Not 1 Redovisnings- och värderingsprinciper / Accounting and Valuation principles

Allmänna upplysningar / General Information

Årsredovisningen är upprättad i enlighet med årsredovisningslagen och BFNAR 2012:1 Årsredovisning och koncernredovisning (K3).

/ The annual report is prepared in accordance with the Swedish Annual Accounts Act and BFNAR 2012:1 Annual Reporting and consolidated reports (K3).

Fordringar och skulder i utländsk valuta har värderats till balansdagens kurs. Kursvinster och kursförluster på rörelsefordringar och rörelseskulder redovisas i rörelseresultatet medan kursvinster och kursförluster på finansiella fordringar och skulder redovisas som finansiella poster.

/ Receivables and liabilities in foreign currencies have been valued at the closing rate of exchange. Profit on exchange and exchange loss on operating receivables and liabilities are reported in the operating result, while exchange rate gains and losses on financial receivables and liabilities are reported as financial items.

Redovisningsprinciperna är oförändrade jämfört med föregående år.

/ The accounting principles remain unchanged as compared to the previous year.

Finansiella instrument / Financial instruments

Finansiella tillgångar och skulder redovisas i enlighet med kapitel 11 (Finansiella instrument värderade utifrån anskaffningsvärde) i BFNAR 2012:1.

Finansiella instrument värderas utifrån anskaffningsvärdet. Instrumentet redovisas i balansräkningen när bolaget blir part i instrumentets avtalsmässiga villkor. Finansiella tillgångar tas bort från balansräkningen när rätten att erhålla kassaflöden från instrumentet har löpt ut eller överförs och bolaget har överfört i stort sett alla risker och förmåner som är förknippade med äganderätten. Finansiella skulder tas bort från balansräkningen när förpliktelserna har reglerats eller på annat sätt upphört.

/ Financial instruments are valued on the basis of the acquisition value. The instrument is presented in the balance sheet when the company becomes a party to the contractual conditions. Financial assets are derecognised when the rights to receive cash flows from the instrument has expired or been transferred and the company has transferred substantially all the risks and rewards associated with ownership. Financial liabilities are derecognised when the obligations have been settled or otherwise terminated.

Andelar i dotterföretag / Shares in subsidiaries

Andelar i dotterföretag redovisas till anskaffningsvärde efter avdrag för eventuella nedskrivningar. I anskaffningsvärdet ingår köpeskillingen som erlagts för aktierna samt förvärvskostnader. Eventuella kapitaltillskott läggs till anskaffningsvärdet när de uppkommer.

/ Investments in subsidiaries are carried at cost less any impairment losses. The cost includes the purchase price paid for the shares and acquisition costs. Any capital contributions are added to the cost when they arise.

2025053015681

Låneskulder och leverantörsskulder / Loan-liabilities and account payables

Låneskulder och leverantörsskulder redovisas initialt till anskaffningsvärde efter avdrag för transaktionskostnader. Skiljer sig det redovisade beloppet från det belopp som ska återbetalas vid förfallotidpunkten periodiseras mellanskillnaden som räntekostnad över lånets löptid med hjälp av instrumentets effektivränta. Härigenom överensstämmer vid förfallotidpunkten det redovisade beloppet och det belopp som ska återbetalas.

/ Loan liabilities and accounts payables are recognised initially at cost after deduction of transaction costs. If the carrying amount differs from the amount that will be repaid at maturity date interest expense is accrued, the difference that over the term of the loan using the effective interest rate of the instrument. This is consistent with the due date the carrying amount and the amount to be reimbursed.

Nedskrivningsprövning av finansiella anläggningstillgångar / Impairment of financial fixed assets

Vid varje balansdag bedöms om det finns indikationer på nedskrivningsbehov av någon av de finansiella anläggningstillgångarna. Nedskrivning sker om värdenedgången bedöms vara bestående och provas individuellt.

/ At each balance sheet date are considered if there are indications of impairment of financial fixed assets. Impairment loss takes place if the declines in value is considered to be persistent and are examined individually.

Sustainable investment objective

Did this financial product have a sustainable investment objective?

☒ Yes

☐ No

It made sustainable investments with an environmental objective: 100 %

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☒ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made sustainable investments with a social objective: 0%

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

The sustainable investment objectives of Pale Blue Dot Fund I (hereafter "the Fund") is to invest in companies that directly or indirectly reduce, reverse, or prepare for the effects of climate change or enable others to do so. As of the end of 2024, the sustainable objective of this financial product was met to [100%].

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Although the product does not make taxonomy-aligned sustainable investments, the following environmental objectives aligned with the objectives defined in Regulation (EU) 2020/852 are considered as part of the Fund’s reduce/reverse/prepare strategy:

- Climate change mitigation
- Climate change adaptation
- Sustainable use and protection of water and marine resources
- Transition to a circular economy
- Pollution prevention and control
- Protection and restoration of biodiversity and ecosystems
- Direct or indirect reduction, reversal, or preparation for the effects of climate change
- Enablement of direct or indirect reduction, reversal, or preparation for the effects of climate change

 How did the sustainability indicators perform?

The sustainability indicator(s) used to measure the achievement of the sustainable investment objectives of the fund are:

- Reduce: These companies are creating new business models that reduce emissions and technologies that do better with fewer materials, waste, animal products, or energy. For example, green transport, energy efficiency software, and transitioning the food system to a more sustainable future.
- Reverse: These are technologies and approaches that remove greenhouse gases from the atmosphere and reverse our warming trajectory. Examples include nature-based solutions like seaweed and reforestation and novel industrial technologies that will transform CO2 into materials we already use.
- Prepare: Because of the damage that has already been done to our planet, the world is set to face enormous challenges. The reality is that we all need to prepare for a new future with technologies that will help us deal with mass climate migration and natural weather disasters, as well as ensure food and water security. Examples include climate risk data and forest fire prevention.

Regarding the performance of sustainability factors, our evaluation follows:

2025053015686

In 2024, some portfolio companies were reclassified as a result of improved data to more accurately reflect their current core business model and activities.

The Fund does not employ derivatives as part of its strategy to achieve the sustainable investment objective.

...and compared to previous periods?

The performance of sustainability indicators relative to the previous reporting period follows:

2025053015687

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments not cause significant harm to any sustainable investment objective?

The primary binding element of the Fund’s investment strategy is based on the portfolio’s potential to reverse, reduce or prepare for the effects of climate change. During the initial research and due diligence phase, the companies were assessed for their impacts on the environment and society, considering the scale of both positive and adverse impacts. That binding element is carried out to ensure that the scale of the adverse impacts of each investment is insignificant compared to the scale of the positive impacts. As a next step, principal adverse impact indicators (part of Regulation (EU) 2019/2088) were taken into account as described in the following section.

How were the indicators for adverse impacts on sustainability factors taken into account?

As for adverse impacts on sustainability factors, all indicators in Table 1 of Annex were taken into account in order to avoid significant harm. Additionally, the below-listed indicators from Table 2 and Table 3 were also taken into consideration:

- Investments in companies without carbon emission reduction initiatives.
- Incidents of discrimination.

Additionally, the Fund conducted a thorough due diligence on each investment to identify their potential negative impact on the environment and the society as well as collected additional diversity data.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund employed a thorough due diligence process to identify any breaches of minimum norms detailed in the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The due diligence process also included assessing whether the target company has established human rights due diligence procedures proportionate to its size and leverage and human rights risks.

Post-investment, any potential breaches were monitored continuously (through quarterly reporting, monthly updates, and board memberships). Still, as the data might not have been available for all companies, all investments cannot be guaranteed to be aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered the indicators listed in Table 1 (and selected indicators in Tables 2 and 3) of Annex I of the Regulatory Technical Standards (Delegated Regulation (EU) 2022/1288) to identify and assess potential adverse impacts (please see attachment A for details);

- By applying certain investment restrictions in sectors with a high occurrence of adverse impacts on sustainability factors like controversial weapons and investment in fossil fuel and gas production;
- By identifying potential and actual principal adverse impacts through sustainability due diligence in the investment process. The initial assessment includes a materiality assessment based on sector-specific and geographical-specific frameworks and sources and the investment's sustainability performance and
- By identifying principal adverse impacts managed through the active ownership of the Fund.

2025053015689

What were the top investments of this financial product?

The overview below is based on all investments held as of 31 December 2024, and investments exited from 1 January 2024 – 31 December 2024

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is 2024

Largest investments	Sector	% Assets	Country
Monta	Computer Programming Activities	6.63%	Denmark
Overstory	Computer Programming Activities	6.52%	Netherlands
Paebbl	Manufacture of other non-metallic mineral products	5.01%	Sweden
Climate X	Computer Programming Activities	4.97%	UK
Hived	Other postal and courier activities	4.84%	UK
Green-Got	Other monetary intermediation	4.84%	France

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The proportion of the investments of the financial product that attained the sustainable investment objective during the period covered by this periodic report – 100%.

In which economic sectors were the investments made?

The investments were made in the following sectors:

Computer programming activities	54.99%
Manufacture of other non-metallic mineral products	5.01%
Other postal and courier activities	4.84%
Other monetary intermediation	4.84%
Data processing, hosting and related activities	4.62%
Urban and suburban passenger land transport	3.73%
Manufacture of leather and related products	3.73%
Support activities for crop production	3.06%
Manufacture of air and spacecraft and related machinery	2.83%
Manufacture of other food products n.e.c.	2.78%
Manufacture of other electrical equipment	2.58%
Manufacture of chemicals and chemical products	2.23%
Renting and leasing of other personal and household goods	2.17%
Trusts, funds and similar financial entities	1.93%
Manufacture of prepared meals and dishes	0.67%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable, this financial product does not pursue sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

2025033015690

taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

Not applicable, during the reference period, the Fund did not invest in transitional and enabling economic activities.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

Not applicable, this financial product does not pursue sustainable investments with an environmental objective aligned with the EU Taxonomy.

2025033015692

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Not applicable, this financial product does not pursue sustainable investments with an environmental objective aligned with the EU Taxonomy. Since the Fund invested in start-up and pre-seed companies (including companies that are not EU Taxonomy eligible), it was not beforehand possible to assess what share, if any, of the investment that would be aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable, this financial product does not invest in sustainable investments with a social objective.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Not applicable, as for the 2024 reporting period, 100% of asset allocation was directed towards sustainable investments with an environmental objective not aligned with the EU Taxonomy, and therefore no assets were allocated towards the "not sustainable" category

What actions have been taken to attain the sustainable investment objective during the reference period?

To meet the sustainable investment objective of the Fund, the following actions were undertaken:

- Strict adherence to the Fund’s investment strategy incl. investment restrictions list and investment policy.
- Individual assessment of each potential portfolio company for their potential climate impact (both negative and positive).

Revisionsberättelse

Till bolagsstämman i Pale Blue Dot I Equity AB, org.nr 559244-1348

Rapport om årsredovisningen

Uttalanden

Vi har utfört en revision av årsredovisningen för Pale Blue Dot I Equity AB för år 2024 med undantag för hållbarhetsinformationen på sidorna 10-29.

Enligt vår uppfattning har årsredovisningen upprättats i enlighet med årsredovisningslagen och ger en i alla väsentliga avseenden rättvisande bild av Pale Blue Dot I Equity ABs finansiella ställning per den 31 december 2024 och av dess finansiella resultat för året enligt årsredovisningslagen. Förvaltningsberättelsen är förenlig med årsredovisningens övriga delar.

Vi tillstyrker därför att bolagsstämman fastställer resultaträkningen och balansräkningen för Pale Blue Dot I Equity AB.

Grund för uttalanden

Vi har utfört revisionen enligt International Standards on Auditing (ISA) och god revisionssed i Sverige. Vårt ansvar enligt dessa standarder beskrivs närmare i avsnittet Revisorns ansvar. Vi är oberoende i förhållande till Pale Blue Dot I Equity AB enligt god revisorssed i Sverige och har i övrigt fullgjort vårt yrkesetiska ansvar enligt dessa krav.

Vi anser att de revisionsbevis vi har inhämtat är tillräckliga och ändamålsenliga som grund för våra uttalanden.

Annan information än årsredovisningen

Detta dokument innehåller även annan information än årsredovisningen. Den andra informationen består av hållbarhetsinformationen och återfinns på sidorna 10-29 ("Hållbarhetsinformation"). Det är styrelsen som har ansvaret för denna andra information.

Vårt uttalande avseende årsredovisningen omfattar inte denna information och vi gör inget uttalande med bestyrkande avseende denna andra information.

I samband med vår revision av årsredovisningen är det vårt ansvar att läsa den information som identifieras ovan och överväga om informationen i väsentlig utsträckning är oförenlig med årsredovisningen. Vid denna genomgång beaktar vi även den kunskap vi i övrigt inhämtat under revisionen samt bedömer om informationen i övrigt verkar innehålla väsentliga felaktigheter.

Om vi, baserat på det arbete som har utförts avseende denna information, drar slutsatsen att den andra informationen innehåller en väsentlig felaktighet, är vi skyldiga att rapportera detta. Vi har inget att rapportera i det avseendet.

Styrelsens ansvar

Det är styrelsen som har ansvaret för att årsredovisningen upprättas och att den ger en rättvisande bild enligt årsredovisningslagen. Styrelsen ansvarar även för den interna kontroll som de bedömer är nödvändig för att upprätta en årsredovisning som inte innehåller några väsentliga felaktigheter, vare sig dessa beror på oegentligheter eller misstag.

Vid upprättandet av årsredovisningen ansvarar styrelsen för bedömningen av bolagets förmåga att fortsätta verksamheten. De upplyser, när så är tillämpligt, om förhållanden som kan påverka förmågan att fortsätta verksamheten och att använda antagandet om fortsatt drift. Antagandet om fortsatt drift tillämpas dock inte om styrelsen avser att likvidera bolaget, upphöra med verksamheten eller inte har något realistiskt alternativ till att göra något av detta.

Revisorns ansvar

Våra mål är att uppnå en rimlig grad av säkerhet om huruvida årsredovisningen som helhet inte innehåller några väsentliga felaktigheter, vare sig dessa beror på oegentligheter eller misstag, och att lämna en revisionsberättelse som innehåller våra uttalanden. Rimlig säkerhet är en hög grad av säkerhet, men är ingen garanti för att en revision som utförs enligt ISA och god revisionssed i Sverige alltid kommer att upptäcka en väsentlig felaktighet om en sådan finns. Felaktigheter kan uppstå på grund av oegentligheter eller misstag och anses vara väsentliga om de enskilt eller tillsammans rimligen kan förväntas påverka de ekonomiska beslut som användare fattar med grund i årsredovisningen.

En ytterligare beskrivning av vårt ansvar för revisionen av årsredovisningen finns på Revisorsinspektionens webbplats: www.revisorsinspektionen.se/revisornsansvar. Denna beskrivning är en del av revisionsberättelsen.

Rapport om andra krav enligt lagar och andra författningar

Uttalanden

Utöver vår revision av årsredovisningen har vi även utfört en revision av styrelsens förvaltning för Pale Blue Dot I Equity AB för år 2024 samt av förslaget till dispositioner beträffande bolagets vinst eller förlust.

Vi tillstyrker att bolagsstämman disponerar vinsten enligt förslaget i förvaltningsberättelsen och beviljar styrelsens ledamöter ansvarsfrihet för räkenskapsåret.

Grund för uttalanden

Vi har utfört revisionen enligt god revisionssed i Sverige. Vårt ansvar enligt denna beskrivs närmare i avsnittet Revisorns ansvar. Vi är oberoende i förhållande till Pale Blue Dot I Equity AB enligt god revisorssed i Sverige och har i övrigt fullgjort vårt yrkesetiska ansvar enligt dessa krav.

Vi anser att de revisionsbevis vi har inhämtat är tillräckliga och ändamålsenliga som grund för våra uttalanden.

Styrelsens ansvar

Det är styrelsen som har ansvaret för förslaget till dispositioner beträffande bolagets vinst eller förlust. Vid förslag till utdelning innefattar detta bland annat en bedömning av om utdelningen är försvarlig med hänsyn till de krav som bolagets verksamhetsart, omfattning och risker ställer på storleken av bolagets egna kapital, konsolideringsbehov, likviditet och ställning i övrigt.

Styrelsen ansvarar för bolagets organisation och förvaltningen av bolagets angelägenheter. Detta innefattar bland annat att fortlöpande bedöma bolagets ekonomiska situation, och att tillse att bolagets organisation är utformad så att bokföringen, medelsförvaltningen och bolagets ekonomiska angelägenheter i övrigt kontrolleras på ett betryggande sätt.

Revisorns ansvar

Vårt mål beträffande revisionen av förvaltningen, och därmed vårt uttalande om ansvarsfrihet, är att inhämta revisionsbevis för att med en rimlig grad av säkerhet kunna bedöma om någon styrelseledamot i något väsentligt avseende:

- företagit någon åtgärd eller gjort sig skyldig till någon försummelse som kan föranleda ersättningsskyldighet mot bolaget, eller
- på något annat sätt handlat i strid med aktiebolagslagen, årsredovisningslagen eller bolagsordningen.

Vårt mål beträffande revisionen av förslaget till dispositioner av bolagets vinst eller förlust, och därmed vårt uttalande om detta, är att med rimlig grad av säkerhet bedöma om förslaget är förenligt med aktiebolagslagen.

Rimlig säkerhet är en hög grad av säkerhet, men ingen garanti för att en revision som utförs enligt god revisionssed i Sverige alltid kommer att upptäcka åtgärder eller försummelser som kan föranleda ersättningsskyldighet mot bolaget, eller att ett förslag till dispositioner av bolagets vinst eller förlust inte är förenligt med aktiebolagslagen.

En ytterligare beskrivning av vårt ansvar för revisionen av förvaltningen finns på Revisorsinspektionens webbplats: www.revisorsinspektionen.se/revisornsansvar. Denna beskrivning är en del av revisionsberättelsen.

Revisorns yttrande avseende den lagstadgade hållbarhetsinformationen

Det är styrelsen som har ansvaret för hållbarhetsinformationen på sidorna 10-29 och för att den är upprättad i enlighet med lagen om alternativa investeringsfonder.

Vår granskning av hållbarhetsinformationen för bolaget har skett enligt FARs uttalande RevR 12 Revisorns yttrande om den lagstadgade hållbarhetsrapporten. Detta innebär att vår granskning av hållbarhetsinformationen har en annan inriktning och en väsentligt mindre omfattning jämfört med den inriktning och omfattning som en revision enligt International Standards on Auditing och god revisionssed i Sverige har. Vi anser att denna granskning ger oss grund för vårt uttalande.

Hållbarhetsinformationen har lämnats i årsredovisningen.
