised in other comprehensive income. Correspondingly, foreign exchange gains and losses on the part of loans and derivative financial instruments that are designated as hedges of investments in foreign entities, and that effectively hedge against corresponding foreign exchange gains and losses on the investment in the entity, are also recognised in other comprehensive income and attributed to a separate translation reserve in equity.

When the gain or loss from a complete or partial disposal of an entity is recognised, the share of the cumulative exchange differences recognised in other comprehensive income is recognised in the income statement. The same approach is adopted on repayment of balances that constitute part of the net investment in the entity.

INCOME STATEMENT

The presentation of the Group's income statement is based on the internal reporting structure, as IFRS Accounting Standards do not provide a specific disclosure requirement.

Special items are not directly attributable to ordinary operating activities and are shown separately in order to facilitate a better understanding of the Group's financial performance.

CASH FLOW

Cash flow is calculated using the indirect method and is based on operating profit before special items adjusted for depreciation, amortisation and impairment losses. Cash flow cannot be derived directly from the statement of financial position and income statement.

FINANCIAL RATIOS AND NON-IFRS FINANCIAL MEASURES

The Group uses certain additional financial measures to provide management, investors and investment analysts with additional measures to evaluate and analyse the Company's results. These non-IFRS financial measures are defined and calculated by the Group and therefore may not be comparable with other companies' measures.

The non-IFRS financial measures disclosed in the Annual Report are:

- Earnings per share, adjusted, and payout ratio, adjusted
- Organic development

The Danish Finance Society does not acknowledge use of special items and states that adjustments of tax should be based on the marginal tax rate. When calculating financial measures, the Group uses operating profit before special items as well as the effective tax rate for measures adjusted for tax.

Other financial ratios are calculated in accordance with the Danish Finance Society's online guidelines for the calculation of financial ratios, "Recommendations and Financial Ratios", unless specifically stated.

SECTION 9.2 (CONTINUED)

GENERAL ACCOUNTING POLICIES

9.2.1 REPORTING UNDER THE ESEF REGULATION

The Commission Delegated Regulation (EU) 2019/815 on the European Single Electronic Format (ESEF Regulation) has introduced a single electronic reporting format for the annual financial reports of issuers with securities listed on EU-regulated markets.

The combination of XHTML format and iXBRL tags enables the annual financial reports to be read by both humans and machines, thus enhancing accessibility, analysis and comparability of the information included in the annual financial reports.

The Group's iXBRL tags have been prepared in accordance with the ESEF taxonomy, which is included in the ESEF Regulation and has been developed based on the IFRS taxonomy published by the IFRS Foundation.

The line items in the consolidated financial statements are tagged to elements in the ESEF taxonomy. For financial line items that are not directly defined in the ESEF taxonomy, an extension to the taxonomy has been created. Extensions are anchored to elements in the ESEF taxonomy, except for extensions that are subtotals.

The annual report submitted to the Danish Financial Supervisory Authority (the Officially Appointed Mechanism) consists of the XHTML document together with the technical files, all of which are included in the ZIP file Carlsberg-2023-12-31-en.zip.

Key definitions

XHTML (eXtensible HyperText Markup Language) is a text-based language used to structure and mark up content such as text, images and hyperlinks in documents that are displayed in a web browser.

iXBRL tags (or Inline XBRL tags) are hidden metainformation embedded in the source code of an XHTML document that enables the conversion of XHTML-formatted information into a machine-readable XBRL data record using appropriate software.

A financial reporting taxonomy is an electronic dictionary of business reporting elements used to report business data. A taxonomy element is an element defined in a taxonomy that is used for the machine-readable labelling of information in an XBRL data record.

SECTION 9.2 (CONTINUED)

GENERAL ACCOUNTING POLICIES

Glossary and calculation of key figures and financial ratios disclosed in the Annual Report

FINANCIAL RATIOS	
Gross margin	Gross profit as a percentage of revenue.
EBITDA margin[1]	Operating profit before depreciation, amortisation and impairment losses as a percentage of revenue.
Operating margin	Operating profit before special items[1] as a percentage of revenue.
Return on invested capital (ROIC)	Operating profit before special items[1] adjusted for tax as a percentage of average invested capital[2] calculated as a 12-month rolling average (MAT).
Return on invested capital excluding goodwill (ROIC excl. goodwill)	Operating profit before special items[1] adjusted for tax as a percentage of average invested capital[2] excluding goodwill calculated as a 12-month rolling average (MAT).
Effective tax rate[1]	Income tax as a percentage of profit before tax.
NIBD/EBITDA[1]	Net interest-bearing debt[3] divided by operating profit before depreciation, amortisation and impairment losses.

STOCK MARKET RATIOS	
Earnings per share (EPS)	Profit for the period, excluding non-controlling interests, divided by the average number of shares.
Earnings per share, diluted (EPS-D)	Profit for the period, excluding non-controlling interests, divided by the average number of shares, fully diluted for share options and performance shares in the money.
Earnings per share, adjusted (EPS-A)	Profit for the period adjusted for special items after tax[1], excluding non-controlling interests and special items after tax in the discontinued operations, divided by the average number of shares.
EPS-A, continuing operations	Profit for the period adjusted for special items after tax[1], excluding non-controlling interests and loss from the discontinued operations, divided by the average number of shares.
Free cash flow per share (FCFPS)[1]	Free cash flow[4] divided by the average number of shares, fully diluted for share options and performance shares in the money.

STOCK MARKET RATIOS (CONTINUED)	
Payout ratio	Proposed dividend for the year as a percentage of consolidated profit, excluding non-controlling interests.
Payout ratio, adjusted	Proposed dividend for the year on number of shares at year-end as a percentage of consolidated profit, adjusted for special items after tax[1], excluding non-controlling interests.
Market capitalisation	Number of shares at year-end multiplied by the share price.
Average number of issued shares	Number of issued shares as an average for the year.
Average number of shares	Number of issued shares, excluding treasury shares, as an average for the year.
Number of shares at year-end	Total number of issued shares, excluding treasury shares, at year-end.

GLOSSARY	
EBITDA[1]	Operating profit before depreciation, amortisation and impairment losses.
Free cash flow[4]	Cash flow from operating activities less cash flow from investing activities.
Leverage ratio[1]	NIBD/EBITDA.
NCI	Non-controlling interests.
OCI	Other comprehensive income.
Off-trade	Sale of beverages for consumption off the premises (e.g. retailers).
On-trade	Sale of beverages for consumption on the premises (e.g. restaurants, hotels and bars).
Operating profit	Operating profit before special items[1].
Organic development[1]	Measure of growth excluding the impact of acquisitions, disposals and foreign exchange from year-on-year comparisons.
Volumes[1]	The Group's sale of beverages in consolidated entities and sale of the Group's products under licence agreements.

[1] This key figure, ratio or elements thereof are not defined or deviate from the definitions of the Danish Finance Society.

[2] The calculation of invested capital is specified in section 2.1.

[3] The calculation of net interest-bearing debt is specified in section 4.3.

[4] The calculation of free cash flow is specified in the statement of cash flows.

202409270322

SECTION 9.3

CHANGES IN ACCOUNTING POLICIES

CHANGED ACCOUNTING POLICIES AND CLASSIFICATION IN THE ANNUAL REPORT 2023

The Annual Report 2023 has been prepared using the same accounting policies for recognition and measurement as those applied to the consolidated financial statements for 2022, except for the following Amendments that were adopted as of 1 January 2023:

- Amendment to IAS 1 "Presentation of Financial Statements and IFRS Practice Statement 2: Disclosure of Accounting Policies"
- Amendment to IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates"
- Amendments to IAS 12 "Income Taxes: Deferred Tax related to Assets and Liabilities arising from a Single Transaction"
- Amendments to IAS 12 "Income Taxes: International Tax Reform - Pillar Two Model Rules"
- Amendments to IFRS 17 "Insurance Contracts" and "Initial application of IFRS 17" and IFRS 9 "Comparative Information"

These Amendments cover areas that are not material and/or relevant for the Group.

SECTION 9.4

NEW LEGISLATION

NEW AND AMENDED IFRS ACCOUNTING STANDARDS

The following Amendments to IFRS Accounting Standards became effective as of 1 January 2024:

- Amendments to IAS 1 "Presentation of Financial Statements: Classification of Liabilities as Current or Non-current" and "Classification of Liabilities as Current or Non-current - Deferral of Effective Date" and "Non-current Liabilities with Covenants"
- Amendment to IFRS 16 "Leases: Lease Liability in a Sale and Leaseback"

These Amendments are not expected to have any significant impact on the financials or the Group's accounting policies, as they cover areas that are not material and/or relevant for the Group.

NEW AND AMENDED IFRS ACCOUNTING STANDARDS AND INTERPRETATIONS NOT YET ADOPTED BY THE EU

The following Amendments, which will become effective in future years, have been issued but not yet adopted by the EU:

- Amendment to IAS 21 "The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability"
- Supplier Finance Arrangements: Amendment to IAS 7 "Statement of Cash Flows" and IFRS 7 "Financial Instruments: Disclosures".

The Amendments are not mandatory for the financial reporting for 2023. The Group expects to adopt the Amendments when they become mandatory.

202409270322 3

SECTION 9.5

NEW SEGMENTATION 2024

The regional structure of the Group changed as of 1 January 2024, with the aim of rebalancing the regions in terms of size and number of business units.

IFRS 8 requires that an entity discloses information about its operating segments, including profit and loss for each reportable segment. These segment disclosures should follow the "management approach", meaning they should be the same segments as are regularly reported to management.

The disclosure in the Annual Report follows the same regional segmentation as was used in the internal reporting to the Executive Committee throughout 2023.

As the management structure was unchanged during 2023, the segmentation used in the Annual Report 2023 continues without any changes compared with 2022.

The segmentation changed as of 1 January 2024, when the new management structure took effect. To provide transparency, it has been decided to disclose the effect of the new segmentation had it become effective at 1 January 2023 and as it will be disclosed in the comparative figures for 2023 in the Annual Report 2024.

Effect of the new segmentation

As a result of the new segmentation, the entities in India and Nepal will move from the Asia region to Central & Eastern Europe. At the same time, Carlsberg Shared Services will move from Not allocated to Western Europe.

Central & Eastern Europe will then be renamed Central & Eastern Europe and India to better reflect its new composition.

New segmentation

	2023							
	Reported				Restated			
DKK million	Western Europe	Asia	Central & Eastern Europe	Not allocated	Western Europe	Asia	Central & Eastern Europe and India	Not allocated

SECTION 1

SUBSIDIARIES AND RELATED PARTIES

SECTION 1.1

INVESTMENTS IN SUBSIDIARIES

Share-based payments to employees in subsidiaries comprise exercised as well as outstanding share-based incentive instruments.

Investments in subsidiaries

DKK million	2023	2022
Cost		
Cost at 1 January	30,080	34,426
Capital reductions	-3,000	-4,535
Share-based payments to employees, net	191	189
Cost at 31 December	**27,271**	**30,080**
Carrying amount at 31 December	**27,271**	**30,080**

Please see section 10 in the consolidated financial statements for a list of companies in the Carlsberg Group.

ACCOUNTING ESTIMATES AND JUDGEMENTS

Indications of impairment of investments in subsidiaries are assessed annually by management. Impairment tests are performed by applying the same principles as the tests for impairment of goodwill in the Group, cf. section 2.2 in the consolidated financial statements.

It is management's assessment that no indications of impairment existed at year-end 2023. Impairment tests have therefore not been carried out for subsidiaries.

ACCOUNTING POLICIES

Dividends on investments in subsidiaries are recognised in the income statement of the Parent Company in the financial year in which the dividend is declared.

Investments in subsidiaries are measured at the lower of cost and recoverable amount.

Share-based payments granted to employees of the Company's subsidiaries and the recharge of expenses to the subsidiaries in connection with the employees' exercise of share-based awards are recognised as contributions to and reductions of the investment in the subsidiaries respectively.

SECTION 1.2

RELATED PARTIES

The Carlsberg Foundation, H.C. Andersens Boulevard 35, 1553 Copenhagen V, Denmark, exercises control over Carlsberg A/S. The Foundation holds 29.4% of the shares and 76.7% of the voting power in Carlsberg A/S, excluding treasury shares.

The following transactions took place between the Carlsberg Foundation and the Carlsberg Group in 2023:

- The Carlsberg Foundation received a dividend from Carlsberg A/S and participated pro rata in the Carlsberg A/S share buy-back.
- Carlsberg A/S received statutory funding and grants for research and development.
- The Carlsberg Foundation contributed to Home of Carlsberg A/S to support the rebuilding of the Carlsberg Visitor Centre.
- Home of Carlsberg A/S, a 100%-owned subsidiary of the Carlsberg Group, hosted and administered events at the Carlsberg Academy, which is owned by the Carlsberg Foundation.
- Carlsberg A/S leased parking spaces from the Carlsberg Foundation.
- Carlsberg Breweries A/S leased storage facilities in the researcher apartments in Carlsberg Byen.
- The Group delivered beer and soft drinks to the Carlsberg Foundation.

These transactions are described in further detail in sections 4.4 and 8.3 of the consolidated financial statements.

It is estimated that the benefit for the Carlsberg Group corresponds to the value of the services provided to the Carlsberg Foundation, which in turn corresponds to what each party would have had to pay to have the same deliverables provided by external parties.

OTHER RELATED PARTIES

Related parties also comprise Carlsberg A/S' Supervisory Board and Executive Board, their close family members and companies in which these persons have significant influence. During the year, there were no transactions between these parties and the Group, except for remuneration as disclosed in section 3.

202409270323

SECTION 2

CAPITAL STRUCTURE

SECTION 1.2 (CONTINUED)

RELATED PARTIES

No losses on loans to or receivables from subsidiaries and associates were recognised or provided for in either 2023 or 2022.

Transactions with subsidiaries

DKK million	2023	2022
Other operating activities, net	40	273
Interest income	18	4
Interest expenses	-36	-11
Dividends received	3,695	3,582

SECTION 2.3

SHARE CAPITAL

SHARE CAPITAL

At the Annual General Meeting on 13 March 2023, it was decided to reduce the share capital of Carlsberg A/S by a nominal amount of DKK 90,000,000 to a nominal amount of DKK 2,747,136,120 by cancelling 4,500,000 of the B shares held by the Company, each with a nominal value of DKK 20. The cancellation was completed on 11 April 2023. These shares had been repurchased as part of the Company's share buy-back programme.

At the Annual General Meeting on 11 March 2024, the Supervisory Board will recommend that 3,100,000 treasury shares not used for the hedging of the incentive programme be cancelled.

DIVIDENDS

The proposed dividend of DKK 27.00 per share (2022: DKK 27.00 per share), amounting to DKK 3,709m (2022: DKK 3,830m), has been included in retained earnings at 31 December 2023.

Dividends to be paid out in 2024 for 2023, net of dividends on treasury shares held at 31 December 2023, will amount to DKK 3,621m (paid out in 2023 for 2022: DKK 3,708m). Dividends paid out in 2023 for 2022, net of dividends on treasury shares, amounted to DKK 3,695m (paid out in 2022 for 2021: DKK 3,389m). Dividends paid out to shareholders in Carlsberg A/S do not impact taxable income in Carlsberg A/S.

SHARE BUY-BACK AND TREASURY SHARES

On 7 February 2023, the Company announced its intention to continue the share buy-back programme executed as quarterly programmes. In 2023, a total of 3,338,514 B shares worth DKK 3.2bn were repurchased. The 2023 programme ended with the fourth quarterly programme, which was finalised on 26 January 2024. Under this programme the Company has repurchased a total of 3,160,923 B shares at a total purchase price of DKK 3.0bn over a 12-month period.

According to the authorisation of the Annual General Meeting, the Supervisory Board may, in the period until 13 March 2027, allow the Company to acquire treasury shares up to a total holding of 10% of the nominal share capital at a price quoted on Nasdaq Copenhagen at the time of acquisition with a deviation of up to 10%. The permitted holding of treasury shares covers those acquired in share buy-back programmes. The Company holds no class A shares.

Transactions with shareholders in Carlsberg A/S

	2023	2022
Dividends to shareholders	-3,695	-3,389
Acquisition of treasury shares	-3,200	-4,400
Total	**-6,895**	**-7,789**

In the 2023 financial year, the Company acquired class B treasury shares of a nominal amount of DKK 67m (2022: DKK 95m) at an average price per share of DKK 959 (2022: DKK 926). Class B treasury shares are acquired and disposed of as part of the share buy-back programme and to facilitate settlement of the share-based incentive programmes.

At 31 December 2023, the fair value of treasury shares amounted to DKK 2,746m (2022: DKK 4,169m). The holdings of treasury shares are specified in section 4.4 in the consolidated financial statements.

Share capital

	Class A shares		Class B shares		Total share capital	
	Shares of DKK 20	Nominal value, DKK '000	Shares of DKK 20	Nominal value, DKK '000	Shares of DKK 20	Nominal value, DKK '000
1 January 2022	33,699,252	673,985	111,557,554	2,231,151	145,256,806	2,905,136
Cancellation of treasury shares	-	-	-3,400,000	-68,000	-3,400,000	-68,000
31 December 2022	**33,699,252**	**673,985**	**108,157,554**	**2,163,151**	**141,856,806**	**2,837,136**
Cancellation of treasury shares	-	-	-4,500,000	-90,000	-4,500,000	-90,000
31 December 2023	**33,699,252**	**673,985**	**103,657,554**	**2,073,151**	**137,356,806**	**2,747,136**

A shares carry 20 votes per DKK 20 share. **B shares** carry two votes per DKK 20 share. A preferential right to an 8% non-cumulative dividend is attached to B shares. Apart from votes and dividends, all shares rank equally.

20240927032355

SECTION 3

STAFF COSTS AND REMUNERATION

SECTION 3.1

STAFF COSTS AND REMUNERATION

The remuneration of the Supervisory Board, the executive directors and key management personnel is described in detail in the Remuneration Report.

In 2023, the Supervisory Board received total remuneration of DKK 10.31m (2022: DKK 10.36m), comprising fixed salary only.

SHARE-BASED INCENTIVE PROGRAMMES
The executive directors in the Parent Company are the same as for the Carlsberg Group. Please refer to section 7.3 in the consolidated financial statements for share-based incentive programmes for the executive directors.

PERFORMANCE SHARES
Besides the executive directors, one employee in the Parent Company participates in the Group's performance share programmes as described in section 7.3 in the consolidated financial statements. Refunds etc. between Carlsberg A/S and its subsidiaries are recognised directly in equity.

Staff costs and remuneration

DKK million	2023	2022
Salaries and other remuneration	116	106
Retirement benefit costs - defined contribution plans	6	6
Share-based payments	52	29
Total	**174**	**141**
Staff costs are included in the following items in the income statement		
Administrative expenses	2	3
Other operating activities, net	62	64
Total staff costs recognised by the Parent Company	**64**	**67**
Staff costs recognised by other Group companies	110	74
Total	**174**	**141**

The Company had an average of 88 (2022: 89) full-time employees during the year.

ACCOUNTING POLICIES

Staff costs are recognised in the financial year in which the employee renders the related service. The fair value of share-based incentives, which is expensed over the vesting period of the programme according to the service conditions, is recognised in staff costs and offset directly against equity.

The fair value of share-based incentives granted to employees in subsidiaries is recognised as investments in subsidiaries and offset directly against equity.

The difference between the purchase price and the selling price for the exercise of share-based incentives is settled between Carlsberg A/S and the individual subsidiary and offset directly against investments in subsidiaries.

The difference between the fair value of the Parent Company's equity instruments and the exercise price of outstanding share-based incentives is recognised as a receivable and offset directly against investments in subsidiaries.

Share-based incentives granted to the Parent Company's own employees are recognised and measured in accordance with the accounting policies used by the Group.

SECTION 3.2

RETIREMENT BENEFIT OBLIGATIONS

Retirement benefit obligations and similar obligations comprise payments to retired directors that are not covered by an insurance company. The plan is unfunded.

Total obligations amounted to DKK 30m (2022: DKK 32m) and include actuarial losses of DKK 2m (2022: DKK 8m) and benefits paid in the year of DKK 4m (2022: DKK 3m).

Of the expected payment obligation, DKK 4m is due within one year, DKK 16m between one and five years and DKK 10m after more than five years from the reporting date.

The underlying actuarial assumptions are based on local economic and labour market conditions. The discount rate was 0.5% (2022: 0.5%). The rate of increase in future retirement benefit obligations in 2022 and in 2023 was 0%.

Retirement benefit obligations had no impact on the income statement in either 2022 or 2023. DKK -2m (2022: DKK -8m) was recognised in other comprehensive income.

202409270323 6

SECTION 4

OTHER DISCLOSURE REQUIREMENTS

SECTION 4.1

OTHER OPERATING ACTIVITIES, NET

Other operating activities are secondary to the principal activities of the Group and include income and expenses relating to rental properties and research activities.

Other operating activities, net

DKK million	2023	2022
Gain on disposal of intangible asset	-	225
Real estate, net	-1	-1
Research activities, including the Carlsberg Research Laboratory, net	-26	-27
Other, net	-2	-2
Total	**-29**	**195**

In 2022, gain on disposal of intangible asset comprises an internal sale of a licence to a subsidiary in the Carlsberg Group.

Research expenses are partially financed through funding received from the Carlsberg Foundation for the operation of the Carlsberg Research Laboratory and other grants.

ACCOUNTING POLICIES

The funding and grants are recognised in the income statement in the same period as the activities to which they relate.

SECTION 4.2

CASH FLOW

Change in working capital of DKK 181m (2022: DKK 119m) consists of trade payables and other liabilities of DKK 65m (2022: DKK 127m) and retirement benefit obligations and provisions of DKK 110m (2022: DKK -8m).

Cash flow from operational investments of DKK -72m (2022: DKK 336m) comprises acquisition of buildings.

SECTION 4.3

PROVISIONS

Provisions primarily comprise warranty provisions regarding real estate disposed of and provisions for ongoing disputes.

At 31 December 2023, total provisions amounted to DKK 33m (2022: DKK 46m). Provisions amounting to DKK 33m (2022: DKK 6m) were utilised in 2023.

Of total provisions, DKK 23m (2022: DKK 25m) falls due within one year and DKK 10m (2022: DKK 21m) between one and five years from the end of the reporting period.

SECTION 4.4

ASSET BASE AND LEASES

Property, plant and equipment totalled DKK 222m (2022: DKK 166m) and comprised land and buildings of DKK 190m (2022: DKK 122m) and plant and machinery of DKK 32m (2022: DKK 44m).

Depreciation and amortisation of DKK 16m (2022: DKK 17m) was included in administrative expenses.

All lease contracts in Carlsberg A/S at 31 December 2023 related to short-term leases and leases of low-value assets. The lease expenses recognised in the income statement amounted to DKK 1m (2022: DKK 1m). Such contracts comprise the lease of copy and printing machines, coffee machines, parking spaces, small IT devices and similar equipment.

SECTION 4.5

FEES TO AUDITORS

Fees to auditors appointed by the Annual General Meeting

DKK million	2023	2022
Statutory audit	0.6	0.3
Assurance engagements	0.1	0.1
Tax advisory	-	-
Other services	-	0.4
Total	**0.7**	**0.8**

202409270323 7

SECTION 4.6

TAX

Deferred tax assets amounted to DKK 43m (2022: DKK 18m) and comprised provisions and retirement benefit obligations of DKK 14m (2022: DKK 17m), and receivables of DKK 29m (2022: land and buildings DKK 1m).

The utilisation of tax loss carried forward depends on future positive taxable income exceeding the realised deferred tax liabilities. Unrecognised, non-expiring tax losses amounted to DKK 139m (2022: DKK 493m).

Deferred tax liabilities amounted to DKK 6m (2022: DKK 7m) and comprised tax on property, plant and equipment.

Deferred tax, net, amounted to an asset of DKK 37m (2022: asset of DKK 11m). Of the deferred tax assets, DKK 0m (2022: DKK 0m) is expected to be used within one year.

The net change in deferred taxes of DKK 26m primarily comprised a prior-year adjustment of DKK 24m (2022: DKK 26m).

The total tax for the year recognised in the income statement comprised an income of DKK 123m (2022: income of DKK 109m), significantly affected by prior-year adjustments.

The administration company, Carlsberg A/S, has unlimited and joint legal responsibility with the other Danish companies under the joint taxation scheme for withholding taxes on dividends, interest and royalties.

Reconciliation of tax for the year

DKK million	2023	2022
Calculated tax on profit	791	817
Adjustments to tax for prior years	-100	-140
Non-deductible expenses	-	6
Tax-free dividend and tax-exempt items	-814	-792
Tax for the year	**-123**	**-109**

ACCOUNTING ESTIMATES AND JUDGEMENTS

Carlsberg A/S recognises deferred tax assets, including the tax base of tax loss carryforwards, if management assesses that these tax assets can be offset against positive taxable income in the foreseeable future. This judgement is made annually and based on budgets and business plans for the coming years.

ACCOUNTING POLICIES

Carlsberg A/S is the administration company and subject to the Danish rules on mandatory joint taxation of the Carlsberg Group's Danish companies. Carlsberg A/S accordingly pays all income taxes to the tax authorities under the joint taxation scheme.

Danish subsidiaries are included in the joint taxation from the date when they are included in the consolidated financial statements and up to the date when they are excluded from the consolidation. The jointly taxed Danish companies are taxed under the on-account tax scheme.

On payment of joint taxation contributions, the current Danish income tax is allocated between the Danish jointly taxed companies in proportion to their taxable income. Companies with tax losses receive joint taxation contributions from other companies that have used the tax losses to reduce their own taxable profit (full absorption). The Parent Company has applied the exception to recognise and disclose information about deferred tax in the OECD/EU Pillar Two Model Rules and their local implementation.

20240927032338

SECTION 4.7

CONTINGENT LIABILITIES AND OTHER COMMITMENTS

Carlsberg A/S has issued guarantees to subsidiaries in Sweden for pension obligations of DKK 389m (2022: DKK 357m) and guarantees for pension obligations in the UK, cf. section 7.4 in the consolidated financial statements.

Carlsberg A/S is jointly registered for Danish VAT and excise duties with Carlsberg Breweries, Carlsberg Danmark, Carlsberg Supply Company Danmark and various other Danish subsidiaries, and is jointly and severally liable for payment of VAT and excise duties.

Carlsberg A/S is party to certain lawsuits, disputes etc. of various scopes. In management's opinion, apart from items recognised in the statement of financial position or disclosed in the financial statements, the outcome of these lawsuits, disputes etc. will not have a material negative effect on the Company's financial position.

SECTION 4.8

EVENTS AFTER THE REPORTING PERIOD

Apart from the events recognised or disclosed in the financial statements, no events have occurred after the reporting date of importance to the financial statements.

SECTION 5

GENERAL ACCOUNTING POLICIES

The financial statements of Carlsberg A/S for 2023 have been prepared in accordance with IFRS Accounting Standards as adopted by the EU and further requirements in the Danish Financial Statements Act.

The financial statements are presented in Danish kroner (DKK), which is the presentation currency.

The accounting policies for the Parent Company are the same as for the Group, cf. section 9 in the consolidated financial statements and the individual sections.

SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

In preparing Carlsberg A/S' financial statements, management makes various accounting estimates and judgements that form the basis of presentation, recognition and measurement of the Company's assets and liabilities.

The estimates and judgements made are based on historical experience and other factors that management assesses to be reliable, but that by their very nature are associated with uncertainty and unpredictability. These estimates and judgements may therefore prove incomplete or incorrect, and unexpected events or circumstances may arise.

The significant accounting estimates and judgements made and accounting policies specific to the Parent Company are presented in the explanatory notes.

202409270323 9

MANAGEMENT STATEMENT

The Supervisory Board and the Executive Board have today discussed and approved the Annual Report of the Carlsberg Group and the Parent Company for 2023.

The Annual Report has been prepared in accordance with IFRS Accounting Standards as adopted by the EU, further requirements in the Danish Financial Statements Act and Article 8 of Regulation (EU) 2020/852 (EU Taxonomy Regulation).

In our opinion, the consolidated financial statements and the Parent Company's financial statements give a true and fair view of the Carlsberg Group's and the Parent Company's assets, liabilities and financial position at 31 December 2023 and of the results of the Carlsberg Group's and the Parent Company's operations and cash flows for the financial year 2023.

Further, in our opinion the Management review includes a fair review of the development in the Carlsberg Group's and the Parent Company's operations and financial matters, of the result for the year, and of the Carlsberg Group's and the Parent Company's financial position, as well as describing the significant risks and uncertainties affecting the Carlsberg Group and the Parent Company.

In our opinion, the Annual Report of the Carlsberg Group and the Parent Company for the financial year 1 January to 31 December 2023, identified as Carlsberg-2023-12-31-en.zip, has been prepared, in all material respects, in compliance with the ESEF Regulation.

We recommend that the Annual General Meeting approve the Annual Report.

REPORTS

INDEPENDENT AUDITOR'S REPORTS

TO THE SHAREHOLDERS OF CARLSBERG A/S

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OUR OPINION

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements (pp 59 - 127 and 129 - 143) give a true and fair view of the Group's and the Parent Company's financial position at 31 December 2023 and of the results of the Group's and the Parent Company's operations and cash flows for the financial year 1 January to 31 December 2023 in accordance with IFRS Accounting Standards as adopted by the EU and further requirements in the Danish Financial Statements Act.

Our opinion is consistent with our Auditor's Long-form Report to the Audit Committee and the Board of Directors.

What we have audited

The Consolidated Financial Statements and Parent Company Financial Statements of Carlsberg A/S for the financial year 1 January to 31 December 2023 comprise income statement and statement of comprehensive income, statement of financial position, statement of changes in equity, statement of cash flows and notes, including material accounting policy information for the Group as well as for the Parent Company. Collectively referred to as the "Financial Statements".

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the *Auditor's responsibilities for the audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

To the best of our knowledge and belief, prohibited non-audit services referred to in Article 5(1) of Regulation (EU) No 537/2014 were not provided.

Appointment

We were first appointed auditors of Carlsberg A/S on 30 March 2017 for the financial year 2017. We have been reappointed annually by shareholder resolution for a total period of uninterrupted engagement of seven years including the financial year 2023.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Statements for 2023. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

202409270324I

Key audit matter	How our audit addressed the key audit matter
Revenue recognition	
Recognition of revenue is complex due to the variety of different revenue streams, ranging from sales of goods, royalty income and sales of by-products recognised when all significant risks and rewards have been transferred to the customer or in terms of the licence agreement. Furthermore, the various discounts and locally imposed duties and fees in regard to revenue recognition are complex and hold an inherent risk to the revenue recognition process. We focused on this area, as there is a risk of non-compliance with accounting standards due to complexity originating from different customer behaviours, structures, market conditions and terms in the various countries. Revenue recognition and accounting treatment are described in section 1.1 "Segmentation of operations – Accounting estimates and judgements" in the Consolidated Financial Statements.	Our audit procedures included considering the appropriateness of the revenue recognition accounting policies and assessing compliance with the accounting standards. We performed risk assessment procedures to obtain an understanding of IT systems, business processes and relevant controls related to revenue recognition. For the controls we assessed if these had been designed and implemented in a way that effectively addresses the risk of material misstatement. We tested that selected controls considered relevant to our audit, including that Management's monitoring of controls, used to ensure the completeness, accuracy and timing of revenue recognised, were performed consistently throughout the year. We discussed the judgements related to the recognition, and classification of revenue with Management. Further, we performed substantive procedures regarding invoicing, significant contracts, significant transaction streams (including discounts), locally imposed duties and cut-off at year-end in order to assess the accounting treatment and principles applied. We applied data analysis in our testing of revenue transactions in order to identify transactions outside the ordinary transaction flow, including journal entry testing.

Key audit matter	How our audit addressed the key audit matter
Recoverability of the carrying amount of goodwill and brands	
The principal risks are in relation to Management's assessment of the future timing and amount of cash flows that are used to project the recoverability of the carrying amount of goodwill and brands. There are specific risks related to macroeconomic conditions and volatile earnings caused by volume decline, intense competition and changed regulations in key markets – conditions that could also result in Management deciding to change brand strategy to drive business performance. Bearing in mind the generally long-lived nature of the assets, the significant assumptions are Management's view of prices, volumes, discount rates, growth rates, royalty rates, expected useful life, costs, and future free cash flows as well as the judgement in defining cash-generating units (CGUs). We focused on this, as there is a high level of subjectivity exercised by Management in estimating future cash flows and the models used are complex. The key assumptions and accounting treatment are described in section 2.2 "Impairment" in the Consolidated Financial Statements.	Our audit procedures included performing risk assessment procedures to obtain an understanding of IT systems, business processes and relevant controls related to the assessment of the carrying amount of goodwill and brands. In addressing the risks, we walked through and tested that controls relevant to our audit were performed consistently throughout the year. We considered the appropriateness of Management's defined groups of CGUs within the business. We evaluated whether there were factors requiring Management to change their definition. We examined the methodology used by Management to assess the carrying amount of goodwill and brands assigned to groups of CGUs, and the process for identifying groups of CGUs that require impairment testing to determine compliance with IFRS Accounting Standards. We performed detailed testing for the assets where an impairment test was required or indications of impairment were identified. For those assets, we analysed the reasonableness of significant assumptions in relation to the ongoing operation of the assets. We corroborated estimates of future cash flows and challenged whether they are reasonable and supported by the most recently approved Management budgets, including expected future performance of the groups of CGUs, and challenged whether these are appropriate in light of future macroeconomic expectations in the markets. We evaluated the assumptions used by Management, including assessment of price and volume forecasts, discount rates and long-term growth rates, and tested the mathematical accuracy of the relevant models prepared by Management. We made use of our internal valuation specialists in the audit. Further, we assessed the appropriateness of disclosures, including sensitivity analyses prepared for the significant assumptions.

20240927032242

Key audit matter	How our audit addressed the key audit matter
Discontinued operations	
On 16 July 2023 the Russian Government published the Russian Federation's Presidential Decree no. 520 of 16 July 2023 ("decree"), whereby temporary management of Carlsberg's business in Russia was transferred to the Federal Agency for State Property Management. The principal risks relate to Management's assessment of loss of control of the Russian business, the presentation as discontinued operations, valuation and classification of the title to shares, the completeness and accuracy of the reclassification of currency translation and hedging reserves as well as other impacts of the deconsolidation. The accounting treatment of the deconsolidation and the impacts on the Consolidated Financial Statements are based on a combination of management judgements, including various legal implications, as well as objective requirements, as mandated by IFRS Accounting Standards. We focused on this as the accounting treatment is complex and non-standard by nature, and involves significant judgement to be made by Management. The accounting treatment is described in section 5.1 "Discontinued operations" in the Consolidated Financial Statements.	Our audit procedures included performing risk assessment procedures to obtain an understanding of the possible accounting impacts following the decree. We performed a comprehensive assessment of the likely impact of the transfer of management of the business in Russia, including the appropriateness of the criteria for deconsolidation of the Russian business and presentation as discontinued operations. We involved internal accounting and reporting specialists. We made extensive inquiries of Group Management, Group Legal as well as Group Accounting to ensure the completeness of the potential impact of the loss of control. We considered the appropriateness of the judgements made by Management, including, but not limited to, the classification and valuation of the title to the shares, reclassification of currency and translation and hedging reserves and ownership of assets with legal title held in Russia. We based our assessments of recognition, measurement, classification, presentation and disclosure of income, expenses, assets, liabilities and equity on the criteria set out by IFRS Accounting Standards. We performed extensive substantive testing of conclusions made by Management, including the relevant inputs, judgements and calculations, and corroborated these with the conclusions made by our internal accounting and reporting specialists. Further, we assessed the appropriateness of presentation and disclosures, including descriptions of significant judgements made by Management.

STATEMENT ON MANAGEMENT'S REVIEW
Management is responsible for Management's Review, pages 3-57.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Moreover, we considered whether Management's Review includes the disclosures required by the Danish Financial Statements Act and Article 8 of Regulation (EU) 2020/852 (EU Taxonomy Regulation).

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act and the disclosure requirements of Article 8 of Regulation (EU) 2020/852 (EU Taxonomy Regulation). We did not identify any material misstatement in Management's Review.

MANAGEMENT'S RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS
Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with IFRS Accounting Standards as adopted by the EU and further requirements in the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS
Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

- Conclude on the appropriateness of Management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group or the Parent Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

20240927032244

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.

REPORT ON COMPLIANCE WITH THE ESEF REGULATION

As part of our audit of the Financial Statements we performed procedures to express an opinion on whether the annual report of Carlsberg A/S for the financial year 1 January to 31 December 2023 with the filename Carlsberg-2023-12-31-en.zip is prepared, in all material respects, in compliance with the Commission Delegated Regulation (EU) 2019/815 on the European Single Electronic Format (ESEF Regulation) which includes requirements related to the preparation of the annual report in XHTML format and iXBRL tagging of the Consolidated Financial Statements including notes.

Management is responsible for preparing an annual report that complies with the ESEF Regulation. This responsibility includes:

- The preparing of the annual report in XHTML format;
- The selection and application of appropriate iXBRL tags, including extensions to the ESEF taxonomy and the anchoring thereof to elements in the taxonomy, for all financial information required to be tagged using judgement where necessary;
- Ensuring consistency between iXBRL tagged data and the Consolidated Financial Statements presented in human-readable format; and
- For such internal control as Management determines necessary to enable the preparation of an annual report that is compliant with the ESEF Regulation.

Our responsibility is to obtain reasonable assurance on whether the annual report is prepared, in all material respects, in compliance with the ESEF Regulation based on the evidence we have obtained, and to issue a report that includes our opinion. The nature, timing and extent of procedures selected depend on the auditor's judgement, including the assessment of the risks of material departures from the requirements set out in the ESEF Regulation, whether due to fraud or error. The procedures include:

- Testing whether the annual report is prepared in XHTML format;
- Obtaining an understanding of the company's iXBRL tagging process and of internal control over the tagging process;
- Evaluating the completeness of the iXBRL tagging of the Consolidated Financial Statements including notes;
- Evaluating the appropriateness of the company's use of iXBRL elements selected from the ESEF taxonomy and the creation of extension elements where no suitable element in the ESEF taxonomy has been identified;
- Evaluating the use of anchoring of extension elements to elements in the ESEF taxonomy; and
- Reconciling the iXBRL tagged data with the audited Consolidated Financial Statements.

In our opinion, the annual report of Carlsberg A/S for the financial year 1 January to 31 December 2023 with the file name Carlsberg-2023-12-31-en.zip is prepared, in all material respects, in compliance with the ESEF Regulation.
